POOR PRINT

THE TWENTIETH AT CHARLOTTE.

TAFT GREETED BY THOUSANDS OF PEOPLE.

Rain latered with the Day's Program—President Laughed at 'Possum Float.'

A terrific cloud burst broke up the review of grand parade today at 1:30 o'clock.

The rain came down in sheets. It had been drizzling pretty much throughout the entire review but when the torrent came, the president and Governor Kitchin were hustled into a landau and taken to the hotel.

The gigantic crowd in the grand stand and all about it in the street, melted like metal in a white heat.

The president took the situation philosophically and expressed his kindly regrets that Charlotte's splendid preparations had been so sadly interfered with.

No untoward incident marked the grand review, save for a moment when during the passing of the industrial part of the parade, a tall design broke loose and was running past the reviewing stand.

As the head of the parade reached the grand stand, the enormous crowd in the stand rose to its feet and cheered and cheered again, and waved a myriad of flags, and the sight was indescribably beautiful.

The president was seated in the center of the grand stand. His military aide, Capt. Butt sat next to him.

Others of the Washington party were all about him. As Mrs. Jackson came on the stand, the President rose to greet her, the band played "Dixie," and again the multitude shouted.

Others on the stand were Senators Overman, Johnston, Congressman Morehead and Webb, ex-Congressman Thos. Settle, Mayor Hawkins, Chief Justice Clark, Maj. Hemphill, Mr. D. A. Tompkins, Lieut. Gov. McLeod, of South Carolina; Governor and Mrs. Kitchin, Mr. C. W. Tillet and a hundred or more distinguished people.

The U. S. troops were greeted by a kindly expression of obedience by Mr. Taft. He and Gov. Kitchin stood side by side and removed their hats to the occupants of the floats.

The tree full of opossums, in the Mecklenburg 'possum hunters' float, drew a laugh from the President.

The president noted with keen eye the floral parade. One of the most beautiful was the D. A. R. (Charlotte chapter) float—a mass of white snowballs. The insignia of the float was on the door in national blue colors.

On the back were the words, D. A. R. Blue and white ribbons flew from lamp posts. Mr. H. H. Orr was chauffeur, it being his and Mr. Sanders' auto. The occupants were, Miss Laura Orr, regent; Miss Madeline Orr, Mrs. H. M. Wade, Miss Ruth Shannonhouse and Mrs. S. P. Caldwell.

The parade did not follow the prescribed course, breaking up on account of the rain. His special train stopped only a few minutes, and the President appeared on the platform and bowed in recognition of the ovation.

HERE IS RELIEF FOR WOMEN.

termion in the auditorium at 4 o'clock. Chairman E. B. Moore, of the Central Committee, made this change in the hour and place this afternoon at 2 o'clock.

Interest in the president's visit to Charlotte has centered in the attitude he would take toward the Mecklenburg Declaration of Independence.

Mr. Taft takes the position that regardless of the exact language of the declarations made in May, 1776, a full year before the signing of the Declaration at Philadelphia, July 4, 1776, the fact remains that there was a declaration of independence on the part of the citizens of North Carolina.

"It is not so material as to the exact language used," said the president today. "The measure of declaration for the principles of liberty and self-government is not so much the abuse or denunciation of former controlling power, as provisions made for future form of government. The impressive thing about the North Carolina proposition is the sensible way the people of the state after deciding to sever relations with Great Britain went about the matter of setting up a government of their own."

The president in his speech late this afternoon does not undertake to reconcile long existing differences. The important thing, after all, he pointed out, is the ability of Anglo-Saxons to rule and the impressive way they always have gone about the setting up of simple and just forms of government and the means of maintaining civil liberty.—Charlotte News, 20th.

THE LONGFELLOW-SWIFT CASE.

MOST OF THE DAY TAKEN UP WITH TRIAL.

Case Continued—Longfellow Placed Under a \$3,000 Bond for His Appearance.

This morning the case of state against Longfellow, charged with bigamy, was called, and most of the day was taken up with affidavits and counter affidavits in the case. The state was represented by Loftin, Varner & Dawson and G. V. Cowper. The defense was carried on by E. R. Wooten and H. E. Shaw.

Solicitor Duffy was compelled to leave the city today to attend his child who is very sick in New Bern.

When the case was called Mr. Wooten, for the defense, immediately asked the state for a bill of particulars, alleging that the indictment failed to supply facts that the defendant was entitled to know. After some argument, the Judge ordered such a bill which was furnished, setting forth that the marriage in Norfolk took place on the first day of May between the hours of 5 and 9 o'clock p. m. and the ceremony was performed by Rev. Wingate. The defendant, Longfellow, then filed an affidavit asking a continuance to the August term. The affidavit denied a marriage and alleged the absence of a number of material witnesses and the impossibility of getting them here so as to properly make a defense at the present time.

