Bicycle, Man and Dog.

Mr. T. L. Leavy was up town yesterday with his left arm in splints, as the result of a bicycle accident while he was on his way home the previous evening. As he was speeding down South Tryon street a dog ran out in front of him. It was just opposite the Butler property. The dog was after a cat and had neither eye nor ear for the wheelman. As a result he struck the bicycle between the wheels. The dog's neck was caught in the chain and carried to the sprocket wheel, where it was cut off as neatly as a gallinule could have done it. That ended the incident for the dog, of course. The wheel was badly wrecked and Mr. Leavy was given a terrific fall, the result being that his arm was broken in three places—two fractures being between the wrist and elbow and one between the elbow and shoulder. The cat escaped.—Charlotte Observer.

A Little Breeze in Lenoir

Mr. Ben May informs us that Mr. Will Sutton reported to him that the recent storm in his neighborhood did some wonderful things. For instance, a tobacco bed on one side of Mr. Sutton's farm was taken up and carried several hundred yards, landing safely—not much the worse for its windy ride! This equals the blackbird story not long since gotten off by one of Kingston's worst merchants. Since the above was written we had an interview with Mr. Sutton. He informed us that Mr. May was a witness to the removal of the tobacco bed. But seriously, he informs us that the storm did great damage in his section—that about 150 trees were blown down and for a distance of a mile and a half crops were ruined. The wind blew the chimney of the home of Mr. Jesse Wood, in Falling Creek township.—Kinston Free Press.

The End Is Not Yet.

The recent excellent series of sermons at the Methodist church by Rev. J. D. Bundy, on the "Second Coming of Christ," have put a good many people to thinking and carefully studying the signs of the times. We have heard some very able and learned men, in discussing the matter, say they would not be surprised if at any time Christ should suddenly appear. Surely many of the desolations spoken of by the prophets have come to pass. Wars and rumors of Wars, nation against nation and troublous times. People going to and fro upon the earth and a general feeling of unrest. All these things shall come to pass, "but the end is not yet."—Weldon News.

Would Be Devil's Idea of Hard Work.

"The idea of people being unable to secure employment! Bah! It's all nonsense," remarked a well known Philadelphia printer. "The other day I was in need of a boy to run errands, sort 'spit,' and otherwise play the 'devil,' so I put out the sign 'boy wanted.' In about fifteen minutes a rather bright sort of a lad applied for the position, after explaining to him what his duties would be, and telling him his salary would be \$2.50 to start with, I thought everything was satisfactory and asked him if he wanted to start in immediately or wait until the next day. 'Well,' drawled out, 'I'd like the job, but I don't think me father would want me to do such hard work. 'Hard work?' I exclaimed in surprise. 'Why, my boy your duties will be very light.' Yes, sir,' he replied, 'but I mean it will be hard work carrying all that money home with me on pay day.' And with that he darted out the door. Didn't that jar me?'—Press and Ink.

Success Open to All.

The father of the late C. J. Van Houten began the manufacture and sale of cocoa in Holland in 1817. There was only a local demand for the product until the son took charge of the establishment and began advertising. Before his death Mr. Van Houten said that his enormous success was due mainly to advertising, especially in the newspapers. He expended as much as \$1,000,000 a year for newspaper space. By the same method any other business can achieve success in proportion to its advertising expenditure.—Philadelphia Record.

The Mistake of a Fireman's Men

Fireman Muse, of the Church street station, is a great fancier of game chicken and employs his spare time in raising chickens. He missed one of his hens a few days ago, but her absence was accounted for last night, when the fire engine was sent out to do some pumping. After the fire had been started, it was discovered that an odd sort of fuel was in the fire box and an investigation revealed a baked hen and 14 eggs. The hen had her nest in the fire box of the engine and had gone to setting.—Charlotte Observer.

