

## Officials Surprised At Mexican Affairs

Bombardment of Sonora Town by Carranza Forces Awakes New Interest.

Nogales, Ariz., Aug. 4.—Bombardment of Nogales, Sonora, held by Villa troops under Governor Maytorena, was begun shortly before noon by Carranza forces commanded by General Calles. The Carranza guns appeared to be only two miles from the border town.

U. S. Officials Surprised.—Washington, Aug. 4.—Major General Funston has orders to use his artillery and shell the Mexican factions out of their positions in any border fighting that endangers Americans. Officials here are amazed at the Carranza attack on Nogales. Carranza had given assurances he had instructed his commander there not to attack the Villa garrison because of the agreement with the United States border to endanger American border towns by fighting.

**PEACH BROUGHT TO THE REFLECTOR.**  
An unusually peculiar peach was handed the Reflector this morning. Upon being opened the peach was found to have twin seed in it. It was a regular looking peach.

## New Faction Up In Mexico Now

The Report Has Been Confirmed of a New Faction in Chihuahua.

El Paso, Tex., Aug. 4.—Confirmation of the existence of a new faction in Northwestern Chihuahua with perhaps 1,500 men was received here today from Columbus, N. M. General Orozco, military commander of Casas Grandes, General Contreras and Colonel Garcia, who are reported to head the new element, in a statement gave as the immediate cause of the conception of the new faction, orders from Villa to proceed south against the forces of Carranza.

"We recognize General Villa as general of the forces of the north, but none of the forces of the entire republic," the statement said. "We recognize General Emilio Gutierrez as the real head of the republic."

The statement declared General Villa "has had many of our comrades executed without cause" and concludes: "We do not want to fight, but we will defend our posts. We want peace. We ask all citizens of all parties except 'biggers' (former Orozco followers) to join in our appeal and efforts for peace."

During its stay at the San Francisco fair only the blind were allowed to touch the famous Liberty Bell.

## The Pan-American Banquet A Success

Over 200 People Gathered at Gate City Last Night to Attend Event.

(Special to the Reflector.) Greensboro, Aug. 4.—Greensboro, the "Gate City," attempted things on a large scale tonight and accomplished results in keeping with the undertaking when the Pan-American banquet was held.

Some idea of the Pan-American banquet given jointly by the chamber of commerce of this city and the State Normal and Industrial College can be known when it is told that seven hundred guests sat down to tables in the spacious dining room of the college. Three hundred of these guests were from various sections of the state and four hundred were citizens of Greensboro.

The banquet, as its name implies, was in keeping with the movement to awaken interest in enlarging trade between the Pan-American countries. Secretary McAdoo has manifested much interest in this movement and he had accepted the invitation to be the chief speaker of this event, but was prevented by sickness of his little child. While disappointment was felt at his inability to come, his place was ably filled by his assistant, Hon. Andrew J. Peters, of Massachusetts.

Large as this banquet was it was admirably planned and ably carried out. After an elegant menu service by ladies of the city, Mr. C. W. Gold, president of the chamber of commerce, introduced Congressman Chas. M. Stearns, who took charge as toastmaster, and the program of speaking followed with Assistant Secretary Peters as chief speaker.

## Discuss Mexican Situation (Continued From Page One.)

tilled to office by constitutional succession has been suggested. Vasquez Tagle, the only living member of Carranza's cabinet who did not resign, is the man most frequently mentioned. General Carranza is known to be opposed to Tagle and might decline to enter into a conference that contemplated his elevation to the presidency.

Carranza's advisers here assert they have strong grounds for believing that the American conference eventually will decide upon recognition of the Carranza government.

Immediate action to relieve distress in Mexico City appears to be generally accepted as one certain result of the president's plans as to Mexico. Should negotiations with the Mexican leaders fail to open and keep open the road to the capital from Vera Cruz, it is freely predicted that American troops and marines may be assigned to the task, possibly with co-operation of some Latin-American countries.

Advices to the Carranza agency tonight said Genoa Naffarete, commandant at Matamoras, has established patrols to prevent bandits crossing the border to plunder American ranches. Naffarete will co-operate with the United States troops to destroy these bandit gangs, the message said.

**Italian Volcanoes Are Throwing Out Boiling Lava And Hot Stones**

**Etna And Stromboli Are In State of Eruption and Inhabitants Are Fleeing For Their Lives**

Rome, via London, Aug. 12.—Dispatches received here from southern Italy indicate that the volcanoes Etna and Stromboli are in a state of eruption.

