## Do You Own a Piano?

If not, and you expect to own one soon, you owe it to yourself to examine the magnificent display shown at the Finman & White Warerooms. A display really creditable to a large city.

In a glance you will inspect a line of pianos that not alone stand in character of ton, durability and general work in a distinct class to itself, but you will meet with prices that stand unprecendented here and incomparable anywhere. Eight different makes to select from, none of those cheap western department store stencils, but each one a standard, of acknowledged fame and reputation in the trade. Four different player-pianos of best known makes.

We will take your old piano in exchange for one of these self players. We also carry the E. Y. ORGAN, the standard of the world. Old organs and pianos taken in exchange, terms to suit your convenience.

When in Greenville visit our warehouse.

Truth in Preference to Fiction.

GREENVILLE, PITT COUNTY, NORTH CAROLINA, APRIL 8, 1910.

VOL. No. XXIX

No. 15.

Count de Visconti Writes Another Letter.

Further Escapes Advantages, Etc., in the Far South.

Delmas, Tex., March 31, 1910. Editor Reflector:

The ground toward the south, west and northwest is gradually rising; you may see the mountains towering up in not a very great distance. Soon the foot hills begin where next to the tropical fruit and sugar plantations the raising of coffee is extensively carried on. The coffee of this region is in great demand on account of its aromatic flavor.

Xilitla, quite a picturesque town in the mountains, is the market-place for the coffee of the whole district. For ordinary coffee harvests a rain fall of 60 to 70 inches annually is sufficient, but for sugar and bananas, which require a good deal of moisture, I should recommend irrigation, which would help to produce 30 per cent. or more. The state of health could not be better anywhere. I met farmers who had come here from Texas; a certain Mrs. Haspin told me, that while in Texas, she always had been afflicted with chills and fever, yet she had had inflammation of the lungs several times. Since she came to Mexico, all the six sicknesses had disappeared, she never had been troubled any more.

Some of the settlers here had had rheumatism in Texas, but it had now entirely disappeared. Good drinking water can be got at a depth of forty to fifty feet.

Lands adapted for every branch of agriculture can be bought in the Huasteca Valley at five to ten dollars per acre, of course from speculators, who are all Americans; I even had to find out that ministers of the gospel keep up a lively land-speculation business. And again I advise never buy from these land agents, colony-promoters, etc; but buy directly from first hand, the Mexican owners, or from the state or government. In every state there is an abundance of public land to be had.

Tampico is the natural market for agricultural products and at the same time the best export and import harbor in Mexico. Many thousand head of cattle are shipped from there to all parts, and as I already have mentioned before, the city of Tampico has steamboat-bins to New York, New Orleans, Galveston, in short to all parts of the world. The visitors would be astonished to see the enormous products amassed here waiting for shipment. Therefore the government had built the wharf and that grandest of all custom-houses. Two railroads are already leading into Tampico, the National from San Luis Potosi and the Central from Monterey, while a third one will in a short time run from Mexico City to Tampico through the rich Huasteca valley. From Tampico it will be built to Matamoros on the Rio Grande, there to be connected with the St. Louis, Brownsville Mexican Railroad, thus shortening the distance from St. Louis to Mexico City nearly three hundred miles, which would make Tampico so much more important.

Further, when in five or six years the Panama canal will be completed, Tampico will be one of the nearest export harbors for the Asiatic commerce, and when the planned railroads will run

into the city. What great and glorious future will then Tampico have! As just now each train and also each steam boat takes great numbers of land seekers and land buyers to Tampico, I would warn those that go to Mexico to look out for the sharks, the land agents, for once in their power it is hard to shake them off.

Tampico has three American hotels, the Orlahna house and the American hotel. As to how much the proprietors are in league with the sharks, I cannot say definitely, but I know that some of the agents have their headquarters there, at least reside there. I would advise the new comers rather to put up in the more commodious, more pleasant Mexican hotels. Americans about 2,000 Americans within its limit.

After a stay of about ten days at La Balsa and the surrounding country and not finding what I wanted, (I am a mountain son and my home was to be made in the mountain valley at a higher altitude) I returned to Tampico, in order to take the next train to take me to La Balsa, westward, thence to Valles. Of this trip I'll write in my next.

I shall be here but a very short time; my return to Mexico being necessary, as my friends will soon be ready to start.

My regards to the Reflector and the readers of the same.

Lorenzo DeVisconti, P. S. In my writings to The Reflector I will not only bring the bright, sunny side of this wonder land before the mind of the readers; I shall also touch the shady side, for every country has certain things which impress the new comer unfavorably. But I will here only state that Mexico and its inhabitants are by newspapers often grossly misrepresented.

TRAINING SCHOOL WINS AGAIN. Defeats Winterville High School 19 to 4 Saturday Afternoon.

In a slow, one-sided, game of ball Saturday afternoon, the Training School team downed the boys from Winterville High School by the score of 19 to 4.

The Training School boys won the game in the first inning by pounding the ball all over the field. Nine hits coupled with five errors by the visitors, netted them nine runs. Seven more runs were added in the second inning, giving them a lead which was impossible to overcome.

The game as a whole was listless and devoid of any features, except the cheering of the fair sports of the E. C. T. T. S., which was of the "big league" variety. Holiday, for the locals, pitched his usual good game, striking out eleven of the visitors and allowing only four hits.

Score by innings:

R H E. E. C. T. T. S. 9701200x 19 13 5 W. H. S. 01000030 4 4 10

Batteries: Holiday and Brown; Tingle and Salisbury. Struck out by Holiday 11, by Tingle 6. Base on balls, off Tingle 3. Two bases hit, Jones. Three base hit, Holiday. Umpire James.