BETHEL, N. C., May 11 1901. M. O. Blount and Harry Freeman spent Thursday night in Washington. N. B. Dawson passed through Thursday evening. Miss Effe and Mattie Grimes spent Wednesday in Tarboro. Miss Estelle Cox, of Goldsboro, is visiting Rev. J. W. Rose, of this place. N. B. Dawson, of Conetoe, is in town today. Miss Maggie Pool, of this place, spent Friday night in Robersonville. J. R. Banting made a flying trip over to Conetoe today. E. L. Mayo, of Conetoe, spent Friday in town. B. W. Moseley is still buying cotton. We are looking forward for a grand commencement in June. Prof. Z. D. McWhorter's school will give the entertainment. The town was full of drummers Friday. Bethel was visited by a severe hail storm Thursday evening doing right much damage in some portions of the neighborhood. The Bethel Gin Co. has begun building their houses for the gin. O. B. Hawkins spent Thursday night in Scotland Neck on business. It is the rule for boys on the farm to have something all their own. It may be four or five dollars, a colt, a few sheep or some hogs, but whatever it may be, it is theirs, they attend to it, sell it and buy others. The boys on the farm do business for themselves and are taught early in life to rely on themselves. The Toledo Blade thinks it probable that this one fact has much to do in awakening an ambition to go out into the world and widen the sphere of their enterprise. Not only have they self confidence, but they have the sagacity, earned by experience, which makes them successful in the business and professional world. Equipped with this experience, not accustomed to watching the clock when something is to be done, caring nothing for an eight-hour day, the young men from the farms go to the cities and, carrying with them their habits of economy and close application, they will find that they do succeed in widening the development of every city and town in the country, for a large per cent of the successful men of affairs were raised on the farm.

Robbed the Presidential Party.

Los Angeles, Cal., May 10.—During the visit of the Presidential party to the soldiers' home excitement was caused by the discovery that Secretary Wilson and Charles A. Moore had lost their pocket-books. Mr. Moore a minute after discovering his loss saw a man picking the pocket of another man in the crowd. A detective arrested the pickpocket and on his person were found the purses of Messrs. Wilson and Moore, besides several other pocketbooks well filled. It is believed the thief has followed the Presidential party all the way from Washington.

Accidental Shooting.

Mrs. J. H. Haddock, a young woman 19 years of age, was terribly shot in the right breast Sunday morning about 9 o'clock at her home near Coahoma, about four miles from Kinston, being accidentally shot by Mr. E. F. Smith. Mr. Smith is an uncle of Mr. Haddock, and lives just opposite his home. A dog at the Haddock home was suspected of hydrophobia, and Mr. Smith was sent to shoot it. He brought a single barrel breech loading gun and shot the dog, which was under the house, one time. Desiring to make his death sure, he took a shell to reload. Mrs. Haddock was standing in the door, about 20 feet away from Mr. Smith. As needed from a dozen articles, that a tariff policy on free trade lines would increase rather than lower wages because it would widen the American markets, and that the present commercial success of the United States had been attained in spite of the protective tariff, and not because of it, and was due to our enormous natural resources and the inventive genius of our people, Mr. Holt began by saying: "The tariff ties the hands of

EASTERN REFLECTOR.
GREENVILLE, N. C.

D. J. WHICHARD, Ed. & Owner

Entered at the Post Office at Greenville, N. C., as Second-Class Mail Matter.

FRIDAY, MAY 17, 1901.

Dun's Review reports 213 business failures in the United States and Canada last week, against 256 the previous week and 207 the corresponding week of last year.

Ayden is moving to vote for bonds to induce the Great Eastern railroad to go to that town. Winterville is also working to get it. If the road does the best thing for itself it will come to Greenville.

There is nothing like being famous or keeping abreast with the times. Southern Industry, of New Orleans, ornamented the front page of a recent issue with a photograph of the Governor of North Carolina and printed under it "Gov. Chas. B. Aycock, of Florida." He is fully capable of being Governor of the flower State, but North Carolina is not ready to give him up.

Rural Free Delivery.

Mr. A. W. Maché, superintendent of the system for the rural free delivery of the mails takes an enthusiastic view of the outlook for service. In an interview in the Washington Star he says that the free delivery system has so far resulted in nearly doubling the postal receipts in the territory covered, in a great improvement in the public highways, and in an immediate and earnest demand for adjacent territory for an extension of the service.

