

NOTES FROM THE UNIVERSITY

STUDENTS IN THE MIDST OF EXAMINATIONS

THE ATHLETIC EVENTS TO FOLLOW

Schedule of Basket Ball Games—Valuable Acquisitions to The Library—University Faculty Rank High Among Scientists Of The Country.

Chapel Hill, N. C., Jan. 17.—At the meeting of the State Historical and Literary Association held in Raleigh, January 12, Professor E. K. Graham, head of the department of English and dean of the academic school, was elected president for the coming year.

Examination began today and for the next ten days there will be little doing except "boning" on the part of the students. But things will liven up immediately after this period ends. The night of the last day of examinations the University will engage in the first inter-collegiate game of basket ball of her athletic history. The schedule opens with Wake Forest, and includes games with Tennessee, Charlotte and Durham Y. M. C. A.'s, Virginia Christian College, Guilford and two games with the University of Virginia, one in Chapel Hill and one in Charlottesville. The main purpose of the team this season is to get the sport established. The men are in most cases green, but they hope in spite of their inexperience, to make a creditable showing.

The ball schedule will be published during the next week. The last few days have been very warm and the players have availed themselves of an opportunity for a little preliminary practice before the examinations. Captain Hackney will call out his men for steady work just as soon as examinations close. Coach Clancey will report in Chapel Hill the first week in February.

The University library has recently made some valuable acquisitions. In December through some friend of the University, a copy of the original constitution of the Ku Klux Klan, printed in Pulaski, Tenn., in 1863, was obtained. There are only two other documents in the United States The library has also secured a copy of the rare work, Catesby's Natural History of the Carolinas, Florida and the Bahama Islands. The work is in two large folio volumes, magnificently illustrated. It was published in London in 1754. This is the only copy of the work in North Carolina.

Dr. L. R. Wilson, librarian of the University library, was elected chairman of the library department of the Southern Educational Association at the meeting held in Chattanooga, December 27th to 29th.

Of the seven North Carolina scientists who were given a place among the one thousand best scientists in the United States, six are members of the University faculty. Making a ratio between the number of inhabitants and the number of scientists in this one thousand, Chapel Hill comes second in the list of the towns of the whole country.

The Origin of Royster Fertilizers.

Mr. Royster believed that success awaited the Manufacturer of Fertilizers who would place quality above other considerations. This was Mr. Royster's idea Twenty-seven years ago and this is his idea to-day; the result has been that it requires Eight Factories to supply the demand for Royster Fertilizers.

COMMANDER AND THREE OF CREW FOUND DEAD

Twenty-Seven Rescued From German Submarine.

By Cable to The Reflector.
Kiel, Germany, Jan. 18.—The commander of German submarine, which sank yesterday, and three members of the crew were found dead when the vessel was raised today. Twenty-seven men were taken off late yesterday, but these found dead remained aboard, refusing to leave the vessel. The vessel had been partially raised but was still in a dangerous position. The men were supplied with air, but it is believed the air tubes in some way became disconnected.

JUDGE WHEDBEE IN WAKE

Makes Favorable Impression on People

Wake county Superior court for the trial of the criminal docket began a session of two weeks yesterday, presiding over it being Judge H. W. Whedbee, of Greenville, who holds his first court in Wake county.

Already Judge Whedbee has made a most favorable impression upon the Wake county bar and the public. His charge yesterday to the grand jury was an able one, and dealt in direct terms with the work of the grand jury and the crimes which are indictable. He directed attention to the crimes in the sales of near beer, cigarettes to minors, saying also that no matter what is the opinion as to the prohibition law that it is the duty of the grand jury to see that it is enforced. His review of crimes that are indictable was clear and explicit.

FLAGS AT HALF MAST, A SHIP OF DEATH

Battleship Delaware Reaches Port With Dead Soldiers.

By Wire to The Reflector.
Norfolk, Jan. 18.—With her flag at half mast, a veritable ship of death, the battleship Delaware arrived here today from Guantanamo. She had on board the eight men who were killed and one seriously injured from boiler explosion yesterday. Several others were slightly injured. The vessel's arrival here was delayed by the snow storm and gale. It was compelled to anchor and wait several hours for the gale to die down.

Solves a Deep Mystery.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as a tooth made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them, Every bottle is guaranteed to satisfy. Only 50 cents. At all druggists.

Stray Taken Up.

I have taken up one Jersey heifer about one year old, solid color, no mark. Owner can get same by paying cost and proving property.

