Amount for Greenville's Public Building.

On Saturday the omnibus bill in congress which carried with it an appropriation of \$45,000 for the erection of a public building in Greenville on the site already secured by the government, passed the house. When the bill went over to the senate Monday, through the efforts of Senators Simmons and Overman and Congressman Small, \$10,000 was added to Greenville's appropriation, making the total for building \$55,000, which was concurred in by the house when the bill went back for ratification. The last congress had already appropriated \$10,000 for a site, which brings the whole up to \$65,000.

Our people heartily appreciate the good efforts of Senators Overman and Simmons and Congressman Small in behalf of Greenville. Congressman Thomas, of the third district, was also very friendly to Greenville and helped much in the matter. This appropriation means that Greenville is to have a handsome public building.

W. S. Moyer, J. W. Bryan, J. B. Little, J. F. Stokes, W. P. Edwards, Com.

Her many friends here are sorrowed at the death of Mrs. Lou C. King which occurred Tuesday night at her home in Farmville. Mrs. King lived in Greenville for many years and had a host of friends and relatives here.

She was a daughter of Mrs. Alice Joyner, and leaves a mother, one sister, two brothers and three children. She was twice married, her first husband being Mr. S. Atkinson and her second Mr. John King.

Mrs. H. B. Harris, Mrs. B. F. Tyson, Mrs. C. J. Forbes, Mrs. E. A. Moyer, Jr. and Mrs. Charles Cobb and Mr. J. F. King went to Farmville this afternoon to attend the funeral.

To Potato Growers.

We strongly urge, those of our friends who have not as yet dug their potatoes, to dig at once and store away in some cool and well ventilated building, as after so much rain there is danger of rot should they be allowed to remain in the ground longer.

It is useless to try to sell or consign with the market in its present condition.

The buyers will not now give a barrel for a bushel of potatoes, and as for consigning, it means with the present outlook, you will get nothing, with perhaps a bill sent back to you for the freight.

Keep your potatoes at home, and you will later get something for them.

Married.

A little before 9 o'clock this morning a couple with matrimonial intentions, accompanied by a few few friends, called at the residence of Mrs. Anna Patrick, on Greene street, where Rev. E. N. Johnson has a room, and inquired if they could get the services of the minister to perform the ceremony. All things being found agreeable, the minister united Mr. Claud Green, of New Bern, and Miss Oma N. Harrell, of Eure. The couple left for the 9:20 Norfolk Southern train for the home of the groom in New Bern, first sending a telegram to the parents of the bride at Eure advising them of the marriage.—Daily Reflector, 20 p.

CORTRIGHT METAL SHINGLES

WHEN Cortright Metal Shingles were first introduced (24 years ago) you had some excuse for being sceptical: But now— If you are sceptical it can only be because you do not know the facts in the case. They are used today from the Atlantic to the Pacific for all kinds of buildings, under all conditions. They are fireproof, stormproof; never leak and last as long as the building itself without needing repairs.

White, of Franklinton.

Five states and thirty nine counties of North Carolina were represented among the students.

Three counties adopted the summer school here for their teachers in lieu of holding a county institute of their own.

A Bright Little Girl.

The other day the editor was visiting in a home where there is a cute little girl of about four summers, who possesses a wealth of prettily curly auburn hair. This little miss took a look over our way and turning to her mother, said, "Mamma, look at that man's head," toying with one of her own pretty curls by way of comparison. It was a neat complaint, even if she had have as bettered on the hair-dipposition.

DEATH OF CAPT JOHN KING.

One of County's Most Prominent Citizens Passes Away.

Capt. John King died about 6:30 o'clock, Saturday afternoon, at his home near Falkland, of pneumonia. The funeral took place Sunday afternoon, conducted by Rev. Mr. Morton, of Farmville, and was largely attended. He was 80 years old last February.

