VOL. XV.

GREENVILLE, PITT COUNTY, N. C., WEDNESDAY, JUNE 17, 1896.

NO. 23

Two Papers for \$1.50. We have made arrangements to furnish the REFLECTOR and North Carolinian for the above amount. This is campaign year and you should take the two leading papers.

At War With the United States. No longer ago than yesterday it was said that there was less probability of a armed collision between the United States and Spain than at any time since the outbreak in Cuba...

Weekly Crop Bulletin. The reports of correspondents of the Weekly Crop Bulletin, issued by the North Carolina Climat. and Crop Service, for the week ending Saturday June 16, 1896, indicate in general fair progress in the growth of crops and in harvesting. The temperature was below the normal every day, excepting Sunday (May 31st) and Saturday (June 6th)...

THE OLD-FASHIONED HEAVEN. SHALER G. HILLYER. 'T'pears ter me, wife, that the doct'rines Which we now hear preached an' sung, Ain't exactly as we heard 'em long in the days when we're young. T'ey are now not high so import'nt, An' they seem to have grown mo' kind-- Is the world mo' lar'n'd or better? That it's leavin' its hardness behind?

HEAPER WHEELS. Bicycles are cheaper this year than ever before, but still the bottom figure cannot be reached as yet. No longer ago than last year people hesitated before buying a cheap wheel, or one of a model that had not received the test of several seasons; and with reason. Those who bought a low-priced wheel for economy often had to trundle it home as the result of a breakdown, or spend nearly the machine's price in keeping it repaired.

Just at This Time o' Year. New York is standing aghast over the disappearance of the wealth of its millionaires. The Vanderbilt's who have suffered from inflation reports that they are worth \$200,000,000 or \$300,000,000 are hardly able to scrape up \$8,000,000 to put on the tax lists.

TEMPERANCE DEPARTMENT. THE FIRST GLASS. MRS. M. L. P. Young man, touch not the ruby wine, There's danger in the bowl; D-nger to danger and happiness, And danger to the soul.

Royal Baking Powder. ABSOLUTELY PURE. Highest of all in Leavening Power.—Latest U. S. Gov't Report. PROFITABLE PUBLICITY. WAKE FOREST ITEMS. One week of vacation has passed, and already we hear of preparation for the return of the students.

Notes and Opinions. The present house has unseated nine Democrats. There is an old oak tree in the State of Georgia that is twenty-seven feet in diameter. The magnolia tree was named after a French professor Magnol, a naturalist, who died in 1715.

CENTRAL DISTRICT. Cool and cloudy weather prevailed, with plenty of rain and deficiency of sunshine until Saturday. Over most of the District the rain-fall was gentle and beneficial, but heavy rains washed lands in a few counties (chiefly Guilford and Randolph.)

Not too Funny. It doesn't pay to be too funny. A man who formerly boarded at a Mamie hotel used always to call for "old hen" when he saw chicken on the bill of fare. The table girl and cook there, upon prepared for him, and whenever chicken was served an old hen was provided, and this particular boarder always got a generous piece of that.

Jenny Lind Sung For Him. Edward V. Eccles, the veteran musician, who died within the past week at his home on North 13th street, was fond of telling this anecdote of his youth: "It was about the beginning of the war," he invariably began, "I was then a clerk in a large music-publishing house on Chestnut street. One day a well-dressed quiet little woman entered the store and asked me to show her some music of a classical nature."

A SONG OF DAYS. Lazy days an' daisy days, An' time to take yer ease, Rollin' in the clover, Or hummin' 'bout the bees. Merry days an' berry days, An' time to slip a makin' Where the river's makin' music Under mosses cool an' gray.

HOW IT PAYS. BY EDWARD CARSWELL. He was seated on a Park bench—a dilapidated-looking fellow—and seemed to be reading a letter or paper which he held in his hand. "You seem to be much interested in your letter," I said, as I took a seat on the same bench.

A Piece of Columbus' Flag. The Trinity College Historical Society have had presented to them a remarkable and highly prized relic, and one that is indeed valuable. It is a piece of the flag that Columbus raised at San Salvador, when he landed on the newly discovered continent of America and took possession of it in the name of Spain.

WEDNESDAY, June 17th, 1896.

The Republican National Convention met at St. Louis to-day. It is thought that the convention will continue through the entire week, probably longer. We predict the convention will nominate McKinley and adopt a platform that is a straddle on the money question.

The hotels in St. Louis are still cancelling all engagements to entertain negro delegates to the Republican convention. Where board had been secured for state delegations they are informing these delegations that they will have to look out elsewhere for their colored delegates. The latter will all be put off at one hotel to themselves.

Commencements have been held during the present week at Davidson College, Trinity College, and the A. M. College. At each place large crowds were present and the exercises of a very high order. The reports of each college showed that the institution was in good condition and the work done better than any previous session. This closes the commencements for the year.