We desire especially to say for the visitors during the day as to the conduct of the Winterville boys, it was especially good. We did not even see one of them make a cigarette or hear them use a word of profanity. Wish we could say it for all school teams.

OFFICER SHOTS NEGRO. Policeman McGowan Wounds Clinton Waldrop, Perhaps Fatally.

About two months ago a warrant was issued by Mayor Whedbee for Clinton Waldrop, a colored man, for some offense, and the warrant was placed in the hands of Night Policeman W. H. McGowan. The officer kept a lookout for the negro, but did not run up with him until Saturday night. Officer McGowan then found Waldrop out in tobacco town, told him to consider himself under arrest, and carried him out under the street light near the Centre Brick warehouse to read the warrant.

After reading the warrant the officer told the negro to come on down town with him, when Waldrop asked to be allowed to give bond, which he said could be done by going to a negro store out in "New Town." Policeman McGowan started with him and when in the dark near the Peoples warehouse Waldrop made an effort to get away. Officer McGowan grabbed the negro with one hand and broke his billet over Waldrop's head. A tussle followed and both men fell, Waldrop showing fight all the time. Officer McGowan got out his pistol when Waldrop grabbed his hand and wrenched the weapon from the officer, but before succeeding in doing this one shot was fired which struck Waldrop in the stomach.

Having disarmed the officer Waldrop succeeded in getting away, carrying the officer's pistol with him. He was too badly wounded to go far without assistance and fell in the street before reaching the house of his father out near the Norfolk and Southern railway main track.

Officer McGowan's hand was badly hurt in the scuffle and he came down town to have the injury looked after. He also reported the matter to Chief Police and the two officers went out again to look for Waldrop, finding him in bed at the home of his father. A physician was carried out to examine the wounded negro, and he said the wound was a very serious one with a likelihood of it proving fatal.

**COSTLY ACCIDENTS.**

A Lost Tin Mine and a Lead Mine's Bottomless Pit. Immense plus which seemed about to be completed, but have been brought to disastrous failure at the last moment, are frequent enough in the history of industry.

London Answers tells the story of a mine in England which might have yielded a fortune but for a storm. With the fitting of a new vein or seam running toward the sea a new level was driven out below the water; then it was found that the vein bent upward to near the sea bottom for mining to be safely carried on. Undiscovered, the owner borrowed money, built a sea wall and set the water against pumps and again went to work.

On the sixth day, just as an enormous mass of rock was being tipped, a gale came up, a ship was blown upon the wall, which went to pieces at once, and the sea drove the heavy stones in upon the shaft root of the mine. In a moment the workings were hopelessly flooded and the owner was a ruined man.

A story equally tragic is told of the Speedwell coal mine in Derbyshire. Believing that a rich vein of ore existed in a nearby hill, the owner risked his entire fortune to have a tunnel dug down from the top of the hill to the mountain. Suddenly the miners broke through a wall of rock into a vast hidden cavern, through which flowed a stream of water. They began to dig their way toward it, and after many tons a bridge began to rise out of the darkness, and then their farther progress was stopped. Month after month they toiled, and at last, after several tons in all had been sent into the cavern, they gave it up.

That narrow rift is known to this day as the Bottomless Pit.

The Elements. Of the seventy-one elementary substances of earthy matter enumerated by chemists thirty-two are known certainly to exist in the sun's atmosphere, ten or fifteen more can probably be traced there, and there are only six or eight as to which in the present state of our knowledge there is negative evidence that they are not present there. The elements whose presence is proved comprise many of those which are the most common in the composition of the earth, and the fact is pretty firmly established that matter is the same throughout all space, from the minutest atom to the most distant star.—New York American.

**TRUXTON KING**  
A Story of... Graustark  
By GEORGE BARR McCUTCHEON  
Copyright, 1909, by George Barr McCutcheon

SNOPSIS  
OF PRECEDING CHAPTERS.  
Chapter I—Truxton King arrives in Edgewood, capital of Graustark, and meets the beautiful niece of Spant, a gunmaker. II—King does a favor for Prince Robin, the young ruler of the country, whose guardian is John Tullis, an American. III—Barron Dangloss, a minister of justice, intervenes and warns him against King, the gunmaker. IV—King invades the Royal park, meets the prince and is presented to the king's favorite aunt, Countess Merlanx. V—The committee of ten, conspirators against the prince, meets in an irregular chamber, where the girl Olga is disclosed as one who is to kill the prince. VI—John Tullis, a school teacher, meets Olga in the beautiful Countess Merlanx's park, meets the prince and is presented to the king's favorite aunt, Countess Merlanx, who is conspiring against the prince.

CHAPTER VIII.  
LOOKING FOR AN EYE.  
THE witch was haranguing her huddled audience, cursing the faces of her late, scornful guests, greatly to the irritation of Baron Dangloss, toward whom she showed an especial antipathy. Tullis was holding the prince in his arms. Colonel Quinox stood before them, keeping the babbling, leering beddame from thrusting her face close to that of the terrified boy. The Countess Merlanx, pale and rigid, her wondrous eyes glowing with excitement, stood behind King Tullis.

With incredible violence the storm passed. Almost at his height there came a cessation of the roaring tempest, the downpour was checked, the thunder died away and the lightning trickled off into faint flashes. The sky cleared as if by magic. The exhibition, if you please, was over.

"It is the most amazing thing I've ever seen," Dangloss said over and over again.

The Countess Merlanx was trembling violently. Tullis, observing this, tried to launch away her nervousness. "More coincidence: that's all," he said. "You can't believe she brought about this result."

"I don't think," she said in a low voice, "I feel as if a grave personal danger had just passed over me. Not a danger for the rest of you, but for me alone. That is the sensation I have—the feeling of one who has stepped back from the brink of an abyss, just in time to avoid being hurled over. I can't quite understand. See! I am trembling."