MORTGAGE SALE

By virtue of the power contained in a certain mortgage deed executed by William L. Jones and wife Bettie L. Jones, to J. G. Williams, on the 30th day of October, 1909, as appears of record in book b-9, page 466 of the Register of Deeds office of Pitt county, the undersigned will expose for sale for cash before the Court house door in Greenville, N. C., on Saturday the 18th day of February, 1911, the following described tract of land, to wit:

"A certain tract or parcel of land lying and being in the County of Pitt, and State of North Carolina and described as follows: In Greenville Township, North side of Tar River adjoining the lands of J. B. Fleming and others, and known as a part of the Shivers land containing 32 acres more or less, and bounded on the South by the Greenville and Bethel road, on the West by Amy Mooring's land, North by Billy Whichard; East by Ed Jones' land."

A. M. MOSELEY,
Assignee, of J. C. Williams.

NOTICE TO CREDITORS.

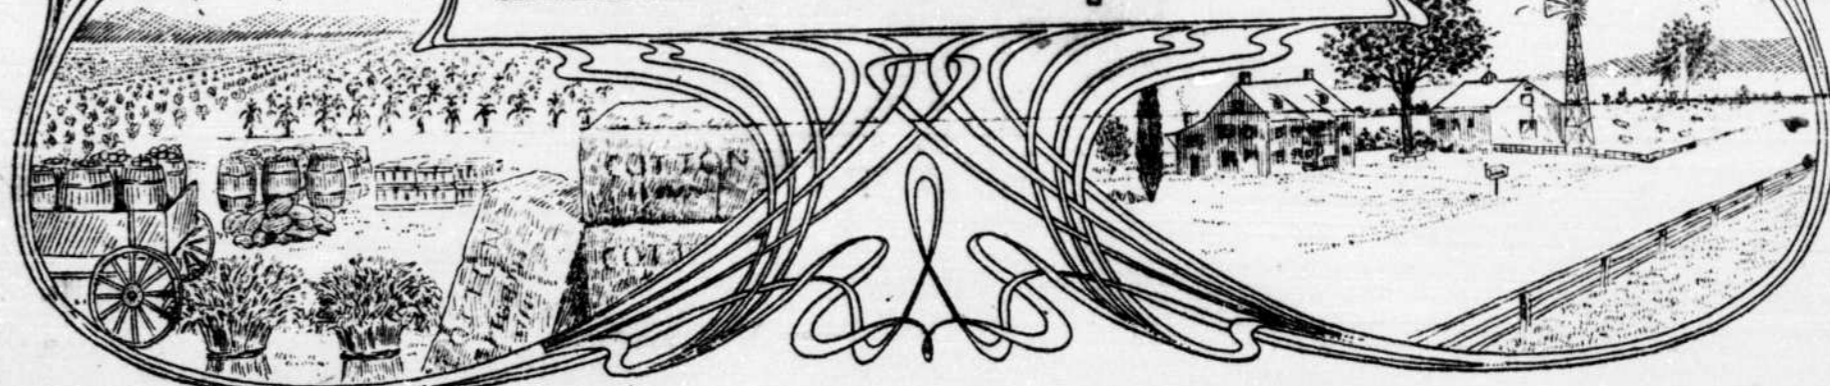

Having duly qualified before the Superior court clerk of Pitt county as administrator of the estate of Penne Hathaway, deceased, notice is hereby given to all persons indebted to the estate to make immediate payment to the undersigned; and all persons having claims against the said estate are notified that they must present the same to the undersigned for payment on or before the 17th day of January, 1911, or this notice will be plead in bar of recovery.

This 17th day of January, 1911.
F. C. HARDING, Attorney.
ABNER EASON,

THE TOWNSHIP GOOD ROADS BILL

MASS MEETING OF THE CITIZEN TO DISCUSS THE MEASURE

FULL TEXT OF THE PROPOSED BILL

It Provides for Creation of Board of Road Trustees Who Shall be Authorized to Issue Bonds to a Amount Not Exceeding \$50,000 to Build Roads in the Township.

A mass meeting of the citizens of Greenville township was held in the City Hall, Monday night, to hear read and discuss the proposed bill for a bond issue to build good roads in the township. There were about a hundred people in the meeting representing all classes—merchants, professional men, farmers, laborers—in fact, every calling and interest, making it in reality a representative meeting of the township.

Mr. E. G. Flanagan was made chairman of the mass meeting, and Mr. D. J. Whichard secretary. A rough draught of the proposed bill was read by sections and opened for discussion, amendment and adoption or rejection as the meeting might decide. The first section was tabled for the time being until all other sections of the bill should be passed, then that section was again taken up and in open meeting the gentlemen suggested to form the board of road trustees were nominated and chosen and their names inserted in this section.

