1. The unit of county organization shall be the township. In each township there shall be an executive committee, to consist of five active Democrats, who shall be elected by the Democratic voters of the several townships in meetings called by the county executive committee. And said committees so elected shall elect one of its members as chairman who shall preside at all committee meetings.

2. The several township executive committees shall convene at the meetings of the several county conventions, or at any time and place that a majority of them may elect, and shall elect a county executive committee, to consist of Lot less than five members, one of whom shall be designated as chairman, who shall preside at all of the said committee meetings.

3 In case there shall be a failure on the part of any township to elect its executive committee for the period of thirty days, the county executive committee shall appoint said committee from the Democratic voters of said town-

4. The members of the town ship committees shall elect to any vacancy occurring in said committees.

5. The county executive committee shall call all necessary county conventions by giving at least 10 days' notice by public advertisement in three public places in each township, at the their respective townships on a common day therein stated, which said day shall not be less than three days before the meeting of the county convention, for the purpose of electing their delegates to the county convention.

Thereupon the conventions so held shall elect their delegates to represent the townships in the county conventions from the voters of the respective townships, which delegates, or such of them as shall attend, shall vote the full Democratic strength of their respective townships on all questions that may come before the said county conventions. In case no convention shall be held in any township in pursuance of said call, or no election shall be made, the township executive committee shall appoint such delegates.

6. Each township shall be entitled to cast in the county of absent delegates) as may be convention one vote for every present at any Democratic contwenty-five Democratic votes, and vention shall be allowed to cast one vote for fractions of fifteen the whole vote to which their Democratic votes cast by the last township or county may be preceding gubernatorial election: entitled. Well Said.

If you love good and honest government and peace among all A SAVING IN PENSIONS.

The purging of the pension lists and a stoppage of the reckless disbursement of the public money in this direction, remarks the Baltimore News, was one of the first duties imposed by the voice of the American people upon the Democratic Administration. The evil had, indeed, become a crying one, and was so recognized by many of the Republicans themselves. Particularly gratifying, therefore, is the statement made by the Pension Things Mentioned in our State Ex-Department that on July 1, the beginning of the next fiscal year, there will be returned to the Treasury of the United States the large sum of \$25,000,000, which Wake Forest college are ordered represents the saving in the con- reduced ten per cent. duct of the bureau since the beginning of Mr. Cleveland's term. BE CAREFUL IN TUPPING.

A word of warning just now to those whose tobacco is large enough to begin topping in full will not be out of season. Every. body knows that up to now this has been one of the most extraordinary years that we have ever had in Eastern North Carolina so far as the tobacco crop is concerned. In the first place we have had but very little rain during the entire Spring and Summer. In fact on account of the dry weather a good many farmers had to plant a good deal of their land that they had prepared for land that they had prepared for tobacco in corn and a good many plants to grow that our crop is but we of Eastern North Carolina others had to wait so late for their very much behind what it usually should be contented when we is at this season of the year and compare our condition with that the crop also is very much spotted of the tobacco farmers in other some large hills and some small sections of our own State. While ones in the same field. This condition of the crop calls for a shrewd exercise of judgment in the cultivation for it will not do prospects under good conditions to blow large tobacco, that is tobacco after it is large enough to top, because there is danger of breaking off so many of the most valuable leaves on the stalk. Again it will not do to neglect the young or replanted tobacco Schools and Churches seated that is growing in the same row, for if you do that will amount to nothing. So we repeat cautious judgment must be brought into practice. The hoe should be applied often and diligently to the young tobacco that cannot be reached with a plow. The ridge between the plants should be thoroughly dug up with each reworking so as to form a mellow for them, the following four remedies bed for the young and tender roots, or feeders they are called, to take hold and grow in. In about the proportion of 8 to 10 the farmers leave this ridge un-broken from the time the tobacco broken from the time the tobacco is set till it is cut. The manure just what is claimed for them and the and fertilizer that is in this hard soil into which the roots of the plant have never penetrated does the most experienced physicians, have no good in the world and is a for years failed. This Ointment is of gross waste. Just think of it.

there is a great deal more of the

it like it was broken so the roots and small feeders could penetrate mellow that the roots of the plant Pittsburgh Dispatch reporter, "I Fowler working on his flying ma-

The idea of building a flying maseven and three-quarters years of chine has been in his head since he pupil. Mr. Girard, in his will, says: but has never since attempted to "Those scholars who shall merit it carry out his ideas, but has confined himself to studying the methods of

MUSIC OF THE WIRES. tween fourteen and eighteen years of age; they shall then be bound What Causes the Singing of the Tele graph Wires.

You have all heard the humming and singing of telegraph and telephone wires as you have passed the who become eighteen years of age poles along the streets. No doubt and fail to reach the fourth school, you have concluded that it is caused struction, will be required to give by the action of the wind on the wires and given it no further place to those on the list of apthought. But it is not true that The provision in the founder's will the singing is caused by the wind, that boys of a certain grade shall be and if you are at all observing you "bound out" is apparently almost a will notice that often the humming dead letter, as according to the re- sound is to be heard on cold winter port only one was indentured as an mornings when the smoke from apprentice, but 139 were granted chimneys goes straight up until it is lost in the clouds, and when the cept employment. The total of net frost on the wires is as fuzzy and

receipts for the year was \$1,105.935, thick as a roll of chenille fringe. The wind has nothing to do with the sound and, according to an Austrian scientist, the vibrations are A pretty story is being circulated due to the changes of atmospheric about Rosa Bonheur. Some time temperature and especially through ago a Russian grand duke was visit- the action of cold, as a lowering of ing Paris, and chanced to dine in temporature induces a shortening of her company. At dessert they ate the wires, extending over the whole philopena, a double almond. But of the conductor. A considerable the duke, when they met the next amount of friction is produced on day, forgot to say "philopena," and the supporting bells, this inducing lost the bet. He asked the artist what

present he should give her, and she the poles. When this humming has been go that would do to paint; something ing on birds have mistaken the pretty, you know." The duke smiled sound for insects inside the poles, and departed. Nothing more was and have been seen to peck with heard of him, and the lady had quite their bills on the outside, as they do upon the apple and other trees. The months afterward, the royal forfelt story is told of a bear that mistook arrived, to-wit, three enormous polar the humming noise as coming from story is told of a bear that mistook a nest of bees, and clawed at the pole and tore away the stones at its base in the hope of finding the much-Younglove-These are very hard coveted honey.-Boston Journal of times, my love, and you will have to Commerce

again. He had been reading the egg story and decided to try the trick. The first thing to do was to boil the egg. How many minutes? he asked himself, and going to the stove with the egg in one hand and his watch in the other, he dropped the latter in the hot water. Then placing the egg on the table he sat down to read till the time was up. At the end of five or six minutes he was surprised to find the egg lying there before him, but supposing that he had himself taken it from the kettle and cooled it, he proceed ed to crack and peel it. The consequence may be imagined. Finally he missed his watch. The house was searched high and low, and it was not till the following morning that the cook found it in the kettle, where it had been boiling for hours.

Senator Vi'as' Story