In some of our exchanges we have seen the name of Maj. E. J. Hale, editor of the Fayetteville Observer, suggested as a delegate at large from this State to the Democratic National Convention at Chicago. The REFLECTOR is in hearty accord with this suggestion and believes that the State could have no nobler representative in the convention than Maj. Hale.

Some of the colored delegates to the Republican National Convention, in St. Louis, must be tough looking customers. One of them from Texas got lost on the streets of St. Louis, Saturday night, and began stopping pedestrians to inquire his way. One man who was thus stopped thought he was being held up by a robber and shot the delegate.

EDITORIAL NOTES.

Congress adjourned Thursday. The closing hours were tame with the exception of some political remarks made by Mr. Bailey, of Texas. The work of the session and about the only work has been to spend all the money possible. Big pension bills and big appropriation bills are and will be their only monuments.

The Populist of Granville county have held their county convention and nominated a full Populist ticket for all the county offices. They say they are tired of fusion with the Republicans as it means bad government. The convention, it is said by the Oxford Ledger, was an exceedingly orderly one and the ticket nominated has some splendid men upon it.

Judge Graham, who has been prominently mentioned as a candidate for congress in the Fifth District, is out in a letter saying that though the prospects of being elected if nominated are so flattering, yet business engagements and other duties will prevent his allowing his name to be put before the convention. W. W. Kitchen, of Roxboro, the talented son of Capt. Kitchen, of Scotland Neck, is a candidate for the nomination.

Col. Edward D. Hall, a prominent citizen of Wilmington, died Thursday morning, 73 years of age. During the war he was in the front, part of the time as colonel of the Forty-sixth North Carolina Infantry. In 1872 he was Democratic candidate for Lieutenant Governor, was twice elected mayor of that city, and was appointed by President Cleveland inspector of customs. He died at the time of his death.

Some philosopher has observed that a man sometimes obtains a reputation for being close because he pays all his debts and hasn't any money left to get a reputation with for being liberal. We all know the folks who get a reputation for liberality by subscribing largely to all benevolent purposes but never pay the subscriptions; and we all know others who subscribe liberally and pay but pay with somebody else's money—that is, with money they honestly owe. They are seen of men and applauded while often the fellow who pays his honest debts and therefore has little to spare is called a skin flint because he doesn't defraud his neighbors by giving money away that he owes to them. But such is life. The Statesville Landmark says it, and it is so.

LET'S TAKE A LOOK.

And See What Greenville is Doing.

On the 16th of February Greenville had a big fire. In that fire twenty-two buildings were destroyed, fourteen of them being brick stores. This fire was a heavy loss to the town and for awhile made things look gloomy indeed, some few people being even ready to say that the town was ruined and would never rebuild.

The smoke of the fire had hardly cleared away before plans were on foot for some new buildings. It has now been only four months since that fire and in this time one brick store has been completed and is occupied, three others are so near completed that they will be ready for the occupants in about two weeks, five others have the walls up to the height of second floor, the foundations for three others have been laid, and brick are being placed on the site for one other. Count this over now and you will find thirteen brick stores, only one less than the town lost in the fire. Let it be noted also that every one of these new buildings is much better, more substantial and handsomer than the old ones they take the place of.

The frame offices of Dr. Bagwell and Messrs. Blount & Fleming has been replaced by a handsome building that is a decided improvement over the old one. This will also be ready for use in a few weeks more.

And these stores and offices now in progress are not to be the end of building improvements in Greenville. There are still other movements on foot that mean good things for the town. The REFLECTOR has already heard it as coming from a man who owns splendid building lots that he is "going to surprise the people yet," though he is not quite ready to let his plans be made public.

So much for what is going on in the portion of the town that was swept by fire. But improvements do not stop here. Almost every portion of the town is going ahead and showing advancement. There is no stopping Greenville's march of progress, you just can't hold the old town back.

MEMBERS NOT PROMPT.

EDITOR REFLECTOR:—Please allow me enough space in your columns to say a few words regarding Hope Fire Company. We organized in April, 1895, and had two or three good meetings. The second Monday night in each month was selected as our regular time for meeting. The Foreman called meetings time and time again and we would not have enough men present to make a quorum.

A meeting was called on the 27th of May '96, for the election of officers and more than twenty men were present. Now I wish to know how in the name of common sense, a few men, less than a quorum, can be expected to keep the company in existence, much less in good working order. A meeting was called for Monday for the purpose of drill practice, and six members, out of twenty-eight enlisted, reported at the engine house.