As to the cost of the system and the feasibility of its extension, he says that of the 2,840 counties in the United States, one half are within the field of feasible free delivery. The cost, per county, is estimated from experience with the system already in operation, at \$19,000 for the hill country and at \$15,800 where the country is comparatively level. At the maximum cost per county the total cost for half the counties in the United States should be about \$27,018,000 per year—not a very formidable figure for a billion and a half dollar country, particularly when the cost of star routes and the increase of revenues are deducted. The Postmaster-General estimates, in fact that the net annual increase over the star route system will be but \$13,700,000.

There is, apparently, no reason to doubt that rural free delivery of the mails is to become the fixed policy of the government. The policy is not only sound, the benefits numerous and far-reaching, and the cost comparatively small, but it is a policy that should be popular with Congressmen and Senators, who will certainly lose anything with their constituents, by procuring rural free delivery of the mails. Inasmuch as rural free delivery is coming, therefore the Senators and Representatives in Congress from Virginia should insist upon the extension of the system in this State co-ordinately with its extension elsewhere.

And when the Ship Subsidy bill comes up in Congress this winter, a bill providing for the immediate extension of the rural free delivery system would not be a bad measure with which to combat it. The minimum estimate of the Ship Subsidy bill is \$9,000,000 a year. The Postmaster-General's estimate of the cost of rural free delivery is \$13,700,000. The difference is only \$4,700,000. If the Subsidy bill is pushed, the majority should be compelled to choose between it and rural free delivery in half the counties of the United States.

THE STORM IN GREENE.

Ruined Crops and Did Much Damage.

The hail storm in the Ayden section Tuesday morning was had enough, but the report from Greene county shows that it was even worse over there. Messrs. T. E. and T. M. Hooker spent the day in Greene and on the way home had to pass through the section that the storm struck, and the former came in to tell THE REFLECTOR about it.

Mr. Hooker says he never before saw such a terrific storm. There was a hard wind and it hailed steadily for half an hour, the stones covering the ground considerable depth. Crops were swept so clean that it could not be told where anything had been planted in fields and in many places young trees had been stripped of limbs and bark. The track of the storm was about four miles wide, extending from Masse run to near Saints Delight church. A new house that Mr. H. L. Coward had just had built on his place was blown down.

Mr. Hooker says as he was coming along the road about six hours after the storm there were places where the hail came up to the axle of his buggy. Along where the storm went all crops will have to be planted over.

People Eat Too Much.

A man who travels a good bit and is a philosopher of no common order, had the following to say to an Observer reporter last night: "Everybody rails at and sermonizes the man who drinks too much yet the troubles of this world which come from over eating, are told by the scientists, are double those which come from over drinking. Why condemn one excess always and in such severe terms and give immunity to all humanity for another that is just as great? There are women's Christian temperance unions, total abstinence benevolent societies and other forms of organizations which fight even temperate drinking but not a society of any kind against gluttony.

"Just enough food is a great thing to have just at the right time. Enough is as good as a feast. But too much is a fault. It is a fault that is growing more and more as we prosper and can afford to pay for more than is really needed.

"Men who travel easily fall into the habit of over eating. There is no exercise in riding on trains. The restraint and weariness of travel rather makes than curbs appetites. The drummer eats for a change. His life means change of air, change of food change of surroundings almost every day. When all medicine fails these are the doctor's prescriptions for regaining health and getting fat.

The drummer is usually in good health and he usually gets fat if he stays on the road. He is a personal example of the correctness of the doctor's final prescription of change. He is sometimes a kicker about the fare he gets and about the horrible way hotels are run, but he keeps his health and gets fat.

"The danger of the poor man may be drinking but may not the danger of the prosperous man be more in the way of over eating than over drinking?"—Charlotte Observer.

Sweet Sabbath.

