Base Ball.
Tarboro and Greenville played a
game of ball, Thursday afternoon,
that started out like it was going
to be a very interesting game, but in
the third inning Tarboro seemed
to get rattled, and from then on it
was very one-sided. Below is the
record of the game.

TARBORO	R.	E.	H.
Cheshire J. ss	1	2	1
Wilkinson 3b	1	4	1
Hart p	0	0	0
Phillips c	1	1	0
Taylor 1b	0	3	0
Morris lf	1	1	0
Cheshire cf	2	0	1
Powell 2b	1	2	1

GREENVILLE	R.	E.	H.
Skinner 1b	3	3	0

Eberhart 2b	0	1	1
Tyson ss	2	1	0
Randolph rf	2	0	2
Smith c	4	0	2
Moore cf	4	0	4
James lf	2	3	16

The features of the game were
Tyson's brilliant fielding at short
and the batting of the home team
who made 11 singles, 4 two baggers,
1 three bagger, while James, Moore
and Smith each put the ball away
over the fence.

A Two-Cent Railroad Claim.
At the general offices of one of
the railroads with headquarters in
Pittsburg recently, a claim for two
cents was put through the usual
system of red tape and allowed. A
passenger hailing from the eastern
side of the State complained that
the agent of the company had torn
off one mile too many from his
mileage book. He wrote five pages
of hotel stationery, reprinting the
company for its careless treat-
ment of its patrons and demanded
immediate settlement. He received
a courteous answer inclosing two
cents, with a politely expressed
hope that he had not been serious-
ly discommoded by the occurrence.

EASTERN REFLECTOR
GREENVILLE, N. C.
D. J. WHITCHARD, Ed. & Owner

Entered at the Post Office at Greenville, N. C., as Second-Class Mail Matter.

FRIDAY, JULY 5, 1901.

Prof. Harding Goes to Oxford.

It will be with regret that the announcement is read this morning, that Prof. H. P. Harding has resigned as Principal of the White Graded School, in this city.

Prof. Harding resigns his position here having been elected Superintendent of the Oxford Graded School in this State.

While all who know Prof. Harding will regret his leaving New Bern, the best wishes of all accompany him to his new field of school work, where he will undoubtedly gain many friends.—New Bern Journal.

The friends of Prof. Harding here at home congratulate him upon this honor. He is now at the summer school at Chapel Hill and will return to Greenville Saturday to spend the remainder of the summer at home before taking up his new position. Prof. Harding well deserves any honor that comes to him.

A correspondent of THE REFLECTOR in today's paper takes up the matter of the new schedule on this branch of the Coast Line, and makes some timely suggestions about it. The REFLECTOR has several times pointed out the seeming unfairness of the railroad people show to this section and has been unable to account for it. When this matter of giving us a later train at night was first mentioned, we stated that it would not be satisfactory to the public and would be a hindrance to business. Our correspondent offers a suggestion that would make the schedule better and make no extra expense for the railroad, and yet make all connections. It looks to us like the railroad authorities would be reasonable enough to give this some consideration. If this branch had more than one train a day the matter might be different, but as we have but one, the schedule of that one certainly ought to be for the convenience of the largest number of people.

Norfolk connection is very nice for the person who occasionally wants to go there, but it is nothing in comparison with the benefits that would come from getting our mail several hours sooner. Way, just think of it! The mail coming from the north gets to Weldon about half past eleven o'clock, and there it lays for five hours before coming down this road. Could anything be worse than this?

Now THE REFLECTOR earnestly asks the railroad people to consider the injustice they are putting on this section. Either adapt the suggestion of our correspondent, shorten the stay at Norfolk one hour and equip the train over here so it can make the same connection and still reach Greenville by 6:30 o'clock; or else abolish connections with Norfolk so far as this branch is concerned, and give us a quick train from Weldon that will bring our northern mail on from there without any delay. Almost anything would be preferable to the present schedule.

The constitution does not go with the flag every time, but THE REFLECTOR has a way of following "Uncle Sam" everywhere he goes. We have for sometime been sending letters to Hawaii, Cuba and Porto Rico, and today we entered a subscriber in the Philippine Islands.

Information by wire today shows that this hot spell extends all over the country. New York reported yesterday as the hottest July day known in that city, with a record equally high today. There were fifty six deaths from heat. The Norfolk weather observer says there is no prediction for rain in that section earlier than Saturday afternoon. The heat is awful everywhere.

TOWN MATTERS

Transacted by the Aldermen.

