There is a prospect of stormy times in South Carolina. The Governor has issued a pronouncement from which we make the following extracts.

"The people of South Carolina have always been law abiding and respect the constitution and courts of the United States, but when the Judges of these courts wantonly invade and trample under foot the recognized rights of our people guaranteed by the Federal constitution, they have a right to assert themselves and maintain their sovereignty and independence.

WEDNESDAY, MAY 15th, 1895.

The Lexington Dispatch has commenced its thirteenth year. It is an excellent paper and doing good work for its section.

The Statesville Landmark will soon be changed from a weekly to a semi-weekly paper. We are glad of this, for there is no better paper in the State than the Landmark, and the oftener it comes the better we like it.

Wednesday at Salt Lake City an enthusiastic meeting was held to discuss means to promote the interest of the silver cause. Fully 2,000 people were present and many prominent men took part in the discussion.

A man named Boggs visited Raleigh with a view of getting the Chamber of Commerce of that city to send delegates to a "sound money" convention to be held at Memphis, Tenn. The Raleigh people declined to send delegates.

The Supreme Court of the State has rendered a decision that the charging of fines, premiums and penalties by Building and Loan Associations is unlawful and unenforceable. The Associations doing business in the State are considerably wrought up over the decision, and it is said such enterprises have suffered a severe blow.

James B. Colgate, writing to the New York Tribune, predicts that, owing to the rapidly increasing production of gold, the mints will have to shut down on the free coinage of the yellow metal. He says the average cost of producing an amount of gold which, at the fixed price, is worth \$1, is about 60 cents, leaving a profit of 40 cents to the miner.

The Supreme Court has confirmed the decision of the Superior Court in the case of Cook vs. Meares for the judgeship of the Eastern Criminal Court in North Carolina. It held that a man could not be elected to an office before the creation of that office and that the facts showed that this was done in this case So Meares remains Judge.

Samuel L. Rogers, Chief Deputy Collector under Col. Carter has been appointed to the Western Collectorship. He is not widely known but is said to be a fine business man and will make a good officer. It is thought that Kope Elias had the suggestion of the successor of Mr. Carter and that it was through his suggestion that he was appointed.

A Washington correspondent of the Richmond Dispatch gives a very near correct opinion of the sentiment in North Carolina in the following:

From what can be gleaned here there is scarcely a prominent Democrat in North Carolina who is in full sympathy with the administration financial policy. The State is overwhelmingly in favor of free coinage of silver, and for years the members of Congress from North Carolina have so voted.

Extensive preparations are being made for the unveiling of the Confederate monument in Raleigh on next Monday, the 20th. More people will probably be in that city than there has been for a long time. Miss Julia Jackson Christian, the grand daughter of Stonewall Jackson, will pull the cord that will unveil the monument. Everybody ought to be there and by their presence honor the memory of the brave heroes who died in defense of their loved Southland.

Monday all North Carolina did honor her brave dead by being present at the unveiling of the monument which has been erected to their memory at Raleigh. There is hardly a community in the State from which there were not some present at the exercises. It would be fitting if the entire State could have witnessed the ceremonies and thereby have their memories refreshed with the brave and daring deeds of their dead heroes.

The Spanish government is preparing to send 1,500 cavalry to Cuba at once. The same government is also negotiating for a \$10,000,000 loan to meet the expenses that are being incurred in the war with the insurgents on the Island.

Wilmington differs from Raleigh on the silver question. Raleigh refused to send any delegates to the "sound money" convention at Memphis, but the produce exchange of Wilmington besides sending two delegates adopted a resolution against the free and unlimited coinage of silver. We do not profess to be fully informed on the money question, but it is the candid opinion of the REFLECTOR that Wilmington has made a mistake.

On the case of Governor Carr vs. Secretary of State Coke, to prevent the publishing of the Mortgage law, charging that it was gotten through by fraud, the Supreme Court decides that there is no remedy against forged and fraudulent legislation. Now the point is this, how did the Court stand? The two Democrats dissent from and the three Fusionists agree to the decision. The Democrats say we can investigate such matters. The Fusionist say no investigation. Why no investigation? It is plain. A Fusion Legislature would be proven guilty of fraud. A non-partisan Supreme Court! Whew!

Washington city is developing a new industry. There is a branch office of the Fidelity and Deposit Company of Maryland in the city which furnishes bonds for a number of office holders. The cash capital is \$500,000. Recently Fitzhugh Lee was appointed Collector for the Western District of Virginia and instead of going home and getting a number of his friends to go on his bond, as has been the custom heretofore, he went to this Company and secured the required bond which was promptly approved by the Treasury Department. Samuel L. Rogers, who was appointed to the Western North Carolina District as Collector to succeed Melvin Carter, furnished his bond for \$120,000 in the same way. He received his commission at 4 o'clock in the afternoon, and the next day made up his bond in this Company, which was approved by the Treasury Department.

