IN CHARGE OF C. T. COX

Authorized Agent of The Carolina Home and Farm and The Eastern Reflector for Winterville and vicinity Advertising Rates on Application

WINTERVILLE, N. C., Dec. 30.—Miss Venetia Cox, who is teaching at Battleville, is spending the holidays at home.

Now the holidays are over, it will pay you to see Harrington, Barber & Co. for your rival or reversible disc barrows.

On Friday evening, December 29, Miss Venetia Cox gave to her friends an old-timey candy stem. The boys were invited by the hostess, and they were given the liberty of making one girl each of their choice. The games of the evening were enjoyed by all and they only wished some evenings could be longer.

Miss Ethel Mumford delightfully entertained at a party, Tuesday evening from 7:30 to 11:30, at her home, in honor of her cousin, Miss Lela Mumford, of Grifton. The guests were greeted at the door by the Misses Mumford. From there to the parlor, where followed several interesting games, after which several solos were played by Miss Charity Worthington. About a o'clock and a variety of fruit was served.

**CHINESE PRESIDENT AND HIS PEOPLE**

**Dr. Sun Yat Sen Promises to Overthrow Manchus**

**WILL PROMOTE INDUSTRY AND TRADE**

China's New President Starts His Rule With The New Year And Adopts Christian Calendar—Made Trip To Nanking From Shanghai In Special Train.

NANKING, Jan. 3.—The first official act of Dr. Sun Yat Sen, president of the Chinese republic, was to change the Chinese calendar. He made new years day the first day of his presidency, thus commencing a new era and making the Chinese new year begin henceforth on the same day as the year begins in most other countries of the world.

Accompanied by a numerous suit and strong body guard, Dr. Sun left Nanking in a special train for Shanghai. The trip was made without incident except for the enthusiasm of the greetings accorded the new president at all the principal stations.

Dr. Sun was greeted in the new Chinese capital with loud cheering. The route to the government house was lined with ten thousand soldiers. The whole town was festooned with the warships, and merchant vessels along the river were dressed. The presidential salute was fired from the guns of all the forts in the vicinity. Dr. Sun was attired in a Kakki suit upon arrival at the government house.

**Newspaper Mergers.**

Only the uninitiated have expressed surprise at the merger of the Norfolk Landmark and the Virginian-Pilot. It was an eminently sensible step. Norfolk has a population of about 70,000 and people have wondered how it is that its newspapers are reduced to the number published in towns less than half as large. In speaking of the change the Landmark said:

"This step was not taken hastily or without mature consideration. An aggressive and liberal policy of expansion by the Norfolk Landmark had demonstrated that Norfolk could not, at least for the present, support two morning papers, which, in the volume and accuracy of the news and the manner and promptness of its service, would prove worthy of the city."

The thing in contemplation is the difference between a real newspaper and a "paper". The latter are published anywhere and everywhere. One newspaper will do town or city far more good than a dozen "papers". A "paper" can never become a newspaper as long as it fills its columns with resolutions of respect and cards of thanks, gratis, and has nothing with which to buy a news service. It can never "get there" and render its town a service worth while as long as it crowds its columns, gratis, with long articles boosting the chances or fitness of this or that man for office. It can never be a factor or force as long as it sells advertising space below the cost of production. A town will never grow seriously, in the direction of becoming a city, until its people recognize and appreciate the value of a live newspaper to the extent that it gets not only sufficient support to live, but enough to make possible expansion that indicates the growth of the town.

One great newspaper will do Norfolk more good than two of mediocre strength. The merger leaves one morning and one afternoon newspaper there and that is as many as any town of less than 100,000 population can properly support.—Greensboro News.

**Be Good.**

You should resolve to be good in 1912. Figures given out by Census Director Howard disclose the startling fact that out of every 130 persons in the United States that one of this number went to prison in 1910. The table by states brings out the fact that the number of prisoners in proportion to population was smallest in South Dakota, 48 per 100,000 population and largest in Nevada, 353 per 100,000 population and that the number of commitments in proportion to population was smallest in North Carolina, 123 per 100,000 population and largest in Arizona, 2,292 per 100,000 population. It does not follow that the good people of this state have been especially good, as the number of commitments in proportion to population is not small degree by the statutes and the practice of the courts relative to the punishment of minor offenses. Offenses, which in some states would be punished by a few days in jail, in other states, be punished by a fine.—New Bern Sun.

