### FIRST PROSECUTION MADE

**Undertaker Convicted and Fined for Breaking Vital Statistics Law.**  
ROXBORO, July 2.—The first prosecution and conviction under the new Vital Statistics Law was made here today. The Vital Statistics Department of the State Board of Health brought charges of violation of the new law against a local undertaker, Mr. C. C. Crichton, for burying bodies without a burial permit from the local registrar and for not furnishing death certificates properly filled out. The case was tried before Mayor Winstead and the undertaker was convicted and fined \$5 and costs.

In explanation the representative from the Board pointed out the vanity and importance of the new law. He explained that the State Board of Health was charged with its enforcement, and that if unenforced the results obtained would be misleading and worse than useless and the money appropriated for this work wasted. Thus far the Board has tried to deal leniently with the undertakers, midwives, physicians and others having to do with the enforcement of the new law, but it is believed that ample time has been allowed for every one to become acquainted with its provisions, and that hereafter vigorous action should be taken with offenders, particularly malicious offenders. In other words, there is a limit at which "patience ceases to be a virtue."

In the opinion of the Board that limit has been reached and if a number of other persons do not comply with the law other prosecutions will follow shortly.

## A Palace For Paupers Or Hospital For Helpers

Which Shall it Be, One Both or Neither, is What Dr. Laughinghouse Asks

### BOARD OF COMMISSIONERS

In an Address Before That Body at a Special Meeting Held Yesterday, in Which He cites a Better Plan for Caring for Pauper

The following is the address in part delivered yesterday by Dr. Chas. O'H. Laughinghouse to the Board of Commissioners of the County of Pitt County:

Your County Home at present so your home superintendent says, is caring for fifteen inmates. Three of these are white men two of whom, Zeno and Richard Campbell were practically born there forty years ago. They have been County charges ever since. The other is a paralytic from apoplexy, and is about 70 years of age. You have six white women, one of whom, Emily Campbell, was born in the institution, one Lucy Warren was admitted when twenty a bit of a child, one an epileptic who "lightly" belongs in the State Epileptic Asylum. Three of these women are feeble minded, one a Paralytic. Two are there because of age. This makes the fifteen, all are ignorant, a majority of these have spent so many years there that they will prefer remaining where they are. Moving them into the new home will appeal to the emotionalism of a few—who are guided by sentiment rather than by reason, but it will not add to the happiness of those whom you are trying to help. Be that as it may, you are about to construct a County Home. Before doing so lets see what it will cost.

Your County home last year cost you \$200 a month for its mainenance which is 6 per cent interest on \$60,000. Surely your new home, your \$40,000 plant, with its steam heat, electric lights, sewerage, hot and cold water, coal to burn instead of wood, with its laundry, its refrigerator, its post house, its work shop, its places for amusement and recreation, and its sun parlors, all of which, by the way will remain practically empty, will cost you in maintenance not less than \$600 a month or \$7,200 a year or the interest on \$28,000.

Your home as you have planned it will cost complete furnished and ready for occupancy not less than \$4,000. Let's sum it up. You are spending \$40,000 the interest on which is 2.400 a year, add to this \$7,200 a year for maintenance and you have \$47,200 add to this the \$2,500 a month or \$30,000 per year the amount that you are paying your superintendent of health; who does nothing but care for your Convicts and county home. He is doing nothing in the way of Preventive medicine, nothing to aid the development of your school children, and nothing to be spending thousands to educate, nothing to prevent ty-

phoid fever, malaria, hookworm disease nothing to teach midwives. His duty is to look after your county charges therefore, his salary should be charged to your County Home. The salary is \$750 per year. Add this to the \$50,000 already accounted for which you will have to pay annually to maintain your county home. If you would put in State institutions those of your paupers that rightfully belong there, you would not have over ten paupers to open up your new institution with. Ten paupers at the average age of 61 years—who can not read or write, some of whom are arid, half of the number are paralytic, and for their maintenance you are about to give consent to a plan the cost of which is \$10,450 a year, more than \$1,000 a year a piece it is worth something to be a pauper here in "Good old Pitt." Is it not? Well I would answer my question by saying no, for even though you will be spending \$10,450 a year, or more than \$1,000 a piece on your paupers, you are giving them nothing but new surroundings.

You have, when you open this place, a beautiful constructed blacksmith shop without a forge and a hammer. Why do I say this? I say it because you cannot get a superintendent who can give what your plant demands, without spending too much money to keep his job, unless your place is a hollow mockery. We will need trained nurses. You can't afford them. You will need many things you cannot afford. Your number of paupers is too small, as at the years go by you will find it growing smaller, Christianity, sociology, education, business intelligence in the management of public affairs, and putting brains before sentiment in the solution of public charity is charging the world. We have outgrown the old county home plan, just as surely as we have out grown the inefficient and old fashioned plan of keeping up the public roads. To have the things you are building for, will be as impracticable, and no more profitable than an electric car line running in passenger cars from Fictitious to Black Jack every fifteen minutes.

