Senate Won't Confirm Seawell.
Washington, D. C., Jan. 22.—Herbert P. Seawell, who is President Roosevelt's second choice for the Eastern North Carolina judgeship, need not order his official robes and other court paraphernalia during the Roosevelt administration. He won't be a Federal judge unless Mr. Taft selects him above all other attorneys in Eastern Carolina for this honored position. This fact was made plain this afternoon by one of the Republican leaders in the senate.

COX'S MILL ITEMS
Cox Mills, Jan. 21, 1909. We are having fine weather this week and the farmers are making much progress in their work.

Misses Retta Page and Rosa Tyson spent Saturday night and Sunday with Miss Myrtle Stokes. Miss Lena Cobb went to Winterville Sunday and will spend sometime with her sister there. Her host of friends regretted very much to see her leave.

We are pleased to see so many of our young people taking interest in our Sunday school. Quite a number of visitors were out Sunday and we hope to see them again soon.

H. A. Moore went to Simpson Sunday. Madison Holloway, who occupied a position as cashier at C. T. Munford's.

Rose Cox spent Sunday with her parents.

Tom Tyson and W. F. Carroll spent Saturday in Greenville.

J. M. Cox, Jr., lost his store Friday night by fire. His loss is estimated at \$3,500 with only \$2,000 insurance. We extend our deepest sympathy to him.

Bill Williams continues very sick.

"Uncle" William Haddock, one of our oldest citizens, his son, Macon, and granddaughter, Helen, went to Kinston Saturday.

THE PURE FOOD LAW.
Secretary Wilson says: "One of the objects of the law is to inform the consumer of the presence of any harmful drug in medicine. The law requires that the amount of chloroform, opium, or other habit forming drugs in each bottle of Chamberlain's Cough Remedy shall be stated on the wrapper, and that the manufacturer does not claim that their remedy did not contain any of these drugs, and the truth of it is now fully proven, as no mention of them is at all made in the bill. Its value in use for a cough or cold has been proven beyond question and has been proven by J. L. Wooten and Edward Wooten.

District Meeting Coming.
The Pythians of this the second district will have their next meeting in Greenville. Several of the grand officers are expected to be present. Let every member of the river lodge try to attend the meeting to-night so that the necessary action may be taken to entertain the district meeting.

DON'T TAKE THE RISK.
When you have a bad cough or cold do not let it drag out into a chronic bronchitis, or develop into an attack of pneumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. From a small beginning of the sale and use of this preparation has extended to many foreign countries. Its many remarkable cures of cough, and colds have won for it this wide reputation and extensive use. Sold by J. L. Wooten and Edward Wooten.

Change for the Better.
During the term of court just closed you have not seen any drunks people around the court house or on the streets. Quite a difference from conditions that existed when whiskey was sold here.

FEVER SORES.
Fever sores and sore throats should not be healed entirely, but should be kept in healthy condition. This can be done by applying Chamberlain's Salve. This salve has no superior for this purpose. It is also most excellent for chapped hands, sore nipples, burns and diseases of the skin. For sale by J. L. Wooten and Edward Wooten.

Bill to Register Title.
Col. R. R. Cotton, one of the Representatives from Pitt county, has prepared a bill in relation to registering titles to real property and facilitating and expediting the same.

based on the Bureau system of land registration and is similar to laws now in operation in Illinois, California, Massachusetts, Minnesota, Oregon and several other States. All the leading States of the Union are now realizing the advantages of this system and legislation similar to this is pending in many of the States of the Union. This bill would relieve all uncertainties as to title, prevent delays in the transfer of title, and cheapen the cost of the transfer. The courts of the State under this act would pass upon all land titles and register them, making the easy transfer of them after they are once investigated. The Torrens system of land tenure wherever adopted, has proved most satisfactory and there is said to be a general demand among the thinking people of this State for some such system to be inaugurated.—Kaleight New and Observer.

STOMACH TROUBLE CURED

If you have any trouble with your stomach you should take Chamberlain's Stomach and Liver Tablets. Mr. J. P. Klotz of Edina Mo., says: "I have used a great many of the other remedies for stomach trouble, but none have helped me. I can only say that Chamberlain's Stomach and Liver Tablets more than made up for me."—J. L. Wooten & Edward Wooten.