The disturbance of Etna is causing considerable fright among the inhabitants of southern Italy, and it is already throwing out boiling lava in large quantities. The eruption of Stromboli, however, has not reached a critical stage yet.

The inhabitants of the country in the region of Etna are rushing pell-mell to get out of the range of the burning mountain. Last night the flames issuing from the suddenly enlivened volcano reached stupendous proportions, and the grave fears that have been entertained for several days quickly spread and the whole populace of southern Italy was aroused.

Polish National Committee Sends Out Manifesto Asking for Support.

Vienna, Aug. 11, via London.—The Polish faction in the Austrian parliament has issued a manifesto calling for organization of a kingdom of Poland as an integral part of the Panslavist monarchy.

The Polish national committee, endorsing the manifesto, has issued a call to the people of Polish territory free from Russian domination to send delegates to a general national convention to perfect an organization intended to work for a reunited nation.

"On the night of August 9-10 German airplanes attacked fortified places and harbors on the English east coast," says the announcement.

"In spite of a strong defense, the British warships on the Thames and the London dock, torpedo boats at a point near Herwich and important constructions on the Humber were bombarded. It was observed that the results were good.

"The airplanes returned from the successful expedition."

## Large Shipment of Money Reaches N. Y.

\$52,000,000 In Gold Sent by Bank of England by Way of Battleship.

New York, Aug. 11.—A special train carrying \$52,000,000 worth of gold and securities which had been shipped by the Bank of England from London by way of Halifax, N. S., arrived here today. The train was composed of several steel cars and was guarded by forty armed men.

Of the total shipment \$35,000,000 was in gold and was believed to be in the form of American double eagles. The weight was about seventy-five tons. It was said to be the largest single shipment of gold ever sent across the Atlantic in one vessel.

It was brought over in a British battleship which was conveyed through the war zone and across the ocean by a cruiser and a flotilla of torpedo boat destroyers to guard against an attack of submarines. The cost of transferring it from London to New York was estimated to have been \$250,000.

It was said that the British battleship brought over only the \$52,000,000 in gold and securities for New York but also a shipment of gold destined for Canada, whose treasury recently sent gold amounting to \$125,000,000 to New York.

**TO OUR CUSTOMERS AND FRIENDS**  
Owing to the numerous, unavoidable mistakes made by ourselves and our clerks in the matter of charging soft drinks, cigars, etc., we have decided to put the following articles on a cash basis, to go into effect on and after August 15, 1915, namely: All drinks, ice creams, cigars, cigarettes and chewing gum, etc.

We desire to state to our customers and friends, in making this announcement, that our purpose is not to promote our interest alone, but yours as well. We often fear that, in the rush of business, we charge these articles to the wrong customers; many times they are charged to no one, thereby causing us much waste and loss.

We desire further to state that we have no cause to complain of credits heretofore extended; no loss of confidence in our customers and friends, but, having the assurance that the system herein suggested will be to the interest of our friends as well as to our own, we beg to advise that we have adopted this system.

Chicago, Aug. 11.—Christian Vermaes, soldier, has a deeper respect for the oath of allegiance to Queen Wilhelmina than of his marital vows. His wife may say that he may have followed the honest dictates of his conscience in rallying to the call to arms for his native land, but that he misbehaved before doing it.

**Japanese Plan Naval Maneuvers For October.**  
Tokyo, Aug. 11.—The Japanese navy is planning to hold maneuvers on an unprecedentedly large scale in the seas of the Luchu Islands in the month of October. It is said that 160 vessels of war will participate.

Among these will be the super-dreadnoughts Kongo, Hyel, Haruna and Kirishima. A feature of the maneuvers will be the operation of aeroplanes and submarines. After the maneuvers which will be finished by the end of October, all the warships will probably congregate in the waters off Osaka and prepare for the grand review to be held in celebration of the emperor's coronation in November.

## OWNERS AND OFFICERS OF THE EASTLAND ARE INDICTED

Some Are Accused of Manslaughter While Others Have Charges of Criminal Neglect

Chicago, Aug. 12.—Indictments charging manslaughter and criminal carelessness were returned in the criminal court today in connection with the Eastland disaster.

The captain and engineer and four officers of the St. Joseph-Chicago Steamship Company, owners of the boat, are named as follows:

George T. Arnold, president; William H. Hall, vice-president and general manager; W. C. Steele, secretary-treasurer; Ray W. Davis, assistant secretary-treasurer; Harry Pederson, captain of the Eastland; Joseph M. Erickson, engineer.

