SURVEY OF TAR RIVER.

Washington, D. C. March 23.

Editor Reflector: The river and harbor act approved March 3rd, 1909, authorized an examination and survey of Tar River from Washington to Tarboro, "with a view to obtaining greater depth and width." Purposely no depth or width was specified, but it was left to the sound discretion of the district engineer, based upon commercial necessities and the engineering limitations, having also in mind a reasonable cost.

I respectfully request that the Chamber of Commerce of Greenville, North Carolina and Tarboro, and such other persons as are interested in the improvement of this river, shall communicate at once with Capt. Earl I. Brown, Corps of Engineers, U. S. A., Wilmington, North Carolina, giving him their views as to the respective depths and widths to which this stream should be improved along its length, and that they will also be in readiness to respond to any request for commercial data as to the commerce of this stream existing and prospective. I also request that such citizens as communicate with Capt. Brown will also advise me of the nature of their communications.

Very respectfully, Jno. H. Small.

Willingham will treat you right.

RAIDED A GAMBLING JOINT.

Unlucky Thirteen Laid in Jail.

Saturday night Deputy Sheriff W. S. Tucker went out across the Norfolk & Southern railroad to serve a warrant on a colored man who was thought to be in a certain house near the town limits. Night Policeman W. H. McGowan and Mr. G. A. Jackson went along with the deputy sheriff, and upon arriving at the house they found a great deal more than they went out to look for. A rap on the door by the officer was followed by a considerable scurrying and noise within, and when admission was gained a regular gambling den was found. When the officers completed the round-up of the bunch they had just thirteen, and some one or two got away.

The thirteen, one woman and twelve men, all colored, were given a preliminary hearing before Justice C. D. Rountree Monday, and were all bound over to Superior court. Only about half of the crowd were able to give bond and the others went to jail.

EXECUTIVE COMMITTEE.

Inspect Plans for Additional Buildings.

State Superintendent J. Y. Joyner, of Raleigh, and Senator Y. T. Ormond, of Kinston, were here today with ex-Gov. T. J. Jarvis, the other member of the executive committee of the board of directors of the Eastern Training School, looking after matters in connection with the school.

Architects Hook, of Charlotte and Simpson, of New Bern, were also here with the committee and together they went over the plans for the power house and infirmary buildings which are to be erected as early as possible. The last legislature made provision for these two additional buildings and also for furnishing all of the buildings in readiness for the opening of the school next fall.

The Navigating Jellyfish. Scientifically, of course, the popular idea of the jellyfish is wholly mistaken. But it is perhaps only in tropical waters that he is found in the perfection of intelligence. In the south Pacific, around the islands of Polynesia and as far south as the upper portion of the north island of New Zealand, there is a jellyfish that not only knows where he wants to go, but is even provided with a sail, which he can and does hoist or lower at will. The sail, like the rest of this curious animal, is almost transparent, but, unlike the body of the fish, which is of the usual gelatinous construction, the sail is a membrane almost as hard as shell.—London Standard.

And So He Left Them. With a heart full of good intentions and a bag full of evil traits he approached the cottage in the wooded wilds. "Madam, may I leave some tracts with you?" "You may, kind sir, but leave the best marks of their pointing directly toward these steps."—New York Times.

TRY THE REFLECTOR FOR JOB WORK

THE RIGHT OF THE CHILD.

How President Roosevelt Reminded the Nation of its Duty to the Unfortunate.

There can be no more important subject from the standpoint of the nation than that of the child; because, when you take care of the children you are taking care of the nation of tomorrow; and it is incumbent upon every one of us to do all in his or her power to provide for the interests of those children whom cruel misfortune has handicapped at the very outset of their lives. I believe that we all of us have come to the conclusion that, where possible, the thing to be done for the child is to provide a home for it; and that where that is not possible we should make the conditions as nearly as possible like those which the child would have in a home.

There is ample room for all existing institutions, but the work of extension should, so far as possible, be a work of extension in home-placing; and, where that is not possible, to make the conditions surrounding the child that can not be put in a home as nearly as possible like those which would obtain were the child in a home.—From President Roosevelt's Address published in the April Delineator.

OBJECT TO STRONG MEDICINES.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one of the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by J. L. VERDICT FOR PLAINTIFF.

