FARMERS SHOULD DIVERSIFY

At present when so many large
orders are being placed in this coun-
try for supplies by the waring na-
tions it seems that the South is not
getting its full share of this business.
It is true that some large orders for
a few things have been placed here,
but nothing like the orders which
should have been secured.

There is some reason for this and
we cannot help but believe it is be-
cause of the custom here in the South
of raising the money crops, and with
the money realized from the sale of
these crops buying the other needed
articles, which could have been raised.

As an example of this we raise and
sell cotton and buy hay, meat and
flour all of which could be raised on
the farm. And now when the price
of cotton is so low that no profit can
be made on its sale the entire coun-
try feels the effect of this custom. In-
stead of supplying the European and
other foreign nations with the goods
they are so greatly in need of we have
an unusually large crop of cotton
which has practically no market here
and no way to get it to places where
it will bring good prices. Had the
farmers in the South a large supply
of stock, a smoke house full of meat
and plenty of corn and wheat he
would not have to worry about bor-
rowing money or practically giving
his cotton away to get cash. He
would not have to buy expensive fur-
niture for his stables would furnish
much of that in addition to his meat.
The farmers must raise instead of
buy the articles which can be easily
raised in this country.

Until this lesson of crop diversifi-
cation and home raising of foodstuffs
is learned by the farmers we may
expect to be put in just such a con-
dition as we are at present when a
similar state of affairs exists. The
sooner the farmers begin such a plan
the better it will be, an dthere may
never be a better chance to break
away from the old way than the pre-
sent.

SPEAKER WOOTEN DEAD.

The death Saturday of Speaker
Wooten as a result of an auto ac-
cident caused sorrow all over the
State. His loss will be especially
felt in this part of the State where
he was so well and favorably known.
He was very popular and well-liked
by all of his associates, not only in
his home town, and county, but in
surrounding counties. He had a very
bright and promising future, having
already risen high in his profession
and in affairs of State. After the
fatal accident he made a brave fight
for recovery but after about a week
of suffering it was realized that he
could not live and the end came Sat-
urday afternoon.

A report of a canvass made to
ascertain the percent of magazines
which accept liquor advertisements
shows that an unusually large number
of them are not accepting such ad-
vertising. Many of the most influen-
tial and popular magazines are includ-
ed in this list and quite a number re-
port that with the expiration of pres-
ent contracts they will accept no more
advertisements of this nature. It is
said that many of the largest adver-
tisers use only those publications
which exclude such advertising, or

show a decided preference for them.
The daily press also shows that liquor
advertisements are not appearing in
them as much as they did formerly.

A farmer who lives in this county
has informed us that he will reduce
his tobacco and cotton acreage and
sow oats on the land left free be-
cause of this reduction. He has learn-
ed the lesson of diversification and
we venture to say that he will be able
to sell part of his crop next year at
a good price no matter how the mar-
ket it, it is certain that the price on
all of his crops will not be low at the
same time. The more crops the farm-
er has the better opportunity he will
have to select his time to sell. We
hope he is only one of a large number
who will follow the same plan.

The state-wide primary bill has
made a good start in the Senate, even
if it was amended to a certain ex-
tent. It is to be hoped that the House
will do as well as the Senate and give
the people the primary law which has
been wanted for some time. It is
said that much bitter discussion and
heated argument marked the passage
of the bill. It is the same old tale,
any law to permit the people to put
in office the men they want is op-
posed by the fellows who could not,
perhaps, have been elected under such
a primary law. We are strongly in
favor of any law which will enable
the people to put in office the man
they want and not the man suggested
by some men who do not represent
the whole people.

The United States Supreme court
has recently held the Kansas law pre-
venting the shipment of beer into that
state to be void. It is held that beer
is a recognized article of commerce
and that a state has no right to in-
terfere with its transportation. We
do not know how this law will affect
the anti-liquor bill which has been
passed in the Legislature, but we hope
it will not impair its usefulness as
intended by the Legislators. The li-
quor question seems to be a state
question and the state should be al-
lowed to regulate its sale as it sees
fit.

