A NOVEL SCHEME.

For Higher Education in the Public Schools Comes From Rowan.

The school committee of Mt. Ulla township, Rowan county, have decided upon a novel experiment in public school work.

At a recent meeting of that committee it was decided that it would be wise to establish a high school, centrally located in the township, for the instruction of the more advanced public school children.

This idea was crystallized at a meeting of the committee and a number of educators, who will endeavor to establish in each township, or suitable sized territory in the rural districts, where the funds will justify, a high school to be supported in part or whole, as the case may be, where the more advanced grades of pupils may be the better classed and taught than in the primary free schools. The idea met with hearty endorsement and was referred to the county school committee with the request that it be carried out in Mt. Ulla township next year.

This matter has been brought before General Toon, the Superintendent of Public Instruction, by Prof. J. K. Goodnaug, member of the Rowan county board of education.

The resolutions adopted by the Mt. Ulla committee are as follows:

Whereas, In our system of common schools it appears that the prevailing tendency is for more money and longer schools terms, and

Whereas, The four months term now had are amply sufficient for the grade of work usually done, and as long a term as those for whom it is specially designed can afford to attend, and

Whereas, It is evident that the secondary or higher education is sadly neglected in rural or country districts, and experience and observation prove that attempts to combine it with the primary free school proper have, in most cases, fell short of producing satisfactory results. And

Whereas, All are taxed alike for school purposes, and the funds available are in excess of the necessary requirements for primary schools, and the more advanced pupils have not under the present system the benefits which they deserve, therefore be it

Resolved, 1st. That in view of the foregoing, for the best interests of common school education in general, and of the rural districts in particular, that we are in favor of establishing a central high school in each township, (or convenient sized territory), for the special benefit of pupils of such advanced grades as it is not practical to teach in said primary schools.

Resolved, 2nd. That we would favor such apportionment of school funds as would run the now primary schools not over four months in the year, and the excess to go to said central high school as a nucleus for its support in part, or whole, as the case may be.

Resolved, 3rd. That a copy of this paper be submitted to County Board of Education of Rowan county, with request to consider this matter, and if the way be clear, make the "experiment," if such it be, in Mount Ulla township the present school year.

IRISH POTATOES.

The papers have a lot to say about the scarcity and high price of Irish potatoes this year. The drought in the Middle West and West has cut the crop short and the almost incredible statement is made that potatoes which generally sell in the larger cities for about \$1.50 a barrel are now worth \$1 to \$5 a barrel. We of the country can scarcely conceive to what an extent Irish potatoes figure as an article of diet in the cities. In the hotels and cafes they are far more popular than bread, the place of which they take, and a meal without them is not thought of. It is so with the people in all the walks of life. They are as staple as any other product of the soil—wheat, corn, cotton or tobacco; they always command a good price, with comparatively little work in planting or cultivating; they grow well in North Carolina, producing enormously to the acre; the digging of them does not cost like harvesting and threshing wheat, pulling corn, picking cotton or cutting and curing tobacco; the proceeds from the sale of the product of an acre in potatoes far out run those from an acre in any other of the crops named. It has been often wondered why the North Carolina farmers do not raise them more extensively for market. We are not advising them on the subject for they are supposed to know their own business, and certainly they are already too much advised by people who know much less than they do. The reason is perhaps the difficulty in saving the crop after it is dug. Of course there is some good reason and there may be several, and The Observer suggests that some intelligent farmer or trucker could write an interesting newspaper article on the subject.—Charlotte Observer.

The farmer often makes hay while the sun shines in society.

Locust trees are said to be more susceptible to lightning than other trees. Farmers in Western Pennsylvania and Ohio report many instances where locust trees have been splintered by lightning when other varieties have escaped. A Western paper advises people not to take shelter under a locust tree during a thunder shower; it might have added: "Or any sort of tree."

