**Interesting Items from the Thriving Little Town of Ayden**

AYDEN, May 26.—When it comes to doing things up right it takes Tom Harvey of Kingston to do it. He celebrated his birthday anniversary Friday with an old time dinner. After dinner was served Mr. Harvey was presented with a beautiful gold headed cane, with fitting remarks. Then Hon. E. L. Dandridge, Lieutenant Governor, in an appropriate speech presented a handsome gold watch. From his many warm admirers, and then speeches were made by Hon. J. Rouse, Jos. Kinsey, S. M. Woods, Kirby Sutton, O. H. Allen, Dr. J. O. H.H. Laughinghouse and several others. To all these Mr. Harvey had to reply. We have visited assemblies on many occasions, but we never saw a finer personality than was in attendance on this occasion.

Notice to the wash woman: be it known that the star dye factory was recently destroyed by fire, and we have plenty of the Red Devil brand and old Dutch cleaner as well as Bab No. 30 on hand. J. R. Smith and Bro.

Mr. Jerome McGiloh, who lives near Bethany church came into town to the Doctor. Ralph was ex. Monday evening bringing Ralph Cardui, permitting with a dynamic cap, but not sure if it was the same one as he added to test it, but before he could run, the thing had exploded, tearing several parts of the flesh from his face, badly disfiguring his left eye and doing considerable damage to his hand.

At an adjourned meeting of the town school board, T. R. Tingling presented a transfer for the graded school to fill the vacancy caused by the resignation of J. L. Connor, Mr. L. L. Kittrell, who had qualified as Mayor.

Yes, the standards are coming up. Our gates from all parts of the county are being raised. The commencement of the Seminary, next Thursday will be the day proper, as the debate will be held at that time. Subject, Resolved, That the signs of the times indicate the destruction of the United States Government. Speakers, President Moore, Alexander and Griffin, Messrs. J. H. Horton and W. H. Robinson, have leased the new mill of Mr. Bryant Tripp on the Tar road and will operate in connection with their other mill.

We are convinced that before we adopt a hotel in Ayden we will have to adopt the method of the old lark, "Get busy ourselves."

Mr. Richard Wingate says this is no better paint made than Kerfoss, sold by J. R. Smith and Bro. A visit to the graded school building reminds you of a bee hive, even though busy.

Mr. J. J. Lawrence was elected to represent the local lodge of Odd Fellows at the Grand Lodge which convenes in Durham today.

Mr. Henry Skinner, of Farmville, writes he is sure to send a package of American herb tablets, as they are the thing for that tired feeling in the spring. We have plenty more of them. J. R. Smith and Bro.

Mr. W. E. Nichols, who moved from Pitt to Craven county and bought the Buck Neck farm was in town Saturday, bringing with him a load of his produce consisting of bacon and sals beans, and when he had finished trading he received to the good a check for the balance of his load \$40.00 to carry home. This is what we call business in farming.

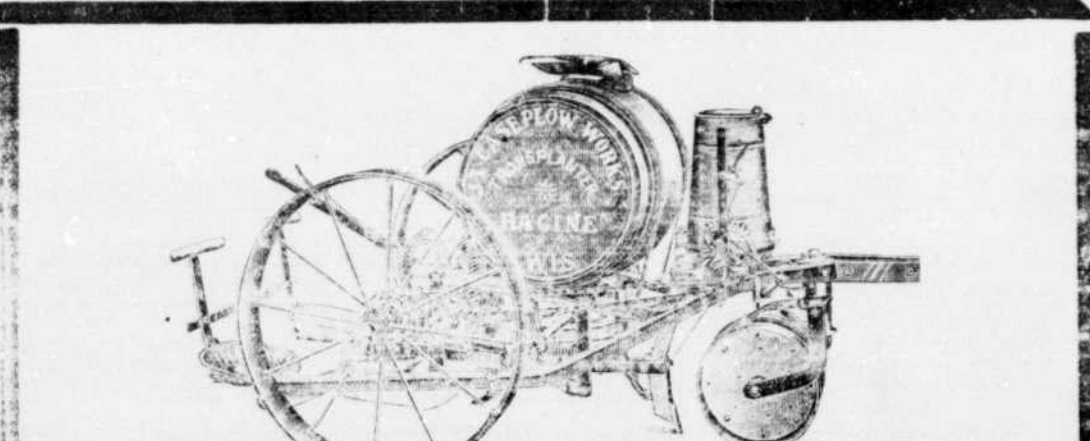

Mr. Nichols is a Pitt county boy, married a Pitt county girl, and farms on Pitt county property, and you can easily guess the results.

Mrs. Susan Jackson, widow of Mr. W. J. Jackson, is in a hospital at Raleigh for treatment. She reads The Daily Reflector, and sends us word she enjoys the Ayden letters, as it keeps her posted on the current events from around her old home.

Mr. Wright Noble, who has been very sick for the last week, was reported conscious Tuesday morning. His many friends are very anxious for him and hope he may recover.

Mr. Fred Buchmann, Superintendent of the Ayden Lumber Co. Mill here, yesterday made an awkward step while crossing the yard and turned him indoors for a few days.

**MONEY SAVED**  
by The J. I. Case Tobacco Transplanter.

Great saving in time and labor, increase in yield per acre. Set your plants when rainy don't wait for rain. Each plant watered at the roots, covered with dry earth—no baking. Every feature necessary for every purpose, desired. Come and see these machines before you buy, built right, works right, wears right, and prices right. "The Case" is best made.