The people of England are highly
displeased with the flag incident, or
at least the press is, according to the
editorial comments. It is said the
English people refused to believe the
German charges of using neutral flags
until it was admitted by the admiralty
that the Lusitania had sailed under the
United States flag. It must be very
humiliating to an Englishman to have
English boats sailing under another
flag as a safeguard, when England
is the greatest naval power in the
world.

Although the German danger zone
order has been in force about a week
not many more boats have been sunk
than usual. The only boats sunk so
far are the smaller, slower ones
which cannot easily avoid the subma-
rines. Several of the large, swift
boats have reported narrow escapes
from torpedoes but they continue to
enter the danger zone in spite of the
great danger.

With the near approach of warmer
weather the campaign against flies
should be started and energetically
pushed. If the proper means are used
it is one of the easiest matters in the
world to rid the whole town of flies.
Everything that will breed flies should
be removed or treated with lime or
chemicals and the sooner it is done
the better.

It is reported that an effort is be-
ing made to clean up the white slave
traffic of Constantinople. This city
is known as one of the worst places
in the world for vice but the move-
to clean things up has much support
and is accomplishing a great deal.
The allies will no doubt finish up
things when they take the city whose
fall seems certain now.

The Dacia has at last been select-
ed by France, and the questions involved
in its sale will be settled by a court
in France.

The Supreme Court in upholding
the lower court in the Tucker estate,
has made a decision which will mean
much to the State as a revenue pro-
ducer. It was claimed by those con-
testing the tax that the law did not
include real property but the court
was unanimous in its opinion which
held that real property was included
in the provisions of the law and that
although this was left out at one
place in the statute it was the intent
of the Legislature to tax land.

A Chicago woman anxious to learn
the true state of affairs in the slum
district of a large city went there
alone to make an investigation. Things
did not turn out as she expected and
she was arrested in a police raid and
fined. News of this having gotten out
her husband, a prominent railroad
official, lost his job and both are dis-
graced. Wonder if she thinks her ex-
perience was worth the cost.

The foot and mouth disease which
has caused so much trouble in the
northern states has made its appear-
ance in the south near Richmond. We
hope a determined effort will be made
to stop it where it is, this part of the
country has few enough cattle and
hogs without having to kill great
numbers on account of this dangerous
disease.

We hope the Senate will decisively
decide the bill which has passed the
House permitting the granting of di-
vorce after five years separation. The
divorce evil is worse now than it
should be and no law should be passed
making divorces easier to secure.
Easy divorce laws seriously affect the
sacredness of the home and have a
tendency to promote corrupt living.

Desertions in the United States
navy are fewer now than they have
ever been before. This may be said
to be the result of making the navy
more attractive and removing the un-
usually severe restrictions which for-
merly held place there. The navy is
now more like a great training school
than a place for hard work and severe
discipline.

The man whose character will
stand the most rigid investigation
does not fear the ordeal of an exami-
nation into his life. It is the fellow
who has done things which he would
like to keep secret who dreads an in-
vestigation. When a man invites an
investigation he must feel pretty sure
that his character will stand it.

That bill to permit eight percent
interest in this state ought not to
pass. Six percent seems to be
enough, especially now when money
is hard to get. We have not heard of
any banks being in great need of
increased interest for most of them
continue to pay dividends. Increased
interest will make it harder on the
borrower the one who is least able
to stand it.

The mayor and the police officials
are to be highly commended for their
action yesterday in arresting and fin-
ing the inmates of the houses of vic-
in the segregated district. The law
against these women is plain and there
is nothing to do but enforce it. If
the law hurts do not blame the offi-
cers who were elected by the people
to see that the laws are enforced,
but rather blame those people who
passed the law and have the law re-
pealed. It is simply a question of en-
forcing the law or winking at it, and
the official who does his duty in law
enforcement deserves the hearty sup-
port of all the people who have the
good of the community at heart.