The Truth.
The only honorable and honest way to stop a newspaper is to step into the office and pay up all arrears, get a receipt and have your name off the list. To fire your paper back at the publisher marked "refused" when you owe six months or a year, and never go near the office is not only disreputable, but superlatively dishonest as well.—Mt. Olive Tribune.

LAME SHOULDER.
This is a common form of muscular rheumatism. No internal treatment is needed. Apply Chamberlain's Liniment freely twice a day and a quick cure is certain. This liniment has proven especially valuable for muscular sprains and bruises. Price, 25 cents a large size 50 cents. For sale by J. L. Wooten & Edward Wooten.

A HORRIBLE HOLD-UP.
"About ten years ago my brother was 'held up' on his work, health and happiness by what was believed to be hopeless Consumption," writes W. R. Lipcomb of Washington, N. C. "He took all kinds of remedies and treatment from several doctors, but found no help till he used Dr. King's New Discovery and was wholly cured by six bottles. He is a well man today." It's quick to relieve and the surest cure for weak or sore lungs, hemorrhages, coughs and colds, Bronchitis, LaGrippe, Asthma and all Bronchial affections. 50c and \$1.00. Trial bottle free. Guaranteed by J. L. Wooten.

REPORT OF GRAND JURY.
Recommend Removal of County Home and Enlargement of Court House.

The grand jury for January term of Pitt Superior court completed its work Thursday afternoon, and was discharged with the thanks of the court. In its final report to the court the grand jury made several important recommendations. The report is as follows:

County home.—Committee finds that the home is in a very satisfactory condition, but it is our opinion it would be much better to have this home nearer the town of Greenville.

We find the jail in a good condition considering the number of prisoners in there.

County Home.—We find the County Home and all connected therewith in good condition, but we think it is best to have a new home built near the town of Greenville. It would be more convenient for the court and attendants during the sessions of court. We also recommend that the clerk be furnished with a book case.

The Convict Camp.—We find this in good condition, the prisoners well taken care of. The sand-cay road now being built we are very much pleased with and expect to see it a success.

The Greenville graded school was well arranged for convenience and satisfactory in every department. We recommend some change be made in the Farmville graded school for fire protection.

Our visit to the East Carolina Training school, we find so far as the buildings have progressed they are large, commodious and handsome, and when completed will be not only on a credit to Pitt county but to the entire State.

FRIDAY, JAN. 29, 1909.

Are you trying to do your part for Greenville?

The bigger the salary the better the president will feel.

Hobson still sticks to it that Japan is getting ready to fight us.

But for the wireless Mr. Taft might be lost to the public for a few days.

Looks like the investigating committee did make somewhat of a stir.

Two defeats coming so close together doubtless gratified Mr. Kern's feelings.

You can get ready to watch next Tuesday. That will be ground hog day.

The California Japanese situation is not doing giving Mr. Hobson much satisfaction.

This is the last week in January, and many who read this have not yet squared accounts for last year.

An Augusta dispatch says Mr. Taft had a quiet day. We thought that is what he went there for.

From the way congress is raising salaries, that body must think "Uncle Sam" has plenty of money.

The presence of a man these days who pays a bill without waiting to be dunned is really refreshing.

Those who were saving the legislature was not going to have anything to do, are beginning to rub their eyes.

Mr. Cannon may feel some relief that they are after the president now and not putting it all on the speaker.

You have heard the old saying that "vinegar catches no flies." It is equally true that long faces do not attract business.

Mrs. Carrie Nation is to appear on a variety stage in London. Poor London! What sin she has committed to deserve such affliction?

Now watch out for the Republicans to try to make capital in the next campaign out of that commstee report.

Some of these days Greenville will have a tall office building. We have already heard some men wishing for the quiet of upper stories.

Let us again remind you that the movement of the King's Daughters to establish a rest room in Greenville should have the support of every business interest in the town. The advantages of such a room are too ap-

parent to need pointing out. The mere mention ought to awaken interest in every one.

The wireless telegraph is coming in for much praise just now. It was by means of sending wireless messages from the ship that the collision between two passenger steamers at sea was made known, and other steamers catching the messages hurried to the scene of the disaster in time to save hundreds of passengers.

