FRIDAY FEB. 26 1909.

The season of train wrecks seems to have returned.

Uncle Sam welcomed the fleet home in becoming style.

They burned tons of powder in Hampton Roads Monday.

After Thursday of next week Roosevelt can go to Africa.

George Washington can now take a quiet rest for another year.

The State needs some other things much worse than a larger capitol.

February is adding another good thing for Greenville—the rest room.

Mr. Taft has "rode the goat," and is now in position to tell the boys how it feels.

Round by round Greenville climbs higher up the ladder, but the top is yet far ahead.

Both sides seem to be about "hip and tuck" in the Cooper-Carmack trial at Nashville.

Greensboro ought to have recognized the capitol moving joke and not been caught so easy.

Charlotte has at last got together on the charter question. Now on to the legislature with it.

Some of Mr. Taft's smile may wear off before he gets through with some of the jobs ahead of him.

Everybody pull together with a view of making times better and you will see an improvement.

If February is to do anything to redeem the reputation of the ground hog, it must hurry up about it.

Eleven years after a fellow comes forward and says he can raise the Maine and float her to a dry dock.

This week and next will finish up the term of the present General Assembly, and there is much to do in that time.

In the matter of anti-trust legislation we think the substitute of Senators Blow and Bassett gets the best end of it.

Looks like the legislative fish bill has got caught in a net. It will wiggle out and be ready for another run two years hence.

A bill was introduced in the legislature Saturday to protect muskrats in Currituck county. Skunks may come along next.

Twenty-five dollars a plate for alligator steak at New Orleans. That's tough.—Durham Sun.

Which, the price or the steak?

A bill that would prevent other concerns from selling out to trusts might be the most effective way to bring about a remedy.

There will soon be two more stores on the flag, Congress having voted to admit the territories of Arizona and New Mexico to statehood.

There is a bill before the legislature to extend the time of educational qualification to voting to 1916. Looks like that ought to be time enough.

There are doubtless some who think that Mr. Bryan continues to hold the reins of the Democratic party, as they lay so much stress upon everything he says.

The pictures some of the papers are printing of the Cooper-Carmack jury at Nashville, Tenn., shows about the worst looking bunch that could be found.

A few train robberies like the one attempted near Mt. Airy Monday night will put North Carolina in a class with the wild Western States. May she escape that class.

Not so much is being heard now as there was awhile back about the commission plan of municipal government. It is a question that must sooner or later come to the front, as there is hardly a town of any consequence that could not profit by such a plan.

We propose that when the State capitol is moved to Greensboro or some other western town the State of East Carolina shall be formed with Wilmington as its capital.—Wilmington Star.

No, Sir! We are going to make Greenville the capital when that division comes.

There is good opening for manufacturing enterprises in Greenville, and the town ought to have several of them. There are plenty of sites convenient to the railroads and plenty of raw material for both cotton and wood manufacturing. Our people ought get active for enterprises of this kind.

The Messenger, a religious paper formerly published by Rev. T. J. Jenkins at Wilson, has been moved to Charlotte and its name changed to The Christian Home. The style of the paper has also been changed, it now being sixteen magazine size pages. It is certainly an attractive paper and has an able corps of contributors.

The legislative committee on propositions and grievances making an unanimous unfavorable report on the bill to establish a medical depository where whiskey can be sold in Concord, is pretty good indication of the fate bills of that character will meet at the hands of our law makers. A minister headed the delegation from Concord who went to Raleigh to work for the establishment of the depository. Rather strange attitude for a minister to take.

The last issue of the Biblical Recorder states that the committee appointed at the last Baptist State convention to select an educational secretary of the convention, have named Prof. G. E. Lineberry for that position and that he will accept, beginning his duties in that position about April 1st. While we congratulate

If the Southern Express Company has to pay for that \$200,000 jewelry robbery at Pinehurst, it will knock a hole in its treasury. But it will find a way to quibble out of paying a big part of it.

Representative Cotton, of Pitt, is doing some good work in the legislature toward getting the Torrens system of land registry established. To establish such a system would be a benefit to the State.

And Mrs. Hetty's daughter is married. As she waited until she was thirty she was old enough to do as she pleased about it. And as her ma is the richest woman in the world there is no question about her being able to take care of her husband.

After all the hot air over the matter of a new charter, it looks like Charlotte is not going to get together in time to make her wants known to the legislature. If she keeps trying maybe the charter will be ready to submit to the session two years hence.

The last issue of the Biblical Recorder states that the committee appointed at the last Baptist State convention to select an educational secretary of the convention, have named Prof. G. E. Lineberry for that position and that he will accept, beginning his duties in that position about April 1st. While we congratulate

late Prof. Lineberry upon this honor, and a better man could not have been selected, we regret exceedingly that the new position will remove him from Pitt county. For nine years he has been principal of Winterville High School, and he has made that school rank with the best in the State. He has given his aid to every moment for advancing our educational interests, and his going away will be a distinct loss to this county.