In the death of Capt. King, Pitt county loses one of its best and most influential citizens. He was a native of the county, and for more than half a century after reaching his home Falkland, with the exception of four years just after the war that he engaged in merchandising in Tarboro. He was an even tempered man, always firm in his decisions, yet without harshness, even having the highest consideration for others. For twenty-five years he was a magistrate of his township, and was looked up to as a leader. He was a staunch Democrat, and always took active interest in the conventions and affairs of his party. He represented this county in the State senate, and was one of the first judges of the county Inferior court when that court was established. He was a member of the Christian church and lived a faithful follower of Christ.

Capt. King was thrice married, his first wife being Miss Martha Joyner, second Miss Bettie Cobb and third Miss Fannie Bynum. His last wife died about eight years ago. By his first marriage there survived one daughter, Mrs. B. R. King, of Goldsboro; the surviving children of his second marriage are Mr. G. B. King, of Washington City, Mr. E. C. King, of Falkland, and Mrs. J. L. Fountain, of Asheville; by his third marriage Mr. A. B. King, of Goldsboro; Mr. S. V. King, of Charleston, Va., and Mr. John King, of Falkland. All of his children were with him during the last few days of his illness and when the end came. He is also survived by one brother, Col. W. M. King, of Greenville, and two sisters, Mrs. C. V. Newton, of Fountain, and Mrs. Nannie Moore, of Farmville.

The Capitol Inn will give \$100 per day rates, which is about as cheap as you can stop at home; so brother carriers don't fail to go to "Roly." Remember as a body, "Yo heave, oh, oh," we have a pull and a long pull, a strong pull and a pull altogether means much. And after hearing Dr. Pratt talk on good roads you will go home and entuse you people on get good roads and spend a few dollars showing an example and thus get a little heaven and leave the whole State.

CHRISTIAN-HARRISS.

Quiet Home Marriage This Morning at 8:00 O'clock.

A quiet but pretty home marriage took place at 8 o'clock this morning at the home of Mrs. Mellie Harriss, on Dickson avenue, when her daughter, Miss Lena, became the bride of Mr. E. P. Christian, of Portsmouth, Va., the ceremony being performed by Rev. J. H. Shore, pastor of the Methodist church.

The bride was attired in a handsome traveling suit of tan cloth with hat to match.

Mr. Christian is a prominent merchant of Portsmouth, and his bride is one of Greenville's very popular young ladies. They received many beautiful bridal presents.

The couple left on the 8:30 A. M. train for Portsmouth, Greenville parts with the bride with reluctance, but the good wishes of every one go with her.

RURAL CARRIES MEET SOON.

Promises to be interesting and well attended Session—Features.

Rocky Point, N. C., June 28. The Rural Letter Carriers' seventh annual convention to be held at Raleigh, July 4th and 5th, promises to be the most interesting yet. There are a number of attractive features, chief among them being the presence of Fourth Assistant Postmaster General DeGraw, who will visit the North Carolina session at Raleigh, on the 4th and the South Carolina convention at Newberry, on the 5th. General DeGraw is at the head of the rural free delivery system and is loved and respected by all rural carriers. I know each one of our grand old State would like to shake his hand. Postmaster Willis G. Briggs, who signs all our checks, will make us a talk. We'd all like to grasp his hand, too. Dr. Joseph Hyde Pratt has just written me that he will be there on the fourth and make-up an illustrated lecture. You know there is no class of citizens in North Carolina more interested in good roads than the rural carriers. Dr. Pratt is doing a great work for his State just now, possibly more than any other State official. Hon. J. H. Small is expected on the 5th to tell us of his rural parcels post bill that was recently introduced in congress. Clarence H. For, who by pen and speech is doing so much to elevate our civil and physical State in a mental, moral, physical and financial way will make us a short talk on the 5th.

And the Raleigh boys are going to give us a smoker to which quite a number of the editorial profession have been invited. And an old time "spelling bee" with Webster's elementary "blueback" as text book will be a feature of the occasion. Col. Joseph Robinson, of the Goldsboro Argus, and Mr. Clarence H. Poe, will umpire the game and award prizes to him that "sets down first," and him that "stands out" the longest. The railroads will give reduced rates for the occasion from the second to the sixth of July.

