THE EASTERN REFLECTOR.

VOL. X.

GREENVILLE, PITT COUNTY, N. C., WEDNESDAY, FEBRUARY 25, 1891.

NO. 6.

D. J. WHICHARD, Editor and Proprietor.

TRUTH IN PREFERENCE TO FICTION.

TERMS: \$1.00 Per Year, in Advance.

It is related of the late Dr.
Schlemm that whenever he wish-
ed to learn a new language (he
knew twenty) he engaged servants
and a coachman speaking only that
language.

A youth of Staten Island named
Albert Nichols a few days since was
successful in his seal-fishing efforts,
in New York Bay. He captured a
seal four feet, eight inches in length
and twenty eight inches in circum-
ference.

A bear which weighed 370 pounds
was killed by Solomon F. Perry, of
Romeoville, W. Va., who had fol-
lowed the animal back and forth
over Sassafras Mountain for 31
days. The bear killed 11 dogs, and
his hide showed 27 bullet wounds.

The American Federation of
Labor has officially announced that
owing to the tyrannical treatment
of the operatives by Clark Mill
owners at Newark, N. J., a boycott
has been placed upon the firm's
production. The numerical strength
of the Association is 600,000, so
that the present movement is one
of great importance.

Don't Stay Long.

Wilson Mirror.
"Don't stay too long, husband,"
said a young wife, tenderly, one eve-
ning, as her husband was preparing
to go out. The words themselves
were insignificant, but the look of
melting fondness with which they
were accompanied, spoke volumes.
It told all the vast depths of a wo-
man's love—of her grief, for the light
of his smile, the source of all her joy,
beamed not brightly upon her.

"Don't stay too long, husband,"—
and we fancied we saw the loving,
gentle wife, sitting alone anxiously
counting the moments of her hus-
band's absence and every few mo-
ments running to the door to see if
he was in sight, and, finding that
he was not, we thought we could
hear her exclaiming in disappointed
tones, "Not yet!"

"Don't stay too long, husband,"—
and we again thought we could see
the young wife, rocking nervously in
the great arm chair, and weeping as
though her heart would break, as her
thoughtless "lord and master" pro-
longed his stay to a wearisome length
of time.

"Don't stay too long, husband,"—and
the young wife's look seemed to say,
for here in your own sweet home is a
loving heart whose music is hushed
when you are absent, here is a soft
breast to lay your head upon, and
here are pure lips, unsodden by sin,
that will pay you kisses for coming
back soon.

On you, that have wives to say:
"Don't stay long," when you are
mingling in the busy scenes of life,
and try, just a little, to make their
homes and hearts happy, for they are
guilty too seldom replaced. You
cannot find amid the pleasures of
the world the quiet joy that a home,
blessed with such a woman's presence
will afford.

Husbands who you bring sun-
shine and joy into your homes?
Then spend your leisure hours with
families, and employ the time in
pleasant words and kind actions,
and you will realize in all its rich-
ness what is so beautifully described
by the poet:

"Domestic happiness, thou holy bliss,
Of Paradise that has survived."

Test Your Seed

Gerald McCarthy, Botanist.
Many hundreds of dollars will be
lost and much disappointment in-
curred this spring by sowing stale
and poor seeds in field and garden.
Much of this loss and annoyance
may be prevented by testing the
seeds before sowing them. The
North Carolina Experiment Station
has facilities for testing seeds, and
its services are, free of charge, at
the disposal of any farmer in the
State.

Farmers wishing seeds tested
must decide early what kinds of
seeds they intend to sow this
spring, then procure samples and
forward to the Station. Such sam-
ples should contain for grass and
similar field seeds about 2 oz.; for
tobacco and most garden seeds 1 oz.

A complete test of clover seed
requires about one week; most other
seeds require two weeks. The pos-
tage on seeds must be prepaid and
costs 5 cent per ounce. A letter of
advice should be sent, giving name
of sender, name of seed, and price
paid for the seed. The Station
advises, always, its friends that the
best quality of seeds is, as a rule,
the cheapest. Mark all packages
"seeds," and address packages and
letters to North Carolina Experi-
ment Station, Raleigh, N. C.

Liability of Employers—The Koch In-
stitute—A Lenten Lecture.
Regular Correspondence.
New York, Feb. 16th, 1891.

A bill is now before the Legisla-
ture in Albany whose object is to
wipe from the statute book any law
limiting the liability of employers
for injuries to a workman. Under
the present laws an employer is ex-
empt from damages if the death or
injury by accident is due to the neg-
ligence of another workman, or to a
defect in machinery or plant. This
is plainly a great injustice to the
vast body of workmen employed on
railroads, in factories, etc., and the
bill above referred to seeks to remedy
this injustice by making employers
liable for damages unless negligence
on the part of the injured workmen
can be clearly proven. In this we
are following the examples set by
England, where public sentiment
compelled the enactment of a similar
law some years ago. Here in New
York and vicinity, where railroad
employees are killed every day, the
effect of the proposed law will be
most beneficial. Even on the "L.P."
alone three or four workmen have
been killed during the past two
weeks, and not one cent of damages
can be recovered by the families of
the unfortunate men. The new law
will remedy this by placing rail-
road employees on the same footing
as passengers.

Grass is King.

Gerald McCarthy, Botanist.
The North Carolina Experiment
Station has now ready for distribu-
tion a hand-book of grass culture
containing 100 pages, illustrated by
74 figures, 26 of which are full page
engravings of grasses and clovers.
This work gives a full account of all
the best agricultural grasses and
clovers, and suitable cultivation for
this State. Tables are given show-
ing the average yield of different
species of grasses and the relative
feeding and manurial value of the
hay. Chapters are devoted to dis-
cussion of impurities and adultera-
tions of grass seeds, rational seed
mixing, mixtures versus pure sow-
ings, manures for grass lands, ir-
rigation, insect enemies and fungus
diseases of grasses. The last chapter
gives 24 different formulas for grass
mixtures suitable for different pur-
poses and for a variety of soil in the
State.

This book will be sent free to
every farmer in the State who ap-
plies for it. A limited number of
copies will be available for distribu-
tion outside of the State, but for
these the Station will make a charge
of 10 cents per copy to cover cost of
paper used.

Learning the Calves to Drink.

F. E. Emery, Agriculturist, N. C.
Experiment Station.
The successful calf feeder will
always use more tact than force in
learning a calf to drink. He will
never allow a foolish calf to be-
tray him into a passion or display
of brute force. Do not allow the
calf to suck the whole hand, or a
single finger, but placing the palm
of either hand over its nose gently
bring it to the milk held in a con-
venient sized pail in the other hand.
By separating the fingers, hold back
the sides of the tongue and insure
the entrance of milk as the calf
sucks. If the milk is warm there
will be less trouble, then give the
calf more, or less, of the two fingers
according to success in keeping it
interested in the milk. When the
calf is doing well the fingers will
scarcely be touching its tongue or
lips. If it acts badly give the fin-
gers to suck and contrive to let in
a dash of milk so a sup now and
then will encourage the calf to con-
tinue.