It is hard to tell how much the Sabbath has sweetened human life. Day after day thunders on each one is laden with care, and thought and worry and business. It comes beating in on us like a mighty wave. We may be able to stand up against one of them, two of them, but by the time the sixth wave has thundered in upon us, we begin to stagger. But then the seventh comes with waves of healing. It is the Sabbath. It is the day of rest. And thus in our lives there are six layers of care and conflict, and one layer of Heaven. Six times the snuffers leap across the loom of our lives carrying a silver thread. And so the weaving goes on, from year to year, until the loom stops and flots out of the threads which have been going into it.—Orange Observer.

OUR KALEIGH LETTER

If New Revenue Bill Proves to be Illegal a Half Million in Taxes Will be Lost.

Special Correspondent of Reflector. KALEIGH, N. C. May 13. During the past few days there has been considerable anxiety in administration circles up at the capitol building regarding the legality of the new revenue act—and the fact that the question involves something like a half million dollars of the State's income from taxes, during the next two years, is enough to set the State officials by the ears.

The cause of the trouble is the alleged discovery by Wilmington lawyers that some of the numerous amendments to the bill made by the Senate (and afterwards agreed upon by the conference committee) were so "material" that the amended bill should again be passed up upon its second and third readings and passed on separate days in both houses (after being so amended) in order to make its passage legal, according to the requirements of the Constitution, and that the Supreme Court will so hold if the law is attacked and taken into court.

Lieutenant Governor Turner, the President of the Senate appears to be inclined to this view; indeed he goes so far as to state that he called attention to this matter on the closing day of the session and advised the course suggested above. The writer of these lines who reports the proceedings of the Senate, and whose recollection is clear concerning these amendments, some of which were unquestionably very important, without assuming to pass upon the "materiality" involved, or to essay to advance an opinion on the legality or constitutionality of the proceeding, is constrained to think that Governor Turner's view and statement are correct. Several able lawyers here hold to the same opinion.

Governor Aycock, and other equally able as those referred to, take a contrary view, and do not think the act invalid. In the future it might put the bill on its second reading after being amended, that the amendments in a great related to clauses in the original bill and merely changed original provisions. They add that previous revenue bills, probably all of them of late years, have been passed as the last one was.

AS TO EXTRA SESSION OF LEGISLATURE. It was proposed, when the question was first agitated, that the Governor should call an extra session of the Legislature, as the readiest and most effective remedy. But Governor Aycock did not like the idea, and he is not likely to do so. It is unnecessary. The Governor's time and attention have so fully and completely taken up during the past week by the school book publishers that he really has had very little time or opportunity to give proper thought to any other important matter.

At this writing it looks as though a "case agreed" will be made up and taken to the Supreme Court for adjudication as early as practicable. If that Court does not uphold the new revenue act, one of two alternatives will result: Either the old revenue bill of 1899 will have to be accepted or an extra session of the Legislature will become necessary. The act of '99, enforced during the years of 1901-'02, would fall short some \$200,000 or more each year of raising the amount of revenue the bill of 1899 was designed to raise. Consequence many of the important appropriations for this year and next could not be paid. So, with many, an extra legislative session, with all its attendant expenses and temptations would be the preferable alternative. With others it would not be. Thus it will be seen that an extra session is not an impossibility, and even a probability, of the near future.

Fire at LaGrange.

Mr. G. W. B. Hadley received a letter from LaGrange this morning telling him of the burning of his neighbor's stables and barn on Monday night. Four horses, two mules and a cow were burned in the stables. The fire started about one o'clock but it is not known how it originated.—Daily Reflector 15th.

Happenings in North Carolina

Monroe is to have a public library in its new graded school building. Mecklenburg county has 85 miles of macadamized roads that cost \$2,800 per mile. Guilford county will vote in November on the proposition to issue \$300,000 of bonds for road improvements. More than 10,000 crates of strawberries were shipped from points along the Wilmington & Weldon railroad on Saturday.