I am aware of the fact that we have received very little encouragement from the town authorities and business men, but how can we expect to be encouraged by any one when the members manifest no interest whatever in the company or its meetings. I am informed that the purchase of a steamer is in contemplation; if it is purchased, in whose hands is it to be placed for operation in times of necessity? Is a system of water works in put in here, who will have charge of the hose reels? Now my advice to the members of Hope Fire Company is to attend its meetings and drills, or else disband and so inform the Town Councilmen, that they may know what to depend upon as the town advances in the proper step it is taking towards equipping itself with a better fire apparatus. PITT COUNTY TAKES THE LEAD.

She Has Tobacco Lands That are Unsurpassed.

BY O. L. JOYNER.

There is no section of North Carolina, excepting not even the far-famed south side in historic old Granville, that rivals the section just below Greenville known as Red Banks, in the production of bright tobacco.

For the last seven or eight years the people of this section have been cultivating tobacco in a greater or less degree and never do we remember any year, however unfavorable the circumstances might have been, that a fair crop was not made and of such quality that it sold for leading prices.

There are several reasons which can be very properly assigned for the good crops that are made in this section. First and most important is the nature of the land. It is of a light gray loam and just undulating enough to make the drainage about natural, hence there is but little damage to the crops from wet weather. The primitive growth of this land is oak, dogwood, hickory, and, plus of course, but it is almost universally true that when dogwood, hickory and oak constitute the primitive growth of land tobacco can be successfully grown.

Another very important agency which contributes its full quota toward making successful crops is the industry of the people. A class of people live there that do the most of their work. In other words they are a hard working class of people and when they employ help they make the help help something, which is very commonly neglected here in the south, and last, but by no means the least to be regarded, is the fact that the majority of them are small farmers who own from fifty to one hundred and twenty-five acres of land, and who cultivate their land more upon the intensive than the extensive system. Small farms are today becoming popular all over the south and in some sections of our southern states where a few years ago were large tracts of land from a thousand to five thousand acres in a single tract are today divided up and constitute a number of farms. The old time southern farms of ante-bellum days with their princely homesteads are annually becoming more dilapidated and are being rapidly converted into smaller farms, and where a few years ago one man owned and controlled his thousands of acres which were cultivated by slow labor to day is divided up into one hundred acre farms and to all appearances this class of farmers are getting along and doing better than the large land owners. Why this is, no one seems to know except that it is so. Our conditions are changed and the methods must necessarily be changed also, but the writer is not one that believes that large farms cannot be managed as profitably today as formerly, although it is a popular idea and is advocated by our most scientific agriculturists, and practically demonstrated by a great many of our farmers, notably those that we have described above.

Yet we firmly believe that if proper business methods were employed, the large farms could be made to pay as profitable dividends in proportion to the price of farm products as formerly, and we believe in a few years this will be practically and conclusively proven. Suffice it say in this connection that we believe that our people are too slow to adapt themselves to the changing conditions that are constantly going on and in this we believe lies the secret of the failure of a majority of large farms. As this article was not intended for a discussion of large and small farms we take occasion to say that we shall revert to this subject at an early day.

Small farms cultivated upon the intensive system as a matter of logic will pay better than a large farm loosely managed. This section that we have above referred to which is about 5 to 8 miles wide and 10 to 12 miles long is managed and cultivated upon the intensive system, hence we give it as one of the reasons for the successful farmers in this section.

A Court Incident in Greensboro.

Saturday afternoon Justice Keith suddenly adjourned his court in the midst of a hearing and said he desired to relieve his mind. He relieved it and then got choked by a strong hand grabbing his neck from behind and jabbing his worship's face on the table in front of him, the jobber being John A. Baringer, Esq., a member of the bar. Having adjourned court the justice was powerless to order him in contempt.—Greensboro Record.

One of our exchanges is authority for the statement that the pastor of a Chicago church is trying an experiment to induce people to attend. In order to attract people to prayer meeting he provides lemonade and ginger snaps, which are served gratis. The idea is novel, but the experiment is of doubtful utility. A religion with free lunch accompaniment to make it go seems severely afflicted with incipient lethargy that may develop into inevitable oblivion, so to speak.

W. M. Sherrill, formerly editor of the Lexington Dispatch, has started a weekly paper at Greensboro called the Guilford Herald. We wish him success.

WASHINGTON LETTER.

[From our Regular Correspondent.]
WASHINGTON, D. C. June 12, '96.

President Cleveland adhered to his sensible rule of refusing to go to the Capitol to sign bills passed during the last hours of the session, and insisted upon having all bills sent to the White House, where he could give them careful examination, as is usually the custom.