Judge Allen then asked the state whether it proposed to present a counter-affidavit before the question of continuance was passed upon. Mr. L. R. Varner, for the state, announced that such would be the case. The judge then suggested to counsel for defense the advisability of the defendant, Longfellow, making and swearing to a statement relative to his marriage to Mrs. Longfellow No. 1. His honor then announced that the case would go over until 2 o'clock p. m.

When court re-convened at 2 o'clock the defendant's statement was sworn to and filed. The statement set forth the fact that Longfellow had on a certain date been legally married to his first wife in the city of Baltimore and that subsequent to that event there had been no grounds for divorce.

The counter-affidavit, which was being drawn up by counsel for the state was not ready to be presented.

At 20 minutes to 4, Mr. Varner on part of the state began to read the counter-affidavit. This affidavit denies emphatically every allegation made in the affidavit of the defense. It sets out in detail the circumstance of the movements of both Longfellow and Miss Swift or Mrs. Longfellow number two. Mrs. Longfellow number one also filed an affidavit denying some of the statements contained in Longfellow's affidavit. The counter-affidavit read by Mr. Varner and sworn to by Miss Swift contained reference to Mr. E. R. Wooten and this at the conclusion of the reading called for a statement from Mr. Wooten in which he stated that Miss Swift had admitted facts to him that were antagonistic to statements she made in her affidavit.

After the affidavits had been read Judge Allen took the matter under consideration and decided to grant a continuance. Mr. Cowper, for the state, asked that the case be settled at the earliest possible moment and suggested a special term for the purpose. Judge Allen said that he would consider the request and decide later. The defendant was placed under an appearance bond of \$3,000.—Kinston Free Press, 20th.

THE MOST COMMON CAUSE OF SUFFERING. Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Liniment will afford relief, and make rest and sleep possible. It is at first temporary, has become permanent, while in old people subjected to chronic rheumatism, often brought on by dampness or changes in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone worth many times its cost—65 and 50 cent sizes for sale by J. GREENVILLE HEALTH RECORD.

Only Two White People Have Died Since Christmas.

Mr. E. G. Flanagan has been in the undertaking business here for several years, and is well informed on vital statistics of the town. Talking with the Reflector about the health record of Greenville, he said that since this year came in, now nearly five months, there have been only two white people to die in the town. One of these was an aged lady who had been an invalid a long time, and the other was a young man who had pneumonia followed by fever.

Three gentlemen, whose names will be announced later, will be asked to act as judges, the suggestions all to be referred to them. The one they deem best will be adopted as Greenville's slogan and the \$3 Parker Fountain Pen awarded in accordance with their decision.

He Likes the West. The editor is in receipt of a personal letter from Mr. H. B. Tripp, who left here some weeks ago for San Francisco to take charge of the business office of his brother, Mr. J. B. Tripp, in that city. Heber says he likes the West fine, is enjoying himself out there, and has every prospect of much success in his business. He says there are yet many signs of the great earthquake that visited San Francisco, but the buildings are being rapidly replaced.

Thomas-Galloway. Mr. John B. Galloway requests the honour of your presence at the marriage of his daughter Helen Robena to Mr. Edward B. Thomas on Wednesday afternoon June the second nineteen hundred and nine at half after five o'clock Salem M. E. Church near Grimesland, North Carolina. At Home after July the first Greenville, North Carolina.

Another Poor Man Loses. The fact that a poor man lost \$22.00 in the fire at the Atlantic Furniture Company's plant should be a warning to all not to keep money but put it in a safe place—the banks are established for just this purpose and it is foolish to place oneself in the position of a loser when it can be so easily avoided.—High Point Enterprise.

Taft in Petersburg. Washington, D. C., May 19.—President Taft accompanied by Ambassador and Jusserand left Washington at 4:20 for Petersburg, where he will speak at the unveiling of the statue to Gen. Harttraut, and the Pennsylvania soldiers who fell there. He will leave tonight for Charlotte where he attends the Mecklenburg celebration tomorrow.

SLOGAN FOR GREENVILLE

Price Will be Given for Best Suggestion.

The Reflector wants a slogan for Greenville, or a catch phrase in advertising and attracting attention to the town. For instance, the city of Charlotte has adopted "Watch Charlotte Grow," a slogan that has become familiar everywhere. Now we want one equally as good for Greenville, and will give any reader of The Reflector an opportunity of making suggestions as to what it shall be. The person making the best suggestion before the first of June will be awarded any \$3 Parker Fountain Pen at the Reflector Book Store. The only rules governing this contest are as follows:

All suggestions must be sent to The Reflector in writing before the first day of June. The suggestion must contain not less than three nor more than six words. Any person can make as many different suggestions as desired. The Reflector is to have the privilege of using any or all the suggestions made as the paper deems fit in advertising Greenville.

