

Prospect Hill

Jan'y 15, 1894

Governor Can

Dear Sir

I take pleasure
in sending you two Gardenia
Cones. I fear tho' that they
will make poor waeking
sticks but in waeking through
the bushes it was the best
my son could do.

I regret, and am much
disappointed that I could
not meet you tonight, as the
weacher looked so much like
rain or fog I was afraid
the risk of crossing the Bay
in a small boat. My wife
fixed up Boutonniere for me to
take to you, as I could not go
will send it with the cones as
souvenir of "Prospect Hill"

I am sorry your visit is
such a short one, the next
one however I hope I will be
able to add something to
your pleasure

Very respectfully yours
B. H. Ward
