

Southport March 19th 1895

My Dear Governor

I beg leave to congratulate you upon the termination of what must have been a very trying and disagreeable winter for you. — Our friends here are enthusiastic in praise of your actions, which have all tended to preserve the honor and dignity of the good old State. — That it may emerge triumphant from the toils, it is compulsory (for a brief season I hope) to bear, is my most earnest wish.

Mrs Curtis and the boys join me in the kindest wishes for your family — all of whom we hear often talked of during the months of the session.

Very Sincerely
Yours Truly
W. G. Curtis

His Excellency Gov Com
Execution Mason
