His Heart Brought Him Back. A host of friends were delighted to see Mr. T. F. Christman on the street Saturday, just in from Toluca, Cal. It was only the day before that The Reflector printed extracts of a letter he wrote Dec. 18th, and his friends in reading that letter had no idea that he was to follow in person so soon.

The only business for the stockholders was the election of a board of directors for the year, and the following were unanimously chosen: F. G. James, J. P. Quinerly, B. W. Wedbee, E. A. Moyer, Jr., L. W. Tucker, J. E. Nobles, J. E. Winslow, G. E. Harris and J. L. Perkins.

THE AD FOUND THE GOODS.

Some days ago the Greenville Wholesale Co. sold a bill of goods to a country merchant who directed that the goods be placed in his wagon in the rear of Baker & Hart's store.

Will Locate in Greenville.

Mr. Justus Everett, of Williamston, who has for some years been practicing law in that town associated with ex-Judge F. D. Winston, has engaged a suite of offices in Masonic Temple building and will soon locate in Greenville to practice his profession.

That New Commodity.

If you have a good but new article that you can't sell because there is no demand for it, place an ad in The Reflector and create a demand by telling our readers about it. You can do it. We often see in the show windows of our merchants goods that could be sold "like hot cakes" by intelligent newspaper advertising.

ANOTHER TEXAS LETTER.

Delfina, Texas, Dec. 31, 1909 To The Greenville Reflector.

Of all that extensive empire which once acknowledged the authority of Spain in the New World, no portion for interest and importance can be compared with Mexico, and this equally whether we consider the variety of soil and climate, the inexhaustible stores of its mineral wealth, its scenery, grand and picturesque beyond example, the character of its ancient inhabitants, not only far surpassing in intelligence that of other North American races, but reminding us by their monument of the primitive civilization of Egypt and Hindoostan; or lastly, the peculiar circumstances of its conquest, adventurous and so romantic as any legend devised by Norman or Italian Band of chivalry.

Journeying from the coast country to the interior, traveling some twenty leagues (50 to 60 miles) the traveler finds himself coming into a purer atmosphere. The aspect of nature, too, has changed, and the eye no longer revels among the gay variety of colors with which the landscape was painted there. The vanilla, the indigo and the flowering cocon groves disappear as he advances the sugar cane and the glossy leaved banana still accompany him, and when he has succeeded about 4,000 feet he sees in the unchanging verdure and the rich foliage of the liquid amber tree that he has reached the height where clouds and mists settle in their passage from the Mexican Gulf. He has entered the tierra templada or temperate region, whose character resembles that of the temperate zone of the globe, or rather the region of eternal spring.

The features of the scene become grand and even terrific. His road sweeps along the base of mighty mountains, once ascending with volcanic fires, and still resplendent in their mantles of snow, which serve as beacons to the mariners for many, many miles at sea.

I shall send in continuation of description of Mexico, its characteristics of cities and inhabitants from time to time. Lorenzo De Vasconti.

Chamberlain's Cough Remedy is a very valuable medicine for throat and lung troubles, quickly relieves and cures painful breathing and a dangerously scattering cough which indicates congested lungs. Sold by all druggists.

To Advertisers. A space in the paper does one no good. It is what is said in the space, that brings business. If you do not keep your ad changed with good snappy matter regularly don't blame the paper if you get no results. It is to our interest as well as yours that you give your ad careful attention. Bring your copy in regularly and promptly, or give us privilege to change it for you. Some business men claim that advertising doesn't pay on the investment. They got no results simply because they were indifferent, so please bear in mind, Mr. Business Man the coming year, that results from your space will be measured by the attention you give it, as in every thing else.

HUMAN HANDS DO NOT TOUCH IT. From the time the materials reach our factory they are handled carefully by machinery, kept exceptionally clean. No human hands touch them.

NEW BRIDGE MADE USELESS

30 Feet of N. & S. Albemarle Bridge Carried Away.

The Norfolk and Southern railway's bridge across Albemarle Sound was completed last Saturday and the first train went over the structure that evening carrying the officials of the road Monday about 30 feet of the bridge was carried away by a tug towing a barge.

