Belgian Army Supported By Allies Resisting The Strong German Advance

Every Available Man Pressed Into Service--Railways Overworked Carrying Troops and Wounded for Germans

BRITISH SUBMARINE SUNK

Operations in the East Continue--Przemysl is Reported to be Practically in the Hands of the Russians--Much Fighting

London, Oct. 21.—Fighting of the most desperate character is in progress in West Flanders and North-western France. The Belgians army, supported by the allies, is holding stubbornly to the line of the river Yser, and thus far has halted determined efforts of the Germans to advance along the coast.

Further to the South, the allies are attempting to advance toward Lille for the relief of that city, which has been in German hands for some time. They also are pushing on to the North and South of Arras. Their efforts yesterday to advance on Lille, where the Germans hold strong positions were repulsed, according to the German report.

To the South, at the bend of the line the Germans continue furious but futile attempts to break the French line. Along the Meuse in the East Germans have failed to repulse the French who debouched along the territory in which is situated the Camp Des Romaines, now in the hands of the Germans, in an attempt to cut out that portion of the German army which is thrust towards St. Mihiel.

Generally speaking the French claim to have made progress at various points along the front. Paris reports that the allies have destroyed fifteen German siege guns, near La-bassee and a battery of German heavy artillery in the environs of St. Mihiel.

Supreme Struggle in West

Both sides are bringing reinforcements to the West front, where a supreme struggle is on. The Germans are not bringing new troops from the East but are throwing every available man in Belgium into the firing line. They seem to have the railroads working well, although they must have been seriously damaged during the battles of August and September. Troops are being transported over them and Dutch sources report that train after train of wounded is being taken back to Germany.

In the fighting in this open country where the men have not the protection of elaborate entrenchments the losses must be heavy, especially where

endeavors are made to carry positions by assault.

German and Russian reports agree that the situation in the East has not changed, although the armies are in close touch along the East Prussian frontier and across Poland and Galicia. In Galicia, however, the Austrians claim to have repulsed Russian attacks and to be making progress in their campaign to drive out the invaders.

Russians Destroy Forts.

The Russians, on the other hand say they are taking large numbers of prisoners. Heavy fighting is going on around Przemysl and the capture of the forts surrounding the town says an Italian correspondent have been destroyed by the big Russian siege guns while the forts have been mined and dismantled and the magazines blown up. The town itself, however, has not been damaged.

PROSPECT OF PEACE

IN MEXICO DIM

Washington, Oct. 20.—Recent developments, it became known tonight have shaken the belief of officials here that the contest between Carranza and Villa for control of the political situation in Mexico was about to be adjusted.

Reports that Villa had moved a large force into the vicinity of Aguas Calientes and had attempted to coerce peace conference delegates, were doubted but a more serious view was taken of discharges announcing that Carranza had repudiated the claim of the convention to sovereign power in Mexico.

There was no official confirmation of this or of reports that the first chief had declared he would deliver the executive power only to a man elected by the people; but officials admit they did not regard it as unlikely that interruption of the work of the Aguas Calientes convention was due to such a cause. Some interpreted the adjournment, ostensibly to await the arrival of Zapata representatives, as really to allow some of the delegates to confer with Carranza and determine what the course of action should be.

DEPOT IS BURNED

AT WILLIAMSTON

Fire yesterday morning destroyed the Atlantic Coast Line depot at Williamston. It is learned that the baggage room was well filled with valuables among them being sample trunks of a hardware salesman valued at a very high price. No particulars have been learned of the fire, as to how it started, nor the exact amount of the damage, though it is understood that the building with its contents is a total loss.

TARHEEL LAWYERS CHOOSE OFFICERS.

Washington, D. C., Oct. 20.—The North Carolina delegation of lawyers who are attending the meeting of the American Bar Association, today re-elected their representatives in the national body. W. P. Bynum was re-elected as a member of the general council and Col. Harry Skinner was re-elected as vice-president for the State. The members of the local council were also elected.

Visitors today included Hon. K. L. Ascher, Oxford; E. E. Raper, Lexington; Thomas S. Rollins, Asheville; General Julian S. Carr, Durham; M. F. H. Gouverneur, Wilmington, and Colonel John F. Bruton, Wilson. The last two are directors of the Federal reserve bank for the sixth district and were here at a meeting of reserve bank officials.

The following North Carolina postmasters were nominated today: Julius Bridger, Windsor; Thomas C. Frisbee, Hot Springs, and Millard F. Hales, Wendell.

PRESIDENT DELIVERS ADDRESS TO LAWYERS

Washington, D. C., Oct. 20.—Improvement of the law from within to stem the present tide of popular criticism, was the keynote of the first day's session of the American Bar Association here.

President Wilson, in his address of welcome, pleaded for the humanizing of the law by incorporation of more justice and less citations in legal cases. Former President Taft, speaking to the judges of the country, gathered for the first time in the history of the country in formal meeting, emphasized the necessity of removing delays in litigation. Associate Justice McReynolds, of the Supreme Court, urged the judges to give more attention to public opinion.

