My dear Mr Carr

I arrived home last Evg and found true your
favor of 22^d which returned my check of 25, I regret it could not
have been used to advantage for the Purchase Rent - The Scrimp
here was caused myself by the Democratic (Tammany Party)
tackling to the low order, and the bad City appointments & the People
largely prefer not to have Hell for Gov^s - The Democratic fooling
in the Senate last Spring together with the Incubers of Silver
caused a desire for Change, but here no Democrat blames Cleveland
I have no time to go further into Political subject Except to add
I deplore the result in Carolina Especially your Judiciary,
when we next meet to converse we can do so freely, to see
Cotton in Tarboro & Crumville about 4 1/2¢ almost made me
ill, the great question in my mind is what can be planted
to net a profit, The People can live, but they ought to be
able to have an accumulation for old age - Aunt John
for her kind letter & Andy give my best wishes to all the
family - of course we feel the shrinkage here - In haste