The Daughters of the Confederacy of Salisbury are raising funds to erect a monument to the Confederate devil of Rowan. Wilmington had a \$150,000 fire Saturday morning. The fire was among railroad and wharf buildings. One steamer was also burned. There were heavy hail storms in several of the western counties last Friday. In some places near Statesville the hail was two feet deep.

At Winston W. P. Hill and B. E. Steele, two business men, were badly shocked while talking over the telephone. Both were knocked down and were unconscious for some time. Lightning struck the wire.

A New York plumber was the victim of a startling error the other day. Having been injured in the left side, he applied to a charity hospital and was told that surgery was imperative. He was placed under the influence of an anesthetic, and his side was opened and sewed up again. When the bandages were removed he found that the right (or rather the wrong) side had been opened instead of the left. The surgeons were dismayed, and offered to cut into him on the left side; but he declined. The plumber brought suit against the hospital authorities for \$25,000, but the Court has decided that a claim on account of negligence or inefficiency cannot be held against a charity hospital. This ruling might prove to be a great hardship to the poor who are compelled to go to such institutions for surgical treatment. If the plumber did not pay for the treatment he is not entitled to sympathy, since he confessed to an income of \$5000 a year. The abuse of the free dispensaries and clinics of New York by well-to-do persons has become a scandal, even a multi-millionaire having been accused of getting medical treatment free.

An Expert Advertiser. At the recent meeting in New York of the business men who form the Sphinx Club, "Advertising" was the subject that was discussed. One of the speakers, Mr. E. C. Ogden, stated that advertising is as essential as a place of business. He said: "You must advertise in the shortest possible time to let the greatest possible number of citizens know of your existence. This is general advertising. Then call attention to particular goods, which is special advertising. Teach people to believe your announcements."—Philadelphia Record.

Conductor Felix Wright, who runs into Fulton, Ky., recently collected on his train a ticket from Cincinnati to Fulton which had been sold on December 21, 1892. The old man who presented it for passage said that just after he bought it he had heard of a wreck on the road, and was afraid to get on the train. He never summoned up courage enough to use the ticket until last week.

Died. Mrs. T. L. Hascock died about noon today at her home on Greene street, after an illness of several weeks. She leaves a husband and one child. She was a daughter of Mrs. J. C. Tripp.—Daily Reflector 15th.

BRILLIANT IN COLORS

PAN-AMERICAN EXPOSITION WILL GLOW WITH WONDERFUL RADIANCE.

Electrical illuminations and other features in which Buffalo's Fair will excel all former enterprises of this Exposition. Even the Buffaloian cannot comprehend the exquisite character of the great Exposition he is building. Is it any wonder, then, that the distant natives still ask what it is to be? Indeed it is to be everything that is graceful, harmonious and beautiful. Form and color will join their wonderful forces to please the eye and delight the sense.

"Magnificent" is not too strong a word to express the character of the completed work. He is a man of dull imagination who, now visiting the grounds, cannot picture in some degree the comeliness and stateliness of the finished enterprise. The Pan-American Exposition is intended to be in every way an artistic triumph. From the very beginning it has been the purpose of those who have been entrusted with the making of this Exposition to present to the world the most artistic creation ever conceived for a like purpose. The arrangement of the grounds and style of architecture, the decorative work, the embellishment of the grounds and the electrical illumination are some of the features that will stand out prominently in the Exposition picture. There are 33 acres in the courts around which stand the principal Exposition buildings. While the whole Exposition plot of 330 acres will be as beautiful a nature, with the artistic help of man, can make it, the several courts will be the particular center for formal decorative work. The courts are arranged in the form of a cross, the north and south courts bearing the names of Court of Fountains, Plaza, Free Concert and Bell Tower and nearly 3,000 feet in extreme length. The Transverse Court is known as the Esplanade and is 2700 feet from east to west. Two subordinate courts open into the Esplanade, known as the Court of Flowers and the Court of the Fountain. The combined area of these courts is approximately two and a half times the area of the courts at the World's Columbian Exposition and for this reason gives a far greater opportunity for artistic treatment.