I have been obliged to dip my
hand repeatedly into the milk and
thus give a taste of it before the
calf would allow its nose to be
turned down into the pail. Some
calves will drink during the first
or third trial, while others will
need the fingers for a much longer
time.

Fertilizer Analyses.

Fertilizer analyses at the Experi-
ment Station will be somewhat late
this season. The delay is caused
by the necessity of a change by the
Legislature from a license tax on
each brand to a tonnage charge.
This law is now passed and no
further time will be lost. Four in-
spectors will rapidly take samples
of all fertilizers in the State, and
the samples will be analyzed at the
Station as fast as possible. The
fertilizer analyses will be printed
and sent at the earliest possible
moment to all names on the Station
bulletin list. In order to secure
the analyses with the least delay,
request should be made for the
analyses whether your name is on
the Station list or not. These special
names will be supplied at once, as
soon as the bulletin is issued. Make
requests to Dr. H. B. Battle, Raleigh, N. C.

It Works Wonders.

The tonic and alternative prop-
erties of S. S. S. are widely known,
and it enjoys wonderful popularity
as a spring medicine. It is per-
fectly adapted to the delicate sys-
tem of a little child as it is to that
of the adult. It works wonders on
those who use it as a tonic, as an
alternative, and as a blood purifier.
It gives health, strength and hearti-
ness to the sick and the feeble. It is
adapted to the very young and the
very old. It revives, renews, and
builds up the feeble or broken down
system.

Attention is called to the fact
that the Knight Botanical Co., of
252 Broadway, New York desires a
reliable agent in this locality. Their
advertisement appears in another
column.

The South's Great Industrial Activity.

As frequently predicted in the
Manufacturers' Record, the ap-
proach of spring develops a very
marked activity in the industrial
advancement of the South. New
enterprises covering a wide range
of industries are being organized in
every direction, and the indications
point to a season of unusual activi-
ty this spring and summer. Among
the enterprises reported to the Man-
ufacturers' Record, as organized
during the past week, were a \$1,500,
000 company at Middleborough to
assist in locating industries there;
a \$200,000 coal and coke company
at the same place; three coal and
coke companies in West Virginia,
each with a capital stock of \$500,-
000; a \$1,000,000 tin mining com-
pany in Virginia; a \$1,000,000 cotton
mill company in Mississippi; a
\$500,000 rolling mill at Polaski,
Va.; a \$420,000 water power com-
pany at Columbia, S. C.; a \$400,000
hardware factory to be moved from
New England to Roanoke, Va.; a
\$200,000 lumber company at Wheel-
ing; a \$100,000 brewery at Rich-
mond, Va., and a \$300,-
000 coal company at the same
place; \$30,000 ice factory at Atlan-
ta, Ga.; a \$50,000 ice factory at New
Orleans; \$50,000 ice factory, Cov-
ington, Ky.; \$125,000 cotton-seed oil
mill company at Paris, Texas; \$100,
000 fertilizer company, Shreveport,
La.; \$60,000 stone quarry company,
Baltimore, Md.; \$50,000 tile com-
pany, Maryland; \$35,000 electrical
company, Baltimore; \$60,000 ma-
chine company and \$100,000 stove
company, Covington, Ky.; \$100,000
cottoning company, New Orleans;
a \$2,000,000 town-building land and
improvement company, Giles county,
Va.; a \$300,000 land company, Roa-
oke; a \$500,000 land and hotel
company near Old Point, and many
others. This brief summary shows
the substantial character of the in-
dustrial enterprises now being un-
dertaken. They are mainly enter-
prises that will develop the coal and
timber and cotton and other resour-
ces of the South, and using these as
raw materials will help to create
wealth for the whole section. As a
record of only a part of what one
week shows the facts are full of
meaning and tell of the wonderful
activity that is making the South
the great industrial center of Amer-
ica.

Monopoly-Cursed.

New Orleans Democrat.
The United States to-day is the
worst monopoly-cursed nation on the
face of the earth. They have made
more millionsaires in twenty years
than all Europe and England have
made in 500 years. Everything in
the country is controlled by a syn-
dicate, pool, combination, trust, patent
or corner. If a boy, now grown to
manhood, desired to go into business
he must buy himself in. If he
wishes to enter commerce he must
buy a seat on the board of trade; if
he wishes to go into manufacturing,
he must buy himself into a combina-
tion which represents and has mo-
nopolized that business.

Bright-eyes, the charming little
Indian girl lecturer, is bitter in her
arraignment of the whites for their
injustice towards her race. In a lec-
ture at Omaha, on Sunday, she said:
"The whole Indian question has been
wrong. The Indians have been
cheated, starved and murdered. The
whole fault is with the agents. A
few men is appointed, and, not
having the welfare of the Indians at
heart, begins to rob and plunder as
soon as he reaches the agency and is
installed. The Government contracts
for food, clothing and other neces-
saries, and the contractors, instead
of the agent, fill the pockets of the
agent, but only a fraction ever
reaches the Indians. The rest is
stolen and sold to settlers and trad-
ers, and the proceeds go into his
own pocket. The Indians should be
under military control and kept near
agencies instead of being allowed to
range at will about reservations.
The Wounded Knee calamity was
brought on by the soldiers. The
Indians of Rosebud and Pine Ridge
agency were told by designing whites
that the soldiers had come to murder
them. Receiving this information they
fled to the Red Lands and there
determined to sell their lives at a
sacrifice. Had the troops remained
away and the agent at Pine Ridge
displayed judgment and courage not
a drop of blood would have been
shed."

The Late Crop of Irish Potatoes

W. F. Messey Horticulturist, N. C. Ex-
periment Station.
There is an increase in various parts
of the country in the matter of South-
ern grown Irish potatoes for seed.
These are the potatoes grown in
autumn from seed of the early crop.
Parties at the North speak highly
of these for planting them. The pros-
pect is that a new and valuable pro-
duct will soon be open to Southern
growers in supplying these late grown
unspoiled potatoes for planting
Northward. A leading Richmond
seedsmen offers Southern grown seed
this spring, and speaks of an increas-
ing demand for them. These potatoes
are raised here from the cullings of
the early crop, planted about the
middle of August. The early crop
to furnish seed for this late one should
come from the North, but the late
grown potatoes are best for planting
for the market crop.

ing good horse flesh than we do of
eating good cow flesh. It is rather

The Fortune of a Young Man.

Every young man has a fortune in
the face of his youth. The energy of
youth is unblinded by defeat or worn
by hope deferred. With age one be-
comes more conservative, and looks at
as impossible what a younger person
would endeavour to accomplish, in
many cases with success. The effort,
even if there be failure, is a grand
success. Self-confidence, or self-con-
ceit, if you wish to call it so, is a
great thing. A young man's fortune
is not to be found in inherited wealth
or social position. Gracious man-
ners of business habits are good
things to cultivate, but are not all.
Will power is the young man's for-
tune. It is the essence of the man.
A young man with only a little will
power is a foregone failure. It
should be cultivated. Genious is a gift
of God, and should not cause pride;
but an honest pursuit of duties is an
exhibition of will power, and is
something to be proud of. Well di-
rected will power is what a young
man needs.

raised in the county for market.

ing of the flames.