EASTERN REFLECTOR

GREENVILLE, N. C.
D. J. WHICHARD, Ed. & Owner

Entered at the Post Office at
Greenville, N. C., as Second-Class
Mail Matter.

FRIDAY, AUGUST 23, 1901.

The Sheriff and Superior Court
Clerk give notice that all jurors
summoned for the regular Septem-
ber term of Pitt Superior court
need not attend, as a new jury will
be drawn for the special term that
will begin on the third Monday,
16th. All persons who were bound
over to the regular term, and all
witnesses are ordered to appear at
the special term. Everybody in-
terested should give particular at-
tention to this.

The Charlotte Observer is setting
the pace at a rapid rate, and con-
tinues to make for itself a name.
Recently a crime was committed at
Charlotte, the authorities were
slow about taking steps to capture
the criminal, when the Observer
put up a reward of \$200 and a cap-
ture was soon made. Now the
Observer is going in for even a
bigger thing than that. It is char-
gering an excursion from Char-
lotte to New York. A special
train over the Seaboard Air Line
will be run to Portsmouth, from
which point an Old Dominion
steamer has been chartered to New
York. May it meet with success.

Rev. H. M. Enre, pastor of the
Methodist church, in his sermon
Sunday morning warned parents
against slot machines. He said
they were dangerous to the boys
of the community, and unless the
evil was removed the consequences
could not be foretold. He told of
the President of a liquor associa-
tion who stated in an address that
their business would decrease un-
less a thirst for drink was created
among the boys, and that nickels
and dimes invested in treating boys
now would bring dollars to the
pockets of the rascal in future.
By comparison Mr. Enre said that
slot machines would entice boys to
places of both gambling and drink-
ing, making the evil two-fold.
The reference in his sermon was
timely and has put some people to
thinking.

A member of the Board of Alder-
men delivered himself at the meet-
ing, Monday afternoon, of a tirade
against THE REFLECTOR because
the paper had dared to speak
against slot machines and to criti-
cize the action of the Aldermen in
levying a license tax under which
they could come in and operate here.
Make any excuse for it they may,
there would now have been no slot
machines in Greenville but for the
levying of the license tax. Some
of the Aldermen are frank enough
to say they had no idea such ma-
chines were coming in as are now
being operated here. We do not
believe all did fully realize the ex-
tent of the slot machine evil, or
surely they would not have voted
to license them. Now after seeing
it, they should reconsider the mat-
ter and correct what has been done
as far as it is in their power.

The Swiss customs authorities
have arrested forty pupils and all
the teachers of an Italian girls
boarding school located near the
frontier for having smuggled mer-
chandise across the border. The
teachers were in the habit of taking
the girls out on daily tramps in
procession, walking two by two.
The walks led over the border so
often that the custom house au-
thorities became suspicious, stop-
ped and examined the young wo-
men and found their clothes full of
cigars, cigarettes and other prohibi-
ted articles. It is estimated that
up to the time of their detection
they had smuggled in \$30,000
worth of forbidden goods.

WASHINGTON LETTER.

From Our Regular Correspondent.

WASHINGTON, D. C., Aug. 19.