Three gentlemen, whose names will be announced later, will be asked to act as judges, the suggestions all to be referred to them. The one they deem best will be adopted as Greenville's slogan and the \$3 Parker Fountain Pen awarded in accordance with their decision.

LONGFELLOW-SWIFT SENSATION.

MISS SWIFT AT SEVEN SPRINGS AT TIME OF ARREST.

Dirty Affair—Swift Family Prostrated With Grief Over It—Mrs. Longfellow No. 1 in Kinston.

Kinston, May 19.—A sensational arrest was made in this city last night when Sheriff Nunn arrested Mr. J. S. Longfellow, formerly of Wilmington, on a charge of bigamy. The arrest was made at Hotel Caswell just as Mr. Longfellow had paid his bill preparatory to leaving the city, on a bench warrant issued by Judge W. R. Allen upon information from Wilmington.

Longfellow spent last night and today in jail pending a preliminary trial, which will be held tomorrow. Miss Swift, or Mrs. Longfellow No. 2, was at Seven Springs yesterday but came to the city this morning. She says that they were married as stated by Rev. Wingate in the presence of two witnesses, Latham and Cooper. Longfellow when arrested said that he and Miss Swift are not and have never been married. A telegram today to the Norfolk Ledger Dispatch brings the following reply: "Records here show no such marriage. No Norfolk identification of Rev. Wingate."

Mrs. Longfellow No. 1 arrived in the city this afternoon from Wilmington to be present at the trial tomorrow. She said when approached: "I have nothing to say against my husband, but that he has treated me wrongly."

Miss Swift is of a family of high standing socially and is a beautiful and refined lady, daughter of the late W. C. Swift of this city. She and her family are prostrated over the affair. It is hard to tell what facts will be brought out at the trial tomorrow, but the Norfolk telegraph indicates a deception by a mock marriage. In either case a serious charge rests against the young man.

Kinston, N. C., May 20.—The preliminary trial of J. S. Longfellow for bigamy has been postponed until Friday morning in order to get testimony.

Wood for Aeroplanes. Time brings revenges, even in the timber trade, and a humble conifer long treated with contempt seems, literally, to be on the point of getting a rise in the world. Hitherto the black spruce has been despised as of meager commercial value, the yellowish timber being soft and easily indented, though very light and long of grain. It has lately been discovered that, by virtue of the two last named qualities, this tree furnishes by far the best wood for aeroplanes. As yet the black spruce has rarely been planted by our silviculturists save for ornamental or shelter.—Westminster Gazette.

FRIDAY MAY 28 1909.

Teddy has brought down his buffalo.

The bankers will do Charlotte this week.

Pull and push for Greenville, but never backward.

Durham won out in the race for the Pythian orphanage.

Just suppose Judge Connor should not accept it. Then what?

Charlotte certainly knows how to pull off a big affair, even to a rain storm.

Eleven cents cotton has about cleaned up all that the farmers were holding.

The fellow who says money is easy has not offered to learn anybody how it is done.

Yes, Miss Charlotte had on her best clothes at the celebration—and got 'em wet.

We are wondering what kind of tariff plank can get in the next Democratic platform.

The cranks are also giving President Taft some trouble by trying to get an interview with him.

North Carolina put on the best front to greet the president and Miss Charlotte is happy beyond expression.

We don't see why the north pole don't come on and be discovered, just for the notoriety of the thing.

The French Millionaire who allotted \$50,000 to his funeral expenses selected an easy way to help distribute it.

In a week more tax listing time will begin. Then the folks will all be poorer than at any other time of the year.

The vaudevilles or moving picture makers will be trying to get an engagement with the Wrights first thing you know.

The Washington Post has followed the move of The Reflector in offering a prize for the best slogan for advertising the city.

An exchange wants to know what shall be done when coal, gas and oil are exhausted. That's easy—we will be in air ships then.

There is a decided difference in the opinions of ex-Judge Robinson and Colonel Skinner of President Taft's appointment of Judge Connor.

We are unable to see the consistency of a Democratic member of congress advocating a tariff on anything, no matter what

section it affects. If a tariff is right on one article it is right on all, and if it is wrong in one instance it is wrong in all.

There is no longer a doubt of President Taft's thorough belief in the Mecklenburg Declaration of Independence, and Charlotte thinks more of him than ever.