J. R. Whitehurst Wins Damage Suit Against Town of Bethel.

The suit for damages brought by J. R. Whitehurst against the town of Bethel, which began Tuesday in court, was ended today, the decision of the jury being against the town and giving the plaintiff damages in the sum of \$300.

The cause for the suit was that Whitehurst was arrested for being drunk on the evening of January 4th, 1908, and was placed in the guard house and kept all night. The plaintiff claimed that the weather was cold, the prison in which he was confined had no glass in windows, no means of having fire, no bed to sleep on and insufficient covering to keep him warm, and because of this he suffered much from cold which was followed by sickness and impairment of health from which he has not yet recovered. The amount sued for was \$2,000, which the jury scaled down to \$300.

The case was warmly contested on both sides. An appeal will be taken by the defendant to Supreme court.

FOR CONSTIPATION.

STATE NEWS.

Happenings of Interest in North Carolina.

Washington, D. C., March 5.—The intimation by President Taft that he might appoint a Democrat to the vacant judgeship, and that he was considering the names of two judges of the State Supreme Court, has aroused the ire of North Carolina Republicans, the leaders among whom have assembled in Washington for the purpose of exerting themselves in opposition to any such plan.

Louisburg, March 24.—A serious accident occurred yesterday afternoon in the suburbs of the town. About sixteen convicts were at work on the road, when there was an unexpected explosion of dynamite, which had been used in some rock a few days ago. Four of the men were injured, two seriously, one in the face and eyes, another, it is feared, will lose four of his fingers.

Washington, D. C., March 24.—President Taft is going to Charlotte May 20th to attend the celebration in honor of the signing of the Mecklenburg Declaration of Independence. An invitation to be the guest of the city was extended today by a large delegation from Charlotte, which was made very happy by reason of the president's prompt affirmative reply.

The North Carolina Teachers' Assembly will hold its 25th annual session at Morehead City June 15-18, 1909. Secretary R. D. W. Connor announces that the program is nearly completed. It will be devoted to a discussion of practical problems with which teachers are daily confronted in their work, and will include many of the most prominent educators and teachers in North Carolina and other States.

RHEUMATISM.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment to all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price 25 cents, large size 50 cents. Sold by J. L. Wooten and Coward & Wooten.

WOMEN BAPTISTS AT HIGH POINT.

Three Hundred Delegates Attend the Convention.

High Point, N. C., Mar. 24.—Three hundred or more delegates are here in attendance upon the Baptist Women's Missionary convention at the First Baptist church. On account of ill health, Miss Fannie Heck, the beloved president, cannot attend and a beautiful bouquet of flowers was presented in behalf of her by the Rev. Livingston Johnson.

The convention sermon was preached by Dr. J. W. Lynch, of Wake Forest. Devotional exercises were held this morning, led by Miss Upchurch, of Raleigh. Mrs. O. L. Powers welcomed the guests and Mrs. L. J. Jenkins, of Gastonia, responded.

Miss Anna B. Hartsell, returned missionary from China, made a highly interesting talk. At the devotional exercises this evening Miss Ethel Pickett, of this city, extended greetings on behalf of the N. C. Y. W. A. A big reception was tendered this afternoon at the home of Mayor M. J. Wrenn. Dr. Porter, of Richmond, Va., delivered an address tonight.

Free postcards, free rides, free soft drinks and about everything free is being extended the 300 delegates from all over the State.

A HEALING SALVE FOR BURNS, CHAPPED HANDS AND SORE NIPPLES.

As a healing salve for burns, sores, sore nipples and chapped hands Chamberlain's Salve is most excellent. It allays the pain of a burn almost instantly, and unless the injury is very severe, boils the parts without leaving a scar. Price, 25 cents. For sale by J. L. Wooten and Coward & Wooten.

From One Bond to Another.

A negro who had a case in court the other day seemed to step "out of the frying pan into the fire." This particular son of Ham was suing his wife for divorce. The defendant wife put in no appearance and no answer to the complaint, hence the man had it all his own way in getting the divorce. When the jury handed up a verdict freeing the man from the bonds of matrimony he was about to take his departure from the court room when Deputy Sheriff O. W. Harrington advised him to wait, as there was other business for him. The officer produced a warrant against the man and he was placed under another bond, this one being to appear for trial and answer a charge for trespass.