"Nerves, my dear countess—shudder. You'll be over it as soon as we are outside."

Ten minutes later the cavalcade started down the rain swept road toward the city. Dry blankets having been placed across the saddles occupied by the ladies and the prince. The witch stood in her doorway, laughing gleefully, inviting them to come often. "Come again, your highness!" she croaked sarcastically.

"The next time I come it will be with a torch to burn you alive!" shouted Baron Dangloss. To Tullis he added: "God, sir, they did well to burn witches in your town of Salem. You clearly British countess in the worst of the country of them—the pests!"

Down through the lowering shades rode the prince's party swiftly, even gently by virtue of relaxation from the strain of a weird half hour. No one revealed the slightest sign of apprehension arising from the mysterious demonstration in which nature had taken a hand.

Truxton King, for reasons best known to himself, soon relaxed into a thoughtful, contemplative silence. Between us, he was sorely vexed and disappointed. When the gallant start was made from the glen of "St. Michael" he found that he was to be utterly aside, quite completely ignored by the fair Loraine. She rode off with the rest of the party.

In due time they rode into the sun-baked solitude of Graustark and on up toward the city. Here Mr. Hobbs looked. He refused to adventure farther than the mouth of the stony ravine. Truxton approached the prince alone, the slightest trepidation. The prince's grand old man was driving a flock of geese across the green bowl below the castle. A woman hurried out to him, and a moment later the youth, considerably excited, drove his geese up to the doer. While they were talking, her hood, each other the old woman appeared. Uttering shrill exclamations, she hurried to confront King with blazing eyes. Her brand of derision brought a flush to his cheek.

"I'll say you a hundred garves that the kettle and smoke experiment—make of the woman out." "I have my own way—have it your own way!" she cried.

"You want I'll do—I can't expose that trick and cure of bad—make you a present of a hundred garves."

She took him up like a flash, a fact

young Count Von Enge without so much as a friendly wave of the hand to him. Truxton, therefore, had her back in view—rather a vexing distance, too—for mile after mile of the ride to the city. He galloped along, as if you please, with no considerations. What was the use? He had no chance to win her. That was for story books and plays. She belonged to another world far above his.

The baron's dry, insinuating voice broke in upon the young man's thoughts. "I think it's pretty well understood that she's going to marry him. The little old minister had been reading King's thoughts; he had the satisfaction of seeing his victim start, asking with bland interest: "Indeed! Is it a good match, baron?" The baron smiled. "I think so. He has been a trifle wild, but I believe he has settled down. Splendid family. He is desperately in love."

"I hadn't thought much about it. Is she so lovely with him?" "She seen a great deal of him," was the diplomatic answer.

"Would you mind telling me just who she is, baron?" "Do you mean, sir, that you don't know her?" he asked, almost harshly. "I don't know her name," was the story first. She went to—My excellent friend, you amaze me! I know that Americans are bold; but, by god, sir, I've always looked upon them as gentlemen. You—"Hold on, Baron Dangloss!" interrupted Truxton, very red in the face. "You'd better hear my side of the story first. She went to school with my sister. She knows me, but refuses to tell me who she is."

"Well, my boy, if she elects to keep you in the dark concerning her name it is not for me to betray her. Ladies in her position dare say, enjoy these little mysteries."

It was dark when they entered the northern gates. Above the castle King and Dangloss rode. Tullis and the countess, gravely saluted the sleepy prince and princess. Mr. Hobbs of the possessing him. "There's some one here and I know it. I'm not such a fool as to believe—Say! What's that?" The ceiling! By the eternal, that scarping noise explains it! There's where the secret tradesmen, in the ceiling, within King's reach, at that! Watch me, old woman!"

The hag was standing in the kitchen door now, still grinning evilly. She watched the eager young man pound upon the low ceiling with a three legged stool that he had seized from the floor.

He was pounding vigorously on the roughly bearded ceiling when the sharp voice of the old woman, raised in command, caused him to lower the stool and turn upon her with gleaming, triumphant eyes. The look he saw in her face was sufficient to check his enterprise for the moment. He dropped his arms extended to catch her away from the ceiling. The look of the dying was in her eyes. She seemed to be crumpling before his strong arm.

He reached her in time, his strong arm grasping the frail, bent figure as it sank to the floor. As he lifted her bodily from the floor, intent upon carrying her to the open air, her body fingers sank into his arm with the grip of death, and—could he believe his ears—a low, mocking laugh came from her lips.

Down where the phibby house yard merged into the moony banks, Mr. Hobbs stood, still staring with glowing eyes at the dark little but up the glen. A quarter of an hour had passed since King disappeared through the doorway. Mr. Hobbs was getting nervous.

The shifless, lanky goose had come forth in time and heavily drove his scattered flock off into the lower glen. Presently Hobbs caught sight of a thin stream of smoke, rather black than blue, arising from the into chimney at the rear of the cabin. His eyes

He went off among the treetops, you won't see him again." She waited a moment and then went on in most irritating tones: "Would you care to come into my house? I can show you the roof he took you"—

But Mr. Hobbs, his hair on end, had dropped the reins of King's horse and was putting boot to his own head, whirling frantically into the path that led away from the hotel, damned spot. Down the road he crashed, pursued by the efforts of those famed ladies of Tam o' Shanter in the long ago. If he had looked over his shoulder he might have discovered that he was followed by a riderless horse, a nothing more. But a riderless horse is a gruesome thing sometimes.

[TO BE CONTINUED.]

Why does Great Britain buy its oatmeal of us?  
Certainly it seems like carrying coals to Newcastle to speak of exporting oatmeal to Scotland and yet every year the Quaker Oats Company sends hundreds of thousands of cases of Quaker Oats to Great Britain and Europe.