WASHINGTON ITEMS.

WASHINGTON, N. C., May 17. Quite a number of young people joined Mrs. Sarah Russell and her school in their annual picnic yesterday at Public Landing, about three miles down the river. They all enjoyed it highly and are under many obligations to Mrs. Russell for such a pleasant day.

Mrs. Eliza J. Vines, who has been entirely helpless for twenty years, died this morning. She was the mother of Miss Mollie and Rev. F. A. Vines.

The continued rains have greatly damaged the truck crops in this section. It is said that there will not be a half crop made.

Dr. Fred L. Potts is now a full fledged M. D. He passed examination before the State Board yesterday. We all extend congratulations to Dr. Potts.

WASHINGTON, N. C., May 20, 1895. Mr. W. H. Cox, of Greenville, is here to-day.

The A. W. Thomas Co. assigned Saturday night.

The little child of Mr. and Mrs. J. G. Griffin died this morning.

Quite an interesting revival is being held at the Christian church this week.

Dr. F. L. Potts went to Vanceboro this morning where he will practice medicine during the summer.

There were no services in the Methodist church last night owing to the absence of the pastor, Rev. R. J. Moorhead.

Quite a number of people went to Raleigh from here on the special yesterday morning to witness the unveiling ceremonies. The Washington Light Infantry went forty-five strong, also a goodly number of veterans. They will all return Tuesday night.

Mr. Oscar Hooper has let the contract to Mr. H. G. Jones for the erection of two large green houses. This step by step Greenville continues to go forward.

Rev. L. H. Joyner is holding a protracted meeting at Tripp's Chapel about 4 miles from town. He is assisted by Rev. R. T. Wyche, of the Jamiesville Circuit.

Mr. H. L. Coward, of Greene county, told us Saturday that in his section many farmers had plowed up their cotton and corn. The wet weather had ruined these crops.

## Sunday School Convention.

The County Sunday School Convention has been called, as has been seen, to meet at Ayden on the second Saturday and Sunday in June. We desire that every Sunday-school in the county shall be represented in this meeting by at least one delegate who shall be present. If there is a school in the county which will not be present in the person of a delegate we ask you to send the statistics of your school at once to the Secretary, D. D. Haskett, Greenville. We are anxious to get correct statistics of the entire county. One other thing I desire to call the attention of the schools to, and it is this. Two years ago the delegates from this county to the State Convention pledged ten dollars from this county. This was not paid at the last Convention. It must be paid at the next. Will not every Sunday-school Superintendent in the county give his school one opportunity between now and the second Sunday in June to help pay this? Be sure and do this and send the amount you raise to the Convention at Ayden. We believe that the schools of the county will pay this amount which your delegates pledged. Now don't neglect this matter. Let all of us take an interest in the meeting at Ayden and we can make it accomplish much for the Sunday-school cause in Pitt county. Remember that it is with the schools whether the meeting shall be one of profit or not.

W. H. RAGSDALE, Pres.

The days do not get much prettier than Sunday was. And it was such a relief after the long spell of bad weather that had grown so monotonous.

## FIRE AND ROBBERY.

Fiends Again at Work in Kinston—Dwelling Burned, Store and Depot Broken Into—Man Arrested.

(Special to Reflector.)

KINSTON, N. C., May 21st.—Another fire occurred here this morning between 2 and 3 o'clock. It was discovered in the residence of Mr. Irvin Whitehurst and the building was burned down. Insurance about \$1,200, which was about \$500 less than the loss.

While the fire was in progress the store of T. A. Beasley and the A. & N. C. Depot were both broken into. The parties who broke into the depot took the ticket case and carried it to the edge of town where they tore many of the tickets up and scattered the others around promiscuously. They also broke open the desk and secured about \$300 worth of freight receipts. Can't miss any goods from the depot. The thieves were evidently in search of money, as they also emptied the drawers in which the Western Union telegrams were kept. Only about \$6 in money was obtained. The telegrams were scattered all over the building.

The party who broke in T. A. Beasley's store is a colored man named Bob Graham, who is now under arrest. Those who broke in the depot have not yet been discovered.

The supposition is that the Whitehurst residence was set on fire to attract people to that portion of the town while the robberies were being perpetrated.

## THE UNKISSED KISS.

I have kissed the girls a plenty, Aged from one year old to twenty. Kiss better far than honey. I can taste their sweetness yet.

But far dearer than the kisses Given me by kindly misses, Is the ever verdant memory of a kiss I did not get.

For one winsome little fairy, With grace so light and airy, Kept me ever fondly saying, 'Till I achieve my purpose yet.

But at length she slyly vanished With the gift for which I fastidied, And she left me sadly sighing for the kiss I did not get.

Reader, pardon this digression— Dost thou not remember the girl whose kiss I did not get.