New Bern Journal: At 4 o'clock
Monday afternoon the mixed freight
and passenger train on the C. and L.
N. railroad jumped the track on the
Smyre trestle, two miles south of
Newton. Two men were killed in
the wreck and another died two
hours later from his injuries. Rev.
M. L. Little, of Dallas, is seriously
injured about the head and has been
unconscious since the accident.
Others are seriously injured. The
dead and wounded were removed to
Newton.

Wilmington Star: A very black
bear and a very dirty man, woman,
and three small children, were the
guests of the city yesterday at police
headquarters. The bear was the
most respectable looking member of
the party. The man said they were
on their way to Baltimore, and would
take in New Bern on their way.
Being considerably under the influ-
ence of liquor he was locked up
until he could "sober-off," and the
bear in the meantime was chained to
a cart in the City Hall yard.

Goldsboro Headlight: While Mr.
D. J. Joyner was cleaning off some
old posters from the rear wall of Mr.
T. E. Cline's store, on Saturday
afternoon, the ladder on which he
was standing slipped and fell, pre-
cipitating Mr. Joyner to the ground
a distance of about 15 feet. Besides
having two ribs broken he sustained
other internal injuries which may
result in his death. The family be-
ing in very destitute circumstances,
we hope that some of our open
hearted citizens will lend them a
helping hand.

Goldsboro Argus: We are pained
to chronicle that while playing on the
back porch of their home on William
street yesterday afternoon Maggie,
the bright little daughter of Mr. and
Mrs. J. D. Giddens, fell and broke
her leg just above the ankle. Prompt
medical aid was rendered

EASTERN REFLECTOR,
Greenville, N. C.
B. J. WICKARD, Editor and Proprietor.
ENTERED AT THE POST OFFICE AT
GREENVILLE, N. C., AS SECOND-CLASS
MAIL MATTER.
WEDNESDAY, FEBRUARY 25th, 1891

"Fighting Bob" Kennedy, of Ohio, should make a reply to Senator Quay's speech.

According to the New York Herald Mr. Blaine's reciprocity treaties will not reciprocate.

Will Mr. Harrison make speeches on the financial question when he visits the Pacific coast this spring?

Mr. Cleveland has written a letter against free and unlimited coinage of silver. No flies on that man's nose.

If Mr. Harrison can stand the coat of whitewash that has been given to commissioner of Pensions Baum, he can stand anything.

John L. Sullivan the great pugilist has quit the ring and gone to the stage. We guess there are many people to cross him during his performances.

These hide bound high protection republicans are just now shouting themselves hoarse over the little reciprocity treaty that Mr. Blaine has negotiated with Brazil, seem to forget that reciprocity and free trade and synonymous. But they are, all the same.

The death of Admiral Porter and General Sherman, the two last great commanders on the Union side, during the late Civil war, reminds us that death has been kinder to the great commanders on the Confederate side, of whom Johnson, Longstreet, Early, Gordon and Beauregard are still living.

Many years practice has given G. A. Suez & Co., Solicitors of Patents at Washington, D. C., unsurpassed success in obtaining patents in all classes of inventions. They make a specialty of rejected cases, and have secured allowance of many patents that had been previously rejected. Their advertisement in another column will be of interest to inventors, patentees, manufacturers, and who have to do with patents.

Mr. Ingalls has resigned the vice-presidency of the Senate. This is not the first time a man has done such a thing when he saw he would soon be out of it at any rate. Doubtless he thought it was better to give it up than to have it taken from him. If he had refused to be a candidate for reelection to the Senate he would have been spared the horrors of defeat. A good run is better than a bad stand.

Rev. Mr. Kyle, of South Dakota has been elected United States Senator in place of Mr. Moody. If the next Senate should have as many such men in it as the present has he will need a great deal of help if he undertakes to preach to and pray for all of them as much as they need. Senators Hoar and Chandler are enough to keep many busy. We hope Mr. Kyle will have enough religion to vote with the Democrats and thus prove his love for his country.

The republicans in Congress are evidently determined to make hay while the sun shines. The latest subsidy scheme is the adoption by the Senate of an amendment to the Diplomatic Appropriation bill granting a subsidy of \$3,000,000, in annual installments of \$250,000, to a company that proposes to lay a cable between San Francisco and the Sandwich Islands. All this business will be stopped when the Government is controlled by the Democrats.

Senator Quay has at last broken his long silence with a speech making a general denial of all the charges made against him. This will convince nobody of his innocence. Why, if he could have proven himself in a court of justice not guilty, did he not take advantage of the invitation extended him by the New York World and other leading newspapers to bring a suit for libel? Crooked people seldom admit their guilt, not even when convicted by the courts.

The men who achieve reputation are usually the ones that take care of themselves. Senator Gordon, the great democratic leader of the Senate, gets up every morning at 6 o'clock, sits one hour at his dinner, and never allows himself to be interrupted when at his meals. He never uses either tobacco or liquors in any shape, and makes it a rule to take a bath, which is taken daily always at the same hour. He takes a long walk in the open air. The physician could give you better health rules to follow than these.

Eggs will be cheap in spite of the McKinley Bill, which put a tariff on them. Mr. James Story of Parsons, Kansas, says he has gotten a patent for a machine with which he can manufacture a car load per day with machinery which cost only \$500. The artificial egg is said to resemble the natural one in every respect. If this is so, hens can have a good long rest, and still we will have eggs for breakfast.

What cowards be these Congress men. Voting by tellers the House of Representatives by a large majority voted for giving each member of that body a clerk at \$1,200 a year, but upon a roll call upon the same question it was overwhelmingly defeated. The reason is obvious. In the first place the vote was by acclamation and the members were not individually recorded, while in the latter it was by roll call, and each member's vote was permanently recorded in the Congressional Record.

Mrs. Grover Cleveland has undertaken, in connection with a number of patriotic ladies, a crusade in which she and they are entitled to the good wishes of every American who loves his country above all other countries, and he is a poor stick who doesn't. The object of these worthy women is to persuade our young men and women of the absurdity of aping foreign customs in talk, deportment and dress. The campaign was opened in New York city by a stirring lecture on the formative period of American history.

Governor Northern's action in not publicly receiving Jay Gould when he went to Atlanta seems to be commended by the press throughout the country. If Jay Gould is a great benefactor of the country we have failed to find it out. We see no reason why he should be given a broader reception than any other man. We need more men with the pluck and nerve of Governor Northern. There is too much man and money worship in our country. Man should stand on merit, not money.