The reason is simple, while the English and Scotch have for centuries eaten oatmeal in quantities and with a regularity that has made them the most rugged physically, and active mentally of all people, the American has been eating oatmeal and trying all the time to improve the methods of manufacture so that he might get that desirable foreign trade.

How well he has succeeded would be seen at a glance at the export records of the Quaker Oats. This brand is without a rival; is packed in regular packages, and is hermetically sealed for hot climates.

FRIDAY, APRIL 8 1910.

April will bring the showers that make the flowers.

Keep your overcoat out in handy reach for a while longer.

Talk about the hog being it, what is the matter with the chicken?

Now we will see if April is to do the blowing that March did not do.

Co operate with the Civic League by doing what you can to help keep Greenville clean.

Guess Shemwell feels that beginning a five day jail term today is somewhat of an April fool.

If Hobson could have his way it would take all the money the government could raise to build battleships.

Atlanta is feeling jealous that Richmond got ahead with the largest post office robbery on record.

The pope missed seeing Teddy, and Teddy missed seeing the pope, wonder which one missed the most.

When Shemwell gets out of jail he might go West if he wants to keep playing the hold racket.

There is promise of an early and large berry crop. That promises a substitute for meat for a time.

Some counties are already getting in shape to hold their county conventions. Quite early, it seems to us.

Former President Roosevelt got a ride with the king of Italy, and perhaps he feels like that beat seeing the pope.

If you do not pay your poll tax this month you will lose the privilege of voting. There are to be some elections this year, too.

You must not regard the first of this month bill collector as an April fool, even though you make him feel like one by putting him off.

The Charlotte Observer says Mecklenburg farmers will this year reduce cotton acreage and increase their corn crop. Pitt farmers should do likewise.

The government investigators are now after the bucket shop manipulators, but it remains to be seen how many of them will go busted.

Congress "remembers the Maine" twelve years after. Not every memory reaches that far.

Former President Roosevelt visited Rome Munday and the populace almost went wild over him, even if he was denied an audience with the pope.

This March went back on the old saying, as it both came in and goes out like a lamb. There has not been much blowing during the month.

There is a lively investigation going on in the Mississippi legislature over some bribe passing in connection with the recent election of a United States senator.

The editorial page of Saturday's Durham Herald being made up of clippings is prima facie evidence that Joe King had gone fishing. Good luck to you.

Did that suggestion for a mass meeting to discuss an opera house and Greenville's other needs fall as flat as all that? What is the matter with the folks?

The esteemed State Democrat, of Raleigh, adm'ts its feeling of lonesomeness at being "the only paper in the State which advocates local self-government straight from the shoulder." As local self government has long since gone on the hip, there is no need of even one paper following such a forlorn hope.

Robert Ranson has retired as editor of the Spring Hope Leader, having sold his interest in the paper to his partner, Walter Buck. Mr. Buck is a Pitt county man and once held a place with The Reflector. He is a good one and knows what to do with a print shop.

An immense strike was inaugurated Thursday night when three hundred thousand coal miners lay down their tools and quit work. The territory of the strike covers the coal fields of Pennsylvania, Ohio, Indiana, Illinois, Iowa, Missouri, Kansas, Oklahoma and Arkansas.

The aldermen of Kinston went after the near-by dealers right. An ordinance adopted levies a tax of \$1,000 on dealers, provides that places where it is sold shall have a full view of the interior from a public street and have no entrance except on a public street, and prohibits such places being open except between sunrise and sunset.

The Wilson Times is once more looking like its former self. A little more than a month ago the plant was practically destroyed by fire, and while the work of restoration started at once it required some time to get the plant and building back to natural conditions. We congratulate The Times that it has surmounted the disaster.

A butcher who cannot convince a buyer that a four year old rooster is a spring chicken, or cut a porter horse steak from a link of bologna, isn't up to the twentieth century snuff.—Gaffney, (S. C.) Ledger.

Neither is he in the same class with the fellow who can palm off three year old storage eggs for the fresh laid article.

The Board of County Commissioners are proceeding with the idea that "what is worth doing is worth doing well." They are giving the utmost care to the selection of plans for a new court house and a new jail, so that their conclusions may best serve the interest and welfare of the county. When the buildings are erected you will see that the commissioners have acted wisely.

ration of five minutes after the alarm is sounded, is a great invention almost went wild over him, even if he was denied an audience with the pope.

The Republicans of the tenth congressional district held their convention in Asheville, Saturday, and re-nominated John G. Grant for congress without opposition. So the little tilt for Richmond Pearson did not amount to anything.

Dr. Cook may win out yet on the North Pole matter. New York capitalists have offered to put up a million dollars to enable him to go back to the arctic regions after his proofs to establish the claim that it was he, and not Perry, who discovered the pole.

The esteemed State Democrat, of Raleigh, adm'ts its feeling of lonesomeness at being "the only paper in the State which advocates local self-government straight from the shoulder." As local self government has long since gone on the hip, there is no need of even one paper following such a forlorn hope.

The attention of The Reflector has been called to the fact that certain parties have been offering through the county offering to sell farmers fertilizer formulas. Only a receipt for mixing the fertilizer ingredients is sold the farmer, and in the purchase he must agree to keep it a secret, unless he gets pay for letting another have it. Quite a tempting proposition, and such a reminder of the late washing machine rights. In this age of enlightenment no farmer should be taken in with a fertilizer formula humbug.

Here's another editor trying to get in the class of Editor Cowan, of the Wilmington Dispatch, but this is to inform him that he will get left in the race. However listen to his offer:

A paragraph is going the round about a girl dying from tight lacing. Those corsets should be done away with and if the girls can't live without being squeezed we suppose men could be found who would sacrifice themselves. As old as we are we'd rather devote three hours a day, without a farthing of pay, as a private corset, than see these girls dying in that manner. Office hours almost any time.

