Gov. Carr.

Dear Sir:

I received your letter the other day saying that I did not answer your question about whether you should keep trying to get me a position in the R.R. shops but I thought I answered it very plainly.

Do you think that the R.R. will pay me better than the tobacco business I can't tell you which I like the best tobacco or R.R.

I heard that you were in town today and I tried to see you but I could not leave my business.

Mama told me that you wanted to see me and have a long talk with me. But about Mama signing the letter for money I have not asked her, I only asked you for the privilege of lending it to me and I would return
