SUPREME COURT DECISIONS FOR FIFTH DISTRICT

Reverses Decision of Judge Bond In Favor of Solicitor C. L. Abernethy's Salary. NO FEES ATTACHED TO HIS \$600 SALARY

Four Other Cases From Pitt County Passed On At Yesterday's Session.

RALEIGH, OCT. 14.—The Supreme court, in opinion written by Justice Platt D. Walker, yesterday reversed the decision of Judge W. M. Bond in favor of Solicitor Charles L. Abernethy in his controversy with the Commissioners of Pitt County. Solicitor Abernethy contended that the construction of an act of the last legislature allowing the solicitor \$600 annually to be paid monthly from the treasury of Pitt in lieu of fees now provided by law, meant that he is to receive this amount and in addition thereto such fees as the defendants themselves pay in the criminal court in cases where they are convicted. The Supreme court held otherwise. Opinions were handed down as follows yesterday: 173—Kilpatrick v. Harvey from Pitt, appeal dismissed. 180—Abernethy v. Commissioners, from Pitt, reversed. 183—Hampshire v. Lang, from Pitt, affirmed. 190—Sugg v. Town of Greenville, from Pitt, new trial.

The controversy between the commissioners of Pitt County and the solicitor was submitted without action to Judge W. M. Bond to interpret statute passed by the last legislature. According to the wording of the statute the commissioners are authorized to cause the "treasurer of Pitt county to pay to the solicitor of the Fifth Judicial District the sum of six hundred dollars annually, to be paid monthly in lieu of fees now provided by law, which the said solicitor would receive from time to time from the county of Pitt on account of convictions in the criminal courts of the county, by the said solicitor."

The difference of opinion was that the solicitor on the one side contended he should receive those fees which the solvent defendants themselves, upon conviction, paid in the court in addition to the six hundred, while the commissioners thought otherwise. The latter were supported by the opinion of the representatives of the county. Senator F. C. Harding and Representatives J. J. Laughinghouse and J. C. Galloway.

MANY LOCAL CHURCH MEMBERS ATTENDING THE AYDEN REVIVAL

During the past week that the Ayden revival, conducted by Evangelist Percy Cross, has been in progress several people from different churches of Greenville have been in attendance from night to night. Dr. Cross made many friends during his five week's stay with the Christian church at this place that are interested in what success he may have with the Ayden church.

BLOCK SALES YESTERDAY ON LOCAL MARKET

For The Second Time This Week Warehouses Have Been Unable to Finish Their Sales. OVER 500,000 POUNDS WERE SOLD EACH DAY

Greenville Holding Good On High Prices—All Grades Selling Well. For the second time this week, and two days in succession there were block sales on the local tobacco market yesterday. On Tuesday, with over 500,000 pounds, two of the seven warehouses were unable to sell, and yesterday with equally as much of the weed here, two other houses were forced over to this morning's sale. Although the number of pounds won't reach the million mark today, it will require every minute of the sale hours to finish on all the floors, several of the houses being filled from wall to wall.

The number of pounds that have been sold on the local market this week has surprised many of the warehousemen, it being far above their expectations.

As was published in THE REFLECTOR yesterday the Greenville market ran second for the number of pounds sold during the month of September, and if the sales continue as heavy for the remainder of October as they have been for the first part, Greenville will no doubt make it close for Wilson on the top round on the number of pounds.

No market in North Carolina have made better averages than have been made by the growers selling on local floors, in fact some of the local warehouses are leading the state.

50 TONS OF DYESTUFFS ARRIVE FROM GERMANY

WASHINGTON, OCT. 14.—Fifty tons of coal tar dyestuffs of German manufacture arrived in New York today on the steamer St. Louis, consigned to the Secretary of Commerce. The shipment is for the account of Wm. A. Mitchell, of Lowell, Mass., representing the National Association of Cotton Manufacturers. In a statement the Commerce Department said: "Several months ago the secretary consented to act as consignee of two cargoes of dyes from Germany for which safe passage was assured by agreement upon the express condition that the Secretary of Commerce would be the consignee. The embargo upon the exportation of these cargoes from Germany has not been lifted. Arrangements were, however, made by American manufacturers with the British government whereby that government has permitted the exportation to the United States of the dyes coming on the St. Louis. It is hoped that this is the first of a series of similar shipments."