Let's reason this proposition out, let's tear it to pieces, let's study it part by part, and put it together again. You have had the sentimental side put up to you by those who with heart's bleeding with sympathy are anxious to do something for our paupers. I myself have the same desire you have the same desire, the public at large has the same desire, there is nobody who would put anything in the way of their betterment, the county is as impracticable as it is profitable that your present plan in order to bring about what you aspire to must be changed. In building your county home you are building for the future. I predict and with undeniable grounds that your county home will be closed in less than ten years. The world is changing, education, telegraph, telephone, machinery, labor saving schemes, business organization, public economics and community, and state cooperation makes this a different world from the world of your fathers and makes it as impracticable as it is profitable to come in Cadillac. I was taught at home by a private teacher, the best that could be had, children of farmers' tenants have better school facilities than I had.

Greenland today has better public schools than Raleigh had twenty years ago. What does it mean? It means that our people are growing in

# The Carolina Home and Farm and Eastern Reflector

Agriculture is the Most Useful, the Most Healthful, the Most Noble Employment of Man.—George Washington.

### GREENVILLE, N. C., FRIDAY AFTERNOON JULY 17, 1914.

Intelligence, it means that they have more time. The country man's mail comes to his door today and without expense to him. He can phone for what he wants and parcel post lays in his lap. Comm'g events cast their shadows before them, you will find by studying each individual in your county home that not one of them can read or write. Take your poor house list for the past fifty years and you will find that not one-tenth of one per cent of the 5 had any education whatever. The man or woman with seven railroads of a farm, with an education has not applied to your home for admittance in the past. If education has kept them out in the past, why won't it do it in the future? The law prohibits the sale of laudanum, cocaine and morphine. Public sentiment is so strong against it that no druggist or doctor with character will dare break this law. The observance of the law will eliminate your drug fiends. Prohibition has come to stay. Liquor is gradually getting further away. Even Virginia is going dry. The damage done by alcohol is being taught daily in all our schools. The child is learning it, for education is compulsory now, children of this day and generation know that positions of trust are not given to men who drink; they are taught the damage it does to body, mind, character, morals and souls, and this teaching is showing itself in a public sentiment that is discountenancing drunkenness. The alcoholic nature in your County Home will be vacant for education is going to greatly diminish this class. Syphilis, commonly known as Pox this disease that kills the manhood in a man, that drives his wife to homelessness that is a great horror to the student of charity, one disease that makes more paupers than any other six diseases, because it is contagious and puts prostitutes on the pauper list. This disease is curable now, as three or four injections of Eris's drug cures it and in so doing makes spare rooms in your county home. County Homes in past had to take care of foundling children and orphans, of the deaf and dumb, the blind, the feeble minded, the tuberculous, the epileptic, the insane, North Carolina has adopted facilities in the way of orphan asylums and reformatories to make it a crime to permit children being reared in a county home. She has asylums for the blind, deaf, dumb, epileptic, and feeble minded and insane. She has a sanatorium for the insane to care for the insane. She has a reformatory for the criminal. She has a reformatory for the criminal. She has a reformatory for the criminal.

operation systemized public service, modern methods, economy and common sense will drive us to it. She too has state institutions for the deaf, dumb, blind, epileptic feeble minded and insane that relieved her poor homes to such an extent that her last General Assembly made an effort to abolish the county almshouses, and create instead district almshouses, one for each congressional district. This idea is spreading through the whole South. It is planned that these district homes for the aged and infirm compare the two County Home, with a hospital and trained nurses for the sick, comforts, amusements and pleasures for the aged, intentional care and work shops for its whiskey and drug fiends, correct apartments and attendants for the idiots and feeble minded, a tuberculosis hospital, and a hospital for the insane. Let's compare the two County Home, every thing going out nothing coming in. A County hospital a good deal going out but a good deal coming in. County home caring for a few who are waiting to die. County hospital caring for many, giving life, comfort, and health. County home admitting only the pauper. County hospital admitting the pauper and those that care to, and maintain the pauper. County home says on its door, nothing but paupers admitted here. Abandon hope come in if you are a pauper, still, do nothing just hurry up and die. County hospital says come into me all ye that are sick, pauper as well as piteous. I will give you all that can be given to restore you to health. Gentlemen which will you give? will you give both?