Grimesland, N. C., Feb. 13, 1914. Messrs. Hart & Hadley, Greenville, N. C., Gentlemen:

In regard to the J. I. Case Tobacco Transplanter will say that I am well pleased with it. I couldn't ask for one to work any better and it was just as you represented it to be. It worked to perfection and I am satisfied it save me several hundred dollars.

I set my entire crop of seven acres with it and it was dry weather when I set it. I used six barrels of water first setting. I set some parts of row acre and got a perfect stand the rest all through my patch by hand.

just to try it and I found that which I set with the Transplanter grew better the season through. I also set some for several of my neighbors and they say that theirs grew better than that they set by hand, and they are begging me to set theirs for them the coming season. I also have friends at a distance of fifteen miles from me who want me to set their crop for them.

I can't say too much for your machine and wouldn't be without one for five hundred dollars and as to your services, I couldn't ask for better.

Yours truly,

**TROUBLESOME LAND QUESTION**

Discredit Report That Huerta Got Arms.

WASHINGTON, May 25.—War and Navy Department officials do not credit current reports that the Huertista has landed a cargo of arms and ammunition for Huerta at Puerto Mexico, which like Tampico, still is regarded as an open port.

The situation and the progress of the mediation at Niagara Falls was discussed in the Cabinet meeting today with out announcement.

Some men in the confidence of the constitutionalists declared the northern chief was closely watching proceedings at Niagara and was seriously considering some proposals.

Of those developments the view was taken in some quarters that reports that the two missions sought to approach the vexing agrarian problem in a spirit of conciliation seemed encouraging.

The Huerta delegates were said to have received from their original position that the land issue was too internal solution only, while the American mission gave ground from their first viewpoint that it should be settled at the mediation proceedings.

With that factor giving promise of adjustment, the hope grew in administration circles that further aggressive movements by American troops in Mexico could be averted and peacefully restored in the Southern Republic.

Reports from Mexico City stated that there was a hopeless feeling among government officials over the conference but they believed it would continue longer than first anticipated.

**Mexico Hopeful.**

The Mexicans are hopeful of meeting the United States half way in the adoption of some suggestion to be submitted to the new provisional government in Mexico, which might be used as a further post in pointing the way to a final solution.

**Grimesland Items.**

GRIMESLAND, May 25.—Dr. C. J. Jones and son, Fred, and Mr. A. O. Clark went to Charlotte Monday afternoon.

Mr. and Mrs. F. A. Elks went to Ayden Wednesday.

Mr. W. E. Proctor and Knott Proctor went to Greenville Wednesday.

Mr. Emil Decker of Baltimore was here last week on business.

Mr. Mose Levy of Norfolk was here last week on business.

Miss Corine Ward of Pactivus is visiting her sister, Mrs. M. Jones.

The Mexican delegates are about ready to present a list of suitable proposals from which to choose a provisional president, and the American government and the mediators to indicate one who would be acceptable.

The Mexicans expect that the provisional president to be chosen will represent a cabinet representing the varied political interests of the country and there shall be assured a fair election for a new president and chamber of deputies with guarantees for the equitable treatment of all factions in the forthcoming campaign.

They fully expect that the provisional government established as a result of the mediation is to be accorded prompt recognition.

**Expect to Complete Work Shortly.**

"We will not be long in completing our cabinet mediation proceedings," said one of the Mexican delegates. "I think there is a way of coming into common accord on this and other points so that we may complete our work very shortly."

After the conference the mediators and the American delegate Justice Lamar dictated the following statement.

"We have begun to discuss the terms and details of a plan of pacification. On a number of them we find ourselves in substantial agreement."

**Local Man Honored in New Orleans at Cotton Seed Crushers Asso.**

(Wilson Times.)

Mr. F. N. Bridgers has returned from a delightful and profitable trip to New Orleans, where he attended the Interstate Cotton Seed Crushers Association which was in session from the 18th to the 20th.

Mr. Bridgers says that the election of Mr. C. L. Ives of New Iberia to the presidency is very gratifying to the North Carolina delegation. This is the first president North Carolina has had and this is the 19th annual convention.

Mr. Bridgers was also honored with a membership on the Rules committee the most important of all the committees as it does with the regulation of trade in cotton seed products. There are twelve members of the committee, six from the Crude Oil dealers and six from the refiners. The other North Carolina members of committees are as follows: Messrs. H. A. White of Green and Publicity, W. A. Reynolds of Charlotte on Legislature and C. A. Johnson of Tarboro and W. N. Gregory of Hertford on the Governing Committee.

There were from five to six hundred delegates in the convention, representing every state in the south either as growers or manufacturers.

The North Carolina delegation desires to hold the convention next year in Asheville and feel confident they will get it.

**Noted Men Assist in Dedication.**

WASHINGTON, D. C., May 25.—The dedication of this structure of the college of history, the first building to be completed on the campus of the American University, the graduate school which the Methodist Episcopal Church in the United States is establishing in this city, attracted to the hallways a highly noticeable gathering of educators, churchmen and men prominent in public life.

President Wilson presided at the official opening and Secretary of State Bryan was one of the speakers.