At tonight's session of the Bar Association, Senators Elihu Root in speaking of the "Laymen's criticism of the lawyer," suggested lawyers should apply the rules of evidence with more regard to common sense, and might well avail themselves of experts assistance.

The day's program was concluded tonight with a reception in the Pan-American building at which Chief Justice White and Associate Justices of the Supreme Court were hosts. Reports of committees and a pilgrimage to Mount Vernon will feature tomorrow's program.

Large Tobacco Break.

A large amount of tobacco is here today, several of the warehouses having all they can handle. Sales will be blocked as it will require a great part of the day to dispose of the tobacco that was not sold Monday. Indications are that the sales for this week will be up to the usual number of pounds.

Atchison Produce Show

Atchison, Kansas, Oct. 21.—The big produce show of the Commercial Club of Atchison opened this morning, and a big gathering of producers arrived early. The exceptional crop yield of this section was a common cause of rejoicing, and prosperity was reflected not only in the profusion of excellent exhibits, but in the enthusiasm of the visitors at the fair.

First Electric Light Made Thirty-Five Years Ago Today By Thomas Edison

The following article has been handed us for publication by Mr. A. L. Bolen who is in charge of the electrical department of E. H. Evans, general contractor.

We are nearing the thirty-fifth birthday of the electric (incandescent) light invented and perfected by an American born electrician, who is known the world over as the most scientific electrician yet produced. Thomas A. Edison. This first light was produced by Edison on the 21st day of October 1879. On that day he made and burned his first electric light which consisted of a glass ball containing a carbonized cotton thread in a vacuum, a very crude affair we must admit, but the basis on which he worked to perfect his plans and make it a commercial success. In his further experiments he used first platinum wire as a filament which increased the candlepower but was too expensive, later he used a strip of lambs pith which had been submerged in carbon with splendid results. It has taken months and years of hard work to bring the electric light to its present perfection which is shown in his tungsten Mazda and nitrogen filled lamps. Think of it, thirty-five years ago it was candle and oil lamps, if we could get them. If we in our beautiful city of Greenville were to be cut off from our electricity one night our churches, theatres, clubs, homes and our well lighted streets would be in darkness, and we could then appreciate the competency of the electrical engineer who maintains our lighting service.

Just after the Columbian World's Exposition at Chicago at the National Electrical convention I heard Mr. Edison speak, he had been congratulated on being such a smart man in consideration of his electrical developments and he made this remark, "It does not require a smart man to be an inventor as invention is but discovery but it requires study and time to perfect." Prof. Steinmetz, the General Electric Company's most relied upon consulting electrical engineer says "In Mr. Edison we have a man who is not all theory but practical." Look what our Mr. Edison has done for us out side of the electric light, he has perfected the dynamo which makes electricity for light and power, he has perfected the duplex telegraph system so that four messages can be sent over the same set of wires at the same time without interfering.

He has perfected the modern moving picture machine, also the phonograph and storage battery. You see there is nothing impossible as long as we do not try to go beyond the laws of nature.

The Society of Electrical Development is making an appeal to all citizens of our nation to make a demonstration of their appreciation to our grand old man, Thomas A. Edison. Let our city of Greenville respond, if you have a factory or plant let your whistle sound continuously from 12 noon to 12:05, ring your bells and blow your auto horn and let everybody boast Edison day.

CAPT. ROBERT E. LEE III. Richmond, Va., Oct. 19.—Capt. Robert E. Lee, son of Gen. Robert E. Lee, the Confederate commander, is seriously ill at his home "Romancoke," King William county, according to word received here by relative today. Capt. Lee entered the Confederate army as a private in the artillery and fought in numerous battles.

On Sunday evening a beautiful "Inductive Service" was held at the Training School when the new members of the Y. W. C. A. were brought into full membership with the association. The new membership amounted to ninety-seven, which is the largest number the association has taken in at one time during its history. It formed an attractive picture when the old members, dressed in white, marched in and formed an aisle, through which the new members passed to the front seats.

The chief feature of the service was a talk by Mr. Wilson, who represented the Faculty Advisory Board. His subject was "Beginnings" in developing the importance of beginning life aright he commended those who have begun their school life in a new environment by joining an organization. He said they had taken upon themselves an obligation and a responsibility; the success of the association depends upon every individual to perform for every other one. But he also said that it was a privilege as well as a responsibility to be able to touch the better side of life and to help in the foundation of moral character. He closed by congratulating the students on their choice and expressing the wish that they make this year the test year of the Y. W. C. A. The special music, which was given by a picked choir, was excellent.

On Friday evening, at the regular prayer meeting hour, there was a preliminary service when the president formally recognized the new members.

BAR ASSOCIATION

Meets at Washington to Discuss Important Question.

Washington, D. C., Oct. 20.—The annual meeting of the American Bar Association which opens here today was preceded by sessions of subsidiary organization attracted to Washington by the convening of the parent body.