The Capitol Inn will give \$100 per day rates, which is about as cheap as you can stop at home; so brother carriers don't fail to go to "Roly." Remember as a body, "Yo heave, oh, oh," we have a pull and a long pull, a strong pull and a pull altogether means much. And after hearing Dr. Pratt talk on good roads you will go home and entuse you people on get good roads and spend a few dollars showing an example and thus get a little heaven and leave the whole State.

Compromise Verdict of Second Degree Murder—In The Famous Case.

Warren, N. C., June 29.—The case of State of North Carolina vs. E. E. Powell, for the killing of Chief of Police Charles W. Dunn, of Scotland Neck on March 4, last, came to an abrupt ending this morning when ex-Governor Charles B. Aycock, of counsel for the defendant, announced that after careful consideration with the family of the defendant, the defense had decided to accept a verdict of murder in the second degree and await the judgment of the court. Solicitor John H. Kerr stated that the state was willing to accept this verdict.

Judge G. W. Ward, who is presiding, stated that he approved the action of counsel in saying that it was his opinion that the jury would not take to the plea of insanity advanced by the defense and acquit the prisoner, and that while there was some evidence of insanity, the defendant had committed the murder in the heat of passion and had not been cured. The expense of finishing the trial would in that event be practically unnecessary. The defense imposed was thirty years in the State prison, and a fine of \$500. The verdict was received here with a little surprise but no surprise as it is so common that these very little expasions of the law are imposed on the part of the defendant. The case of the defendant's wife was received here with a little surprise but no surprise as it is so common that these very little expasions of the law are imposed on the part of the defendant.

Little Miss Letha Fair wore a beautiful pink dress and hat and carried a basket of pink carnations. Lohegryn's wedding march was rendered by Miss Mary Elizabeth Padgett.

Quite a number of relatives and friends were present from out of town. THE CANNING INDUSTRY

Too little attention is paid by the housewives of North Carolina to the canning of fruits and vegetables. This is an art that needs to be cultivated and the State Department of Agriculture is making a commendable effort in that direction. It has just published a bulletin on the home canning of fruits and vegetables and should be in every farmer's home. The article is written by the assistant horticulturist, S. B. Shaw, and it is worth quoting from. In rural communities, says Mr. Shaw, it is freer months the most delicious and wholesome fruits and vegetables are absent from the daily bill of fare. Possibly some tomatoes are canned, some fruits preserved or dried, but the most nutritious vegetables and the most palatable fruits are allowed to spoil in the garden and orchard because of the impression that it is impossible to keep them. This is a mistake. It is just as easy to keep corn, peas and beans as it is to keep peaches and tomatoes—a fact which has been demonstrated by commercial packers who have canned almost every variety of fruit and vegetable. When the supply of fruit and vegetables is greater than the family needs and a market is not convenient in which to dispose of this fresh produce, the surplus may be made a source of income by selling it in the form of canned goods. Sometimes those living near a convenient market experience difficulty in finding a ready sale for their produce on account of the glutted condition often existing in the markets of large cities. In conditions of this kind, growers can provide themselves with canning outfits, suited in capacity to their needs, put up a clean, reliable grade of goods, market them judiciously as they do their green stuff, and turn a profit that which other wise might have been a complete loss. There seems to be a belief by the general public that there is something mysterious in the commercial canning process. The great secret of this process is a careful observance of two things—cleanliness and complete sterilization. It is possible for every housewife to run a small canning factory in her own kitchen, and on the farm. This is both economical and desirable. Fruits and vegetables can be "put up" in glass jars or cans at half the cost of those that are purchased in the form of commercially canned goods, and the flavor, texture and general quality of the home-made product can be made superior to the product of the average factory.

GIANT BUTTERFLIES.

Have a Wing Sweeter Than That of Many Small Birds.

The largest butterfly known to naturalists is found only in British New Guinea, and specimens are worth anywhere from \$100 and falling to the measure eight inches across the wings and the female not less than eleven inches, a wing spread exceeding that of many species of guillemot, but it was equally certain.