In the February number of the North American Review Speaker Reed has an article on a deliberative body. When he calls the present House of Representatives a deliberative body he misses the mark very far. The people of this country thought so last November when they set down on him and his followers so mercilessly. In the next House if he practices what he preaches he will give his tongue considerable rest, for he will be well in the minority, and he thinks the minority have no rights whatever. Under the speakership of Mr. Carlisle the House was in truth a deliberative body, but when the members of any body are not allowed to speak their views on a subject of public interest, then that body cannot be called a deliberative body.

Rev. Thomas H. Law of Spartanburg, S. C., agent of the American Bible Society met the citizens of Greenville last Friday night at the Methodist church. The object of the Society is to put a bible in the hands of every body at the cost of manufacturing them and if any one is not able to buy one the Society will supply them gratuitously. He spoke eloquently of the importance of the work, and explained fully the working of the Society. At the conclusion of his remarks a committee of five, B. D. Evans, A. L. Blow, Dr. D. L. James, D. J. Whitchard and Wiley Brown were appointed to take the matter into consideration, and select a depository where the Bibles can be kept for sale. The committee met Saturday morning and perfected their arrangements. A constant supply of Bibles will now be kept on hand at the store of Brown Bros., where any one can purchase them at prime cost. This is no denominational matter, but all the denominations in the county are uniting in the effort to get the Bible in the hands of every one.

Woman's Influence.
The men who habitually seek the companionship of the Fair Sex and enjoy and inhale the refreshing and purifying atmosphere of their wholesome influence, are invariably the best and purest and noblest of men we have in society. A woman's sphere is that magnificent school room where life's grandest and holiest lessons are learned. There men learn to put off their rude and rough and harsh manners, and catch up those lines of grace and refinement which decorate human character. Their asperities are rubbed off, their expressions polished, and all their inherent qualities of goodness, like gold when brought from its hidden home in the earth, are wrought into the finest workmanship by the deft and exquisite and refining manipulations of woman's wondrous influence. Woman is indeed "God's last best gift to man," and her influence is as refreshing as the dew to the flowers. Her presence is like the brook threaded oases in the arid Sahara of a sordid existence, or a flower laden island at sleep in peace amid the roar and the rush of the stormiest billows.—*Wilson Mirror.*
The writer of the above struck the key note of truth. Every word of it we endorse. But it is

to be regretted that so little attention is paid to ladies in these latter days. While woman is God's last and best gift to man, men, with a few rare exceptions, fail to appreciate her. What a blessing it would be to our country if all our young men could be induced to seek the society of refined and cultured ladies instead of the grog shop, the card table and the billiard saloon. Instead of having a set of men who patronize and support the dens of corruption, we would have in their place a lot of church going men who would be ready and willing for every good work. For this lack of attention to and appreciation of ladies we would say that our young men are not responsible altogether. We believe they would be much more appreciated than they are if it were not for so much public gossip. If a young man calls on a lady once he is courting her if public gossip is to be believed. If he calls twice or three times, there will soon be a wedding on hand, and then the tidings are carried by the four winds of the earth. Most young men and women do not like so much gossip concerning themselves; for this reason, more than for anything else, we can imagine, there is that lack of appreciation for each other's company. It is a rare thing to find one who is bold enough to face public gossip and not care for what is said of him. Many a young man, who does not do so now, would pay proper attention to the ladies if it were not for the everlasting talk of others who are not concerned. They would do this without any thought of courtship and marriage on either side. But suppose a young man should pay his attentions to a lady with the intention of addressing and marrying her if accepted, whose business is it but their own? In our opinion many a suitable match has been prevented by the self imposed services of those who have nothing in the world to do with it.

We would here say that some ladies themselves are the cause of their receiving so little attention. There are many men who are not fit to associate with respectable ladies, and this the ladies know, but still allow them to call; and the sensible young man looks at it this way:—"If she allows such fellows as he is to associate with her, then I do not care to be with her." Ladies should be more careful as to whom they allow to call and with whom they go.

We regret that such is the state of affairs to a great extent and we hope to live to see the day when it will not be so.

—Oliver Perry Humber.

The subject of this sketch, whose death was announced in a recent issue of the REFLECTOR, was born in Goodland county, Va., October 13th, 1813. He served a coachmaker's apprenticeship and learned that trade with Mr. Micajah Mangum in the city of Richmond, and for a number of years was foreman of his employer's works.

On the 8th of December, 1836, he was married to Miss Martha E. Carter, of Prince Edwards county, Va. To this union three children were born, all of whom are now living; Mrs. S. W. Humber, at Carthage; Mrs. Charlotte L. Hutcheson, of New Haven, Conn., and Mr. W. H. Humber, of Jonesboro.

His wife died in April, 1847, and the same year Mr. Humber moved to this State to take charge of a carriage business for Mr. James Nelson, in Greenville. August 1st, 1848, he was again married to Miss Patience B. Moore, of Pitt county. To this union four children were born, three of whom died. The other, Mrs. Martha P. Nobles, now lives near Greenville.

In 1854 Mr. Humber removed to New Bern, but returned to Greenville about five years later and conducted a coach shop for Mr. W. W. Haddock. In September, 1860, his second wife died.
He was married again December 15th, 1861, to Miss Julia A. Easterling, of Lenoir county. He remained in Greenville until 1869 when he went to Tarboro to take charge as foreman of the Edgecombe Agricultural Works for A. J. Hines & Co. He lived in Tarboro until 1880, in which year he again returned to Greenville and spent the remainder of his life here. To the last union six children were born, two of whom died, one is married to Rev. J. G. Nelson of the N. C. Conference, and the other three are now living with the widow here.
While Mr. Humber was living in New Bern he joined the Disciples of Christ. After removing to Pitt he changed his membership to the Free Will Baptist Church and was a minister in that denomination. When he came back to Greenville from Tarboro he united with the M. E. Church and in 1883 was licensed by that denomination as a local preacher.
He was stricken with paralysis in December 1886, and was never able to walk again. His death was caused from a second touch of this disease.
Mr. Humber read a great deal and was a well-informed man. He knew more about Greenville and the people who lived here before the war than any other citizen of the town. He had many friends and in his years of affliction nothing seemed to give him more pleasure than to have them around him engaged in conversation. Peace to his ashes.

County Sunday School Convention.
The Executive Committee of Pitt county S. S. Convention will prepare a programme and call for a county convention to meet in Greenville on Friday the 29th of March at 10 o'clock A. M. The programme will be published in the REFLECTOR next week. P. S. S. S. Superintendents and S. S. workers will please see that their schools have representation, as least one from each school and as many more as can be induced to come. There will be a morning and afternoon session. Those attending will be the guest of the community while here.