In the bridge has been constructed two draws. The larger of the two has not as yet been adjusted so as to be operated. The smaller draw seems to work Monday the tug and barge attempted to pass through the bridge by using the smaller draw. It was found that the span was not wide enough for the entrance of the barge so the captain of the tug forced his way through, with the result the bridge was considerably damaged. This makes the structure useless for some time yet. -Washington News.

INSTANTLY KILLED.

Fell from Load of Fodder and Struck on Head.

A telephone message to The Reflector Thursday says that J. I. Eason, a well to do farmer near Saratoga, fell from a wagon load of fodder, which he was taking home, Thursday morning striking on his head. Death came instantaneously. The fodder being very dry was the cause of the fall.

Mr. Eason was about 50 years old and leaves a large family. He was buried at his home place today.

Have you a weak throat? If so, you cannot be too careful. You cannot begin too early. Each cold makes you more liable to another and the last is always the harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by all druggists.

Death of Mrs. J. E. Fleming.

His Nose For News.

A cub reporter on a Pennsylvania paper was sent out by the city editor to get a story on the marriage of a young society girl and a man well known in the city.

The "cub" was gone about an hour and then returned and went aimlessly over to his desk, by which he sat down. Shortly afterward the city editor noticed his presence and his evident idleness. "Here, kid," shouted the superior. "Why aren't you at work on that wedding?"

"Nothing doing," replied the boy. "Nothing doing! What do you mean? Didn't the wedding take place?"

The Flying Idea.

The first man who got the theory of the flying machine right was no less a person than the painter Leonardo da Vinci. He planned it with wings and spirit, in spite of its weight, by the rapid revolutions of a propeller. Leonardo had an idea that the inventor might be turned by clockwork or by setting a number of laboring men to turn a handle, but in that respect he was mistaken. -Pitt Mail Gazette.

FRIDAY, JAN. 14 1910.

Pinchot has been pinched off.

The print paper trust is now taking its turn in court.

The North and West are in the grip of another blizzard.

Greenville should be waking up to the need of a cotton mill.

Medical experts have declared that Early is really a leper. So there you are again.

Increased cost of living is getting its share of writing about, but the cost hangs on all the same.

With everything to eat so high, farmers should plan to raise plenty of things in that line this year.

The Chamber of Commerce ought to have made a new year resolution to meet oftener and plan larger for Greenville.

Federal Judge Connor does not believe a man should be punished twice for the same offense, even if it is selling whiskey. And he is right.

"Uncle Joe" intimates that what the insurgents need is a spanking, which he proposes to administer to bring them back to his way of thinking.

Superintendent J. J. Laughinghouse says the net profits of the State prison this year will reach fully \$75,000. For the past eight years the profits have been an average of \$49,000.

The Durham Herald is wondering what people in the colder sections do about their water pipes. Possibly they have steam heated houses that prevent the pipes freezing.

The lick "Uncle Joe" got below the belt by the president's corporation message has given the speaker a jolt that made him dizzy.

The Florida boy who killed two safe-blowers who were trying to rob the postoffice of which his father was postmaster, certainly used his gun well.

It is a good time of the year to put in bank any money you may have on hand. The bank is the safest place to keep it, and you get interest on it also.

If every farmer in Pitt county will endeavor to make two bushels of corn this year where he made one last year, there will be plenty of full bins when next harvest time comes.

The Durham Herald suggests that Peary be sent out to find Cook. One trouble about that would be pinning Peary down to the truth about it in case he found him.

New Bern wants to celebrate her two hundredth anniversary this year. Here is hoping she will have a big time of it.

Announcement is made that Maj. J. C. Hemphill, who for twenty years has edited the Charleston News and Courier, has resigned to become editor of the Richmond Times-Dispatch.

