The Cream of the News

Mr. S. H. Wiley, a banker of Salisbury and the wealthiest citizen of that town, dropped dead one evening last week.

Five prisoners broke out of Yadkin county jail last Friday night. One of the number was in for robbing and burning a house at Booneville.

Prof. Collins Denny was last week elected President of Trinity College. He is at present filling an important chair in the Vanderbilt University at Nashville, Tenn.

The Charlotte News says that there is an epidemic among the hogs in Mecklenburg, but it is not the cholera. The hog doctors can do nothing with the disease.

During the storm of last Thursday afternoon Mr. Jno. F. Wilkerson was struck and instantly killed by lightning, at his home near Maiden, says the Gastonia Gazette.

There are thirty-six postoffices of the presidential class in North Carolina. The salaries of some are changed. Concord, \$2,600 to \$2,700; Charlotte, \$1,500 to \$1,600; Shelby, \$1,000 to \$1,100; Statesville, \$1,700 to \$1,800.

The New Beane Journal states that the railroad debt of Carteret county so much troubled for so many years, has at length been amicably adjusted, and the first payment on the debt has been made.

Scotland Neck Democrat: Recently a white infant was one night left at the door of Fannie Smith, a colored woman living in the upper section of the county. She took it to the county home where it is being cared for and is doing well.

The railroad commission has completed the assessment of all the railroads in the State, amounting to \$24,728,000, an increase of \$500,000. The assessed value of the steamship lines is \$273,000, a decrease of \$25,000; that of the telegraph companies \$205,000.

Pittsboro Record: Master Proniss Terry, the 14 year-old son of Mr. A. P. Terry, of this place, is the champion hawk killer. He has killed, this season, with a single-barrel breech loading shotgun, 28 hawks, besides destroying quite a number of nests. He killed some of them flying.

A few nights ago minks visited the chicken roost of Mr. James Ray, about a mile and a half southeast of here, and killed thirty-two half-grown chickens and carried them to their den on the banks of a creek. A short time before several were killed in the same way.—Alamance Gleaner.

The trustees of the Baptist State Female university have accepted the plans of A. G. Bazer, of Raleigh, for the main building there. It is to have 130 feet frontage. The central building is 150 feet deep, with wings 75 feet deep. The material is brick; the cost \$35,000. It is proposed that work shall begin next autumn.

Pittsboro Record: Mr. L. D. Holland, of Centre township, informs us that he has a bunch of cats that contains 910 heads and that will average 60 grains to the head, that is the product of one grain. This will give 12,900 grains to one grain sown. Mr. Holland says these are not third party or grumbler's cats either.

The Raleigh correspondent of the Wilmington Messenger says that in the Wake county jail are two insane negro men, twins. On the same day they lost their reason. They have never spoken since. Each does just what the other does, at precisely the same time even though one does not see the other. It is a queer case. The men were brought from Middle Creek township, Wake county.

BRIGHTENING SKIES.

The reports from all parts of the State touching the condition of political affairs are cheering. Chairman Simmons says the Democratic party is in better shape than it was at this time in 1892. We have lately met gentlemen from every section of the State and the news they give is uniform: the Populist party is not growing, dissatisfied Democrats are becoming better satisfied, and there is an awakening all along the line.

It is a good time now, while the blood is cool, for men to look at facts as they are and to consider the probable advantage of a change of administration in either Nation or State. It is quite true that the national Democratic administration has not been able to check the panic, with its attendant loss in values, which began in the winter of 1890-'91, and from the consequences of which, though it has passed the acute stage, the country continues to suffer. It needs, however, to be borne constantly in mind that this panic began under a Republican administration, that the Treasury was depleted under a Republican administration, and that the last recommendation to Congress of the last Republican Secretary of the Treasury was that authority be given him to issue gold bonds. This was not given and the bonds were not issued for the reason that it was desired to shoulder this load off on the Democratic party, which had at that time been voted into power but had not taken possession, and make it bear the odium of it. It is true as we have said, that the Democratic party has not been able to raise prices again. It is also true that Congress and the President have brought disappointment to the people in more matters than one. But what have they to hope from the Republican party and why should they want it back in power? Surely we have had enough of Republicanism to last a life-time, and the choice, when we come to select a governing power, lies between these two parties—the Democratic and the Republican. Besides all this, Congress is still in session; its work is not yet before the country; we may in reason hope that when it is, affairs will take on a different aspect.