City folks interested in flower or vegetable gardens who have neighbors given to raising chickens in enclosures not properly fenced can appreciate the following from The Wilson Times: "It is an old saying that 'chickens come home to roost.' If they would also stay at home during the day, the neighbors who are trying to make gardens would like it better." It is not the roosting at home of neighbors' chickens that vegetable and flower growers are always so much concerned about as it is their staying at home in the day time, when the scratching flower is time when the scratching fever is upon them.—Charlotte Observer.

The comment of The Observer is very timely and to the point, but the quotation used happened to be the product of some other "think shop" than the contemporary named.

The Real Corn Belt.

The biggest discovery the south has made these last five years is that we are in the corn belt—that we are, in fact, the real corn belt. In point of temperature, sunshine, and rainfall, we have advantages over the West, and every time individual Southern farmers have set out to beat the West in yields.

Marrige License.

Register of Deeds W. M. Moore has issued the following licenses since last report.

WHITE.

Harry Moore and Martha Philpot.

COLOR.

Jack Stewart and Jane Jackson.

They have done it. The Western papers have been advertising the corn farmer of the corn belt last year, and he made only 155 bushels on an acre. One of our Southern readers made 220 bushels on an acre. It only remains now for us to set out to do on a large scale what we have already succeeded so overwhelmingly in doing on a small scale.

We have the advantage of the West in three points—temperature, sunshine, and rainfall. They have the advantage in one point—humus in the soil. We can get this humus. And the best way to get it is by growing nitrogen-gathering crops—cow-pes and clover, greatest of all—in addition to maximum quantities of stable manure—Raleigh (N. C.) Progressive Farmer and Gazette.

We were afraid that the Easter hat would cause trouble, and it has done so. Where would it be more certainly looked for than in the good old-fashioned city of Charleston, where, we are told, the people think the three foot neck ruffle of the Elizabethan age still prevails. The first serious quarrel over the Easter hat comes from that city, as is evinced by the following in The Charleston Post: "Has! An Easter hat caused a man and a girl to quarrel. The cruel man said that hat looked like a fried wozzle, and the girl threw their engagement ring into his countenance. It was awful, but goes to show the evils of Easter hats." The Easter hat has many sins to account for, but we suppose its brim is wide enough to cover, if not to support them all.—Charlotte Observer.

WOODLAND ITEMS.

Woodland N. C., April 6, 1910.—Miss Annie Hun and Mabel Craft returned to their home Sunday, after spending two weeks with friends and relatives. Miss Lela Griggs, of Grifton, is spending a few days with her uncle, N. Garris.

Mr. and Mrs. J. R. Smith, of Ayden, spent Sunday with her mother, Mrs. Fred McLawhorn. Misses Jane Craft and Mildred Ba'dree, from near Maclefield came in last Friday to spend a while with friends and relatives. School closed Friday. There was a large crowd to behold the entertainment. It was very encouraging to see what good our teacher could do and what she had done.

Mrs. John McGowan, who fell and died at her home in Washington Friday, was brought in Saturday morning on the N. & S. train and taken from there through the country to the family burying ground near here for burial Saturday evening.

GLENN MISQUOTED

Says Newspapers Took Too Much for Graddock.

Capt. Glenn (Ex-Gov. R. B.) told a reporter that during a recent visit to Washington he was asked by some of the newspaper correspondents if he would be in the race for the Democratic nomination for congress this fall. He replied that under no circumstances would he be. Some of the correspondents took this as a basis for the statement that the ex-governor would be a candidate for Senator Overman's seat. Capt. Glenn says that such a thing was not mentioned. Senator Overman has more than five years to serve and the ex-governor declares he has not given the matter a thought; that he has plenty of business to look after just now.

But all these things soon brought us to the time when we must say goodbye, and this day no pleasantly spent would be a thing of the past. Especially was it hard to bid farewell to our most efficient teacher and it was with deep regret that we learned she would not be with us another year. We hope Miss Cox success wherever she may go and we will ever remember her with kindness for such a pleasant picnic.

**TEACHERS' MEETING**

To Be Held Saturday, April 9, 1910.—Program.

10.30 a. m.—Devotional exercises, Rev. B. F. Huske.

Reading of minutes of last meeting.

10.45.—Report of Betterment work.

11.—Essential Steps of the Recitation (continued), Prof. H. E. Austin.

General discussion.

2 p. m.—Recitation on drawing, Miss Kate W. Lewis.

This is the last meeting of the association until next fall and a full attendance of all the teachers is desired. If your school has closed you are under the same obligation to be present. We request every teacher to be prepared to report the gross amount of all money raised for any purpose during the present school year. Please be prompt in your attendance on both sessions of the association, Saturday. Some announcements will be made which it is necessary for you to hear.

**CATARRH DESTROYED**

MY APPETITE.

PERUNA rarely fails to restore the appetite. Immediately upon beginning the use of Peruna patients begin to eat and digest. This is the universal testimony, coming from all parts of the civilized world. Catarrh is a very frequent cause of loss of appetite and disturbed digestion. The beneficial influence of Peruna on catarrh completely restores the appetite in such cases. It gives instant relief. 25c at all druggists.

"I am now cured and cheerful in spirits, all through the agency of Peruna, which has cured me effectually and restored my appetite."

"My only regret is that I did not use Peruna sooner and I would have avoided all my previous suffering and misery."

Removed Catarrh, Restored Appetite.

Mr. Joseph H. Conlan, 67 7th Ave., Brooklyn, N. Y., writes: "I suffered from catarrh which completely destroyed my appetite and weakened my entire system."