Just indulge me a moment more for the expression of or more thought, can we spend this money for a county home and spend in addition money for a health officer for his whole time, a health officer who can inspect school children and put them in position to make men and women physically strong, a health officer who can teach sanitation in all the public schools, a health officer that will constantly scout that will go to make a country without paupers. If we can't have both, which had we best give up? I think of this gentleman, think of the children of the men and women who are paying for the care of the pauper. A successful farmer makes the statement that no cattle over 3 years of age can be profitably raised for less than \$80.00 because the time and food required to bring a calf to maturity is worth that much. No enterprising man can afford to have a cow that does not give more than that amount. Now you will agree that it takes more time and more costly surroundings are required to develop children than to develop cattle. It is conservative to say that the actual cost of raising an infant to adult age is \$14,000. You could not live it done for that amount. Add to this, one child's share in the public schools, and you have another thousand dollars making \$5,000 to raise an infant boy or girl to a grown man or woman. Would you train a crippled colt? No, but what if your colt was worth \$500 you would have his deformity corrected if possible. That is what medical inspection of school children means. There is an adage that "there are those who give and strive and do without and those who get and spend." If you can't care for both of them, don't neglect the children. Don't strive and neglect the hope of the future in order to lull and coddle the hopelessness and shiftness and failures of the past. Neglect of the children in the public schools is the most serious of all the ills that are afflicting our homes today.

One more thought please indulge me and I am done. Of the 40,000 people in your county there is never a minute but that some one is writhing in pain, wrestling with the pangs and ravages of disease. There is never a week but that some death takes place that could be avoided by proper medical and surgical treatment. There is enough money spent in railroad fares

## PARTY ANXIOUS TO PURCHASE THE LAND FROM COUNTY HOSPITAL SITE IS OFFERED

Greenville Citizens Express a Willingness to Donate the Ground for County Home and Hospital Combine. Much Comment

It was learned today that in the event that the County Commissioners changed their plans as to building the new County Home on the site recently purchased for that purpose, that there was a ready buyer that was willing to take the property off their hands at the figures they paid for it, which no doubt would be quite an inducement to the Commissioners at this particular time.

It was furthermore rumored that the party that bought the old County Home site when it was offered for sale at public auction some months ago agrees to turn over to the County at same figures it was sold for when it purchased same.

On top of all this, should the County Commissioners abolish the idea of the new County Home and instead a county home and hospital combined, Greenville citizens have offered to give the site of the new County Home at such as submitted to the Commissioners in the recent past.

Such is news that very probably will be well received by many of the citizens of the county as it seems a majority are in favor of abolishing the idea of the building of the new County Home at such as submitted to the Commissioners in the recent past.

## NEGRO TRIES TO ESCAPE FOR SECOND TIME

Squire Graffaree Makes Two Attempts in Ten Days HAD BROKEN CELL LOCK

Negro Carries a Bad Reputation and is Being Held for the Burglary of Several Places Near Grimes- and Elsewhere.

Squire Graffaree, the negro that has for some time carried a bad reputation through this section of Eastern Carolina, and who is now confined in the county jail, seems determined to keep his word as to remaining in the local institution for criminals. Several weeks ago it will be remembered Graffaree made his escape from the jail but later was arrested in Suffolk, Va., and brought back here and once more placed behind the bars. At that time the negro remarked that the officers would not be able to keep him within the prison walls and last week Sheriff Dudley discovered that the cell door in which Graffaree was confined had been forced open. He was taken out and placed in another thought to be more secure, and this morning a gentleman living probably a hundred yards from the jail informed the sheriff that he was awakened last night by a noise that sounded like some one was tearing down the jail building, and upon investigation the sheriff discovered that Graffaree had succeeded almost in making his escape for the second time.

time. Further investigation revealed that he had placed a small block of wood against the combination lock of the cell door that prevented its closing all the way, though it could not have been detected by one when closing and locking the door. He had jerked the door backward and forward with such force that a combination on the runners above the door had been sprung, and he had been able to open the door about four or five inches, and it was at this position when discovered by Sheriff William Pitt, a negro trustee, that has been allowed to work around the courthouse since he was sentenced to the jail for a period of several months, is thought to be instigated in Graffaree's last attempt to make his escape, as several bolts that could not have been taken off except from the outside had been removed, and Pitt being the only one that could be guilty of this act was again locked up.

Graffaree hails from Letour county near Kinston, and is charged with the burglary of several places in and around Grimesland. Since his arrest the first time he has cost Pitt County in the neighborhood of one hundred dollars, making repairs to the jail.

With all his threats that he will not stay in jail, Sheriff Dudley stated this morning that he was going to put down the jail building and mean for the keeping of the desperado until the next term of criminal court disposes of him.