Rear Admiral Schley, who has
been in Washington for several
days and will probably remain un-
til the close of the Court of Inquiry,
looks like a man who knows he is
right and is absolutely certain of
winning. He spends much time
with his counsel, giving them point-
ers in the preparation of the pro-
gramme that will be followed by
them during the inquiry. Today
all three of his counsel—Judge
Jeremiah M. Wilson, Hon. Isidor
Rayner, Attorney General of Mary-
land, and Capt. Parker made a
formal call on Acting Secretary
Hackett for the purpose of pre-
sents Schley's supplementary list
of witnesses to be ordered before
the Court, and to ask for a list of
the Navy Department's witnesses.
Acting Secretary Hackett has
promised that Admiral Schley will
be furnished a list of the Depart-
ment witnesses as soon as it is
completed. Admiral Schley regrets
having to abandon his purpose of
accompanying the Washington
Knights Templars to the Louisville
Caucus, but he feels that it would
not be good taste for him to do so
under the circumstances; that it
might be thought that he was seek-
ing to be lionized by his fellow
Templars for effect. When he
promised to go with the Washing-
ton Commandery, of which he is a
member, he had no idea that he
would at this time, be preparing to
appear before a Court of Inquiry.
There are reasons other than the
outrageous treatment of Rear Ad-
miral Schley, why a courageous
and fair-minded Congressional
Committee could do the country a
real service by thoroughly investi-
gating all branches of the Navy
Department. One of them may be
found closely connected with the
cruiser Columbia, which cost \$5,-
000,000 less than ten years ago,
and which was allowed to rust at
the League Island Navy Yard until
in danger of sinking, with no care-
taker other than a single watch-
man, and which was lately sent to
the Brooklyn Navy Yard to be
used as a receiving ship. Although
built for speed and regarded by
outsiders as one of the finest ships
of its class, the Bureau of Naviga-
tions has from the day it was first
put in Commission, assigned the
Columbia to obscure tasks. The
reason ascribed for this would ap-
pear ridiculous, if it were not so
obviously true. The Columbia was
designed by Rear Admiral
Hiebhorn, who has always been an
outspoken friend of Admiral
Schley, and has in consequence
been constantly opposed by the
Bureau of Navigation. The
country certainly has a right to
know whether there was any other
reason than spite or envy for the
deliberate plans of the Bureau of
Navigation to lay up a \$5,000,000
cruiser in order that neglect might
make it useless, and a Congressional
Committee could find out, if it
wished about it the right way.

Greenville, N. C. Prop. Farmers' Warehouse.

THE MARKET HAS OPENED

Under more favorable conditions than ever before in its
past history. We have larger and better facilities for handling
tobacco than ever before and a larger number of good buyers
who have orders for every grade of tobacco grown. Greenville
is your market and the

Farmers Warehouse Headquarters

for highest market prices at all times, and clever, courteous
treatment at the hands of every one connected with the Farm-
ers Warehouse.

HEAR ME A MOMENT.

I am in better fix to do business than ever before, and if
work and the best prices will get it I am going to have your
tobacco. I appeal to no passion or prejudice but from upon
the bed rock of truth and merit I rest my chance for your pat-
ronage. I ask you this year to give me a chance and I will
take care of the balance. I have been running a warehouse
on this market nearly 10 years and I think I know how to sell
your tobacco. I have with me a corps of thoroughly compe-
tent, reliable and courteous assistants, who will use every
honorable means to advance your interest. When you come
to Greenville I ask you especially to come around and see me
whether you bring tobacco or not. A hearty, princely welcome
always awaits you at the Farmers.

O. L. JOYNER,

Greenville, N. C. Prop. Farmers' Warehouse.

BLACK JACK ITEMS.
BLACK JACK, N. C., Aug. 20, 1901
Miss Sarah Cooper, of Roper
city, arrived Friday evening to
visit relatives and friends here.
Elder Z. T. Phillips filled his ap-
pointment here Saturday night
and Sunday.

week here.
Misses Fannie and Nolia Lan-
caster are visiting in this neigh-
borhood.
Mr. Woodard, of Scotland Neck,

K. L. Clark was presented with
a deer by his uncle, Mr. J. H.
Mills, on last Saturday, his 17th
birthday. Ed. is delighted with
his deer and says he hopes to be
able to raise him.
A. C. Clark will leave Friday
for Mr. Olive to attend the fall
term of school there. We regret
very much to have him leave us.
Amos is a bright, industrious
youth. We wish him well in his
future undertakings.
Miss Annie White spent Mon-
day with her sister, Mrs. Wessie
Dixon, near here.