As to our State matters, there is no room for argument. The solid white men of the State, country and town, the tax-payers, already have them in hand and there is no reason why they should surrender control. We could not have better government in the State and counties than we now have, or if we could the Democratic party is the one to make the improvement. Certainly no other party could improve upon it. The sway of Republicanism in North Carolina is not a fragrant memory; Populism has brought nothing but trouble to the States which have toyed with it; and there is no ground for the expectation that this combination would bring us anything but misery.

The interest of the people is plain. They have but to meet together this year, as heretofore, in their primary and higher conventions, and nominate for office the men of their choice, and then elect them. The Democratic party has shown its capacity to govern North Carolina and no other party ever has. It has the confidence of the people because it deserves to have it, and it has but to pursue its usual policy of nominating good and acceptable men for the officers and the voters will, as heretofore, do the rest. There is nothing wrong with the Democratic party and the people never yet dislodged from power a party which meant to do right and did do right by them. Let not faint heartedness possess any Democrat. The Democratic lion is even now awaking and stretching himself. In due time he will pounce upon his prey.—Statesville Landmark.

The total number of tenement-house in the twenty-four wards of New York city is 39,138, with a total population of 1,332,772, an average of 34 to each house. Of this number 130,359 are under five years of age. There are 2,346 tenement-houses, with a population of 56,290, 8,874 of this number being under five years.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his Stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Bucklen's Arnica Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years standing. Used three bottles of Bucklen's Arnica Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg. One bottle of Bucklen's Arnica Bitters cured him. Sold by J. L. WOODRUM, Druggist.

THE FADED JACKET OF GRAY.

A Poem in Prose that Touches the Heart.
The following poem in prose was written by Smith Clayton, of Georgia:
"The neigh of the iron horse and the song of the spindle mingle merrily, and on eagle wing, the new South sweeps to a great and glorious future; while in her weeds, with sad face and bowed heart, the old South bends lovingly over the sacred ruins of a brave but bitter past. But the South is still the South and the grief of the old shall never be forgotten in the grandeur of the new, for between the two there lies a sweet memorial which binds our hearts to the past, e'en while our hands build the future."
"The Faded Jacket of Gray!"
The violet breath is not sweeter than the memories by which it is hallowed—the shimmering stars are not more splendid than the glory amid which it was folded! Bring it forth to-day. With gentle hands smooth out the precious folds! A thing inanimate, it yet speaks with most eloquent tongue. Its soiled front tells of the dust of righteous battle, and its ragged edges voice the cruel scars of valiant veterans. It tells the solemn but grand story of thousands of bright swords which sprang from their scabbards at the call of duty. It tells of the fiery charge—the stubborn fight—the bleeding hero—the dead patriot—the drum retreat—the muffled drum—the sable plume nodding above these God-like men that have, and gladly gave, all that is best in life (save honor), and life itself, for liberty! Every button has its memory, both dark and bright; every seam images some patriot's daring deed; its very silence is the pathos of the honored dead!

"In this land of the South the Faded Jacket of Gray is a common heritage freighted with a common woe. It hangs alike in the hut on the hillside and in the mansion of the city. In many, alas! how many homes, is it hung upon the vacant chair, never more to grace the form which long ago filled a Southern soldier's grave! Its rustle is the orphan's plaintive cry, and o'er its blight is breathed the widow's prayer!"

"Faded and worn! Yes, but the gaudiest hue which tints the arch of Heaven is not more bright than this same dim shade which dims our eyes to-day, and the toms of Time but makes nearer and dearer the good and true which is newness proudly decked."
"Old and threadbare! What matter! Honor wore it, love folded it away, grief stands sentinel! Sad, sweet symbol—old, but still young, worn and yet new—you live in the glory of a grand principle immortal as the white-winged seraphs which circle the great white throne!"

"Look at it, and the majestic form of Jackson rises to view; look at it, and the calm, noble face of Lee peers kindly upon you from the buttons and the braid; mother, look at it, and the pale face of your dear son comes back from a soldier's grave; son, gaze upon it, and the honored arm of your dead father seems to rise from the earth; wife, look upon it, and the fond husband who exchanged it for a shroud is once more before you; sister, look upon it, and once again you seem to see the gentle face of your loved and long-lost brother! Oh, murdered Hope! Oh, blessed Memory! Be they lying or dead, all honor to men who wore the Faded Jacket of Gray. Palsied be the hand that would strike a single star from the crown of their ever brightening fame!"