It certainly is a sorry state of af-
fairs when the prices of wheat and
other crops are fixed and maintained
by a few speculators, whose power is
so weak that news of the threatened
opening of the Dardanelles causes a
panic and a big drop in prices. If
speculators could be eliminated from
the markets it would help matters a
great deal. The producer and con-
sumer should be the ones to fix the
prices.

WRECK ON COAST LINE NEAR DILLON

Rocky Mount, Mar. 1.—Crashing
head-on into the side of a freight train
of Atlantic Coast Line, train No. 83
after midnight last night and Engi-
neer at Dillon, S. C., shortly
after B. H. Clark of this city, and
O. O. Mallory, Bagmen of Richmond
were injured.

The train was moving about 35
miles an hour when the accident oc-
curred and according to indications
at this time it was due to an open
switch, left open by a member of the
crew of the freight train. Neither of
the men injured are seriously hurt.

and while the engine and first bag-
gage car and several freight cars are
badly damaged, a great deal of
wreckage resulted. Few passengers
on the train knew that anything had
happened.

Reading Railway Heads Poverty.

Tronton, N. J., March 2.—To sup-
port its contention that its business
was a losing one, the Philadelphia
and Reading Railroad has presented
an abundance of facts and figures to
the Public Utility Commission of New
Jersey, and today the fares will be
heard. The argument of attorneys for
the commuters who oppose the in-
creases will also be heard.

Love Cools in 15 Minutes.

Chicago, March 2.—According to
Angel M. Broehl, a teacher of lan-
guages, his wife deserted him fifteen
minutes after the wedding ceremony.
He told his story in Municipal Court
last week, but Judge Sabath was pas-
sioned when his wife testified that her
husband was all to blame and she had
obtained a warrant for his arrest be-
cause he deserted her. And so Judge
Sabath scratched his head and held the
case over until today. Broehl said he
fitted up a flat but his wife would not
live with him. The Court of Domest-
ic Relations is trying to bring about
a reconciliation.

WHEN FLIES PLAY POSSUM Explaining Why the Campaign for Their Extermination Should Be Gin at Once.

It is not only in the summer that
the enemy of the fly should be busy,
according to a bulletin issued by the
committee on pollution and sewerage
of the Merchants' Association of New
York, but in the winter as well.
"Kill the winter flies," is the burden
of the committee's appeal, and it de-
clares that now is the time to begin
next summer's campaign, says the
New York Evening Post.

"Most of last season's flies, having
completed their life cycle, are dead,
the bulletin reads, 'but those hatched
late have left their eggs in a favorable
place for incubation in the early
spring, and these eggs will survive the
winter unless disposed of. They will
hatch out during the winter in an even
temperature.

FRAUDS FOLLOW THE WAR Little Doubt That This Conflict Will Be Productive of the Usual Crop of Fakes.

The experience of a New York
jeweler who was taken in by a brace
of swindlers operating as war refugees
and a block of tin masquerading as
platinum is no doubt but the first of
a long line of dupees. The ruined busi-
ness man, the haughty aristocrat fall-
ing on evil times, the impoverished
widow and the demoralized heiress
will become numerous as the birds of
prey make up to their opportunities.

The impostors will have remnants
of stocks of plausible jewelry, lace that
look antique to untrained eyes, armor
that might have been worn in old
chivalric days, but want, pictures
with the dust of the Renaissance car-
fully rubbed into the wet paint and a
thousand other priceless treasures of
falsity. All will be going at bargain
prices not exceeding fifty lines their
real value, and each cheat will be
rendered more powerful by the thrif-
tling tale that will account for its ac-
cure from the debase of some Italian
or Polish or Gallic or Arabian mar-
or minor house. Even the swindler
looter will turn up trying to re-
deem on his body and being scarce
on the part of his victim. The swin-
dlers will be of all nationalities, with
infinite variety of temptation for gulls
not intention rs to meet all

doubts. People with long purses,
short knowledge and artistic aspira-
tions, please take notice.

