Japan Taking Our Cotton. It has been officially announced that Japan will buy the cotton she needs for her mill- in N. w

Orleans. American cotton is the best the world for general manufacturing purposes, and as the Japanese are a shrewd people, it is to be expected that they would use it in the extensive cotton mills they have recently built.

It is also natural that they should buy their cotton from New Orleans as that is the center of the cotton trade in this coun-

The Japanese mills already use between 75,000 and 100,000 bales of cotton a year and this con sumption is constantly increasing. The people of Japan buy immerse quantities of cotton goods and the native manufacturers have an ambition to supply the home market. The government is offering inducements for the establishment of cotton mills in the overcrowded islands belonging to Japan where there is not enough land to give employment in agriculture to all the population and where labor can be had very cheap. Several cotton mills which were located on the Pacific coast have been transferred to Japan on account of these attractions and in the belief that the demand for cotton goods will increase rapidly in the Orient.

Japan is already a considerable purchaser of our cotton and it seems certain that her demand for it will increase very largely .-Atlanta Journal.

No Populist can consistently or conscientiously favor fusion with the Republicans in any county in North Carolina.

Why? Executive Committee, in their published address, expressly state that fusion with the Popumembers of the Legislature of both parties shall support the nominee of the Republican caucus for United States Senator.' This is the only basis and coudition of fusion required by the Republicans. How can Populists ran it forward to its cage and slamaccept and consent to such a requirement?

What does it mean?

It means that every Populist, who is elected to the Legislature by such a fusion, must vote for the re election of Senator Pritchard, because he has already been nominated by the Republican State convention. And Senator Pritchard is for McKinley and by accident smashed two of themagainst free silver !

Animals Which Vary the Monotony of Es istence For Jack Tar.

Three things, writes a naval contributor, there are which do more than anything else to lighten the burden of existence such as it is borne by Jack Tar, says the Westminster Gazette. These three are grog, the hornpipe and a pet animal, and the pet animal is the greatest solace of the three. There is scarcely a vessel affoat, from one of our line of battle ships down to a canalboat, that has not a two or four footed pet on board. # GROSS MISREPRESENTATION.

For the past few days Pitt and Greene counties have been flooded with a deluge port of which were to correct a state ment which appeared in Kings Weekly, published in this town to the effect that ths Rocky Mount Tobacco Market had c'osed on account of the stringency of money matters and the same little squib which was only about four lines, stated that it was urderstood the same was the cause of the low prices that tobacco was bringing here.

If the Rocky Mount people really thought that they had been damaged by this publication then it was their privilege to employ as many men as they saw proper to send down here to correct the report and flood the country with as much gush and paper as suited them, but if there was any harm done them, they ought to have placed the blame where it belonged, upon the one has been more pleasing to the friends ishes, and assists nature to nourish & who circulated the rumor. Ir stead of that, we are told by a reliable and thorough gentleman from Falkland that one of their justice laden messongers was telling it in that section that the Greenville warehousemen had circulated damaging reports about the Rocky Mount market and had done them a great injustice by telling that the Rocky Mount market had closed.

Now, we want to say that we know that there is not a tobacco man in cow, thousands of his people Greenville nor anyone con ected with this market in anyway who is so niggardly or who would stoop so low to induce tobacco to come to this market. to meet the Emporer of Germany The Greenville warehousemen have never yet fallen low enough to employ any such mteh, ds to get tobacco. We have all been doing a pretty fair business, in fact as much as we could well get along with and we have done it by pursuing a fair and legitimate course.

Greenville has always, it seems, been an eye sore to some other markets in the east. Why this we do not know unless it be on account of her rapid towards any other market. We are willing, perfectly, for them to do all the business they can, but we are not such gross and unjust manner. Now, so far as Rocky Mount is con-

cerned we suppose they have plenty of money, hope they have at least, and we just simply think that they have fastened upon the meager opportunity to make a great to do over nothing. Very few, if any, have ever thought that they had closed, and the free advertising they have got has only repeid them for the damaging report.

TO THE TOBACCO PUBLIC:—It is conceded by all the surrounding country that Greenville is the leading tobacco market for the sale of Leaf Tobacco in Eastern Carolina. This being so it behooves all within reach of the Great market to sell their tobacco here. There are four large Warehouse doors open to the public and chief among them is the Warehouse with a corps of clever and gentlemanly assistants. We now have under construction a large Prizery to be used in connection with the Warehouse, that we may be able to handle the vast amount of Tobacco consigned to us. We have associated with us Messrs. H. L. Coward and T. E. Hooker, two large and successful tobacco raisers from Greene county, they having purchased the interest of Mr. McG. Ernul, we are better prepared to handle your tobacco than ever before and when you get your tobacco ready for market drive direct to the STAR where you will always receive prompt. And courteous attention and highest market prices for your tobacco.

HARDLY BREATHE AT NIGHT-ONE NOSTRIL CLOSED FOR 10 YEARS.

Mr. A. M. Ramsey, of DeLeon, Texas, was a sufferer from Catarrh in its worst form. Truly, his description of his sufferings seem little short of marvelous. Instead of seeking his couch, glad for the nights coming, he went to it with terror, realizing that another long, weary, wakeful night and a struggle to breathe was before him.