"ONE TOUCH OF NATURE MAKES THE WHOLE WORLD KIN."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for a copy also use it and obtain relief. Behind every one of these letters is a warm heartfelt wish of the writer to be of use to someone else. This remedy is for sale by J. L. Wooten and Coward & Wooten.

The Chickens Deserved It.

Glady, aged six, would never eat pie-crust, but would slyly hide the crust under the edge of her plate after having eaten the filling. One day her mama saw her putting away the crust as usual, and thought to reprimand her by saying: "Oh, Glady, mama doesn't like little girls who do such things."

Whereupon Glady said: "Well, mama, I am saving it for the chickens. They like it and I don't, and they ought to have it, for they are better than I am; they lay eggs and I don't."—The April Delineator.

UP BEFORE THE BAR.

N. H. Brown, an attorney, of Pittsfield, Vt., writes: "We have used Dr. King's New Life Pills for years and find them such a good family medicine. We wouldn't do without them." For chills, constipation, biliousness or sick headache they work wonders, 25c at all Druggists.

GREENVILLE'S

Most Important MILLINERY OPENING WEDNESDAY, March 31st.

As you view the millinery magnificence spread before you here you will fully agree that this opening is the millinery event of the season. Every hat on display is a model of perfection, reflecting the very latest style ideas of the foremost designers. All were especially selected and comprise the authoritative styles from fashion centers of the world.

You can select hats here that are exact models of the styles made famous in the Atelens of Paris, London, Berlin, Vienna and etc., but you will not find them priced so high.

IT IS SPRING SEASON'S MOST IMPORTANT STYLE EVENT.

The first and most comprehensive showing of correct spring millinery for 1909. The imported models of rare elegance and beauty—alluring example of the skill of world famed milliners, all the honors, however, are not to Europe. Our own designs have wrought with finished cleverness and many of their creations vie with the best imported models.

FRIDAY APR. 2 1909.

The tariff war will end with-out a man killed.

"There is something rotten in Denmark"—Raleigh.

The South Pole has been reached. Now for the North one.

Raleigh may get rid of them but not without the light of her life.

And Raleigh also has the appearance of being a hot bed of graft.

Raleigh now has enough evidence to justify turning them all out.

There is no intimation that the tariff will be taken off the Easter hat.

Did the almanac builders make a mistake in saying spring had come?

Greenville grows a little every day. Are you keeping up with the procession?

Those most anxious to keep up with the hunting trips are studying the map of Africa.

Charlotte, Concord and Durham are each striving to capture the Pythian orphanage.

There is nothing that Pitt county needs to awaken interest in more than good roads.

The wireless is likely to get off something startling about Hunter Roosevelt any day.

Charlotte is very much elated over the promise of a visit from President Taft on May 20th.

Charlotte gets things for the asking, which is more than some of the rest of them can say.

Some of the members of congress are getting worked up to the "cussin' key" over the tariff.

Salisbury sold \$50,000 in bonds for \$108. That looks like North Carolina towns have good credit.

A man in Michigan went crazy over beefsteak. The price must have had something to do with it.

Wonder what they are going to do with the South Pole, now that Shackleton is reported to have found it.

Raleigh did herself proud in the primary election Tuesday and can now proceed to redeem her reputation.

Remembering past experiences with the use of guns between her citizens, Raleigh should be careful not to make the present political agitation too warm.

Earle's "affinity" now sets up the assertion that he is crazy. Her own sanity is nothing to boast of.

This is one time that both Raleigh papers are on the same side, and something may come out of it.

Whoever mutilated those records in Raleigh is carrying the crime further by trying to put it on a scape-goat.

The editors will whiff the mountain breezes around Hendersonville at their next meeting. That is all right.

The longer President Taft delays in making the appointment the more guessing there will be about the Eastern judgeship.

The wireless cuts some capers occasionally, the report that the battleship Mississippi had been blown up being one of them.

If the Coopers stay in Europe and escape the penitentiary Tennessee will be rid of them, and that may be some consolation.

If those in charge of affairs in Raleigh are as bad as now claimed, the wonder is that the people have let them stay in this long.

The Raleigh Times wants to know if the Mecklenburgers will invite Captain Ashe to the celebration. They ought to, and convince him.

In a number of towns in the State municipal campaigns are being waged with as much spirit as marked the gubernatorial campaign last year.