It has been said of this Exposition that it would rival all former enterprises in a number of important features. The first of these is in the court of flowers and fountain effects. These are of a most delicate character and are to be seen in all of the courts. A fourth feature is the horticultural decorative work. Sublime gardens and formal garden ornamentation will be employed at every point where the bright colors of foliage and flowers will add to the beauty of the scene. As a fifth feature may be noted the color decoration of the buildings. This is a very elaborate undertaking, the result of mature study upon the part of the best mural painters of the world. Considered a very difficult, if not an unobtainable, problem at first, it has been worked out by patient study until results very pleasing and happy have been achieved. Sixth point of excellence will be the electrical illumination of all the courts. This is the brilliant feature of the Exposition. The style of architecture is what is described as a free adaptation of the Spanish renaissance. It is particularly appropriate for the purposes of an Exposition since it gives opportunity for the employment of many architectural features of a festive character. Thus the visitor may see many lofty towers and lanterns, graceful domes and minarets, airy balconies and other decorative work that will produce a sky line free from any suggestions of monotony or severity.

The Electric Tower, standing in a broad pool between the Court of Fountains and the Esplanade, is to be the centerpiece for electrical illumination. This tower is 80 feet square and 375 feet high, with circular wings curving from the east and west sides to the southward and forming a semicircular space in which are to be many beautiful fountain features. From the southern face of the Tower a cascade will rush down a niche, 70 feet from the ground, and fall upon a terraced basin. At the base of this cascade and the fountains and pools will be illuminated in fantastic colors. Flanking the tower on all the pools will form an interesting feature of the general scheme of illumination.

WINTERVILLE DEPARTMENT.

NEWSY HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, N. C. May 15. Aunt Tama Tyson who for thirteen consecutive years has been the cook in the family of A. G. Cox, died very suddenly of apoplexy on last Friday night. That evening she prepared supper and after cleaning up everything as was her custom, she left for home only a short distance away. After arriving home and conversing for a short while with her aged husband and children she became suddenly ill and died in half an hour. Mr. Cox tells us she was of a most excellent Christian character and had always been faithful in the discharge of every duty. Particularly was her attachment for the children of her household most sincere, always trying to keep them from doing wrong and gently reprimanding them when they did so. Often has she as washerwoman of the family, upon finding anything in the pockets of clothing, promptly returned it to its owner. Only a few months ago Mr. Cox gave Uncle Ben an old coat he had cast aside and when Aunt Tama searched the pockets she found a small account book with a twenty dollar bill in it which she immediately returned. Mr. Cox spent the money in part defraying the expenses of her funeral. The church cannot be said of Aunt Tama, honest and upright, faithful and true. Though a colored woman she had the esteem of all her white and black. Everyone of us sympathize with and feel for her aged husband in his irreparable loss.

David Hines, one of our old land marks, is as happy as a young man of 21. The stranger at his house makes him all smiles.

Miss Effie Kittrell spent Saturday in Greenville. In our items last written the announcement that the Hunsucker Carriage Co. had an order from another State for one car load of buggies should have read three instead of one car load.

E. H. Shelburn and W. H. Long, Esq., of your city, were here yesterday and made us a very pleasant call. Ad. Waters and family, of Bowden, who have been visiting relatives in the neighborhood, returned to their homes yesterday. Mrs. G. W. Parker and "Grover Cleveland" spent Monday in Greenville. Master Grover wants it understood he was named when the original was a democrat.

Jerry N. hold returned from Roanoke Rapids Monday. A. G. Cox wishes to buy two or three mule oxen and about one dozen yearlings. An unknown tramp, who applied for admission to the county almshouse at Winterville, Pa., expired suddenly when subjected to a bath.

TEACHERS INSTITUTE.

For Greene and Pitt Counties.