The meeting was quite a lengthy one, there being much speech making and discussion of the various sections of the proposed bill. The bill finally adopted for submission to the general assembly is as follows: A Bill to be an Act to Provide Good Roads in Greenville Township, Pitt County:

The general assembly of North Carolina do enact:
Section 1. That J. G. Moye, J. F. Evans, J. S. Mooring, L. A. Randolph,

L. G. Moye, J. W. Allen, J. G. Taylor, B. B. Ficklen, G. W. Stokes, L. A. Mayo, J. L. Evans and R. L. Smith, are hereby constituted a board of trustees for the public roads of Greenville township in Pitt county. The first four shall hold the said office of trustees for six years, the next four for four years, and the last four for two years. At the expiration of the terms of any, their successors shall be elected for six years by the county board of commissioners of Pitt county. All vacancies caused by death, resignation or removal from the said township, shall be filled, for the unexpired term by the remaining members of said board. Provided, that the position of trustee shall not constitute an office within the meaning of article seven, section fourteen of the constitution of North Carolina. Section 2. That the said board of trustees and their successors, shall have the same name and style of the board of Road Trustees of Greenville Township, and by that name may sue and be sued, make contracts, acquire real and personal property, by gift, purchase or device; hold, exchange and sell the same, and exercise such other rights and privileges as are incident to other municipal corporations.

Section 3. That it shall be the duty of the said board of trustees to take control and management of the roads of said Greenville township, and said trustees are hereby vested with all the rights and powers for such control and management as are now vested and exercised by the board of county commissioners of Pitt county, provided nothing in this Act shall be construed to apply to bridges over Tar river.

Section 4. The board of trustees shall annually elect a chairman and secretary and treasurer. The treasurer shall have charge of all road funds of the township, and shall be required to give bond in sufficient amount to cover funds coming into his hands. The board of trustees shall annually elect three of their number, who shall constitute and be known as the executive committee. This committee shall meet at stated intervals, as may be directed by the

TWO YEARS' RECORD OF STATE PRISON

UNDER MANAGEMENT OF Supt. J. J. LAUGHINGHOUSE

LARGE INCREASE IN THE RECEIPTS

General Improvement About Prison and State Farms—Comparison of Different Crops Shows Better Health Record of Those in Eastern Than Those in West.

Superintendent J. J. Laughinghouse in his report to the governor for the State prison, reviews the work of the institution since he assumed charge on July 7, 1909, and gives a full and complete report of receipts and expenditures. He reports that his inventory of December 31st, 1910, showed a large appreciation of the State's property by substitution of young fine mules and horses for the old worn-out stock and the latest improved farming implements for old and out of date implements that were discarded by all practical farmers a decade ago.

In his report he states that he does not take into account articles produced and consumed on the farm, as these values balance themselves, but that the number of convicts has gradually decreased for the past ten years, because of chain-gangs in many counties, only the diseased and infirm coming from these and that this system continues that in a few years the prison population will be decrept. The receipts, he states, "show the fact that we have earned and paid into the treasury over double the amounts of any preceding two years, we at the same time show an increase in expenditures," that "this was inevitable when we consider the run-down condition of the stock and buildings" that improved kind of agricultural implements have saved during the cultivating season \$100 a day. In detail he gives the improvements in buildings and stock, and tells of about

more worth of time in repairing the State farm to contain 3,000 acres of valuable land. The health condition on the farm is the best ever given by the State, and the prisoners are the healthiest ever in the State. The Eastern State Prison, located at Raleigh, has a population of 225 to 400, and there were four deaths in the past two years, one a man 75 years old, and no case of typhoid fever in that time. From S. J. Busbee's camp in Eastern North Carolina, where there are 75 men, there were four deaths in 1909, one in 1910. From the Charles railroad camp in eastern North Carolina, with 75 to 80 men, there were no deaths from sickness in two years. From D. H. Carver's railroad camp in Hyde county, there were two deaths in 1909, one in 1910. An old man of 70 years whose death was from heart trouble, a few minutes after eating a hearty meal at the railroad camp in Elkin, Western North Carolina, with 75 men generally, there was one death in 1909 and one in 1910. As to this camp in Western North Carolina, Superintendent Laughinghouse says there were more deaths and more losses from sickness than at camps in any other part of the State, which goes to show the healthy conditions in Eastern North Carolina.

In regard to the health conditions, from the report of Dr. F. M. Register, physician to State farm, the following is taken: "Our health record has been so good for the last ten years that I must call your attention to it" and tells of the interest of the officials in health conditions that in the past two years there were four deaths out of nearly 600 prisoners, none among sixty or more employees and no typhoid fever that he attributes "this record of health to driven pumps, thereby getting pure water, good food, sanitary surroundings, regular hours, and last but not least, everything thoroughly screened from flies and mosquitoes" and that "I believe that the eastern part of the State will compare with any other part, if people will use driven pumps and thoroughly screen their premises." The malaria, he says, is in a great measure prevented.

POOR PRINT

GOV. JARVIS SPEAKS IN RALEIGH

A GREAT PLAIN SPEECH BY A PLAIN GREAT MAN

IT WAS HIS 75TH ANNIVERSARY

Addresses the Joint Committee on Education of The General Assembly and Urges That Proper Provision be Made for Educating the Children—Schools Should be Maintained.