DIED.
It is with heartfelt sorrow and deepest regrets that we chronicle the death of that most excellent woman, Mrs. Lily Latham, wife of our townsman, Hon. L. C. Latham, ex-Congressman of the First District. She passed away at the family residence in this place about 11 o'clock Monday evening, after having endured a few days of most intense suffering. Three weeks ago she was in her usual health going in and out among her hosts of friends and loved ones, and nothing could have been further from the mind of any one than that Death had selected her for his next victim. Since Friday it was thought that she could not recover, and each hour of the day many anxious inquiries were made about her until her soul passed to its eternal rest. Mrs. Latham was eldest daughter of Mrs. P. C. Monteiro, and was born in Richmond, Va. December 6th, 1858, and was also a niece of Mrs. Gov. Jarvis. When she was young the family moved to Greenville and here she was married to Maj. L. C. Latham April 18th, 1876. She leaves a husband, four children, mother, sister and hosts of relatives and friends whose hearts are deeply grieved at her sad death. Her remains will be laid to rest this afternoon. The afflicted ones have our earnest sympathy.

Washington Letter.
From Our Regular Correspondent.

Washington, D. C., Feb. 20th, '91.
The general deficiency bill is this year \$36,000,000. Is it strange that the surplus has disappeared?
It is commented upon rather unfavorably that Congress did not adjourn the day of Admiral Porter's funeral.
Mr. Harrison and all of his cabinet, except Secretary Proctor, went to New York to attend Gen. Sherman's funeral. They returned to Washington last night.

The international copyright bill has been passed by the Senate with several amendments, which makes it becoming a law at this session very doubtful.
The House committee on Coinage to-day reported the free coinage bill to the House, but the general belief seems to be that its friends will not succeed in getting it before the House, but they intend to try very hard to do so.

Quite a political sensation has followed the announcement of Senator Gorman, whose political astuteness cannot be gainsaid, that he was not and would not under any combination of circumstances be a candidate before the democratic national convention next year, and that he favored the nomination of ex-President Cleveland as the strongest and most available man, and proposed to do all in his power to get him nominated. It is yet too early to see what effect this announcement will have upon those democratic Senators and Representatives who have expressed the opinion that Mr. Cleveland's letter against the free coinage of silver has destroyed his availability as a candidate, and what adds to the interest of the situation is the fact that some of these gentlemen have been, since the publication of Mr. Cleveland's letter, strongly in favor of nominating Senator Gorman.

This 23rd day of February, 1891.

JOHN FLEMING,
Adm'r. of Mary Harris, dec'd.

Notice—Land Sale.
By virtue of a decree of the Clerk of the Superior Court of Pitt County issued on the 12th day of February, 1891, in a special proceeding wherein B. S. Sheppard as administrator of Mattie Williams, dec'd., is plaintiff against Reddon Gorman and wife, Bettie Gorman, Nellie Keel, James Lewis and Clifton Lewis, are defendants for the sale of the lands of his intestate to make assets. The undersigned B. S. Sheppard as administrator will offer at public sale, for cash, to the highest bidder before the Court House door in Greenville, on the 21st day of March 1891, a certain piece or parcel of land lying and being in the town of Greenville, between 1st and second streets lying on the east side of Reed street, adjoining the lands of Perry Cherry, W. M. B. Brown and party. The said piece or parcel of land, and the title to the same, is shown on a plat of the lands of P. J. Johnston, Mary M. NOT AT COST!

We do not advertise at cost nor below cost but we guarantee to give our customers for every dollar spent with us one hundred cents worth of honest wearing apparel, and our reputation in the past is a sufficient guarantee that we are able to keep our promise. We do not advertise a broken stock at "catch-em-up prices." But we do say that we have a full and complete stock of seasonal goods which we offer at lowest living prices. No matter what you want if the goods are seasonal we have them.

The following departments are complete in every particular:

NOT AT COST!

Men's Clothing, Boy's Clothing, Hats, Gent's Furnishing Goods, Neckwear, Underwear, Haberdashery, Boots and Shoes, Etc.

Dry Goods, Dress Goods, Domestic, Notions, Ladies and Misses Wraps, Ladies and Misses Shoes, Carpets, Oil Cloths.

Everything offered is a first-class article at the correct figures. In connection with the above we would say that our Mr. Alex Heilbroner is now in northern markets making selections for an early Spring Stock, and we have sufficient faith in his correctness of judgment to guarantee our attractive stock of Spring Goods ever shown in the town. Be sure you see his selections which will be placed on our counters shortly.

plants ready to be transplanted.
Price 20cts per 100, \$1.50 per
1000. Apply to ALLEN WARREN
& SON, Greenville, N. C.

The REFLECTOR wants to say tobacco
warehouse every week until something
is on foot toward getting one.

MONEY TO LOAN.—Persons desire
ing to borrow money on long times
and at a low rate of interest, will
learn something to their advantage
by applying to
HENRY HARDING,
Greenville, N. C.

Office Court House.

The Guard was out for a drill Friday
afternoon, the first time in several
weeks. Nineteen men were out.

A new line of Cook Stoves are
now for sale at Latham & Pender's,
"Ye Olden Times." They are very
heavy. No. 71 weighs 260 lbs,
price \$16.50. No. 81 weighs 300 lbs,
price \$20.00. They have just re-
ceived a new lot of their Elmo and
Liberty cooks.

Our Farmville correspondent calls at-
tention to two errors in his letter to the
REFLECTOR last week. For Miss Ione
May the printer put Miss Jane May, and
it should have been Miss Louisa Nichols
instead of Mrs.

A CARD.—I wish to inform my
friends and the public generally
that having withdrawn from the
firm of Higgins & Munford, I am now
connected with the firm of Higgins
Brook, next door to Rawls the Jew-
eler, where I shall be glad to see
all my old customers and everybody
else. Respectfully,
J. W. HIGGS.

The editor and Billie are both the re-
cipients of handsome scarfs from Mr. C.
T. Munford. He has a beautiful line of
gent's neckwear and it is a real treat to
look through his stock. While North
recently he made some splendid selections
of fancy goods and notions which are
now on exhibition. Read his advertise-
ment and visit his store.

Personal.

Mr. John D. Grimeley, of Snow
Hill, was in town Monday.

Miss Joyner, of Scotland Neck, is
visiting the Misses Higgins.

Mrs. Barden, of Plymouth, is visit-
ing her sister, Mrs. W. B. Wilson.

Miss Annie Armstrong, of Rocky
Mount, is visiting Mrs. W. H. Har-
rington.

Mrs. S. A. Charlotte has returned
to Greenville after an extended visit
in the country.

Mr. Pat Matthews, formerly located
here but now of Edenton, has been in
town several days.

Mrs. James Brown is spending this
week with friends in New Bern and
attending the fair.

Mr. R. S. Clark, of Wilson, a for-
mer merchant here, is in town. His
many friends are glad to see him.

Rev. J. N. H. Summerell will preach
at the Opera House next Sunday, and
Monday nights, March 1st at 7:30 o'clock.

Misses Bessie Jarvis and Ella King
is spending the week at New Bern
visiting friends and attending the fair.

Mrs. H. L. Fennell and two child-
ren, of Wilmington, are visiting the
family of Mayor F. G. James, brother
of Mrs. Fennell.