BULGARIA IS THE TWELFTH ENTER CONFLICT

Declares War On Serbia Says News Dispatch Sent Out From Paris. GREECE SORRY BUT WILL NOT ENTER WAR

Airships Drop Bombs On London Killing and Injuring Many. LONDON, OCT. 14.—Bulgaria has declared war on Serbia, according to a Central News dispatch from Paris. The decision of Bulgaria, the twelfth nation to enter the war, to join the ranks of the belligerents on the side of Germany, Austria and Turkey, was reached only after a diplomatic battle waged for months between representatives of the Teutonic allies and the quadruple entente. Each side offered tempting inducements in an effort to gain another ally but the Bulgarian government finally decided the central powers had made the higher bid. Bulgaria is rated as one of the most powerful of the Christian Balkan states. Her army while considerably smaller than that of her neighbor Rumania, is well drilled and equipped. Her military strength on a peace footing is only about 55,000 but in time of war she is able to put into the field something like 300,000 men.

Since the second Balkan war in which Bulgaria fought Greece, Serbia and Montenegro, after the victory of all four nations against Turkey Bulgaria has been isolated to a certain extent from the other Balkan states. The second war, which resulted from a dispute as to the division of territory won from Turkey, was not participated in by Rumania, which also kept out of the first Balkan conflict. Rumanian troops invaded Bulgaria, however, and forced the latter to make territorial concessions.

DIES FROM AN ATTACK OF ACUTE INDIGESTION

Dr. R. M. Johnson Passes While Attending Baptist Association at Robersonville. LEADING CITIZEN OF EASTERN CAROLINA

For 20 Years Co-Worker of The Late Noah Biggs of Scotland Neck. Dr. R. M. Johnson, of Scotland Neck, one of the leading citizens and philanthropists of Eastern Carolina and vice-moderator of the Roanoke Baptist Association in session died at Robersonville yesterday afternoon following an attack of acute indigestion. Dr. Johnson read the report on Thomasville Orphanage and delivered a brief address then taking the chair as moderator. Mr. Archibald Johnson was addressing the association when Dr. Johnson left the platform and quietly entered a side room of the church. Immediately a request was made for a physician, but none being present, an automobile was rushed after one. In ten minutes after leaving the platform Dr. Johnson was dead.

The announcement made to the association was immediately followed by adjournment. Dr. Johnson was for twenty years the co-worker of the late Noah Biggs, of Scotland Neck, and a leading worker in Baptist denominational work. The remains were to be taken to Scotland Neck last night.

Dr. Johnson was apparently in perfect health and was happily bantering Mr. Archibald Johnson a few minutes before his death.

Dr. Johnson was well known throughout the eastern part of the state and his sudden death will be keenly felt where ever he is known.

BRIDGE WORK BLOCKS TRAFFIC

For More Than Two Hours All Travelling Over County Bridge Brought to a Halt. Traffic on the county bridge across Tar River was blocked yesterday afternoon for more than two hours, on account of some repairs that was being made on the bridge that necessitated that the draw being left open during the entire time the work was in progress. Before the draw was closed wagons and other vehicles were blocked for several hundred yards, both going from and coming into town.

COUPLE MARRIED HERE LATE YESTERDAY

Mr. R. W. Barnes and Miss Grace Fields, of Halifax county were married yesterday evening at four o'clock in the memorial Baptist church. Rev. H. N. Blanchard was the officiating minister.

N. C. TOBACCO CROP VALUED AT \$34,000,000

Crops of The State Worth Around a Quarter Million Dollars. FIGURES ARE FAR IN EXCESS OF 1914 TOTAL

Though Not As Many Bales As 1914, Cotton Will Bring More. WASHINGTON, OCT. 14.—The average North Carolina man does not realize the extent of the agricultural activities in his State. He has but little conception of the real value of the crops produced. In round figures the crops of North Carolina for 1915 will bring in excess of \$218,320,000. That is far in excess of the value of the crops of the State in 1914.