**Convicts On Roads.**

North Carolina was the first Southern state to utilize convict labor in road building on an extensive scale. The fine macadam roads around Charlotte were built by convict labor and it crowds its columns, gratis, with long articles boosting the chances or fitness of this or that man for office. It can never be a factor or force as long as it sells advertising space below the cost of production. A town will never grow seriously, in the direction of becoming a city, until its people recognize and appreciate the value of a live newspaper to the extent that it gets not only sufficient support to live, but enough to make possible expansion that indicates the growth of the town.

**HARD, HARD IS THE WAY**

The way of the editor, like the way of the transgressor, is hard, mighty hard. Here we were sitting around the office stove, rubbing our hands and feeling great over our pictorial edition. We just felt like the cat that has captured its first full size rodent. Pull and happy. But it was not to be (as the poets say). For the U. S. must come to realize that in our frenzy to get to press we had overlooked certain things. Among them, and for this we feel really sorry, in our list of what Greenville has we omitted to mention that there is a business in Greenville without which it would go hard with us. We refer to the tinsmith business of Mr. J. J. Jenkins. Without this business we probably would not have been able to sit around that office stove and forget things. But then, if there had not been a stove there without which it would go hard with us, we wish to say that such omissions were absolutely the result of hurry, and not the absence of good will. For there really is no other booster more sincere than we are for Greenville and naturally we do want to say that Greenville has all it has.

**One Reason Against Seven.**

And now from the metropolis of Missouri comes the news that Senator Stone is hanging around the Champ Clark headquarters and is looking for the candidacy of the speaker of the House for the nomination for president of these United States on the Democratic ticket. In his endorsement Senator Stone says that he has seven reasons why Champ Clark should be the nominee. We have not as yet seen these reasons, but we can give no reason why he should not be nominated and that is that he would hardly be elected.

There is before us now the finest chance that has been presented to the Democratic party in many years for a man to win the White House. All it will take is a little forethought and common sense. The nomination of the speaker would be neither Mr. Clark as he stands now is a good Democrat and a good speaker but would he make a good president? We think not.

It is going to take some mighty careful work on the part of the Democratic party to nominate the right man for the place in the convention next spring and as yet we wait to see where anything will be gained by the nomination of Champ Clark.—Charlotte Evening Chronicle.

Mr. and Mrs. J. B. James have gone to home keeping in the Smith house on Greene street.

J. S. Mooring is to move to the store in the Riatto block which was the home of Charles Clark.—Charlotte Evening Chronicle.

**Government Stupidity.**

When Postmaster-General Hitchcock says the government loses over seven cents a pound on second-class mail matter to the Pacific coast and \$60,000 a year on all carriage of mail matter, he proves nothing pertinent to the issue.

If the government loses on the exceptional long haul, what does it gain on the common short haul? And if it loses also on the common short haul at a cent a pound, why does it lose?

The great bulk of second-class matter is carried over comparatively short distances. Within these distances the express companies do the business at less than a cent a pound and make a profit. Over the same average distances the railroads will carry passengers and provide them with cushioned seats and room to walk around at a less charge per pound than second-class matter is said to be costing the government.

What is the trouble? Simply that the government has driven away the profitable part of the second-class mail business and now deals with the unprofitable part as if it were the possible as well as the actual whole. It is the way the governments usually do business.—New York World.

**Pork and the Drink Habit.**

The south eats too much hog meat. Indeed people of all sections eat too much meat. The injury from its excessive use has caused many to go to the other extreme and become vegetarians. Perhaps, as in most things, the middle ground is best.

BATTLESHIPS SCOURING THE OCEAN

Greatest Fears Are Entertained as to the Fate of the Three Missing Torpedoes and Government is Conducting a Search for Them—Missing Craft May Be in Some Port of Refuge.

NORFOLK, Jan. 8.—The United States torpedoed destroyer Terry, disabled in the storm of Friday night, is safe, and is being towed to Norfolk by the cruiser Patro. The Roer is also safe and on her way here under the convoy of the Salem.

Fears, however, are felt for the destroyers Mayrant, McCall, and Drayton, which are still missing and scouring the seas in all directions and half the battleships and cruisers of the Atlantic fleet searching for the little craft.

The battleship Connecticut, Louisiana, Ohio, and the cruisers Washington and Birmingham are strewn along the coast, from Norfolk to 500 miles beyond Hatteras in their searching. With a fog enveloping the coast as far as Beaufort, the battleships are using every search light they carry to penetrate the darkness and mist in the hope of seeing something of the missing boats.