"No braver bled for a brighter land,
No brighter land had a cause more grand,
Nor cause a chief like Lee!"

Sam Jones on Third Partism.
The third party, or party of the third part, or whatever you may call it, may go to heaven, but they'll never get to Washington. It's the wickedest place on earth. It is the home of the devil. The average democratic and republican politicians are little better than rascals, but the third party is a fool. You can force a rascal, but did you ever try to monkey with a fool?

They want to borrow money from the government at 2 per cent when the government is now borrowing at 5. We hear a great deal of fool talk about the rich man getting richer and the poor poorer under our present law.

There never was a greater lie, and I'll prove it. There is nothing the matter with the law. It's the man that's at fault. There's a lawyer on that side of the house makes twenty thousand a year. Here's a little pettifogger whose family are starving. The law is not to blame. Here's a physician making ten thousand a year. There is a little doctor over on the other corner that can't make his salt. The law is not to blame. I preach nearly every day to 8000 people, and there's a little preacher sitting behind me that can't average 200. The trouble is not in the law, brother, it's in your noggin.

The difference is organic. If all the wealth in the United States were divided out to-day each man would get about \$1,160, and in less than six months some fellows would be riding in palace cars and others would be walking cross-ties and howling for another divvy.—From the Canadian Record.

HABITS OF PRESIDENTS.

The Tone of Life at the White House Differs With Its Various Occupants.
General Grant brought the camp into the White House. Mr. Hayes had lived in Washington as a representative at a hotel or a boarding-house. General Garfield had settled in the capital in a house of his own, and had enjoyed the kind of social life that may be had anywhere in this country, and that runs to literary clubs that are formed to facilitate the escape of unpublished manuscripts. To encourage talent and literary ambition was a great pleasure of the President, whose murder cut short the term that would have been marked by more geniality and agreeable talk than is usual at the White House.

Mr. Arthur brought city customs and manners with him. People who did not know him were greatly mistaken in him. There had been a good deal of refinement and elegance in Mr. Arthur's home, and its influence made the White House more of a social centre than it had been before or than it has been since.

Then came Mr. Harrison, who had passed six years in the Senate and a Washington boarding-house, and Mr. Cleveland, who went to the Capitol a bachelor, having lived most of his life in apartments in a Buffalo business block.

None of these men adopted the manners and customs of court life, with the exception of Mr. Arthur, who insisted that those with whom he came in contact should pay his office a respect something more than the formal decent respect of good manners. The best respect of good manners, the rules which Washington society had laid down for its own and their guidance, and which were as conflicting as the various interests that invented and frequently modified them. Moreover, they have seemed to care a good deal less. They or their wives or their secretaries studied up the necessary regulations that govern the intercourse between the head of the nation and the diplomatic representative of foreign powers. And although Mr. Jefferson insisted on taking out to dinner what woman he would, regardless of her husband's rank, modern Presidents have done their best to observe the proprieties in this respect.—Harper's Magazine.

Politics Ahead of Farming.
A conservative business man, who never has anything to say about politics and has made money, got into a discussion with a rabid Vance Thiridite of the blood and thunder species on Monday last.

He said as this was election year he looked for poor crops because the farmers would neglect their crops for politics.

The Thiridite replied, "It is the sacred duty of every one these times of uncertainty to look after politics first and crops next." "This is part of the cause of the hard times the Thiridites are making such a howl about."

They have a seen this Thiridite go out of town with a meal in his one-horse wagon, which goes to prove the assertion he made.—Oxford Ledger.

The papers have stated that the Kolb managers in Alabama are raising campaign money in the Northern and Eastern cities. The public will recall the exposure of a letter written last spring by Senator Hoar, of Massachusetts, to the Home Market Club, of Boston, urging it to assist Kolb in his fight. To be sure the protected industries of the North and East should help out the Populists. It was the example of government dealing with these gentry that gave the Populists their start in life. They saw the government coddling and making the people pay for their support, and they naturally concluded that if the government was to take care of one class after this fashion, it should take care of another by issuing it \$50 per capita and establishing sub-treasuries where tar-pis, etc., could be put in hock and money raised on them. Certainly the Eastern manufacturers ought to cough up all the money the Southern and Western Populists need for campaign purposes. There must be a natural bond of sympathy between the protected interest and the Populists. They are on exactly the same lay.—Charlotte Chronicle.

