LAXAKOLA

THE GREAT TONIC LAXATIVE

If you have sour stomach, indigestion, biliousness, constipation, bad breath, dizziness, inactive liver, heartburn, kidney troubles, headache, loss of appetite, insomnia, lack of energy, bad blood, blotched or muddy skin, or any symptoms and disorders which tell the story of bad bowels and an impaired digestive system, Laxakola Will Cure You.

It will clean out the bowels, stimulate the liver and kidneys, strengthen the mucous membrane of the stomach, purify your blood and put you "on your feet" again. Your appetite will return, your bowels move regularly, your liver and kidneys cease to trouble you, your skin will clear and freshen and you will feel the old time energy and buoyancy.

Mothers seeking the proper medicine to give their little ones for constipation, diarrhea, colic and similar troubles, will find Laxakola an ideal medicine for children. It keeps their bowels regular without pain or effort, acts as a general tonic, restores nature, aids digestion, relieves restlessness, clears the coated bowels, reduces fever, causes refreshing, peaceful sleep and makes them well, happy and hearty. 7c Children like it and ask for it.

WASHINGTON LETTER.
From Our Regular Correspondent.
WASHINGTON, D. C., Sept. 2.

General Wood's report as Governor General of Cuba, has just been made to the War Department. It reviews the administration of the affairs of the islands during the past fiscal year, paying attention to resources, education, the judiciary, the steps taken for a new civil government, etc. But the most significant portion of the whole document contains an unconsentaneous arrangement of the high tariff policy of the United States Government. He said that the present system does not favor commercial facilities on account of unfavorable duties on tobacco and sugar. They keep the prices up in this country and if they are persisted in regard to Cuba it will retard the development of Cuba will be slow if at all, as the changed conditions in commercial relations since the time of the Spanish War make her now market her principal products in the United States, and she must have lower duties "if she is to live and prosper." Comments like this are the best arguments that low tariff can have, and they are particularly forcible when they concern the vital welfare of an island that our promises and our national honor compel us to foster and protect.

The summer is Uncle Sam's house cleaning time, when there is nothing else in Washington of sufficient importance to distract his attention from his imperative task. During the hot months the annual renovation takes place, and about the first of September sees the work completed. This year the changes have been particularly sweeping, almost all the interior of the Capitol building being repaired and made modern. The Supreme Court room was about to emerge from a phase of plaster, when only a few days ago the temporary plaster ceiling, under the new steel one, fell and hurt several workmen. A party of tourists under the direction of one of the Capitol guides, got out in the nick of time. One of the most ticklish jobs has been the putting in of a steel counter-part of the plaster ceiling of Statuary Hall. This hall has peculiar acoustic properties, there being many "whispering galleries" that are the delight of the young married couples that make Washington their honeymoon Mecca. These galleries are also prolific sources of income to the Capitol guides who reveal their mysteries to the uninitiated. An account of all this there was a clause in the building contract that the contractor should in no wise impair the whispering properties. A recent test shows the mastic echoes still intact. The usual new carpet will appear in the Senate and House, the old ones having been removed. Absolutely unique carpet designs—though always in red—are luxuries that Uncle Sam allows his legislators.

The Schley-Sampson controversy is attracting but little attention now, and everybody is letting it drop for a breathing spell until the Court of Inquiry convenes at the Navy Yard, September 12. On account of the death of news just now the yellow journals are trying to keep the feud alive, but the public is apathetic.

The politics of Virginia are attracting some local attention for one of the candidates for lieutenant governor Mr. Wilcox who is finishing the campaign "char" in a business man of this city and the owner of the historic Willard's hotel. He gained a legal residence in the Old Dominion, it is said for the express purpose of getting into politics, and seems to have succeeded.