There is a Difference.
Out on the sales a few days ago
a bunch of farmers who had tobacco
on different floors were discuss-
ing the sales at the different ware-
houses. One of them said that he
had thought tobacco would bring
as much on one floor as another,
as the same buyers followed the
floors, and would pay as much at
one place as another. "But," said
he, "since I saw the sale at Joy-
ner's this morning, I am convinced
there is a difference. At Joyner's
there was an earnestness and en-
thusiasm, that put life in the sale,
and I know tobacco sold higher on
this account. Besides Joyner
knows tobacco and don't mind
hiding on it and ain't afraid to
buy a pile." This conversation
took place on the street after the
sales were over.

Notice.
I have been authorized by the
County Commissioners to list delin-
quent taxes. All persons who
have not listed their taxes for 1901
are notified to come and do so dur-
ing the month of August, or they
may have an interview with the
Collector at September court.

We must congratulate THE REFLECTOR
upon its most excellent
list of correspondents from various
sections of the county. These are
the kind that furnish news un-
like to the people, even if some of
it is manufactured. We mean no
serious reflection. Only it speaks
well for THE REFLECTOR.

[Well, in a good town like Winterville for instance, where so
much manufacturing is done, why
can't news be manufactured too?

Claims He Can Cure Insanity.
Dr. C. H. Denson, of this city,
claims to have discovered a posi-
tive and permanent cure for insan-
ity. He resides at 1522 Virginia
avenue and holds high rank as a
physician. His special study has
been neurology, and he is very firm
in his conviction that he can do
what he claims.
"I have cured five cases so far,"
said he, "and wish to demonstrate
that I can cure others. I have had
some trouble with the medical
fraternity because I will not give
out the secret of my treatment. I
would like to state in advance that
I do not pretend to cure cases of
insanity due to severe injuries to
the head or where persons were
born idiots. That is impossible.
But in other cases I will cure in
from four to eight weeks.
"To demonstrate this to the
world, I only ask that the St.
Louis newspapers, one or as a
whole, select some worthy subject,
say a mother of a family, or a
father, or even a son, who need
charity will be apparent. The
conditions are these: If the pa-
tient be in an asylum I must insist
that he or she be at once re-
moved to some private home, where
if possible, I will charge nothing
for my services, and if, after my
treatment, the patient is not
restored to perfect mental
health, I will forfeit \$500."—St.
Louis Dispatch, 1901.

We do the work.

And that is the reason the old Greenville Warehouse is
selling so much tobacco. We get the highest price for every
pile sold on our floor. The farmers see this, and appreciating
the hard work we do for them they bring us their tobacco.
We treat all alike, get the best price every time. Bring your
next load to the Greenville Warehouse and we will show you
the truth of this. We have every accommodation for you and
your team.

days. GREEN & HOOKER.
Richard Harris, a colored man
who was a tenant on the farm of
Mrs. Lucy Randolph, was drowned
near Falkland on Sunday. The
man attempted to ford the creek
that was badly swollen and got in
where the water was too deep. The
team got out safe, but the man
was drowned. A bottle of whis-
key was in his pocket when his
body was found.

GRIFTON ITEMS.

GRIFTON, N. C. Aug. 21, 1901.
J. Z. Brooks went on a business
trip to Kinston Tuesday.
Miss Eva Bell Wells, of Kinston,
is visiting the Misses Pittman for
a few days.
Geo. Sugg, Lloyd Wooten and
Marvin Mendenham, all of Kinston,
came down Tuesday morning to
see the game of ball between Grif-
ton and Vanceboro.
Dr. Dawson accompanied his
mother, Mrs. Sack Dawson to Ashe-
ville where Mrs. Dawson will stay
for a few weeks for her health.
Mat Allen and Frank Quinley,
of Kinston, came over Tuesday to
see the game of ball and root for
the Grifton boys.
Ben Sheppard, Sidney Moore
and Barnes Sumrell came over
from Ayden Monday to see the
game of ball on Tuesday.
Tuesday about ten o'clock, the
Vanceboro, or the best ball play-
ers of Craven county on the north
side of Neuse river, began to drive
in to be ready for a game of ball
in the afternoon. And after a
hotly contested game the Grifton
boys came out victorious in a score
of six to nine in favor of our home
team. The boys from Vanceboro
began to kick from the time they
got here until they left, but say
they could not find any fault with
the umpire's decisions, as he gave
everything that was to be given to
the visiting team. The boys from
Craven when they went on the
grounds they kicked on the back
stop and of course to get a game
we tore it down, but we were con-
vinced that the catcher for their
team wanted it back before the
game was over.