Mr. C. G. Joyner, of Baltimore,
has been in town part of the past
week. He called on the REFLECTOR
Monday morning.

On next Sunday at 11 A. M. Rev. G.
L. Finch will preach at Antioch church
this county and at 7:30 P. M. at the
Baptist church in Greenville.

Mr. W. B. Brown returned last
week from Northern markets where
he had been to buy spring and summer
goods for Brown & Hooker.

Ex-Gov. Jarvis and Miss Ella Mon-
terey returned from Raleigh on last
Thursday being summoned to the
bedside of Mrs. L. C. Latham.

Mr. Alex. Heilbroner returned home
Monday evening from a three week's
visit North on a purchasing tour.
Lang's store is showing the effects of
his trip.

Mr. John Randolph, who has been
spending some days with relatives
here, returns this week to Alabama,
where he is engaged in railroad en-
gineering.

Mr. James L. Little, returned from
the northern markets last week where
he has been purchasing a beautiful
line of dry goods, and has opened
ready for business.

Mr. J. H. Johnson, an attorney of
Bethel, has removed to this town and
will practice his profession here. He
will occupy one of the upper rooms
of the Skinner building.

Mr. C. H. Johnston, who for the
last few years has been living near
Tarboro, has returned to this com-
munity and is living on the Thomas
place, one mile below town.

Mr. J. M. Rouse, who has been
clerking for Mr. A. N. Ryan, left for
Washington yesterday, where he in-
tends going in the bakery business
with Capt. Mayo. Success we hope
may crown you, Rouse.

Mr. D. W. Winstead, who some
years ago was a hardware merchant
here, but for a year or two has been
living in Mexico, arrived in Green-
ville Monday evening to spend a few
days with friends here. We were
glad to have a call from him.

Rev. E. C. Glenn has moved his
family from this place to Toisnot, at
which place he is stationed for this
year. The Conference last fall placed
him at Bethel, but a later agreement
changed him to Toisnot. The many
friends of Mr. and Mrs. Glenn here
wish the a well.

Sergeant Smith lost his hat in the
storm, Saturday night, and had to buy
a new one. Next morning he found the
lost one.

We notice a new buggy about every
day going out of town. They are pur-
chased from our enterprising carriage
manufacturers.

The coldest weather of last winter
came in March, so it is too, soon to crow
yet that there will be no cold weather
this winter. It may come later.

There are improvements all along
main street in the way of new paint and
so forth. Let the improvements extend
down to the sidewalks in some places.

We learn that a fire occurred in Tar-
boro one day last week. It took place
over in Princeville, an annex to Tar-
boro. No damage was done, only a big
scare.

The new dress of paint about Culley
& Edmonds' barber shop makes their
emporium more attractive than hereto-
fore. The public is well served over
there.

The attention of the farmers is called
to the fertilizer advertisement of G. E.
Harris in this paper. He is offering
leading brands at prices that will make
the farmers rejoice.

No postal cards could be had in Green-
ville for two or three weeks past, and
Postmaster Perkins says he don't know
when there will be any. The Government
is so slow filling orders.

There is no telling what Greenville
real estate may do in the near future.
If you contemplate buying it may be
wise to do so now. Long & Whichard
have some nice lots for sale at a low
figure.

The caboose to the southbound freight
train got off the track just north of
Goose Nest, last Tuesday evening, and
caused the mail train to be delayed
seven hours. It was one o'clock when
the train got in.

As yet there seems to be no perma-
nent change in the weather. It does not
stay fair more than a day at the time.
The sudden change that took place last
Wednesday night was calculated to give
everybody a bad cold.

Mr. Allen Warren has recently pur-
chased the strip of land lying between
Riverside Nursery and the railroad and
has enclosed it in the nursery. Much
work and improvement is going on
about the premises.

In the REFLECTOR to-day will be
found an advertisement of J. L. Little
& Co., the new firm just opened here.
A splendid stock has been purchased by
them and they are ready to show you a
fine stock of new and stylish goods.
They can be found at the Little, House
& Bro. stand.

The new Hotel Nicholson, at Wash-
ington, one of which that town may
well be proud. It is a handsome brick
structure, three stories high, contains
thirty-eight rooms, all of which are
splendidly furnished, is lighted with gas
and supplied with electric bells. The
fare is all that could be asked for.

Just Wait.

Some of those who are generally be-
hind are inquiring what this bill in the
legislature granting a new charter to
Greenville, and providing for the issuing
of bonds for street and other improve-
ments mean. Just wait a bit and you
will find out what it means. It will not
be a bad idea to keep your eye on Green-
ville.

Attention.

In this issue of the REFLECTOR will be
found the advertisement of J. S. Ames,
dealer in pianos, organs and furniture,
Norfolk, Va. He carries one of the
largest and best stocks to be found in the
South and can save money to purchasers.
We have looked through his stock and
never saw one to surpass it. The furni-
ture dealers here could not do better
than to get catalogue and prices from
this house.

Runaway.

Quite an amusing runaway occur-
red last week. A pony was hitched
to a buggy on Evans street. All of a
sudden the pony made a break and
dashed down to Five Points, turned
and made for the depot (guess he
thought the train was on time and he
would miss it), jumping against a
tree just at the junk yard, smashing
one of the front wheels and turning
the buggy over, but this did not
stop him. He was stopped at the
foundry.

Honor Roll.

Honor roll of Miss Joyner's school
for the month ending Feb. 20:

Mary McGowan, Annie Randolph,
Hattie Smith, Elmer Barrett, Willie
Evans, Jimmie Gladson, Charlie
James, John Levy Smith.

Highest average, 98, made by El-
mer Barrett and Charlie James.

When Attendance, Department and
Scholarship make a general average
of 95, it places the pupil on the
Honor Roll. It is but fair to several
of the best pupils in the school to
state that they have been prevented
by sickness from attaining the nec-
essary average this month.

Teachers' Association.

The next meeting of the Teach-
ers' Association will be held in the
Court House in Greenville, Satur-
day, March, 7th at 10 o'clock, A. M.

Opening Exercises—Address by
ex-Gov. Thos. J. Jarvis; Recitation,
Miss Lina Sheppard; Difference of
Education in the East and the
West by Prof. W. J. Matthews;
Recitation, Miss Carrie Latham.
The Art of Questioning—How to
Prevent Profanity? How can the
Interest and Co-operation of Par-
ents be Secured?

Every Teacher is requested to be
prepared to say something on these
three last questions. Besides these
subjects, others may be presented
and discussed.

JOHN DUCKETT, Pres.

MISS MAGGIE SMITH, Sec.

The Storm.