By far the most interesting event of the closing hours of the session of Congress was the short humorous speech made in the House by "Private" John Allen, of Mississippi. After referring to the "universal criticism" of his silence during the session, he said: "I desire to say, however, that there has been little at this session of Congress to inspire a man to be loquacious. And I want to say further that I am not the only great statesman whose recent career has been distinguished by his silence. There are a good many of us leaders, Mr. Speaker, who have not been talking much lately. But I have not got anybody to go around and certify as to what my views are. I notice that a distinguished gentleman, who they say is about to be nominated for the Presidency of the United States, has a man in every hall giving a certificate of what his views on the financial question are, but we cannot hear anything from him. Now I do submit that people are authorized to certify all sorts of ways for him, for he has certified all sorts of ways for himself in times gone by. I have a number of his speeches in my pocket. I do not know which one he stands on now, but he has stood on all sides of this question, and people are giving out certificates for him on all sides of the question. They say that an egg that goes around the country with a certificate that it is a good egg is not a safe egg to buy, because, they say that egg never starts out with a certificate until it gets under suspicion." Mr. Allen's speech was interrupted at every sentence with laughter and applause and it was evident that Speaker Reed enjoyed his whacks at McKinley.

Gov. Boies, of Iowa, who is himself a candidate for the Democratic nomination, doesn't take any stock in the idea that Senator Teller, or in fact anybody but a tried and true Democrat, will head the ticket nominated by the Chicago convention. In a letter from Gov. Boies, received by a close friend in Washington this week, he says: "It would in my judgment, be absolutely impossible to unite any considerable number of the delegates to that convention in favor of nominating any one outside of the party, for the head of the ticket, at least."

The House and Senate split their differences on the battleship question, and the bill as sent to the President provided for three battleships, one to be constructed on the Pacific coast, provided it can be done at a cost not exceeding 4 per cent in excess of the price paid for the others, and directs the Secretary of the Navy to make no more contracts for armor plate until Congress acts on the subject.

Representative Stallings, of Alabama, denounced the remarks made by Representative Linney, of N. C., in favor of the unsetting of Representative Underwood, of Alabama, which was accomplished by a vote of 117 to 107, as "the dirtiest abuse of his own section ever delivered by a white man."

Secretary Carlisle's answer to the Senate sub-committee which will investigate the bond issues, by direction of a Senate resolution, was given to the papers this week. It is a long document and goes quite fully into the details of the bond issues, giving the reasons for every act of the administration in connection therewith, and showing that the causes originated under Harrison's administration. It is expected that Secretary Carlisle will be one of the first witnesses who will be heard when the investigation begins, which will probably be inside of ten days.

Senator Gallinger, of New Hampshire, who has aspirations to help manage McKinley's campaign, was asked what sort of a platform the St. Louis exposition would adopt. His reply was: "It will be the kind of a platform that will win." That is the whole story. While there are a few Republicans like Senator Hawley, who is a single standard gold man, and Senator Teller, who is a silver man, whose principle above everything else, the great majority of the party and of the delegates to St. Louis, are intent upon framing a platform that will win, regardless of principles.

Nearly all the Republican members of Congress have gone to St. Louis to help fix up that staidly to be used as the financial plank of the Republican platform.

While it is generally believed that McKinley will get the Republican nomination, his managers have got to keep wide-awake or they will see him get tripped out of it. There has been a heap of plotting here, and if an opportunity is given them the plotters will upset the McKinley machine.

Patrick Sullivan, 27 years of age, jumped from Brooklyn Bridge into East river. He was picked up by a passing tug and placed under arrest on the charge of attempting to commit suicide. The only injury he sustained was a slight sprain of the right ankle.

WHAT FREE COINAGE MEANS.

The free and unlimited coinage of silver means that neither the President nor his Secretary of the Treasury would be allowed any longer to boycott the four hundred and twenty-eight millions of standard silver dollars now in existence. The powers that could re-establish silver coinage would compel the use of silver with gold in the redemption of greenbacks. This would do away with the false pretense that bonds must be sold with which to buy gold to redeem greenbacks. It would remove the constant menace by the gold gang that the legal tender quality shall be taken away from the vast amount of silver dollars now in existence. It would add enough to the money in circulation in the country each year to keep pace with the increase of population and the requirements for domestic exchanges. It would make all the silver bullion in the world worth just as much as though it were already coined into dollars. It would stop greenbacks from being presented at the Treasury, because Hei rebach, Ickelheimer & Co., and the rest of the breed of gold speculators would be offered silver when they demanded gold, and they would not want it. Free coinage would guarantee the stability of the currency.

The grinding contention now going on would cease. The borrowed surplus in the Treasury of nearly \$200,000,000 would be expended in grand public improvements, including coast defenses, and thus be restored to circulation among the people. It would gradually raise the general level of prices. The production of wheat and other farm products would be resumed on the former scale. Manufacturers of every description would no longer engage in a mere hand-to-mouth production, but would manufacture for the requirements of the coming year. This would give work to those now in distress, and would enable laboring people themselves to buy what they are now doing without, under the harsh compulsion of poverty. The commerce between forty-five States would be resumed; railroads would be taken out of the hands of receivers, because they could again earn interest on their debts and expenses and something more. The occupation of the panic maker would be gone. With free coinage would come a President and Secretary of the Treasury who would not spend half their time bawling o the world their government is bankrupt and compelled to sell its bonds at 20 per cent discount from the interest rates of the world to enrich favored syndicates for some unobtainable reason. Free coinage would stop the borrowing of money in time of peace for the purpose of obtaining gold with which to pay obligations made payable in gold.