The better element of Raleigh seems determined to come to the front. Long time starting about it, but making good headway since the race began.

If the real kidnappers of the White boy are found, such punishment should be meted out to them as will make any others contemplating a like crime take warning.

If the elephants and the lions and the tigers in Africa received a wireless that Roosevelt has sailed, they will make for the tall timber.

The fool bill to limit the South's representation in congress has made its appearance again. Every now and then some member tries to gain a bit of notoriety by bringing it up.

North Carolina has the reputation of being first in many things, and is apt as not the North Pole is going to stay in hiding until a Tar Heel goes up and discovers it.

The tightness of finances is now charged up to the uncertainty of tariff tinkering. The fellow who has money may find some excuse for holding it and not paying what he owes.

With so many towns getting mills and large factories, it looks like Greenville should be able to secure at least one. They are needed here as much as in any place that could be mentioned.

A bill has been introduced in the Pennsylvania legislature making kidnapping a felony punishable only by death by hanging.

Charlotte is also to have Mrs. Taft at the celebration May 20th. Much more of this good luck and Miss Charlotte will be beside herself with joy. She will have

hanging. Kidnapping should be made a capital crime and those guilty of it given the severest punishment.

If you get your support out of a community, you owe the community something in return. It is not a good citizen who gets all he can from a community, and then kicks and growls and hinders progress.

The congressman who introduced a bill to change the salary of congressmen from \$7,500 and put it back to \$5,000, is not going to have many followers among the members.

The news coming from Washington is that congress will make a determined effort to reduce public expenditures to such a figure as will be within government receipts. About the best place to begin reduction is the pension list.

If the members get to doing much more "cussing" each other over the tariff tinkering, we may have to take back what was said about no one being killed before the war is over.

The way it has started off shows that Charlotte is going to get at least two months of good advertising out of it, to say nothing of what will come after. It is the very best kind of advertising too. And Charlotte deserves it all.

North Carolina is to have a visit from President Taft, as he has accepted an invitation to attend the 20th of May celebration of the Mecklenburg Declaration of Independence. The "Queen City" will do herself proud on the occasion of the president's visit.

As planting time is almost here, The Reflector wants to urge the farmers of Pitt county to put in a large corn acreage. It would be astonishing to know how much money goes out of the county every year, for corn, when the farmers ought to have corn to sell instead of being buyers.

We thought something might be looked for. Now comes the report that an Italian steamer passenger on the Hamburg, the steamer on which Mr. Roosevelt was crossing the sea on his journey to Africa, wanted to kill him. Possibly the next day or two may bring the report that it is all a fake.

Raleigh has pulled herself out of the disgraceful municipal muddle, or is in a fair way to do so. A primary election was held there Tuesday for city officials, and with one lone exception an entire new set of aldermen was chosen. The people started out for reform and are going to get it.

Recently the Lexington Dispatch took a number of Davidson county farmers on an excursion to Charlotte and showed them the good roads in Mecklenburg.

We are printing an article taken from The Dispatch about these roads that should be read by every farmer especially in Pitt county.

Charlotte is also to have Mrs. Taft at the celebration May 20th. Much more of this good luck and Miss Charlotte will be beside herself with joy. She will have

out her best spring finery for the occasion, and here's one who will be glad if the newspaper boys' executive committee lays plans for them to strike there about the same time.

Elsewhere in this issue is a card from Mayor Whedbee relative to sidewalks and curbing along Evans street and Dickinson avenue that should have the attention of property owners along these streets. The town did the work of constructing these sidewalks in good faith, and the property owners should show their appreciation by doing their best to help the town meet its obligations.

Since the first of January The Reflector has been offered, and refused, enough whiskey advertisements to fill more columns of the paper than all the business men of Greenville occupy. One man the other day offered \$50 cash down for a small ad., and when it was declined said he did not see why we "could not put in these advertisements for good money like many other newspapers." Other papers conduct their business to suit themselves and with that we have nothing to do and no criticism to offer, but The Reflector makes a standard for itself and tries to live up to it. The paper needs the money bad enough, but does not want to make any that way. If the paper can not live on the side of morality and right it will cease to live.