Robt. M. Hughes of Virginia, addressed the section of legal education on "The Historical Evolution of the Board of Law Examiners." I. Maurice Wormser of New York, read a paper on "Bar Examinations" that said too many definitional and informational questions were asked. President Charles A. Boston, of New York, commenting on this paper told of a test of the value of informational questions applied to a gathering of the most successful members of the association. Only one or two were certain how Lowell spelled "Bigelow" in writing the "Bigelow papers" he said, and not one could tell the name of the Republican candidate for Vice-President in 1912.

Solicitor Joseph W. Folk, of the Interstate Commerce Commission addressed the association of attorneys general. He emphasized the weakness of the States in enforcing laws and their turning to the Federal government for relief, as shown in the white slave and in the pure food law.

The program of the association on "Military Law" was cut short by the decision of several army officers not to read papers in view of President Wilson's recent orders against comment on the European war.

Lost Trunk in Fire.

A. B. Witham of the Atlantic Coast Realty Company had the misfortune to lose a trunk in the fire that destroyed the Williamston Railway station last Monday night.

ALSTON GRIMES DIES IN HOSPITAL AT WASHINGTON

Was Prominent and Well Known
Citizen of Pitt County, Brother
of Secretary Grimes

SURVIVED BY YOUNG WIFE

The Oldest Son of The Late General
Bryan Grimes and Was Engaged
in Farming at Grimesland—
Funeral in Washington

Colonel Alston Grimes, one of this county's most influential and prominent citizens, died yesterday in the hospital at Washington. He was the oldest son of the late General Bryan Grimes and is a brother of J. Bryan Grimes, Secretary of State. In his death the county has lost one of its most valued sons and his many friends will learn with sorrow of his death. He was a most successful business man, a generous farmer, a kind neighbor and a worthy son of his aged mother. He was distinctly a man of his word, his promise was as good as his bond and in all of his dealings with his fellow men he commanded their respect and confidence. He lived at the old home,stead of his father with his mother, Mrs. Charlotte Bryan Grimes, who still survives him. He was married on June 20th of this year to Miss Anna B. Lawrence, of Ayden, who after only four months of married life is bereaved of a faithful and devoted husband.

Mr. Grimes was a member of one of the oldest and best known families of this part of the State. They have held positions of trust and responsibility and have always been ready to aid any worthy cause for the upbuilding of the county.

Of his brothers and sisters who survive him are Mrs. Alfred Williams, of Raleigh; Mrs. Frank Hackett, of North Wilkesboro; Mrs. W. C. Rodman, of Washington; Mrs. S. F. Mordecai, of Durham, and Miss Susie Grimes, of Grimesland, and Messrs. J. D. Junius, and Will Dennis, of Raleigh.

To the bereaved family and relatives we extend our deepest expressions of sympathy in this their hour of sorrow. The funeral was held from St. Peter's Episcopal church at Washington at 11:30 o'clock this morning, conducted by the pastor, Rev. Nathaniel Harding, and the interment was at Grimesland.

Mr. Grimes was prominently identified with the secret and fraternal orders of this county and took a leading part in their exercises. He was a member of the Greenville Chapter Royal Arch Masons.

Montreal Aids Unemployed.

Montreal, Oct. 21.—Arrangements have been completed to put to work next week 25,000 men who are out of work in this city. The city government has offered to hire these men for six weeks, and use them on the public works. The board of control is busy mapping out the work, and all sections of the city will be touched up during the campaign. In addition to the boom of employment which the workers sought, it was decided to raise the pay from \$2.25 per day to \$2.50 per day, despite many protests on account of the stringency of war times.

FRIDAY, OCTOBER 23, 1914.

CALAMITY HOWLERS.

There is one way by which many people are making things much worse than they are and that is by continually talking hard times. The object of some people seems to be to make things appear as badly as possible. They are not encouraged by anything that should have a tendency to brighten the outlook but are always looking on the dark side of things. When a plan is suggested to help the situation instead of looking for its good qualities they at once begin to pick flaws. These people ought to stop such actions and feel thankful they are getting along so well, they ought to compare their condition with the conditions of those people who are really having hard times. Take for instance those Belgian people who have lost everything they possessed and have fled the country, if any body has room to complain they are the ones to do so, but we do not hear anything about complaining over there; perhaps some is done but we venture to say that an ordinary calamity howler in this country could take all prizes in a competition. It has become natural for some people, if they receive a present they at once see some fault or defect in it, they are never satisfied. To such people no sympathy should be extended, they do not deserve any but to the fellow who always looking on the bright side, we all the help and encouragement possible.

WAR MYTHS.