**Burned Her Son's Tongue as a Cure for
Lying.**
Elizabeth Buzard, colored, was
convicted here to-day of having
thrust a red hot iron poker into
the mouth of her seven-year-old son
Daniel, because the little fellow
had been guilty of telling a false-
hood.
According to her own admission
the woman deliberately heated the
implement over a coal-oil lamp and
forcing the boy's mouth open, held
it against his tongue for several
seconds, burning him frightfully.
She was sent to jail for six months
and fined \$50. The boy will prob-
ably recover.—Baltimore Dis-
patch, 17th.

**It is important that those who go
on excursions for pleasure or health should
make some provision against the attacks
of bowel disease, which not only cause them
great inconvenience, but are sometimes
fatal in their results. A bottle of Perry

most effective remedy against such attacks.
Avoid imitations, there is but one Pain-

OUR RALEIGH LETTER

Raleigh, N. C., Aug. 19.
The new school text-book incident has been closed at last and on Saturday Superintendent of Instruction T. B. Hunt sent out the final letter to the county boards of education giving instruction agent their views, exclusively, in the free public schools for the next five years.

Senator Pritchard and Congressman Fox, of the Raleigh (Fourth) District have secured establishment of nineteen free rural mail delivery routes in this district. The Senator has the naming of ten and the Congressman nine of the carriers.

This is a great convenience to the country people, and every county in the State should urge its Representative in Congress to secure the establishment of as many of these routes as possible. And it may be added, that the more routes of "good roads" the counties have worked the more rural deliveries they will secure.

THE FARMERS' ALLIANCE.
The State organization of the Farmers' Alliance held its annual meeting last week at Hillsboro. Capt. W. B. Fleming of Warren was elected President of the Alliance; T. P. Johnson of Rowan, Vice President; T. B. Parker of Hillsboro, Secretary and Treasurer and Business Agent; J. W. Deane of Raleigh, Chairman Executive Committee.

A resolution was adopted denouncing the "fertilizer trust" which the Virginia Carolina Chemical Company and advising farmers to buy as little manipulated guano as possible, and to make their own fertilizers from the raw materials.

EPIDEMIC AMONG FARM HORSES.
A terrible epidemic among horses in certain portions of portions of eastern North Carolina is reported. In Hyde county alone over 200 are dead from "staggers" and fever and many more are sick. The fever which kills them is brought on by mosquito bites (these little pests in facting the county in unusual numbers this summer), and a formula for preventing the fever is now being sent out to farmers by the Agricultural Department here.

MINOR MATTERS OF MOMENT.
Preparations are being made to care for a larger number of Confederate old soldiers at the Confederate Home here, and about November 1st a number of additional inmates can be received. There is not room for as many as 100 at present. The contract was not let last week for a new \$1,500 dormitory building, which, with the new hospital building now in use, will make a great improvement at the Home.

MINOR MATTERS.
At the encampment and annual meeting of the Confederate Veterans last week at Wrightsville, General Ransom delivered an address and the following officers were elected: Commander, General S. Carr; Brigadier Generals, John G. Hall, W. L. London, J. M. Ray, F. M. Parker, for the first, second, third and fourth Brigades, respectively. The next meeting will be held at Greensboro, August 29, 1902.