Bonds were fixed at \$20,000 each for officials and \$10,000 each for Pederson and Erickson. The two last named are charged with criminal carelessness, and the officials with manslaughter.

The bill against the officials charged: That they knew the Eastland was unseaworthy and had no stability. That they permitted 2,500 passengers aboard the vessel, which is more than its carrying capacity.

That they were negligent in hiring an incompetent engineer who, because of his lack of skill, was unable to control the boat properly. That the crew did not number enough hands to manage and control the Eastland properly.

**Edgar Buck Bound Over To Court Under A Bond**  
James Hines Paid \$1 and Costs for Speeding His Car On the City Streets.  
Edgar Buck, the white man that was caught here yesterday morning with three gallons and a pint of whiskey, was given a hearing before Mayor Dunn this morning and bound over to court under a \$200 bond.

This is the second indictment that has been preferred against Buck on a whiskey charge. James M. Hines was up in police court this morning on a charge of speeding his car on the city streets and was fined \$1 and costs.

**BALKAN DEAL SEEMS TO HINGE ON GREECE.**

Paris, Aug. 11.—A Rome dispatch to the Journal Debates says: "The general opinion here is that Serbia will answer the communication of the quadruple entente powers by offering to cede territory for a fixed sum, in order to avoid responsibility for the failure of the negotiations with the Balkan states, regarding their participation in the war."

"It is difficult to forecast the decision of Bulgaria, for Greece apparently is refusing to make any concessions to Bulgaria."

**Big Earnings by Ships.**  
New York, Aug. 11.—Phillip A. Franklin, receiver of the International Mercantile Marine Company, filed a report today on operations of the American line, of which he is in active charge.

It shows total operating earnings for April, May and June as \$1,655,232 and total general expenses as \$269,486 not allowing for depreciation of vessel and other property.

In connection with Mr. Franklin's report, Charles E. Haydock, secretary of the International Mercantile Company, gave out a statement saying that returns of all the properties, including the Leyland line, for the first six months of current year indicates that the surplus earnings of that period would amount to approximately \$11,000,000.

Senior Carranza, exit.

Ringer's still on the Rhine.

England stands ready to back every move of her allies.

Anyway a suffragist can't go into her clothes fast forward like a man.

We'll be judged in the "captive" "kissed" spectrum of the Kinston Free Press.

Son, when you think you've enough money to get married, buy an automobile instead.

The case of the mayor of Southfield shows further to what extravagance some men will go to satisfy personal desires.

Germans Are Cruel. Head line. Now, Geraldine, war can't always be carried on without butchering up a few.

From a casual glance at the Tarboro Southern, it seems that that paper is no admirer of Mary Ann Butler.

The German aggression is standing up better than the world expected. It might be that Germany will come out on top after all.

Those Mexicans are now in a fair way to get a dose that will knock all the revolution spirit out of them. They ought to, anyway.

Maybe the Kinston Free Press was right when it hinted that those cows that were arrested in Washington the other day were under the impression that they were in Noah's ark.

It's all right for a guy to sit over here and tell what he would do in the event that he was in Europe. But the most of them wouldn't do a thing except run.

By the way, that young phenomena on the Washington Daily News has the honor of putting the news in it.

## WHY COTTON IS CONTRABAND.

Cotton has been declared contraband by the British government, and no more cotton is allowed to reach the shores of England's enemies.

This putting cotton on the contraband list caused considerable speculation in America, and especially throughout the south, because cotton is the chief product of the south and when the south fails to find a market for its cotton the south is the sufferer.

The following remarks from the Philadelphia Public Ledger apply to describe the situation and tell plainly why England put cotton on the contraband list:

"If the British government had made cotton contraband in January, in all probability Germany would now be running short of explosive ammunition," said Sir William Ramsay, England's greatest chemist, at the meeting of the British Science Guild. Sir William left his hearers to imagine that if the British government should now make cotton contraband, Germany might begin to run short of explosive ammunition next January. The basis of his prophecy is the fact that cotton is the chief ingredient of smokeless powder, which is composed of nitro-cellulose of about 12 to 15 per cent nitration. Shells are being poured out by the Germans at an incredible rate. Lloyd George has said that in the case of a desperate attack in Galicia they fired 300,000 rounds of 12 to 15 calibre ammunition. He has also claimed that the German factories are producing 350,000 rounds of field gun ammunition a day. Military authorities estimate that on a round of 12 to 15 calibre, at least 4 pounds of cotton is required for each round. If these figures are approximately correct, the munition factories of Germany require 1,000,000 pounds of cotton a day to supply the field artillery alone with ammunition. This is equal to 200,000 bales a day, or 730,000 bales a year. Further, great quantities of cotton are needed to supply small arms ammunition, to say nothing of material for clothing, both troops and civilians."