The superintendent of schools of Greene county, Mr. M. P. Davis, was here Saturday to see Prof. W. H. Bagdale, the superintendent of this county, about arranging a joint Teachers' Institute for the counties. Arrangements were made and the Institute will be held at Winterville beginning on the 1st Monday in July and continuing for four weeks. There will be four regular teachers and the work contemplated will be of lasting benefit to the two counties. Every day for the four weeks will be devoted to regular teaching in the public schools, and the night will be devoted to lectures from men qualified to instruct in the school work. The law requires every teacher to attend, and this will mean that every teacher who teaches in the schools of either county next year will have had one month's instruction in the best methods of teaching before he begins work next fall.

These gentlemen together with the Boards of Education of the two counties cannot be commended too highly for the interest they are taking in the education of the masses. They are determined that their counties shall move forward with the increased interest now being felt in public education.

"Cincinnati 1901." The 20th International Convention of Christian Endeavor will be held in Cincinnati, Ohio, July 6. This Convention promises to be the most interesting and helpful to Christian Endeavorers yet held. The attendance from the South should be unusually large because Cincinnati is near and the cost of the trip small. In addition to the convention, Cincinnati is an interesting place to visit and is easy of access to many other interesting points, as Buffalo, Detroit, Niagara and other places.

Struck by lightning. Tuesday lightning struck the Greenville Warehouse and tore several holes through the roof. The strangest thing about it is that the holes are nearly in a line and extend through the length of the building. The damage done appears to be only slight.

It Will Take Time. Some people are inquiring if there will be any digging up of the streets of the town to put in the improvements during the progress of hot weather. Hardly. It will more than likely take most or all of the summer for completing the surveys and placing the contracts ready to begin putting in the improvements.

Not That Way Here. Martin county Commissioners are advertising for a competent man to keep the County Home. It is not that way over here in Pitt. Instead of having to hunt a man to fill the place there is a long string of them hunting the job every time the Commissioners go to make an appointment. Guess Pitt could send a good man over to take charge of the Home in Martin.

Mayor's Court. Mayor J. G. Mayo has disposed of the following cases in his court since last report: Tom Cobb, drunk and disorderly, fined one penny and costs, \$2.21. Henry Carson and J. H. Hanks, drunk, riotous and disorderly, Carson guilty, fine \$5 and costs, \$0. Hanks not guilty.

Ab Telfair, drunk and disorderly and indecent exposure of person, fined \$10 and costs, \$13.10. Henry Carson, carrying concealed weapon, bound over to September term of Superior Court.

The Firemen. Hope Fire Company had a good meeting Monday night, and it was most gratifying to see the members manifesting such an active interest in the company. Enough new members were voted on to bring the roll up to twenty nine, which is only one less than the constitutional limit. It being the first meeting after election of officers the standing committees were appointed and the nozzles, axemen and couplers were assigned to their positions. The company is now in excellent shape.

ORIGINAL OBSERVATIONS

Made by the Orange Va. Observer.
No man never is as good as he advises other people to be. Good deeds speak for themselves—when they call for improved real estate.

Some people have more money than brains and then are not considered wealthy. Nature's God brings up the bricks of wisdom with which genius builds the temple of success. The natural supply of gratuitous advice always largely exceeds the legitimate demand.

An Oregon man wants to trade a mule for a wife. Some men never know when they are well off. Many of our exchanges are constantly telling their readers "How to Help the Town." Some people could help their town best by moving out of it.

April seems to be a month late. Does the drowning man die of water on the brain? Going to pick tea doesn't give a man that sort of nose. The dealer in kitchen utensils is one sort of Pan-American. The wind isn't tempered to the shorn lamb in the stock market.

The umbrella manufacturer is one man who believes in the weather or profits. A girl is more apt to fall in love with an every day sort of fellow than with the once a week kind. Shoes are bought at so much a foot.

It's the early worm that gets on the fish hook. To drown one's sorrow in the flowing bowl is to meet misfortune with a smile.

Isn't it Amusing.
To hear and enormous bride promise to give a midget of a man? To listen to a woman lie gracefully to a drug clerk when she buys beautifying agents? To hear a fine conversational stammer when he talks to the one woman in the world—for him—until he is sure she will sign "that paper"? To watch the blasé air of youths just out of short trousers, and to hear older men quiz them. To see a goody-goody man pick up and drop a wicked book? To hear men who cannot eat or drink discourse upon gluttons and drunkards? To know that a woman makes her own gowns, then overleer her maid of her trouble with her dress-maker. To watch smart women and clever men pulling the wool over the eyes of each other.