There has been circulated since the war started a number of stories that have been received as true by a great number of people without a thought as to their improbability. One of the first of these stories was the report that Russian troops had been transported from Archangel by way of England to France. This story was repeatedly confirmed by tourists who had seen them, but never by officials who were in a position to know. That this was a mere story has long ago been shown and is further stamped as untrue by the absence of any mention of them now that the part of the battlefield in which they are supposed to be fighting is in the twilight. Then

we have the story about the wonderful new three-inch French shells which are filled with a deadly gas that kills and even petrifies every thing within its range. This has been made the basis of several very good stories, one of which pictures a group of soldiers at a card game petrified by a shell. They are in their respective positions at the card game with cigarettes between their lips, very natural and life like. Men in positions to know tell us there is no gas that has such effect and brand this as a sheer falsehood. Then there is the report that the Kaiser has offered a large sum to the aeronaut who first drops a bomb on London which will be believed by many. The last of these stories related how an Italian has invented a pocket wireless receiving set that is being used to intercept messages and later on probably another will invent a sending outfit that can be carried in the other pocket.

NOT BANKING MONEY.

Since the tobacco market has opened this fall the farmers have been getting cash for their checks and taking it home with them instead of banking it. That this is a dangerous practice is shown by the recent robbery which have taken place near here. The negro who did this robbing probably saw that these men did not deposit their money and took advantage of his knowledge to get the money. Many farmers leave here after a good sale of tobacco with several hundred dollars in their pockets and must make a long trip, very often at night before reaching their home. The reason cash is more acceptable to the farmer is probably because he is afraid of the banks in this period of depression and prefers to have it with him to be safe as he supposes. Of the two dangers depositing the money in the bank is the lesser and it is the one shunned by the farmer. The banks in Greenville are strong and in good condition, governed by conservative men and no man need be afraid to deposit his hard earned cash with them. When a man is robbed even though the robber is caught, he seldom gets his money back but if a bank fails the depositors are nearly always paid in full, if not paid they have a much better chance of recovering it. Deposit your money in the bank where it will earn something for you and be safe at the same time.

Wall Street is flooded with inquiries regarding the resumption of the stock exchange and stock quotations. It is said that the members have already begun to deal with each other under certain rules but that no quotations would be made until the stock market opens. If some one had predicted that the exchange would stop for two and one-half months it would not have been thought possible but it has happened and the country has not been seriously affected and in many cases the quotations have not even been missed.

If you can't say anything good about your town don't say anything bad.

LET THE MONEY CIRCULATE

Sifted down to its essence, there can be found no reasonable excuse so far as Pitt county is concerned for the present financial condition. The people themselves are contributing to making the condition worse, and unless they change serious results may follow. While the cotton crop of Pitt county is considerable, it is not the dependence of the farmers. The tobacco crop of the county is larger and worth more than the cotton crop. It is true, every farmer does not raise tobacco, but enough of them do raise it to bring sufficient money into the county to safeguard a financial panic if the money were allowed to get into circulation. For the last few weeks tobacco sales have been enormous at good prices, and thousands upon thousands of dollars have been paid to the farmers.

Now the question arises, what are the farmers doing with this money. So far as can be learned they are not paying their debts to any appreciable extent, and but few of them are making bank deposits. Then the conclusion is they are taking the money home and hiding it, thus not only shutting it off from legitimate circulation but also subjecting themselves to the danger of losing it through loss or robbery. The banks do what they can to relieve the situation, but they cannot loan money beyond their own resources where it is needed unless those who have money deposit it. Are the people afraid of the banks? If so their fear is groundless. There are three banks in Greenville and nine in other towns throughout the county, making a total of twelve banks in Pitt county. All of these banks are sound and in good condition. If a man is afraid to trust all his money in a single one of the banks—though there is no need of being afraid—he could divide his deposits among as many banks as desired.

But first of all, the man who gets money from the sale of tobacco or any other crops should apply it to paying what he owes, then put any surplus in the bank where it can both be protected and do some good by getting in circulation. The other fellow—the man who loaned you money or advanced you goods in the spring and summer when you had no crop to sell—is entitled to his pay so he may in turn meet his obligations to others. This is the first and best way to ward off a financial panic and help tide over a period of business depression.

This way of getting frightened because there is war in Europe, and shutting off business by hoarding money and not paying obligations, is only making a bad matter worse. The people should have confidence in themselves and in each other, and if every man will do his duty there is enough money in Pitt county to keep business going.

Boston must have received a few psychological suggestions from Prof. Munsterberg for use on the diamond.

General disarmament would make Europe's treaties more adhesive, and more valuable to mankind.

EVERYTHING IN HARDWARE

PHONE 32 GREENVILLE NORTH CAROLINA

Evidently Germany would have little difficulty in overcoming its enemies could it induce all of them to shut themselves up in fortresses. Southern railroads are coming more and more to be controlled by Southern men. The Southern is the latest addition to the list as the last directors are southern men and this makes Southerners in the majority. The Seaboard is controlled by Southern men and the Atlantic Coast Line is strictly a Southern corporation.