**In Which Office She Served Until Two Years Ago When Mrs. M. H. Quinley Succeeded Her, Great Work Being Done**

On December 1, 1899 was organized the first club in Greenville, by Mrs. P. R. Cotten and Mrs. Harry Skinner. This was named the End of the Century Book Club, composed of twenty members and its avowed object as set forth in the by-laws was "social and mental culture." However, under such a leader as Mrs. Cotten it is needless to add that this did not long remain its sole object. Charity work, and establishing a public library for the town soon engaged the activities of the club members. This library the club maintained with some slight assistance from the citizens for ten years when it was burned. We immediately started another and with the cooperation of two other clubs of the town—the Round Table and the Sans Souci—we are maintaining a nice little library.

With the cooperation of these same two clubs we have established a Loan Fund at the E. C. T. T. S. for the purpose of keeping a girl there continuously. We have added in keeping a girl at the State Normal College, also have been instrumental in getting a guard at two dangerous street railway crossings in the town, a censor appointed to examine the pictures shown by the moving picture shows, and various other things. Whenever there has seemed to be a call for our help we have responded. Mrs. Cotten was our beloved president continuously with the exception of two years, until she was made President of the N. C. Federation, when we made her honorary president for life. She has striven nobly to make the End of the Century Club stand for progress and uplift in this community and has been at the head of every good movement.

Our program for study next year is on the subject of law, civics, health and child-welfare. We feel that this club has justified its existence outside of the pleasure and profit each member individually has sustained, and we hope to go on to a broader and more useful life in the future.

Mrs. M. H. Quinley has been president of the club for two years. She is an active and capable leader and the club is doing good work under her leadership. It has been her good fortune to labor for several years in the same club and to enjoy the int-

imate companionship of that veteran organizer Mrs. Cotten. Trained in such a school her own strong personality and native ability have developed a capacity for leadership not shared by every loyal club woman who works successfully in the ranks.

As state chairman of Health Mrs. Quinley will bring to the office the energy and enthusiasm essential to success in any undertaking, and certainly there is no wider or better field for the exercise of her talents than in aiding the various agencies at work in the state to conserve the health and lives of its citizens.

**Adyen Items.**  
Miss Bertha Hall who has been visiting her sisters at Coneto, and at Lucama, returned Thursday.

The Sunday School of the Christian Church had their annual picnic last Wednesday, on the banks of Contentnea Creek near Ridge Spring. The small ones as well as the large ones enjoyed the water, wading and swimming. Plenty of dinner and a good time in general. We all thank the pastor and his wife, for leading the way.

If you have any thing lost, strayed or stolen, if you want to either buy or sell or exchange, let us write you up in the Daily Reflector.

The colored Masonic Lodge, Queen of the South, has remodelled their hall since it was wrecked last summer in the storm, and will have a re-dedication soon.

R. U. Hungry? If so try a barrel of Merry Widow, or Lady Lee ready mixed Flour at J. R. Smith & Bro.

Work is progressing on the sheds to the Tobacco warehouses, and they are being painted which gives the tobacco a much better appearance.

We are glad to see Master Jess McGilohon out again and he seems to be well and strong. About two years ago he sustained an injury to his spine in a runaway, from which it was not thought he could recover.

We are sorry to learn of the sickness of Mr. Marcel Beddard, of Littlefield. Plenty of Rubber and metal roofing at J. R. Smith & Bro. Messrs. J. C. Jones, and Harrell McKenny made a trip around the great lakes, in Hyde county this week and report fine crops of corn, in all the lower counties. Just received another shipment of Ice Cream Freezers, all sizes, at J. R. Smith & Bro.

Laws Governing Same as Passed at the Last Regular Session of the Legislature

**GOOD PRIMARY REGULATION**

This Bill was Substituted in the Senate by Senator Evans for the One Introduced by Representative D. M. Clark.

I hand you herewith copy of the Pitt County Legalized Primary Law passed at the last regular session of the Legislature.

I have received many inquiries as to whether or not we now have a Legalized Primary for the county and deem the most effective way to furnish the people with the desired information is to have you publish the bill. This bill is the one that was substituted in the Senate by Senator Evans for the one which I introduced in the House, and which was published in the Reflector at the time. The law as it was passed is not all that might be desired in the way of a Legalized Primary, but it answers the purposes and is in fact a very good primary regulation.

The amendment attached was passed at the Extra session at the instance of Senator Evans.

Respectfully,  
D. M. CLARK,  
An Act to Legalize Primary Elections in Pitt County. The General Assembly of North Carolina Do Enact:
