Homeicide at Falkland.

A homicide occurred Saturday night at Falkland, the parties implicated being colored. The wife of Jim Drake was spending the night at the home of her father, Henry Vines. Drake went there to get his wife to go home and a row followed. Vines went to the wood pile and got an axe to run Drake off, and while trying to use the axe Drake stabbed him fatally in the abdomen. Dr. Laughlinhouse, county coroner, went out to hold an inquest and found the facts about as above given.

Forced into Exile.

Wm. Upchurch, of Glen Oak, Okla., was an exile from home. Mountain air, he thought, would cure a frightful lung-king cough that had, for six months, been a torment to him. After six months he returned, death knocking at his door. "Then I began to see Dr. King's steps," he writes, "and after taking a bottle I am as 'well as ever.' It is a fact that this cure is a divine cure, and it is a fact that it is a divine cure, and it is a fact that it is a divine cure. Infallible for coughs and colds, it dispels hoarseness and sore throat. Cures fever, colds, influenza, pneumonia, asthma, croup, whooping cough, and all other lung troubles, guaranteed by all druggists.

Tutt's Pills

stimulate the TORPID LIVER, strengthen the digestive organs, regulate the bowels, and are unequalled as an

In material districts their virtues are widely recognized, as they possess peculiar properties in treating the system from that poison. Elegantly sugar coated.

THE SOUTHERN CONGRESS.

New Orleans, La., Nov. 18, 1909.—The Southern Congress was organized in Washington D. C., at a meeting of representative Southern men from nearly every Southern State.

The purpose of that organization was to intelligently exploit the resources of the South so that our people might be posted as to the value or their possessions, the best method of how to utilize them, and an intelligent and united effort made to remove many misconceptions which existed in regard to our section.

Able men all over the South forcibly expressed their views, and unanimously agreed as to the wisdom of a course of this character.

Almost without exception, the press threw their columns open for news and information in regard to the work that we are carrying on, and gladly gave a helping hand, with therewith, we think (due to wide spread information through the papers of the South and the whole country) of a material increase in land values, a marked improvement in regard to general conditions, and a re-awakened interest in civic pride, commercial development and agricultural pursuits.

The men in this work represent each of the sixteen Southern States, and very varied lines of the interest, and, with the exception of the secretary have all received a dollar of salary, and have cheerfully given their time and energy for the cause.

It has remained for one paper, "The Manufacturers Record," of Baltimore, to make itself conspicuous during the past ten months by a continued series of insinuation and ridicule—attempting to prove that no move of this character throughout the South could possibly benefit the South. Perhaps the fact that the editor of that paper was prominent in a similar movement, which started in Philadelphia and dimly failed, is one of its motives, in this attack, and another, perhaps a stronger motive was brought out October 31st, 1909, when W. R. Hearst's exposure of the Archbold letters showed that this paper had been subsidized by the Standard Oil Company, which corporation today owns larger interests and meretriciously throbbles more competitive interests than all other combined organizations in the United States.

Each year there are printed 17,000,000 Protestant Bibles, Testaments, and "portions"—such as the Psalms or the separate Gospels—in more than five hundred languages and dialects. Of these Bibles 10,000,000 are published by Bible societies, are sold far below cost, and return no financial profit to anybody. The remaining 7,000,000 are printed commercially, and yield a handsome profit to the publishers.

Of the 10,000,000 Bibles and parts of Bibles printed and distributed by charity, almost 2,000,000 are issued by the American Bible Society, and over 7,000,000 more by similar organizations in Great Britain.—Munsey's Magazine, for December.

Do You Own a Piano?

If not, and you expect to own one soon, you owe it to yourself to examine the magnificent display shown at the Fineman & White Warerooms. A display really creditable to a large city.

In a glance you will inspect a line of pianos that not alone stand in character of tone, durability and general worth in a distinct class to itself, but you will meet with prices that stand unopposed nited here. Eight different makes to select from, none of those cheap western department store stencils, but each one a standard, of acknowledged fame and reputation in the trade. Four different player-pianos of best known makes.

We will take your old piano in exchange for one of these self players. We also carry the ESTY ORGAN, the standard of the world. Old organs and pianos taken in exchange, terms to suit your convenience. When in Greenville visit our wareroom.

The World's "Best Seller."

John and Lam Adams, brothers of Norwood Adams, recently convicted of counterfeiting by the Federal court in New Bern and sentenced to a term in the Federal prison in Atlanta, were brought here Friday and placed in jail on the charge of burning the home of Julia Gardner, of Contentnea township, one of the witnesses against them in the recent counterfeiting trial. These men had threatened to burn Julia's house if she testified against them in the trial, which she did, and they apparently carried out their threats. While all three of the Adams were convicted of counterfeiting, John and Lam were turned loose on account of a disease they were supposed to be suffering from.

