FRANK R. MARKS,
Receiver.

New York, April 17 1896

Governor Elias Carr

Dear Sir

Have you any one who has a first class Irish property or Reolin mine in your state. if so where located. how far from R. C. Have parties who want such a property in your state as they seen specimens at Atlanta Exposition. which was the best. We want this information and some specimens. I write you for I know of no one else who in your position could give me better advice how to get this. It may result in turning some capital into this branch of industry. The same parties may examine the gold districts. as soon as I get this information they will make a trip. shall be glad to hear from you on this subject.

Mr Culley tells me he is much pleased with N.C. so much so he expects to plant a few dollars in R. C. Sands and will take the harbor improvement under consideration at once he thinks that the Neuse River is a beautiful stream and can be made one of the best harbors on the coast

by the Expenditure of some Capital. which
can be had on his Report. which he will prepare
as soon as he is fully rested... ^{can be}

Can you get ^{the} Jackson V.
R.R. if so share a party who can buy it when it
is sold. German Capitalists. They will they spend it
from Mt. Airy to a point in Tennessee. There is money
for your people in this move. please write me fully
your situation in these matter. so I may act according.
Wishing you every success and good health as this
leaves me and mine. awaiting your reply remains

Yours truly
Madame S. G. Kellogg, Secy
