

OFFICE OF

THE WELDON CORN MILL,

MANUFACTURER AND WHOLESALE DEALER IN

••• WATER - GROUND - CORN - MEAL. •••

Weldon, N. C., Aug 29th 1898

My Dear Govr-

Will drop you a line to-day by your daughter - Corn is off - Can quote meal to-day at 49¢ Tarboro. Am at work on what will - have contract for State crop which will pay $\frac{1}{2}$ cost of mill - Ransom will sow this year 1500 bus of wheat, will put in 400 bus on Marsh Island and conclude - Did this prospect w^d justify a 100 bbl mill - was sorry to hear that you had suffered so much with your land - hope it is well again prospects politically good our friends are bringing out strong opinion

The House seems to be certain, and
a desperate effort will be made
to carry the senate to impeach
Rufell - God grant it. With kind
regards to all - I am

Most sincerely

Las. W. Wilson
