FRIDAY, JANUARY 29, 1915.

It's better to be up and doing than to be down and done.

Lazy people usually work overtime when it comes to giving advice.

But the income of every married man is already taxed to the limit.

If some men had never been born, some others might have to work for a living.

"The more polite some women are, when the meet, the more they hate each other, when they part."

Between Billy Sunday and Banker Monday, Philadelphia is in a fair way to become famous.

However, the next generation will have a citizenry trained not only to arms but to camp life and discipline, thanks to the Boy Scouts.

With the supply normal and his appetite the same, it is difficult for the consumer to understand the continual fluctuations in the prices of wheat.

Oklahoma has just had its fourteenth bank robbery within twelve months. That extensive Oklahoma constitution evidently left something out.

Those new fenders for automobiles make the front of the car look like a safety razor, and indeed they are supposed to save the pedestrian by a close shave.

The heavy rains of the past week or so have caused the rivers to rise to an unusually high mark. The only damage that has been reported was done by the Neuse near Kinston when a section of the railroad was washed away. Tar river is very high but is still within high water bounds and no damage has been reported.

The recent feat of talking across the continent over the telephone shows the great strides which have been made since the telephone became a success. At first a conversation over a few miles of wire was a great achievement but now a conversation over 4,000 miles of wire has been successfully carried out.

Rocky Mount has secured a franchise in the Virginia league and expects to open the season in April on regular schedule. We should like to see a determined move started to revive the former league which was in this part of the state or to organize another league including the principal cities of the Eastern part of the State. Baseball has been talked already but so far nothing definite has been decided upon.

The recent letter as it was called, prepared by the administration to explain their actions in regard to observing our neutrality is an admirable answer to those who have been criticizing them for their stand on this question. Most of this criticism comes from people who came from Germany or Austria and they think our country is acting in an unnatural manner in not stopping the shipment of certain goods to the European countries.

FOR A BETTER COMMUNITY.

The success of a community does not depend on any one person in that community. It depends more or less on every individual in the community. Of course one man who has the proper spirit can work wonders, but if he is working by himself he is seriously handicapped. That community which wants to succeed must have a lot of citizens who are all working toward a common end, and that end must be to make their community the best one of its kind. Perhaps many, or you might say all places have citizens who are heart want to see their community improved, but they do not know how to go about it; here is where your one man gets in his work as leader. Alone he can't do much but with help he can do things and this is just what we want and need, a leader and then everybody helping him with all their might.

The bird law question has been raised again and those who have started the talk say that this state needs a law forbidding any quail hunting for a period of five years. It is said that unless such a law is soon passed it will be no use to pass it because all the birds will have been killed. Some counties have already adopted such laws but there is a need for a State-wide law. Unless something is done it will not be long until the cotton weevils will begin to make them selves felt for it is claimed that birds are one of the best things ever known to keep the weevils down. It seems to be a question as to which we want birds or weevils?

Billy Sunday comes in for a lot of criticism because of his methods of preaching but it cannot be denied that he is doing a great deal of good. He causes thousands of people to attend church who would never do so except under such circumstances, and for many of them this is the first step toward a better life. Encourage him, rather than criticize.

The House devoted a large part of one day last week to the discussion of the fish question. A heading in one of our exchanges very aptly put it this way referring to the debates and discussions: "Someone said fish is the House and the floodgates opened."

The question regarding making the present session of the Legislature last only forty days has not yet been settled. A good deal of discussion has been given to this proposal and while many want the regular sixty day session a large number favor the proposed short term.

The Atlantic Coast Line has recently announced that during the past year not a single passenger lost his life on their system because of a wreck, run-off or collision. This is a splendid record, one that not many systems with as much mileage as this road has, can show.

Pontiac, a town in this county, is one of the most progressive places in the county. Besides other things the town has its own electric lighting plant. This place has a lot of boosters in it who are doing a great deal to make their town better.

North Carolina has been cut into or divided into two sections in regard to the judicial system. We now have the Eastern and Western judicial districts.

Chicago may have a Mayoress, some day. By the way what is the feminine form of "carter"?