Now, of course there is a moral in this simple story, for all those indiscreet young ladies, who will sometimes much regret That they gave their kisses freely, For they find a lover really May remember more than all the rest the kiss he did not get.

**Hal Storm.**  
 Thursday afternoon a tremendous hail storm passed over the section of Lenoir County between Griffin and Kinston. The storm was worse nearer to Kinston and broke the windows out of a number of houses. Crops were badly damaged, in some places almost ruined.  
**New Barns.**  
 Dr. C. M. Jones, of Grimesland, tells us a great many new tobacco barns are going up in that section. On the road from Grimesland to Greenville he counted twenty six new barns in four miles and says they are almost as thick over the rest of the way.  
**Trained Carp.**  
 It certainly is interesting to visit the fish pond in Riverside Nurseries and see the carp come up to be fed. Mrs. Warren has them trained so they come at the ringing of a bell and when bread is thrown at them they snap at it savagely. There are some very large ones in the pond.  
**The Meeting.**  
 The largest congregation so far during the meeting was at the Methodist church Sunday night to hear Rev. R. J. Moorhead. He used as a text the prayer of the Savior for His murderers who had just placed Him on the cross, "Father forgive them, for they know not what they do." This sermon was fully up to the other excellent ones he has delivered here. A brief after-service was held at the close of the sermon.  
**Struck by Lightning.**  
 Dr. McManaway was in Roanoke, Va., before going to Washington last week, and while there a young man, Mr. Joe Kasey, was struck by lightning while riding his bicycle. Mr. Kasey was out for a ride and seeing a small cloud coming up, he was hurrying home on his wheel when he was struck and instantly killed. This is the first case of this kind on record.  
 It is dangerous to ride a bicycle during a thunder storm as the speed of the wheel and the friction that is made in riding fast draw lightning.—Charlotte Observer.  
**Mr. Carrick's House Struck.**  
 During the severe rain storm last Friday evening, the residence of Rev. Thos. Carrick, in the S. uthern part of town, was struck by lightning, tearing several bricks from his chimney and passing down through same it divided, as the chimney was a double one, and went into five different rooms, tearing plastering from the walls and breaking several household articles. It also tore some weather-boarding partly off. No one was hurt and no very serious damage done, we are glad to learn.—Lexington Dispatch.

**They Must Be Dead.**  
 Mr. W. H. Flake tells us that since seeing the recent item about blue birds in the REFLECTOR, he has been on the lookout for them but has not yet discovered one. He also tells us that while talking with Mr. Joseph Smith on this subject the latter stated that during the freeze in February he cut down a dead tree and in a hollow of it found several blue birds packed in on each other, every one of them dead. No one has yet reported seeing a blue bird in this section since spring opened.

**Grand Herald.**  
 The Greensboro Record in publishing the list of officers of the Grand Lodge of Odd Fellows, in session in that city, with a brief sketch of each, says the following:  
 "Wyatt L. Brown, the Grand Herald, is a successful business man of Greenville, where he has built up for himself a nice reputation as well as lucrative business. He is one of the most zealous members of that live, progressive Lodge, Covenant No. 17. He was appointed Grand Herald at the last session of the Grand Lodge which is his first office in the Grand Lodge."

**The Roof Falls in.**  
 Workmen commenced Thursday removing the brickwork preparatory to adding another story to the store building recently purchased by Mr. S. M. Schultz. As the brick were piled back on the roof, and about noon the weight became so heavy that the middle section of the roof crushed through to the floor. A colored woman had just gone into the building to carry dinner to one of the workmen, and was so badly frightened at the falling mass that she did not stop to open the door but jumped through a glass panel and fell out upon her side slightly. Fortunately she was only slightly hurt. None of the workmen were on the roof at the time, having just come down for dinner.

**Work It Out.**  
 Newspapers sometime have a way of grabbing up a handful of big figures to throw at their readers, thinking that just because the numbers reach away up in the millions or to a billion the reader will walk around the pile without investigating whether the statement made is correct. For instance, we recently saw this statement in an exchange:  
 "A billion is so much that a man who can count three every second would have to count day and night for 10,000 years to get through with it."  
 Now that is a stunner, and the fellow who wrote it may have his eye on the chair of mathematics in some college, but any school boy who has studied half through the multiplication table can work it out in two minutes and see that in eleven years a man can count more than this item says he can get through with in ten thousand years.

**Shoes, Slippers and Gents Furnishing Goods—**at reduced rates at LANG'S.  
 Don't say you will start advertising when the trade gets better; start now when you need the trade.  
 Mr. Lovit Hines tells us that on Saturday he saw two blue birds near Winterville. These are the first reported.

Cards are out for the marriage of Miss Bette S. Johnson to Mr. James O. Proctor, Thursday morning, 30th. The marriage will take place at the home of Mr. and Mrs. Whitmel Hardee, in Greene county.  
 An invitation has been received from the Littleton High School to the commencement exercises which take place on the 28th and 29th instants.