The new express rates are now in force and show marked reductions on many articles of shipment. The new rates are experimental and will last for two years and then if the express companies are not losing money it will be put in force permanently. We are glad to hear it and have no fear but that the express companies will come out all right, they made enough before the investigation to make up for any losses that may occur now. We are glad to see the success of the parcel post and as it widens its scope and increases its facilities it will cheapen shipping still more.

It is probably true that Satan never takes a vacation, but there's no good reason why he should be always working overtime.

A great deal of discussion is just now going on in the press about the teachings of a physical geography now being used in the public schools. The geography teaches that man is descended from a monkey, or in other words, evolution. Almost without exception the sentiment expressed is in favor of the exclusion of anything that contradicts or casts discredit upon the biblical origin of man. We are also of this opinion and would like to see the book in question discarded. Too much care cannot be exercised in the selection of books in this day and time for many books are written with the purpose of destroying doctrines that we have been taught and believe in.

Those who have become of voting age since the registration books closed now have an opportunity to register. There are also others entitled to register. Better attend to the matter at once it will be too late before long.

With the shipment of glass eyes and materials for their manufacture stopped it is going to be hard to secure a supply and it is said they last only about a year or more.

A South Carolina mill has received a six-month order for blankets from a European nation and is already planning to double its force in order to increase their output.

The Federal census shows that North Carolina farmers move often, the tenant class often staying only one year on a farm. Perhaps that's why they remain tenants.

Attend the Democratic speakings throughout the county and hear the issues of the campaign discussed.

Funeral of Mr. Hearne
The funeral services over the remains of Mr. B. H. Hearne, whose death occurred at an early hour Tuesday morning in Richmond, was held yesterday afternoon at the home of his son-in-law, Mr. J. L. Starkey and the interment made in Cherry Hill cemetery.

The high esteem in which this good man was held was truly manifested by the large number of sorrowing friends in attendance and the beautiful floral offering that more than covered the casket.

UNIVERSITY DRAMATICS.

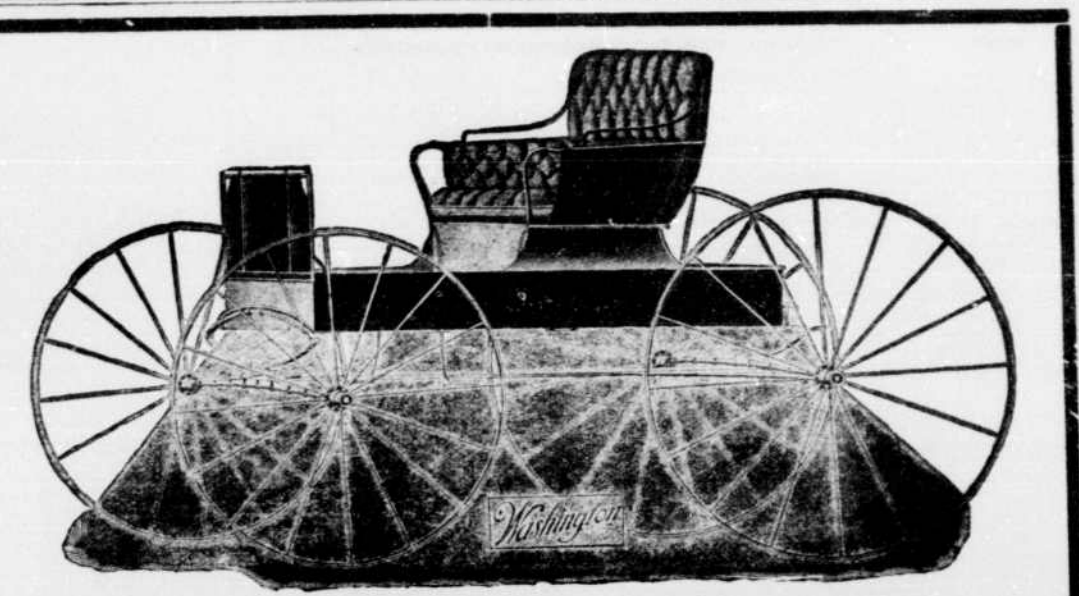

Schedule of Dates of Dramatic Club
Includes Greenville.
Chapel Hill, Oct. 19.—The University Dramatic Club has chosen a drama from Bernard Shaw as the play which they will stage this season. "Arms and the Man," is the title subject, and the story is laid in the Balkans. The scenes are tinged around the action of two of the states in warfare. The adventures which two rival oficers encounter in their courtship to win the hand of a pretty girl furnish the main action. Shaw's wit and satire put a plenty of ginger and snap in the action of the play. As customary, the Dramatic Club anticipates two trips in the State for the presentation of the play in the western and eastern sections of the State. The western trip is proposed for the month of December, and the towns that will probably be included are: Greensboro, Winston-Salem, Salisbury, Charlotte, Spartanburg and Asheville. The eastern trip comes in February. Raleigh, Greenville, and New Bern are the points favored by the Club for visitation.

