My dear Gov:

I see in the Post of to day an article on the subject of the old Log being closed to elect a successor to Gov Vance. If it can be done its ought to be done. By doing this the alliance between Republican & Pop would "cut out" sky high. I have not had time to look into the how on the subject, but sup pose you will see no difficulty there. It would be a bold new move, but unless we have both we are gone for 1/4 of century. The Pop would do this without hesitation. Our party has always looked back since the war, and looking this our success is but for a day. I am of those who feel anything that can be done, ought to be done at once. If we hesitate we are d - d.