North Carolina, Pitt County.

Notice is hereby given that the Board of Commissioners of Pitt County in regular session assembled on the 5th day of July 1915, it being the regular meeting held on the first Monday of July 1915, ordered an election to be held in Farmville township, Pitt County, North Carolina on Tuesday the 21st day of September 1915, at the regular polling place in the town of Farmville for said Township on the question or proposition of issuing Fifty thousand dollars worth of bonds, to bear five per cent interest per annum payable semi-annually, and to run for a period of thirty (30) years, the funds received from the same to be used for the purpose of laying out, establishing, repairing, grading, constructing, and improving in any way the Public Roads in Farmville Township as provided by an Act of the Legislature of North Carolina, Session of 1913, designated as Chapter One Hundred and twenty-two (122) of the Public Laws of North Carolina.

And notice is further hereby given, that an entirely new Registration for said election was ordered and called and that B. O. Turnage was and is appointed Registrar for said election, and that the books for Registration will be opened on Monday, August 16, 1915 and close at sunset on Saturday, September 11, 1915, that on each Saturday during the said Registration period the Registrar will be open at the regular Polling place in the town of Farmville North Carolina, and at all other times during said period will be open at the office of B. O. Turnage in the town of Farmville, North Carolina. And all citizens desiring to vote in said bond election to be held on September 21, 1915, will be required to register.

This 5th day of July, 1915.

There are so many opportunities for enlarging Greenville that it would

be net to useless to mention them.

The chief thing that the town needs, as it now stands, is more manufacturing enterprises. Something to give work to a larger number of people. Get the work for the people and they will immediately flock to Greenville.

To get the ball started to rolling, the local chamber of commerce should get busy at once and advertise the possibilities of this town to the men who have got money and who are looking suitable sites for locating their manufacturing enterprises.

There are a thousand and one ways in which to begin this business of advertising and boosting.

The best plan to do some effective advertising will be to get out a prospectus of Greenville and mail it to every house that can be secured in the whole United States of America.

When some person reads something about Greenville, and incidentally finds that it is a good town, he will want to know more and will promptly write to the local chamber of commerce. Then is the time to tell him what Greenville has to offer.

Let's each boast Greenville for a larger and better town!

## NOTICE

Notice of registration and election, upon the proposition to issue fifty thousand dollars worth of bonds for Farmville Township, Pitt county, North Carolina.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When the tube is inflamed you have a running ear or imperfect hearing, and when it is cured you hear as well as you did before. It is just as simple as that. Deafness is the result of inflammation of the mucous lining of the Eustachian Tube. It is not a disease of the ear, but of the tube. It is not a disease of the ear, but of the tube. It is not a disease of the ear, but of the tube.

That the said election to be held on Tuesday, September 14, 1915, at the Public School house at Farmville, North Carolina, for the purpose of taking and ascertaining the will of the qualified voters of the above described territory, as to whether there shall or shall not be levied and collected a Special School tax of thirty cents on the Poll and ten cents on the One Hundred dollars valuation property in the above described territory, and at said election those favoring the Special Tax shall vote a written ballot containing the words "For Special Tax", and those opposing said Tax shall vote a written ballot containing the words "Against Special Tax".

And it is further ordered that J. J. Ask for 2 ounce original package. The name PERILLINE is blown in bottle. 2 cents.

## "Why you should insure with the National Life of Vermont"

Because:  
It is an OLD LINE COMPANY and has passed the experimental stage.

The contracts, taken as a whole, cannot be excelled. It has more insurance in force in Pitt County than any New England Company.

It is paying larger dividends than any New England Company.

It has 125 Million Dollars Insurance on the lives of Pitt County people.

Its investments are of such character that today notwithstanding the disturbed financial conditions of the country, not one dollar of interest or principal is in default.

It has maintained the lowest death rate of any company of equal age for more than a quarter of a century.

It has no insurance or investments in Europe.