"I am now cured and cheerful in spirits, all through the agency of Peruna, which has cured me effectually and restored my appetite. I would have avoided all my previous suffering and misery."

Torpid Liver, Stomach Trouble, etc.

"I also tried Peruna for a cough, sore throat, indigestion, and it did me good."

"I wish every one afflicted would give Peruna a trial."

Peruna as a Tonic.

Mr. Henry Neely, First Lieutenant, Co. "F," 8th Regiment, U. S. A., Fort 628, Trenton, N. J., writes: "I suffered for years with catarrh of the stomach. Seeking an advertisement for Peruna, I bought a bottle and every dose made me feel better. Seven bottles completely cured me."

### KING'S CROSS ROAD ITEMS.

King's Cross Roads, April 4.—The farmers were very glad to have some rain last night.

Mr. and Mrs. Charlie Moore and son Lloyd, of Snow Hill, spent Saturday night and Sunday with Mr. and Mrs. W. C. Moore.

Several of the people of this community attended the concert at Shivers Hill last Thursday night. They report a grand time. Some say it was the best concert that had never been given there.

Mr. and Mrs. Washington Smith and daughter, Miss Irene, spent last Sunday with Mrs. Edd Carraway near Fountain.

J. R. Smith and son, Lee, of Greene county, were visiting in their old neighborhood last week. We were delighted to have them with us.

Robbie Smith is improving. The doctors think he will be able to do it in a few days.

Mrs. Allen Moore spent last Saturday with her daughter, Mrs. Frank Parker, who is right sick.

Miss Lillian and Reid Parker, of Falkland, spent last Saturday night and Sunday with their grandmother, Mrs. Allen Moore.

The members of the King's Cross Roads church have purchased an organ for the church. The community is very much pleased with it. Miss Irene W. Smith will be the organist.

## Do You Own a Piano?

If not, and you expect to own one soon, you owe it to yourself to examine the magnificent display shown at the Fineman & White Warerooms. A display really creditable to a large city.

In a glance you will inspect a line of pianos that not alone stand in character of tone, durability and general worth in a distinct class to stand unexcelled next here and there in the United States. Eight different makes to select from, none of those cheap w-e-t department store stencils, but each one a standard, of acknowledged name and reputation in the trade. Four different player-pianos of best known makes.

We will take your old piano in exchange for one of the self-playing. We also carry the ELY ORGAN, the standard of the world. Old organs and pianos taken in exchange, terms to suit your convenience.

### DR. ALEXANDER DID NOT COME.

His Place Supplied by Dr. Templeton, Who Delights His Hearers.

There was disappointment among the many farmers here Saturday when it was learned that Dr. Q. H. Alexander, president of the Farmers' Union in North Carolina, could not be here to speak as announced, being detained by sickness.

The farmers assembled at the Star warehouse and heard some short addresses by local speakers.

Later those who remained over until the afternoon got a feast any way, as Dr. M. Templeton, of Raleigh, came in on the 1:15 train and at 2:30 spoke in Dr. Alexander's place. Many heard him with much pleasure, as he is a fine speaker.

### WITH PROF. W. H. RAGSDALE.

Entertains Faculty of the Training School and the Graded School.

On Thursday evening, at his residence on Sutton Lane, Prof. W. H. Ragdale, who is county superintendent of education and a member of the faculty of East Carolina Teachers' Training School, was at home to the faculty of this school and of the Greenville graded school.

While Greenville is noted for brilliant social entertainments, and has had many that were truly delightful, it is no disparagement to say that in plan and uniqueness this surpassed any that has occurred here. The guests being mainly those connected with our educational interests, every feature of the entertainment was in keeping with this idea and carried out most impressively.

The beautiful and well arranged decorations of the home, even to the flowers, portrayed the colors of the schools—royal purple and old gold of the training school, and blue and white of the graded school. In some instances the colors of each school were prominent to themselves, and in others were mingled together with harmonious effect. The flowers were white carnations, daffodils, violets and Spanish iris, with a variety of pot plants and ferns, the festoons and draperies being maline and crepe.

All the rooms were very attractive with these artistic decorations, but the dining room was especially beautiful. On the table was a centerpiece of purple with lace cover, on which was a cut glass bowl of violets and carnations. At each end were silver candelabra with yellow lights, and extending from the electric chandelier to the corners of the table were draperies of white maline with bunches of violets and smilax.

The guests began arriving a little after 9 o'clock and were received at the front door by Prof. Ragdale with his daughter, Miss Hennie Ragdale. Those who assisted in receiving the guests were Mr. and Mrs. D. J. Whitchard in the parlor, and Rev. B. F. Huske with Miss Eva Cox in the library. In the hall California fruit punch was served by Misses Janie Brown and Hennie Whitchard.

After some time had been spent in pleasant mingling together and listening to delightful songs by Miss Olive Gaston and Prof. H. E. Austin, a magazine contest was introduced by the host. The arrangement for this was in full keeping with the marked features of the entertainment. The contest was on a folder, the first page bearing an embossed monogram of E. C. T. S. underneath which was printed the quotation from Lord Bacon "Some books are to be tasted, others swallowed, and some few to be digested." On the corner of the inside page having the blanks to be filled out were beautiful hand painted forget-me-nots in the colors of the schools. The contest supplying the names of magazines was very interesting. The first prize, a copy of Lowell's poems, was won by Mr. C. M. Jones and presented by Prof. R. H. Wright. The consolation, a toast book, went to Miss Lillie Bennett and was presented by Prof. H. R. Smith. The guests were then invited to the dining room where refreshments were served by Misses Willie Ragdale and Essie Whitchard. Even here the fea-

### BARACA AND PHILATHEA

Just What These Two Names of Bible Study Organizations Signify.