They are keeping up constant appeals by wireless asking any ship that might hear their calls for news of the destroyers. Many have heard their calls, but none of them have seen anything of the Mayrant, McCall or Drayton.

**MAN FOUND FROZEN IN HUT**

DIED OF HEART DISEASE IT SEEMS

Schaefer Had Made a Fortune In Real Estate—Had Refused to Mingle With Neighbors for Years and is Only Survived by Grandchildren.

Washington, Jan. 10.—The frozen body of John Schaefer, 70 years old, a wealthy reclus, was found in a ruddy built hut in the rear of 1247 New Hampshire avenue north-west yesterday morning by Paul Posner, a tailor, who occupies a shop in front of Schaefer's hut. The aged man had refused to mingle with his neighbors and received no visits from his family.

Schaefer was last seen on Saturday afternoon by Posner, hurrying toward his hotel. He made no response to Posner's invitation to warm himself in the tailor shop, which has himself in the tailor shop. Coroner Nevitt issued a certificate of death from heart disease. Dr. Nevitt said the aged hermit did not die from cold, but that the body had been frozen after death.

Schaefer formerly owned a store in Georgetown, but gave it up about ten years ago to enter the real estate field. He is said to have accumulated a small fortune.

He owned the premises on which he died, and the building in which the Posner tailor shop is located, and several structures in Georgetown. He was born in Germany, and came to Washington about 45 years ago. He married here, but his wife and children are dead. Three grandchildren, living at 2620 K street north-west survive him.

**NEW RECORDER FOR DURHAM.**

DURHAM, N. C., Jan. 10.—Paul C. Graham was elected judge of the Durham recorder's court at a joint meeting of the boards of aldermen and county commissioners called for the purpose at noon today.

The opponent of Mr. Graham was Mr. R. H. Sykes, who has held the position for several years. The election ends a hard fought political battle, which has been in progress for more than a month. Mr. Graham was formerly mayor of the city and is well known throughout the state. The joint board also elected Mr. R. A. Harris clerk of the recorder's court. Mr. Harris secured the election in competition with Col. James A. Robinson, former editor of The Durham Sun. Mr. J. Ed. Pegram was elected substitute recorder and Colonel Robinson was elected deputy clerk.

**Kills Father and Son.**

RALEIGH.—Governor Kitchin announces a reward of \$200 for Jess Kitchin, about 45 years ago, and for a double murder on Christmas Day, when he shot George Brendle and his son, Manly Brendle, and fled to Georgia. There had been an old grudge between Upton and the elder Brendle and Christmas Day Brendle shot Upton and suggested that they bury old scores and be friends again. Whereupon, Upton fired upon Brendle killing him instantly and then fired two shots into Manly Brendle, resulting in the latter's death within three hours. The reward is at the request of the board of the county and Solicitor Felix Alley of the sixteenth district.

**OFFICERS FEAR HAY ARMY BILL**

Will Ruin Nation's Fighting Force, They Say.

**CRITICAL SITUATION IS BEING FACED**

Leaders in Army Circles Assert That the Hay Army Bill is the Most Serious Proposition the War Department Faces and That It May be Reluctant to Fighting Force.

That a most critical situation confronts the army of Mr. Hay, chairman of the house committee on military affairs, to force the reporting out from the committee of the radical military measure which bears his name within the next few days is the openly expressed opinion of the line officers of the army stationed here.

The entire fighting branch of the army is aroused in opposition to the pending legislation, but the ardent voice of Mr. Hay in attaching the measure as a rider to the army appropriation bill confines the battle ground to the committee room, and the opponents of the measure, being soldiers, recognize the strategic strength of the enemy's position.

It is pointed out by the army officers that every section of the bill but one is so drawn that it comes under the Holman rule, which prevents a point of order being raised against it, and thus prevents any effective attack on the floor of the house.

The more important sections of the Hay bill provides for the increasing of the term of enlistment from three to five years; the cutting off of increased pay for foreign service; the consolidation of the quartermaster's subsistence and pay department into a supply corps; the merging of the adjutant general's and inspector general's office with the general staff, and the abolishing of the statutory office of chief of coast artillery and chief of the division of militia affairs.

Said to Have Robbed Canadian Bank of \$375,000

"AUSTRALIAN MACK" LONG RECORD

Detectives Claim That Their Prisoner Committed the Robbery in the New Westminster, B. C. Bank—Branch of the Bank at Montreal—Long Record of Crime Back of Prisoner.