Teaching Art to Children.
The Children's Hour held under the
auspices of the department of fine
arts, Carnegie Institute, Pittsburgh,
was inaugurated for the season of
1914-1915 a short time ago. J. Taylor,
illustrator, member of the faculty of
the Carnegie Institute of Technology,
gave a chalk talk on illustrations of
interest to children. He was assisted
by Norman Kennedy and J. W. Thomp-
son, both of Pittsburgh. Many inter-
esting subjects have been selected for
demonstration to the children during
the year. There will be exhibitions of
modeling, plaster casting, and vase
craft, as well as talks, illustrated by
lantern slides, on various periods of
painting and architecture. The per-
manent collections and special exhibi-
tions in the department of fine arts
will be utilized for the benefit of the
children.

Russian's Great Work.

A. A. Balakshin, a Russian, is at
the head of the greatest farmers'
union in the world, a most remark-
able organization composed of the
Russian peasantry covering a vast
stretch of fertile land from the Ural
mountains to the coasts of Mongolia.
The chief industry is butter making,
and almost the entire output has found
ready market England. M. Balakshin
assumed the task of organizing the
farmers some years ago, and has suc-
ceeded to an extent not dreamed of at
the beginning. He is regarded with
loving reverence by the 300,000 souls
to whose well being he has devoted
his life, and by whom he is affection-
ately spoken of as "the little grand-
father."

Question.

Several of the leading directors of
the New Haven railroad retired at
the moment when the investigation of
the line became most sweeping.
Commissioner Whitworth Kings of
the bureau of civics said apropos of
these retirements in Pittsburgh:
"It is an occurrence, we are told,
that has no significance. These direc-
tors are overworked. They want a
rest. Hence they retire.
"But I, for my part, studying this
episode, would ask:
"Is there any coincidence? — Chicago
Herald.

Health Work in the South.
At Jacksonville, Fla., on Monday,
November 30, occurs the opening ses-
sion of the American Public Health as-
sociation, and the whole of that week
will be devoted to sessions of the five
sections of the association and to gen-
eral sessions in which gather mem-
bers of all sections.

Not only will the latest develop-
ments in the campaign against the
hookworm disease, diseases among
negroes and other distinctly southern
problems be placed before the coun-
try, but every effort will be made to
stimulate public interest in health
matters, throughout the southern
states, in the hope that legislative and
other public action may be taken to
place that section on an equal footing
with the states most advanced in the
work.

Investigating Committee of Carter-Abernethy Case Is Given Court Power

Raleigh, N. C., March 2.—The pas-
sage of another resolution by the House
last night greatly enlarging the pow-
ers of the Carter-Abernethy investi-
gating committee, the appearance of
Judge Carter and Solicitor Abernethy
with a host of attorneys before the
committee yesterday afternoon, and
some sensational statements there
made, are the latest developments in
a case of state-wide interest.

There is general talk of an extra
session of the Legislature, to convene
at the adjournment of the present
session.

The second resolution introduced in
the House last night by Representa-
tive Freeman of Richmond, was read
three times and sent to the Senate by
special messenger.

Larger Powers.

It confers upon the investigating
committee almost all the powers of a
court. It defines and greatly enlarges
the powers of the previous resolution,
allows them per diem and expense, to
employ counsel, clerks, and stenog-
raphers, to subpoena witnesses, to
adjudge witnesses guilty of contempt,
and \$150 a day. The committee is
authorized to meet in Raleigh and
other places, and the State of North
Carolina is to pay all the expenses of
the investigation.

