A MOST WONDERFUL CURE.

A Grand old Lady Gives Her Experience.

Mrs. Thankful Orilla Hurd lives in the beautiful village of Brighton, Livingston Co., Mich. This venerable and highly respected lady was born in the year 1812, the year of the great war, in Hebron. Washington Co., New York. She came to Michigan in 1840, the year of "Tippecanoe and Tyler too." All her faculities are excellently preserved, and possessing a very retentive memory, her mind is full of interesting reminiscences of her early tife, of the early days of the State of Michigan and the interesting and remarkable people she has met, and the stirring events of which she was a with pess. But nothing in her varied and manifold recollections are more marrelous and worthy of attention than are her experiences in the use of IOHNSTON'S SARSAPARILLA. Mrs. Hurd inherited a tendency and predisposition to scrofula, that terribly destructive blood taint which has cursed and is cursing the lives of thousands and marking thousands more as vicinises of the death angel. Transmitted from generation to generation, it is found in neary every family in one form or another. It may make its appearance in dreadful running sores, in unsightly swellings in the neck or golire, or in eruptions of varied forms. Attacking the mucous membrane, it may be known as catarrh in the head, or developing in the lungs it may be, and often is, the prime cause of consumption.

Beaking of her case, Mrs. Hurd says: "I was troubled for many years with a bad skin disease. My arms and limbs would break out in a mass of sores, discharging yellow matter. My neck began to swell and became very unsightly in appearance. My body was covered with scrofulous eruptions. My eyes were also greatly inflamed and weakened, and they pained me very much. My blood was in a very bad condition and my head ached severely unsightly in appearance. My body was covered with scrofulous eruptions.