## THE TOWN COUNCIL.

**The Other Officers Elected—A New Office Created—Salaries Fixed—Treasurer's Bond Accepted.**  
 The Town Council met in the Mayor's Hall Friday night for the purpose of electing the other officers connected with the administration of municipal affairs, fixing salaries, etc. There were present Mayor Forbes, Councilmen Smith, Godwin, Ruffin, Jenkins and Wilks.  
 While the clerk was reading the minutes a heavy lumbering was heard on the stairway that drowned his voice. This proved to be the Chief of Police with a drunken man whom he placed in the cell adjoining the hall. The man was so boisterous that he stopped proceedings and the Mayor ordered him removed to a further cell. When quiet was restored the clerk went on with his reading.  
 After the minutes were approved Councilman Wilks began some remarks about Councilman-elect Brown not coming to qualify within the time prescribed by law, when Councilman Godwin interrupted him by stating there had been office stealing enough and he was in favor of Councilman Brown being allowed to qualify whenever he should present himself. This statement was concurred in by the other members and the matter dropped.  
 A. L. Blow submitted a petition to the Council asking the adoption of an ordinance prohibiting the burial of dead bodies in any part of the town except Cherry Hill Cemetery and the lots lying between said Cemetery and Pitt street, which was laid over to be considered when the enactment of ordinances came up.  
 Treasurer-elect Godwin presented his official bond for \$5,000 with W. H. Harrington, O. A. Forbes, E. A. Moye and Samuel Cherry as sureties, which was accepted.

**ELECTION OF OFFICERS.**  
 Mayor Forbes then declared nominations for Tax Collector in order.  
 Councilman Godwin nominated Marshal Kinsaul. A ballot was taken resulting in Kinsaul 3, G. E. Harris 1, T. A. Wilks 1, and the Mayor declared Kinsaul elected.  
 Councilman Smith raised the objection that three votes was not a majority of the Council, when the Mayor ordered another ballot. The result of this was Kinsaul 3, Harris 1, Sam Bryant 1.  
 Councilman Wilks appealed to the Mayor to decide the question, when Councilman Smith suggested that the Mayor had no deciding vote except in case of a tie, and another ballot was taken resulting as before.  
 Councilman Ruffin moved to lay the matter over until next meeting but received no second.  
 Councilman Wilks again appealed to the Mayor for his decision, saying that if he would consult any records or any dictionary he would see that three votes was a majority of five, whereupon Councilman Smith noticing that only five Councilmen were present withdrew his objection and the Mayor declared Kinsaul duly elected.  
 Nominations were then declared in order for Night Watchman. Councilman Wilks nominated Elisha Williams. Councilman Jenkins said "I nominate the man down here at Mr. Harrington's stables, can't think of his name now." Some one suggested that it was J. W. Murphy. A ballot was taken resulting in Murphy 3, Williams 2, and Murphy was declared elected.  
 For Lamp Lighter applications were read from Peter Plummer and Sam Mayo and Councilman Smith nominated Moses Williams Ballot, Mayo 3, Williams 2, Mayo was declared elected.  
 For Trash Hauler Councilman Ruffin nominated James Edmunds and Councilman Wilks nominated Joseph Moye. The latter was elected.

**COUNCILMAN WILKS' BIRTH.**  
 At this point Councilman Wilks made some remarks on the subject and moved that one man be appointed at a salary to superintend the work of the town, etc. The motion was carried when Councilman Smith asked that the year and days be recorded on this vote. These were, yes—Godwin, Wilks, Jenkins; nays—Smith, Ruffin.  
 Nominations for this position were declared in order. Councilman Wilks nominated Councilman Jenkins. Ballot, Wilks 3, John Jenkins 1, Sam Mayo 1. Wilks declared elected.  
**SALARIES OF OFFICERS.**  
 The salary of the Mayor was placed at \$250, the same as before.  
 Councilman Jenkins moved that salary of Clerk be made \$100. Councilman Ruffin moved to make it \$75, which motion was carried. (It was \$50 last year.)  
 The salaries of the Chief and Assistant Police were each made \$35 per month and the Night Watchman \$20.  
 Councilman Jenkins moved to make salary of Lamp Lighter \$15 per month. Councilman Smith asked what had been formerly paid, and when told \$12.50 per month he said the old lighter would continue to serve at that price. Councilman Jenkins replied "the old lighter is out of it now," and the motion to make the salary \$15 was carried.  
 The salary of Trash Hauler was made \$1.50 per day.  
 Councilman Jenkins moved to pay the Town Superintendent, (the new office created) \$20 per month, and after some discussion this matter was, on motion of Councilman Godwin, laid over to another meeting.  
 Councilman Smith moved to allow each of the Policemen \$25 to purchase uniforms. Carried.  
 The Chief of Police was instructed to look out no tools belonging to the town.  
 Mayor Forbes made some sug-

gestions relative to the publication of the financial statement of the Treasurer and the matter was postponed for future consideration.  
 The meeting then adjourned subject to the call of the Mayor for the consideration of town ordinances.  
 Dr. O'Hagan has recovered the gold watch he lost Sunday. It was found near the road gate, about two miles from town, and the little adv. in the REFLECTOR brought it to him.  
 No good citizen can afford to stand in the way of a needed enterprise in his community, for personal gain, and the man who does it will, nine times in ten, live to regret his selfish action.  
 Speaking of the weather Mr. Alfred Forbes says he had been predicting that it would clear up by the 20th. He also says that the cold, wet spell for this May was the longest he ever saw.