The senate and house committees on education held a joint session in the hall of the house last night and the late ex-Governor Jarvis, by speech, expatiated on the needs of education.

He began by making the confession that he was 75 years young to-day, and he had rather spend his birthday talking about how to help all the children of all North Carolina than in any other way (great applause).

"Just thirty years ago tonight," he continued, "I stood here and took the oath of office as governor of your State, and just 25 years ago I stood here and took Governor Scales the oath of office as Governor of your State."

He then discussed the state of affairs in education, by issuing bonds? The University, Trinity, Wake Forest, Davidson and other colleges of that day and spoke of the great work they were doing. But it was a contest then of who should get the boys that could go to college. The number was limited, and this made the question then in 1885 was who should get the boys?

Since then, since the State and the additional facilities of that day and spoke of the great work they were doing. But it was a contest then of who should get the boys that could go to college. The number was limited, and this made the question then in 1885 was who should get the boys?

Institutions of learning have been established in the State. And the question now with all of them is not who shall get the boy or girl but how can we provide room for them. So the struggle is how to get the money to enlarge the State institutions so that we can stop turning our boys and girls from their doors.

The grave question now presents itself. What is the duty of legislators in view of the report on finance recently made by your State treasurer?

You must do one of two things—stand still and have educational stagnation, or get funds somewhere beyond those derived from taxation.

We have no right to fix a burden upon the future generations for our daily support. Those bills we ought to pay today. But when we erect buildings to be enjoyed by those to come after us, we ought not to put all that burden on our shoulders.

Shall we stand still? Shall that be the policy?

Are we to say to the boys and girls of the State seeking higher education, thus far, we have gone, you will go on further?

Or will we, like wise men, come up bravely to the other question, that of providing buildings in the only possible way by issuing bonds?

Governor Jarvis then gave an interesting account of the number of times he had been politically dead and buried by reason of bold acts he had done when in authority. He told of having had absolute confidence and faith in the people. Of

how his friends would beg him not to act, and how, taking the people in his confidence, he acted. And he said his numerous political deaths and burials had only existed in the imaginations of his friends and close advisers. Prominent among these responsibilities, he said, was the sale of the Western North Carolina Railroad, thereby making possible

the development of Western North Carolina at least twenty-five years earlier than it would have been. "A like crisis is upon you here tonight. What would have become of the State in 1879, had we refused to issue bonds to develop the State and save her credit? Here we have the great need of education confronting us. A much greater

People and Papers.
 It's really lamentable to note how few people in this country actually read newspapers. Very few people in Gaffney read the papers regularly. The lack of interest may be due to the fact that the newspapers published in Gaffney are not as interesting as they should be. There are nearly thirty thousand people in Cherokee and there should be about six thousand families. At least one third of these families—or two thousand—ought to read the papers. Many families in the country take both The Ledger and the Cherokee News and yet the combined circulation in Cherokee county of both papers will not reach two thousand. The combined circulation of both papers is nearly three thousand, but more than a thousand go out of the county. People of more than ordinary intelligence neglect the home paper. The other day we had occasion to ask a gentleman why he did not attend a certain meeting in which he should have been and was interested. He replied he knew nothing of it, yet both the local papers had carried notices of the meeting. Inquiry developed the fact that although this man subscribed and paid for both the local papers he seldom looked at either. There are hundreds of people living in Cherokee who cannot today tell you the name of the president of the United States and many who do not even know the name of the governor who is being inaugurated in Columbia today and whom they helped by their votes to put into office. The ignorance of our people is appalling and yet there are some men who are so blinded by prejudice that they cannot see the wisdom of a compulsory education law. Cherokee's condition is not unlike that of many other counties in South Carolina. We need more enlightenment all over the State. It gives us no joy to say so, but the truth remains that we are almost benighted people in this Union. There is but one remedy, and that is to get busy and educate our boys and girls. We are improving, but there is still room for greater improvement.—Gaffney, S. C., Ledger.

We do not believe that there is a newspaper in North Carolina that can say as hard things about the people of its county.

WHAT THE KIDNEYS DO.
Their Increasing Work Keeps Us Strong and Healthy.
 All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

T. R. Moore, 918 Evans St., Greenville, N. C., says: "I can recommend Doan's Kidney Pills, for I have used them with the greatest benefit. I was troubled with lameness in my back and my kidneys did not do their work as they should. I got Doan's Kidney Pills from the John L. Wooten Drug Co., and I had not used them long before I received relief. I can say that this remedy acts just as represented.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
 Remember the name Doan's—

Old Age Draws Near.
 "We see a man shows gray hair, his services are not wanted, and even if accepted he is relegated to the rear." This statement in a note to the corner explained the suicide of Henry S. Oppenheimer in New York the other day. The pity of it is that there are so many such tragedies. Failure, in one degree or another, comes to most of us in life. Only a few realize hopes, amos benighted people in this Union. There is but one remedy, and that is to get busy and educate our boys and girls. We are improving, but there is still room for greater improvement.—Gaffney, S. C., Ledger.

