

must who will not
Bene too not-decided
to come yet - I hope she will
and when you come
please bring the picture
of Pitt and her baby
as I promised it.
I had, and thought
I would & was. I had
Mary Batten at the home
and when I returned
I should have told what-
ever came back, do I
have Pitt in the home
of course I can't see how
long she will stay.
Eleonora went to Goshue
to day. Dick and I
went on our out-landing
to day. I heard the guns
in camp. The carrier
then did - went out - I
with me were here to
go out with them.
I hope you can
right - or I can enjoy
the beauty of Pitt's
With best love -
A. M. M. M. M. M.

I am truly sorry that - my disagreeables
should have occurred on your last visit.
Allow me to try and explain to you
You know we had a home full of company
and on Sunday three came up from
Greenwell after saying they could not come
so Eleonora invited others. When they drove
up it was pouring down rain and our
dinner just about ready. I then had to
order another chicken, up set the table
and make it as long as I could as
to fit over a year. John, Bene and I
waited at several meals, Eleonora eating
the head of the table. You ordered
the horse and went to Dr Pitts. I had

no idea you had not been to dinner
when you returned. John said he
said to you that ^{night} you and he might
have to wait at supper and you
said to him if I have to wait I will
go to Garbo. he told Bence what you
said and she put in another seat
knowing all would understand the
crowding. I was busy and knew
nothing about your ordering the
horse. John said if you had to wait
you would go to Garbo. and when
Bence went to the office she said
don't let brother Elias go off in this
rain, we have fixed a seat for him.
John says he thought if you could
get a seat you would not want the
buggy and countermanded the order.
I really knew nothing about the buggy
and when Herbert heard you had

ELIAS CARR & CO

you. he said to me. And Elie I had
so much rather have waited and
taken my supper with you Bence
and John, and Elia could have
fixed my seat so much better.
Bence had fixed for you at the
foot of the table, and Herbert
asked to you. as you were not here
Herbert had to take it, since there was
a vacant seat. I am sorry you did
not look at it differently, and had
come right around and helped us;
You are such good help at such a
time and you, Bence, and I could
have had a good time in the party
eating and fixing at the same time
really I had been at the eye for a
month trying to get strings to eat, late

in the season in vegetables, in chickens
scarcely, when I think of it. I hardly
know how I did make out. So you must
come and spend some with us. You did
not say but I hope Mrs Cappee is her
self again. Thanks for your kind invitation
to ^{stay} ~~stay~~ ^{over} and make you a visit but
I can't get from home ^{so readily} unless I am
obliged to. You are young so you
must come to see me. I went to see
my old school mate Anna Williams
that was, now Mrs Dr Pierce. progressive
people in Weldon. her son told me
they would like to have an ice factory
in Weldon and the foundation for
one was already laid there. We are
giving up the last cotton, and
getting up the last corn. I think
Sam Batts will leave this next
year as he wants to rent land and
of course wants some of the best.
We can't tell yet who will stay and