The weather man is to be congratulated on keeping unusually fine set of resolutions.

At least one phase of foreign trade seems to have resolved itself into "all cry and no wool."

Since a contingent of 60 Fiji Islanders has joined, the allies will doubtless proceed to eat 'em alive.

From the quantity of water so far it might be said the new year is swimming along.

A grape-juice dinner maketh glad the heart of the paragrapher, but it cutteth no figure in the divorce courts.

It is said that the state-wide primary bill will probably be adopted or defeated this week. We hope it will be passed and made a law. It seems to be a good plan, one that will enable the people to get the man they want as a candidate and then to elect him to office.

Alabama has been added to the dry states by a recent bill passed over the governor's veto which will stop the sale of liquor in that state after June 1st. The number of dry states continues to grow and to grow rapidly too. The dry sentiment is growing too, very rapidly.

The price of cotton is steadily going up and we firmly believe that it is just a question of time until a fair price will be received for it. To those who can we would say hold your cotton and when the price does get up to the point where a satisfactory sale can be made sell slowly and not glut the market.

Quite a number of writers suggest that farmers name their farms and have stationary printed with this name on it. This is a good suggestion and one that our farmers will do well to follow. An attractive letter head gives a letter added force and makes a favorable impression on the recipient. It advertises a farm and gives it a certain air of distinction that is missing without the name.

Harry Thaw has at last been brought back to New York. He will now begin his fight against being put back in Mattawan. Harry did not have a pull like that fellow Cleary who last year killed his son-in-law in what nearly every body thought except the jury, cold-blooded and was acquitted.

It is rather peculiar that New York state would expend so much money to secure Thaw when such a miscarriage of justice was being pulled off at Haverstraw.

The British navy has, so to speak, evened things up with the Germans in winning their victory over the squadron which was attempting a raid on English coast towns. This war has been rather peculiar in that no naval battles have occurred between evenly matched fleets, that is if we listen to reports. The reports of this battle says the speedier British ships overtook and sank and damaged part of the German fleet. Evidently they were unevenly matched.

Name Your Farm.

Many advocates for a number of years the naming of every farm in the County and in looking over our exchanges this week we were struck by the following timely article in the Standard-Laconic:

"Giving a farm a name is a good thing and the practice should be extended. A name gives a distinctive name to a farm that is most desirable in that it promotes loyalty to the place, fosters a pride in it, and helps to hold the family together. How much better to give the farm an appropriate name than to speak of it as the old so-and-so place, as the third of some other farm on some concession road. And appropriate names are easily found. Historic associations, especially in the older parts of the country may often determine the choice. Geographical location, landscapes, water, or some distinctive feature on the farm all suggest good names. By all means name the farm and also keep to the farm."—Norlina Headlight.

Hard Times.

A northern editor turns loose the following: Yes, these times are hard, we throw away ashes and buy soap, we raise dogs and buy hogs; we grow weeds and buy vegetables; we catch fish with a four dollar rod; we build school houses and send children away to be educated; and last but not least, we send our boys out with a \$40 gun and a \$20 dog to hunt ten-cent game.

Yes, these are hard times, but whose fault is it? Don't place all the blame on the president and the trusts.

HEALTH BILL KILLED

North Carolina to be Recognized as Second-Class Registration State

The second most important health bill to come before the present health Assembly was killed in the House recently.

The story is as follows: The last General Assembly passed what is known as the Model Law for registering births and deaths with addition of what appeared to be an insignificant amendment. To this amendment the federal authorities take strong exception and refuse to recognize North Carolina as a registration state along with some twenty-five or more other states in the Union.

At the present session, a bill was introduced to repeal this amendment largely because the significance of this amendment was not understood. The House declined to repeal it, fearing that it might possibly work some hardship in rural districts. Experience in twenty-seven other registration states, however, does not indicate that such amendment is necessary or that its absence works hardship with any one. This means that while North Carolina has a registration law on her books which costs the state \$10,000 a year, her results will not be recognized by the government. In the eyes of the world outside of North Carolina, she will be recognized as a second rate state, with and yet without a Vital Statistics law.