The Treasurer Bureau of Statistics, and the other departments of the government service, continue to receive profits of the growing foreign trade of this country, and of the increase of cordial relations between this and other nations. This neighborliness is shown particularly in regard to the adjacent islands of the West Indies. Information from the Treasury Department shows a growing disposition on the part of the island of Jamaica to trade with the United States until now we have the bulk of the island's commerce. The facts and

figures given out have an added interest because Jamaica is a British colony, and the data comes from the British colonial report. The value of exports shows a constant increase from the island to the United States, and where Great Britain has almost a third of the Jamaican exports in 1896 she gets now less than one-fifth. Americans taking the rest. Her imports to the island are also decreasing steadily in proportion to the volume of trade while the United States gain.

Atlanta, Ga., Nov. 19, 1900.
We have headed Dr. Moffet's Tonic (Tasting Powder) over since its first introduction to the public and trade as a proprietary medicine, and our trade in it has steadily increased from year to year until our sales now amount to two or three hundred gross per year, which is a very strong evidence of its merit and the fact that it is giving to mothers of the country, for they say that nothing so effective and safe as this Tonic for children, for it is an over-see so quickly the effect is manifest in teaching.

ORIGINAL OBSERVATIONS.
Made By The Orange, Virginia. Observer

You can borrow all the trouble you want without giving security. The quickest way to get rid of some friends is to do them a favor. Never kick a man when he is down—bite his ear off, that's better. The vilest sinner always returns—when he wants to borrow another quarter. It is more comforting for a man to lend you money than to give you his sympathy. The memories of people are very short on our virtues, but exceedingly long on our vices. There are many men who are generous to a fault, but it is always to their own fault. When a man dies it is said that he has "paid the debt of nature," which is the only debt some men ever pay. Some people "buried in thought" because they cannot find soil enough to cover themselves with.

A FACT ABOUT THE "BLUES"
What is known as the "Blues" is seldom occasioned by actual existing external conditions, but is a direct result of cases by a disordered liver.

The school book commission appointed by the last legislature is an elegant institution in theory, but practically, it is a snare and a delusion. It established such arbitrary prices and rules for the selling of school books that they can be had at any store in Mount Olive or Goldsboro, hence each scholar must order books by mail thus making the cost higher than ever before. The legislature of 1901 was a glorious one and the children of this school district are paying their part of the cost—Mount Olive Advertiser.

JUST MARRIED.
They were just married. Every one could see that. They were green; that too was evident. They boarded the train at Selma with many misgivings, but once seated, their thoughts abandoned everything else, and centred on each other. She was his and he didn't care a rap who knew it. He buckled right up to her, and began to make up for lost time. He threw his arm about her neck awkwardly, just as if he were holding a lamp post, and gave a bear hug that made her wince. Of course the crowd was interested, and everybody was looking, and when the groom mounted a rousing smack in her open mouth, everybody tittered. But they didn't care. He kissed her again, and a stock man yelled 'get away from that horse's head.' Everybody laughed except the loving couple, who kept right on at business. After a more demonstrative squeeze than ever a baseball man yelled, 'hug your base there, or you will be put out.' The crowd roared. Evidently the groom thought something was up. He turned around, and looked to see where the fan was, but seeing nothing he opened his arms to receive his bride. Just then the baseball man hollered 'slide,' and as the groom firmly fastened his arms about her the baseball man said 'now hug your base, or you will be put out.' The crowd fairly yelled, and even the school teacher who had been viewing the scene with severe countenance put her head out the window and laughed outright.

THE CORRECT POSITION.
President Charles E. Taylor in his address to the students at the opening of Wake Forest College last week boldly declared that no hazing will be tolerated at that institution. EASTERN REFLECTOR

GREENVILLE, N. C. D. J. WEICHHARD, Ed. & Owner

Entered at the Post Office at Greenville, N. C., as Second-Class Mail Matter.

TUESDAY, SEPTEMBER 10, 1901.

The L. L. L. says that the people here have much trouble getting firewood cut, and as there are several traction engines around the town it is suggested to rig up a saw to one of the engines and have it move from house to house to cut the wood. The idea is not a bad one to be adopted in every town where this trouble is met.

No more lamentable calamity could have befallen the Nation than the assassination of President McKinley at Buffalo, Friday afternoon, while he was attending the Pan-American exposition. Friday was set apart as President's day at the exposition, one of the features being a speech to the multitude assembled there. Nothing but expressions of regret are heard from every one. This is the third time in the last third of a century that an assassin's bullet has been directed at a President of the United States, the victims being Lincoln, Garfield and McKinley. We hope he may recover.