Here are figures that should be posted from one end of the State to the other: The cotton crop of North Carolina for 1915 will amount to but 685,000 bales but it will bring at least \$29,022,500, a few hundred dollars more than the big crops of 331,000 bales of last year.

Other Crop Figures

Other crops and their values for 1915 are: Corn, 186,950,999 bushels; value \$55,657,400. Tobacco, 186,550,000 pounds; value (estimated) \$34,000,000. Oats, 5,590,000 bushels; value, \$3,520,000. Wheat, 11,267,000 bushels; value \$13,182,250. Rye, 322,000 bushels; value, \$404,720. Potatoes, 3,026,000; value, \$1,906,380. Sweet potatoes, 8,290,000 bushels; value, \$6,065,600. Buckwheat, 265,000; value, \$159,900. Hay, 473,000 tons; value, \$7,509,900. Apples, 1,827,000 barrels; value, \$2,841,270.

The crops mentioned here represent but three-fourths of the money-crops of the State.

North Carolina is producing enormous quantities of food products as well as a good yield of cotton.

The war in Europe forced the farmers of North Carolina to do what they have been doing for years—grow home supplies. The figures of the department of agriculture show that more corn, wheat, oats and garden crops were planted in 1914 for fall harvest of this year.

What is more important the cotton crop of 685,000 bales for 1915 will bring the farmers of the State a little bit more money than the 331,000 bales crop of last year did. The South gets just as much for a small crop as it does for a large one, and the surplus energy for the larger crop goes into corn and other food products.

Cost of living to the average poor man in North Carolina not so fortunate as to have a farm, has been reduced by a greater yield of hog and hominy.

UNSUCCESSFUL ATTEMPT CAPTURE ALLIES POSITION

French Put Stop to Attack Made By The Germans Near Souchez. SLAY VICTORY IN GALICIA CONFIRMED

General Ivanoff Has Broken The Austro-German Front. PARIS, OCT. 14.—The Germans last evening attacked the French positions near Souchez, according to the French war office announcement today and were everywhere repulsed. There has been artillery fighting of particular intensity between the Somme and the Oise, near Audenry, and to the east of Rheims. Furthermore, German batteries have delivered a violent fire to the south of Tahnare and to the east of Butte de Meunil.

French Lose Trench in Vosges. In the Vosges the Germans gained possession of a French trench. The text follows: "At the conclusion of the bombardment yesterday, the enemy last evening delivered an infantry attack against our positions to the northeast of Souchez. These attacks, like the preceding ones, were everywhere completely repulsed.

Last night saw artillery actions of great intensity, in which both sides took part between the Somme and the Oise; in the region of Audenry, and to the east of Rheims, in the direction of Moronvillers. Batteries of the enemy have delivered a violent cannonade in the region to the south of Tahnare and to the east of Butte de Meunil. Our artillery held this fire back effectively, and in the meantime we were making further progress from trench to trench at a point to the east of the earthworks known as the "Trapeze."

There has been fairly intense fighting with trench machines in the sector of Flirey, and more violent fighting accompanied by artillery exchanges in which both sides took part in the suburbs of Reillon.

Attack a Failure. In the Vosges, the enemy, after a complete check to his attack along the front from the Lange to the Schraetzmann, resumed his effort yesterday evening. A second outburst of artillery fire along the entire front, in preparation for an infantry advance, was followed by a fresh attack which, generally speaking, resulted in failure. The Germans were able to gain a footing in our first line trench at one point, and this was to the south of the Lange hills. The trench they took was between sixty and eighty yards long. Our counter-attacks made it possible for us to recapture a portion of this trench immediately.

If the North Carolina Department of Agriculture had the lungs and money the Montana Department of Agriculture had the Tar Heel producers would be advertised from one side of the United States to the other. The farmers are growing the stuff to make them rich, the prices are improving, and the markets expanding.