POLAR PHENOMENA.

The Mirage and the Mock Sun of the
Arctic Regions.
In the spring of 1900 I changed
over to the steamer Corwin and sailed
for the Arctic ocean to establish a
trading station somewhere on the
northern shores of Alaska. Although
we went on a purely commercial ven-
ture, there was a good deal of talk
about the pole during the seven months
we spent in the almost continuous sun-
light.

The Cook relates instances of seeing
mirages above the ice fields—mountains
passing in solemn review and some-
times inverted and standing on their
heads. In the evening of June 2, 1900,
there were no forms of life. Mirage is a
common sight even in lower latitudes
than those mentioned by the Cook. I
have seen the squares and domes of well
defined buildings, whole cities, in fact,
appear above the horizon, sometimes
lingering for several minutes, or, again,
with their towers reaching up higher
and higher, attenuating apparently to a
mere thread. The "mock sun" is a
common phenomenon in the Arctic
zone. On the evening of June 2, 1900,
perhaps 100 miles south of St. Law-
rence Island, about 9:30 o'clock and
just sunset, the sun was visible as
though half an hour high, but appear-
ing as a north flattened oval. Then
another sun more nearly round emerg-
ed from the horizon beneath the "mock
egg," rising quite rapidly until it
blended with the descending orb. In
thereupon, instead of settling below
the horizon, the light was quickly dis-
sipated in the air. This phenomenon
was probably due to the unequal den-
sity of several superimposed strata
of air producing refraction of the sun's
rays from below the horizon. Captain
Edwin Collins of the U. S. S. Albatross
in National Magazine.

They Sometimes Are.

"We'll have to promote that clerk.
He takes the stairs four at a jump.
He's always busy."
"Yes," commented the observant
senior partner, "too busy to do any-
thing."—Louisville Courier-Journal.

Unopened.

"Did opportunity knock at your
door?"
"Yes, but the cook always main-
tained that it wasn't her place to answer."

Avoid Danger

When you are sick, or suffering from any of the
troubles peculiar to women, don't delay—take Car-
dium, that well-known and successful remedy for wo-
men. Thousands of women have used Cardium and
been benefited. Why not you? Don't take any
chance. Get Cardium, the old, reliable, oft-tried
remedy, for women of all ages.

TAKE CARDIUM

It Will Help You

Mrs. Lurania Morgan, Sneedville, Tenn., writes: "For ten
years I suffered with the turn of life, and tried many remedies
without relief. I had pains all over my body and at times I could
not sit up. At last I took Cardium and now I can do my housework.
I have told many ladies about Cardium and recommend it to all sick
women." Try it.

N. C. CONFERENCE.

Methodists in Session at Raleigh—
Bishop A. W. Wilson Presiding.

Wednesday morning at 9:30 in
Edenton street church, Raleigh,
the North Carolina Conference
of the Methodist Episcopal
church, South, was called to order
in its 73rd annual session. The
presiding officer is Bishop A. W.
Wilson, of Baltimore. He con-
ducted the devotional service
and the Sacrament of the Lord's
supper was then administered.
The roll call showed 120 clerics
and 16 lay delegates present at
the opening session. Rev. W. G.
Cunningham was re-elected sec-
retary with Rev. G. T. Simmons
as recording secretary.

The characters of the nine pre-
siding elders were passed and
their reports submitted, also
those of a number of pastors.

The report of The Raleigh
Christian Advocate and of the
Methodist Orphanage were sub-
mitted to the conference. One
hundred and thirty-nine children
are now in the orphanage—50
boys and 89 girls.

The characters of the preachers
sustaining supernumerary and
superannuated relation were
passed.

Conference adjourned its ses-
sion at 11 o'clock Thursday in
order to hear a Thanksgiving
sermon by Bishop Wilson.

Cr-up is most prevalent dur-
ing the dry cold weather of the
early winter months. Parents
of young children should be pre-
pared for it. All that is needed
is a bottle of Chamberlain's
Cough Remedy. Many mothers
are never without it in their
homes and it has never disap-
pointed them. Sold by all drug-
gists.

Greenville Boy Gets License.

The State Board of Pharmacy
on Wednesday completed exam-
ination on sixty-three applicants
and granted licenses to thirty of
them. C. J. O. Horne, of Green-
ville, was among the successful
applicants, and his friends here
at home are congratulating him.
Charlie is one of our deserving
boys, and The Reflector hopes he
will reach great distinction in
his profession.