There are a great many people who do not know the unique origin and the meaning of the word "Baraca." Indeed, there are some Sunday school workers to whom this will be a bit of new information. Since the word "Baraca" is now a most usual one in the vocabulary of Sunday school workers throughout the entire world, it will be well to know how we came to have it.

In the 20th chapter of 11 Chronicles will be found the story from which "Baraca" is secured. Briefly it is this: The Kingdom of Judah was threatened by an army of its enemies. Good King Jehoshaphat prayed unto Jehovah for deliverance, and the Lord answered this prayer by vexing the hosts of the enemy, so that they fell upon and slew each other. Thus when King Jehoshaphat and his people went from Jerusalem to the scene of the camp of the enemy, they found most of them slain and the remnant fled. They also found so many jewels and riches that they were three days gathering up the spoil.

Then comes the 25th verse, as follows: "And on the fourth day they assembled in the valley of Beracah; for there they blessed Jehovah, therefore the name of that place was called the Valley of Beracah unto this day." The margin translates this Beracah as "blessing."

When Mr. Marshall A. Hudson organized his first class for young men, he wanted a name for it. In carefully reading his Bible, he came upon this word meaning "blessing," and seized it for his class. The spelling of the word changed slightly, so as to permit making of the monogram design which is so familiar in well organized Sunday schools today.

Baraca has indeed been a real "blessing" to thousands, and literally hundreds of thousands of young men all over North America and the world. It could not but bless them, when it has brought them into the Sunday school and to the Bible and to God.

In like manner, the young ladies have a most appropriate name for their organized classes "The word 'Philathea' is made up from two Greek words, and means "Lovers of Truth."

The history of the derivation of these two great words in our modern Sunday school and religious life will make an interesting item for the scrap book of the reader of this article.—C. E. Crossland, in Presbyterian Standard.

It was near midnight when the delightful occasion ended, the guests upon taking their departure expressing great pleasure at the unique appropriateness of the entertainment.

### EMANUEL MOVEMENT FAILS

Combination of Religion, Mental Suggestion Falls Flat.

The Emmanuel movement having to do with the treatment of disease by a combination of religion, mental suggestion and medicine, and in which it was hoped an effective cure had been found for neurasthenia and other disorders of the nerve system, has proved a failure at St. Luke's hospital in San Francisco, according to a statement made by Bishop Nicholas, of the Episcopal church. The local experiment has lasted a year. Every effort has been made to test the efficacy of the prescribed treatment. The hospital's psychopathic ward has been discarded and Dr. A. B. Shields, D. D., the clerical superintendent of the institution, has sent in his resignation effective May 1.

Bishop Nichols thus accounts for the failure of the treatment at the hospital:

"We discovered that was impossible to secure beneficial results by placing patients in a psychopathic ward associated with a hospital. All the depressing influences of the hospital bore down upon them. The constant atmosphere of suffering made a cure impossible and finally we were forced to the conclusion that we failed."

The San Francisco experiment has been closely watched by medical men throughout the country.

### OHIO VALLEY EXPOSITION.

During the next few months there will be held in various cities of the Ohio Valley, art exhibitions for the purpose of determining the best works of each particular section. When competent judges shall have passed on these paintings and selected those which they consider entirely representative, steps will be taken to assemble all the works so selected and embracing them in a collection which shall be representative of the Ohio Valley for exhibition at the Ohio Valley Exposition, to be held in Cincinnati August 29 to September 24. Not only will the latest works of the leading artists of this section be shown, but efforts also will be made to secure masterpieces that were produced in the past and which have passed out of the hands of their creators and are now owned by art connoisseurs in various portions of the country. The Ohio Valley, from Pittsburgh to Cairo, boasts of a number of famous artists, and there is no doubt that all of them will be represented by their best works at the exposition, forming an exhibit that will prove unusually attractive and interesting. There is a prospect of southern artists following a similar plan for the display of their works, although the matter has not yet assumed definite form.

New North Carolina Industries. For the week ending 6th the Chattanooga Tradesman reports the following new industries for North Carolina: Elizabeth City—\$30,000 farm company. East Bend—Printing company. Asheville—\$30,000 mine; \$25,000 bottling works. Goldsboro—\$50,000 garage company. Farmville—Printing company; \$10,000 warehouse company.

### WITH THE CITY FATHERS

Board Meeting Held Tuesday Night—In Session Until 12 O'Clock.

The Board of Aldermen held its monthly meeting Tuesday night with seven of the members present. Much business was transacted, holding them in session until twelve o'clock.

W. L. Brown, C. T. Munford, B. F. Patrick, James Brown, J. J. Corey, R. A. Tyson and P. G. James appeared before the board in respect to paying for the paving and curbing abutting their property. Time in which to pay for curbing was extended to January 1st, 1911, for James Brown and J. J. Corey, as they had previously paid for their pavement. C. T. Munford, B. F. Patrick and Mrs. P. E. Vance were given three years in which to pay for paving and curbing.

R. W. King asked for the usual donation to the old soldiers' reunion to be held May 10th and received \$100.

A petition from the citizens of Fourth street was presented, asking that a sand-clay pavement be put on their street. The street committee was instructed to begin work on same as early as possible, provided the property owners will place heart or stone curbing abutting their property under direction of the committee.

Privilege was granted Mr. Constantine to run a merry-go-round for not less than fifteen days at \$2 per day.

T. S. Norman appeared before the board and asked that his taxes be reduced. The matter was deferred until the county commissioners act upon it. A request for fire protection from one of the suburban districts of the town was referred to the fire committee of the board to investigate and report at the next regular meeting.

The committee appointed to establish a property line on lot corner of Fifth and Washington streets recommended that the line established by street committee be sustained, and asked that the said committee be discharged. The report was accepted and committee discharged. J. J. Corey was granted privilege to run boarding house through balance of this year for \$2.50 license tax.