Senator Jarvis' Doubt.
Ex-Governor Thomas C. Fletcher, of Missouri, was standing in front of the Riggs House last night chatting with some friends, when a member of the newspaper fraternity came up and said: "Senator, I want to congratulate you on the excellence of your rulings to-day. The gavel is in good hands when you are in the chair."

PRINCIPLES FIRST, LAST.

Any man who kicks himself off the Democratic platform makes an egregious mistake. Any Democrat who kicks himself out of the party because Sam Slick or Tim Titmouse or Boabdil Bush-plucker failed to vote as he whodged himself is a very unwelcome man, particularly if he lives in North Carolina where the State government and the county government and popular education are all involved. Despair if you will the men who deceive you, but do not desert your principles, hoary with time, sanctioned by the wisdom of the fathers, and tested by long experience. If you cannot get now, or at once, all you need, all you desire, all you demanded, take a part now and prepare to get more next time. Put men in office who will not honestly and stand unflinchingly up to all the laws of the party, every pledge in letter and spirit. Principles are the things to fight for. Men are "mighty unsteady," as the deceived darkey held. If the men fail you the principles will not, for they are bed rock and have survived many changes and ordeals. Some Georgian editor well says: "Like the bourgeoisie of France, some of our leaders may forget the common people, but like the French people, we are wedded to the Democratic principles, and though internal commotions amounting almost to revolution or even revolution itself may threaten our progress, still, through all we shall live to see our principle triumph."

With a true Democrat it is always and everywhere and everywhere. Lock shields and fight to the finish.—Wilmington Messenger.

According to an interesting report sent the Charleston News and Courier by its Washington correspondent, Senator Jarvis, temporarily presiding, Monday, stirred up the animals mightily by the way in which he chucked the "traditions of the Senate" out of the window and proceeded to do business before the body and dispatch it. His senatorial associates may not know it but he is an old hand as a presiding officer. He has been Speaker of the House of Representatives and President of the Senate of North Carolina, and neither body ever had a more prompt, accurate or business-like presiding officer.

He doesn't know any better than to suppose that legislative bodies assemble for the purpose of transacting business and when he presides over them he sees to it that they do it.—Charlotte Observer.

Here's The Size Of It.
During the Republican Congressional convention in Weldon last week, Solicitor Geo. H. White, in the course of a violent speech, is reported to have said that if the Populists wish coalition they must go to the Republicans. "For," said White, "your little camp is too small to ask us into and you are too young. You must come to us; we cannot go to you."

Now, the question for the Populists is, will they fiddle along and do nothing by themselves, go to the Republicans out and out, or remain with the Democrats, where they belong?—Scotland Neck Democrat.

Some one has very pertinently said that it is a wise provision of Providence that a man can neither kick himself nor pat himself on the back. If such were possible the average man would be engaged in the one or the other the greater part of the time.

GOVERNOR JARVIS MAKES HIS MARK.

WASHINGTON, July 2.—If the Senate ever decides to break away from the ancient rules which now prevail in that body and adopt closure Senator Jarvis is the man to place in the presiding officer's chair. This afternoon the new Senator from North Carolina gave his Senatorial associates a sample of what a firm and determined presiding officer can do, even under the existing rules.

The proposition to abrogate the Hawaiian treaty was pending. The Democratic managers of the bill were restless at the slow progress that was being made, because several Republican Senators insisted upon making set speeches on the subject. Senator Jarvis was in the chair. Senator Harris arose to make his usual motion to "lay the pending amendment upon the table" and Senators Hoar, Dolph and Chandler sprang to their feet simultaneously. In a firm voice Senator Jarvis recognized the Senator from Tennessee, and with a rapidity that would have astonished even ex-Czar Reed, or Speaker Crisp, he put the question and decided it carried instantly.

Senator Hoar was so astounded that he grew red in the face and gasped for breath; his words refused to come at his command. Several other Republicans were equally astonished at the rapidity of the ruling of the acting President of the Senate, and even the Democrats could hardly realize what had occurred. Finally Senator Hoar, who had regained his breath, but lost his temper, in a voice quivering with suppressed rage, took exception to the ruling of the chairman and appealed from his decision.

Senator Jarvis, with equal quickness, decided that a motion to lay on the table took precedence over a motion to postpone. Senator Hoar differed with the presiding officer on that point also, and demanded the reading of the rule on the subject. The secretary read the rule, and it was found that the Chair had ruled correctly. In the meantime Senator Chandler had entered a motion to adjourn.