When a cold becomes settled
in the system it will take several
days' treatment to cure it, and
the best remedy to use is Cham-
berlain's Cough Remedy. It
will cure quicker than any other,
and also leaves the system in a
natural and healthy condition.
Sold by all druggists.

Runaway Marriage

A couple from Tarboro arrived
here on the 1:12 train today and
proceeded to the court house for
a marriage license. The parties
were Mr. John Dew and Miss
Martha Rainer, and they were
married by Esquire C. D. Roun-
tree. They returned to Tarboro
on the 4:43 train.

Many school children suffer
from constipation, which is often
the cause of seeming stupidity
at lessons. Chamberlain's Stom-
ach and Liver Tablets are an
ideal medicine to give a child,
for they are mild and gentle in
their effect, and will cure even
chronic constipation. Sold by
all druggists.

Stole His Turkey.

W. J. Turnage, the transfer
man, went to bed mad Thursday
night. His Thanksgiving tur-
key, which was disguised only
slightly by the carving for the
midday meal, was put back in the
kitchen stove to be kept for sup-
per. During the afternoon some
hungry thief visited the kitchen
and appropriated the turkey.
When the family were assem-
bled for supper and sent to the
kitchen for the turkey, no turkey
was there.

Lame back comes on suddenly
and is extremely painful. It is
caused by rheumatism of the
muscles. Quick relief is afford-
ed by applying Chamberlain's
Liniment. Sold by all druggists.

Kinston Won From Washington.

The football team of Wash-
ington High school spent a short
time here between trains this
morning, returning from Kin-
ston where they played a game
Thanksgiving day. The result
of the game was 12 to 0 in favor
of Kinston.

Point in Law of Interest to Bondsman

A Supreme court decision of
interest here was handed down
in the case of the county com-
missioners vs. T. S. F. Dorsett,
ex-sheriff, and bondsman, last
week, in which the court declared
that the bondsman were liable
for equal amounts instead of the
amounts they justified for. Ac-
cording to this decision, Mr. H.
Clay Gubb, who signed up for
\$15,000, and who was represent-
ed by Walser & Walser, is no
more liable than any other
bondsman, and shares in the
payment with men who signed
for \$1,000. This point in law
had never been decided in this
State, it is said, and there was
difference of opinion as to
whether a man should pay as
much as he justified for on a
bond, or equally with other
bondsman.—Lexington Dispatch.

ney Pills in my case far surpassed any
other kidney remedy I had previously
used. For some time my kidneys were
disordered, the excruciating pains
request and painful passage. When I
read of Doan's Kidney Pills, I was
so much impressed that I procured a
box at John L. Wooten's Drug Store.
They seemed to go directly to the seat
of my trouble and gave me relief in a
short time. My kidneys were restored
to their normal condition and I felt
better in every way."

DATE HAS BEEN CHANGED.

Sanitary Sabbath Postponed to Some
Date in March.

Thomasville, Nov. 24.—Dr. C.
A. Julian, secretary of the As-
sociation for the Prevention of
Tuberculosis, has issued the fol-
lowing letter, which explains it-
self:

"Sunday, November 28, had
been selected as 'Sanitary Sab-
bath' for North Carolina, but
the date is postponed until late
in March to allow the State
Board of Health to furnish minis-
ters with literature giving in-
formation on important sanitary
points.

"The booklet arranged by the
North Carolina Association for
the Prevention of Tuberculosis
for distribution is still in press.

"Many ministers are changing
locations at this season of the
year, others are preparing for
their annual meetings; therefore,
to suit all religious bodies it has
been deemed wise to postpone
the date."

The old, old story, told times
without number, and repeated
over and over again for the last
36 years, but it is always a wel-
come story to those in search of
health—There is nothing in the
world that cures coughs and
colds as quickly as Chamberlain's
Cough Remedy. Sold by all

You Must "Get Up Steam."

Before the engine will "Get Up" steam it does not run today because there was a fire, and steam, in it yesterday. Nor does it run because it's a good engine—the best in the railroad yards; nor because people are in the habit of seeing it run, and know that it can run.

The fireman has to build a fire in it today if it is to be useful today.

A store is not a busy store unless it is advertised today. It's not busy because it is "well known," nor because it is a good store, and well located. It "goes" because of the publicity steam that is gotten up today.

For Travelers.