WE NEED MEN

In a time like this when more than half the world is gripped with war, the United States needs men. It needs men who have a clear insight into the nation's affairs, and men who are unselfish. We believe that we have men at the head of our government, who measure up to these qualifications, but these men need the aid and cooperation of other men.

They need the help and influence of the brightest thinkers in this country, and the men of wealth. That one of our great American firms, the Morgan's, should be the appointed agents of the British government, spells disaster for this country, unless the power that they have is offset by the power of men just as great.

Every person in the United States, whether strong or weak should lend his aid to the administration in keeping the country level headed.

WE MUST HAVE BOTH FOR SERVICE

Following is something that ought to be impressed upon the mind of every school boy in the United States.

"We will take a heavy weight, bullet-headed pugilist for example number one.

"For example number two we will take a tall, thin, slender, studious, learned professor—a teacher of languages, say, in a big university.

"According to their lights, they are both O. K. With one swipe of his mighty arm the pugilist can lay the professor low, can't he?

"To make it very plain: The pugilist by reason of his trained, developed body can wipe up the ground with the professor in a jiffy!

"If the professor and the pugilist were alone on an island in the middle of the Pacific, and there was room for only one of them, it is the pugilist who would survive, isn't it?

Then the pugilist would find himself a wife somewhere and he would go ahead bringing more PUGILISTS into the world.

"Now wouldn't it have been a good idea for the professor to have trained his body as well as his mind, so that if ever he were thrown into this predicament, it would be the professor and not the pugilist who would survive?"

"Wouldn't it be better for you and me to have some young professors born, rather than a lot of pugilists?"

"And the professor could do it, too—for he is so far superior to the pugilist in the matter of brains, that he could easily master the brute-man if he gave his body proper attention.

"This is most earnestly recommended for personal and thought to peace-at-any-prices."

KITCHEN MAY NOT BE NOTED

The Durham Sun has just completed a very novel plan by which it proposes to let the people know just how the Congressmen stand on the matter of increasing the army and navy. Most all the United States Congressmen uphold the army and navy increase plan, but our Democratic leader in the House, Congressman Kitchin, says he will oppose it. Following is the letter Congressman Kitchin wrote the editor of the Sun:

"I am opposed to the big navy and army program now being agitated with so much energy throughout the country, especially by the financiers and manufacturers of war equipment and their subtle, ramified organized and powerful influences. I shall not support in the next Congress the eight, six or four battleships or dreadnaught proposition, nor the 500,000 or 250,000 army increase proposition, nor the \$500,000,000 (more than double the annual appropriations heretofore) appropriation proposition for the army and navy. Whether Congress will vote for such an immensely increased appropriation depends on the president's attitude. If he insists on the increase, Congress will vote for it. If he does not insist, in my opinion, Congress will not vote for it."

If what Congress proposes to do rests on what President Wilson says, then there is no further cause for us to worry. We will be sure to get the increase both in the navy and the army, and we should get it, too.

Congressman Kitchin reminds us of the Irishman who built a barn of bricks and without a door. When his son told him about it, the Irishman said, "Son, you'll be as great an architect as your father is a builder."

LET GREENVILLE KEEP UP THE PACE

We are unusually pleased to see the many marked signs of progressiveness and improvements that are daily going on in and around Greenville. We believe that it bespeaks good times for the future, and though the present generation may not live to benefit from it, we are sure that if the present generation here leaves to posterity a growing and live town, that it will be remembered with fondness.

Building operations in and around Greenville are always on the boom. There is hardly a day passing that some new building is not reported to be under construction, or one planned. The pace Greenville has set is a good one, and one

that should, by all means, keep up as long as she possibly can.

Were we to enumerate the many opportunities here we would have to devote a whole edition of the paper to do it, but we can, in a few words, tell what Greenville has and what Greenville needs.

Everyone knows that without something to make the start, there will not be much marked advancement here, but with a Chamber of Commerce that has some life in it, there is some to be something doing on a great scale.