THE SLAUGHTER OF THE 26TH.

In speaking of the great losses in battle, The Chronicle a few days ago gave a story by a New York veteran of the slaughter of the Twenty-Sixth North Carolina Regiment, at Gettysburg. This regiment belonged to Heath's division of Hill's corps and was under command of General George E. Pickett. It sustained its loss in the famous charge against Cemetery Ridge, on the afternoon of July 3. Another New York soldier contributes a story to the Sun as to how the slaughter came about. "At early dawn of that morning," he writes, "when our skirmishers were out on the details from the 125th New York and the Eighth Ohio were placed somewhat to the right, that is, nearer to the village than the position of the respective regiments on the ridge, and were beyond the Embury road when Pickett's charge was made. Instead of falling back to the line of battle on the ridge the skirmishers of the regiment named withheld and took position behind a low fence running at right angles to the line, and as the Confederate column swept by not 500 feet away the skirmishers kept up an incessant musket fire on their left flank, which caused it to give away and bunch toward the rear until the Confederates were probably fifty feet deep, and with our batteries on Cemetery Ridge working their guns double shotted with caustic, and the infantry pumping lead into them just as fast as guns could be loaded and fired, the wonder is not that so many fell, but that any escaped." Then that there is no more thrilling chapter in all the history of war.—Charlotte Chronicle.

Wet Weather and Camels.

Camels are very sensitive to moisture. In the region of tropical rains they are usually absent, and if they come into such with caravans the results of the rainy season are generally disastrous. The reason for this is explained in the absence of the camel from the northern slopes of the Atlas and from well wooded Abyssinia. This sensitive creature presents itself in the character of different races. The finest, most noble looking camel, with short silk-like hair, are found in the interior of deserts, as in the Farou region in north Africa, and in Persia and on coasts it is the same. These animals, too, are less servicable as regards speed and endurance.

The Eyes of the Musk Ox.

The skull of the bull musk ox is remarkable for the development of the eye orbits, which project prominently beyond the plane of the frontal bones to compensate for the interruption the horns would otherwise make in the range of vision. The musk ox, however, does not seem to rely greatly on keenness of sight, far less on acute hearing, for the ears are of small dimensions and are completely covered by the heavy growth of hair about them. The organs of scent are evidently more highly developed, and they exact of the hunter his greatest running.

Just Imagine

"Why don't they have women on juries?" she asked.
"Imagine a woman sitting through a long argument by a lawyer and not interrupting." Was the answer she received.—Buffalo Express.

Wh is bristwood, Judgment is timber. The first makes the best of things, but the other gives the most lasting best.

Justice.
The only way to make the mass of mankind see the beauty of Justice is by showing them in pretty plain terms the consequence of injustice.—Sydney Smith.

A ROYAL BOOK BUYER.

The Purchase of Diderot's Library by Catherine II. of Russia.

Empress Catherine was a great reader and a lover of books. One of her services to literature was the purchase of the libraries of Voltaire and Diderot. She was a warm friend and admirer of these great philosophers, and their work interested her because she was eager to learn new theories of politics and government. Voltaire's library of about 7,000 volumes in 1800 and named as the Russian Imperial Library in the Hermitage Palace, and in the hall devoted to it is Diderot's statue of Voltaire.

There are many who do not like him nor his policies, but there is no shaking off the impression that just now Theodore Roosevelt stands in the forefront as the biggest man in the country, and possibly in the world. If he decides to express himself, the next Republican national convention is going to do exactly what he says. He can be absolute dictator of the party if he wants to be.

After noting that Major Whitchard says we look like the does we ask some of our friends of the press association to kindly propose Whitchard's name as the one to wrest the mendacity medal from Squire Sherrill, of the Concord Tribune, and as we are a member of the committee to make next year's award, we pledge our support.—Wilmington Dispatch.