Mr. W. H. Allen was driving along the street, Wednesday afternoon, and making too short a turn at the corner of Washington and Fourth streets he made a slip and measured his full length out on the ground.  
 An undertaker is no longer to be known as an "undertaker and embalmer." In the future he will be known as "mortician." This has been decided on at a meeting of the funeral directors' association of Kentucky.  
 The sum total of marriage licenses issued by the Register of Deeds last week was just two, one for white and one for colored persons. They were Thos Evans and Mary McLawhorn, Edgar Thigpen and Sidney Blount.

## THE TOWN COUNCIL.

**The Other Officers Elected—A New Office Created—Salaries Fixed—Treasurer's Bond Accepted.**  
 The Town Council met in the Mayor's Hall Friday night for the purpose of electing the other officers connected with the administration of municipal affairs, fixing salaries, etc. There were present Mayor Forbes, Councilmen Smith, Godwin, Ruffin, Jenkins and Wilks.  
 While the clerk was reading the minutes a heavy lumbering was heard on the stairway that drowned his voice. This proved to be the Chief of Police with a drunken man whom he placed in the cell adjoining the hall. The man was so boisterous that he stopped proceedings and the Mayor ordered him removed to a further cell. When quiet was restored the clerk went on with his reading.  
 After the minutes were approved Councilman Wilks began some remarks about Councilman-elect Brown not coming to qualify within the time prescribed by law, when Councilman Godwin interrupted him by stating there had been office stealing enough and he was in favor of Councilman Brown being allowed to qualify whenever he should present himself. This statement was concurred in by the other members and the matter dropped.  
 A. L. Blow submitted a petition to the Council asking the adoption of an ordinance prohibiting the burial of dead bodies in any part of the town except Cherry Hill Cemetery and the lots lying between said Cemetery and Pitt street, which was laid over to be considered when the enactment of ordinances came up.  
 Treasurer-elect Godwin presented his official bond for \$5,000 with W. H. Harrington, O. A. Forbes, E. A. Moye and Samuel Cherry as sureties, which was accepted.

**ELECTION OF OFFICERS.**  
 Mayor Forbes then declared nominations for Tax Collector in order.  
 Councilman Godwin nominated Marshal Kinsaul. A ballot was taken resulting in Kinsaul 3, G. E. Harris 1, T. A. Wilks 1, and the Mayor declared Kinsaul elected.  
 Councilman Smith raised the objection that three votes was not a majority of the Council, when the Mayor ordered another ballot. The result of this was Kinsaul 3, Harris 1, Sam Bryant 1.  
 Councilman Wilks appealed to the Mayor to decide the question, when Councilman Smith suggested that the Mayor had no deciding vote except in case of a tie, and another ballot was taken resulting as before.  
 Councilman Ruffin moved to lay the matter over until next meeting but received no second.  
 Councilman Wilks again appealed to the Mayor for his decision, saying that if he would consult any records or any dictionary he would see that three votes was a majority of five, whereupon Councilman Smith noticing that only five Councilmen were present withdrew his objection and the Mayor declared Kinsaul duly elected.  
 Nominations were then declared in order for Night Watchman. Councilman Wilks nominated Elisha Williams. Councilman Jenkins said "I nominate the man down here at Mr. Harrington's stables, can't think of his name now." Some one suggested that it was J. W. Murphy. A ballot was taken resulting in Murphy 3, Williams 2, and Murphy was declared elected.  
 For Lamp Lighter applications were read from Peter Plummer and Sam Mayo and Councilman Smith nominated Moses Williams Ballot, Mayo 3, Williams 2, Mayo was declared elected.  
 For Trash Hauler Councilman Ruffin nominated James Edmunds and Councilman Wilks nominated Joseph Moye. The latter was elected.