Senator Harris, the Democratic "ring-master," held a hurried consultation with his associates on the Finance committee, and concluded that such startling business methods as those of Senator Jarvis were too great a shock to Senatorial courtesy and precedents. He hurried over to Senator Chandler and induced him to withdraw his motion to adjourn, and at the same time agreed to withdraw his motion to amend on the table the pending amendment so that further debate might proceed.

The scene only occupied a few minutes, but in that short time Senator Jarvis demonstrated that a clever Parliamentarian with a little nerve may at any time sweep away traditions of the Senate, which now block the business of that august body. He has frequently remarked that the rules of the Senate are liberal enough if the presiding officer has the courage to do his duty in such an emergency, and to-day was the first opportunity he has had to give his associates tangible proof of the correctness of his assertion. Senator Jarvis' right arm is disabled, but his left is all right, and the way he manipulated the gavel this evening during his brief occupancy of the President's chair will not soon be forgotten by his associates, especially Senators Hoar, Dolph, Chandler and Harris.

Senator Jarvis' Doubt.
Ex-Governor Thomas C. Fletcher, of Missouri, was standing in front of the Riggs House last night chatting with some friends, when a member of the newspaper fraternity came up and said: "Senator, I want to congratulate you on the excellence of your rulings to-day. The gavel is in good hands when you are in the chair."

The newspaper man had only taken a hurried survey of the gentry from Missouri and mistook him for Senator Jarvis of North Carolina, whereupon Governor Fletcher remarked that it was the third time within a week that he had been taken for Senator Jarvis.—Washington Post.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

A YEAR OF MEN.
"Ram's Horn" Wrinkles.
It is going to be largely a matter of men this year. Party bonds never sat more lightly upon the people. We are in the habit of saying, men are nothing; principles are everything; and it is so; but this one of the years when the voters will look less to principles and more to men than they have been in the habit of doing. It therefore behooves the conventions of the Democratic party to consider well the men whom they offer to the people. There should be no suspicion as to their capacity or integrity; moreover, they should be men of acceptability; and all these requirements fulfilled, Democratic victory will be easy. As to the fulfillment of them, there should be no difficulty. It has such a wealth of material of the right sort for all the places to be filled, that mistakes will border on to crimes. No matter how great the dissatisfaction with affairs at Washington—and it is not as great as many people suppose—the Democracy of North Carolina is easily able to carry the State this year upon the personality of its candidates, and it will be its own fault if it accepts not so capable and so acceptable as to compel the support of the people.—Statesville Landmark.

According to an interesting report sent the Charleston News and Courier by its Washington correspondent, Senator Jarvis, temporarily presiding, Monday, stirred up the animals mightily by the way in which he chucked the "traditions of the Senate" out of the window and proceeded to do business before the body and dispatch it. His senatorial associates may not know it but he is an old hand as a presiding officer. He has been Speaker of the House of Representatives and President of the Senate of North Carolina, and neither body ever had a more prompt, accurate or business-like presiding officer.

No matter what kind of Legislature is elected this year, it certainly ought to have the grit to do two things—pass some kind of a dog law, and repeal the law authorizing the merchants' tax.—Charlotte News.

COUNTY DEMOCRATIC CONVENTION.

A formal convention of the Democratic party of Pitt County will be held at the Court House in Greenville on Thursday, July 26th, 1894, at 12 o'clock, M., for the purpose of appointing delegates to the State, Congressional and Judicial Conventions.

Each township will be entitled to elect to said Convention one delegate and one alternate for every twenty-five Democratic votes, and one delegate and one alternate for fractions of fifteen or more votes cast in the last gubernatorial election, that is to say:

- Beaver Dam is entitled to 4 votes.
Belvoir is entitled to 2 votes.
Bethel is entitled to 5 votes.
Carolina is entitled to 6 votes.
Chicoic is entitled to 14 votes.
Contentnea is entitled to 14 votes.
Farkland is entitled to 4 votes.
Farmville is entitled to 4 votes.
Greenville is entitled to 18 votes.
Pactolus is entitled to 3 votes.
Swift Creek is entitled to 8 votes.

In accordance with the party plan of organization the Democratic voters in each township are requested to meet in their respective township, at the usual place of meeting on Saturday, July 21st, 1894, at 3 o'clock, P. M. for the purpose of appointing delegates to said County Convention.

By order of the Democratic Executive Committee of Pitt County. ALEX. L. BLOW, R. WILLIAMS, Chairman, Secretary.