TREXTON KING

A Story of Graustark By GEORGE BARR M'UTCHEON

Copyright, 1909, by George Barr M'UTCHEON

SUMMARY OF THE CHAPTERS.

Chapter I.—Troxton King arrives in Edelweiss, capital of Graustark, and meets the beautiful princess, Marie. He is attracted by her beauty and is forced to marry her. The king is crowned, and the princess is crowned. The king and queen are crowned. The king and queen are crowned.

CHAPTER XIX.

FROM the hillside below the monarch, Captain Haas and his men were able to study the situation in the city. The impracticality of the situation was recognized. A force of 700 men, no matter how well trained or how determined, could not be expected to surround a castle, to enter it, and to hold it against the attack of as many thousands. The wisdom of delaying until a few thousand loyal though poorly armed troops could be brought into play against the city appealed at once to Prince Danton and John Tullis.

into the castle, but to not a gun twenty feet away. ... Troxton King was growing bolder and bolder. He could not understand the admirable, criminal precaution. He was of a race that did things with a dash and an audacity on the spur of the moment. His soul sickened day by day. John Tullis, equally unhappy, but more philosophical, often found him seated upon a rock at the top of the dargway. His soul sickened day by day. ANNIE LAURIE.

Annie Laurie was a real personage, the daughter of Sir Robert Laurie of Hazelton. The well known song bearing her name was written by William Douglas when despairingly in love with her. Meeting Annie at a ball in Edinburgh, Douglas became wildly enamored of her; but, owing to his father's bitter opposition and the political intrigues which caused him to flee the country, the affair ended in nothing save the production of the immortal song. Later on Douglas returned to find his sweetheart the wife of another, whereupon, "instead of 'laying down to die,'" Douglas married Elizabeth Clark of Glenburg and became the happy father of a large family.—Exchange.

MARVELLOUS MEMORIES.

Among men noted for wonderful memories were Milton, who was said to be able to repeat Homer; Professor Lawson, who boasted that he could repeat the whole of the Bible except a few verses; Lord Macaulay, who made the same boast about "Pilgrim's Progress" and "Paradise Lost;" Dr. Landon, a friend of Sir Walter Scott, who could repeat an act of parliament on hearing it read but once, and a London reporter who took no notes, but could write out an unexpected debate verbatim. Henry Clay could not memorize a single stanza of a poem, but never forgot a name, a face or an argument.

CHIEF JUSTICE FULLER DEAD.
PASSES AWAY SUDDENLY THIS MORNING.
Will Likely be Succeeded by Governor Hughes, of New York—Two Vacancies in Supreme Court.
By Wire to The Reflector.
Bar Harbor, Me., July 4.—Melville W. Fuller, chief justice of the Supreme court of the United States, died suddenly here today of heart failure.
Chief Justice Fuller was born in Aurora, Me., Feb. 11th, 1833, and was admitted to bar in 1855, practicing for a while in Augusta. He moved to Chicago in 1856. He became chief justice October 8th, 1888. Before this he had taken a prominent part in national politics. He administered the oath of office to six presidents of the United States—Harrison, Cleveland, (twice) Roosevelt and Taft. He was married twice. His first wife living but a short while. Married again in 1868 and later died in 1904.
Washington, D. C., July 4.—The announcement of the death of Chief Justice Fuller came as a distinct blow in this city. He left here for his summer home immediately on the adjournment of court, in apparent as good health as usual. Before court adjourned he assigned the calendar for the full session, which the standard Oil and Tobacco Trust cases are to be finally thrown out. For the first time in twenty-three years a Republican chief justice will be appointed. It is believed here that the appointment will go to Governor Hughes, of New York, who was recently appointed associate justice. The death of Chief Justice Fuller makes two vacancies on the Supreme court bench which the president will fill, Justice Moody retiring.

PITT COUNTY DELEGATES.
Below are the delegates and alternates named by the county convention to represent Pitt county in the State, congressional and judicial conventions. The list as given are for the county as a whole as they were named by the several townships.