A resolution has been offered in congress to investigate the cause of the increased cost of living. It may not be hard to find the cause, but what people who are paying the bills would like for somebody to find is the remedy.

The high price of last year's cotton crop may be a temptation to farmers to plant for a large crop this year. If they yield to this temptation and make a bumper crop, they will find much disappointment in the low price that will prevail.

We cannot get away from the desire to see Greenville in the list of towns having cotton mills. There is every opportunity for one or more to do well here—plenty of raw material, good sites and splendid transportation facilities. We hope this year will bring at least one.

Of course you can never tell what a year has in store, but this new year does not bring large things Greenville's way here is one who will be surprised at the outcome. Prosperity activity will make the town go forward as never before, and we believe that activity will be shown.

With the corn growing prizes that are offered to farmers and their sons, many of them should be enthused to make special efforts in that direction this year. There is no better corn growing county than Pitt, and the Reflector wants to see some of our farmers' boys getting prizes for large yields.

It is a pity that just at the time of reaping over the completion of the long Norfolk & Southern bridge across Albemarle sound, that there comes an accident which wrecks several feet of it. Wonder if there was not some premeditation in running the barge against the bridge.

The laymen's meeting to be held in Greensboro this week, 12th to 14th, is a matter of great interest. People of all sections of the State will be there taking part in the great movement to evangelize the world. Similar meetings are being held this week in nearly every State in the Union.

President Taft's special message to congress Friday, recommended that corporations doing interstate and foreign business be required to take out a Federal charter, and that States be not allowed to interfere with them; also that one corporation be prohibited from acquiring or holding stock in other corporations.

The New Bern Sun says "the man who thinks every one else is a crook is pretty apt to be a crook himself." There is much in that. The man who gets around trying to bring accusa-

tions against others or insinuating they will do so-and-so, is in the majority of cases giving an index to his own character or what he would do if he had the chance.

Just suppose the congressional investigation into the increased cost of living should place the responsibility therefor on the tariff. You can imagine there would be a crowd of them taking water and eating crow.

The Asheville Citizen says the Republicans will nominate Richmond Pearson for governor in the next campaign. There will likely be two Buncombe men running against each other for governor, as the Democrats will be apt to nominate Locke Craig.

F. B. Hayne and W. P. Brown, two of the leading cotton speculators in New Orleans, went up to New York with the intent of buying the market and running the price up to 20 cents. They fell into the hands of the bears, and the result was a big slump in the market.

The Charlotte Ministerial Association has endorsed a movement looking to the shortening of burial services. It is proposed that the service shall end and the crowd disperse as soon as the casket has been lowered into the grave. This is a reform in the conduct of funerals that should become general.

We will not know what prohibition has done for the State until another generation comes along. Those who are determined to have it will perhaps get it somehow, but it may be that the next generation will be willing to do without it.—Durham Herald.

That is really the best thought in connection with it. Great reforms do not come all at once, but work themselves out gradually. There was no hope of removing the craving for liquor in the present drunkard, but keeping it out of the way of the coming generation is where the greatest good will result. Prohibition has come to stay, and the next generation will be composed almost entirely of sober people.

Why does a public speaker or preacher think it necessary to repeat so much? Is it because he thinks the audience can't take in his ideas, or does he do it to kill time. To one who follows a speaker closely repetitions become monotonous. A great many speakers get up before an audience with nothing to

say and keep repeating what they have said until his hearers are worn out. Perhaps this is the reason it is so hard to get people to come out to preaching and public meetings. Brevity and conciseness should be the watchwords of everyone who tries to hold the undivided attention of an audience.

Free Tobacco Seed for Farmers. The Farmers Consolidated Tobacco Company will be glad to furnish, free of charge, tobacco seed of any of the following varieties:

Long Leaf Goch, Hester, Wahn, White Steer, Orinoco. During 1909, we had grown on a specially selected piece of land in Martin county, a crop of tobacco exclusively for seed purposes. No tobacco was cured from the crop at all, and every precaution was taken to insure the best development of the seed. This crop was made under the direction of Mr. N. D. Young, manager Planters warehouse, Robersonville, N. C., who has had experience in growing tobacco for seed selection.