**COUNCILMAN WILKS' BIRTH.**  
 At this point Councilman Wilks made some remarks on the subject and moved that one man be appointed at a salary to superintend the work of the town, etc. The motion was carried when Councilman Smith asked that the year and days be recorded on this vote. These were, yes—Godwin, Wilks, Jenkins; nays—Smith, Ruffin.  
 Nominations for this position were declared in order. Councilman Wilks nominated Councilman Jenkins. Ballot, Wilks 3, John Jenkins 1, Sam Mayo 1. Wilks declared elected.  
**SALARIES OF OFFICERS.**  
 The salary of the Mayor was placed at \$250, the same as before.  
 Councilman Jenkins moved that salary of Clerk be made \$100. Councilman Ruffin moved to make it \$75, which motion was carried. (It was \$50 last year.)  
 The salaries of the Chief and Assistant Police were each made \$35 per month and the Night Watchman \$20.  
 Councilman Jenkins moved to make salary of Lamp Lighter \$15 per month. Councilman Smith asked what had been formerly paid, and when told \$12.50 per month he said the old lighter would continue to serve at that price. Councilman Jenkins replied "the old lighter is out of it now," and the motion to make the salary \$15 was carried.  
 The salary of Trash Hauler was made \$1.50 per day.  
 Councilman Jenkins moved to pay the Town Superintendent, (the new office created) \$20 per month, and after some discussion this matter was, on motion of Councilman Godwin, laid over to another meeting.  
 Councilman Smith moved to allow each of the Policemen \$25 to purchase uniforms. Carried.  
 The Chief of Police was instructed to look out no tools belonging to the town.  
 Mayor Forbes made some sug-

gestions relative to the publication of the financial statement of the Treasurer and the matter was postponed for future consideration.  
 The meeting then adjourned subject to the call of the Mayor for the consideration of town ordinances.  
 Dr. O'Hagan has recovered the gold watch he lost Sunday. It was found near the road gate, about two miles from town, and the little adv. in the REFLECTOR brought it to him.  
 No good citizen can afford to stand in the way of a needed enterprise in his community, for personal gain, and the man who does it will, nine times in ten, live to regret his selfish action.  
 Speaking of the weather Mr. Alfred Forbes says he had been predicting that it would clear up by the 20th. He also says that the cold, wet spell for this May was the longest he ever saw.

Mr. W. H. Allen was driving along the street, Wednesday afternoon, and making too short a turn at the corner of Washington and Fourth streets he made a slip and measured his full length out on the ground.  
 An undertaker is no longer to be known as an "undertaker and embalmer." In the future he will be known as "mortician." This has been decided on at a meeting of the funeral directors' association of Kentucky.  
 The sum total of marriage licenses issued by the Register of Deeds last week was just two, one for white and one for colored persons. They were Thos Evans and Mary McLawhorn, Edgar Thigpen and Sidney Blount.

**Use of the Hump.**  
There are some men in this world  
who can answer any question that  
is put to them, and sometimes when  
they do not really know what they  
are talking about they will give an-  
swers that are not at all bad. One of  
these persons was once a keeper of  
the London Zoo. He was pestered  
by questions, but he always gave an  
answer. On a recent occasion, a  
countryman strolled in and, after  
looking curiously at the camel for a  
few moments, he turned to the keeper  
and said:  
"I say, mister, what's he have a  
hump for?"  
"What does he have a hump for?"  
repeated the keeper.  
"Yes, what's the good of it?"  
asked the visitor.  
"Why—er—to make a camel of  
him, of course," replied the keeper  
after some hesitation. "People  
wouldn't travel miles to see him if  
he didn't have that hump. Fact is,  
without it he might as well be a  
cow."  
The stranger departed well satis-  
fied.—Harper's Young People.

A New York physician says that  
women are more subject to  
writer's cramp than men; that they  
get it frequently when the work  
they are doing is surprisingly small  
to produce that result. He thinks  
the trouble must be the habit of  
using slenderer penholders. Large  
cork penholders, nearly an inch in  
diameter, and very light, are the  
best guard against the cramp, but  
they are worth much more as a pre-  
ventive than as a cure.

**OLD VIRGINIA WRAPPERS.**  
The Danville (Va.) Tobacco  
shops of the 27th says: "It  
is estimated that there is less than  
100 packages of old wrappers on  
sale in this city ranging in value  
from \$12 50 per hundred up. The  
number of packages of the like  
class of goods listed in Richmond  
is reported at 1,300, making a total  
of 1,400 packages, which practi-  
cally covers the old stock of  
wrappers now to be obtained by  
manufacturers. Taking into con-  
sideration these facts, the position  
of new stocks is not only de-  
cidedly strong, but the question  
of finding a sufficient supply to  
meet the most economical de-  
mands of the manufacturing in-  
terests are becoming serious."

The following clipping ap-  
peared some time ago in the Dan-  
ville Tobacco Journal. It was  
sent to us by a friend in Rich-  
mond, Va., with the words from  
him "Urge your farmers to make  
wrappers." Since it first ap-  
peared it has been copied in quite  
a number of Northern agricul-  
tural papers and several in this  
State. Much significance seems  
to be attached to the fact that  
nearly all old wrappers have  
been used up and that wrappers  
in future will be in strong de-  
mand.