Judge Taft and the editor of The Reflector are doing Charlotte today. Hope they will both enjoy the occasion, especially "the boss." He deserves to.

Press dispatches say that ex-President Roosevelt in South Africa has bagged a large rhinoceros and a hippopotamus. He must carry a mighty large bag.

Philadelphia is getting much wrought up over an epidemic of typhoid fever in that city. For a week past new cases have been developing at the rate of 25 to 35 a day.

We are glad Haines has met justice and has been placed in jail to serve a sentence that is but too short. We hope his name will drop out of the news papers now.

Like all other things the kid-nappers are coming South. A little two-year-old Georgia girl was stolen the other day while playing on the lawn in front of her home.

Go where you will and you hear Greenville talked about, for the reason that Greenville is doing things. Those who come to see find out that the half has not been told.

Speaker Cannon says he will never retire from politics. He may feel that way about it, but Father Time may interfere some of these days and come to the relief of the people.

The city council of Wheeling, W. Va., is considering having the street awnings raised because complaint was made that they impeded the easy passage of "peach basket" hats. It would be better to prune down the hats.

If you took 'em off on the 20th because the Raleigh News and Observer said so, you did the wrong thing. The Charlotte Observer is the only real prophet on this, and you better wait until Dr. Caldwell says take 'em off.

It is hoped to raise ten thousand dollars for a monument to Poca-hontas. If every descendant of John Smith contributes, it ought to be easy to raise a million.—The Youth's Companion.

Easier still, if every John Smith himself will contribute a dollar there will be money a plenty for a monument of the biggest sort.

The township including the town of Shelby, in Cleveland county, has voted to issue \$100,000 in bonds for the purpose of building good roads in the township. That is the right way to go after getting good roads, and The Reflector would like to see Pitt county get hold of that idea in dead earnest.

No art has advanced more rapidly in the last ten years than the art of photography. It has reached the point in its development that makes it very valuable to magazines, newspapers and theatres. A great deal of the news of today is told simply by pictures. A story is told perhaps more effectively by pictures than by a volume of words.

They are going to give Hetty Green, the richest woman in the world, trouble to the end of her

days. Relatives in California have set up a claim that Mrs. Green came into possession of the nucleus of her vast estate by means of a forged will, and these relatives will bring suit at her death for what they claim they are entitled to.

President Adolphus Williamson Green, of the National Biscuit Company, was recently presented a superb loving cup by his business associates. A very high tribute to the great captain of industry. This is notable in the fact that such displays of sentiment by thousands of one's employes are very unusual.

Think of it! Greenville, with a citizenship of 6,000 people, has had only two deaths among the white population, which is about two thirds of the total number, in nearly five months! We don't believe there is another town anywhere its size that can come up to such a health record. You are lucky to live in Greenville.

The appointment of Judge H. G. Connor as judge of the Federal court of Eastern North Carolina has been confirmed by the senate and Governor Kitchin has named Hon. J. S. Manning to succeed Judge Connor as associate justice of the Supreme court. There is no misfit in either of these appointments, for both are capable men.

"Old Harry," or whatever else you have a mind to call it, has broke loose in Georgia again. The Georgia Railroad in that State is completely tied up with a strike, all the engineers refusing to longer run their engines with negro firemen. Firing a locomotive is a job a negro seems well fitted for.

One good thing we hope to see come out of the automobile fever is an increased agitation for good roads. The things do run fine on a piece of good road, and the more there are will proportionately increase the advocates of better roads. May the tribe of motorists increase until the whole country is a net work of good roads.

The 4th of July is going to come on Sunday this year, but Greenville could do a good thing by starting a move right soon to have a big day with a big crowd here on either the 3rd or 5th. You business men take hold of this suggestion and push it, as you will be the ones to reap the greatest benefit from it. Here is a chance for you to do something.

We are receiving more slogans every mail from all parts of the county. And you will have to put your thinking cap on to get something better than some of them, but don't be discouraged. Just bring yours right along. You may be the winner and get that nice fountain pen, which, by the way, is a luxury—The Reflector is offering.

They are going to give Hetty Green, the richest woman in the world, trouble to the end of her

The number of brakemen being killed by their own carelessness on the railroads in this State as well as in other parts of the country is appalling. It seems that men working on and around trains would learn to be careful after awhile, but it is often the case when one who takes the place of another who has been killed is just as careless as the first and meets the same fate.

Greenville throws her doors wide open to the delegates and visitors attending the State convention of The King's Daughters and extends them a most cordial welcome. These noble women are engaged in a noble work, and The Reflector hopes their stay in Greenville will be pleasant, and that their convention here may mark the greatest progress in the history of the State organization.