It is our purpose to assist, if possible, in improving the quality of our Eastern North Carolina tobacco, by improving the seed, and for this purpose we procured from the old established Seed Farm, at Hyco, Va., formerly the Ryland Seed Farm, the seed from which this crop was grown. They were guaranteed to us to be pure, unadmixed seed. These varieties have given generally satisfactory results on the different soils of the east, and we do not believe there is any better tobacco made.

Farmers desiring any of these seed can secure them from F. D. Foxhall, at Star warehouse, J. P. Lovelace, Gum warehouse, C. R. Townsend, Peoples warehouse, or at our office, Farmers' Consolidated Tob. Co.

Stray Taken Up. I have taken up one male hog, light blueish color, weight about 150 pounds, marked three silts in right ear and one silt in left ear. Owner can get same by proving ownership and paying charges. On O. L. Joyner Farm, Greenville, N. C. R. F. D. No. 1, Dec. 21st, 1909. 12 21 1st Sw.

Remember. Saturday in the late afternoon, while we were driving the wood-saw, a cheerful voice from the street was heard, saying "come out." We obeyed, and to see what we did was enough to make glad the heart of any one who had begun to wonder where the remainder of the "ravens" were. But they came, bringing everything good to eat. I believe that about expresses it, for there were too many things to mention. In thanking the members of my congregation, and the many friends thereof for the pounds, five pounds and up to twenty-five pounds, and for their kind remembrance of me, I will say to one and all, that the fellowship of kindred minds and hearts fill the space and the aching void which nothing else can fill. May your portion be a great share in the Spiritual food which our Heavenly Father says "He will give to them that ask it of Him." We rejoice to know that you be brethren, and trust that we may prove ourselves worthy of the brotherhood of the blessed Christ.

Grandmothers and Grandfathers Who Believe in Peruna. Dr. J. C. GREEN and family, of Lewis Creek, Ind., write: "We cannot express to you our thanks for what Peruna has done for mother."

When she began your medicine she was not able to get up all day, but now she is helping with the work and is present has pneumonia visit. Her health is improved in general. No doubt, good appetite, sleeps well and looks well."

Following your instructions and taking your Peruna and Manana I am cured of catarrh.

I had catarrh for twelve years and quite a load so I could not sleep nights. I do not have any cough now. If I feel anything in the throat I take a swallow of Peruna and I am all right."

One of the most successful farmers in this section of the State is Mr. W. B. Sellers, of Lee county. This year Mr. Sellers gathered thirty bales of cotton off of thirty acres. He says had the season been favorable and had it been a full crop he would have made a bale and a half to the acre. Over and above all expenses, Mr. Sellers cleared \$1,000 from his cotton crop. In addition to this he made 700 bushels of corn. He makes all his own supplies and buys nothing that can be raised on his farm. He never sells cotton and spends the money to buy corn, meat, flour and other supplies. Mr. Sellers tells The Express that he can raise cotton and a cost of 4 cents per bushel. He understands how to cultivate the soil and secure the best results with a small amount of labor. Mr. Sellers makes a study of his business just as the professional man studies his profession. We would like to see more farmers like Mr. Sellers come to Lee county.—Sanford Express.

High Industrial Institute. This school at Parmele is located in one of the most needy sections of the State. Principal Chance seeks to train the youth of his race in the habits of industry along which line he will emphasize agriculture, the domestic sciences and the mechanic arts. In this effort he is entitled to substantial encouragement from any person or institution upon whom he calls for aid. The institute is greatly in need of funds to carry on the work and will appreciate any contribution which may be given to the principal or sent to Mr. J. G. Godard, cashier of the Bank of Martin county, who is treasurer of the institution.

