

Albert Anderson,
Physician and Surgeon,
Wilson, N. C.

July 2ⁿ 1895

Gov. Elias Carr
Raleigh N. C.

My dear Gov.,

By directions of
Dr N. H. Lewis I send by
express today a sterilized
bottle with instructions for
taking and shipping a sam-
ple of your cistern water
for making a bacteriological
examination. After making
an examination, if I think it
necessary, I will send for
another sample in the
course of three weeks for
reexamination. Yesterday
I received samples of

water from Dr James
M^r Kee. The samples were
well packed in ice and
reached here in good
condition. He sent them
by freight at 9 Am. and got
the Conductor to transfer
to express^{Co.} at Selma, so I
received them at 1:30 pm.
the same day. I would
suggest that you have
yours sent the same way.
Very sincerely Yours,
Albert Anderson.