In brief, free coinage would mean a back seat for the bears of New York stock market, and for the pawn brokers throughout the country. It would mean that money would be more produced when invested in business enterprises than when laid away in a napkin to breed upon itself. It would mean fair play among men, and only 100 cents on the dollar in the payment of debts.

A free coinage is coming unless bribery and corruption are stronger in the land than the honest expression of the people's will.—Cincinnati Enquirer.

Gov. Carr has received a letter from the Secretary of the Navy saying that as the cruiser Raleigh drags 20 feet 3 inches of water it will be dangerous to take her across the bar at Southport that the testimonial may be presented at that place. The Secretary suggested that the presentation be made at Norfolk or Hampton Roads.

Oakley Items.

OAKLEY, N. C., June 15, 1896.
Miss Alice Ivey, of Seven Springs, is visiting Miss Mary J. Whitehurst.
F. G. Hines, of Rocky Mount, arrived here Saturday evening and is visiting J. O. Williams.

Mrs. Bettie Andrews returned home Tuesday from Newbern where she has been visiting relatives.

S. R. Ross of this place is the champion potato raiser. He got 54 barrels off of one-half acre. Let us here if any one has done better.

Mrs. George W. Daniel and little daughter Johnnie, of Roanoke Rapids, spent Thursday and Friday night here visiting the family of S. H. Taylor and left Friday to visit her daughter Mrs. Thad. Moore, at Grimesland.

MARRIED—At the residence of the bride's mother Mrs. Emily Peel, of Martin county, on Wednesday June 10th, at 12 o'clock, James B. Whitehurst and Miss Mary E. Peel were united in the holy bonds of matrimony, Elder Henry Peel officiating. The attendants were H. B. Peel with Miss Mary Whitehurst, W. J. Jenkins with Miss Emma Griffith, J. H. Taylor with Miss Callie Whitehurst, J. F. Whitehurst with Miss Lula Robertson. Immediately after the ceremony the bridal party left for the home of the groom where a reception was held. May their lives be long and happy and may no sorrow cross their pathway, and when they are called from hence may they reach that peaceful abode where all is love, peace and unity.

Dall-Laughinghouse Marriage.

Messrs. J. J. Laughinghouse, Jack Laughinghouse, A. J. Griffin, Charlie O'Hagan, Master Lee Stewart, Mrs. W. H. White and Miss Lula White went to Snow Hill yesterday to attend the marriage of Miss Carrie Dall, of that town, to Dr. Charles O'Hagan Laughinghouse, of Greenville, which took place in the Methodist church there this morning. Mr. Griffin tells us that the church was filled with friends to witness the ceremony, which was performed by Rev. Mr. Earnhardt. The bride and groom left for Goldsboro to take their bridal tour. The Greenville parties returned home to-day.

Seven Springs.

Mr. J. A. Ricks, who returned Monday from a week's stay at Seven Springs, tells us it is one of the nicest and most enjoyable places he ever visited. A portion of the week there were as many as thirty guests there, and always enough to make an enjoyable crowd. The proprietor, Mr. J. H. Foville is a hotel man right and looks well to the comfort and care of his guests.

The Book Has Not Appeared.

Some time ago an old maid from Connecticut came down South for the purpose of writing a book on "Slavery and Its Horrors." The would-be authoress got off the train at a little way station in South Carolina, and seeing an old darkey sunning himself on a bench by the side of a greasy store, she went up to him with pencil and pad in hand for an interview, and according to the old fellow she said: "Uncle, did you ever wear a chain?" The old darkey replied: "Yesum, yesum, dat I did."

"Who took that chain off you?" the lady asked.

"Sherman's men, mam," replied the ex-slave.

"What brave, great-hearted noble men," said the authoress. Do you not feel grateful to those boys in blue for taking off that galling chain of oppression?"

"No, dat I don't," replied the old fellow, "for when dem blame Yankees took off dat chain dey took off dat silver watch what was hung to hit dat old Marster gib me to keep while he wuz in de wail."

"That book on 'Slavery and Its Horrors' has not yet appeared.—Monroe Enquirer.

Mayer Forbes had John Plummer, colored, before him Saturday for cursing on the streets. John was told he could get his release from custody by contributing \$3 to the town treasury.
A Greensboro physician is authority for the statement that onions make a nerve tonic not to be despised. They tone up the worn out system, and if eaten freely will show good results in case of nervous prostration. If a sprig of parsley is dipped in vinegar and eaten after an onion no unpleasant odor from the breath can be detected. And in addition to this valuable and important bit of information, onions eaten freely will, also he says, beautify the complexion.