NEW YORK, Jan. 8.—John McNamara, of San Francisco, known to detectives of half a dozen cities as "Australian Mack" was arrested here tonight by central office and private detectives on a warrant charging him with the larceny of \$375,000 from the Bank of Montreal at New Westminster, B. C., which was dynamited September 14. Eleven hundred dollars were found in his wallet, and detectives are searching the bank's funds, which he is believed to have brought to New York.

For ten days McNamara has been under surveillance by police here. After traveling over the United States and Canada for more than two months, it is said, police headquarters here first learned of his arrival through a tip that some one was trying to exchange a large amount of Canadian money for American currency. Money brokers and the men who approached them were shadowed until the trial, they said, led them to McNamara's lodging. No money, however, was found there.

## Cold Wave Claims a Great Many Lives In Past Few Days

# TEMPERATURE RECORD ESTABLISHED

## The Cold Wave Sweeping Throughout The Entire Country Causes Unlaid Suffering Amongst Poor Classes—11 Die in New York Alone.

New York, Jan. 6.—A total of eleven deaths from the extreme cold was the record of this city for the winter's coldest day here. Tonight, although the thermometer had sunk to 25 degrees at about 10 o'clock from a maximum of 15 in mid-afternoon the suffering was not so intense because of a marked let-up in the furious gale, which brought the cold wave with it. Lower temperature was predicted within the next ten hours, however.

The sudden cold snap has driven so many thousands of destitute and homeless to seek shelter in the municipal lodging houses, the covered piers, and even the morgue, that the leaders of the Boverly Mission appealed to the churches tonight to open their doors to shelter the homeless while the cold weather lasts.

James T. Hunt, estuary manager of the Mission, said that he was overwhelmed with applications for help and could assist only a small number. He asked the pastors of many of the leading churches to aid sufferers from the cold.

# MEN'S PRAYER LEAGUE.

## Small Attendance But an Inspiring Meeting.

The snow and cold caused a small attendance at the meeting of the Men's Prayer League in the Baptist church, Sunday afternoon, but those present felt more than repaid for going. The subject was "Show Thyself Approved" and two of the appointed speakers, Messrs. Ernest Etrond and B. W. Mosely, made splendid talks. Rev. Robert King, of Richmond, was present and also made and inspiring talk to the league, forcefully bringing out the points that study of the Bible, frequent prayer and living Christ before the world are the best means of showing ourselves approved to God.

The meeting next Sunday afternoon will be held in the Methodist church. Subject, "How to Show our Religion." Text, James 1:27. Leaders, Messrs. W. M. Pugh, D. M. Clark and H. B. Smith.

## Notice to Patrons of Graded School.

I think there are some pupils in school who tell their parents that the school building is not well heated on cold days, and use this as a pretext for playing out of school. I desire to state that the heating plant is giving better service now than at any time in the past, and that the rooms are generally well heated. No pupil should be allowed to remain out of school on account of heat, as such an excuse does not accord with the facts.

Immediately after the ceremony they left for the home of the groom six miles from Greenville.

# THE ATTENTION OF PERSONS WHO BID OF LAND AT THE SHERIFF'S SALES LAST MAY IS CALLED TO THE PROVISION OF A LAW THAT REQUIRES THE PUBLICATION OF NOTICE TO THE OWNER IN CERTAIN CASES.

In all cases where land has been sold for taxes and the person whose name the land was listed cannot upon delinquent inquiry be found in the county, then the bidder must publish a notice in some newspaper published in the county in which the land is situated, and if no newspaper is published in the county then in some newspaper nearest the county-set of the county in which the lands is situated. This notice must state when he purchased the land, in what name it was taxed, for what year it was taxed and when the time or redemption will expire.

This notice must be published three times, the first not more than five months and the last time not less than three months before the time of redemption will expire. As the sale was made on the first Monday in May 1911 and the time of redemption will expire on the first Monday in May, 1912, there is no time to be lost in advertising the required notice. Persons, therefore, who bid off land at tax sales last May had better give immediate attention to the publication of notice. This is published the bidder cannot get a valid deed.—Pittsboro Record.

# "THIS IS MY 50th BIRTHDAY."

Colonel Samuel Hughes, Minister of Militia in the Dominion of Canada, was born in Burlington, Ontario, January 8, 1833, and received his education principally at Toronto University. Colonel Hughes has been an enthusiast in matters appertaining to soldiering since he was fourteen years of age, when he entered the militia. He declined the position of Deputy Minister of Militia in 1891 and Adjutant-General for Canada in 1905. He has served as president of the Dominion Rifle Association, president of the Standing Small Arms Committee for Canada and Railway Intelligence Officer for the headquarters staff. He served during the Boer War in 1870 for which he received a medal and in the South African war of 1899-1901. In 1897 he visited Australia and New Zealand in the interest of the government for colonial assistance in imperial wars. Colonel Hughes has been a member of the House of Commons since 1892.