The Board of Aldermen held another special meeting Tuesday afternoon at 5 o'clock. As soon as the Board met the resignation of Alderman J. S. Tunstall, of the fifth ward, was read and accepted. This makes the third member of the Board who has resigned so far. Mr. H. C. Ormond was elected to succeed Mr. Tunstall, but he was sick and could not attend the meeting when notified of his election, so it cannot be said yet if he will accept.

The matter of electing an assistant police was again deferred, this time to the regular meeting which will be held Thursday night. So with the candidates there is yet much anxiety.

J. H. Moye, Secretary of the Graded School Trustees, presented the application from the Trustees for a tax levy in the graded school district of ten cents on the one hundred dollars valuation and fifty cents on each poll for school purposes. Consideration of this will be had at the time of levying taxes.

The Clerk and Mayor were instructed to correspond with parties for information relative to the best means of selling bonds.

The bond of the Treasurer was fixed at \$8,000 for the general funds of the town.

The salaries of the officers were made as follows:

Mayor, \$300 per year.

Clerk, \$75 per year.

Chief Police, \$40 per month.

Assistant Police, \$35 per month.

Night Police, \$10 per month.

Tax Collector, 5 per cent com.

Commissioner, \$22.50 per month.

Lamp Lighter and Janitor, \$20 per month.

Cause for Great Satisfaction.

It is noteworthy that so little change is to be made in the personnel of the heads of the greater schools of the State. We notice that President Kilgo is to make a European tour. President Shaver retires from the presidency of Davidson, but he only changes places with Vice President Smith, and will give the school the benefit of his invaluable learning, sound ship and experience as a teacher in the office of vice-president. At the University, at Wake Forest there is to be no change. In the graded schools of the State we have seen no report of changes. All this is encouraging. It shows there is satisfaction in work and prospects on the part of the boards of management and school boards.

One of the higher schools of the State never had so valuable and successful head masters before in all of its history. This is a pleasing reflection when it is a fact there never were so many boys and girls seeking a higher education. The need of new scholarships does not seem to be improved just now upon the teachers in all schools.—Lancaster Robinsonian.

The total number for the month of June was 20, of which 9 were for white couples and 11 for colored.

Bringing Them Up in the Way They Should.

A gentleman from near Osceola was in town one day recently telling of a remarkable family of children in his community. Among other things about them he says that they are all made to learn to swim at the age of two years, and that after that time they are allowed to chew all the tobacco they want. He says the baby will quit nursing to cry for a chew of tobacco.—Waxhaw Enterprise.

A man in Ray county, Missouri, became convinced recently that he had incipient consumption. Every time he drew a full breath he heard a crackling sound. A doctor discovered that the crackling sound was made by a small buckle on his suspenders.

STATE NEWS.

Happenings in North Carolina.

Mrs. Bettie Russell, a widow about 60 years of age, who lived near Institute, in Lenoir county, committed suicide by taking Paris green. We learn from the Free Press.

During a heavy thunder storm at Burlington, Saturday night, the Presbyterian church was struck by lightning and set on fire. The damage to the building was about \$1,000. Citizens turned out in the storm and prevented the church being destroyed.

WINTERVILLE DEPARTMENT.

THE TEACHERS' INSTITUTE.

WINTERVILLE, N. C., July 3.

The summer school is in full blast and 112 teachers registered the first day.

Mathematics is taught by Prof. Fred S. Carr, of Castoria, who graduated at the University of North Carolina in '95 and served there one year as instructor in Latin and has for the last three years been the very successful principal of Snow Hill Academy and also very ably and faithfully served his people in the last Legislature.

Prof. Z. D. McWhorter, a graduate of the Peabody Normal of Nashville, Tenn., has charge of grammar and history. Prof. McWhorter has been in the school room for seventeen years and is too well known in Pitt county to need recommendation, as he is now principal of the Bethel High School. He took the medal on history in a State contest at the teachers assembly in 1888.

Prof. Chas. L. Coon teaches geography, reading, writing, spelling and languages. He is a full and capable teacher. He is a full and capable teacher. He is a full and capable teacher.

In the course of lectures Dr. R. T. Vann was the first to speak Monday night to a large audience of teachers and people of the town and community. He divided his subject into three parts followed by some suggestions. "First, Examine your material. A carpenter or mason does this. Why not teachers do the same? 2nd. What do you wish to do with it? Some teachers, some horses, some men to be pupils, each with a single aim in view—make the best of your material. Did God intend for animals to be trained and one in his own image go untrained? "Doctors and lawyers are made, but the noblest thing made are men and women. Teach the child to aspire to noble purposes. Tendency to short cuts in education is misleading and injuring our youth. A man may know medicine or law and not be educated. Educate first then learn profession. Let mothers be like Cornelia, say my children are my jewels."

