

EASTERN REFLECTOR
GREENVILLE, N. C.

D. J. WHICHARD, Ed. & Owner
Entered at the Post Office at Greenville, N. C., as Second-Class Mail Matter.
FRIDAY, JULY 20, 1900.
Isaac A. Meekins, the Republican nominee for Congress in this district, is boasting that he will be elected by 2,000 majority. We will show Isaac a thing or two about that when the November election comes.

It was a fine speech by F. Osborn, of Charlotte, made in the Court House here Saturday afternoon. The "Dakota Steer" (Congressman Kelly) would not give a division of time with Osborn, but the latter spoke later in the day and had a big crowd to hear him. His speech was full of good reasoning on the amendment and did much good.

Next Governor Aycock says the Amendment will be carried in North Carolina by 50,000 majority. And he is guessing pretty close around the correct figure. The Amendment is sure to be carried and the question now remaining is only as to the size of the majority. However, there is yet plenty of work for Democrats to be doing and they must watch every point.

The white man who votes against the Constitutional Amendment takes his stand with and for the negroes and says by his act that he is not just as good, and as much entitled to vote and rule the State as the white man. We just can't see how a white man can come to any such decision and put himself on an equality with the negro. They ought to think what they are doing when deciding to oppose the amendment.

Marion Butler has been making a great flourish in the Caucasian and courting the white men, Democrats, of the second Congressional district of being the cause of the negro, White, getting elected to Congress. Mr. W. E. Fountain, of Tarboro, was the Populist candidate of the district at that time and seeing Butler's recent flagrant falsehoods he would not let them pass uncorrected. In Sunday's Raleigh Post Mr. Fountain had a long letter showing the whole state of the situation in his district two years ago, and he puts the blame for the negro being in Congress right where it belongs, on Marion Butler, and his fool, Lloyd. It matters not how many Mr. Butler gets caught to be so right on telling them. The strange part of it is that there are yet white men in North Carolina who so weak that they are led by him.

A case of newspaper corruption has just been disclosed that puts to shame anything that has occurred in North Carolina. For some time it has been noticed that the Asheville Gazette had been filling its columns with matter favorable to the Republicans and against the Constitutional Amendment, while at the same time pretended to be a Democratic paper. It now turns out that the paper had sold its principles to the Republicans, the agreement being between the editor of the Gazette on one side and Holton and Pritchard for the Republican committee on the other side, that in consideration of \$75,000 to be paid in installments of \$1,000 each, the editorial utterances and policy of the Gazette was to be controlled by the Republican committee. This has all been exposed in an affidavit made by a minority stock holder of the paper.

Don't lose sight of the State ticket. Every officer on it must be elected in August.

Don't lose sight of the county ticket. Every man on it must be elected in August.
Don't lose sight of the township ticket. Every officer on it must be elected in August.
Don't lose sight of the Constitutional Amendment. That must be carried in August.
Don't lose sight of your duty on election day. Be a white man and stand by your race.

The fusionists have not yet raised their ticket in Pitt county. The fact of the business is they see they have not the ghost of a chance of electing anybody, and it is just a waste of ammunition for them to put out a ticket and see it buried under 200 or more majority. If there are any populists waiting with the idea of voting for a black-and-tan ticket they had as well come and go with the Democrats where they belong, and help make the majority for the Amendment and the Democratic ticket that much larger.

We hear that some people have the idea that nothing but the Constitutional Amendment is to be voted on at the August election. This is a great mistake. All State officers, all Legislative officers, all county officers and all township officers are to be elected on the 2nd day of August. In fact we vote for everything then but for President and for Congressmen. The Amendment is the overshadowing issue of the campaign, but all the other issues referred to must be voted for the same time with it. Every voter should be sure to keep this in mind and see that none of the ballots are missing. A list of the officers to be voted for on the first Thursday in August is printed in every issue of THE REFLECTOR.

If the scaldwags who pretend to be white men were informed that they would be held responsible for the necessary advice they are giving the negroes in different parts of the State, all this talk of what will be done to Democrats would be hushed up. If the negroes had any sense they would know that their white allies will be missing when danger comes, and they the negroes only will suffer. Over here in Wilson county we hold both the negroes and their advisers responsible in case of trouble. The folks who are inclined to stir up mischief, Wilson Times.

MORE NEGRO INSOLENCE
We learn today of another attempted assault, which occurred at Mr. John Forbes' home, about three miles from Greenville. Saturday evening.

John Braswell, negro, went into Mr. Forbes' yard and began to sharpen his knife on the grindstone when Mrs. James Pollard, a niece of Mr. Forbes, ordered the negro out of the yard. The negro refused to leave and began cursing and abusing those on the premises. After he had finished sharpening his knife he started in the house, but before he could get in he was met and deliberately knocked out by the door by Mr. Manassas Forbes. A warrant was sworn out against the negro and he was brought here this afternoon for trial.