Bishop Earl Cranston, the senior bishop of the church, presided over the ceremonies and Bishop McWhorter of Chicago and Hamilton of Boston, delivered addresses. Bishop Alpheus W. Wilson, of the M. E. Church, south, delivered the benediction. The musical portions of the programme were furnished by the Marine band.

Suggestion for a graduate school to be built in the nation's capital was made by some of the leaders of the church but it was not until many years later that the idea took definite shape.

In 1899 Bishop John F. Hurst began the collection of funds and some years later he was able to purchase the tract of land in the extreme northwest of this city, where the university buildings are now being constructed.

Before last took up the work and when he died it was turned over to Bishop Hamilton of Boston, who was named chancellor of the university and who still fills that position.

Mr. J. W. Waters filled his regular appointment here Sunday and Sunday night at the historic church. He preached two able sermons.

Mrs. J. O. Proctor left this morning for Wilson to attend the commencement of the Atlantic Christian College.

Mr. Ed Matthews of Washington was in town Monday morning. He preached two able sermons.

Mr. Bob May of Greenville was in town today.

The weather is still dry and warm. The crops are suffering some what from the drought. The farmers are having a time getting a stand of tobacco.

**NEEDED IN SOUTH**

Continued Dry Weather is Seriously Retarding Growth of Crops.

WASHINGTON, May 26.—Rain is sorely needed in the southern states east of the Mississippi, especially in the Carolinas and Virginia, according to the Weather Bureau's National Weekly Weather Bulletin today.

The weather for the week which ended last night, it says: "In the cotton belt dry weather continued in the states eastward of the Mississippi river and it was especially severe in the Carolinas, where the stand of cotton is poor and growth and germination are being retarded but the crop is clean and well cultivated."

"In the states to westward of the Mississippi continued rain has further interrupted planting and cultivation, especially in Texas and Oklahoma, where that which is up is late and badly in need of cultivation, while the northern portions the stand is poor and much still remains unplanted."

"In the principal truck growing districts of the south, including much of Florida, continued dry weather is badly retarding growth and rain is badly needed to hasten the closing of the Atlantic Coast states from North Carolina to New England continued dry weather has retarded the growth of all vegetation in the more southern portions."

**To See History in Pageantry.**

ST. LOUIS, Mo., May 27.—Beginning today and continuing each day during the remainder of this week St. Louis is to have the opportunity of seeing practically the whole of her history unraveled before her own eyes and those of her neighbors in living portraits and brilliant symbolic displays.

The pageant, which is declared to be the most elaborate ever attempted in America, is in celebration of the 15th anniversary of the founding of the city by Pierre LaCade.

Seven thousand five hundred performers have been engaged to take part in the series of tableaux and the great picture dramas. In addition to these, hundreds of men and women have been working for months with sketches, costumes and ideas to make the pageant as accurate historically as possible. The plans have been carried out under the supervision of Charles Thomas Wood Stevens, head of the school drama in the Carnegie Institute assisted by Percy Mackey, the poet and dramatist, and Joseph Lindon Smith of Philadelphia. Frederick S. Converse of Boston is in charge of the music. The scene of the spectacle is in the series of tableaux and the great picture dramas.

"Southern Heroes" by William Robert Patton, of Burke county.

"A Land of Progress and Opportunity," by Millard Reed Quinerly, of Pitt county.

As will be noticed from the subjects, all of the young men chose state or in the south as a whole and this selection on their part was warmly commended by Mr. R. D. W. Connor, secretary of the North Carolina Historical Commission, who presented the medal to the winner. Mr. Connor said that it was far more appropriate for them to choose subjects of local interest than for them to go to Greece or Rome, or to the ancient literatures, for their theme. All of the speeches were well said, and the thought and expression of the young men showed that they had put hard work and much time into the preparation of their orations.

The achievements of the state and the south and plead for wider development along all lines of industry. The contest was hard fought and Mr. Quinerly did not get the medal by a walk over. The judges of the contest were all members of the board of trustees.

**M. R. Quinerly Valedictorian.**

Mr. Millard Reed Quinerly, of Pitt county, was the valedictorian of the class of 1914, which means that he has made the highest average for the entire four years that he has been in college. In announcing the honor, President Hill stated that the people of this state had been fortunate in having a valedictorian of such high caliber. Mr. Quinerly is in a habit of sending letters to the A. & M. college with purchase (Continued on Page Five).

**Miss Myrtle Warren Graduates With High Honors From St. Mary's College**

It will be remembered by the people of Greenville that four years ago, while in the ninth grade of the Greenville Graded school Miss Myrtle Warren, daughter of Mr. and Mrs. Olen Warren, Jr., of this city having made the highest grade on a competitive examination in Eastern North Carolina was awarded a scholarship to St. Mary's College, Raleigh. Miss Warren entered St. Mary's College the fall following and in order to hold her scholar ship she was required to make an average of 92. Each year she averaged the requirements and yesterday she graduated with the honor of the highest grade for the senior year of any number of her class. During her first and second year in college she surpassed the averages of her classmates and only owing to sickness during her junior year, was her record surpassed by one of the members of her class. This year she regained the honor of leading her class and failed only by two points of receiving being the Valedictorian of the class of '14, this being due to the loss on account of sickness during her junior year.

During her sophomore, junior and senior year she held the honor being president of her class, besides other offices bestowed upon her by various societies and clubs connected with the school.