Our Chamber of Commerce is now making some great strides forward, but for some cause, it is used to be so prominent in working for the good of the town. We have repeatedly asked that it be reorganized, and that it set about with an advertising campaign in an effort to get new industries to locate in Greenville.

It seems that, in spite of all our pleadings, the Chamber of Commerce is destined to be a quitter, it seems that it has lost the vim and enthusiasm with which it once labored, and it is to arouse this enthusiasm that we are now striving.

We have good wide-awake business men in the Chamber of Commerce, but they are doubtless too busy with their own affairs to devote as much time as they should to the work of advertising Greenville.

We must have a Chamber of Commerce that can devote more time to the business of advertising Greenville. It is to those ends that the people, who are interested in the advancement of Greenville, should work, and it is to them that we address this article.

Greenville wants to keep up the pace she has set. Everybody living in Greenville wants her to do that, but none desire it more than we do.

We now leave it to the progressive Greenville people to say whether or not they will make it possible for Greenville to keep up that pace. Will they see to it?

The plan to reach man in North Carolina to contribute one day's wages to the cause of the orphans is indeed a noble one, and one that should be taken hold of by the people of North Carolina. We should do all that lies in our power to help those made destitute by the death of their parents.

HAIR DRESSING

Hair dressing is a form of social relaxation indulged in at stated intervals by fortunate women who do not have to mingle with the dinner dishes or figure out the specifications of a corn starch pudding. It is confined largely to the city, where thousands draw avoiron salaries for laboring from time to time in the presence of a pretty stenographer and an electric fan.

There is very little recherche hair dressing done in the country aside from the home-made brand, which consists in letting the hair fall carelessly into a tin tub and rubbing it vigorously with hot soap, after which it is strung over the back porch railing and attacked with a palm leaf fan.

An energetic woman who starts this process immediately after the luncheon hour and has help from one of the neighbors can easily have her hair up and the soap out of her eyes by dinner time. This treatment causes the hair to stand out from the head in a profuse and threatening manner, and makes the use of store ballast unnecessary for several days.

In the city hair dressing is done by women who learned the trade in the country, but who have added several expensive improvements, such as the Palm Beach shampoo, the Bordeaux bleach, the Bar Harbor twist, etc. Some of these improvements are considered wholly unnecessary by mercenary husbands who are unable to appreciate their hair worth until the bill is presented. And yet, human nature is so constructed that these same husbands would howl all the way from the front steps to the theatre box if their wives came down looking like a kitchen mop in an opera cape.

It is the function of the hair dresser to take a head of hair which is not inclined to point in any one direction and ornament it with capulas, water-balls and lattice work. This requires considerable time, but after the work is finished the hair will stay in the same spot for a week, provided the customer sleeps in a high-backed chair and a rubber nightcap. Some of the finest creations of the hair dresser's art are accomplished with hair which is not fastened to the customer's head by anything but the law of gravity.

Owing to a pronounced and lamentable scarcity of raw material, men seldom go to the hair dresser, preferring to consult some barber who will shampoo what they have left in a subdued and sympathetic tone.

