

Beaufort N.C. July 23/96

Messrs Elias Carr & son,

Old Sparta, N.C.

Gentlemen:-

Your letter which
was forwarded to me, received
and noted. In regard to the
engine you wish to have repaired
I will say the price, depends on
the amount of work required to be
done on the cylinder, valve, & valve
seat, piston rod, valve rod, stuffing
box &c., all this is essential to
give you a first class job.
I could not tell unless I could
see the work what amount of work
it would take on your engine
To bore cylinder & new rings alone

R. L. Humbler

July 22 96

would be \$0.00 and what other
work needed ⁱⁿ would be done as low
as possible. I guarantee my work
to satisfy you, or make it good.
I am in Beaufort now. But
will be home in Greenville by the
first-day of Aug. I can then
do your work at once. It will
take 3 or 4 days to do it.

Hoping that I may hear
from you, and do your
work. I am, Yours Resp^t
R. L. Humbler,