The Raleigh News and Observer has unearthed a disgraceful condition in the municipal affairs of the capital city. Mr. E. L. Conn, one of the News and Observer reporters, was sent to investigate the police records of the city to ascertain the amounts imposed in fines and penalties during the last two years and if these fines had been turned over to the county treasurer for the school fund as the law provides. This investigation disclosed that the amount of fines in Raleigh was less than one-sixth of what they were in Winston-Salem, a city about the same size as Raleigh, yet even of this small amount there was shown a discrepancy of above \$1,700 between the amount of fines imposed and the amount accounted for to the treasurer. To add further to the disgrace of the city, when it became known that Mr. Conn was making this investigation some vandal went to the municipal office under cover of night and so mutilated the records that their correctness could be no further attested. As soon as this last discovery was made the mayor called the aldermen together in special session and a reward of \$200 was offered for the apprehension of the party who mutilated the records. It is a disgraceful state of affairs and fully justifies the movement that is going on among the people of Raleigh to bring about a change for better city government.

H. E. C. Bryant, Washington correspondent of The Charlotte Observer, gives the following as the late in regard to the eastern judgeship:

"The eastern judgeship of North Carolina is giving Mr. Taft some worry; he is between the devil and the deep blue sea. Good men—fine lawyers—have come up here and said that Republicans of the district would

make first-rate judges. Two weeks ago the president did not believe that he could get a suitable man from his party but recently he has come to the conclusion that the endorsements of Seawell, Hicks, Skinner and others are just as good as those of Democrats suggested. To get at the truth he would have to go to North Carolina and study the qualifications of the endorsers. Democrats have so muddled the waters that it looks like the safest thing for him to do is to appoint a Republican. Messrs. Duncan and Adams, through Postmaster General Hitchcock, are making a desperate fight to have the position go to a Republican, and it looks now as if they would win. Seawell's chances at this hour are better than those of any other man mentioned for the place."

BLACK JACK ITEMS.

Black Jack, N. C., March 30.

J. A. Clark has returned home from Whitsett institute, where he has been attending school.

We were very glad to see him again.

Miss Dollie Dixon, of Edwards, is spending a few days here with relatives and friends.

We enjoyed the commencement at Galloway's school house last Friday night. There was quite a large crowd. They all report a fine time.

Misses Janie Harper and Dollie Dixon spent Saturday night and Sunday with Miss Martha Williams.

W. L. Clark and son, George, went to Greenville Saturday.

Henry Dixon went to Greenville Tuesday.

Washington Mills does not seem to improve very fast. Hope that he will soon be able to get about.

Miss Alice Mills is spending a few days with her brother.

The farmers are very busy planting corn. It is a fine time, the weather is beautiful, and the rees are shooting forth their buds like spring is coming soon.

The young men of this community are thinking of organizing a debating society for the purpose of training them to speak on different subjects. We hope to have it in a few days organized and ready to commence work.

We are glad to see the Sabbath school at this place improving since the weather is so beautiful again. We had a large crowd out Sunday, they seem to be more interested in the good work that we are carrying on at this place. All that we ask is that all come out and take an active part and we will do all that we can to have one among the best Sunday schools in the county. Let us work together in peace and love.

CHARLESTON WANTS NEXT IRRIGATION CONGRESS.

Spokane, Wash., March 29.

Delegates from the Southern states to the meeting of the National Irrigation Congress in Spokane the second week in August probably will make a concerted effort to have the 18th session of the organization take place somewhere in the South.

James Cosgrove, of Charleston, S. C., secretary of the sanitary and drainage commission for Charleston county, intimates this in a letter to Arthur Hooker, secretary of the local board of control of the 17th congress. He says:

"I would like to have you think over the proposition to have the sessions after the Spokane meeting somewhere in the South. Personally, I believe Charleston would be the right place and I have no doubt that our people would arrange to entertain the delegates royally."

Mr. Cosgrove says that it will be a pleasure for him and the residents of Charleston to take up with their representatives in congress the matter of the invitation to the president to attend the congress in Spokane, adding:

"I trust we will be able to have a debating society for the purpose of training them to speak on different subjects. We hope to have it in a few days organized and ready to commence work."

Regarding the reference to having the 19th congress in the South, Mr. Hooker said:

"The proposition submitted by Mr. Cosgrove is a novel and attractive one and if formally presented to the congress by our Southern friends, I am of the opinion that the delegates would give it every consideration."