"The Goddess of liberty is not marble and bronze, but the patient, plodding school teacher. Starvation prices must be changed. Protect your interests and notify the State authorities that they must not take the public school money to free State appropriations to the private school, robbing them of \$100,000."

How is this for Pitt county? There are more enrolled in the Institute than have been examined in the county in twelve months.

Rev. M. P. Davis, Superintendent of Greene county schools preached here Sunday night and is attending the Institute looking after the work and the welfare of his teachers.

Prof. E. L. Middleton, who is traveling for the B. F. Johnson Pub. Co., is spending a few days here.

Prof. F. P. Holgood stopped over Tuesday and promises to return later and give us a lecture.

Shower baths and ice water help to render these hot days endurable.

Prof. W. H. Ragdale is looking after the welfare of the teachers and taking an active part in everything concerning the interest and success of the school. It is needless for me to say anything commendatory of the Professor for all who know him are well aware of his high character and his failure has never atoned for whatever he is touched by his hand the effect is incalculable and success has and will always crown his every effort. Prompt in the discharge of duty, zealous in his noble aim to accomplish his every aim is an aspiration that seems to guide him in all his undertakings.

OUR RALEIGH LETTER

RALEIGH, N. C., July 1.

A report has gone out from here during the past week to the effect that the auditorium plan has fallen through and that Raleigh will not have improved and enlarged facilities for accommodating State conventions and the like in the near future. It's all a mistake, and we will have a big combined theatre-auditorium long before the time for holding another political State convention arrives.

As to hotel accommodations, there are three commodious hotels here, two of which with about 150 rooms, are now closed. These will be thrown open to accommodate 300 to 500 guests and with the other hotel and boarding houses could well take care of 1,000 delegates or other visitors. Still, we need a new and more modern and up-to-date hotel, and expect to build that, too, in ample time. Raleigh can and will do its part, and the conventions will continue to be held here.

NEW PROFESSOR.

There are said to be more than twenty applicants for the professorship of Agriculture at the A. & M. College here, the salary of which has been fixed at \$2,500. The very best man for the place should be secured, will be selected. President Winston, Chairman Primrose of the Board of Visitors, and the Board of Agriculture are actively interested themselves to this end, and to secure a like person of scholarly attainments and experience as State Veterinarian and Professor of Animal Husbandry.

OXFORD ORPHAN ASYLUM MANAGEMENT.

The directors of the Oxford Orphanage have elected the following officers for the ensuing year: Superintendent, W. J. Hicks; Secretary and Treasurer, G. Rosenbaum; Supervisor of Female Department, Mrs. N. N. Bemis; Hospital Matron, Miss Belle Austin; Superintendent Printing Department, E. W. Jones; Clerk, J. C. Turner; Managers of Laundry and Kitchen Department, Miss Fannie Penister and Miss Cora Hogan; Editor Masonic Department "Orphan's Friend," Hon. John Nichols, Past Grand Master; Superintendent Sewing Department, Miss Maggie Myers. Eight female teachers were also elected. The resignation of Mr. B. N. Duke, of Durham, who has been such a good friend of the institution, was accepted with regret. Clerk, J. C. Turner, elected to fill the vacancy. There are 226 little orphans at present in the asylum, which is managed by the Grand Lodge of Masons, and it is a noble work in which they are engaged.

VARIOUS MATTERS OF INTEREST.

The drowning (by the capsizing of a row-boat last Friday evening) of ex-Postmaster and Collector of Customs at Newbern, Wm. E. Clarke, his two little daughters, Mary and Frances, and young George Bryan, aged 15 years, was a shocking and deplorable accident. Mr. Clarke was a prominent Republican and well known throughout the State.

The N. C. dentists closed their annual meeting Friday night at Morehead, after electing the following officers for the ensuing year: President, J. S. Spurge; vice-presidents, J. D. Biggs and J. H. Benton; treasurer, D. L. James; secretary, J. M. Fleming; examining board, V. E. Turner, S. P. Hilliard, R. H. Jones, T. M. Hunter, J. E. Matthews, C. A. Blund, executive committee, D. E. Everett, N. G. Carroll, E. J. Tucker. Executive committee will select next place of meeting.

The annual meeting of the N. C. Bar Association in session at Writingsville last week adjourned Friday after the most successful meeting yet held. President Chas. M. Steadman declared. The new officers are: President, C. M. Busbee; vice-presidents, one from each judicial district; secretary and treasurer, J. Crawford Biggs.

The government reports, received here, show that only about one-third of the blind children of N. C. receive any benefits from the institution for the blind here. The address of each blind child is given and extra efforts should be made to reach and draw them in. That's what the asylum for the blind is for.

A Rabbit Kitten.