We do not believe that there is a newspaper in North Carolina that can say as hard things about the people of its county.

Results of a Shot in The Dark.
 We have great sympathy for people who are of such sensitive natures that you cannot pass in furling miles of them without wounding their feelings. Recently we heard of a lady who had great difficulty in getting suited in a cloak which she had ordered through a mail order house. With permission of this lady, who assured us that she would take no offense, we wrote a short editorial paragraph telling how she "got it in the neck." And to our utter surprise half a dozen ladies got 'hopping' mad and exposing their affairs to the public. We did not know the mail order folks had such good business in this vicinity and we did not dream of the cap fitting so many.—Lenoir Topics.

County Treasurer's New Office.
 Mr. J. L. Wooten, owner of the building, is having the store recently vacated by Mr. James L. G. remodelled on the interior for an office for county treasurer W. B. Wilson. It will be a nice place when the improvements are completed.

"HIGHWAY CONVENTION."

To Be Held in Raleigh, On February 14th.

Raleigh, N. C., Jan. 20.—The Wake county good roads association has issued an invitation to all the counties and cities along the line of the proposed "central highway," from Beaufort to Marshall to send delegates to the convention to be held in Raleigh on February 14. The following are the counties and principal cities through this great highway will pass as it winds from the sea to the top of the mountains at Marshall:

Carteret; Craven, New Bern, Johnston, Kinston; Wayne, Goldsboro; Johnson, Smithfield; Wake, Raleigh; Durham, Durham; Orange, Hillsboro; Alamance, Graham; Guilford, Greensboro, High Point; Davidson, Thomasville, Lexington; Rowan, Salisbury; Iredell, Statesville; Catawba, Hickory, Newton; Burke, Morganton; McDowell, Marion; Buncombe, Asheville and Madison, Marshall.

The call for this convention was issued for the purpose of securing the co-operation of all these counties and towns and the response from many of these cities and from many of the leading citizens of the State insure an enthusiastic and well attended meeting. It is hoped that there will be several hundred delegates, not only from the immediate line of this road, but from all parts of the State, as this will no doubt be a meeting that will be of great interest to every man in the State who is interested in the question of good roads.

Mr. W. A. Graham, of the department of agriculture, and Hon. J. S. Wynne, mayor of Raleigh, and all the organizations of the city have joined with the Wake county good roads association in issuing this call and the prospects point to one of the best meetings ever held in North Carolina. The idea of having a great "central highway" from the ocean to the mountains has the endorsement of our high officials and with the proper co-operation between the counties and cities along this line it can easily be built. The mayors of all cities and towns, organizations, and counties along this proposed road are urged to appoint not less than five delegates each to attend this convention, which will be held in the court house in Raleigh, on Tuesday, February 14. The names of delegates appointed should be forwarded at once to Dr. J. M. Templeton, president of Wake county good roads association, Cary, N. C.

- New North Carolina Industries. The Chattanooga Tradesman reports the following new industries for North Carolina, for the week ending 13: Concord—\$10,000 machine shops. Charlotte—\$125,000 construction company; \$125,000 improvement company. Dallas—\$25,000 metal shingle company. Knersville—\$10,000 telephone company. Lexington—\$150,000 chair factory. Morganton—\$50,000 flume company. Wallace—\$10,000 light and power plant. Wilson—\$25,000 automobile company. Winston-Salem—Hardware company.

LEE'S BIRTHDAY EXERCISES.

Interesting Talk by Miss Sallie J. Davis, at Training School.

The observance of Lee's birthday at the Training school was marked by an earnest and true appreciation of the meaning of the day. At twelve o'clock the school assembled to devote one hour to the memory of the great man. "Carolina" was sung with spirit.

Miss Sallie J. Davis, teacher, made an excellent talk on Lee. She presented his early life, his military problems, and his military genius. She stressed his military genius, stressing his military genius, stressing his military genius. She stressed his military genius, stressing his military genius, stressing his military genius.

Miss Davis showed fine discrimination and appreciation of Lee in bringing out the character, the spirit and ideals of the man and his power to carry out these ideals. The school sang a grand old battle hymn. The singing of "America" closed the exercises.

Forgetting How to Write.

From present indications, it will not be more than fifty years before we will have forgotten how to write," asserted D. H. Toland, of Dulabo, at the Shoreham. "I am not referring to the manufacture of literature just plain handwriting is what I mean. I received a personal letter from a friend of mine who wrote in a most legible hand. In fact, in the letter he apologized to me for his poor writing—and confessed that he had not written a letter by hand for more than a year.