Reports say that Taft has selected all the members of his cabinet except secretary of the treasury. Whether the published list is entirely accurate and will not be changed we are not prepared to say, but here it is as given:

Secretary of State—Philander C. Knox, of Pennsylvania.
Attorney General—George W.ickersham, of New York.
Secretary of War—J. M. Dickinson, of Tennessee.
Secretary of the Navy—Geo. von L. Meyer, of Massachusetts.
Secretary of Commerce and Labor—Charles Nagel, of Missouri.
Secretary of the Interior—R. A. Ballinger, of Washington.
Postmaster General—Frank H. Hitchcock, of Massachusetts.
Secretary of Agriculture—James Wilson, of Iowa.

North Carolina used to be called the graveyard of newspapers, and even until this day it has not entirely lost this appellation, for every year there are papers born and papers die. They spring up, apparently flourish for awhile and pass away. Possibly the best explanation of this is overcrowding the field, too many papers trying to exist in communities that can barely support one. Every town that can support a paper should have one, and then get the best results possible from it by giving it hearty co-operation. While many newspapers have died in North Carolina, there are many others that have reached an old age and passed long years of usefulness. This is called to mind by the announcement that the Louisville Times has just filled out its thirty-ninth year, and for thirty-four years has been edited by the same man—Mr. J. A. Thomas. That is a record to point at with pride, and it is well deserved, for the Times and its editor one among the best in the State and are a power in the advancement of good. Such papers deserve to succeed.

Weak Heart Action

There are certain nerves that control the action of the heart. When they become weak, the heart action is impaired. Short breath, pain around heart, choking sensation, palpitation, fluttering, feeble or rapid pulse, and other distressing symptoms follow. Dr. Miles Heart Cure is a medicine especially adapted to the needs of these nerves and the muscular structure of the heart itself. It is a strengthening tonic that brings speedy relief. Try it.

"For years I suffered with what I thought was stomach trouble, when the doctors told me I had heart trouble. I had tried many remedies, when the Dr. Miles' Heart Cure came into my hands, and I concluded to try Dr. Miles' Heart Cure. I have taken three bottles, and now I am not suffering at all. I am cured and this medicine did it. I write this in the hope that it will attract thoughtless of others who suffer as I did."—Mrs. B. H. Hinton, Ky.

The Domestic Cat.

Experts have held that the so-called "cat" of the ancient Romans and Greeks ("ailurus," the way-tailed one) was not a cat at all, but a kind of weasel. The mummified Egyptian animal, however, was a genuine cat, even if certain peculiarities about its teeth make it difficult to regard it as a near relative of the modern domestic puss. The exact origin of the latter remains a puzzle. It appears first mysteriously in the middle ages, when it was decidedly rare and highly prized throughout Europe, though the wild cat still abounded everywhere, and experts have not been able to satisfy themselves that the domestic cat and the wild one are really the same. —Chicago News.

Sound Philosophy.

Of all methods of making another person angry and disagreeable the worst is to tell him that he will "have to" do something. How often do we hear, "You will have to go to the other window." "You will have to go into the other car." "You will have to wait an hour." "You will have to write the general passenger agent or superintendent," and the like! Primarily we are all free agents and don't "have to" do a damned thing. We may find it expedient or necessary to "have to" do it if we don't want to. How easy to put the direction in another manner, such as, "The other window, please," or "Will you kindly take the car ahead?" or "The rules require." A short, very short explanation of why a certain thing is necessary will always work wonders in avoiding trouble.—Railroad Employee.

Hard to Choose.

"Whom would you rather entertain," asks the philosopher of folly, "a perfectly stupid here or a clever fellow who has just been abroad for the first time?"

TELLS OF HIS RECENT VISIT HERE.

The Eastern Training School—The Greenville Reflector and Reflections Thereon.

The writer had never been in Greenville until he went there on the occasion of the inspection of the nearly completed Eastern Training School, the other day, at the invitation of his old friend, Governor Jarvis. To say that he was astounded by what he saw is a mild statement of his impressions. A bustling town, with over a mile of perfectly paved streets in the business quarter; with waterworks, sewerage, and electric lights; and with many beautiful residences, on lovely streets that run up and down hill in a most attractive way—to say nothing of the finely appointed and hospitable "Carolina Club", and a quaint old hotel that looks as if borrowed from rural Britain.