Saturday night between nine and
ten o'clock a heavy storm passed
this section. The wind blew a regu-
lar cyclone and there was also con-
siderable rain and lightning. The
worst of the storm did not touch the
town. The stormy trees and fences
were blown down, a gable end of Mr.
W. H. Cox's lively stables was torn
off, and a part of one building at the
foundry was unroofed. North of
Tar river the storm was far more
severe than it was around town, from
which we infer that only the edge of
it touched Greenville. The main
tract of the storm was only about
two hundred yards wide and traveled
in a north-easterly direction. It got
in some of its worst work in the
vicinity of Mr. Edgar Buck's, three
miles from town. In describing it
to us Mr. Buck said: "It was the
strongest and most destructive wind
I remember ever seeing. It took
down about half of my yard and gar-
den fences and blew down an old
house in the corner of the yard. It
blew feller about the field like play
things before it and what barns and
shelters I had were strewn through
the field for a mile. My buggy and
four carts were smashed in pieces.
It blew down five heavy log stables.
It damaged me about two hundred
dollars. If the wind had come twenty-
five yards nearer to my dwelling
that also would have been wrecked."

The storm was met by Mr. W. H.
Harrington's doing damage there
also at Mr. Adolphus Dudley's, at
Col. Skinner's farm and on out as far
as we have been able to hear from.
At Mr. D. L. Whichard's, near Grin-
dle Creek, every building on the place
was badly damaged. He was just
getting his wife and child out of his
dwelling when that building was un-
roofed. All along the track of the
storm fences and trees were leveled
to the ground.

Within Three Years.

In the spring of 1888 the people of
Greenville gathered around the grave
of Mrs. Lottie Skinner to bid her
farewell forever so far as this world
can speak of her. Last fall we re-
ceived from Mrs. Nina Brown to rest. To-day
we will be called to the tomb of Mrs.
Livy Latham. These three women
were of the highest order of human
beings. Beautiful and bright them-
selves they made the daily life in
which they moved one of beauty and
brightness. Cultured and refined in
all their tastes everything in which
they came in contact was made to
feel their refining influence. It is
rare that any community is blessed
with three such women. They have
all been taken from us in the full
tide of lovely womanhood. Their
sweet homes in which they shed so
much light and joy have been made
dark and sorrowful. The community
has been deprived of its pre-
founded depths. Shall we let the
lesson go unheeded? It was only
Saturday that Mrs. Latham said, "I
knew that death came like a thief in
the night but I did not think it was
so near to me." These words may
soon come to some of us. It may be
that in the Providence of God these
three Christian women have died
that others may live eternally in the
heavens. Who can tell? The ways
of a Merciful Providence are past
finding out. It is ours to humbly
submit to His decrees and to learn
of His teachings. We should all be
drawn to the Cross upon which our
blessed Saviour died and to which
these saintly women so confidently
looked. It saved them and it will
save us if we will but trust in it as
they did and like them love and obey
its precepts.

THE FARMERS REJOICE!

And my reduced prices on

Standard Fertilizers

is what causes it.

It goes without saying that last year I handled
the very best brands of Fertilizers for

COTTON - AND - TOBACCO

that were sold in Pitt county. I have now just perfected arrange-
ments with the manufacturers whereby I can make a big saying
to the farmers on every ton purchased from me. I can now sell you

Ober's Special Tobacco Compound

\$4.00 per ton less than it cost you last year. The Ober's have had over thirty year's
experience in the manufacture of this Guano and say that no brand of equal merit
can be made for less money. It has been used in North Carolina for twenty-five
years and these farmers who have had long experience in its use can be prevailed
on to use no other. It bears thousands of the best testimonials. Its analysis shows
it to be exactly proportioned with the old fashioned Peruvian Guano.

Game Guano.

This Guano made a better showing under cotton last year than any other brand
sold in the county. To know what this Guano will do you only have to ask Messrs
B. F. Patrick, A. C. Nobles, J. L. W. Nobles, J. J. Tripp, or any other farmer who
has used it.

Pine Island Guano.

This brand has been used in Pitt county for years and never fails to give satis-
faction. It is a fine Tobacco Fertilizer, and is sold cheap enough to be used under
cotton.

PATAPSCO GUANO.

So much of this Guano has been sold here that every farmer knows what it will
do. I can say nothing to add to its popularity except that it is the same old Patap-
SCO brand.

Owl Brand Guano.

This is a cheap Guano, and has given such satisfaction in surrounding counties
that I have decided to handle it this year. I also have

Kainit, Phosphates and Lime.

It will be to your interest to give me a call before making any purchase. I am
always grateful for patronage.

The Story Entitled

TEN MINUTES TO TWELVE!

By M. G. McCLELLAND,
The Popular American Writer.

A Dashing Romance with a Plot Extraordinary!

We Shall Publish this Story

In these columns. The first installment will soon appear.

EVILS OF EXAGGERATION.

It is a serious fault that many people have in their conversation. One of the common vices in ordinary conversation, as well as in written speech, is the habit of making a recklessly exaggerated statement of facts or circumstances. Its long affiliation with coarse and cheap humor has given it a currency among us beyond its deserts. If any merit it really has. There is so much to be said against it—as a stale device of provincial buffoonery or as a coarse wag—while there is so little to be said in its favor, that it is little wonder that it has not been long ago banished utterly, at the least from all well bred intercourse.

First, to practice it without specific design or as a vehicle for humor, usually betrays a frivolous disposition, an irregular imagination or a slovenly inattention to important details. Next, it when taken to an earnest advocate or a real humorist whose reputation for good sense is unclouded, who seeks to produce an immediate effect, and is not supposed to be limited by an obligation to speak with an impartial accuracy. Nevertheless its habitual use tends in most cases to destroy the capability for judicial impartiality, where such a faculty exists—precisely as a contrary habit of conscientious accuracy of statement usually runs with fairness of judgment.

When Rufus Chute, who habitually served in hyperbole, was asked to accept a judicial office, he declined emphatically, saying truthfully, "It would destroy my powers of exaggeration."—Home Journal.

His Revenge.

A tired man with a berth ticket climbed wearily into a Pullman in the Washington depot at 10 p. m. The train was scheduled to start in half an hour.

"Make up my berth right away, porter," he said, "for I'm dead tired." Then he went in the forward car to smoke and chat with some friends a while. One hour later he returned. Every berth in the car but his own was made up.

"What's the matter?" he asked testily.

"Ain't had time, boss," and then the tired one hung around for another half hour. He woke up in Jersey City. His shoes were polished, and after he had washed he made the porter follow him around with a wisp broom for twenty minutes.

"Give me a lift with my bag," he said, and the porter shouldered it and carried it 100 yards to the entrance to the ferry.

"That'll do now," he said, as he took his bag. Then he dropped four cents into the black palm, and when the porter saw the pennies his eyes rolled as if he was going to have a fit.

It was a fine revenge.—New York Evening Sun.

Managing Mamma.

Smart Boy—Mamma, I want to go to see—

—Mamma (with a jump)—What? Smart Boy—I want to go to see—the minister this afternoon.

—Mamma (with a gasp of relief)—Very well, dear, I'll take you.

La Grippe Again.