"Speaking of schemes for getting money," said a Chicago man the other day, "I'll tell you the slickest scheme I ever heard of. I was in Greensboro some time ago, and a rather nice looking fellow came up to me and showed me a bona fide telegram from some place in Illinois stating that his wife was dying and that she must come at once if he ever expected to see her alive again. The fellow said he was out of money and needed assistance. No man refuses an appeal of that kind and I gave him something. In two or three hours he got enough money that I knew of to buy his ticket to Illinois. It turned out afterwards—the game being exposed—that he had a confederate in Illinois to whom he had also been wiring that his wife was dying and that she must come at once if he ever expected to see her alive again. DOWN IN FLORIDA.

JENSON, Fla., May 10th, 1901.
EDITOR REFLECTOR:
I have received quite a number of inquiries from my old friends in Pitt county as to what I have seen and learned of this section of the fair state of Florida. Since writing you last I have, of course, seen and learned much of the country, and must say that I like it better every day.

The price of ordinary labor here is \$1.25 to \$1.50 per day, 10 hours. Carpenters get from \$1.50 to \$3 and learned of their experience and ability. Since coming here I have made from \$1.25 to \$4.50 per day. Of course I have done some contracting. I do not mean to say every one could come here and do this well, I simply say what I have done.

For a man who wants to make money I know of no better place, especially for young men. This is a new country and a young man could come and grow up with it. There is no trouble to get work most all the time, and get the cash for it every Saturday night. Everybody here seems to be making money.

The climate is just the finest in the world. We are close to the ocean and enjoy a fine breeze all the time. I never saw a more healthy country or finer water. The price of land is from \$25 to \$225 per acre, owing to location, condition, etc. Land that is planted in orange or pineapple trees is worth more.

This is also a fine country for a man who is getting along in years, as people never die here, they simply dry up or blow away.

There are also good public schools here in every month in the year and preaching every Sunday. I will say just here, so that no one may be misled, that the land is not rich. The most of it is too poor to raise a disturbance on. In fact it is so poor that water will not run down a ditch without fertilizer. But when fertilized properly it produces well. Commercial fertilizers are used altogether.

The people here, like in all other countries, are mixed—good and bad. You will find almost every nation represented here, but as a whole I think they are pretty good people. There is one thing I especially like about them, they are down on "old apple jack." In days gone by I thought lots of "old apple jack" myself, but I have decided to lay him on the shelf.

CHAPEL HILL, N. C., May 11.
The Hon. Richard H. Battle, of Raleigh, delivered the annual address before the Law School Tuesday the 7th, at 8 p. m. in the Diastolic Hall.

On All Fronts.

The New York Journal of Commerce, discussing with a contemporary the war in the Philippines in its relation to the civil war in the United States, says of the latter: No right of self-government was involved from the Unionist point of view except so far as the ultimate rights of the negro were concerned, and the United States did not draw the sword to emancipate him, much less to endow him with civil rights; those were the ultimate results of military operations and changed political conditions.

What was involved in 1861 was simply the sovereignty of the United States over people who wished to govern themselves. Right! And so it is impossible to understand why Northern people who were in sympathy with the war for the Union should be so outraged on account of the war which the United States are waging in the Philippine Islands. The South fought for self-government; nothing more; not to put its system upon the North, but only to achieve its own independence and to govern itself. The Filipinos are fighting for self-government alone; not to put their system upon the United States, but only for their own independence. The cases are exactly parallel. And so, while Southern people may criticize the war in the Philippines as an unjustifiable invasion of the rights of man, no Northerner who favored the Union during the South may be heard to say that it is unjust or without precedent, for his people have done the same thing before, with the approbation of a Yankee who was better for the South to have seceded and desirable policies, to all desiring the very best insurance in the best insurance company in the world.