We in North Carolina feel absolutely confident that the death rate in a number of counties, as for instance Robeson, Nash, Buncombe, and many other mountain counties is far below the average in the United States and, if our figures were accepted by the federal authorities, it would be a splendid advertisement for North Carolina and be the means of bringing here many desirable people not only from northern states but from European countries. However, without the sanction of the federal authorities, our figures will of necessity be looked upon with suspicion, no matter how accurate they might be or what healthful localities they might indicate.

CHANGE OF DATE OF GOOD ROADS INSTITUTE

Owing to certain conflicts with other conventions, it has been deemed wise to change the date of the Good Roads Institute, which is to be held at the University of North Carolina, to February 23-27. Everything looks very favorable for a splendid attendance at the Institute, and it is expected that the splendid results obtained last year.

Engineers and commissioners have been requested to bring samples of sand-clay and topsoil roads, these samples to be taken from those portions of the roads which have stood up during the bad weather of the present winter, and also those portions of the roads which have gone to pieces during this time. These samples will be tested during the Institute and it is believed that definite reasons can be worked out why one road went to pieces and another stood up as a hard surface.

Already considerable progress has been made in regard to working out a practical scheme for the maintenance of our highways, and this will be thoroughly discussed at the Institute, and it is expected that as a result a satisfactory method will be worked out which can be recommended to the county road officials.

The Letter "E."

Some one has advanced the opinion that the letter "e" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger and in hell all the time. For some reason, he overlooked the fortunate of the letter, as we call his attention to the fact that "e" is never in war and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no meat, no life and no heaven. It is the center of honesty, makes love perfect and without it there would be no editors, devils or news.—Fourth estate.

DRUNKEN WIFE BEATER HELD AT ROCKY MOUNT

Rocky Mount, Jan. 26.—While under the influence of whiskey, the police declare J. K. Kelley, a white employee of the Atlantic Coast Line, is alleged to have beaten his wife in a insensibility, and according to the police, the woman was severely choked and beaten until two spasms resulted. Her condition today, while not considered serious, has been such as to demand the attention of a physician during much of the day. Kelley was arrested this morning following the complaint of the neighbors and is being held in the local police station awaiting trial tomorrow morning.

There are two small children besides the mother and father, who make up the family circle. According to the neighbors, the man is alleged to have beaten his wife, severely last night judging from the general disturbance caused at the home, while today it is stated he renewed his activities along this line. The police declare that they will produce as witnesses tomorrow morning residents of that section who saw the man slap the woman down in the street today. The man is an old offender on this charge and has appeared in the city court several times before on this count, though previously his wife has not been treated so severely.

Want Better Government.

Why do we have to put up with muddy streets and almost impassable roads? Here's the answer in a nutshell: We spend too much money for government. The salary list of the county officials of Cherokee has been about doubled since the county was formed, and we can't see that we are getting any better service today than we did sixteen years ago. It costs a great deal more to run Gaffney today than it did twenty years ago and yet we cannot see that we are getting any better service. The whole trouble lies in the fact that too many people are milking the cow. The only remedy is fewer officers. It would be much better to employ one or two competent men to run the municipality and pay them a respectable wage than to employ a score or more and pay each of them a small wage. A movement should be put on foot to have the commission form of government applied to Gaffney.—Gaffney Ledger.

Perfect Stock at Ingletre.

Dr. E. G. Hargett, Assistant State Veterinarian, has been at Ingletre farm the last few days treating and milking the herd of 35 Duroc Jersey blood sows. While there he also tested the dairy herd for tuberculosis and found them perfectly free from disease of any kind. Dr. Hargett says this is one of the finest bunches he has ever seen. Two cars of stock have been shipped this season from Ingletre farm and there are something like 150 head of hogs now fattening to be shipped later in the spring.

Celebration of Poe's Birthday.

The Edgar Allan Poe Literary Society celebrated the birthday of Poe in their January meeting which was held Saturday night.