C. L. Wilkinson appeared before the board and asked that an ordinance relating to surcharge privileges be adopted. The ordinance is published elsewhere. D. D. Overton, chief of the fire department, reported that the hose ordered by the town had arrived and had been placed on the reels. Chief Overton and Alderman W. S. Mays were instructed to have the hose reel house recently destroyed by fire replaced as cheaply as possible on the old site near the John Flanagan Buggy Co. property. The matter of providing apparatus for drying hose was referred to the fire committee. The matter of providing suitable fire alarm was also referred to this committee to investigate and report at the next meeting.

The week beginning Monday, April 18th, was set aside by the board as clean-up week. Chief of Police Smith was instructed to notify the citizens. The clerk was instructed to have Accountant W. L. Hall swear to his report of the Water & Light Commission, and the same be filed with the town records.

Application of Jasper C. House as keeper of the market house was ordered filed. Application of Andrew Mays for restaurant license was referred to the chief of police for report at next meeting. Jim Tucker was granted license to run a restaurant. Accounts for the past month were approved an ordered paid.

### ALBEMARLE PRESBYTERY.

Holding an Interesting Session in Washington.

Washington, N. C., 12.—Albemarle Presbytery convened in the Presbyterian church, in this city, this evening at eight o'clock. Ministers and delegates have been arriving on every train today and the indications are very promising for a large attendance. This evening's meeting began with devotional exercises after which the opening sermon was preached by Rev. M. C. White, of Raleigh. Mr. White delivered a strong and interesting sermon taking as his text, Isaiah 53d chapter and 6th verse. "All We Like Sheep Have Gone Astray."

Immediately after the close of the devotional exercises the roll call of the Presbytery was made and a large delegation found to be present. The Presbytery then went into the election of a moderator and Rev. R. C. Deal of Kinston, was unanimously elected to this important office.

After the election the body adjourned for the evening and will begin its business session tomorrow morning at ten o'clock. The Presbytery will hold a three days' session, devoting the day sessions to business and the night sessions to devotional exercises and popular meetings. One of the principle features of this session's work will be that of home and foreign missions, and a strong effort will be made to reduce popular interest in this important work. Ex-Gov. R. B. Glenn will deliver an address on home missions at a missionary rally on Wednesday evening. Rev. C. F. Hancock, of Chinkins, China, will address the Presbytery on Thursday in behalf of mission work in the celestial empire.

The ladies missionary union of Albemarle Presbytery will also hold its business meeting during the session of that body in the Methodist church which has very kindly been placed at their disposal. Albemarle Presbytery is one of the most influential religious bodies in North Carolina, and is composed of some of the finest ministers in the State.

Tuberculosis Exhibition. Greensboro, N. C., April 12.—A carload of exhibits and office equipment shipped from Greensboro to Raleigh, transfers the active operations of the Tuberculosis Exhibition to the central portion of the State. Early this week headquarters were established in Raleigh and for five weeks a vigorous campaign of education will be conducted. Cooperating committees will be invited in every town and every county within a hundred miles or so of the capital city. Several state-wide conferences will be held, having interest to groups of people throughout the entire commonwealth, and in general, the exhibition in Raleigh will mean much more than merely a local affair. Correspondence relative to the exhibition from any part of the State may be addressed simply to the Tuberculosis Exhibition at Raleigh.

Special Train to Wilson. Theatre train Tuesday April 19th from Washington, Grimsland, Greenville, Farmville and intermediate stations to Wilson, N. ### STATE NEWS.

Newsy Items of Interest Condensed for Busy Readers.

Skinner Says he is Out of Politics. Washington, April 11.—Col. Harry Skinner, who spent several days of last week here, says that he is out of politics as far as office-seeking is concerned. But, the colonel's friends say that he must run for congress.—Charlotte Observer.

According to the Goldsboro Herald, a man in Wayne county has just been severely pricked by his conscience for a deed committed eight years ago. At that time he picked up a pocket book containing quite a sum of money. Knowing the owner, he kept the matter to himself and has all these years enjoyed the use of the money. Recently he "professed religion" and thereupon opened the pocketbook and its contents, which, the Herald says, he did.

### GREENVILLE BANKING & TRUST CO.

Holds Annual Meeting and Elects Officers.

The ninth annual meeting of the stockholders of the Greenville Banking & Trust Co., was held Monday, and the following officers were re-elected: J. R. Spier, president. C. S. Carr, cashier. Andrew J. Moore, assistant cashier and bookkeeper. N. O. Warren, teller and assistant bookkeeper.

Besides paying a handsome dividend to the stockholders, \$2,000 was passed to the bank's surplus, making the total surplus \$19,500. This is a most creditable showing for an institution nine years old.

NATIONAL BANK OF GREENVILLE Pays Dividend and Passes Good Sum to Surplus. At a meeting of the directors of the National Bank of Greenville, held April 12th, 1910, the cashier reported earnings for the six months, ending April 11th, \$5,301.84, of which a 5 percent semi-annual dividend was ordered paid to the stockholders and the remainder to be reserved as undivided profits. This completes the fourth year of the bank's business, during which time \$8,500 has been paid in dividends and it still has \$10,000 surplus and \$3,301.84 undivided profits. A record of which it may well feel proud.

Erans street as they sit. The clerk was instructed to have Accountant W. L. Hall swear to his report of the Water & Light Commission, and the same be filed with the town records.

Application of Jasper C. House as keeper of the market house was ordered filed. Application of Andrew Mays for restaurant license was referred to the chief of police for report at next meeting. Jim Tucker was granted license to run a restaurant. Accounts for the past month were approved an ordered paid.