A novel idea for the comfort of travelers is described in Popular Mechanics. It is a sleeping sling. It is made of canvas and is hooked to a rack above the seat. Bands on the lower part form arm rests and the head of the sleeper finds a resting place against the folds of the sling which saves the traveler from huddling down into a corner in the usual uncomfortable fashion. It makes a very good substitute for a reclining chair, for people forced to travel at night in an ordinary car.

By virtue of a decree of the Superior court of Pitt county, made on the 19th day of November, 1909, in a certain appeal proceeding therein pending entitled, William Fountain, administrator of J. W. Potter against W. D. Potter and others. I will, on Wednesday, December 22 d, 1909, before the court house door in Greenville, sell at public sale to the highest bidder a certain tract or parcel of land situated in Canoo Township, Pitt county, adjoining the lands of H. THE PROGRESS OF OUR TOWN.

By F. M. WOOTEN, Pres. Cham. Com.

With a year of life filled with peace,
prosperity and progress, Greenville
with its steady and strong develop-
ment has grown into a splendid pro-
portion of municipal existence.

The spectacular development of the
few years preceding the one just closing
needed a filling-in growth to make
sure and permanent those new munici-
pal establishments which, necessarily,
cost the taxpayers a great deal of
money.

The present year has sup-
plied that need. And today Green-
ville in her attainments and strength,
stands out prominently as the most pro-
gressive little city among the many
progressive ones in North Carolina.

Her interest in education has been
the liveliest subject in her life during
this period, and is today one of the
chiefest aims of her people. And it
has accomplished wonders! For in-
stance, it has made the East Carolina
Teachers Training School the most suc-
cessful educational institution, in
its beginning, that the State has ever
seen. Its splendid grounds, magnifi-
cent buildings, its strong faculty and
fine and large body of students, these
combined with the spirit of the com-
munity guarantees to the whole State
the permanency and usefulness of this
institution.

The Greenville Graded Schools have
had a year of splendid success. Each
year these schools have added
strength: religious, moral, social and
industrial to the whole community and
carried out into the county its good
effects. Through the organization, the
Pitt County Teachers Association, Greenville and the whole of Pitt county
have kept in beneficial touch with one
another and have thus greatly in-
creased and strengthened the interest
in education. And today the good effect
of these schools, graded and common,
is more far-reaching and helpful
than ever before in any period of their
existence.

This too, has been a remarkably ac-
tive year among the many churches of
Greenville. It seems that the churches
now have greater influence over more
people than ever before, and they have
developed in our people a more friend-
ly disposition and a desire to reason
together in all matters pertaining to
community welfare. There is, of
course, a great deal yet to be accom-
plished, still this year has seen much
good develop in this phase of our
lives. And as a factor in this, the
several Baraka classes of the churches
have not been least important. In
fact, this writer believes that no plan
of religious work in this community
has been so effective in reaching the
young men and awakening in them a
sense of their possible usefulness.

Also, municipal progress has been
strong and substantial during this
period: a splendid municipal building
has been erected, new streets opened,
granolithic walks built, other streets
improved by using sand and clay,
making truly attractive and satisfac-
tory drive-ways, at a comparatively
small cost; a site for the postoffice
building has been acquired by the
United States Government. All these
progressive steps, and many others,
have been made during the year just
closing, which carry convictions to the
minds of all of us that this has

been one of the most productive years
in Greenville's long life.

Such has been her busy life that she
has brought within her homes during
this year, attending to her material de-
velopment, and chief executive of the
State, members of the State Board of
Education, senators, representatives,
eminent editors, statesmen and prom-
inent educators, and these from every
part of the State.

This busy life and its beneficial re-
sults fills the mind of every patriotic
citizen of Greenville with pride in his
little city, and strengthens his hope
for a still greater development of her
men and women and material growth.

The citizenship of the country is its
greatest asset, and is the real source
of the progress of the country. Here
people are intelligent, energetic and
thrifty, and the wealth of the country
is well distributed among the masses.

The soil is well adapted to various
crops and with intelligent cultivation
produces abundantly. Tobacco cul-
ture has reached a high degree of
perfection and its soil and climate
make it the finest tobacco country in
the United States, and produces not
only finer tobacco but more tobacco
than any other territory of its size in
the world.

Pitt county, with its large area, its
productive soil, its intelligent, en-
ergetic and thrifty husbandry; its splen-
did transportation and its well equip-
ped banking facilities, is naturally
and easily one of the most prosperous
counties in the State; and its pros-
perity is not restricted to a particular
section, but extends throughout the
entire county and among all classes.

The masses in every section of the
county are becoming educated and
every township is justly proud of its

lighted by electricity and six have
banking institutions, splendidly equip-
ped with resources reaching near one
million of dollars.