JUDICIAL CONVENTION.

The Democratic Convention to nominate candidates for Judge and Solicitor of the Third Judicial District will meet at Rocky Mount, Wednesday, August 1st, 1894, at 3:30 o'clock, P. M.

By order of committee, F. S. SPRUELL, Chairman.

In the District of Columbia, Massachusetts, Connecticut, Maryland, New Hampshire, New Jersey, New York, North Carolina, Rhode Island, South Carolina and Virginia there are more females than males.

The Concord Times, Secretary J. B. Sheerill's excellent paper, celebrated its twelfth birthday last week by putting on a handsome new dress of type. We are glad to note this evidence of prosperity with the Times. No paper is more deserving.

Durham is said to be a dry town now. All liquor licenses expired on the 30th of June and the Board of County Commissioners refused to renew them because the saloon-keepers had been convicted of selling to minors in consequence of which the saloons had to close. If this rule had applied in Pitt county there would have been some closed bar rooms in Greenville to-day. It ought to be the rule that when a saloon keeper willfully violates the law under which his business is licensed and is convicted therefor, it should be a barrier to his being considered a competent man to have a license.

The Populists of this county held their convention here on the 4th. The crowd in town that day was large, though they were far from all being Populists. Part of the Reflector force being sick and matters at the office requiring our personal attention we were prevented from getting about the progress of their meeting, but have been told that it was very much the same meeting that they had at their meeting in March, the only additional work done being the appointing of delegates to their State and District conventions. Col. Harry Skinner was chief speaker again and filled up his time largely with abuses of Cleveland and the Democratic party. The almost pathetic appeal to the negro to come over and join the Populists was very noticeable. Upon the whole it was the most disorderly day Greenville has had in some time. There were several fights, a still larger number of drunks, and the police were busy making arrests and trying to keep order. If the Populists claim the 4th as "their day," it goes without saying that they added no new laurels to their already unenviable reputation, and no new strength to their weakening numbers.

The Tariff bill passed the Senate on Tuesday of last week by a vote of 39 to 34. Senator Hill was the only Democrat who voted against the bill. The Senate also appointed a conference committee and requested the House to do likewise to which the bill shall be referred for a final adjustment of the differences between them, and as soon as this is done, which is expected to require only a few days, the measure will be ratified by both the House and Senate and go to the President for signature. In only a short while now the bill will go into effect and its beneficial influences will be felt throughout the country.

During the past week all other topics have been overshadowed by interest in the great strike that has prevailed in Chicago and the west, the influence of which has been felt to more or less extent throughout the entire country. The strike first started with the operatives of the Pullman company, and through sympathy with these the American Railway Union took it up and instituted a boycott against all the western railroads that carried Pullman cars and a general strike followed. The men referred to handled trains that carried Pullman cars and would not allow others willing to work to take their places, thus putting a stop to the passage of mails and blocking passenger and freight traffic. The strikers failing to carry their point, and the railroads refusing to yield to them, they gathered in great riotous mobs and set to work burning property, committing murder and other acts of lawlessness, setting at defiance all law and order.

Gov. Altgeld, of Illinois, being himself a sympathizer with anarchism, took but little interest in quelling such disturbances, and the meagre pretences he did make for efforts in that direction proved so inadequate to the needs of such an occasion of disorder and riot that the United States President Cleveland called his Cabinet together and considered the situation and in order prevent the stoppage of mails and the interference with inter-State commerce, ordered U. S. troops to Chicago to suppress the troubles. Altgeld took exceptions at this and raised objection to the government troops going into his State, but he found that President Cleveland was a little bigger man than himself, and that despite his objections it was within the province of the government to do just what the President had ordered done.

The extent of the damage done by the strikers and rioters is appalling, and the daily papers have been filled with long accounts of the outrages. Thousands of freight cars and much other property was destroyed, entailing a loss of millions of dollars, to say nothing of the losses arising from the interruption of business and the shutting down of many industries.

That such a strike and its attendant riots are really deplorable, and the sooner those engaged in it are made to realize that there are laws in this government which must be respected, the better it will be for the whole country. At last accounts the soldiers had fired several volleys into the mobs, killing some of them, and matters were becoming more quiet and orderly.

WASHINGTON LETTER.

