

243 or 24 Street New York City
March 20, 1896

His Excellency
Governor Elias Carr.

Dear Sir

Mr Culley is in
Atlanta Ga. I have been in Raleigh next week
I have written him by this mail. and sending
on his mail. The matters in Ga. are something
very important. Cabled from his Associate in
London.

Now let me say to you Confidentially
If you should arrange matters with him your
State will have cause to regret it or your and
your friends.

The Capital behind Mr Culley, is of this
nature. its English and Scotch Estate funds. handled by the
Solicitors. therefore he has to be very careful for one
mistake would ruin him under the English law.
The instruct him as to the kind of securities he

shall invest in for them. This money is let out at
3% per cent. This is outside of his Bank funds, I tell
you this Confidential. Trust you and Mr Bryan will
be able to plant several millions in your State. for
it will surely go somewhere in the South, it was
hard to get him to N.C. at any price. he went with
reluctance owing to two reasons. first - or few RR's
or transportation or industrial plants. last of all
he knew nothing of your advantages. until he had a
personal investigation. which he was both surprised
and pleased, when you get one investment in it will bring
more. please have in mind this has been the work of a
Year. and I have much pride in its being a success.

This will plant several thousand
families. and many industrial plants in the next
two years. how believe me. I will work the same to that
end. Trusting you and yours are well I remain
as ever

Yours most truly
Audame L. Marquez Beard