Two valuable text-books by Prof. Charles L. Coo, superintendent of the public schools of Salisbury, have just been turned out of the Observer Printing House. One is entitled "Course of Study for Primary Schools," the other, "First Year Spelling and Preparation for Reading," in two parts. Prof. Coo is a patient worker, a scholarly man and a successful teacher. He is not in the school work, as so many teachers are, as a makeshift, until something else offers, but is in it for life because he loves it. These are the only people, after all, whatever their occupation, who leave enduring results behind them. Doubtless school committees and teachers will find these text-books all that is claimed for them and all that they ought to be.—Charlotte Observer.

The Western farmers feed shredded corn stalks to their stock and sell their corn to Southern planters who haven't learned that corn stalks when shredded are worth as much as timothy hay.—Mt. Olive Advertiser.

But Southern farmers will learn after awhile that this method of saving and utilizing their corn crop is as valuable to them as it is to the farmers of other sections of the country. And when they produce more feed of this kind they will produce more beef and more cattle meat richer and more productive lands. All of which mean more prosperous farmers.—Henderson Gold Leaf.

Teachers for all the public schools of the county are soon to be employed, and it is the plain duty of committees to secure the very best talent available. Do not employ a teacher because he or she will teach for a small salary, and do not be afraid to employ an efficient teacher because good pay is asked. A man or woman who is fit to teach school is worth a good salary, and it is the fairest of all economy to look at it in any other light. Let us all, authorities, parents and the public generally, do what we can to make the public schools of the county.—Walesboro Messenger.

Mr. B. N. Scarborough showed us a lot of cotton bolls today in which were worm holes. He says the boll worms have destroyed a large part of the bolls in his field. Mr. Scarborough thinks the cotton crop will be almost as bad as in 1889. He has not heard of any other farmers in this section being troubled with boll worms. He thinks the farmers should examine their cotton patches carefully to see if the boll worms are in them.

TOWN MATTERS.

Proceedings of Aldermen—Charges Against Chief Police.

The Board of Aldermen held the regular monthly meeting Thursday night, all the members being present. The standing committees had no regular reports to make. The Street committee was authorized to purchase tiling for some of the street crossings.

The matter of opening a street across West Greenville from Skinnerville to Dickinson avenue was brought up and the Street committee was instructed to investigate the matter and ascertain the best location for the street and proceed at once to construct it.

The White Cemetery committee reported that there were no funds in hand to make needed improvements, and recommended taking a sufficient amount out of the general funds to keep a man employed at the cemetery the year through. The Board did not concur in the recommendation.

The Street committee was instructed to notify A. Forbes and B. F. Patrick to repair their sidewalks on Evans street with brick or cement within thirty days.

The Tax Collector and Police made their reports of collections during the past month. The report of the Chief of Police showed fines and costs collected amounting to \$101.42, which indicated an unusually large number of offences committed during August.

The Ordinance committee was authorized to make some amendments to the dog ordinance. The committee was also instructed to draft an ordinance confining houses of ill repute to a certain territory of the town, and report the same at next meeting.

A new ordinance was adopted making it unlawful for any person to go out on the sidewalks or streets and draw or otherwise place of business into any store or other place of business by taking hold of or laying hands upon such person, the penalty being \$5 for each offense.

License to conduct restaurants were granted to Laughinghouse & Co., Laura Everett, Samuel Gibbs, Joe Forbes, and Weathering & Moye.

A petition from a number of citizens was presented asking that the street sprinkler shall sprinkle on Third street from the corner of Cotach street to the corner of the lot occupied by D. E. House. The petition was denied, and this was followed by a motion that no section of the town shall be sprinkled except Evans street between Third and Fifth streets.