It would take a long time to tell the story of the establishment of the magnificent "Eastern Training School" which the public spirit of the people of Greenville and Pitt has so quickly brought into being. I seems but the other day since Fayetteville, we believe, was named as a competitor for its location. It is no wonder that Greenville secured it, over all competitors, when the result is seen. With the same spirit which, in the space of two or three years, has converted the old-time court house town into the attractive little city of today, the people of that community set about "making good" its claims to the school. The State had appropriated \$15,000 for this purpose, but Greenville supplemented this small sum by \$50,000 and the county of Pitt by another \$50,000. With this \$115,000 a beautiful site of some 50 acres has been purchased and four magnificent buildings, fitted with every modern appliance, have been erected thereon. These are practically finished, but they require furniture, and a central power house and an infirmary should be added. The cost of these additions, including the furniture, will be \$50,000. The State should supply this amount—along with the appropriations required for additional equipment at the University, at the State Agricultural and Mechanical college, and at the State Normal and Industrial college. As we have heretofore said, these needed investments, together with similar ones at the charitable institutions, should be provided for by a bond issue—a use of the State's credit which would be a wise economy for such investments, though not to be tolerated, except in the gravest emergencies, when applied to current expenses.

We had occasion, some time ago, to cite Greenville as an example of progress. At that time we knew nothing of it except what it seemed to be as it shone through that remarkable paper, the Greenville Daily Reflector. We call the Reflector a remarkable paper because, about 1893 or 1894, at a time when Greenville was but a village of some 1,500 inhabitants, it started a little daily edition, and, by good management, backed by a patriotic community, it has "made good" for itself and the community.

About the time that the Reflector was making its hazardous venture, there were manifestations of restlessness in many of the towns of the State which had not daily papers but thought they ought to have. Fayetteville was one of these towns, which, in the language of the sporting men, had "a champagne appetite and a whiskey income," and we believe it is true that, except for the example of the Reflector, we could never have screwed up

courage to start the Daily Observer in Fayetteville, in 1898. Evidently the Reflector, like the Observer, trusted that its enterprise would advertise the town and force it to a growth where income and appetite would meet. Most of the similar ventures in the smaller towns of the State, however, we are sorry to say, failed; for the calculation among newspaper men is that dailies cannot be made to pay in towns of less than 10,000 inhabitants. By "pay" we mean pay the owner, for almost any sort of daily paper immensely pays the community. That this news paper men's calculation is correct, and that in the case of Fayetteville at least, it is true also of weeklies, is illustrated by the remarkable experience of Fayetteville. From 1890 to 1901, after which we ceased to keep files of Fayetteville papers other than the Observer, there had been established in Fayetteville 13 papers, 3 of them daily. All have gone out of existence, after a longer or shorter life, and for the reason that they did not pay.

Since 1901 there have probably been quite as many more papers started, and all suffering the same fate. Indeed, a paper was moved into Fayetteville from the country lately, published here five times and moved back again, before the editor of the Observer, who had just discovered it in his mail accumulation and written an editorial greeting for it was aware of its having come at all. And the Observer would have gone the way of the rest of them except for inherited sources of strength, which, in the nature of things, none of them could enjoy.

The Observer is happy to record its thanks to the Greenville contemporary for blazing the way for dailies in small towns—namely, by starting with a little sneer and feeling its way step by step. The fate of the Greenville Industrial News, to say nothing of the scores of less pretentious ventures in other towns of the State in the past ten years, illustrates the folly of any other course.—Fayetteville Observer.

Death Due to Accident.
Wednesday night Marion Whitchard, little four-year-old son of Mrs. Joseph Tripp, died at her home about 2 miles from town. The death of the little boy was due to injury sustained in a fall while at play with some other boys about ten days previous. A larger boy was tossing Marion up and catching him, but failing to catch him once the little boy fell, striking heavily on his temple. Concussion of the brain is supposed to have resulted from the fall.

THE REST ROOM

Will Be Opened in a Few Days.

Through the efforts of The King's Daughters and the assistance given them by the business people of the town and the Board of Aldermen, arrangements have been perfected for Greenville to have a rest room. For this purpose two rooms have been secured in the Howell building, on the corner of Canch and Third streets, and in a few days these will be ready for use. Ladies coming in from the country to spend the day here will find these rooms a convenient place to leave their bundles and to stop for a rest, or to eat their lunch. A matron will be in charge of the rooms to look after the comfort of visitors. The King's Daughters, the town and the women of the county are to be congratulated upon the success of this movement.

SOLIDER BALKS DEATH-PLOT.

It seemed to J. A. Sto, a civil engineer, of Kemp, Tex., that a plot existed between a deep-sea lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me, in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 175 pounds." For severe colds, chronic coughs, whooping cough, asthma and to prevent pneumonia its unrivaled, 5c. and \$1.00. Trial bottle free. Guaranteed by J. B. Druggist.

Little Girl Breaks Arm.

Thursday evening Miss Lucille Randolph, 8-year-old daughter of Mr. and Mrs. J. B. Randolph, met with a serious accident in which her left arm was broken at the elbow. The little girl was playing in front of her home with some other children of the neighborhood, and in some way stumbled and fell on the side walk, causing the accident.