Miss Warren was while in school, as well as at home, very popular and everywhere she was greeted with a hearty hand. With her countless other friends we join in extending hearty congratulations.

Young Man Who Accidentally Caused Her Death Kills Himself After Fourth Attempt.

LISTLE, Ill., May 26.—Leaving a note declaring that his slaying of his sweetheart, Florence Bentley, at Downers Grove last Saturday night was a death, Reginald A. Barr jumped by train a moving train here early today and was killed.

It was his fourth attempt at suicide. In the note he said that he took a drug twice in an effort to die beside the body of his sweetheart, but both times failed.

In desperation he next jumped into a quarry pit, but he hit in the state point water and "couldn't stick," said the note. The clothing on his body was still wet when taken from the tracks.

The note said that Miss Bentley was killed when he tried to kiss her. She screamed and he placed his hand over her mouth. In the ensuing struggle they tripped and fell. He believed her neck was broken.

**MEDIATION NEEDED EVEN IF REBELS WIN**

Carranza's ultimate position over mediation was discussed again today by observers of the situation. Some took the view that even if the northerner found their way into Mexico City there still would be work for a mediating hand in helping to establish a constitutional government; that the good offices of the South American republics would be needed to restore order out of the chaos of five years' war.

Reports from Mexico City that Huerta faced serious straits because of the rumored unrest among treasury and growing unrest among the army and the people, renewed interest in the situation at the Mexican capital.

It is not only the Panama Canal that will be widened out, but the oceans will have to be deepened.

Old Roosevelt does not tell us whether or not he buried the savage tribe he discovered, but he probably did.

Some people without a conscience will work the spraying game to death, although they pray it may never die.

A hard, warm rain would certainly be welcomed by the farmer at this time.

Watchful waiting appears to have gained Woodrow Wilson his base on hills.

Anyway the moving habit makes the simple life, which is usually worth while.

At the same time, Huerta has not proved that salute for Admiral Mayo.

When are we going to have that clean up week? It is high time.

It would help a lot if the administration would also put an embargo on false reports to and from Mexico.

One big difference between Huerta and some other people is that he does his drinking in public.

Love may be blind, but it can make us victims see a lot of beauty that doesn't exist.

Is Argentina going to run this country? First she gave us the fanny, then began selling us beef, and now she is trying to love us in Huerta.

Tammany leaders say that if voters were needed they will send a regiment. They evidently heard that the fighting is good.

A good many of us will wait a while and go to war at the "Movies", it's so much more comfortable, to say nothing of the safety.

No doubt, the next time the London militants try to reach King George with a petition they'll throw it at the chauffeur.

A Maryland church is hoping to build a house of worship with bricks sent by parcel post. The postal department has a lot to put up with.

Why can't our citizens meet with the Board of Aldermen in a call meeting and start some movement for the swimming pool and play grounds for the children? What are we waiting for?

Most of us want to spank the man who marches in a suffragist parade.

Why did the Nobel crowd ever start awarding peace prizes, anyway?

Huerta wears glasses, and reports say that he also empties them.

A woman's ideas of keeping a secret is to keep it going.

The dove of peace had better go armed these days.

### MEXICAN SITUATION IS NEARLY SOLVED.

The public is now in such a state of mind, that it is not surprised at anything that happens in Mexico. One thing is certain, that is that Huerta will not be the ruler of Mexico for many more days. Huerta has been sustained and supported largely by the Roman Catholic Church and as General Villa has indicated that he expects to have every Catholic Priest and Bishop that is left when he takes the city of Mexico, and it appears that Villa will be able to capture Mexico in a short time, it will be seen that Huerta and his Catholic Machine are in a desperate situation. The thrust of the party of General Villa against the Catholic domination is reported in the dispatches as being based on the fact that the Catholic Church has furnished many millions of dollars to the Huerta government. This is probably true, but General Villa realizes that the Catholic Priests and Bishops in Mexico have designedly kept the working classes in ignorance and paralytic, and that the few who could own the land are helpless slaves. All the revolutionists are particularly bitter against the priests and Bishops, very much like the French peasants were when they brought on the great French revolution of 1789 in which they hung a priest on one side of a lamp post and a feudal or nobleman on the other side, holding both equal responsible for the poverty and misery existing at that time in France. Mexico is much like France in 1789 suffering from the same identical causes, the corruption and rottenness of the church and state.

As it looks now, Greenville will be right on about midline in the matter of providing a place on the river front for the amusement and recreation of children. At any rate no one seems to be moving in that direction, just a case of continued neglect of which another tragedy may some day befall them.

One day reports from the mediation conference looks hopeful for peace, but probably the following day it appears different. It is doubtful if the mediators know what they are doing themselves.

Some of our merchants are advertising mail boxes. Be sure you get yours immediately, or you may miss our free delivery of mails, because the government will not make another movement for its establishment until they are notified by the local postmaster that you are ready to be served.

What can the citizens of Greenville be waiting for? Not even a wilderness of the swimming pool and play grounds, or as much as the removing of a typhoid germ for cleaning up week. Don't let us wait until an occurrence takes place similar to that of two weeks ago, or probably one third of our population is wiped out with typhoid fever or some other dreadful malady.

We should piece out the fire hose or extend the water system. While the citizens on the edge of the corporate limits are contributing their portion to the upkeep of the town they have no protection in time of fire. The blaze in the southern part of the city yesterday that wiped out the four buildings may be a warning.