All in the fuss and flurry of a great day and worldly achievements the good people of Charlotte did not forget the great, Almighty God that made such a day possible and a large text sign—"Get Right with God"—illuminated by electricity was placed on top of one of their buildings, while other Scriptural texts were flashed on canvass by moving picture machines during the celebration of the twentieth.

The trustees of the Baptist University for women at Raleigh have changed the name of the institution to Meredith College. This name was selected in honor of Rev. Thomas Meredith, pioneer of the Baptist denomination in North Carolina, and one among the first to seek the establishment of a college for women. He was also the founder of the Biblical Recorder.

The Greensboro Record suggests that a hand like Grover Cleveland's is needed to put an end to that strike on the Georgia Railroad. Because of the stubborn objection of engineers to run with negro firemen traffic on that road is at a standstill and not even mails are carried. There should be some plan to prevent such suspension and injury to business while a strike is being settled.

When the "boss" left Wednesday evening he was lugging two big bundles of the recent special edition of The Reflector, with which he said he was going to show the crowd at Charlotte that Greenville is going to be to the East what Charlotte already is to the West—the best place on the map. As these papers and a collar were all the baggage he carried he may not stay too long.

Charlotte did herself great credit in the celebration of the Mecklenburg Declaration of Independence so elaborately. We have never seen a city more beautifully decorated, and everything was done to give the thousands of visitors a good time. The celebration lasted three days, on two of which the weather was fine, but on the closing day there was a heavy rain storm. While this caused much disappointment, it interfered but little with the program of the day. The celebration as a whole was the greatest the city has ever had.

You goose-egg hailstone fellows had just as well keep quiet this season, as Texas has headed off the whole push. From the southwestern portion of that State comes the report of a storm in which the hailstones measured a foot-and-a-half in circumference and weighed eight to ten pounds. With such hailstones it is somewhat remarkable that only eight persons were among the killed. The reporter ought to have made his death list larger to be in keeping with the stones.

Let the fellow who is always saying "There ain't no news in the paper" and suggesting various impossible things to do by which we could get news, come along and try his hand as editor. If he can coax anything of a newsy nature out of the people here he is a wonder, and we will give him a hearty hand-shake. There are people visiting a great many of our readers, we know, who have never been mentioned in the paper, whom we would be glad to make personal mention of, but we don't know their names or where they are from and we have no means of finding them out. If you have a visitor or know any news of any kind go to the phone or drop us a note right now and let us know it. We will appreciate it immensely, and will not think you are forward by doing so, either.

Traveling up and through the State we see many towns not having near the advantages of Greenville that are forging right ahead in the way of progress. The secret of their development lies in manufacturing enterprises, a thing that Greenville is backward in. Furniture factories could be made to pay just as well here as at High Point. Cotton factories would be just as profitable in Greenville as in Haw River, Burlington, Rockingham, Gastonia or even in Charlotte. Tobacco factories here would pay the promoters just as well as do those of Durham or Winston. We have the raw material and other advantages right at our doors. Greenville should wake up to this need and get to work to secure factories.

In his speech at Charlotte President Taft, in answering certain criticisms of his appointment of Judge Connor to be Federal judge of the Eastern North Carolina district, gave expression to this fine sentiment: "The Federal judiciary should be as much appreciated in the South as in the North, and if I have an opportunity to make any appointments in the South it will continue to be my chief duty, to make such appointments as shall appeal to all the people whether they be Republicans or Democrats, and I urge all citizens to accept the appointments made, as men, if they are men, who will carry on their high duties with a single eye to the administration of justice, and not to make use of them for any partisan argument or partisan appeal."

Other portions of his speech were on equally as high plane as this, and strongly showed his attitude of friendliness toward the South. So far his administration indicates that he intends to be president of all the people without regard to section.

If you have had your thinking equipment ruminating over a slogan for Greenville, let the fruits of it come forward this week, as next Monday is the last day suggestions will be received. A large number of suggestions have already come in and every mail brings more, which gives an idea of the interest this contest has awakened. After the last mail is in next Monday evening all the suggestions will be turned over to a committee to select the best one which will be adopted as Greenville's slogan. Mayor H. W. Whedbee, Postmaster R. C. Flanagan and Mr. H. A. White have been requested and agreed to serve as this committee, and the \$3 Parker fountain pen will be awarded in accordance with their decision. They will have many good suggestions to select the slogan from.

Spring Hope, May 24.—Two negro boys, 4 or 5 years of age, are dead near here as a result of taking morphine administered later Saturday night by their father. The boys were the children of William Toney, a married white negro, who was hanged to Alice Howard some three weeks ago. Alice had one child. The evidence is that all three of the children were given morphine. The woman's child, however, has recovered from the effects of the drug.

