You Need a Tonic There are times in every woman's life when she needs a tonic to help her over the hard places. When that time comes to you, you know what tonic to take-Cardui, the woman's tonic. Cardui is composed of purely vegetable ingredients, which act gently, yet surely, on the weakened womanly organs, and helps build them back to strength and health. It has benefited thousands and thousands of weak, ailing women in its past half century of wonderful success, and it will do the same for you.

### You can't make a mistake in taking The Woman's Tonic Miss Amelia Wilson, R. F. D. No. 4, Alma, Ark.,

says: "I think Cardui is the greatest medicine on earth, for women. Before I began to take Cardui, I was so weak and nervous, and had such awful dizzy spells and a poor appetite. Now I feel as well and as strong as I ever did, and can eat most anything." Begin taking Cardui today. Sold by all dealers.

WASHINGTON, Dec. 18 .- Secretary Daniel's speech in New York last night in which he said "the latest exhibition of hysteria is the effort to pre--e of the currency bill." brought a reply in the senate today

from Senator Serman, of Illinois. "The answer to that statement." he said. "is that the House bill as it came back to the Senate has been Parker. vastly improved. Our deliberations have not been for the purpose of preventing currency legislation, but for the express purpose of improving currency legislation. If this be hysteria then we can well stand more such hysteria."

NEW YORK, Dec. 18.-Reactions ries who think to weaken the advo cacy of progressive measures by declaring that they are the products of "hysteria", were roundly denounced here last night by Secretary Daniels, of the navy, in an address at the dinner of the North Carolina Society of New York.

### Come see the wonderful car, the gears of which are shifted by electricity

The new Haynes car is here! You can now see the latest models of America's First Car with the biggest improvement of many a year-of which you have been reading and hearing aboutthe wonderful Vulcan Electric Gear Shift.

Wonderful is the only word strong enough to fit the device which does entirely away with the hand lever and replaces it with a circle of push buttons on the steering wheel, as you see in the picture below. And now you can see this great car with its new features you've heard so much about—it's awaiting your inspection at our showrooms.

## another big First

Without the Vulcan Electric Gear Shift it would be a most noteworthy car. It is electrically lighted and started, and has electric warning signal. The tires are pumped mechanically. The gasoline is pressure fed. The gasoline tank is filled from the rear where it is easily reached. The doors are extra wide, the seats and floor

> You simply press a button -electricity does the rest

Press button "S" (see picture of steering wheel), immediately push forward on clutch pedal and the motor begins to spin-press button No. 1, push forward the clutch, and you're off on first speed. Buttons No.'s 2 and 3 control intermediate and high speeds—button "R" is for reverse and "N" for neutral. Button "H" operates horn.

The woman of slightest build or the man too nervous to enjoy driving the ordinary hand-shifted car, will take delight in driving the Haynes. The hands never need leave the wheel. The eyes can be centered on the road. There is no chance of stripping gears.

roomy, with lots of package space. In case of storm the Collins curtains are let down in a few seconds without leaving the seat. And these are only a few of the many features. Operating the Haynes is as simple as ringing a door bell—the apparatus is almost automatic —removes 90 per cent of the work of learning of drive.

#### The Haynes is famous for reliability and power

Twenty years of automobile engineering is represented in these latest models of America's First Car. The Haynes was a perfectly reliable car before most cars now on the market were ever heard of. Every essential part is built in the Havnes shops. The Haynes motor is a marvel of simplicity and efficiency.

The body of the Haynes presents that much-desired long, sweeping appearance. The workmanship is masterful, the finish superb. Here is a car that can't be surpassed at any price, and in value represents the limit in automobile construction.

### Come see the Haynes and watch us shift the gears by electricity

You have no idea how perfectly efficient this new device is, and how simple in operation. You'll agree it's the greatest motor car feature you have ever seen. Come see it. Our latch-string is always out.