It will not carry over twenty-five thousand on any one life.

It does not invest its money in any fluctuating stocks or securities.

It has increased its scale of dividends four or five times within the last seven years.

It has assets of SIXTY MILLION DOLLARS.

It has around TWO HUNDRED MILLION INSURANCE in force.

And last but not least, we have sold exclusively for The National Life since 1910, and it is our one effort to deal squarely and honestly with all of our policy-holders.

## SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mr. Alry, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that distressing tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists sell it.

Write to Chas. H. Clifton, Medicine Co., Ladies' Advisory Dept., Gloucester, N. J., for Special Literature. It tells you all about Cardui and its benefits for women. It is plain wrapper. N. C. 124

SAYS GERMANS ARE NOT BETTER AGAINST FRENCH.

Davidson, Aug. 11.—Gardyle Sloan, who came in several days ago from Chas. City, Va., was telling today of his experiences in Brest, France, during his four days' stay there with Louis Johnston. He said that the French did not seem to feel that the Germans were very bitter against them or particularly eager to sink their trading vessels. Soldiers told him that their comrades from the trenches in the western section said yards away would call out to them from time to time. "We are not after you. It's the English we want."

IS GREENVILLE'S  
GOVERNMENT DOING  
ITS OWN PART.

Greenville's insurance rates can be lowered as much as ten cents on the hundred dollars if the city maintains a fire department commensurate with requirements set by insurance companies.

Such reduction saves property owners \$3,500 each year, lessens the subjection of property to fire risks, and enhances the profits to be derived from the ownership of real estate.

The city has purchased a fire truck necessitating the expenditure of approximately \$5,000. In order to consummate the purpose for which this expenditure has been made, a man with intelligence and character will doubtless be hired for practically his whole time.

Who pays for all this? The property owner or the renter?

Real estate owners figure it so that rental property brings a rental price sufficient to pay taxes, insurance, maintenance, repairs and a profit.

No criticism is directed to the property owners, the price of his rent, or the purchase of the fire truck. It is all good. Entirely commendable.

It is all right to conserve our city property values, but streets, public buildings, private property, schools, churches, etc. But such assets can not compare with health, life, and physical efficiency.

These are vital assets. Vital because they conceive, construct, complete and put to use all other assets. Nothing our city can be of use except in so far as it can serve man.

Nothing enhances happiness, progress or efficiency so much as health. No town can hope to conserve life until its government gives due consideration to sanitation.

Small towns have become cities because government solved this, the problem that touches vitally the interests of the average man. Its solution invites his immigration, promotes his happiness and furthers his prosperity.

The average man prizes high taxes to disease, pain, inefficiency, death, doctors' bills and funerals.

When handicapped by sickness, he can not produce, consequently he gets into debt and despondency. In other words, sickness converts him from an asset into a liability.

Property contaminated by infectious or contagious disease is bad property. It will not rent to people who have intelligence enough to look into its history. It is not worth protection from fire. Prove it to be unhealthy and it will neither rent nor sell. It makes people who occupy it uncomfortable.

Therefore the average man abandons it for a healthier place, and damns it for a death-trap ever after.

In other words, the great truth has at last come to the average man that a home saturated with infectious disease is dear at any price.

Sanitation is common knowledge now. Schools both white and colored, are teaching it every day. Children know more about it than grown-ups. Your cook's child can teach you things about it that perhaps you never knew.

In the face of these facts property is being rented today in Greenville without regard to sanitation. Mr. A. may put his property in first-class condition but Mr. B. fails to do so. What are we going to do about it?

Shall we continue to go on record as a municipality with surface privies draining into open ditches, which ditches, according to our State Laboratory of Hygiene, are dangerously polluted?

Can we afford to longer permit conditions to exist that according to United States public health authorities are breeding anophelous mosquitoes sufficient in number to infect our whole town?

Are we going to delay longer sanitary reforms that our county health officer has advised, urged and given detail plans for?

Man's protection against infectious disease can be had, but like all things worth while it has its price. To have it costs money, brains, effort, and co-operation.

To do without it costs stagnation, inefficiency, dissipation to the average man, disease and death.

Throw aside Christianity, Sociology, Humanitarianism and all the higher sentiments if you will. Study the proposition from that solid but important standpoint of how it hits the pocket nerve and even business judgment will force the conclusion that it is economical, wise and best.

To delay longer is suicidal to the growth of a municipality whose government values both property and the safety of human beings.