A Wild Blizzard Raging. Mrs. Agnes, suffering often death to thousands, who take colds, coughs and a grippe—that terror of winter and spring. Its danger signals are "stuffed up" nostrils, lower part of nose a red, cilia and fever, pain in back of head, and a throat gripping cough. When grip attacks, so you value your life, don't delay getting Dr. King's New Discovery. One bottle cured me," writes L. Dunn, of Pine Valley, Miss., "after being laid up three weeks with grip. For sore lungs, hemorrhages, coughs, colds, whooping cough, bronchitis, asthma, its supreme cure. Guaranteed by all druggists."

Another Citizen Gained. Greenville gets another member of the legal profession in the person of Mr. C. C. Pierce, formerly of Spring Hope, who has moved here and taken an office in Masonic Temple building. Mr. Pierce has been practicing five years, and is a young man of ability. Greenville welcomes him.

In the destruction by fire of medical department of Richmond College, one night last week, Mr. Paul Jones, a son of ex-Representative S. M. Jones, sustained considerable loss. Mr. Jones was a member of dental graduating class and all of his instruments were destroyed. Nearly all of the students in the class lost their instruments.

C. D. Smith came very near losing his store by fire Monday evening but by the heroic work of the neighbors it was saved. About 3:30 o'clock Mrs. C. D. Smith, who clerks in the store, went out to pick up some wood to put in the heater and saw so much smoke that she looked on the top of the store and saw flames coming through the shingles near the stove flue. She went back in the store and got the books and valuable papers so that she could secure them, and then gave the alarm. In a very few minutes twelve or fifteen men had arrived and soon had a line of buckets going from the well to the roof and by hard work for about fifteen minutes put the fire out. It was good luck that the wind was blowing but little, and water and workers were plentiful. The damage was not very great, and was mainly by water on the goods.

Pitt County Continues to Lead.

The report of tobacco sales of the different markets in the State, made to the Board of Agriculture, puts the three leading markets as follows:

Wilson 1,968,284 pounds

Now add to Greenville's sales those of Farmville 523,724 pounds, and Ayden 177,189 pounds, and you have a total for Pitt county markets of 2,083,377 pounds, which puts Pitt county sales considerably ahead of any other county in the State.

SOCIAL LIFE IN FARMVILLE.

Farmville, N. C., Jan. 10.—On Wednesday afternoon, Jan. 5th, at her residence on Main street, Mrs. Fannie L. Joyner entertained the Ladies Magazine Club in a most charming manner.

In the library the guests were received by Miss Tankard and Mrs. J. Stanley Smith, and served to delicious fruit punch.

From the library they were ushered into the parlor where Mrs. William Lyman Joyner most gracefully received, her dress being champagne messaline with diamonds and pearl ornaments.

Here a most delightful program was carried out, in the study of John Harvey and "The Resolutions of St. Paul's Vestry."

In this Mrs. J. Stanley Smith was the lucky one, answering the greatest number of questions and being awarded a beautiful brooch by the hosts.

After a very enjoyable musical program the guests entered the dining room where an elaborate course dinner was served, covers being laid for eighteen.

On the place cards was a New Year's wish for each guest, which were read with much laughter and fun.

The decorations throughout the house was scarlet and the dining table was indeed lovely, with a centre piece of white hydrangeas and scarlet ribbons.

A SCHOOL PROBLEM.

(Contributed)

If an uneducated man earns \$1.50 a day for 300 days in a year, he does very well. If he keeps it up for forty years, he earns \$1,500,000, or \$18,000 in a lifetime. An educated man is not generally paid by the day, but by the month and the year.

If you will strike an average of the earnings of educated men, beginning with the governor, whose salary is \$4,000 per year, and run the scale till you come to the lower walks of life, you will find that \$750 per year is a low average for the annual earnings of educated labor. For forty years you have \$30,000 as the earnings of an educated man. Subtract \$18,000 from \$30,000, and the difference \$12,000 must represent the average value of a b. y. time in school.

If your town maintains a public school of 160 days to the year for a term of 10 years, or 1,600 days, every day of school is worth, to the average boy, \$7.50.