If we remember correctly it will only be a short while now before that new fire alarm system will be installed.

Put on your thinking cap. Next Friday night is the time when the ward primaries will be held to select all the men for the election on the first Monday in June. Now that you have the cap on, keep it on until after the primaries. While our present Board has served us well in many respects, there is room for improvement.

"Sparrows attend church" reads a headline in an exchange. This proves that the birds of the air are looking for the best things of this life which would be a lesson to many that are too busy with the things of this world to ever stop to consider eternity.

When it comes to a contest between the I. W. W. and John Rockefeller, which side are we good people on? Now is the time for Villa to employ an expert Biographer.

Colorado's shameful war is enough to make Pikes Peak blush.

Somehow, it seems as though the mediation class had got as far as "A

Wednesday morning two colored preachers, Ben May and Geo. Brown, got in a dispute over an oil cap on the engine at Mr. William May's saw mill near here. May asked Brown to wait until he could get his gun, which he did, then Brown started at May with an axe. May then fired at Brown hitting him in the shoulder. This did not turn the angry man out of the second time hitting Brown on the jaw. This was too much for Brown so he stopped. May was arrested before Magistrate R. Croon found guilty and placed under a \$100 bond for his appearance at court.

Last Friday night was Woodmen's night here. They had a fine bunch of candidates to initiate and District Manager S. O. Ten years ago a friend told me to try Theford's Black-Draught, which I did and I found it to be the best family medicine for young and old. I kept Black-Draught on hand all the time, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried. We never have a long spell of sickness in our family since we commenced using Black-Draught. Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colds, wind, asthma, headache, sick stomachs, and similar symptoms. It has been in constant use for more than 20 years, and has benefited more than a million people. Your druggist sells and recommends Black-Draught. Price only 25c. Get a package today."

win that distinction and that there are three other men who had won it before Mr. Quincy.

**Governor Presents Diplomas.**  
Governor Locke Craig presented the diplomas, and afterwards closed the services with a short address to the members of the graduating class. "I want to congratulate you," said the Governor, "upon the attainment of this distinction. And you are entitled to congratulation. The fact that you have been diligent for four years is a sign that you will continue that way throughout your life."

The Governor impressed upon the minds of the young men the importance of their work and wanted them to make good after leaving college. "The fact that you have received these diplomas from the state institution is no reason why the state should expect more from you." He wanted them to know that they were under great obligation to their parents and many of them had made sacrifices to send them to college.

"As I listened to the reading of those names," declared the Governor, "I thought of how very much better off the state is now than it was a few years ago. It has been only a short time since this was an open field at our feet, and this institution had never been provided for."

**Should Be More Farmers.**  
Governor Craig said that there ought to be more men in the departments of mechanical, electrical and civil engineering, and that if the state had sent their farmers here in as large numbers as they should have done, there would be more than two hundred in the department of agricultural instead of the twenty eight men who are receiving their diplomas in that subject here today. "Eighty per cent of the people of this state live on the farm, and there ought to be the hundred young men here studying agriculture."

"Go to the Farm and Stay."  
The Governor wanted these boys to go to the farm and stay there. "Go there and raise fifty bushels of corn to the acre and two hundred and fifty bushels. And all of this is for the creation of a better home for the farmer, and for the betterment of the state. You have not come here to learn to make cotton as the end of your endeavors, but to learn how to give the people a better opportunity."

"If you will be better than your fathers, and learn to do more than they," said the Governor, "then the chances are that you will be the creators of a still finer and better old-fashioned set of people. If it is not your aim to raise the food eaten, and to make it better, rather than to see the money spent in this institution thrown out in the field if nothing better could be found to do with it." And Governor Craig lent his remarks with an appeal to the graduates to go out into the world and do their part in making mankind better and the world a better place in which to live.

**Ready for the Great Derby**  
LONDON, May 26.—Tomorrow will be Derby Day, the day of all days for the English sport loving public and in cuts and puns alike the chances of Kenyon, of Black Jester, of Congress and other horses entered in the great race today furnished the staple topic for discussion. The customary crowd will journey to Epsom to see the annual classic. The King will be there, together with half the greatest men of the realm. From present indications the crowd will be as large as any that had witnessed the race in many years.

In the hundred and thirty five years of its history, the Derby has held first place among turf events and the traditions of the race are practically the traditions of the turf. The winning of the race for more than a century has been regarded as the greatest turf event that an Englishman could achieve, and they have been so zealous for the honor that it very few years has it escaped them.

The race tomorrow will be run over practically the same course that has been in use for the great event for 123 years. The first Derby run in 1780 at Epsom over some of the ground of the present course was at a mile, but the distance was increased in 1781 to a mile and a half, that course over a similar distance being slightly modified in 1818, called the new course, and in 1872 the start-up post was changed again to the high level starting post, the same that is in use now.

**Fire in Contentnea**  
A tenant house and a smoke house on the Sheppard farm belonging to Mr. and Mrs. McLawhorn, in Contentnea township, was totally destroyed by fire Sunday morning between one and two o'clock. The occupants of the house, Mr. Ben Manning, lost practically all of his household effects, as well as his provisions and chickens, with no insurance. It is not known if the owners had any insurance on the building. The cause of the fire is unknown, and was discovered by the occupants just in time to save them selves.