Fayetteville, May 24.—Bradley Parker, a merchant of Parkersburg, Sampson county, was shot and instantly killed by Rural Mail Carrier Bass yesterday afternoon for refusing to sell a box of cartridges to Bass, who declared he wanted to kill another man. Parker remonstrated with the fellow and declined to open his store to procure the cartridges after Bass had threatened to kill him unless he did so, whereupon the mail carrier drew a revolver and shot him dead. Bass was arrested and placed in the Sampson county jail at Clinton. Parker was a prominent and highly esteemed citizen of Parkersburg.

TEETH AS THEY GROW

The Way Nature Forms and Fixes Them in the Gums. THEY ARE NOT MADE OF BONE. Teeth Are Really Skin Structures in Respect to Their Mode of Origin. The Variety of Form Which Adapts Them For Varying Uses.

Familiar to everybody as are the teeth, few persons save those who have dipped into the history viewed from the scientific side, can form an adequate idea regarding their true nature. If the man in the street were asked to construct a classified list of his bodily belongings he would almost certainly place teeth in the section which included the bones. There are several reasons for this choice. Teeth are hard and bony in structure, and they are fixed in the jaws. These facts would seem on the face of things to justify the inclusion of the teeth in the list of skeletal structures. The view of the teeth, however, is readily proved to be incorrect. We have only to appeal to nature's way of making a tooth—in other words, to study its development—to assure ourselves that teeth are not bones at all, but structures of a very different kind. The first indication of tooth formation begins in very early life with the formation of a groove in the gum, or mucous membrane lining the mouth. This furrow is the first stage of the tooth. From the groove arise as many little projections of the gum as there are to be teeth. Each projection we call a papilla. Now, this little body contains a plentiful supply of blood vessels, destined to bring to it the raw material—blood out of which not teeth alone, but all other organs, tissues and secretions, are manufactured. The papilla, besides, is composed of and particularly invested with living cells of a special kind. These cells are to be regarded as the workmen which fabricate the tooth. The material specially required for tooth formation consists of compounds of lime associated with other substances.

Around the papilla and upon it, as on a mold, the hard material of the tooth is deposited. This is elevated into a substance which, under the microscope, shows a special structure of its own, differing widely from that which is represented in a trivial mold. The great bulk of a tooth consists of ivory or dentine, as it is also called. This is a dense, hard substance which shows a texture composed of an infinite variety of microscopic tubules. But at the crown of the tooth especially we meet with a layer of different kind and of still harder consistency, which is the hardest substance in the body. Its position on the crown of the tooth bears a relation to the resistance to wear and tear the tooth is intended to exhibit, the softer ivory being thus protected from the obvious effects of the process of attrition. Thus on the papilla, as on a mold, the tooth is formed, its substance coming to cover, as in an envelope, the little projection itself. Long before the tooth, however, is completed the groove in the gum has become partitioned off into a series of sacs or compartments. The furrow itself becomes converted into a tube by the upward growth of the tissue at its edges in the middle line. Then succeeds division into sacs, in each of which a papilla is present and in each of which a developing tooth is contained.

If the hard materials of the tooth be found around the papilla we discover that the tooth is a hollow and that a solid structure, for the pulp inside every tooth, a substance richly supplied with nerves and blood vessels, really represents the papilla of the early stages. The tooth's nourishment is thus duly provided for, since processes of the pulp pass into the minute tubules of the ivory, and so contribute to the maintenance of the vitality of the organ. When the tooth is completed within its sac, all that remains to be done is for it to appear in the jaw, in which provision has been made for its fixation. A tooth "cuts" the gum when through upward pressure on the sac, the burrs through its investment and takes the place nature has mapped out for it in the armamentarium of the mouth. Now, in all this history there is no hint given as to any connection between bone formation and tooth development save indeed for the connection between the two structures in the jaw. The gum in the present tissue of the teeth, and the gum is simply the skin layer of the body folded inward at the mouth to form the lining membrane of the cavity, which it is continued onward, with variations in its organization, to form the lining of the digestive tract as well. Teeth are therefore truly skin structures, in respect of their mode of origin, which, after all, is the surest and indeed the only test of the nature of any living tissue or part.

By all odds the very longest tooth in the world is that of the narwhal, which grows into a twisted ivory pole and is called the tusk. It is described in Wilson in Illustrated London News.