(From Our Regular Correspondent.) (WASHINGTON, D. C., July 7, '94.) The small attendance in both House and Senate shows that lots of Senators and Representatives are disposed to extend their holiday over the rest of the week. For the ten days previous to the passage of the tariff bill the Senate certainly had a hard time with daily sessions from 10 to 6 o'clock or later and the thermometer constantly in touching proximity to ninety degrees. It is not surprising that the passage of the bill, a few minutes before the beginning of Independence Day, by a vote of 89 to 34 should have been followed by an exodus to the mountains and seashore and that the wretched Senators should be a little slow in returning to their duties. However, no time is really being lost on account of their absence, as the work of preparing the appropriation bills for action is going right along in the Senate Appropriation Committee, and the conferees on the part of the Senate on the tariff bill—Senators Voorhees, Harris, Vest, Jones, Sherman, Aljian and Aldrich—will be on hand as soon as wanted by the conferees on the part of the House. No surprises were connected with the final vote on the tariff bill, unless the vote of Senator Hill against it can be so considered. The populists divided, Allen and Kyle voting for the bill and Pfeiffer and Stewart against it.

Everybody is speculating on what the result of the conference on the bill will be, and everybody is agreed that there is no chance as yet that there is no agreement, further than that they are likely to be mostly towards the original Wilson bill. Representative Holman says on the subject: "It is an almost invariable rule that if there is an overwhelming sentiment in the House for a particular line of action it finds expression and overcomes all delays and obstacles of parliamentary procedure. I feel certain that in the issue before the Senate and House the latter will carry the day." Mr. Holman also says that his Congressional experience has taught him to expect considerable delay in tariff conferences between the Senate and the House. Let impatient folk make a note of that.

Representative Bynum, of Indiana, is at the head of the subcommittee of the Democratic Congressional Campaign Committee that is charged with compelling its work to be used by the Democratic speakers in the Congressional Campaign. The work is progressing, but cannot be completed until the tariff bill has finally been disposed of by Congress. The choice of Mr. Bynum to direct this work was a happy one. He will be certain to include in the book everything that can help the stump speaker in his arguments, as he believes that the stump speaker is always ahead of the literary bureau as a vote getter, because the average man will listen to a clever speech while he will not read pamphlets, however cleverly they may be prepared.

President Cleveland is commended on all sides for the promptness with which he decided and ordered that Federal troops should be used to prevent the mail service of the country being interfered with by railroad strikers and to back up the authorities of U. S. Court officials. The President is kept thoroughly posted, through Attorney General Olney, Postmaster General Bissell and Secretary Lamont, upon every phase of the strike, they being in constant telegraphic communication with their subordinates.

Representatives Catchings, of Miss., who is a member of the House Committee on Rules, and therefore in a position to know, says he does not consider it possible for Congress to adjourn as early as the first of August, but is certain that it will do so very shortly after this date.

Steamer Gazette.

This splendid steamer, Capt. David Hill master, has commenced her regular summer schedule between Washington and Ocracoke, leaving Washington on Tuesday, Thursday and Saturday nights of each week immediately after arrival of trains, returning leaves Ocracoke on alternate days. The Gazette is splendidly equipped for passengers, is a fast and safe steamer, and makes quick runs between Washington and Ocracoke. Those wishing to visit Ocracoke this season cannot make a more delightful trip than on the Gazette, as all who have taken passage on her in the past will testify. There is no more obliging and accommodating master than Capt Hill and those who go with him may depend upon making the trip comfortably, safely and quickly. Be sure that you go on the Gazette. A Bad Man Caught. One afternoon last week Deputy Sheriff H. T. King went out in the county to arrest Arch James, colored, who was wanted in Wilson county for bigamy. When the officer found his man and went to take him in custody the negro defied him and struck an attitude of resistance, saying he would not be arrested by any one white man. Knowing that he had a desperate character to deal with, Deputy King shot him through the forehead to disable him. The wound frightened the negro so that he started toward the officer to surrender, and the latter thinking he was advancing for an attack presented his pistol again, telling him "Come another step and I'll kill you." To this the negro replied excitedly: "Lord, Mars Sheriff, I've already dead, take me erlong wid yer." He was brought to jail without further trouble and was carried on to Wilson next day. Falkland Items. July 9th, 1894. Henry Blow was here to-day. Miss Ellen Parker is visiting Mrs. John King. Bruce and Lyman Cotten visited Tarboro the past week. Mrs. R. R. Mr. Benjamin Crawford one of the oldest citizens of this county, is quite sick this week. He was born in May, 1800, which makes him 94 years old. The Free Will Baptists are having a called meeting to-day at Piney Grove for the purpose of revising their church list. The attendance is very large. One of the heaviest rain and wind storms of the season passed over our section last night. Farm work is at a standstill and is likely to remain so for some days. Politics are all right. We will carry our county in spite of the Third party and Republicans. We are not afraid of them if they do consolidate. All that we want is a good ticket which will insure victory. Mr. W. W. Worthington, an overseer on the State farm near Weldon, was at home part of this week. He came to attend the funeral of his nephew, Mr. J. L. Tyson, and returned on the 5th just to his post of duty. Bill is a whole-souled, jolly fellow, and we are glad to know that he has made many friends in his new work.