The completion of the University filter plant establishes a further safeguard against the contraction of typhoid fever by the students. The water heretofore used by the college plant has not been considered altogether as pure as the filter plant will insure. The filter plant has been in the course of the construction for over a year, and its completion renders it of far greater convenience for furnishing the student's room with a supply of water. Too, the plant opens the way and extends the invitation for the establishment of an ice plant and a laundry—two industries the unfiltered water made well-nigh impossible.

War Tax Passes Senate With Majority of Democrats Behind the Bill

Washington, D. C., Oct. 18.—The administration war revenue bill, levying approximately \$100,000,000 additional taxes to meet the emergency caused by the war in Europe, was passed by the Senate last night 34 to 22 after Southern Democrats in coalition with Republicans of the Senate fought to indefinitely postpone consideration of the measure because cotton relief legislation had been decisively defeated.

Democratic leaders, by a supreme effort in the climax of the cotton fight, gathered their forces, and, spurring them on with eloquent appeals for party solidarity, defeated 35 to 25 the coalition in its move to indefinitely postpone action. Senators Clarke, of Arkansas, Smith, of Georgia, Smith, of South Carolina, Vardaman and White were the Democratic senators who fought most strenuously to postpone action. The bill would have killed the bill for the present session of Congress.

Despite urgent pleas of Senators Williams, Stone, Shively and James who demanded until Democratic support for Democratic measures fostered by the administration, these five Southern Senators under a storm of oratorical denunciation, persisted to the last in their determination that the bill should contain some cotton relief provision.

The coalition contest that marked the passage of the bill foreshadowed the end of the long drawn out session of Congress, which has kept flags flying over the Capitol almost continuously for the past two years. The tax bill will go to the House on Monday and will be sent to conference. An agreement on the measure between the two Houses probably will be reached by the middle of next week.

The vote on the revenue bill lowered party lines with one exception, Senator Lane, of Oregon, Democrat, voting against it. Immediately after its passage, the Senator, on motion of Senator Simmons, insisted upon its amendment, and asked a conference with the House.

This bill includes a tax on beer, certain kinds of whiskey and wines; a tax on banks, brokers and commission merchants; on theatres, museums, and concert halls; on amusements, and other amusements enterprises. Tobacco is also taxed, both leaf and manufactured. The stamp tax applies to perfumery, cosmetics and similar articles. Bonds and various legal papers are required to have a stamp attached. Newspapers are taxed according to their circulation. In the main the bill is as it was first proposed. There was an effort to place a provision in it to aid the cotton situation but this was defeated.

News of Mr. Tompkins's death was received in Charlotte with sorrow. Since 1882 he had been one of the best known men in North Carolina, was one of the most remarkable men of the South. He was a man of strong intellectual, executive, inventive ability, forceful in thought, decisive in action and fearless of convictions.

Mr. Tompkins was born October 12, 1852, near Edgfield, S. C., a son of DeWitt Clinton Tompkins, of Edgfield. He showed aptitude as a child for mechanics and construction and graduated at the South Carolina college of Columbia and then became a student at Reusselshier Polytechnic Institute of Troy, N. J., where he graduated as an engineer in 1873.

Mr. Tompkins was a recognized leader of the industrial and economic life of the new South. He was president of the D. A. Tompkins company president of the Atherton mills, president of the High Shoals Cotton mill, and Edgfield Manufacturing company. He was a member of the Engineers' club of New York and one of the founders of the Charlotte sanatorium.

In 1892 he and Joseph P. Caldwell bought out the morning paper at Charlotte called the Chronicle and changed its name back to the Charlotte Observer, and thereby reestablished the name given the paper by Charles R. Jones, who founded it. The partnership of Mr. Caldwell and Mr. Tompkins continued to the death of Mr. Caldwell, November 22, 1911. It was a partnership remarkable in strength, individuality and affection.

Dr. Spilman at the Training School.

The people of Greenville should not miss the opportunity of hearing one of Dr. Spilman's imitable lectures. While a number of people in Greenville know him well, they do not often have the chance to hear him.

Dr. Spilman has lectured at the Training School once before, subject was then "Cuba." His descriptions were so graphic that he made his audience feel as if they had taken the trip with him. His lecture was interspersed with amusing experiences and interesting stories, yet showed that he had a thorough understanding of conditions in the island.

Dr. Spilman lectures tonight on "Falling Down on His Job." He comes to the Training School under the auspices of the Young Woman's Christian Association.

CHINA'S MOST ANCIENT CITY

Sianfu Believed to Have Been a Metropolis Two Thousand Years Before Rome.

Sianfu is probably the most venerable city in China, and perhaps had a longer continuous existence than Athens and Laxor. The Chinese themselves believe with some warranty that it was flourishing 2,000 years before Rome was founded. On the one hand, its story touches the first appearance of the Chinese race; on the other, it was again brought into a forefront of Chinese history when the late Empress Dowager Tzuhsi sought within its walls a refuge from the troops of the allies. It has been the stronghold of many monarchs, the bulwark against many revolts and invasions and the shelter of many religious.