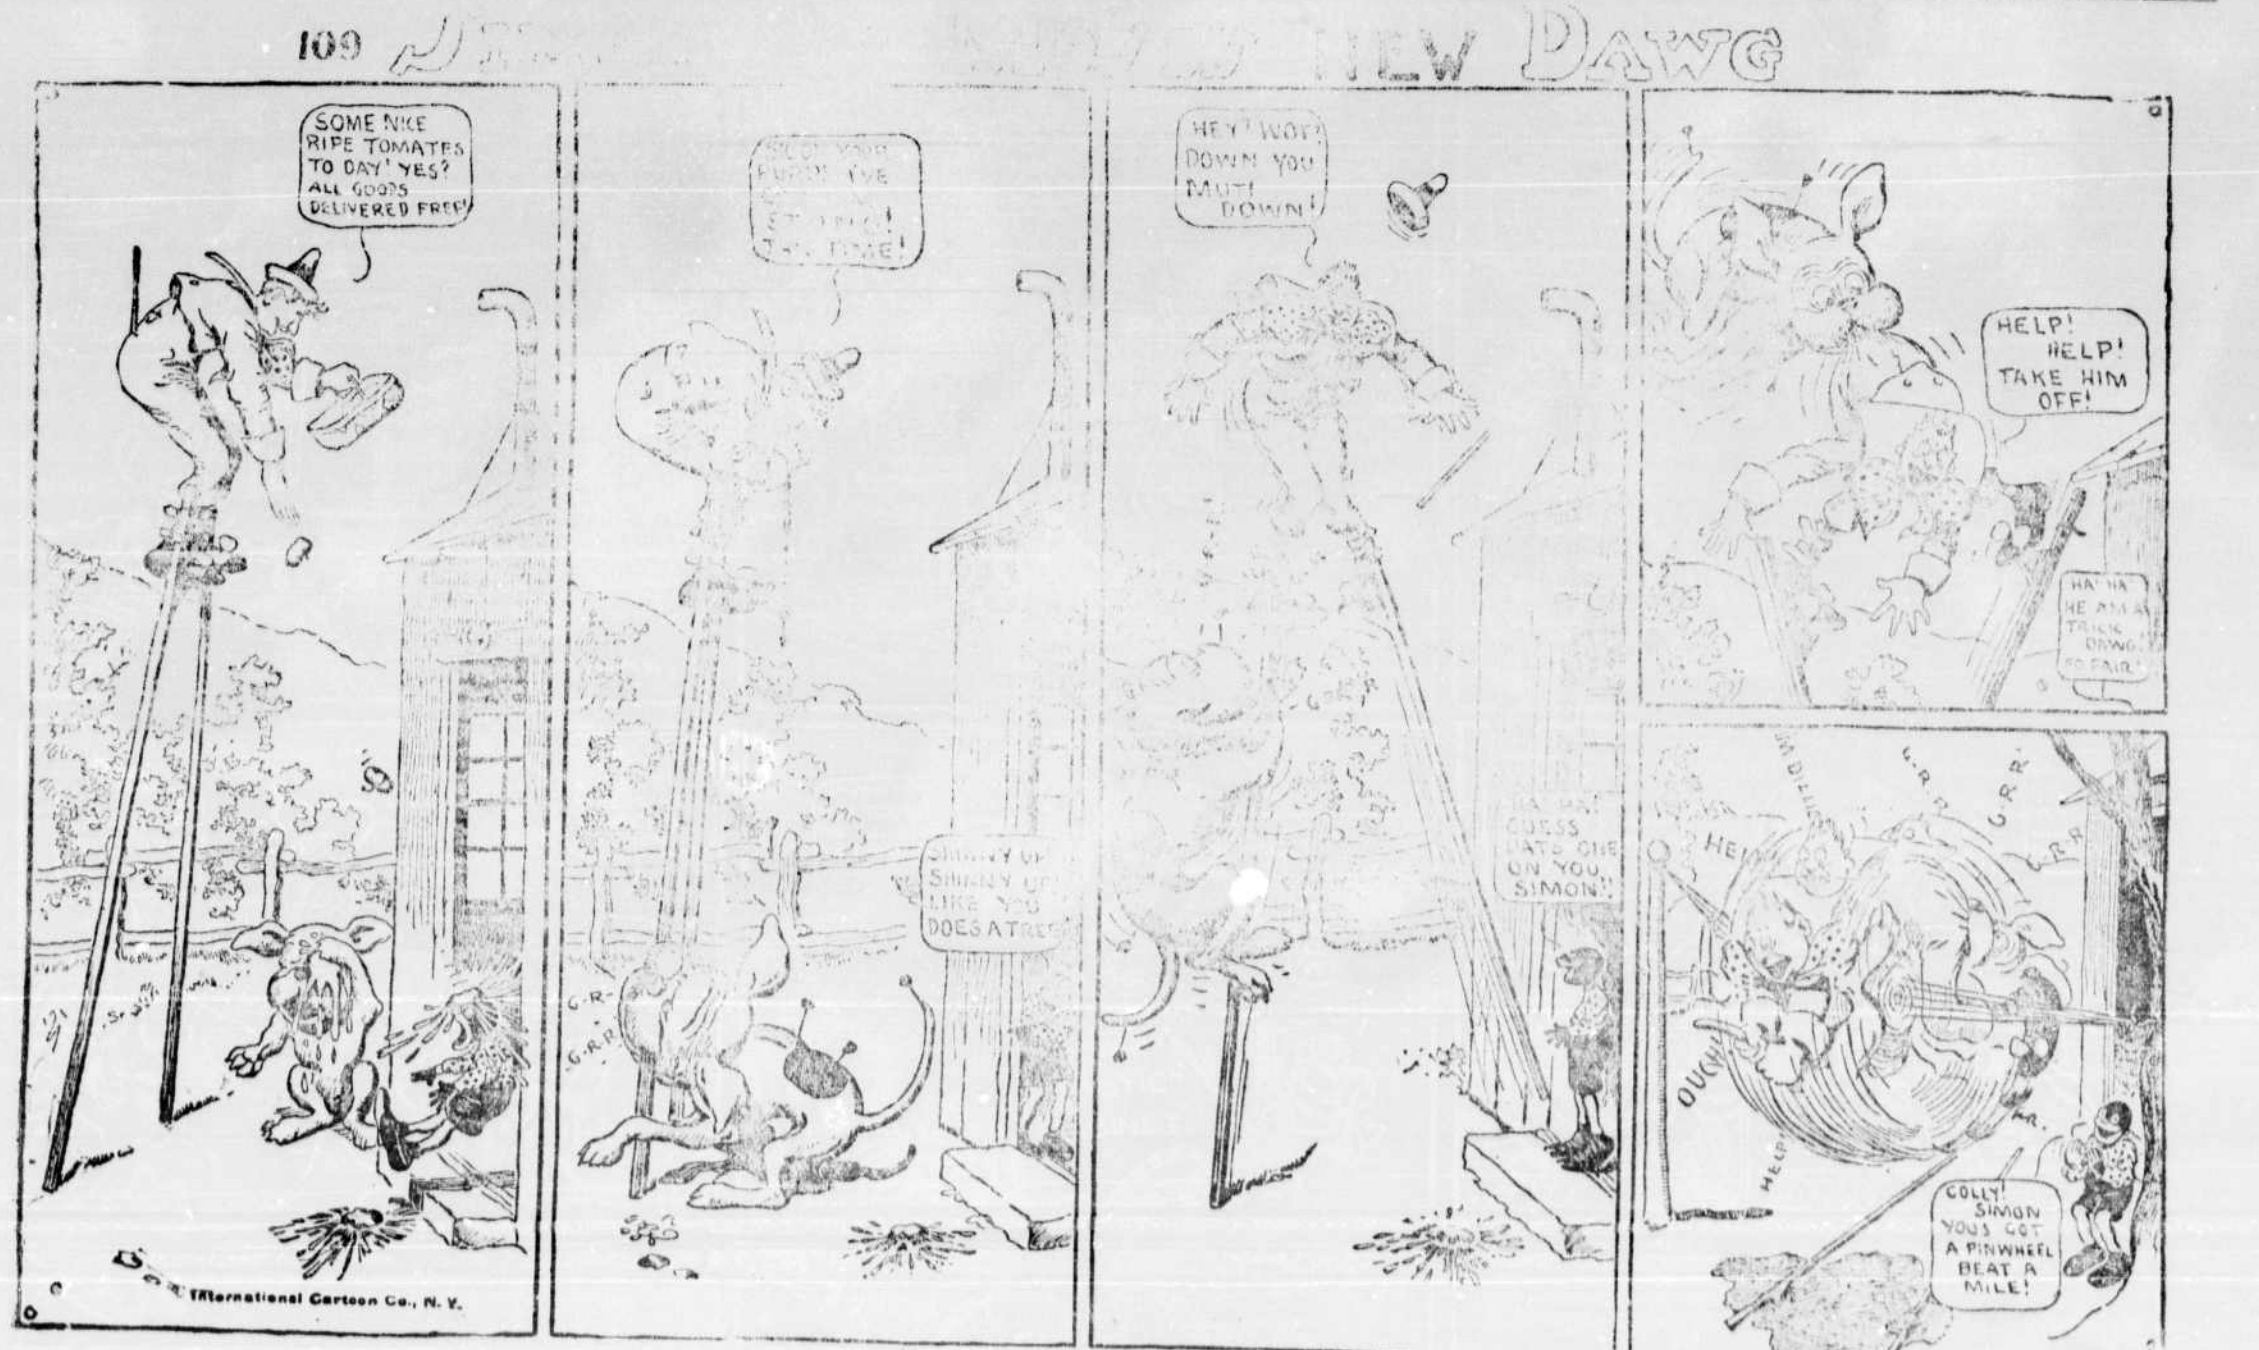

Committee's First Meeting.

The first meeting of the investi-
gating committee was held in the cap-
itation commission rooms yesterday
afternoon. It was strictly executive.
Judge Carter, Solicitor Abernethy, and
a host of attorneys were present. The
next result of the meeting was the in-
troduction of the second resolution
in the House last night.

Ground has been broken and the
excavating is now being rapidly pushed

be carried forward to completion as
fast as it can be satisfactorily done.

New Embargo on Goods Will Seriously Affect The United States

Washington, D. C., March 1.—All commercial intercourse by sea between Germany and the United States was declared postponed today by Great Britain and France. Identical notes presented by the French and British Ambassadors, informed the United States of this drastic step by the allies in reply to Germany's war zone proclamation. The text of the British Parliament.

If this policy is enforced it will no longer be possible to ship cotton manufactured articles and commodities of a non-contraband character from the United States to Germany directly or indirectly, and from Germany the supply of cotton and other merchandise for consumption in this country will be cut off.

Strong Protest Likely. The impression was general in official circles tonight that a strong protest would be made. The allies' action was regarded as an unprecedented and novel step. Officials pointed out that in the reprisals which the belligerents were making toward each other was singular forgetfulness of the fact that whatever might be the violations of international customs as between two countries, at war, this could not affect the status of international rules as between the United States and countries with which she was at peace.

Assurance given by Great Britain that today's note was not a reply to the recent proposals of the United States for an adjustment of the entire situation gave ground for hopes that the measure taken might be only temporary.

Most Complex Problem. Copies of the notes were transmitted immediately by Secretary Bryan to President Wilson. State Department officials admitted that one of the most complex problems of the war had arisen. Officials were unanimous in the opinion that the notification could not be called a "blockade" although it virtually had the same effect. It was noted generally that the communication did not use the word blockade. The notes leave much, therefore to be explained.