"Well it was evident that he was telling the truth. I finally managed to wade through the note and came to the signature. That was as plain as print. There are many men in the same class. A business man or a professional man goes to his office and looks over his mail. Generally, he dictates his letters, and they are brought to him for his signature. If he is a middle-aged family man, and doesn't write notes to ladies, he never has occasion to remember how to make his A. B. C's. So it isn't strange that he forgets how to write.—Washington Post.

Solves a Deep Mystery.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though made just for me." For dyspepsia, indigestion, jaundice and to rid the system of kidney poisons that cause rheumatism, Electric Bitters has no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents. At all druggists.

Let us praise each other's minor faults if we can't discover any virtues.

PRAYER LEAGUE GROWS IN INTEREST

ATTENDANCE SUNDAY WAS STILL FURTHER INCREASED

"PAID IN FULL" WAS THE SUBJECT

Several Speakers Made Interesting Talks—The League Having Marked Effect Upon Religious Life of the Community—Subject for Next Sunday Will be "Pure Religion"

The meeting of the men's prayer league in the Presbyterian church, Sunday afternoon, continued to show an increased attendance, there being between seventy and eighty present. Such a gathering of men in Greenville at a prayer service is remarkable, and it shows the religious interest that has been awakened in the community. The spirit of Sunday's meeting was also more pronounced than any yet held. More talks were made and the experience of their lives given by some of the speakers was helpful to all who heard.

It is a general comment among those who attend these meetings that no other religious services held in the community afford so much enjoyment. Men are drawn closer together in brotherly love, and the talks are from the heart. It is no wonder that such meetings increase in interest, and those who stay away are missing much.

In the absence of President Wilson Mayor F. M. Wooten, the vice-president, conducted the meeting Sunday. He made an interesting talk in opening the services, and also dropped in timely remarks between the talks of the leaders. The subject was "Paid in Full," with Messrs. J. A. Bland, J. L. Rawls and Wiley Brown leaders in discussion. Each of those spoke with much interest, as did also Messrs. H. B. Smith, C. C. Pierce, M. W. Wallace, E. H. Thomas and T. R. Mason after the subject was opened for general discussion.

Next Sunday afternoon the meeting will be held in the Christian church. Subject, "Pure Religion." Text, James 1:27. Leaders, Messrs. C. M. Jones, J. L. Jackson and R. C. Flanagan.

The attendance ought to reach a hundred next Sunday.

TEACHER'S ASSEMBLY.

Executive Committee Meets in Raleigh, January 26th.

The regular annual meeting of the executive committee of the North Carolina Teachers' Assembly has been called for Thursday, January 26th, at Raleigh. The committee will meet at 3.30 o'clock. The most important matter to be settled at this meeting is the selection of the time and place for holding the next session of the assembly. The members of the executive committee are:

Superintendent Chas. L. Coon, of Wilson; Prof. E. C. Brooks, of Trinity College; Mr. R. D. W. Connor, of Raleigh; President K. L. Moore of Mars Hill College; Mr. E. A. Woltz, of the University of North Carolina; Superintendent H. B. Smith, of Greenville; Superintendent F. P. Hall, of

Gaston county; Miss Edith Royster, assistant superintendent of schools of Wake county, and Miss Mary O. Graham, of the State Normal College, of Greensboro.

It is understood that the committee will receive invitations from several places in the state for the next session of the assembly.

Gov. Jarvis Speaks in Raleigh.

(Continued From Second Page.)

erect the buildings. The interest would be but \$20,000 a year, and nobody in the State would know they were paying it, the burden would be so light.

Referring then to the schools of lower grade, Governor Jarvis said the weak point in our educational system today is the schools among the country people. They are doing the very best they can. But you cannot have good schools without good teachers. The teachers are doing the best they can, but many of them have not had the advantage of training that the city school teachers have had and I believe that the country schools should be entitled to as good teachers as the city schools. (Great applause.)

The state was giving all the primary teaching that children got. It became, therefore, of the greatest importance that the best trained teachers should teach their children, 75 per cent. of which would never go to any other than a public school.

This question, then, of training children by education for the duties of life was the greatest and most important responsibility of the State.

He then made a short plea for better provision for the teachers' training schools at Greenville, Cullowee, and Boone, which were all crowded, and like the University, the A. and M. and the Greensboro Normal were in sad need of better equipment and buildings and permanent improvements.

He gave an interesting history of the training school at Greenville, showing that Pitt county had put \$35,000 more in the school than the State had, although the State had title to the whole property.

He did not believe in standing still. The people of the State were now on the march, and they never will consent to stand still again in educational matters. Although but a little over a year old, this school had sent out 500 teachers, who were trained to teach in the country schools.