Smith, Dr. C. C. Joyner, F. D. Foxhall, H. A. Gray, F. G. Jones, F. G. Jones, R. W. King, J. J. Satterthwaite, J. P. Quinroy, J. P. Quinroy.

LITTLE BOY BADLY HURT.
Gave Dangerous Fall and Sustains Painful Injury.
Sunday afternoon Graham Flanagan, a little son of Mr. E. G. Flanagan, was badly hurt. With another boy he was playing across Evans street south of the grocer school. Graham was winding on the outside of the grocer's railing and losing his grip fell several feet to the branch below, striking on a pile of concrete and his body partially rolling into the hole of water there. Mr. W. B. Greene was passing about that time, got the stunned boy out of the perilous position and carried him to the home of his parents two blocks away. The little boy was bleeding profusely from a deep cut on the forehead, his right wrist was broken and dislocated and one knee hurt. He was badly nipped up by the dangerous fall.

GREENVILLE MARCHES FORWARD AS USUAL.
ENTHUSIASTIC DECLARATION FOR GOOD ROADS.
According to Announcement the Chamber of Commerce met in the Town Hall, Monday Night, July 5th, to discuss the problem of road improvement. Both conventions meeting in a joint assembly. Greenville should be the beginning point for the county if the county people will not hold the reins of the movement, set upon an example.
Dr. Laughinghouse was called upon and said that the county's progress depended upon an intensive improvement of its public roads. That a gentleman from Ohio who was going all over the South for the purpose of getting information as to the desirability of various sections for immigrants who would come South and make homes, came to Pitt county a few weeks ago with a letter of introduction to him. He took this gentleman over a good part of Pitt county, showed him the county's resources, the county's people, the county's roads, gave him information as to the county's climate, the county's variety and rich production, etc. All of which impressed him very much. He had been told that the county's climate was a very fine one, and he was convinced the gentleman that he was in Pitt county, even though it contained everything else that could be desired.
It was not until he had seen the condition of the roads that he was impressed. He said that he was first for Good Roads in this entire county, that nothing would increase the business interest of this county, and that that he always increased the value of property. He said that if roads could not be gotten by the entire county, he would do his best to improve the roads in his own township. The movement for good roads among the people is slow in growth, but the spirit was abroad all of the people, that he had made a personal investigation by asking the great number of farmers that he came in contact with what they thought of the condition of the roads, and his conclusions and conditions were in favor of good roads by taxation in some form or other. The convict system has been largely responsible for the growth of the movement. That the small property owner was less enthusiastic on the road question than the larger property owner, but they were all in favor of them.
Mr. R. R. Cotten, another of the delegates to the good roads convention, referring to Mr. Joyner's statement, said that the good road movement had grown marvelously during the last few years. Five years ago people would not listen to the question of good roads by taxation, but now they are sufficient to pay the interest on the bonds issued for that purpose. Let us decide what we want and go after it.
We are tired of man and beast wearying of the road, and we can get them. He said that for many purposes the sand-lay road was the upbit of our race, and our country. It would have a great moral, social and educational effect, and that the people must be educated as to the best way of getting good roads. He said that after coming from his home about the subject of good roads, he had been invited to the meeting of the chamber of commerce in Greenville where he struck Greenville's road and road purposes would be more than sufficient to pay the interest on the bonds issued for that purpose. Let us decide what we want and go after it.

Harding, of the county executive committee, and the roll of delegates was called by Secretary W. L. Brown. It was found that all townships were well represented.
A. L. Blow was unanimously elected permanent chairman of the convention, and W. L. Brown and D. J. Whighard secretaries.
Upon taking the chair Mr. Blow made a brief speech.

C., on the 9th day of July, 1910, and the delegates appointed are as instructed. And to this end, this convention authorizes H. W. Whedbee to select the quota of delegates to said convention to which Pitt county is entitled under the plan of organization."
Upon motion each township delegation was authorized to select its quota of delegates to the different conventions, and there was a recess for these selections to be made.

Immediately after reading the list of delegates the convention adjourned.