**STOMACH TROUBLE FOR FIVE YEARS**

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroyton, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Theodore's Black-Draught, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what Black-Draught has done for me."

Theodore's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter.

**AYDEN ITEMS.**

AYDEN, May 28.—Mr. W. C. Parker, of the lower edge of Pitt county, was up attending the commencement at the Seminary and told us he had just harvested nine big loads of feed from one-acre, he sowed it in crimson clover and winter oats and the yield was wonderful, also told us that he saved one hundred bushels of Nancy Ham potato slips, and did not lose a piece of them from rot. Mr. Parker is a politician seeking office, but is a practical farmer, injects business in his farming, reads The Daily Reflector and lives at home.

Mr. John W. Braxton has purchased a himself a new touring car, a Henry Ford.

There is a war in Mexico, of course there is a division of opinions, as to the justice of such destruction of life and property, but Huerta reminds us of an ill child when spoken to by his parents.

The school has closed and we surely heard some splendid addresses by its pertinent talent, but in the language of Patrick Henry, as for me the debate Sunday for the members of the Appalachian Society was the most spicy of all.

Mr. Lester Cox has purchased him a palace car, a Maxwell, if you please Mr. Cox is a politician who lives on the identical spot of Harringtons X Roads is a man of judgment and he says there is no better paint made than Kerriss and sold by J. R. Smith and Bro.

Mr. J. E. Cannon left Monday for Richmond to meet his wife who has undergone an operation, and after a few days slight seeing they will return home.

Miss Sady Cannon a student of Atlantic Christian College at Wilson arrived home Friday night.

Rev. Mr. Waggoner and family, of Indiana, has arrived and will do light house keeping at Mr. Smiths for the present. Mr. Waggoner preached his first sermon Sunday morning for his new pastorate and we have heard it very highly complimented.

Rev. Mr. E. H. Hart and family of Kingston spent last Sunday visiting the family of Mr. W. B. Alexander.

Mrs. Della Stocks of the Pork Swamp section spent a portion of last week visiting Mrs. C. L. Patrice and while here purchased a four burner oil stove at J. R. Smith and Bro., left plenty of money.

Things do not work as smooth on the graded school building as it did on the buildings of King Solomon's Temple, but this is a progressive age when mechanics use new methods, hence misunderstandings will occur. Labor has been suspended for the present on the building.

Mr. Harvey, cashier of the P. National Bank, Vanceboro, spent Monday night in town. He was accompanied by Mr. Howell, a merchant, came to see Mr. Grover McGlothin relative to building some tobacco warehouses in their town. These gentlemen are both good talkers and say their town is enjoying a phenomenal growth, many new substantial buildings have been erected and it is all largely due to the interest they take in education. They have splendid farm life school.

**THE TENNIS TOURNAMENT.**

The Tennis Tournament at E. C. T. S. so long looked forward to, has been played. The winners of the series of games are Misses Mary Weston and Julia Jordan, the all school team. To each of these champion tennis players has been awarded a tennis racket given by the Athletic League of the school.

A series of preliminary games was held in which a representative team from each class and a representative team from the school played. The two teams winning the greatest number of these contests were the all school team and the "P" class team. These entered the final contest.

The teams were as follows:

"P" Class team—Lucile O'Brien, Alexander; "C" Class team—Bessie Lee Alston, Bessie Doubl; "C" Class team—Clara Davis, Irene White; "F" Class team—Thelma Reynolds, Alma Ward; "A" Class team—Opelia O'Brien, Hattie B. Jones.

All the games were played with skill and sportsmanlike spirit.

by The J. I. Case Tobacco Transplanter.

Great saving in time and labor, increase in yield per acre. Set your plants when they don't wait for rain. Each plant watered at the roots, covered with dry earth—no baking. Every feature necessary for every purpose, desired. Come and see these machines before you buy, built right, works right, wears right, and prices right, "The Case" is best made.

Grimesland, N. C., Feb. 13, 1914.

Messrs. Hart & Hadley, Greenville, N. C., Gentlemen:

In regard to the J. I. Case Tobacco Transplanter will say; that I am well pleased with it. I couldn't ask for one to work any better and it was just as you represented it to be. It worked to perfection and I am satisfied it save me several hundred dollars.

I set my entire crop of seven acres with it and it was dry weather when I set it. I used six barrels of water first setting. I set some parts of per acre and got a perfect stand the rows all through my patch by hand.

Just to try it and I found that which I set with the Transplanter grew better the season through. I also set some for several of my neighbors and they say that their grew better than that they set by hand, and they are begging me to set theirs for them the coming season. I also have friends at a distance of fifteen miles from me who want me to set their crop for them.

I can't say too much for your machine and wouldn't be without one for Five Hundred Dollars and as to your services, I couldn't ask for better.

Yours truly,  
JESSE H. SMITH.

**ANOTHER FIRE ALARM WAS SOUNDED THIS MORNING.**

For the sixth time in the short period of three weeks the alarm of fire has been sent in from the plant of the Greenville Coopage and Veneer Company in the southern part of the city. The blaze this morning was the second since Saturday night, but fortunately no great damage has been done since the burning of one of the departments several weeks ago. The fire this morning started in the dry kiln and was caused by sparks from the smoke stack. By the time the department arrived the employees of the company had extinguished the blaze with the aid of small hose used for that purpose about the mill.

