Gentlemen
Your letter of the 21st to
the NY Office received and noted.

Superior Cedar Logs & Slats

We are in the market for only
Red Cedar Logs & Slats.

As I have never seen any N.C.
Red Cedar would like to see a sample
of your cedar. Will you kindly send me
a small strip of your cedar by mail
so that I can see the quality. All
of the N.C. cedar I have seen
is what you call juniper
I hardly think you are prepared to
cut juniper slats as it requires
machinery for that purpose.

When I have received samples of your
cedar will you give me any information
I can. Awaiting your reply I am
Yours very truly
F. M. McBryde