IN DEFENSE OF CASTRO. His Exclusion From Venezuela Declared Grossly Irregular. If the harrings of Castro continues long enough; if the countries that have possessions around the Caribbean Sea persist in barring him from their ports or driving him away as soon as he lands, the situation will cease to be amusing and become a cause of mildly indignant wonder. Moreover, in time some people may reach the point of asking if it is not rather small business for the United States to lead in the hunting down of one man, and a sick man at that, particularly at the obvious fears of what he may do if he enters his own country or even gets near it are not only distinctly ludicrous in themselves, but they can fairly enough be interpreted as providing a conclusive argument for letting Castro go where he pleases and do what he can. Venezuela either has or has not at the present time a government able to administer its own affairs and to protect its own dignity. In the one case there would seem to be no reason why it needs help against a single enemy; in the other the help is not deserved. The fact is, or at least so it begins to look, that Gomez, whom Castro left in charge as a trusted friend and subordinate officer, is much less the president of Venezuela by the choice of its people than the propped up agent of certain foreigners with dubious claims and concessions, who think they can use him in the enforcement of their demands. However, Castro may have attained and kept the presidency, it was and is under both Venezuelan and international law, and the methods by which he is excluded from it are grossly irregular as the worst which he has been charged with using. Castro is undoubtedly a villain, according to foreign notions, but his position is technically perfect and the excuse for interfering with his travels are all of the poor kind that cannot be openly avowed. He has a real grievance, and he seems likely to win general sympathy as a persecuted man.—New York Times.

MR. WILLIAM F. STEESE. Mr. William F. Steese, 701 Colburn St., Akron, Ohio, writes: "I have been troubled for several years with catarrh of the stomach. Have used different patent medicines to no effect whatever, and have doctor's considerable with family doctor. Sometimes his treatment would relieve me for a few weeks, but would eventually have to go back to him, and that had kept up for several years. "I was advised to use Peruna, and have taken three bottles. Never felt so good in my life. Am going to continue using it. Wouldn't be without it in the house. I will gladly recommend it to any one afflicted with catarrh of stomach, or stomach trouble of any kind." "The above is an oft-reported story, troubled for years with chronic catarrh. Tried different remedies and doctors to no avail. Peruna was advised by friends. Instant relief experienced. Great gratitude to Peruna expressed. This is brief, but a story that is repeated to us a great many times every year. No one could be in touch with our vast correspondence for one month without being impressed with the sincerity and truthfulness of these kind of testimonials. Peruna promptly produces an appetite, corrects digestion and relieves stomach difficulties that have resisted other treatment." Man-2-In an Ideal Laxative.

A Necessary. "Twenty dollars for retreating your hat!" exclaimed Mr. Madison. "But we agreed to spend nothing except for things that were really necessary." "Well, John, this is you see, my best friend has just had hers retreated, and I have promised to go with her to the concert on Friday." "Oh, all right. But I can't give you more than fifteen this morning, because I broke my meerschaum and must have it mended." "Can't you smoke your old briarwood?" "Certainly, dear. And you can wear your old hat."

IT SAVED HIS LEG. "All though I'd love to be," writes J. A. Swenson, Waterbury, Wis.: "I've been a lame man for some time could not care, had at last had me up. Then Eucelen's Arnica salve cured it sound and well." Reliable for skin eruptions, eczema, salt rheum, boils, fever sores, burns, scalds, cuts and piles. 25c at all Druggists.

**Why RALSTON SHOES are non-wrinkling**

As you have probably noticed, most shoes have a tendency to wrinkle and "bunch up" across the toes after the shoes have been worn a few times. This is the fault of the lasting (the process of pulling and stretching the leather over the wooden last.)

The RALSTON method has remedied this fault. Ralston vamps are first crimped (see illustration) then lasted. There are no bunches, no wrinkles, because every part of the vamp fits the last perfectly without straining the leather at any point. This adds to the wear of the shoe. It also explains the reason why Ralstons retain their smart appearance until worn out.

There are other unusual features of RALSTON SHOE construction which will appeal to you. Come in and look over our new styles.

**HIDDEN DANGERS.**  
Nature Gives Timely Warnings That No Greenville Citizen Can Afford to Ignore

Danger Signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well known symptoms are: a clear, amber fluid; Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is proof in the statement of a nearby resident:

Wm. Murrell, Washington & Tarboro, Sta., Rocky Mount, N. C., says: Doan's Kidney Pills proved in my case to be a valuable remedy for kidney trouble, and I have no hesitation in recommending them to any one afflicted with this complaint. I used them for backache and other annoyances arising from disordered kidneys and they brought me prompt relief.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### MR SMALL'S POSITION.

Cannot Personally Favor Any Particular Site for Public Building.