Sianfu became a great city because it stood in the province of Shensi and, therefore, on the borders of the illimitable deserts and rolling uplands whence came successive hordes of barbarians to threaten the peace of the Flowery Land. It has never lost its protective character, and 40 years ago the great Mohammedan rebellion vainly spent its strength against it. Nor has its strength entirely vanished. Its mighty walls, though useless against modern artillery, are far more formidable and now in better repair, than those of Peking. Its population is variously estimated, but is numbered by the hundred thousands.

At the solicitation of my many friends, I hereby announce myself candidate for Sheriff of Pitt County. I have always treated every man every woman and every child in Pitt County right. If the people of my county see fit to honor me with this office I shall always treat every man equally, with no fear or honor from any one. Shall collect the taxes of the county and make due returns for same, showing no personal relations to any one. Your vote will be appreciated.

JASIN JOYNER.

Retrial Granted Though The Court Was Not United, Chief Justice Clark Dissenting—Defense Relied on Error in Charge

The Supreme court yesterday handed down nineteen cases, among which are the Pollard case, new trial; Hardy vs Insurance Co., new trial; Haddock vs Stocks, no error; and Decker vs N. S. R. R., affirmed, all from Pitt County.

As the Pollard case is of great interest here and to this county we reproduce part of the opinion. The new trial will be held here and it will probably be as hard fought as the former trial.

It will be recalled that S. M. Pollard in January of this year shot the chief of police when the chief entered his store. The jury convicted Pollard of manslaughter and the trial judge sentenced him to five years. Eleven lawyers represented Pollard. The case now goes back for a new trial, the opinion being written by Justice Clark for the court. Chief Justice Clark dissents.

The evidence is conflicting but it seems that Pollard and the Chief of Police had had feelings towards each other and the Chief had threatened to arrest Pollard for gambling and selling liquor in his store. On the night in question, the Chief entered the store and went over near where Pollard was. Pollard told the Chief that he had ordered him to keep out of his store and told the Chief to get out of his store. The defendant's evidence was that the Chief put his hand to his hip pocket, assumed a threatening attitude and cursed him and he shot in self defense. The evidence for the State was that the defendant shot at the same time he ordered the Chief of Police to get out of the store. As the Chief of Police was being taken out of the store he shot at the defendant Pollard. The Chief of Police made a dying declaration that Pollard shot him at the same time he ordered him to get out of the store. The evidence was voluminous but this seems to be the gist of it.

The trial judge instructed the jury that if the jury found from the evidence that the defendant saw the deceased enter the store and saw that the deceased was mad, and that defendant walked down behind the cigar counter and the deceased came over near him; and the defendant saw the deceased to get out of the store and the defendant cursed him and placed his hand on his hip pocket; and the defendant believed the deceased was about to draw his pistol for the purpose of assaulting the defendant with it, and that the defendant was willing to enter into a fight with the deceased with a deadly weapon, and immediately drew his pistol and shot and killed the deceased, defendant would be guilty of manslaughter, and this would be so if the manner and appearance of the deceased were such as to cause the defendant to believe that Smith was armed with deadly weapons and that he was about to harm him with them.

Justice Walker for the court states: "It will be seen, at a glance, that the learned presiding Judge has blended the doctrine of self defense and that of manslaughter in one instruction, without proper discrimination between the two and he used an expression which was manifestly calculated, though of course, not intended to mislead the jury as to the true nature of manslaughter, and to produce confusion in their minds." Justice Walker reviews the authorities and enters into a very full discussion of manslaughter and self defense. The other 18 exceptions are not discussed. For the record indicated, a new trial is ordered.

NO MURDER COMMITTED.

H. J. Staub Found Dead in His Bars Died From Natural Causes.

New Bern, Oct. 20.—After the community had been greatly excited Saturday night by the news that H. J. Staub, a well known citizen of this city, had been murdered by some unknown party at his farm, two miles out of town, County Physician Dr. Joseph Rilen exploded the theory by declaring, after he had performed the autopsy on the body, that Mr. Staub had not been murdered, but that his death was due to natural causes and that the wound on his head, which led to the murder theory, was caused by contact with the concrete floor of the cow shed where the body was found. The result of this autopsy was made known to the coroner's jury and they returned a verdict to the effect that the deceased had come to his death from natural causes.

MRS. MAYO DEAD.

Mrs. Martha Mayo, the mother of Mr. F. E. Mayo, of the Coca-Cola Bottling Works, this city, died at her home between Greenville and Tarboro, Sunday afternoon at three o'clock. The deceased had been ill for the past six months and at the time of her going was sixty-five years of age. She was a consistent member of the Free Will Baptist church and was held in the highest esteem by her friends and relatives. Her friends were many. She leaves three sons and one daughter to mourn their loss: Mr. F. E. Mayo, of this city, and Jesse Mayo, of Pitt county, and Edward Mayo, of Hasset, N. C., and Mrs. Ada Lewis.