The entire program centered around Poe. Nearly all the selections were taken from material presented to the society by Dr. C. Alphonsa Smith who holds the Poe Chair of Literature at the University of Virginia.

The program opened with the presentation of a picture of Poe's Mother to the society. This picture was also a gift from Dr. Smith.

Then followed the remainder of the program which was:

Instrumental solo—by Miss Martina Lancaster.

Poe's Force in Literature—read by Miss Susie Barnes.

Israel—read by Miss Eula Spruill.

Americanism of Poe, an extract taken from Dr. C. Alphonsa Smith's address on the one hundred anniversary of Poe's birthday, read by Miss Mary Baker.

That as the Grand Jury is advised the establishment of a Recorder's Court will require a salary of not less than twelve to fifteen hundred dollars to the Recorder, together with a Solicitor at a salary of from six hundred to one thousand dollars.

That our experience leads us to believe that the only possible benefit that the Recorder's Court could have would be to dispose of immediately those few cases wherein the defendants are unable to give bond or to employ counsel, and that in all other cases where defendants would be able to give bond or secure counsel it would simply burden the county with the expense of maintaining an intermediate court between the court of the Justice of the Peace and the Superior Court and that the burden of maintaining this court and the expense thereof would be greatly in excess of all greatly out-weigh the benefit that might possibly be derived in the manner above indicated.

That your Grand Jury further believes that it would be impossible to secure a presiding officer at the small salary of fifteen hundred dollars, which the position of Recorder would carry with it, who would possess that judicial temperament so necessary to the success of the court and the safeguarding of the rights of the individual and of the county, and under all the circumstances, and for the reasons appearing above, we earnestly recommend that there shall be no Recorder's Court established for Pitt county, and respectfully ask that the court order a copy of that part of our report bearing upon the question of the Recorder's Court to be submitted to the Members of the General Assembly from Pitt.

Freely Given by a Greenville Citizen.

When one has suffered torture from a bad back and found relief from the aches and pains, that person's advice is of untold value to friends and neighbors. The following neighborly advice comes from a Greenville resident.

Mrs. J. C. Savage, 112 Eleventh street, Greenville, says: "About a year ago I was bothered with my kidneys. I had a dull pain in my back and could not rest well at night. In the morning I was sore and stiff. Dizzy spells were frequent and when I stooped and then try to straighten, my head swam, making me blind for a few minutes. The secretions for my kidneys were too frequent and annoyed me considerably. Doan's Kidney Pills, which I procured from Bryan's Drug Store gave me much relief. After using four boxes, my kidneys and bladder were fixed up in good shape and the soreness across my loins was relieved."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Savage had. Foster-Milburn, Co. Props., Buffalo, N. Y.

Only Advantage of a Recorder's Court Would Be in Cases Where Defendant is Unable to Have Counsel.

The following is an extract from the Grand Jury's report and contains their recommendations regarding the establishment of a Recorder's Court for Pitt county.

Whereas, there is considerable agitation in the county as to whether or not there shall be established a Recorder's Court, we the Grand Jury serving at the January Term, 1915, after mature deliberation upon the consideration of the question of whether or not a Recorder's Court will be a benefit to the county and save the county any expenses are firmly convinced and are of the opinion that a Recorder's Court will increase the expense of trying criminal cases in the county, for the reason that Pitt County now has four criminal terms, of one week each, which in our opinion are all sufficient to take care of the criminal business of the county.

That as the Grand Jury is advised the establishment of a Recorder's Court will require a salary of not less than twelve to fifteen hundred dollars to the Recorder, together with a Solicitor at a salary of from six hundred to one thousand dollars.

That our experience leads us to believe that the only possible benefit that the Recorder's Court could have would be to dispose of immediately those few cases wherein the defendants are unable to give bond or to employ counsel, and that in all other cases where defendants would be able to give bond or secure counsel it would simply burden the county with the expense of maintaining an intermediate court between the court of the Justice of the Peace and the Superior Court and that the burden of maintaining this court and the expense thereof would be greatly in excess of all greatly out-weigh the benefit that might possibly be derived in the manner above indicated.