<h3>LOCAL COMPANY HAD A \$25,000 SALE YESTERDAY</h3> <p>Atlantic Coast Realty Company To Sell Near Here.</p> <p><b>C. S. FORBES' FARM</b></p> <p>Will Give a Barbecue Dinner at This Sale and Furnish Music by Company's Brass Band.</p> <p>Mr. K. W. Cobb, sales manager of the Atlantic Coast Realty company arrived in the city this morning from Hopewell, Va., at which point his company yesterday sold twenty-five thousand dollars worth of town lots. Mr. Cobb came to Greenville to take charge of a sale of the C. S. Forbes' farm at Arthur, N. C. This valuable farm has been subdivided and will be sold at auction Monday, November 24 at 10:30 a. m. This farm is known as one of the best tobacco farms in Pitt county and will raise all other crops in abundance. The Atlantic Coast Realty company will give a big barbecue dinner as usual and their All Star Band will furnish music. A large crowd is expected from Greenville, Farmville and the surrounding country.</p>	<h3>BREWER LOSES MAGIC WAND</h3> <p>Officer Just Can't Hold Up His Whiskey Getting Record.</p> <p><b>TRIED TWO TODAY</b></p> <p>Other Officer Beating Him in Whiskey Catching—Brewer Finds Quart of Whiskey and One Vinegar.</p> <p>Despite of his every effort to hold it, Officer Brewer is of the opinion that he has lost the magic wand that he once possessed. For some time Brewer has been known as the officer "that could get the whiskey," but to his sorrow, he no longer is able to hold sway over the boys that bring in whiskey from Virginia.</p> <p>Only yesterday Officer Briley put it over Officer Brewer by getting six pints.</p> <p>Brewer started out today fully determined to reclaim the blue ribbon for whiskey catching, but up until two o'clock he had not been able to get anything worth holding, and about all that he had done was to give two very black negroes a pretty good fight.</p> <p>The first of them alighted from Atlantic Coast Line noon train. He got off on the off side of the track. Now that was within reach, suspicious, and why shouldn't the zealous officer naturally look out for him. He did, but what he found was a suit case filled with much soiled overalls.</p> <p>Next the officer saw an ancient looking negro plodding his way citywards with a much abused suitcase, and the negro had a wobbling walk.</p> <p>Cautiously, the officer followed him and peering through a large rent in the side of the suit case, he saw two quart bottles reposing among some</p>	<h3>TURKS ACCUSE THE RUSSIANS OF GREAT CRUELTY</h3> <p>Say Moslem's Have Been Violated by Russians.</p> <p><b>FROM TURK EMBASSY</b></p> <p>Say Russians Were Aided by Armenians and Greeks—Turks Have Been Asked To Stop Their Massacres.</p> <p>WASHINGTON, OCT. 22.—The Turkish embassy today issued an official report from the general Ottoman headquarters charging that many atrocities have been committed against the Moslems on the Caucasus frontier by Russian troops assisted by the Greek and Armenian population.</p> <p>Bands of Russians, Greeks and Armenians are accused of attacking many women and having pierced the cheeks of babes so that they starved to death.</p> <p>TRIPHS, THIAS-CALCASSIA, OCT. 21, VIA PETHOGRAD AND LONDON, OCT. 22.—The Armenian newspaper, Malak estimates that of the 1,200,000 Armenian inhabitants of Turkey before the war there remain not more than 200,000. This residue, the Malak says, may disappear before the end of the war on account of the Turkish policy of extermination.</p> <p>LONDON, OCT. 22.—I do not know what steps the neutral governments may have taken but the Vatican has made earnest and repeated appeals first to the Turkish government to stop the massacres and then to the German and Austro-Hungarian governments to bring pressure to bear upon the Turkish government with the same object.</p>	<h3>CLAIM ECLIPSE IS SIGHTED</h3> <p>Report by Navy Department Says Yacht Seen.</p> <p><b>IN POTOMAC RIVER</b></p> <p>Report, However, Has Not Been Confirmed and It May Be False Alarm Spread.</p> <p>NORFOLK, OCT. 22.—It reports that have come to the Navy Department concerning the yacht Eclipse, on which six officers of the interned German cruiser Kronprinz Wilhelm sailed ten days ago, are true, it is probable that the little craft with all of its passengers, is at the bottom of the Chesapeake Bay.</p> <p>Captain Chiswell of the Onondaga, of the coast guard service, has reported that he has learned that a vessel answering the description of the Eclipse was seen in the Potomac river on last Thursday afternoon, standing up the bay toward Baltimore. The craft was a yawl-rigged yacht under sail and power; appeared to be about fifty feet long, painted white, with cabin and cockpit; lofty foremast and short jiggermast, well aft, with jigger over the stern.