Thomas J. Jarvis is the man to marshal the Democratic forces in the coming campaign, if he can be induced to accept the position of Chairman of the State Democratic Executive Committee. As a political organizer, the Star does not believe he has a superior, if an equal, in the State. Jarvis is a man of the people, and we feel sure he would be willing to assume the laborious duties of Chairman if unanimously called to that position.—Wilmington Star.

The Bank of Greenville.
This bank effected a reorganization on Monday and is capitalized at \$50,000 with \$25,000 of the capital paid in. In the reorganization a number of the most substantial business men of the county were added to the stockholders. The new officers of the bank are R. L. Davis, President; J. L. Little, Cashier. Since this institution was first started as a private bank by Messrs. Tyson & Rawls it has had a successful career, and now under its reorganization and increased facilities it will go on to still greater success and accomplish even more good for Greenville.
The announcement of the bank appears in another column.

GREENVILLE WINS. The colored baseball club went with the excursionists from Greenville to Washington and played a game of ball with the club of the latter town Thursday afternoon. The score was 4 to 1 in favor of Greenville.

Ladies' Book of Beauty.
Send twelve 2-cent stamps to The Travie Company, Boston, Mass., for Marion Hurland's "Practical Talks" about food, exercise, clothing, complexion, beautifying, teeth, dressing, etc. Regular price, 75 cents.
Death in Oxford.
Mrs. L. W. Starke died quite suddenly in Oxford on Sunday morning. Mr. Starke spent last fall in Greenville while her husband was a tobacco buyer on this market, and the many friends she made among our people learn of her death with regret.
Couldn't Get Third Class.
A man went up to the ticket window at the depot, Thursday evening, and bought a second class ticket to Kinston.
"What are you buying a second-class ticket for?" asked an acquaintance.
"Simply because I can't get a third class one," was the reply.
New Mail Route.
Beginning August 3rd a three-week mail route will be established between Greenville and Grimsland. On this route a new postoffice called Tucker will be established at the store of Mr. G. M. Tucker, five miles below town. The REFLECTOR is glad to see that improvements continue to be made in the mail service through the county.
Struck a Joffin.
Thursday while excavating for the foundation to the Bernard building the workmen struck what was supposed to be the top of a coffin. They did not dig any further to investigate. It is remembered that many years ago the lot across the rear of the Elliott and Bernard property was used as a graveyard it was possibly one of the old graves that the workmen dug into.

Capt. Ashe for Treasurer.
The Democratic convention of Chatham county recommended Capt. S. A. Ashe, former editor of the Raleigh News and Observer, for nomination by the State convention for State Treasurer. A better and more deserving man could not be selected for the place. The REFLECTOR believes Pitt county would take pleasure in voting for him.
The Races.
The Greenville Driving Association have got out the programme for the races at the track here on the 4th of July. There will be four horse races, a mule race and a bicycle race. The horse races in the 3 minute class, the 2-40 class and the free for all will be for purses of \$100 each; the gentlemen's bicycle race for a purse of \$35, and the mule race for a purse of \$15. The admission to the races will be 25 cents for adults and 15 cents for children.
A Splendid Record.
The REFLECTOR has during the last week or two mentioned the high stand some Pitt county boys had taken at the schools they were attending. We are glad to know that our girls, too, are taking equally as high stand as the boys. To-day we saw the report of Miss Bettie, Tyson, daughter of Mr. R. A. Tyson, for the last half-session at Salem Female Academy. Her average on all studies was 99 3/4, showing that she obtained almost the perfect mark on every study.

Bethel Items.
BETHEL, N. C., June 9th, 1896.
J. H. Blount, of Greenville, passed through here Sunday evening.
Col. N. M. Hammond and Mayor D. C. Moore went to Plymouth Sunday evening to attend court there this week, they returned home this morning.
Prof. F. C. Manning, who has been spending the last nine months in Georgia and South Carolina, returned home this morning to spend the summer.
To Ocracoke.
Beginning next Saturday, 20th, the steamer Myers will leave Greenville on Saturdays at 2 o'clock P. M., connecting at Washington with steamer Virginia Dare which leaves the latter place at 10 o'clock P. M. for Ocracoke. The Virginia Dare will reach Ocracoke at 5 o'clock Sunday mornings and leave at 4 o'clock Sunday evenings, reaching Washington in time to connect with the Myers for up river points. The fare for the round trip, Greenville to Ocracoke and return, is only \$2.25, tickets good for the entire season.
Why Not Take Passengers?
The south bound freight train over the road between Weldon and Kinston now reaches Greenville at 12:50 P. M., and goes on to Kinston in time to connect with the train on the Atlantic road going east. Now if the freight trains on this road were allowed to carry passengers it can be seen at a glance what a convenience it would be to the people living along the road and those traveling this way. Besides the convenience to local travel, it would enable people to leave Greenville at 1 o'clock and reach Morehead the same evening, instead of having to spend a night and day in Kinston as at present. For some reason the railroad authorities early this year stopped passengers from going on these freight trains, but we hope they will see the convenience it would be to our people by putting a passenger coach on these trains again.