They are again having a cat and dog fight over the Greenville Industrial News. It looks like the paper is a failure financially, and those who have been putting up the money have grown tired of the game. It takes something to get a newspaper well established.

We have received a copy of "Observette," a neat little paper gotten out by the mechanical force connected with the Charlotte Observer. It is certainly an interesting little sheet, and while it is to be published only occasionally, in other words when the boys feel like it, we would be glad to see it often.

There are a lot of bright folks connected with the Observer office. Not long since the Board of Aldermen of Greenville sent several hundred copies of the recent trade edition of The Reflector to persons in other States with a view of interesting them in this section. As a result of this letters of inquiry are coming in and the outlook is that several new settlers are likely to be secured. Towns, as well as individuals, are always benefitted by judicious advertising and money spent to that end is a good investment.

Occasionally in passing sentence upon a defendant convicted in his court, Judge O. H. Allen may, as some are inclined to say, be making a reputation as a lecturer. But his remarks in such instances are timely and with good effect. We believe Judge Allen's heart is in the right place, and that he is a thoroughly conscientious and level-headed jurist. He has certainly done good in Pitt county and taught the people some wholesome lessons.

Few people realize the value of the carefully kept files of their county newspaper. We believe it would in the long run pay every man in the county to put away and keep every copy of his home paper he receives, as some day they may be of great value to him. Of course in every well regulated newspaper office a file of the paper is kept. Only a day or two ago a man came to The Reflector and wanted to know something about a legal advertisement in the paper published in 1890—over eighteen years ago—and having the papers bound in books and labeled it was only a matter of a few minutes time to show him what he was looking for.

The King's Daughters have undertaken the commendable move of securing a rest-room in Greenville—a room set apart for the convenience of the women of the neighboring country who come here to spend the day shopping or on pleasure. The Reflector long ago argued the needs of such a room here, and

thought it was about to be secured through the efforts of the Chamber of Commerce, but jealousy among certain business men over the suggested location of such a rest room, because it was nearer to some stores than to others, killed the movement for the time being. Now that the King's Daughters have revived the matter and are moving to make it a success, we hope every business man will come to their aid.

A report made to the legislature by a committee appointed to examine the books of the several State officers, shows that a better system of book-keeping is needed in some of them, especially that of the insurance commissioner. No wrong was charged in the report, but the records in the office mentioned were badly kept. The committee also found irregularities on the part of T. S. Meekins, shell fish commissioner at Manteo. No doubt the legislature will take proper steps to have this remedied at once.

Those who have followed the proceedings of this term of Superior court have been impressed with the large amount of work done. It has been a very busy term and many cases have been tried. Solicitor C. L. Abernethy is an excellent prosecuting attorney, and is faithful to every duty. While in one sense he might be termed a vigorous prosecutor—in that he believes all violators of the law should answer for the deeds committed and receive just punishment therefor—yet if he sees a charge is brought against any one through malice or without good grounds, he is quick to nolpross the bill. He is absolutely fair in all matters.

Solicitor Abernethy is yet serving out the term to which Mr. L. L. Moore was originally elected. In 1906 Mr. Moore was elected for a third term of four years, but owing to a large and increasing civil practice he resigned as solicitor early in the next year. Governor Glenn in March, 1907, appointed Mr. Abernethy to fill the vacancy, but as the appointment could be only until the next general election, Mr. Abernethy was elected in November, 1908, for the remaining two years of Mr. Moore's term.

Mr. Abernethy has so conducted the office as to make hosts of friends in every county of his district, and in this Pitt is no exception. The people have watched his course closely and do not hesitate to speak highly of him. After finishing out these two years, it will be a fitting recognition of his faithfulness and efficiency to re-elect him for a full four years' term.

BETTER LET WELL ENOUGH ALONE. We thought the railroad rate matter, so far as it relates to passenger fares, was settled and that there would be no further agitation of it. That is the position the people had taken, and though a compromise was effected at a rate some higher than specified in the bill passed by the legislature two years ago, it gave them satisfaction. But it seems that the railroads are not satisfied with the agreement they made, and want to re-open

the matter to agitation. With this end in view the head officials of the several railroads operating in Raleigh, the other day, and asked a conference with Governor Kitchin whom they desired to help bring about a change in the existing passenger fare law and permit the railroads to charge a higher rate. Another day was set to discuss the matter further.