Concluding, Governor Jarvis referred to the proposition to sell the State's stock in the North Carolina railroad. He told how, in 1869, he got in the seat now occupied by Hon. Richard H. Battle, to "A bill to aid the credit of North Carolina." It was a bill providing for sale of this stock. He watched it till he caused it to sleep the sleep of death on the house calendar. He paid high tribute to four men, who, he said had been of invaluable aid to him during his six years administration as governor, especially in regard to financial affairs, so as to keep this stock unimpaired. The men were William L. Saunders, now dead; Thomas P. Branch, of Richmond; Gen. R. F. Hoke, and A. B. Andrews. (Great applause.)

"Never sell this stock, which is now the best investment the State has but issue bonds and hold the stock."—Raleigh News and Observer.

The man who has friends isn't nearly apt to need them.

Majestic Range Demonstration!

AT OUR STORE ONE WEEK Beginning January 30, 1911 FREE

THE GREAT AND GRAND MAJESTIC RANGE

THE RANGE WITH A REPUTATION
MADE IN ALL SIZES AND STYLES.

MAJESTIC NEVER-BURN COOKER, STEAMER, CULLENDER AND DRAINER—The Perforated Cooker, shown in center, has small feet which admit water at the bottom. Nothing can burn. Food can be lifted out of main vessel (shown on left), at the same time draining off all the water. The Steamer or Cullender shown on right can be used as an ordinary Cullender. It also fits on top of main vessel, and is used as a steamer.		
THE MAJESTIC Extra Heavy Stamped Iron Marbled Kettle, complete with cover and handle that holds on cover.	THE MAJESTIC 18-oz. All Copper Nickel-plated Tea Kettle. Handsomely nickel-plated outside, tinned on inside.	THE MAJESTIC 11-oz. All Copper Nickel-plated Coffee Pot. Handsomely nickel-plated outside and tinned on inside.
THE MAJESTIC Marbled Enamelled Pudding Pan. Made specially fine for the Majestic Set.	THE MAJESTIC Patent Never-burn Wired Dripping Pan.—Size of pan 14 1/2 in. x 20 in. Made specially for the Majestic Set.	TWO MAJESTIC Patent Never-burn Wired Dripping Pans. Size of pan 9 in. x 12 in. Made specially for the Majestic Set.

Set of Ware FREE!

If you call at our store during our MAJESTIC DEMONSTRATION WEEK and allow us to show you the many advantages and superior qualities of the Great MAJESTIC RANGE, and will purchase one at the regular price, we will give you FREE the beautiful and useful Souvenir Set of Ware illustrated in this advertisement. This ware is made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this set, especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The Prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during the Demonstration week only.

Reasons Why the Great Majestic You Should Buy

- 1st.—It has the reputation of being the best range money can buy.
 - 2nd.—It not only has the reputation but IS the BEST range made, and we will prove this to you if you will let us.
 - 3rd.—It is constructed of malleable iron, material you can't beat, and of Charcoal Iron, material that resists rust 300 per cent greater than steel riveted together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.
 - 4th.—The reservoir alone is worth the price of range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left hand lining, and is movable and sets on frame, hence cannot wear out. When water gets too hot it can be moved away from fire.
- MAJESTIC RANGES use less fuel; heat more water—and, heat it hotter; costs practically nothing for repairs; lasts three times as long; bakes better; easier to keep clean and gives better satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once?
- COME IN DEMONSTRATION WEEK AND WE'LL PROVE IT TO YOU.

THEY VISIT THE TRAINING SCHOOL

EDUCATIONAL COMMITTEE OF LEGISLATURE IN GREENVILLE

FOURTEEN MEMBERS IN THE PARTY

They Are Met at Depot by Citizens and Taken Direct to the School—Inspect the Buildings and Equipment and Look Into Needs of the Institution.

The educational committee of the senate and house of the general assembly of North Carolina, visited Greenville today to inspect East Carolina Teachers' Training School and look into the needs of the institution. The party arrived on the 8:40 Norfolk Southern train and were met at the depot by citizens with carriages and automobiles and taken direct to the school.

Those of the educational committee who come are Senators Baggett, of Harnett; Sigmon, of Burke; Armstrong, of Montgomery; Ivie, of Rockingham; Cox, of Jackson; Cotten, of Pitt; Hyatt, of Yancy; Hicks, of Granville; Representatives Spainhour, of Burke, chairman of house committee; Johnson, of Orange; Brown, of Jackson; Thorne, of Pitt; Smith, of Caswell; Kendrick, of Gaston.

With the committee inspecting the school are State Superintendent of Education J. Y. Joyner. Hon. Y. T. Ormond and ex-Gov. T. J. Jarvis, members of the executive committee of the board of trustees.