A cat belonging to Mr. Thos. Bradley, near Kadesh, some time ago captured a field rabbit, according to an informant with which to feed her litter of kittens. The kittens however were too young for such fare, and instead of eating bunny, welcomed him to their nest. The rabbit since then has lived and grown up with his strange companions.—Danville Free Press.

The Effect of His Pace.

An amusing story is told at the expense of the noted Churchill, the author. An old man, seeing the picture of Churchill displayed in the window of a Baltimore bookshop, inquired of a bystander whom it represented.

"Winston Churchill" was the reply.

"Where was he from?"

Being told that Mr. Churchill was not a preacher, he asked: "Ain't he? What did you say his name is?"

"Winston Churchill." He writes novels.

"Writes novels."

The man shook his head with a look of pity and declared: "Too bad! Too bad! He has a good face."

Hearts About Collapsing.

The use of the "E Pluribus Unum" on coin was never authorized by law. Its first known use was on a New Jersey cent struck off in 1775. The word dollar came from the German word: Dutch, daler; Danish, daler; and Italian, daller. The word dime is from the French dixime (a tenth), expressing the tenth part of the standard dollar, and first appeared on sample coins made for congress and spelled "disme." When our country took the place of Spanish colonies, the dime supplanted the real, known as a shilling in New York, in Virginia as a levy and in Louisiana as a bit. The word cent comes from the French centime (hundredth), derived from the Latin centum (one hundred).

The Effect of His Pace.

An amusing story is told at the expense of the noted Churchill, the author. An old man, seeing the picture of Churchill displayed in the window of a Baltimore bookshop, inquired of a bystander whom it represented.

"Winston Churchill" was the reply.

"Where was he from?"

Being told that Mr. Churchill was not a preacher, he asked: "Ain't he? What did you say his name is?"

"Winston Churchill." He writes novels.

"Writes novels."

The man shook his head with a look of pity and declared: "Too bad! Too bad! He has a good face."

Hearts About Collapsing.

The use of the "E Pluribus Unum" on coin was never authorized by law. Its first known use was on a New Jersey cent struck off in 1775. The word dollar came from the German word: Dutch, daler; Danish, daler; and Italian, daller. The word dime is from the French dixime (a tenth), expressing the tenth part of the standard dollar, and first appeared on sample coins made for congress and spelled "disme." When our country took the place of Spanish colonies, the dime supplanted the real, known as a shilling in New York, in Virginia as a levy and in Louisiana as a bit. The word cent comes from the French centime (hundredth), derived from the Latin centum (one hundred).

What the Topsy Said.

The bold, brazen girl, As she looked her head, "He's a good fellow, I say, Over the white man's head, To the little boy's head, But the little boy's head, And must have away till I'm out of breath, To the little boy who will ride me to death!"

And the top say said: "I'm a good fellow, I say, Over the white man's head, To the little boy's head, But the little boy's head, And must have away till I'm out of breath, To the little boy who will ride me to death!"

THE WAY TO PROSPERITY.

A successful man once said this was his motto:

Early to bed, early to rise, hustle like thunder and advertise.

Advertising

in THE REFLECTOR will bring you success. Don't lag behind in the race, but let the people know what you are here for.

The easiest, quickest and best way to sell anything is to advertise it in THE REFLECTOR. Such an advertisement goes straight to the people, they learn what you have to sell and you reap the benefit.

We have just purchased a large supply of bright and attractive cards to illustrate REFLECTOR advertisements, and you are at liberty to use them. If you don't know just what you want to say, we will help you get your advertisement. That is our business, to help you talk to the people.

The cost of an advertisement in THE REFLECTOR is the easiest part.

A Rabbit Kitten.

A cat belonging to Mr. Thos. Bradley, near Kadesh, some time ago captured a field rabbit, according to an informant with which to feed her litter of kittens. The kittens however were too young for such fare, and instead of eating bunny, welcomed him to their nest. The rabbit since then has lived and grown up with his strange companions.—Danville Free Press.

TEETHINA was first used by Dr. Charles J. Moffet, a graduate of Jefferson Medical College, Philadelphia, Pa., in his extensive and successful treatment of children in Georgia in overcoming the troubles in dent to nothing and hot steam, and TEETHINA (Teething Powders) cured the effect of hot weather and keeps the digestive organs healthy and sound. It has saved the lives of thousands of children in the doctor's native state, where physicians prescribe and all mothers give it, and it is common in mothers of our section to allow their babies and little children to use TEETHINA, which when relief can be so easily obtained by giving TEETHINA. It is only 25 cents of druggist, or mail 25 cents. C. J. Moffet, M. D., St. Louis, Mo.