This is only a natural sequence  
when we take into consideration  
that there has not been a wrap-  
per crop since '90, meanwhile the  
consumption of wrappers has even  
increased. Take warning and  
grow wrappers this year.

**SMARTEST OF CATS.**  
"Mrs. Muggins" Kills Rats Just for  
the Glory There is in it.  
A family living out in the subur-  
ba thickets it possesses the smartest cat  
in the country. The father of the  
family, after long hours of office  
work, has the habit of walking the  
floor for exercise. As soon as he be-  
gins his walk "Mrs. Muggins" falls  
into line behind him, and with head  
erect and tail waving in graceful  
curves, marches up and down and  
back and forth through the room,  
only varying the proceedings once  
in awhile by rolling over on her  
back as the man runs round. When  
the walk is over and "Mrs. Muggins"  
sees her master start for his big  
rocking chair she makes one  
bound, settles herself in the chair  
before he can get there, and with a  
contentance that speaks as plainly  
as words, looks up at him and says:  
"Did you ever get left?"

"Mrs. Muggins" is a very good  
mouser, and occasionally she will  
catch a great big rat in the barn.  
Of this feat she is always very  
proud, and invariably brings therat,  
after it is dead, to the house,  
where every member of the family  
must see it, and praise and pet her  
for bringing such a good, brave cat.  
The first time this occurred one of  
the members of the family took the  
rat on a shovel and threw it over the  
back fence, but in a very few min-  
utes "Mrs. Muggins" had it back  
again; again and again was it thrown  
away, but every time it was brought  
back. At last the two compromised  
matters by allowing the rat to re-  
main just outside the back door by  
the side of the step. There it stayed  
all day until evening, when it was  
found out why "Mrs. Muggins" ob-  
jected to having it thrown away.

The father had been home only  
a few minutes when "Mrs. Muggins"  
walked proudly into the sit-  
ting-room with her head aloft and  
the big rat dangling from her mouth.  
She went up to the man and laid  
the rat at his feet, looked up in his  
face and waited to be caressed and  
praised. After she received the de-  
sired attention she allowed the rat  
to be carried away and cared noth-  
ing more about it.

Now the rats that are caught are  
always allowed to remain near the  
house until all the family have seen  
them.—Cincinnati Tribune.

**One Dollar Out.**  
An old man who kept a provision  
store in a factory town was more  
or less old in his ways, and by  
some persons was thought to be  
"not over and above bright." The  
rougher young fellows of the  
neighborhood called him  
"Old Pro," and in other respects  
treated him rudely. One day  
three of them, to use their own  
expression, "put up a job on him."  
They filled into the shop with  
an air of importance, and one of  
them demanded:  
"How much do you ask for a  
yard of pork?"  
"One dollar," answered the old  
man.  
"I'll take a yard," said the  
spokesman.  
"Where is your money?"  
The dollar was produced, the  
dealer pocketed it, and handed  
the customer three pig's feet.  
"How is that?" said the fel-  
low.  
"Why," answered Old Pro,  
"three feet make a yard, don't  
they?"—Youth's Companion.

**A STARTLING STATEMENT.**  
American Women Spend \$20,000,000  
a Year for Cheating Gum.  
A recent bulletin of the Young  
Women's association contains the  
following statement, which is  
signed by Charlotte Carmo, and  
which she claims is not exaggerated,  
but founded on the best authority.  
She says: "We have in the United  
States a population of 60,000,000—  
with an average of one minister to  
every 800 souls. The total popula-  
tion of the foreign field (counting  
Mohammedans and Catholics) is 1,181,000,000—  
with only 2,523 or-  
dinary Protestant missionaries—an  
average (in round numbers) of one  
missionary to every 400,000 of the  
annual expenditure for Christian  
work in the United States by Pro-  
testant church members is \$80,000,000.  
This \$80,000,000 is expended for  
the evangelization of 1,181,000,000—  
one-third of a cent each. Every year  
we women of the United States  
spend \$125,000,000 for dress goods,  
\$25,000,000 for kid gloves, \$20,000,000  
for ostrich tips and, most appal-  
ling of all, \$20,000,000 for cheat-  
ing gum."

**OVER A HUNDRED YEARS AGO.**  
A few years ago a Virginia cor-  
respondent to the Petersburg In-  
dex and Appeal in writing upon  
the early history of tobacco quoted  
from Burk's history of Virginia  
to prove that tobacco was first  
found growing in Virginia soil.  
According to the best authority  
Sir Walter Raleigh first discovered  
tobacco on Roanoke Island on  
the eastern shore of North Caro-  
lina. Be that as it may, for a long  
time we have contemplated that to-  
bacco was a plant adapted natu-  
rally to the eastern soil, and there  
is no doubt but that there was a  
time when tobacco formed one of  
the principal crops in the eastern

**MAKING AXES.**  
A Business Once Carried On by  
the Village Blacksmiths.

But Labor-saving Machinery has Robbed  
Them of Their Monopoly and Greatly  
Cheapened the Production—An  
Interior Article Made.