He was sentenced to thirty days in jail and taxed with the cost in the case.
No reason can be assigned for the negro's conduct unless from the fact that he came here Saturday and tried to register, but being unable to prove to the Registrar that he was a qualified voter he refused to register him. The negro left town Saturday afternoon and did not return until he was arrested on an affidavit made by a minority stock holder of the paper.

OUK RALEIGH LETTER

Attacks of Holton on Democrats Registrars Bearing Bitter Fruits for Fusionists.
Special Correspondent of Reflector.
RALEIGH, N. C., July 16, 1900.
The outrageous and high handed proceedings at Winston before a Republican U. S. Commissioner named Beckeridge, whereby it has been attempted to punish or more truly to intimidate or browbeat registrars of election for declining to register non-resident and imported negroes, has greatly stirred up the white people of the State where the facts are known.

I know something about this importation of negro voters in Winston. The same complaint was made when the writer edited a paper there in the Fowler-Dockery campaign in 1888, and it was found to be almost impossible to purge the registration books of Danville and Lynchburg and other Virginia negroes, who were brought there, ostensibly to work in the tobacco factories (where several thousand negroes are employed), but who largely remained only a few weeks just preceding the election. Then they would return to Danville, or elsewhere, and vote again in the same year, often the same month.

This is doubtless the same class of negroes about whom the fusionists are now attempting to create trouble. They are clearly imported voters, and are not entitled to vote in Winston or any other place in North Carolina. No wonder they cannot truthfully answer the legal question of resident etc., demanded by the new law and asked by the registrars. And the latter do right in refusing to register them unless they can satisfy them of their real homes and right to vote.

Respectable and self-respecting white Republicans of longstanding continue to come over to the only white man's party this year—such announcements reach here by a score every day from all over the State. And the local fusionists were hit a pretty hard lick this week along this line. The Wake county Populist convention (so called) met here a few days ago. It was a sorry affair, and a mere shadow of its former self. After Butler had inflicted his 3 hours harangue upon the delegates (several refusing to sit it out and going home, the convention "announced" a fusion county ticket, composed of about one-half Republicans. They headed it with the name of Major J. B. Hill, formerly U. S. Marshall, and for county commissioners they nominated L. M. Green among others.

Both of these gentlemen tell me that they will not accept; but, on the contrary, will "vote white" for the Amendment this year. Even Loge Harris has renounced the Pritchard machine and the fact of the Abe Middleton holding office at Greensboro. In a published interview he announces that he will vote for Aycock for Governor and the Amendment. Mr. Harris is one of the best known and staunchest Republicans in the State, an adherent of the Russell wing of the party. But he will now use all his influence to defeat the schemes of Pritchard, Holton and Abe Middleton.

The Treasury Department has ruled that a 50 cent tip to a sleeping car porter is legitimate expense for a government employee. The porters now carry their heads a foot higher.

Woman suffering from female troubles and weakness, and from irregular or painful menstruation, might be helped by Dr. Williams' Pink Pills. They contain iron and other elements which are so essential to the health of the blood. They will give a fair trial.

BRADFIELD'S Female Regulator
This is a new and reliable medicine for the treatment of all female troubles. It is made of pure and natural ingredients, and is so gentle and so effective that it can be used by the most delicate and most nervous. It will give a fair trial.

WASHINGTON LETTER

From Our Regular Correspondent.
WASHINGTON, D. C., July 16, 1900.
The Republicans are beginning to realize that the opposition of our German voters to imperialism is not a mere passing whim, but is a real and permanent principle, which will cause many thousand votes to be cast for Bryan and Stevenson this year. Dr. L. W. Haberman, who was head of the German Literary Bureau of the Republican National Committee, during the last campaign and who is now supporting the Democratic ticket, has made public a statement of his reasons for abandoning the Republican party, from which this is quoted: "Expansion of the Union, on the one hand, and imperialism, on the other, are not only incompatible, but are in direct opposition to the Union, but by the acquisition of possession which are to be governed as dependencies subject only to the will and caprice of our Executive and Congress, unrestricted by the Constitution, and without the consent and against the wishes of the people to be governed, who thereby become subjects, in my opinion, improper, unjust, and unnecessary; the government of the U. S. is thereby transformed into an imperial government for our possessions. A government with imperial power over possessions cannot long remain republican at home. As the government could not have lived half slave and half free, so it cannot live half imperialist and half republican. The foreign policy adopted by the Republican party embroils us in all the quarrels of the world, and entangles us in foreign alliances. It has already entangled us in one, the imperial alliance with Great Britain. Since British diplomacy success in persuading our administration to force Spain to cede to us the Philippines, we have been compelled to go hand in hand with England. The Republican party now stands for the imperialist expansion, and is already busy cultivating the spirit of militarism. The imperial policy has hampered us clearly and forcibly pronounced against imperialism and its result, and evil, for the preservation of the republic and the constitution. The issue is thus made up, and I consider my plain duty to help maintain the republic by such efforts as I can make, humble though they are."