During the epidemic of La Grippe last season Dr. King's New Discovery for Consumption, Coughs and Colds, proved to be the best remedy. Reports from the many who used it confirm this statement. They were not only quickly relieved, but the disease left no bad after-effects. We ask you to give this remedy a trial, and we guarantee that you will be satisfied with results. It has no equal in La Grippe, or any Throat, Chest or Lung Trouble. Trial bottles free at Jno. L. Wood's Drug Store. Large bottles, 50c and \$1.

The people at the World's Dispensary of Buffalo, N. Y., have a stock-taking time once a year and what do you think they do? Count the number of bottles that've been returned by the men and women who say that Dr. Pierce's Favorite Prescription didn't do what they said it would do.

And how many do you think they have to count. One in ten? Not one in five hundred!

Here are two remedies—one the "Golden Medical Discovery," for regulating and invigorating the liver and purifying the blood; the other, the hope of weakly womanhood; they've been sold for years, sold by the million bottles; sold under a positive guarantee, and not one in five hundred can say: "It was not the medicine for me!" And—there is any reason why you should be the one? And—supposing you are, what do you lose? Absolutely nothing!

The following advertisement appeared in The London Tit-Bits:

Wanted Eight Men Who Are Completely Bald.—They are to sit on Boxing night in the third row of the stalls at Drury Lane theatre, close together, and upon the head of each man will be painted one large letter, so that the whole row will show the word

TIT-BITS.

A dress suit will be provided for each man, and a guinea will be asked him for his trouble. It will be given when we want eight men when there are only seven left, but one will be required to impersonate the hyphen. Apply Durdleth street, Strand.

Every year a layer of the entire sea fourteen feet in thickness is taken up into the clouds. The winds bear this burden out over the land, where the water falls as rain and flows back, to be again taken up.

Happy Boilers.

Wm. Tiamous, Postmaster of Idaho, Ind., writes: "Electric Bitters has done more for me than all other medicines combined, for that feeling arising from Kidney and Liver trouble." John Leslie, farmer and stockman, of same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine. It made me feel like a new man." J. W. Gardner, hardware merchant, same town, says: "Electric Bitters is just the thing for a man who is run down and don't care whether he lives or dies; he found new strength, good appetite and is just like a new man." J. L. Wooten's Drug Store.

An early Greek writer on arithmetic says that "Agamemnon was so arithmetical of the names of numbers as not to know that he had two feet." This statement was, no doubt, too strong, but it is clear that the idea of number came slowly to the Greek mind as compared with the idea of form.

Amber comes from the shores of the Baltic sea. It is fossilized gum, and as it is only found in that one small locality, it is very expensive. It usually comes in 10 and 20 pound bags, although sometimes we get it in smaller ones.

In Justice Brown's bedroom in his Detroit home stands two fifteen pound dumbbells, which he has been accustomed to use every morning. A pair of scales near by are used daily to test the justice of any variation in his weight.

"Alas, Alas!" the duke exclaims, "in my sleep, I've got the blues." "Don't fret," said his wife, for whom he had sent, "I have seen Salvation Oil."

"My time is up," said the doctor to the patient, whom he found using Dr. Bull's Cough Syrup, and who was correct, for his cough had been cured.

How the Stag Changed His Antlers.

With the loss of the antlers the stag changes his disposition entirely and becomes as docile and tractable as a lamb. He shows an inclination to court public petting rather than avoid it. He remains in this condition of temper until the beginning of March, when he shows a disposition to lurk in sequestered spots of the glen and timidly avoid the presence of all, even of his kind.

During this period, on the spot where the late antlers grew, a pair of protuberances make their appearance, covered with a soft, dark, velvety skin. These attain a considerable growth in a few days. The carotid arteries of these protuberances enlarge with them in order to supply a sufficiency of nourishment.

When the new antlers have attained their full growth, which is in ten weeks after the old ones have been shed, the bony rings at the base through which the antlers pass begin to thicken, and gradually filling up, compress the blood vessels and ultimately obliterate them. The velvety skin that surrounds the bone, being thus deprived of nourishment, loses its vitality and is rubbed off in shreds by the stag on the edges of rocks or other hard substances.

As soon as the full size of the antlers is attained the docile disposition of the elk disappears, and he becomes once more for the year the fierce king of the glen.

The age of the elk, according to writers on natural history, is computed by the number of points on the antlers.—San Francisco Chronicle.

A Good Time A-Coming.

Men strive for earthly advancement. The poor boy, with scarce a shoe to keep the soles of his feet from contact with the rugged soil, looks forward to the day when he shall sit, enthroned as it were, in the senate of his country; he strives and he strives, and reaches the point; but one there, is he content? No. There is a craving for greater honors—for further advancement. The monarch is restless under the burden of his supreme authority. He sighs for something else—he knows not what. No individual is satisfied with the present; we all regard the future as that which contains increased enjoyment, as that which embodies perfect happiness.

It is so when we reach the bed of death. The vilest of the human race feel, when the time for dissolution arrives, that there is yet something to be done—something to indicate and exemplify progress. It is the spread of the doctrine of the immortality of the soul to which may be attributed the grand and buoying reliance upon the future—upon something brilliant yet to be achieved—that proves beyond a mortal doubt that this life is but the inception and the precursor of a longer and better one, in which there are no taxes, no bill collectors, no tight shoes, no hooded aldermen—nothing, in fact, except unalloyed happiness.—Texas Siftings.

Dr. Bull's Baby Syrup in great demand; everybody speaks well of it. The price is 25 cents.

ALL SKIN AND BLOOD DISEASES.

The Best Household Medicine.

Once or twice each year the system needs purging of the impurities which clog the blood. From childhood to old age, no remedy meets all cases with the same certainty of good results as

BOTANICAL BLOOD BALM.

W. C. McCauley, Blood City, Ark., writes: "I have done more good and saved more money than any other doctor I ever used. I owe the comfort of my life to it." P. A. Shepherd, Hattiesburg, Miss., August 1, 1892, writes: "I depend on Dr. J. C. Blood's Botanical Blood Balm for the cure of my skin and blood diseases. I have had it in my family nearly two years, and in all that time have not had a doctor."

No! What's This?

Why another new discovery by Alfred Culley in the way of helping the afflicted. By calling on or addressing the above named barber, you can procure a bottle of Pre-arrived that is invaluable for eradicating and ridding and causing the kninkles hair! It perfectly soft and glossy, only by a three application a week is necessary. It causes hair brush is all to be used after rubbing the scalp vigorously for a few minutes with the Preparation. Try a bottle and be convinced, only 50 cents. Respectfully,

DEAR

THE NEED OF A NEW REMEDY FOR THE TREATMENT OF ALL SKIN DISEASES, such as Eczema, Scabies, Itch, etc., has long been felt. The following is a list of the most reliable and effective remedies for these diseases, and is offered to the public for their consideration. It is a new discovery, and is the result of many years of research and experiment. It is a simple and easy to use, and is the only remedy of the kind that has been discovered.