According to our way of thinking, the railroads had better let well enough alone. If they re-open the rate war and arouse the people on it, and come out the worst in the agitation, they will have only themselves to blame for it.

PLACE OF RECREATION NEEDED. Once more, possibly through force of habit in looking up good things for Greenville, we feel like saying that one of the urgent needs of this town is a park. Here we have a thriving, growing town, that will ere long reach the proportions, of a city and not a spot set apart for out-door recreation for her citizens. Every year that is allowed to go by without taking some step to supply this need, makes the possibility of securing it harder. Already the question of a suitable site is a problem. Several times in recent years The Reflector has suggested building a pavilion and bath houses on the river front. This would give some recreation, and be a means of taking advantage of the beautiful stream that runs by us. This should be done, and in addition the town should have a park. We are losing opportunities by neglecting to make provision for public recreation.

DON'T GET A DIVORCE. A western judge granted a divorce on account of ill-temper and bad health. Dr. King's New Life Pills would have prevented it. They cure Constipation, causing indigestion and Liver Trouble, the ill-temper, diaped colds, headache, headache, constipation, etc. at J. L. Woods's.

MR. YOUNG MAKES REPLY. Says Committee Did Him a Gross Injustice. Insurance Commissioner Young was asked yesterday as to what he had to say about the report of the legislative auditing committee. He said that the report had been referred to a special committee of the legislature and he did not care to make any formal statement at this time. That the report as filed was inaccurate in many respects and did him a gross injustice. The book referred to in the report as a "vest-pocket memorandum," he said, was a book four and a half inches by seven inches and at least an inch in thickness; that the committee did not secure him of dishonesty, but claimed that his books were not kept by double entry. Mr. Young said it is true the books are kept by single entry, but they are accurate—show amounts received and disbursed and are as well kept as any books of the kind and amount of business therein kept by a bookkeeper getting \$750 per annum, the amount allowed to the department for the employment of a bookkeeper. The committee, he said, were thoroughly conversant with this and yet checked them for two years and found not a discrepancy that reflected upon the commissioner or his bookkeeper, nor a copper discrepancy. "The committee," said Mr. Young, "differs with the commissioner in the interpretation of some of the insurance laws, but after all this is for the decision of the Attorney General, and will be submitted to him."

Grimesland, N. C., Jan 29 '09. Editor Reflector: You will please permit me, through the columns of your paper, to make some suggestion to our members of the legislature in regard to certain items of public interest. We need an amendment or addition to our insurance laws which will require every holder of a fire insurance policy in incorporated towns to register a synopsis of the policy with the commissioners of said town, and every holder of a policy in country districts to register a synopsis of policy with the county commission of the county in which the insured property may be. The synopsis should state: 1. Owner of property insured. 2. Name and address of the company. 3. Amount of concurrent insurance. 4. Amount of policy and number of same. 5. Date of issue and expiration. 6. Name of soliciting agent. Failure to register should render the policy void. It would require very little labor and time to record this much of a policy. The county commissioners could supply record books made in blank form, and any officer could make this short record for fifteen cents, and he glad to do it. Where property owners have property contiguous it is nothing but fair that any property owner should always know how much insurance his neighbor carries, and if any person really desired fire insurance he would not mind paying a small fee to have synopses of policy recorded, and made a matter of public record. There should be another amendment to our insurance laws requiring insurance companies to pay the full amount of the policy in case of fire loss, and not be allowed to dodge behind the three-fourth value clause, after having taken premium year after year on a fictitious or exaggerated value of the property. The insurance company should be made to properly value the property to be insured before issuing the policy and then, in case of loss, to pay the full amount for which premium had been paid and accepted. The burden of proof of value of the property should be placed upon the company before the loss of policy, and this will make insurance agents more careful in estimating property values. Dr. C. M. Jones.

Yesterday there were three young ladies in town from the county training and they traded, too. If any one doubts it let them ask Heber Hart he knows. They were all about the same size, dressed exactly alike and so attractive were they the boys called them the three pretty little Brownies and they were pretty too.