Washington, N. C., May 28, 1909. Editor Reflector:

In view of a number of letters which I have received from prominent citizens of Greenville, regarding the selection of a suitable site for the proposed public building in Greenville, I deem it proper to make a public statement of my attitude regarding the matter. I ought not, and I cannot, take a position favoring or opposing any particular site. This is exclusively a local matter, and should be left to the citizens of Greenville to determine.

Even if I should decide to favor some particular site, I would only do so after very careful personal examination of all the sites and all the local conditions, in order that my conclusion might be based as far as possible upon merit. However, this is the function of the treasury department, and not of the district representative in congress. Suppose, however, I should attempt to inform myself and reach a conclusion as to the most appropriate site, would it be proper even under such circumstances for me to advocate any particular site? I think not. I am the representative of all the people of Greenville, and if I have any influence with the treasury department, arising from such official position, I ought not to use that influence in favor of the owner of any one site, against the owners of other sites.

In view of the fact that an agent of the treasury department has made a recommendation for a particular site, I have requested the treasury department to hold up the matter of approval of this report until July 1st. I first named June 1st, but have requested a month longer, in order that the fullest opportunity may be afforded.

### SEEKER AFTER INFORMATION.

Questions Passed Up to the Town Officials.

Greenville, N. C. May 29, 1909. Dear Mr. Editor:

I noticed with gratitude a corner set apart for women in Friday's paper. I am sure every woman in town thanks you. Now in consequence of this space you have so kindly given, I make bold to beg a little information, trusting that this may not be in vain.

First. Can you tell me on what days the trash man goes north and south, and east and west? I am continually in dread of some one's complaining of my trash box as a nuisance on the street, yet I dare not move it for fear he will pass just at that time. "But he has not passed yet." If you will publish a schedule of his trips it will be greatly appreciated.

Second. If you are unable to do this, can you tell this ignorant man who to apply to for the above information.

Third. Can you give me the name of the sanitary inspector? As he has not called thus far, I should like to have him inspect my premises, and see that there is nothing to endanger the health of my neighbors or my family.

Any light on the subject will be appreciated.

Very cordially,  
Mrs. Information Seeker.

### JONES-TUNSTALL.

A Pretty Evening Marriage of Popular Couple.

At the home of Mr. and Mrs. Joseph S. Tunstall, their daughter, Miss Minnie Thorpe, was married to Mr. J. Arthur Jones, Tuesday evening at 7 o'clock.

At the front hall door was Mr. K. R. Tunstall, of Kinston, with Miss Mamie Ruth Tunstall, sister of the bride, received the guests. Mr. and Mrs. C. D. Tunstall were at the west parlor door and Mr. and Mrs. W. L. Hall were at the east parlor door. At the punch bowl, Mr. T. M. Hooker with Miss Vernessa Smith.

At 6:45 Mrs. W. L. Hall sang "Because" and charmed all present with her sweet voice. Mrs. T. E. Hooker then sang "O. Promise Me," to the delight of all present. While the singing was accompanied by Mrs. J. L. Carper in her happy mood and mastery touch, the guests were arranged to await the arrival of the bride and groom.

The wedding march was rendered by Mrs. Carper. Miss Mattie Phillips, of Kinston, entered the parlor as bridesmaid, then followed the groom with his best man, Mr. C. H. Ferguson, and following came the bride, leading on the arm of her father. She wore a traveling suit of green with hat to match and carried bride roses.

The ceremony was performed by Rev. D. W. Arnold, pastor of the bride.

The couple left on the evening N. & S. train for a bridal tour to Washington, D. C.

The presents were handsome and numerous, showing the esteem of the many friends and relatives.

The bride is a young lady of many attractions, and the groom a popular employe in the office of the American Tobacco Company here. Their many friends wish them a happy wedded life.

### BURN THE TRASH.

Timely Suggestion to Help Keep the Town Clean.

Dear Mr. Editor:

As another Monday has passed and the trash man has not passed, we have to say a few words in behalf of our town officials. In your reply to Mrs. Information Seeker last Friday, you stated that as there was so much work to be done, the trash man was unable to make his usual rounds. We are glad that the street force is busily engaged, and while some may say that the force is inadequate, and should be increased, we must all remember that Greenville's treasury cannot be overloading, on account of recent heavy drains. Therefore it is incumbent on every citizen to do all he can to help these good officials keep the town free of rubbish and trash. We have noticed in several places that piles of paper and trash have been burned. Now this is a good example to be followed by everyone, and it is amazing how the town work of carting away the trash could be lightened if every householder would do the same thing.

Let us, therefore, work together, and by burning everything that can be burned, lighten the work of the town officials in keeping the streets clean of loose paper and trash. A Helper.