THE ENCAMPMENTS. The fourth Regiment of the N. C. State Guard will encamp at Charlotte, N. C. The ten companies comprising the fourth will consolidate at Statesville, and march from there to Charlotte, a distance of 44 miles. The march will be divided in stages so that it will only take four days. Maj. E. M. Hayes and Col. T. L. Smith will accompany the Regiment on the march. The plan of doing actual campaign duty is a new feature, but one which the officers think will prove popular.

The Second Regiment will encamp at Wrightsville, but it is doubtful whether the first Regiment will join in the encampment. The Government's Guard will not go into encampment this season.—Raleigh Press Visitor.
Still Better Mail Facilities.
Mr. H. H. Wilson, mail clerk on the railroad, told us Saturday evening that beginning on Tuesday 16th, the freight train arriving at Greenville from Weldon at 12:50 P. M., would bring mail to Greenville. This additional service is established for the purpose of bringing on the fast mail train, Weldon at night and under the old arrangement has been laying over in that town until the next evening before reaching here. Under this new arrangement much of our northern mail will get here six hours sooner. Mr. Wilson told us he had been at work several weeks trying to get this convenience added to the rail service.

Of Interest to Veterans.
Mr. B. F. Sugg, Secretary and Treasurer of Bryan Grimes Camp Pitt County Confederate Veterans, is in receipt of a letter from Mrs. N. V. Randolph, Richmond, Va., in which she says provision for rations and sleeping has been made for all old soldiers not able to pay their way, who wish to attend the reunion. Every old soldier who can possibly attend should report to his proper officer and let all arrangements be made for him. Mrs. Randolph also says that any ladies desiring to attend can have suitable boarding places found for them by letting their wishes be known.

Laughinghouse-Dail. On yesterday morning, at 7 o'clock, in the Methodist Church in this place, Rev. Mr. Eachardt officiating, Dr. Charles O'Hagan Laughinghouse and Miss Carrie Dail, the charming and eldest daughter of Mr. and Mrs. W. Haywo of Dail, were united in the holy estate of matrimony. After an elaborate and elegant breakfast at the home of the bride's parents they left for a northern tour. We do not know personally the happy, fortunate groom. We know his father, the brave, elegant, and elegant Joseph J. Laughinghouse, of Pitt, and we know his grand-father, the courtly, big-brained, scholarly Dr. Charles J. O'Hagan, of Greenville, and with such ancestors he can be nothing less than an all-round, true, big-hearted Southern gentleman. We have known the beautiful bride for the past fifteen years—since her early girlhood. Her sweet and amiable disposition, her splendid features, handsome carriage, exquisite manners and the queenly graces that have adorned her life and her daily walk in our midst all the years attracted all as admirers, and with this writer she was indeed a favorite. May the glomming of the wedded life be as bright and beautiful as the morn.—Snow Hill Standard.

President Isaac Lewis of Sabina, Ohio, is highly respected all through that section. He has lived in Clinton Co. 75 years, and has been president of the Sabina Bank 20 years. He gladly testifies to the merit of Hood's Sarsaparilla, and what he says is worthy attention. All brain workers find Hood's Sarsaparilla peculiarly adapted to their needs. It makes pure, rich, red blood, and from this comes nerve, mental, bodily and digestive strength. "I am glad to say that Hood's Sarsaparilla is a very good medicine, especially as a blood purifier. It has done me good many times. For several years I suffered greatly with pains of
Neuralgia
In one eye and about my temples, especially at night when I had been having a hard day of physical and mental labor. I took many remedies, but found help only in Hood's Sarsaparilla which cured me of rheumatism, neuralgia and headache. Hood's Sarsaparilla has proved itself a true friend. I also take Hood's Pills to keep my bowels regular, and like the pills very much." ISAAC LEWIS, Sabina, Ohio.

The Housewife Speaks

If an article that has become rusty is soaked in kerosene oil for some time, the rust will become loosened and come off very readily.

A little kerosene is an excellent thing for cleaning a zinc bath tub. Apply with a soft woolen cloth then wash off with hot water—and soap in it—and polish with powdered bath brick.

An excellent cure for hoarseness is to roast a lemon until it is soft all through; do not allow it to burst. While still hot cut a piece from the end and fill the lemon with as much granulated sugar as it will hold. Then eat it white hot.