Within the memory of men now  
living, the manufacture of axes was  
quite generally carried on by coun-  
try blacksmiths, who employed the  
time when regular work was dull in  
making axes to good customers, says  
Hardware. A sell tool was re-  
quired to stand in hard and frost-  
timber, and not every blacksmith  
was able to do the work. Those who  
possessed the most skill found the  
demand for their axes increasing,  
and so it came about that the mis-  
cellaneous work of the shop was aban-  
doned by an occasional welder of  
the hammer, who devoted his time  
largely to the production of his spe-  
cialty. He soon found that the old  
shop should be wheeled to drive a  
mountain stream hard by the old  
shop could be altered, to means of  
the hammer to lessen his outlay of phys-  
ical force and to increase his output,  
and thus by degrees the modern  
shop was established.

Until the power hammer came into  
use the ax was formed either by  
punching a small hole through a bar  
of iron, and then gradually enlarged  
to form the eye of the ax, or the bar  
of iron was hammered thin in two  
places, after which it was folded to-  
gether so as to bring these cavities  
opposite each other to form the eye.  
In either case, as soon as the eye  
was formed, the cast steel was  
welded on to form the bit or cutting  
part of the ax, and the blades and  
head were given their respective  
shapes, to conform to the customer's  
design, according to the workman's  
ability.

It being difficult to punch a hole  
straight through a thin, wide bar of  
iron, that method of forming the eye  
was not greatly used, and was al-  
together abandoned as power hammers  
came into use and all axes were  
"plated" under the hammer. A few  
small shops continue to make axes  
after this manner, but all manufac-  
turers of importance, not only form  
the eye either by the use of rolls or by  
means of punches. The punch seems  
to be growing in favor among man-  
ufacturers, but each method has its  
warm supporters.

In early times no attention was  
paid to finish. The one great aim  
was to produce an ax which would  
neither break nor bend when thin-  
ning, and to chop easily. Clearly, then,  
as now, the best maker of axes was  
the one who could bring out such  
result; but strife among manufac-  
turers to secure trade, and the de-  
sire of buyers to get nicely-finished  
goods, has gradually led to the pro-  
duction of tools which are beautiful  
and sometimes good. It is not to be  
implied that beauty of finish neces-  
sarily implies inferiority of quality.  
On the contrary, some makers study  
to combine in a high degree both  
quality and finish; but the decided  
tendency of the trade has been of  
late to please the eye, and at the  
same time produce something so  
cheaply that, if dealers could be de-  
ceived, would enable the deceiver to  
book large orders.

So marked has been the decline in  
prices at which axes have been sold  
during the past decade that the  
cause must be sought, in part, out-  
side of the fact that materials are  
cheaper and that labor-saving ma-  
chinery lessens cost of production.  
Often cheaper and unsuitable ma-  
terials are used, and machine meth-  
ods of manufacture are adopted,  
which are not warranted, some even  
going so far as to make axes entirely  
of soft steel, give them a nice finish  
and sell them to those who will have  
axes very cheap.

**A Remarkable Family.**  
On one of the estates of Count  
Potocki, in Galicia, Austria, the  
very rare event of a mother, daughter  
and granddaughter each giving  
birth to a son on the same day oc-  
curred, says the London Standard.  
The mother is forty-eight, and the  
infant son is her sixteenth child.  
The daughter, who has presented her  
husband with his eighth, is thirty-  
three years old; and the grand-  
daughter, who was married last  
year, is not yet quite sixteen. All  
the three new-born sons are strong  
and healthy, and the same may be  
said of their mothers, who belong to  
the Polish peasant class.

**Friends Were Too Friendly.**  
John G. Whittier was greatly  
loved by strangers, who not only  
called on him, but thrifty insisted  
on putting up with him all night.  
"There has no idea," said his sister,  
"how much time Great-leaf spends  
trying to lose these people in the  
streets. Sometimes he comes home  
and says, 'Well, sister, I had hard  
work to lose him, but I have lost  
him. But I can never lose a her-  
mit. The women are more pertinacious  
than the men; don't they find them so,  
Maria?'"

**No Longer Veal.**  
An English clergyman was preach-  
ing in a country church in Scotland.  
He had as his subject: "The Prodi-  
gal Son." "And the prodigal son  
went away from his poor old father  
and remained in a far country for  
years and years, and his father  
mourned his absence for  
years and years. But after years  
and years he came back to his poor  
old father, and his poor old father  
said unto his servants, Bring forth  
the fatted calf which has been kept  
for my son these years and years."  
An old farmer in the audience could  
not contain himself no longer: "Ye'r  
le'er, it wud ha bin a coo," he ex-  
claimed.—Ivan's Hora.