This afternoon about 2:30 o'clock southern part of the city near the Norfolk Southern "Y" and being beyond the extension of the water system the fire company was helpless except what was done with buckets and owing to the intense heat very little could be done in that way.

At 4:15, the time of going to press a colored churchman which the fire originated and four dwellings occupied by colored people had been totally destroyed. The only way in which the fire could be contained to a halt was by the use of dynamite. This was put into use and the flames were finally checked.

**Huerta Wires Mediation His Willingness To Reign**

His Representatives Stated They Had Been Instructed Thus From The Beginning

**DEADLOCK AT LAST BROKEN**

Plans Prepared For New Mexican Government and Rebels Attitude Awaited, What Will The Rebels Do Now?

NIAGARA FALLS, Ont., June 2.—President Huerta is preparing to resign. He today authorized his representatives to announce to the world that "neither mistake nor personal interest" would prevent his withdrawal, when once Mexico is "politically pacified" and the government succeeding his is so constituted that it can count on the support of public opinion in Mexico.

The Mexican delegates in their formal statement revealed that they had been instructed from the first to inform the mediators that "General Huerta's personality would not be an obstacle toward reaching a peaceful settlement. They also stated that the internal situation in Mexico was "necessary bound up with the international questions" and that this spirit had actuated them in coming to the mediation conference. Coincident with the announcement by the Mexican delegates of their position, the mediators tonight sent a note by mail to Rafael Zubarran Capmany representative of General Carranza in Washington replying to the communication brought here Friday by Juan P. Uruqui. The mediators in effect asked General Carranza if the Constitutionalists were willing to discuss internal as well as international affairs and if they were ready to declare an armistice with the Constitutionalists and to accept the "political pacification" to which the Huerta delegates referred in their statement might be speedily brought about.

Just before the statement was issued, the Mexican delegates had a long conference with the mediators. Afterwards they telegraphed General Huerta to send them the names of the men who will be satisfactory to him for places in the new provisional government which is to consist of two men chosen by Huerta, two by the Constitutionalists and a neutral provisional president selected by common agreement of all parties. The first four are to compose the cabinet but are to be morally obligated by the terms of any agreement reached here to share equally the responsibility of the administration which will be expected not only to conduct a general election, but to make a beginning on internal reforms.

It was just before the mediators the Mexican delegates and the American representatives entered the banquet given for them today by the Associated Canadian clubs that type-written copies of the position of General Huerta were given out. The American commissioner read it eagerly. The Mexican delegates expressed their gratification that they had been able to make the announcement on firm reports on the subject. The mediators made no comment on the effect of the statement on the attempt of the Constitutionalists toward mediation was the subject of intense interest on all sides.

Huelkerberries are ripening and there is promise of a large yield this season.

**PRARIE ARRIVES FROM VERA CRUZ WITH WOUND AND SICK SOLDIERS**

OLD POINT, Va., June 2.—The United States Cruiser, "Prairie" which took such a notable part in the capture of Vera Cruz dropped anchor in Hampton Roads about 6 o'clock this morning. She is expected to sail for New York tomorrow.

"The Prairie" brought Lieut. Col. William Lassiter, of Petersburg, just relieved from command of the Fourth Field Artillery, suffering from dysentery. Lieut. R. E. Anderson, of the same regiment, sick and naval Lieut. Lannon, who was shot through the lungs while ashore at Vera Cruz and sent on board his ship with the expectation that he would die.

The two military officers were taken ashore to the military hospital at Fort Moore, where they are resting as comfortably as could be expected.

**Wounded Sailors.**

The Prairie also brought twenty wounded and sick sailors, who were sent to the Naval Hospital by tug this morning and also 209 sailors whose time will soon expire.

It was the guns of the Prairie that first began to thunder when landing parties were fired on by the Mexican "Stoppers" in Vera Cruz. Her shod did great damage in the city and succeeded in driving the enemy.

A. P. Burgess, Boarding Officer, left the Customs House here at 1 o'clock this afternoon to board the Prairie and give opportunity to those aboard who have dutiable stuff to declare it in order that the duty may be paid upon that which they wish to land.

**Opening German.**

LITTLETON, N. C., June 3.—The formal opening German of the New Panama Hotel will be given Saturday evening, June 13.

No effort will be spared to make this occasion one of the most enjoyable of the entire season at Panama. Music will be furnished by Crocchia's Orchestra. The beautiful ball room, which has a floor of the finest hard wood, is one of the best in this section of the state. Buffet banquet will be served complimentary to the dancers. Dainty favors for each of the dancing ladies.

Panama has been long famed for its true Southern hospitality, and on this occasion a most cordial invitation and the assurance of a hearty welcome is given to all. A large attendance is expected from various German clubs and the dancers of Greenville are especially invited.

**SON OF NEW BERN ALDERMAN INDICTED BY GRAND JURY FOR MURDER**

NEW BERN, June 2.—A sensational case created here today when the grand jury at the present term of Craven county Superior court returned a true bill for murder against L. C. Saunders, son of Alderman S. S. H. Scott, and J. M. Saunders.

Several weeks ago, S. C. Balson, an employe of the Norfolk Southern railway company was killed on their local yards when a train in charge of Conductor J. M. Saunders showed a freight car against a car on which Balson was working.