</p>	<h3>TOWER MAN HAS NARROW ESCAPE FROM DEATH</h3> <p>Tramps Set Fire To Tower and Keeper Jumped Thirty Feet.</p> <p><b>FIRST FLOOR BLAZED</b></p> <p>Whole First Floor in Flames When Man on Second Floor Learned of His Deadly Peril.</p> <p>(By The Eastern Press)</p> <p>ROCKY MOUNT, OCT. 22.—Tramps last night set fire to an interlocking tower of the A. C. L. railway about four miles from here in a southerly direction, and Boggett, the keeper of the tower had a narrow escape from being burned to death.</p> <p>The tramps, it is thought, had alighted from some south bound freight train and thinking to do the company damage, set fire to the tower. It was a two story structure, and the first floor was in flames before Boggett learned of it. He was on the second floor and saved his life by jumping thirty feet to the track.</p> <p>No trace has been found of the tramps, but the officers down the road have been notified.</p> <p>Choir Practice</p> <p>There will be choir practice at the Christian church tonight and all the members are urgently requested to be present.</p> <p>Mr. K. W. Cobb returned home this morning from Petersburg where he has been looking after some sales for the Atlantic Coast Realty Company.</p>	<h3>PHONE EXCHANGE SOON FINISHED</h3> <p>New System Almost Ready To Begin Operation.</p> <p><b>SEVERAL MEN HERE</b></p> <p>Cables Being Laid In Congested Business Districts—Cannot Be Stated Definitely When Operation Will Begin.</p> <p>Work is being rushed rapidly to completion on the new telephone exchange which is expected to be ready to start operation within a few days.</p> <p>A large force of men have been here for several weeks getting everything in readiness for the opening, and for the last two weeks work has been progressing on the laying of some cables in the more congested districts of the town. This required a good deal of work, as the pavement had to be cut up, and the cables laid several feet below the ground.</p> <p>It is said that when the exchange here is completed and put into operation, that it will be one of the best to be found anywhere in the world, and outside of that it enjoys the distinction of being the first of its kind ever to be built anywhere in the world.</p> <p>The telephone building, which has been completed, is regarded as one of the finest small buildings in the town, and it greets the eye of a visitor immediately when he starts up town from the railway station.</p> <p>It cannot be stated with accuracy yet just what day the business will be transferred from the old exchange to the new, but it will be within a few days.</p> <p>There will be a dance to-night at Hines' Hall. Everybody invited. 10-22-15</p>
<p>Wife Too Wise.</p> <p>"Where are you telephoning from dear?"</p> <p>"From my office, honey."</p> <p>"No, you are not. I can tell the difference between the click of a typewriter and the click of post balls." Louisville Courier-Journal.</p>	<h3>PITT MAN TOOK FINE PRIZES AT THE STATE FAIR THIS YEAR</h3> <p>Mr. J. B. Tucker, who lives near Greenville, has just returned from the State Fair at Raleigh, and Mr. Tucker was the only man from Pitt county that had an exhibit at the fair this week. Mr. Tucker's exhibits were of white leghorn chickens and corn, and it is gratifying to the people of the county to know that he captured three first prizes and two second prizes. The three first prizes were awarded for the chickens while the two second were given on the corn.</p> <p>There were exhibits there this week from many counties in the State of leghorn chickens, but Mr. Tucker was successful inasmuch as he had the good fortune told above. The competition between the counties was particular strong, says Mr. Tucker, but "one just couldn't get ahead of Pitt."</p> <p>It is intimated by many of the farmers that have returned from the Fair that they are unusually sorry that they failed to take advantage of the chance to take exhibits to the fair, and it is thought that next year will find Pitt county represented with many fine exhibits.</p> <p>Those people who have returned say that the exhibits there this year were better than has ever been before and that the attractions all over the fair grounds this year were the best ever.</p>	<h3>MAYOR IS BEING MUCH WORRIED</h3> <p>Many Local People Have The Idea That He is Responsible Because Poles Put Up.</p> <p>Mayor Dunn says that he is being much worried these days by many of the local people who call him up to tell him their grievance because the telephone company is putting up poles on their property. The mayor says he can't understand why the people think he is to blame for it, because he has, absolutely nothing to do with it.