That your Grand Jury further believes that it would be impossible to secure a presiding officer at the small salary of fifteen hundred dollars, which the position of Recorder would carry with it, who would possess that judicial temperament so necessary to the success of the court and the safeguarding of the rights of the individual and of the county, and under all the circumstances, and for the reasons appearing above, we earnestly recommend that there shall be no Recorder's Court established for Pitt county, and respectfully ask that the court order a copy of that part of our report bearing upon the question of the Recorder's Court to be submitted to the Members of the General Assembly from Pitt.

Mrs. Deanie Brown Dead.

Mrs. Deanie Brown, wife of the late Mr. C. O. Brown, who died about two and a half years ago, died Thursday morning at about 4 a. m. at her home on South Pitt st., of pneumonia after an illness of only nine days. Mrs. Brown was 54 years of age.

Of her immediate family there are surviving three children, Mrs. Clarence Laster of Durham, Miss Maggie Brown and Mr. C. Oscar Brown Jr., of Greenville. Mrs. Brown also leaves one sister, Mrs. Bethie Mc Gowan, and two brothers Messrs. J. B. Tucker and W. E. Tucker all of Greenville, her stepmother, Mrs. W. W. Tucker of Grimsland and uncle and aunt, Mr. J. E. Adams and Miss Mary Adams who were living with her at the time of her death.

Mrs. Brown was a member of the Methodist church and was a good christian woman, ever ready to help those who were in distress. Her host of friends will learn of her death with great sorrow.

Funeral services were held Friday morning at the house at 11 o'clock the burial followed in Cherry Hill Cemetery.

VERY SAD DEATH OF POPULAR PERSON.

Last night at ten o'clock Old Henry was felled to death by Three Feathers, the Upper Ten attended the funeral in a body, which was held at the Old Log Cabin, placing a beautiful wreath of Four Roses on the grave. The services were conducted by Rev. C. L. Overholt, and the interment at Mount Vernon. The pall bearers were selected from the Canadian Club of which he was an honorary member. The remains arrived at Atlantic Coast Line 85, Mr. Cascade to Green River made a few appropriate remarks at the grave. The deceased leaves a wife and six children besides a great number of friends to mourn their loss, prominent among them being Paul Jones of Kentucky, Glade, who is well and favorably known in Greenville.

Old Henry was at one time proprietor of the Monticello, but owing to his health being impaired, by Mountain Dew he sought other elements, hoping with the aid of Dolly's Malt to eventually recover, but the end was not unexpected as old Baker had cautioned his wife to be prepared for the worst. The Jefferson Club sent a wreath of immortelles from their Private Stock.

Mr. Sherwood of Woodbrook after the services returned home on Roney's Special, stopping overnight at Kentucky Tavern, where he was introduced to Old Taylor, president of the Jockey Club. The entire city mourns the loss of old Henry who was so well known here having visited a majority of our citizens during the holidays and making such warm friends who whomsoever he came in contact.

The estate will be administered by Old Harvester, who is of the Great of Kentucky. Thus passes another of our old landmarks, so easily to go but never to be forgotten.—Exchange.

BETTER HEALTH METHODS HAVE ADDED TO LIFE

Common Drinking Cup Must be Abolished to Improve Health Conditions

HELPS SPREAD MANY DISEASES

Science Has Show How Disease May Be Prevented And There Remains Nothing to Do But To Follow Directions.

Paper read before the End of the century Club at a recent meeting in which important health matters are discussed.

"The service which has been rendered the human race, by the public health movement for the last half century is the noblest example afforded by human history of successful philanthropic human activity."

In the last fifty years the average length of life has been increased seven years.

That public sanitation has within the same length of time added not less than four billion years to human life is an undisputed fact.

Harry Thaw Brought to New York For Trial For Conspiracy

New York, Jan. 24.—Harry K. Thaw is again in the Tombs. Brought here this morning from Boston, his only stop over on the way from New Hampshire he was locked up in the prison from which he was transferred almost seven years ago to the State Asylum for the criminal insane. At Mattawan, after his acquittal of the murder of Stanford White on the ground of insanity.