In transportation facilities it is un-
surpassed by any county in the State.
The Atlantic Coast Line railroad pass-
ing through the entire length of the
county from North to South, intersects
the Norfolk and Southern Railway
passing through the center of the
county from East to West, dividing
the county into four nearly equal sec-
tions.

The character of the public officials
of a county is a good index of the
progress of the people. Pitt county
is exceptionally fortunate in this re-
spect. Her public officials are broad-
minded and have close at heart the
best interest of the entire county, and
with clean hands are administering
honest, progressive and public-spirited
government.

The history of Pitt county during
the past year has been a history of
progress along all lines of activity,
a progressiveness that is becoming
attractive to the home-seeker, and of
interest to the investor.

Greenville has 5,000 citizens—she needs 5,000
more for the development of the wonderful re-
sources throughout Pitt County.

THE PROGRESS OF OUR SCHOOLS.

By PROF. W. H. MAGDALE, Sept.

The following brief summary of
facts, showing the educational progress
and status of the public schools of
Pitt county, will probably be of in-
terest to the public.

There are six thousand white chil-
dren in Pitt county, and ninety per-
cent of these are enrolled in the
schools, the average attendance being
eighty per cent of the enrollment.
The county has five large graded
schools employing from five to four-
teen teachers in each school. These
schools are so located that, at least,
one-fourth of the children in the coun-
ty are enrolled in them. There are
twenty schools employing two teach-
ers in each school. These schools pos-
sess every modern convenience and
are largely attended. There are fifty-
five modern, up-to-date school build-
ings in the county, erected in accord-
ance with the State plan for such
schools.

Value of School Property.
The value of school property has in-
creased in the past seven years from
\$14,220 to \$75,500. This does not in-
clude the magnificent plant erected
during the past year by the State, in
Greenville, known as the East Caro-
lina Teachers' Training School. Should
this be included, the white school prop-
erty of the county will now be, in
round numbers, \$200,000. The appro-
priations to the schools in the same
length of time have increased from
\$16,210 to \$22,610. Last year there was

collected a little more than \$13,000
local taxes.

Private donations to the public
schools in the county during the past
session, amounted to \$2,810.60. Ten new
buildings were erected during the past
year. Forty-five districts in the county
have libraries, and in these libraries
are more than five thousand volumes
of well selected books.

A Fine Corps of Teachers.
The white schools of Pitt county em-
ploy one hundred and thirty-two
teachers, and only four of these hold
second grade certificates. No better
corps of teachers ever served in any
county than this county now has, and
has had for the past few years.

Woman's Betterment Association.
An active Woman's Betterment As-
sociation is now doing great work in
beautifying school grounds and school
houses. This Association collected and
spent in the improvement of schools
during the past year, \$2,260.50.

Best Educational Spirit.

Nowhere in North Carolina does a
better educational spirit prevail, than
in both the suburban and rural dis-
tricts of Pitt county, and the citizens
of no county are more loyal to the
cause of education. The schools have
been reduced to a splendid system; a
course of study is rigidly adhered to,
thorough grading is insisted upon at
all times, and every child is being
given a chance. The school term has
been increased during the past seven
years, from three and one-fourth
months to five and one-fourth months.

A Matter of Contrast.

As a matter of contrast: Seven years
ago there was not a two-room school
house in the county. Only one school
had two teachers, and they both
taught in the same room. There was
not a single graded school. There was
not a local tax district. There was
only one painted house—now there are
sixty. One half of the teachers hold
second grade certificates. There was
no Teachers' Association. There was
little life, less enthusiasm. There was
no real system of schools, each school
standing separate and alone. There
was also but little demand for better
things. The plans for the future are
prudent, wise, and progressive. Pitt
county will be satisfied with nothing
but the best, and it proposes to march
to the motto: "True progress along all
lines."

It became every true citizen to give
his influence to every effort that tends
to build wisely and well, knowing that
the future of his county depends large-
ly upon true educational progress.

Use for the Jail.

Winklesborough is a flourishing little
resort, and during the season
almost every available room is let at
good prices.

A visitor to that delightful spot last
season was interested to observe a po-
liceman soundly cuff a lanky youth for
some misdemeanor, and, curious to
know the reason of the chastisement,
he went over to the guardian of the
peace.

"What's he done, constable?" in-
quired the visitor.

"Fished" pockets, sir. Let me catch
'im at it ag'in an' I'll give 'im a rare
good hiding."

"But why didn't you run 'im in?"

"Run 'im in?" retorted the policeman.
"Why, bless yer, we ain't runnin' any-
body in this week. The police station's
let for lodgin's"—London answers.