Thursday just before noon the little 3 year old son of Mr. Daugherty, who lives on Lee street went up stairs and got into hold of some matches began striking them, with the result his dress caught fire and soon he was a seething mass of flames. The dress soon burned off and so badly was the little one injured that great pieces of skin and flesh peeled from the body, hands and face. The child lived only a short while. Those who saw it tell us it was the most pitiful, as well as horrible, sight they ever beheld. Yet we know some parents to teach their children how to strike matches. This should be a lesson.

Express Companies Must Publish Rates

Washington, Jan. 21.—Regulations were issued yesterday by the interstate-commerce commission in modification of the requirements of the act to regulate commerce with respect to express companies. The companies are given the option of complying strictly with the law or accepting the modified regulations suggested by the commission.

The regulations, in brief, require the companies to publish their rates in advance, to know what the tariffs are and to give them facilities, through posting tariffs in the stations and the supplying of files of tariffs by agents, that will enable the shippers to know in advance just what any offered shipment may cost. These regulations are to be effective immediately.

A similar order affecting the Pullman company and other sleeping-car companies also was issued by the commission.

Mrs. Cotten Addresses Woman's Club

Yesterday afternoon, under the auspices of the Child Study department of the Woman's Club, Mrs. R. R. Cotten addressed a large audience in the club building on Salisbury street, her subject being the Stoenwald Jackson Training School. This institution, recently established by the State, is located near Corcoran. In her address, Mrs. Cotten urged that the people contribute to its support, thus aiding in the good work of rescuing the criminal youth of the State, turning them aside from the error of their ways, and making good, law-abiding citizens of them.—Richmond News and Observer.

Pouring Prosperity Through a Puncture. Ever see a drunken man trying to fill a bottle with the bottom broken off? It's a great waste, and it looks mighty silly. But it's no more foolish and no more wasteful than for a sober man to expect his town to fill up with people and bubble over with prosperity when he is continually pouring his dollars into the wide world outside THROUGH THE MAIL ORDER HOLE in the bottom of his home town. MORAL: Patronize home industries.

THE CRACKER PACKERS. Nimble Fingered Girls That Work Like Automotons. Couldn't Fool Tim. A priest announced that a collection would be taken up to defray the cost of coal for heating the church. Everybody contributed but Tim, who gave a sly wink as the plate was presented to him. The priest, after service, took his parish never to task. "Now, Tim," he said, "why didn't you give something if you was so little?" "Faith, I'm on to you," said Tim. "What do you mean?" "Oh, nothing. Just that I'm on to you, that's all." "Tim, your words are disrespectful. What do you mean?" "Oh, faith, father, a-thyrying to pull the wool over my eyes, wanting to make us believe you want the money to buy coal to heat the church, an' yer reverence knows it's heated by steam"—Exchange.

Two Hundred Thousand Families The intellectual aristocracy of America, have one rule in magazine buying—"The Review of Reviews first, because it is a necessity!"

THE REVIEW OF REVIEWS A MAGAZINE LIBRARY IN ONE MAGAZINE. The cracker packing girl attains a higher speed than the cake packing girl, because she has a pecker-maker—the machine. As fast as the machine moves she must move. She earns a cent a dozen, and she can pack a hundred per day. Here is another significant fact: The cracker packing girl is younger than the cake packing girl, because no girl can keep up with a machine indefinitely. At the end of a year period she drops out of crack-stale. Then she drifts out of crack-stale into some other unskillful trade. Usually she has to accept a lower wage, since her efficiency has declined. By efficiency one always meant, "Thelia Childie Dorr in Hampton's Magazine."

The Review of Reviews Has attained a larger subscription list than any magazine that deals wholly with serious subjects and is accepted as the best periodical to keep one up with the times. It is non-partisan. NETHER MUCK-RAKES NOR HIDES FACTS With Dr. Albert Shaw's monthly "Progress of the World," with the nation's history of the month, with the latest condensed articles on all the other magazines of the world for you, with the money worth of the month's news, you can keep up with the times at a minimum cost. A Baltimore man was recently showing his nice new opera hat to his little nephew, and when he caused the top piece to spring open three or four times the youngster was delighted. A few days thereafter the uncle, during a visit to the same household, brought with him a silk hat of the shiny, nonchalance kind. When he was about to leave the house he encountered the aforesaid youngster running down the hall with what looked like a black accorion. "Uncle Ed," observed the boy, "this one goes awfully hard. I had to sit on it, but even then I couldn't get it more than half shut."