Brother, how about keeping your boy out of school, or letting him remain out of school, for all sorts of frivolous or useless reasons? How about if when he reaches the sixth or seventh grade, when he ought by every reason of good judgment, or even of dollars and cents, to remain in school till he graduates? Don't you know that this is an age when the victory is going to educated energy and intelligent effort?

Do You Own a Piano?

If not, and you expect to own one, you owe it to yourself to examine the magnificent display shown at the Fineman & White Warehouses. A display really creditable to a large city.

In a glance you will inspect a line of pianos that not alone stand in character of tone, durability and general worth in a distinct class to that you will meet with prices that stand unequalled here and incomparable anywhere. Eight different makes to select from, none of those cheap western department store stencils, but each one a standard, of acknowledged fame and reputation in the trade. Four different player-pianos of best known makes.

We will take your old piano in exchange for one of these self-playing organs, we stand for the world, Old organs and pianos taken in exchange, terms to suit your convenience.

JANUARY SUPERIOR COURT.

Judge R. B. Peebles Presiding—Charges the Grand Jury.

The January term of Pitt Superior court began this morning with Judge R. B. Peebles presiding and Solicitor C. L. Abernethy representing the state.

In calling the jurors for the term, Calvin McLawhon was excused on account of deafness, J. W. Higgs and J. A. Fornes for sickness, J. M. Dixon because of the death of a sister, and T. E. Hooker absent in hospital.

Following were drawn as grand jurors: Wiley Brown, foreman, C. T. Watson, G. W. Venters, S. L. Dudley, Joshua Nobles B. J. Pulley, J. C. Dilda, O. C. Daughtry, J. E. Warren, F. A. Elks, J. H. Harris, R. L. Warren, J. A. Elks, E. R. Dudley, A. E. Tucker, E. I. Fleming, J. W. Gay, O. C. Nobles.

In beginning his charge to the grand jury Judge Peebles said when we consider the age of our country, that it is but one hundred and fifty years old, and in that short time it has become the most powerful nation in the world, and its friendship more sought than any other by all other nations, it should make us justly proud. This is not due to our having a greater population than others, for China far outnumbers us, nor is it due to our having greater wealth than other nations. We must look for some other reason for the position we hold among the nation, and that reason is because we have the best laws and those laws are better executed. Here every man stands on an equal footing before the law, and man has the right to do what he pleases with that which is his own, provided in so using it he does not bring injury to others or trespass upon their rights.

Judge Peebles then spoke of the oath the jurors had taken, especially emphasized that portion of it that they should guard with secrecy their deliberations in the grand jury room.

The home of the aged and infirm is one of the greatest charities known to our people, and it is the duty of the jury to visit this home and see that the inmates are well and comfortably cared for. While such institution is a charity, it ceases to be a charity and becomes "a hell on earth" when the unfortunate there are improperly treated and not provided with necessary comforts of life.

Under the head of the five capital crimes in this state, while speaking of the placing of obstructions on railroad tracks causing the wrecking of a train resulting in loss of life, he said people are not careful enough to instruct their children as to what the law in this respect is. He has known of small boys being brought in court for placing obstructions on a railroad track, when they were only prompted by curiosity to see a wreck, not realizing that they were committing a felony. Proper instruction on the part of parents would prevent this.

Judge Peebles said he would not consume time to instruct the grand jury on all crimes, as they understood most of them in a general way, but he spoke of the illegal sale of liquor, the burning of woods, crusty to animals and a few such matters as he thought should be enlarged upon.

The docket was taken up immediately after the completion of Judge Peebles' charge, and the disposition of cases begun. The first case was Henry Moye,

who plead guilty of carrying concealed weapon.

Defendant's counsel showed that Moye, during Christmas, got drunk and when arrested had a pistol in his pocket, but made no effort to use it in any way. Judge Peebles remarked that the minimum fine for carrying concealed weapons will be \$20.

The is Docket Being Disposed of Very Rapidly.

The following cases have been disposed of:

Emma Brown, assault with deadly weapon, not guilty.