The coroner held an inquest and from the evidence given at that time, the blame was placed on Saunders. He was carried before Magistrate Walter Fairford and after waiting an examination was held for court. It became known today that the University authorities intended to confer on him the degree of L. L. D., but as it is rare to honor a man thus when he is not present the degree may not be awarded tomorrow.

This situation became known when Captain S. A. Ashe, of Raleigh who is a clerk in Senator Simmons' office, left today for Chapel Hill to present Senator Simmons' regrets in person to the University officers. Captain Ashe was instructed to let the University people know that the Senator is deeply appreciative of the high honor to be bestowed on him and that only a national legislative crisis kept him here.

**Fighting for Wilson.**

The country understands that Senator Simmons is leading the Administration fight for repeal of the exemption clause in the Panama Canal act and for him to be absent at this critical stage Senator Simmons believes would be an evasion or a neglect of a grave responsibility. This situation will also keep him from attending the state convention Thursday.

Senator and Representative will attend the State Convention. Representative Fox left tonight for the Congressional and State Conventions in Raleigh, taking with him J. R. Collier, clerk of Mr. Post's committee and chairman of the Franklin County Democratic Executive Committee and T. H. Ward, of Nashville, Mr. Post's secretary. Several members of the delegation are already in the state.

Senator Overman called at the Postoffice Department today in an effort to dispose of the government all road contracts in North Carolina, but as Executive Assistant Blankenship in the city, he decided was rejected. Senator Overman received a long telegram from H. B. Varner of Lexington insisting that Davidson county receive the \$10,000 originally allotted to it.

S. W. Smith of Wilson was confirmed by the Senate this afternoon as postmaster thus ending a controversy of several weeks with disappointed candidates and their friends in an effort to keep Smith out of the job.

Mrs. W. B. Council, of Hickory is visiting her son, Howard B., at the Naval Academy Annapolis. Mrs. Council's Redfield has written a letter to Secretary McAdoo, made public today, commending the action of the keeper and six surmen at Cape Lookout life saving station in the salvage of the property of the light-house service when the Week Point light was destroyed in a storm early last month.

**BEFORE HIS IDENTITY WAS DISCOVERED HE HAD TAKEN QUARTERS AT HOTEL WHERE THE MARSHALLS STAY.**

WASHINGTON, June 2.—John R. Early, who in the last five years has made many unnoted journeys about the country in box cars and been held under quarantine in many cities while medical experts have disagreed on whether he is a leper, turned up in Washington again today and before his identity was discovered took quarters at a fashionable uptown hotel, the home of Vice President Marshall and other prominent in capital life.

Early was identified after he had telephoned to a newspaper asking for a reporter to interview "Mr. Westwood." The newspaper man at once recognized the noted patient and notified the authorities. They took Early to his old place of isolation on the city limits. The hotel was thrown into a state of commotion. Early recently escaped from the Diamond lunatic station near Port Townsend Wash.

**SEN. SIMMONS TOO BUSY TO ACCEPT HONOR**

University Would Confer L. L. D. On Him

**CANT LEAVE THE CAPITAL**

Senate Stage of the Panama Canal Bill Issue Made It Impossible for Him to Attend Commencement Exercises.

WASHINGTON, D. C., June 2.—The senate stage of the Panama Canal bill issue in the Senate has made it impossible for Senator Simmons to attend the commencement exercises at Chapel Hill tomorrow and his staying on the job here may mean for him the loss or postponement of a high honor in the state. It became known today that the University authorities intended to confer on him the degree of L. L. D., but as it is rare to honor a man thus when he is not present the degree may not be awarded tomorrow.

This situation became known when Captain S. A. Ashe, of Raleigh who is a clerk in Senator Simmons' office, left today for Chapel Hill to present Senator Simmons' regrets in person to the University officers. Captain Ashe was instructed to let the University people know that the Senator is deeply appreciative of the high honor to be bestowed on him and that only a national legislative crisis kept him here.

**Fighting for Wilson.**

The country understands that Senator Simmons is leading the Administration fight for repeal of the exemption clause in the Panama Canal act and for him to be absent at this critical stage Senator Simmons believes would be an evasion or a neglect of a grave responsibility. This situation will also keep him from attending the state convention Thursday.

Senator and Representative will attend the State Convention. Representative Fox left tonight for the Congressional and State Conventions in Raleigh, taking with him J. R. Collier, clerk of Mr. Post's committee and chairman of the Franklin County Democratic Executive Committee and T. H. Ward, of Nashville, Mr. Post's secretary. Several members of the delegation are already in the state.

Senator Overman called at the Postoffice Department today in an effort to dispose of the government all road contracts in North Carolina, but as Executive Assistant Blankenship in the city, he decided was rejected. Senator Overman received a long telegram from H. B. Varner of Lexington insisting that Davidson county receive the \$10,000 originally allotted to it.

S. W. Smith of Wilson was confirmed by the Senate this afternoon as postmaster thus ending a controversy of several weeks with disappointed candidates and their friends in an effort to keep Smith out of the job.

Mrs. W. B. Council, of Hickory is visiting her son, Howard B., at the Naval Academy Annapolis. Mrs. Council's Redfield has written a letter to Secretary McAdoo, made public today, commending the action of the keeper and six surmen at Cape Lookout life saving station in the salvage of the property of the light-house service when the Week Point light was destroyed in a storm early last month.