It is expected that Thaw will be arraigned tomorrow to plead to the indictment charging conspiracy, based on his sensational escape from Mattawan 17 months ago.

When the train drew into the station Thaw greeted the newspapermen generally, but refused to discuss his plans. William Travers Jerome, special counsel for the State, and Deputy Attorney General Kennedy arrived on the same train.

Thaw and his guard went to a hotel for breakfast and then the prisoner was taken to the Tombs. Later he attended religious services in the prison chapel.

Efforts by Thaw's counsel to see their client were fruitless. They were told that if they wished to consult with him they must get an order from a Supreme Court Justice. Abel J. Smith, one of Thaw's attorneys, said tonight:

"Even though I should be next for Thaw it is possible we will make an effort to furnish it. The case has been left entirely in the hands of the attorneys, John H. Stanchfield, Max J. O'Brien and myself. Just what our next step will be we have not decided."

Thaw's mother, who is in this city, refused to say anything regarding her son's case and Jerome and Kennedy likewise declined to discuss the matter.

Mr. O'Brien said tonight he would move as quickly as possible to lay the issue of Thaw's sanity before the jury.

"The question simply is one of his sanity and to that subject I shall confine my efforts to free him," said the attorney. "There will be no disposition on our part to bring about delays of any sort."

Thaw spent the evening reading in his cell. His supper was procured from the official canteen; a respectable adopted rule making it impossible for him to visit a restaurant, as was his practice during his previous stay in the Tombs.

DEBATES SELECTED.

Preliminary Held to Select Debaters For Final Debate.

Last Friday night the preliminary debate of the Henry Grady Society of the Graded School was held to select debaters for the triangular debate which will be held later. The subject for this debate was "Resolved, That the United States should adopt the policy of subsidizing the merchant marine for foreign trade." Those on the affirmative were Ralph Stretch, Albert Ward and James Ficklen. On the negative were Cary Harrington and Howard Hooker. The debaters who were chosen for the final debate were James Ficklen and Ralph Stretch on the affirmative and Cary Harrington and Robert Ward on the negative. Prof. Taylor, Prof. Cook and Rev. Harris were the judges for this preliminary debate.

These debaters who were selected at this debate will debate with Wilson and Klinton sometime soon.

Consecrate New Jersey Bishop
Burlington, N. J., Jan. 25.—Very Rev. Paul Clement Matthews was today consecrated Episcopal Bishop of the Diocese of New Jersey. The ceremony was performed at historic St. Mary's Church at 11 this morning, seven bishops taking part. The anniversary of the feast of the Conversion of St. Paul was selected for the consecration of Bishop Matthews.

Bishop Matthews has been identified with churches in Cincinnati and Omaha, and was dean of the Cathedral at Fairbank, Minn., when he was called to New Jersey last year. Many dignitaries of the church were present today. A public reception will be tendered the new Bishop at Trenton on Thursday.

North Carolina. In the Superior Court of Pitt County. March Term, 1915.
W. L. Bailey. Notice of Summons.
vs. By Publication:
J. M. Tack.

The defendant above named will take notice that an action entitled as above was commenced against him on the 21st day of January, 1915, by the issuance of summons out of the Superior Court of Pitt County, and that said action is brought by the Plaintiff against the defendant for the non-payment of the sum of Three Hundred Forty-one and 25/100 Dollars, due the Plaintiff by the defendant, on account of non-payment of a certain check for said amount, given by the defendant to the plaintiff on the 20th day of January, 1915, and drawn on the Greenville Banking & Trust Company, of Greenville, N. C., upon which check the defendant caused payment to be stopped, the amount thereof, and the undersigned indebted thereby being now due, over and above all counter claims and set off; And the defendant will further take notice that he is to appear at the March Term of the Superior Court of Pitt County, which convenes at the Court House in Greenville, on the 2nd Monday after the Monday of March, 1915, and file answer or demur to the complaint; and he will further take notice that if he fails to appear and answer or demur at said time and place, the relief demanded in the complaint will be granted.