The funeral was conducted from the home of the deceased this afternoon at three o'clock at the Harrow burying ground.

Mr. F. E. Mayo and family left this morning to attend the funeral.—Washington News.—19th.

How To Give Quinine To Children.

PEDDLERS in the trade-mark name given to an improved Quinine, Hiss's Tasty Syrup, please not to take and does not disturb the stomach. Children take it and never know it is Quinine. Also especially adapted to adults who cannot take ordinary Quinine. Does not nauseate and cause nervousness nor ringing in the head. Try it the next time you need Quinine for any purpose. Ask for 2 ounce original package. The name "Hiss's" is blown in bottle. 25 cents.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr. Hughes Would Die, But One Helped Him to Recovery.

Pomeroy, Ky.—In interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try **Thedford's Black-Draught**, and quit taking other medicines. I decided to take his advice, although I did not have any confidence in it. I have now been taking **Black-Draught** for three months, and it has cured me—haven't had those awful sick headaches since I began using it. I am so thankful for what **Black-Draught** has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest. Get a package today. Only a quarter.

REASON'S

Why You Should Always Use

Bee Brand Flavoring Extracts

1. Because they are 60% better than Pure Food Laws require.
2. Because they will go further than inferior goods.
3. Because their delicacy of flavor is unapproached.
4. Because their Purity and Quality is absolute.
5. Because they are unreservedly guaranteed. 25c

STRASBURG VIRGINIA

WINTERVILLE ITEMS

Winterville, Oct. 19.—Mrs. Jerry Worthington died suddenly last Thursday night. Mrs. Worthington had tied tobacco all day until about 9 o'clock that night. After she retired about 10:30 she was suddenly taken very ill. Her struggles aroused by little granddaughter who was sleeping with her. The little girl called her parents at once but Mrs. Worthington died before anyone could get to her.

She was about 65 years of age and survived by a husband and three sons, Messrs. Joe, Fred and J. H. Worthington the latter a resident of Cumberland county. The remains were interred at the cemetery Saturday afternoon.

The war is continuing but A. W. Ange & Co. is still selling dry goods, notions, boots, shoes, hats and caps at a low price.

Before you leave for Europe to make peace go to Harrington, Barber & Co. and get a supply of boots, shoes and blankets.

The local foot ball squad left Friday morning in spite of the inclemency of the weather for Washington. They had a game scheduled for Friday and seemed very anxious to get on the gridiron of their antagonists. However, they got a message while in Greenville that the Washington park was in such a bad condition that they could not play, so they had to return disappointed. The locals have been practicing for some time and we look forward for the first game for we are confident that they are going to do good work.

Athletes wear Hunt Club shoes, and you can do no better than see B. D. Furthest & Co. for a pair.

If you are going to camp or keep house you had better see Harrington, Barber & Co. and get one of those handsome stoves. They are cheap.

The students of the local high school are looking forward to the 30th for a good debate by a team from the Hesperian and Columbian Literary Societies.

Sheriff of Pitt County.

Grain Privileges

MONEY IN WHEAT.

Puts and calls are the safest and surest method of trading in wheat or oats. Because your loss is absolutely limited to the amount bought. No further risk. Positively the most profitable way of trading.

Open an account. You can buy 100 or 1000 bushels grain for \$10 or you can buy both for \$20 or as many more as you wish. An advance or decline of 1 cent gives you the chance to take \$100 profit. A movement of 5 cents \$500 profit. Write for full particulars and bank references.

Columbus, Ohio.
Address all mail to Lock Box 1420.

NOTICE

By virtue of a mortgage executed to me by Gideon Teel, on the 10th day of January, 1910, securing a certain obligation and bond therein and elsewhere, the terms of the same have not been complied with, I will sell to the highest bidder, for cash, that tract of land described in the mortgage giving me this authority, registered in Book 9-9, page 65, on Monday, at noon, the 10th day of November, 1914, at the Court House door, the following described tract of land, containing about seventy (70) acres.

Adjoining the lands of J. H. Whitehurst and Harriet Whitfield, being Sallie L. Cherry's part of the Britton tract, purchased by Gideon Teel of E. A. Cherry and Sallie Cherry, described in Book H-7, page 559.

This the 15th day of October, 1914.
L. R. WHITCHARD,
Mortgagee
S. J. EVERETT, Attorney.

VALUABLE MARTIN COUNTY FARM FOR SALE.

900 acres in tract, 225 acres in cultivation, 100 acres new land ready for plow 1 mile from railroad station, with graded school and churches, 4 miles from County seat with 2 railroads and water transportation. 2 residences six rooms each plastered and painted with plenty of out buildings to each. Residences built with view to subdivision. 2 tenant houses and 2 tobacco barns. Land in high state of cultivation, land suited to all crops raised in Eastern North Carolina and especially fine for tobacco. Address Wheeler Martin, or J. C. Goddard, Williamston, N. C.
