Sir:-

There seems to be both a misapprehension and misunderstanding, our former letter explains as fully as we can the size Terrapin we sent, and we believed we shipped according to your order, and also in accordance with prices quoted. You repeat our quotations as given in our letter correctly and quote your order as given. Had we known however, that you wanted 300 Terrapin the size shipped would have been smaller than those sent.

We have never sold the size sent you at less than 700 per doz before - and have sold 10 doz at that price since your order was received. We regret the error should have been made and if, as you think the mistake is ours we will have to abide the consequences and take