The defendant will further take notice that a warrant of attachment was issued from the Superior Court of Pitt County on the 21st day of January, 1915, against all the property of the defendant of every description, in Pitt County, especially any and all deposits kept and maintained by the defendant with the Greenville Banking & Trust Company, which warrant is returnable to the March Term of Pitt Superior Court, when and where the defendant is required to appear and answer, or the relief demanded will be granted.

May Lower Price of Radium.
Contracts for delivery of radium in the early months of 1915 have been entered into at a price as low as \$67.50 a milligram, and there is a widely prevalent belief that there may be a great fall in the price during the next two years. It is interesting to note that for some time after its discovery radium could be procured at less than one-tenth of its present price. The demand for radium to be used for medical purposes has hitherto absorbed the output, and has led to rates being quoted which are excessive and altogether artificial. The large profits obtained have, however, stimulated search for uranium ores in various countries, notably in America, and as there are unlimited quantities of low grade uranium rocks available it would appear to be merely a question of time before radium will be placed on the market at a price bearing a reasonable ratio to the cost of its production.

PROVES STRENGTH OF HEART
Infallible Test, According to Prominent Physician, is the Ability to Hold the Breath.

Dr. W. A. Schrage, in a recent number of the Roussey Vrathe, explains why a healthy person can suspend breathing for from thirty to forty seconds, or, with practice, for three times as long. This depends, the doctor asserts, not on the lung capacity but upon the vigor of the heart muscle. In a word, the longer you can hold your breath the greater is your heart power, persons with weak hearts being unable to suspend their breathing for more than twenty or even ten seconds.

WAVE OF PROSPERITY SWEEPS OVER SOUTH

Atlanta, Ga., Jan. 26.—Notable improvement in business conditions in the South within the last few weeks is indicated in reports from merchants, cotton factors and bankers from all over the section. The last month, in particular business men assert, has developed the recuperative power of the cotton States. In all these States cotton which was selling a few months ago for a little more than 6 cents a pound, now is finding a comparatively ready market at above 8 cents.

Since the government report for November 1, the increase of 2 cents a pound in the selling price of cotton with the corresponding advance in the price of cotton seed, according to the figures and estimates of experts, has resulted in a net increase during this period of approximately \$120,000,000 in the cash value of cotton. The effect of this enhanced value it is stated, has been felt in every line of business in the South.

Conservative observers of the situation say that never has there been such a holding movement in the South as a holding shroud shroud as that noted since the opening of the present cotton season. At the outbreak of the European war, fall deliveries of cotton ranged from 12 to 13 cents a pound, which with a crop estimated at more than 10,000,000 bales forecast a season of remarkable activity. With the European markets suddenly closed and the exchanges suspended, the price abruptly decreased about one half.

Jerome is Fired FROM THAW CASE
Albany, N. Y., Jan. 26.—Wm. Travers Jerome today ceased to be Deputy Attorney General. He was recently appointed in order that he might aid in returning Harry K. Thaw to New York. Hereafter Deputy Attorney General rankin Kennedy and Frank K. Cook will have charge of the Thaw case.

In notifying Jerome of his dismissal the attorney general said he did not feel justified in continuing the expense of special counsel.

New York, Jan. 26.—William Travers Jerome tonight declined to discuss his removal from the office of deputy attorney general in the Thaw case. "I am out of the case," he said. When Thaw was informed in the Tombs of Jerome's dismissal, he refused to comment, although he frequently has referred to Jerome as his nemesis. Franklin Kennedy, deputy attorney general, assigned by Attorney General Woodbury to handle the Thaw case, said:

"I have no doubt Mr. Jerome will co-operate with us in every possible way. I know he was thoroughly tired of the case and I believe he will be glad to be free."

Better Times Coming.
The time is coming in this nation when party lines will narrow down to those who stand for better things on one side and those who stand for corruption on the other. When this time comes conditions will change, for while many may feel in their hearts that they want to stand with corruption they will not have the courage to do so.—Washington Progress.