The administration is figuring on legislation at the coming session of Congress, when the election will be over, for a large increase in the army. This is not a good thing. It is based upon plans now being made by the War Department to keep 100,000 soldiers in the Philippines, to do police duty, after July 1, 1901, when the two year terms of the volunteers now over there will expire. Present laws provide for a regular army of less than 100,000 men and of course, the entire army could be kept in the Philippines. Therefore, it is absolutely certain that the present plans of the War Department are based upon the expectation that Congress in the legislation for the fiscal year beginning July 1, 1901 will provide for a larger regular army. Men are not likely to fall over each other in their anxiety to enlist in the regular army to do police duty in the Philippines or anywhere else. So the next step after increasing the regular army, in the republican imperial program, is likely to be a law providing for compulsory service in the regular army. Of course, that would not worry those with pull enough to keep their sons out, but how about the ordinary man who has no pull?

There were but 5,300,000 people in America when this century opened. France had five times as many people, Germany, and even Austria, had four times America's population; Italy had three times as many, and so had Great Britain. Even Spain had double our number of people, and little Portugal was almost our rival in numbers. We have more people now than any European nation except Russia, which alone leads us.

We have bought a large lot of Cook Stoves and Heaters for the fall trade. In order to make room for those we are selling, they will have on hand at greatly reduced prices.
Constables and others wanting election tickets printed should bring their orders to The Reflector office. We have the exact kind of type and paper that the law prescribes for election tickets and when you have them printed you want it done right.

Feebler Excuse of All.
The feeblest and puniest excuse for opposition to the amendment for a white man to say that he would support the amendment if it were not for the negroes, but because all can't get rid of the negro, is not a man dying of hunger and because he can't get a whole loaf dies before he will accept the piece of bread offered to him.—Stanley Enterprise.

No More Doubt About It.
Washington, July 16.—Without exception today, the foreign representatives in Washington accept as certain that the foreign legations and ministers at Pekin have been wiped out. At the same time there is not a word of confirmation from any of the foreign officers and the conclusion is based on the accumulating unofficial data that the slaughter occurred about July 6 or 7. Even among the high Chinese officials' hope has been almost given up, but they maintain that there is no official information and that they are as much in the dark as others.

W. R. IN CHINA.
The American suffer terribly from the cholera epidemic in China. The allied troops were attempting to storm the wall of the city. The attack began at daylight. The Chinese on the walls are estimated conservatively at 20,000. They are putting a terrific hail of artillery, rifle and machine gun fire upon the attackers. The Americans, Japanese, British and French troops are attacking from the West and the Russians from the East. The Americans suffered terribly. As the Associated Press representative told the field, the dead strewn on the 15th Infantry sand conservative estimate was that 25 per cent of the Americans were hit. Colonel Lisman is reported to have been mortally wounded as he was walking in front of the troops. Major Regan and Captain Bucknall, Wilcox and Noyes are among the wounded. The marine losses include Captain Davis, killed, and Butler, Leonard and several others wounded. Officers declared that it was hotter than "Santago."
When the over-land route left the Americans were lying in the plain between the wall and river under an enfilading fire and direct fire. It was difficult for them to advance or retire. The correspondent counted 300 wounded men of all nationalities.
Messrs. D. C. Moore, H. T. King and F. C. Harding went over to Bethel township Tuesday night to attend the meeting of the White Supremacy Club.
J. Bryan Grimes, Democratic nominee for Sheriff of Stokes county, passed through Greenville Tuesday for Grifton where he speaks today. He will also address the people at Black Jack tomorrow.
A young negro one day last week applied to Registrar Perry for registration cards. He came of age on the 15th of June, and Mr. Perry, not being satisfied that the negro was of age, told him he would be required to furnish proof of what he claimed. The next day the negro returned with a Testament in which was written his name and birth-day—6th of June, 1879. Mr. Perry asked him how long that had been written there. "That was put there when I was a baby," was his reply. Mr. Perry turned to the title page and discovered that the book was printed in the year 1893. The negro didn't register, but was shown the door and asked to retire hastily.—Berkie County News.

THE MAN WHO GETS THE BUSINESS.
A somewhat poetical editor puts it thusly: "If you take your little white and lay aside your loon, there's not a man will ever know that such a man was born. The man who owns his acres is the man who plows the field, and he who makes a planting is the man who makes it pay. The man who has a short and sudden jerk, is the man who blames the plumber because it didn't work. The man who gets the business, uses brainy printer's ink, and not a splinter and a splutter, but an ink that makes you think; and he who plans his advertisements as he plans his well bought stock, has the future to his business just as solid as a rock."

Ask Your Wife.
A few days ago a Democrat asked a lady in Kingston if she had husband's vote for the amendment. Her reply was that he would; if he didn't she would not let him live with her. Another lady was asked if she would support the amendment, she replied that she didn't know, but wished he would.
In the great issue between the supporters of the blacks, if any white man has any doubts as to what he should vote, he should ask his wife. He will never be asked a question that will make any man's life and his children's future worse. It is his duty to do this. If he has any doubts in the matter, if he is carrying of the amendment were left to the women of North Carolina it would be carried by 100,000 majority.
Ask your wife how you will vote as to the amendment.—Kingston Free Press.