NEGRO HOLDS UP WHITE MEN WITH PISTOL; ESCAPES. Late Saturday night when going from Kingston to a wagon with Mr. Travis Stroud and another man, Mr. Sam Taylor and the other two were held up by an unknown negro riding in a cart with a young white man. The negro pointed pistol at the three white men but made no effort to rob them. It occurred on the dark road and the three hurried on until when the negro reached the iron bridge they caught and tried to hold him, but he pulled his pistol again and fired three shots, one of them barely missing Mr. Travis Stroud. The negro then made his escape and who search was made by the officers, who were notified, he could not be found. It is believed that he was drinking and means no further harm than to frighten the white men.—Kingston News.

WOMEN HELP GREATLY NEEDED IN NORTHAMPTON COUNTY. A letter from a prominent merchant of Northampton county whose store is at Hazelton informs us that the farmers in that county are greatly in need of help on their farms. It is said employment can be given to between one and two hundred men a fair wage, with board and lodging furnished free. This letter was sent here because it was reported that there are more laborers in this county than can be given employment and they are needed in Northampton county. Anyone desiring to secure the name of our informant can do so by calling at this office.

Jerusalem is said to have no postmen, policemen or newspapers.

Squibs From Other Squibbers

Blow some cigarette smoke hard against a handkerchief, and you'll get an idea how your grand old lungs lock old socks.—Columbia State.

The North Carolina Peace Society held its annual meeting last week. Probably that accounts for the peace rumors that floated over the country last week.—Spartanburg Journal.

Not Yet But Soon.

So far it does not seem to have occurred to any of the standard Republican organs to blame the Democratic tariff law of the country for the falling off in the revenue of the Bank of Monte Carlo, which followed upon the outbreak of the European war and still continues.—Norfolk Virgin Pilot.

Progress In Ljns.

It was 182 years ago that George Washington was born. He was a true Southern gentleman, possessed quite a collection of human qualities and a noble reputation for telling the truth. In the 14 years that have elapsed since his death, however, the art of lying has made notable progress.—Hous ton Post.

Blind-Thiefism Continguous.

Illegal traffic in liquor in this state causes much more trouble than it generally believed. Farmers say it is next to impossible to hire help in the country especially colored help; that one great reason is so many are dabbling in liquor. They can sell an average of a pint a day and make more money than by working. The same conditions exist in the towns. These men do not mind taking chances, for a road sentence is not so bad, especially in the winter time. The other day in the city court a negro woman who was a nurse for many years and a good one, working in some of the best families in town, was sent to the work house. She saw others selling liquor and went at it herself.—Greensboro Record.

De-struction Without Difference. As far as we are concerned it makes no difference whether the legislature prohibits newspapers from exchanging advertising for railroad mileage or not, but it strikes us it is something the legislature has nothing to do with. The legislature has no more right to say a newspaper cannot exchange advertising for mileage than it has to say John Jones can not exchange groceries with his neighbor John Smith for dry goods. It's a distinction without a difference.—New Bern Sun.

Breaks Solid Democratic Legislature. New Orleans, La., Mar. 2.—For the first time in a quarter of a century Louisiana's solid Democratic Legislature will be broken when it meets in special session this week. Dr. C. Labbe of St. Martin Parish, a Progressive, is the first non-Democrat to be seen at the state capital for many years, and his appearance will be the signal for a cheer.

Putpone Embassy Buildings. Washington, March 2.—From present indications, the Italians are the only foreign envoys who seem to have a chance to obtain their desire to have a new embassy home in Washington. For the war in Europe has indefinitely postponed the building of the French and German and the Austro-Hungarian embassies, which were to have been begun this year. The German embassy had been planned and the designs had been approved. When Baron Speck von Sternberg left for home he had the plans all drawn up to show the Kaiser his ideas of a beautiful embassy at Washington.

Quick Action Wanted. When one is coughing and sneezing with itching throat, tightness in chest, soreness in throat and lungs, when head is aching and the body racked with a cough that won't permit sleep, he wants immediate relief. Thousands testify that backache, rheumatism, sore muscles, aching joints and bladder weakness vanished when Foley Kidney Pills were taken.