To prevent pie juice from running out in the oven make a little opening in the upper crust and insert a straw or little roll of white paper perpendicularly. The steam will escape through it as through a chimney, and all the juice will be retained in the pie.

To clean a white sailor hat which is soiled remove or cover the band and scrub thoroughly with 5 cents' worth of salts water. Be careful not to bend the hat out of shape, as it becomes very stiff when dry. Place in the sun to dry.

Won Her By A Bluff

The old gentleman did not object in his heart to the young man as a son-in-law, but he was one of that kind of gentlemen who like to raise objections first and then reach an agreement, as though conferring a favor. When the young man called he was ready for him.

"So," he interrupted fiercely, almost before the suitor could commence, "you want me to let you marry my daughter, do you?"

"The young man very coolly responded, 'I didn't say so did I?'"

The old gentleman gasped, "but you were going to do so."

"Who told you I was?" inquired the applicant, seeing his advantage.

"But you want me to let you marry her don't you?"

"No!" exclaimed the old gentleman, almost falling off the chair. "Then what the devil do you want?"

"I want you to give your consent," replied the youth pleasantly. "I'm going to marry her anyhow, but we thought your consent wouldn't be a bad thing to have as a start."

It took the old gentleman a minute to realize the situation. When he did, he put out his hand. "Shake hands, my boy," said he. "I've been looking for a son-in-law with some pluck about him and I'm sure you'll do first class."

A "Confed" to General Grant.

A Littleton county Confederate veteran called to see us one day this week and presented us with a copy of the following little story, which first appeared in print in 1871, and if at any time since, its droll, good natured humor will excuse its reproduction here:

"During the war a 'Confed' was captured by the Yankees and happened to be taken to Gen. Grant's headquarters. After being questioned by the General, the 'Confed' asked him where he was going. 'I am going,' said Grant, 'to Richmond, to Petersburg, to Heaven and it may be I will go to hell.' After eyeing the General for several moments, the old 'Confed' said: 'General, you can't go to Richmond, for General Lee is there; you can't go to Petersburg, for General Beauregard is there; you can't go to Heaven, for Stowell Jackson is there; but as to going to hell you may get there, for I know of no Confederates in that region.'"

Observations:

The philosopher is the man the other fellow calls a crank.

The epicure is what the man calls himself who's really a glutton.

The freethinker is often a man who is merely free from thought.

The angel is a woman who isn't married yet.

The altruist is a chap who doesn't look out for his own family.

The optimist and pessimist are the same fellow before and after the race.

The breadwinner is the member of the family who usually prefers beer.

Hungary has not been developing for a thousand years for nothing. In that country a man convicted of bigamy is punished by being compelled to live with both wives in the same house. The few bigamists who have survived the fearful ordeal have petitioned the Diet to commute their sentences to fourteen years in the penitentiary, but the Diet does not consider that bigamy deserves such clemency.—Richmond Dispatch.

Hiving Flies in a Bag

A gentleman living west of town tells us that he saw a lady neighbor catching flies a few days ago in a way that is new and original. She had melted the bottom out of a small tin bucket and tied a small sack on one end, then put molasses inside the bucket. The flies would gather in the bucket, when she would close the other end of the bucket and shake them down in the bag and tie it up.—Burlington News.

CATARRH.

His Worst Enemy Defeated by P. P. P., Lippman's Great Remedy.

FOR THREE YEARS HE SUFFERED—COULD HARDLY BREATHE AT NIGHT—ONE NOSTRIL CLOSED FOR 16 YEARS.

Mr. A. M. Ramsey, of DeLeon, Texas, writes: "I have used nearly four bottles of P. P. P. I was afflicted from the crown of my head to the soles of my feet. Year after year my condition grew worse. I had to see a physician. One nostril was closed for ten years, but now I can breathe through it readily."

DE LEON, TEXAS.
Messrs. LIPPMAN BROS., Savannah, Ga. Gentls: I have used nearly four bottles of P. P. P. I was afflicted from the crown of my head to the soles of my feet. Year after year my condition grew worse. I had to see a physician. One nostril was closed for ten years, but now I can breathe through it readily. I have not slept on either side for two years. In fact, I dreamed to see night come. Now I sleep soundly in any position you wish.

I am 60 years old, but expect soon to be able to take hold of the plow handles, and I feel that I was lucky enough to feel P. P. P. and I heartily recommend it to my friends and the public generally.

Yours respectfully,
A. M. RAMSEY.

THE STATE OF TEXAS.—County of Comanche.—Before the undersigned authority on this day, personally appeared A. M. Ramsey, who, after being duly sworn, says on oath that the foregoing statement was made by him relative to the cure by P. P. P. of his Catarrh of the Nose.

Sworn to and subscribed before me this August 4th, 1891.