As soon as the visitors reached the school they were taken out to the refectory for breakfast. The committee then made a thorough inspection of the entire school plant, closely observing the buildings and equipment throughout every department.

Mr. H. A. White, president of the chamber of commerce, was introduced to the committee, by President Wright and in a few remarks welcomed them to Greenville. He

stated that this institution was the pride not only of the city of Greenville, but that the entire county took interest in and fostered it. He invited the committee an invitation to visit the town after they had finished inspecting the school.

Assembling in the president's office in the administration building, chairman Spainhour called the committee to order, and asked for suggestions for the needs of the school by those connected with it. Governor Jarvis made a statement as the founding of the school, and the part the county of Pitt and town of Greenville took in establishing it, these giving \$98,000 while the first State appropriation was only \$15,000. The State later made an appropriation of \$50,000, making a total of \$163,000 the State has put in the plant. He then briefly told of the erection and furnishing of the buildings, and the work of the school since its opening.

President Wright also spoke to the committee, giving items of expense of the school and other information as to the course of study and work of the student body.

At 12:30 o'clock the entire school assembled in the auditorium where the students sang several songs. After brief remarks by President Wright, this part of the meeting was turned over to Representative Spainhour, chairman of the house educational committee. He spoke briefly, and then introduced other members of the committee who made short addresses, declaring their interest in the educational work and expressing pride at what they had found in this school here, and pledged themselves to do what they could for this school.

Senator Hicks said he had been anxious to come here, because his county, Granville, had given some of her best people to Pitt, and referred especially to Prof. Ragsdale, our county superintendent and the splendid work he had done in the educational advancement of Eastern North Carolina.

Interesting talks were made by Senators Baggett, Ivie and Armstrong and Representatives Johnson and Brown. The others would have talked, for they had been greatly welcomed them to Greenville. He

NOTES FROM THE UNIVERSITY

CHAPEL HILL VICTORIOUS IN FIRST BASKET BALL GAME

REV. B. W. SPILMAN'S ADDRESSES

University Y. M. C. A. Sent Large Delegation—Twenty Three Baseball Games Scheduled—Team for The Coming Season Not a Very Strong One.

Chapel Hill, N. C., Jan. 31.—The University was victorious in her first game of basketball played in the gymnasium Friday night with Virginia Christian College. The score was 42 to 21. The local quintet showed unexpected team work in the second half and proceeded to pile up the score.

Everybody interested in the success of Carolina athletic teams is delighted at the announcement that Mr. Branch Boccock has signed up to coach the varsity football team next year. Mr. Boccock has coached the V. P. I. team for the last two years and has turned out some great teams up there. He is well acquainted with climatic conditions in the South and is better fitted to handle a team of Southern boys than a Northern coach. He graduated from Georgetown University where he also studied law until he received his license.

Rev. B. W. Spilman, Baptist Sunday school evangelist, delivered addresses at the Baptist church last Sunday. He made a strong plea for Sunday school workers to re-double their efforts to keep the big boy interested in Sunday school. Mr. Spilman devotes his entire time to Sunday school work among the colleges and universities of the South and East.

The Chapel Hill Y. M. C. A. sent a delegation of ten men including Mr. E. P. Hall, general secretary, to the Inter-state convention of Young Men's Christian Associations which met in Raleigh the last three days of the week just closed. This

was as large a delegation as was sent by any college in North Carolina and South Carolina. The Chapel Hill association is in a flourishing condition now. There are 325 men in the athletic group, and the Missionary group, which was dormant last year, is now active and preparing to send a still larger squad this year.

Manager E. F. McCulloch has announced the schedule for the baseball team. There are 23 games, 11 of which are to be played in Chapel Hill, Oak Ridge, Wake Forest, Davidson, Guilford, South Carolina, V. P. I. and the University of Virginia, all have arranged games. The two Virginia games will be played in Greensboro and Charlotte, April 5 and 9th, and the third game in Charlottesville, April 15th.

The outlook for material for the team is bright. In addition to the four or five members of last year's varsity in back who are sure that he will play his position. This is Captain Hackney, of Wilson.

EXPLOSION OF DYNAMITE JARS NEW YORK

Dynamite Explodes on Vessel in New York Harbor.

Wire to The Reflector
New York, Feb. 1.—A mysterious explosion that broke windows throughout the financial district occurred on a pier in Jersey City today when a car load of dynamite exploded. Officials of the railroad report a number of persons injured but are unable to say if there were any fatalities. The entire downtown section of New York was shaken as though by an earthquake. A late report says explosion was on a schooner off the pier loaded with dynamite.

Rear Admiral Spurry Dead.

By Wire to The Reflector
Washington, Feb. 1. Rear Admiral Charles F. Spurry, died today of pneumonia. He was 63 years old and retired from service in September 1909. He commanded the battleship fleet on its world cruise after Admiral Evans relinquished command.