# A Brave Little Mother.

A teacher friend of mine told me of an incident which occurred in her school that had had a wonderfully cheering effect upon my faith in our present-day mothers, however limited their opportunities may have been. This teacher was visited by one of her patrons who came to the school for the express purpose of thanking the teacher for the interest she was taking with her small boy in his reading and to say that she herself was having her first reading lesson from this same small boy; that they were learning to read together and with such a spirit of courage and ambition means more to her family than we can fully appreciate.

It takes three generations to make a gentleman, so it is said, but the world has yet to learn how long it takes to make a mother. The true mother learned long ago, that while her true "sphere" is in her own home, she must draw from the whole world, from the world of books and writings, the helps which will enable her to bring her home up to its highest possibilities.—Mrs. F. L. Stevens, in The Progressive Farmer.

Remember, three things come not back: The arrow sent upon its track—It will not swerve, it will not stay its speed, it flies to wound or slay. The spoken word, so soon forgot. By these, but it has perished not; In other heart 'tis living still; And doing work for good or ill. And the lost opportunity In vain dost weep, in vain dost yearn.

Those three things will nevermore. Those three will nevermore return.

# Against The Bill.

The Sherwood pension bill will strike at least one snag in the senate. Leaving Salisbury for Washington, Senator Overman gave out an interview to The Post, in which he defined his position very clearly. He expressed himself as being red hot against the bill. "You can say in your paper," he said to the reporter, "that I am opposed to it and will do all I can to defeat it in the senate. I voted against it last year and will do so again. I voted against the \$25,000,000 pension bill, and you can be assured I will vote against the \$75,000,000 bill. A bill similar to this bill was introduced in the last congress. It was known as the Silliman bill, but this time it did not notice it. I voted against this bill. That was last March. It was a Republican bill and no one paid any attention to it, but as soon as the Democrats passed the Sherwood bill there was a big howl. I am against this pension bill. It is not in line with the Democratic policy of economy. The Democratic congressmen from the North and West represent a lot of old soldiers and they had to vote for the bill or lose out next time. I do not think the bill will pass the senate—not in the present form. It has Senator Overman's friends had expected that he would take this view of the Sherwood bill.—Charlotte Evening Chronicle."

# HORSES IN BATTLE

They Show Sagacity and Bravery In Times of Danger.

# FEARLESSLY FACE A CHARGE

Veteran Soldiers Assert That the Courage of Animals Will Make an Attack Made Directly Upon Them Without a Sign of Flinching.

Traits of horse character, as well as of human character, otherwise unnoticed are brought out in the stress of war. Familiarity with danger probably has its effect in making horses fearless, as ignorance of danger doubtless does. Horses are creatures of habit, in battle as well as in the occupations of peace, and this fact has been brought out in the most recent incident on the field of action. There have been recorded many interesting illustrations of the manner of riderless horses "under fire" and when wounded.

War horses when hit in battle tremble in every muscle and groan deeply, while their eyes show deep astonishment. During the battle of Waterloo some of the horses as they lay upon the ground, having recovered from the first effect of their wounds, fell to eating grass about them, thus surrounding themselves with a circle of warm ground, the limited extent of which showed their weakness.

Others were observed quietly grazing on the field between the two hostile lines, their riders having been shot off their backs and the balls flying over their heads, and the tumult behind, before and around them caused no interruption to their feeding. It was also observed that when a charge of cavalry went past near to any of the stray horses already mentioned the latter would set off, form themselves in the rear of their mounted companions and, though without riders, gallop strenuously along with the rest, not stopping or flinching when the fatal shock with the enemy was with a circle of warm ground, the limited extent of which showed their weakness.

Others were observed quietly grazing on the field between the two hostile lines, their riders having been shot off their backs and the balls flying over their heads, and the tumult behind, before and around them caused no interruption to their feeding. It was also observed that when a charge of cavalry went past near to any of the stray horses already mentioned the latter would set off, form themselves in the rear of their mounted companions and, though without riders, gallop strenuously along with the rest, not stopping or flinching when the fatal shock with the enemy was with a circle of warm ground, the limited extent of which showed their weakness.