</p> <p>The mayor states that the ladies are giving him a hard run on this score.</p>	<h3>AYDEN BUILDING MUNICIPAL PLANTS</h3> <p>Much Progress Is Being Made On New Water and Light System.</p> <p>AYDEN, OCT. 22.—Construction work on the water, light and sewer system is now well under way, while the workmen are making a great amount of progress in the excavation work.</p> <p>Sewer pipes are being unloaded from the train cars and are being removed to different parts of the city where the sewer extends, while the electric line poles are being placed throughout the city in a very rapid manner.</p> <p>The route of the system has already been ascertained by the workmen and the progress that they are making goes in a great measure to make the operations assume quite a pleasing appearance. Following the excavation work for the power house the workmen are making very much progress in the erection of this building, and it is thought that it will not be a very great length of time before this building will be completed.</p>	<h3>STORY TELLING LEAGUE FORMED CONNECTION WITH LOCAL LIBRARY</h3> <p>The Town Library committee formed of representatives of the Women's clubs, fraternal orders, schools and the Board of Aldermen has been working for several months toward the establishment of a real public library. As all Greenville well knows the nucleus of such a library is already found in the small but excellent collection of books that was begun by the oldest of the Women's clubs and for several years past has been maintained by all of the clubs. In order to widen the influence of the little library so admirably begun and supported by the women, the Town Library committee hopes to raise a fund sufficient to open up in connection with it, a reading room for several hours daily, to secure the service of a librarian and to provide for a separate building. This project will take time and will need the hearty cooperation of every man, woman and child in Greenville.</p> <p>Realizing that one of the biggest assets any library can possess is the affection and interest of the children and young people of the town, the committee has planned for a Story Telling League under the leadership of the Senior class of the Training school and the ladies of the town that have already had experience in the story telling conducted at the library during</p>	<h3>WIDELY KNOWN MAN COMES HERE</h3> <p>Mr. F. M. Raines, Traveler and Public Speaker, Will Be Here Next Monday.</p> <p>Mr. F. M. Raines, of Cincinnati, Ohio, senior secretary of the Foreign Christian Missionary Society, will speak at the Christian church Monday evening at 7:45, October 26th.</p> <p>Mr. Raines is a man of wide experience and has traveled practically all over the world. He has a pleasing personality and an unusual power as a public speaker.</p> <p>Greenville is fortunate in securing such an excellent speaker to come here.</p> <p>A quartette will furnish special music at this occasion, and everyone that possibly can should be present.</p>
<p>JOHNSTON AND FOXHALL'S MARKET REPORT</p> <p>Sales this week have not been quite so large and prices on all grades of tobacco about the same. We sold a hundred thousand pounds yesterday at an average of over fourteen cents for all on the floor. It was one of the best and highest sales made this year. We made some of our customers some high averages and all were well pleased and said that we made the highest sale in town. We have second sale next Tuesday and first sale Wednesday. Bring us a good lot and we will please you. We do not look for very heavy sales next week. Come to see us.</p> <p>Your friends, JOHNSTON &amp; FOXHALL. 10-22-15-21d-1p.</p> <p>Kinston Boosters Here</p> <p>Two automobile loads of Kinston people came here this afternoon. They are boosters for the Kinston Fair which will be held next month.</p>	<p>Police Court Very Slack For Past Month, But Had 205 Cases Since July.</p> <p>Police court was in session this morning to try one case, that of Mr. Fred Outerbridge charged with violating the city ordinance which says that one shall not drive a car faster than ten miles per hour.</p> <p>He paid the fine of 2.50 and was taxed with the cost.</p> <p>Since the first of July police court has tried 205 cases, and this was made up until a month ago. For the past month the court has had very few cases.</p>	<p>Police court was in session this morning to try one case, that of Mr. Fred Outerbridge charged with violating the city ordinance which says that one shall not drive a car faster than ten miles per hour.</p> <p>He paid the fine of 2.50 and was taxed with the cost.</p> <p>Since the first of July police court has tried 205 cases, and this was made up until a month ago.