Base Ball.

The first game of ball played in Greenville this season was between the Greenville and Kinston clubs last Wednesday afternoon. The playing was ordinary and both sides made many errors, the score resulting in 30 to 20 in favor of Greenville. The Kinston boys were well entertained and had a pleasant day here. We hope the clever young gentlemen will come over again. The Greenville boys went up to Halifax last Friday to play a game of ball with the club of that town. Our boys got beaten badly, the score being 18 to 2 in favor of Halifax, but they came back home feeling that they had done well to make even two runs, considering that the Halifax team was largely made up of players from the college teams of Wake Forest, Chapel Hill, Trinity and Oak Ridge. There were bets before the game that Greenville would not make a run, but the scores by Dancy and Erwin showed better. If the Greenville boys are going out to play they ought to practice some together. Dwelling Burned. On Thursday night of last week Mr. J. R. Warren, near Falkland, lost his dwelling house and kitchen by fire. When first discovered between 12 and 1 o'clock, one corner and the roof of the kitchen were burning rapidly and could not be extinguished. From the kitchen the fire was quickly communicated to the dwelling house and both destroyed. Nothing at all was saved from the kitchen and very little of the furniture could be gotten out of the house, most of the personal effects of the family being lost with the building. Mr. Warren had no insurance at all and the loss is very heavy upon him. He is a hard working, industrious man, and much sympathy has been expressed for him and his family. It is believed the kitchen was set on fire by incendiaries as there had been no fire in use about the cook room since dinner on Thursday, and members of the family up late that night were about the dining room and would have discovered fire had there been any. Mr. and Mrs. Warren were in town Monday and told us their neighbors and the people generally had been exceedingly kind to them since their great misfortune, for which they desired us to return their sincere thanks through the REFLECTOR. Their loss was about \$2,000. Falkland Items. July 9th, 1894. Henry Blow was here to-day. Miss Ellen Parker is visiting Mrs. John King. Bruce and Lyman Cotten visited Tarboro the past week. Mrs. R. R. Cotten left Saturday for Ashbury, Park N. J., to attend an educational convention. The dwelling house of Mr. J. R. Warren was burned last Thursday night, cause of the fire is unknown. No insurance. The young ladies have returned home and two of our young men look forlorn and sell goods with less animation than generally. On Wednesday the 4th of July in Falkland township at the residence of the bride's father, Mr. Joe Walston, Mr. Nelson Peaden and Miss Hannah Walston were united in marriage. Quinerly Items. Kilpatrick attended the Masonic picnic at Vanceboro last Wednesday. Miss Maggie Laughinghouse returned home last Saturday after spending a week visiting relatives in Grifton. I will again make another feeble attempt to give you a few items for your most excellent paper, from Beaver Dam. Mr. Benjamin Crawford one of the oldest citizens of this county, is quite sick this week. He was born in May, 1800, which makes him 94 years old. The Free Will Baptists are having a called meeting to-day at Piney Grove for the purpose of revising their church list. The attendance is very large. One of the heaviest rain and wind storms of the season passed over our section last night. Farm work is at a standstill and is likely to remain so for some days. Politics are all right. We will carry our county in spite of the Third party and Republicans. We are not afraid of them if they do consolidate. All that we want is a good ticket which will insure victory. Mr. W. W. Worthington, an overseer on the State farm near Weldon, was at home part of this week. He came to attend the funeral of his nephew, Mr. J. L. Tyson, and returned on the 5th just to his post of duty. Bill is a whole-souled, jolly fellow, and we are glad to know that he has made many friends in his new work.

He was cared for in his last sickness by kind friends who were at all times by his bedside. His remains were interred in the family graveyard at Forbes' Mill, on the 3d inst, in the presence of a host of warm friends and relatives. Funeral services by the Rev. J. T. Phillips, of Marlboro.