An affidavit signed by John A. Finlan was presented to the Board, protesting charges against Chief of Police J. F. Smith of having violated Sec. 5, Chap. 14 of the ordinances of the town, by going into a bar room and taking a drink when not on his official duties. After the reading of the affidavit by counsel for Kinion, the Board set Monday night, August 19th, for an investigation of the charges.

THE MARKET HAS OPENED

Under more favorable conditions than ever before in its past history. We have larger and better facilities for handling tobacco than ever before and a larger number of good buyers who have orders for every grade of tobacco grown. Greenville is your market and the

Farmers Warehouse Headquarters

for highest market prices at all times, and clever, courteous treatment at the hands of every one connected with the Farmers Warehouse.

HEAR ME A MOMENT.

I am in better fix to do business than ever before, and if work and the best prices will get it I am going to have your tobacco. I appeal to no passion or prejudice but upon the bed rock of truth and merit I rest my claim for your patronage. I ask you this year to give me a chance and I will take care of the balance. I have been running a warehouse on this market nearly 10 years and I think I know how to sell your tobacco. I have with me a corps of thoroughly competent, reliable and courteous assistants, who will use every honorable means to advance your interest. When you come to Greenville I ask you especially to come around and see me whether you bring tobacco or not. A hearty, princely welcome always awaits you at the Farmers.

Sincerely, O. L. JOYNER, Greenville, N. C. Prop. Farmers' Warehouse.

NEWSY HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, N. C., Sept. 7.

Dr. Wm. E. Hall lectured in the chapel here Wednesday evening. His lecture was somewhat a disappointment, as judging from what we had heard and read of him we expected great things, possibly too much, anyway he did not come up to the expectation of many who heard him. We have heard better.

We appreciated kindness of THE REFLECTOR in phoning attempted assassination of President McKinley. Mr. McKinley is a good man and no punishment can possibly be too severe for the red handed would be murderer.

Miss Laura Cox left Wednesday to re-enter the Baptist Female University at Raleigh.

R. M. Hunsucker went up the road Thursday and returned the same day.

Ed. Fred McGilchrist and father, Mr. Lewis McGilchrist, left Thursday for Atlanta, Ga. the latter to enter the hospital of that place for treatment.

Me. G. Bryan and son went to Goose Nest Wednesday.

Mr. Dawson, of Washington, spent yesterday and last night in town.

The young men's debating society, better known as the Vance Literary Society, was reorganized last night with Sam Chapman as President and Jimmie Galloway as Secretary.

Uncle Jim Worthington of Greene county, was here Tuesday. He is talking of locating with us.

One indication that our farmers expect to gather fine crops is that A. G. Cox Mfg. Co. are having calls for lots of cart and wagon bodies.

McKINLEY ASSASSINATED.

ATTEMPT TO KILL THE PRESIDENT. He is Shot Twice by an Anarchist at the Pan-American Exposition.

At 6:45 o'clock Friday afternoon THE REFLECTOR received the following bulletin from the Union Associated Press:

Buffalo, N. Y., Sept. 6.—President McKinley was shot this afternoon at the Pan-American exposition by an insane man who was captured. One shot in chest, the other in groin, both serious. The President was taken to hospital.

This news was promptly bulletined in front of THE REFLECTOR office and was given by telephone to as many points as could be reached. More definite news came today.

Buffalo, Sept. 7.—President William McKinley was shot at 6 o'clock Friday afternoon in the Pan-American exposition grounds. The shooting was by an anarchist named Nieman from Detroit, Mich. The man had gone up in the crowd and was shaking hands with the President with his right hand when he drew a pistol and shot him with the left hand. One ball took effect in the breast and the other in the abdomen. Nieman was promptly arrested and is closely confined. He spoke boastfully of what he had done, and said he was chosen out of a committee of anarchists to kill McKinley.

Buffalo, Sept. 7.—The President is reported some better this morning and resting well. His temperature is 102, pulse 146, respiration 24. Every symptom is favorable to his recovery. The first bullet that entered the breast has been removed by the surgeons, but they are unable to locate the other which passed through the abdominal cavity.

Buffalo, Sept. 7.—At one o'clock this afternoon the President's condition was practically unchanged from last night. His pulse is 136, temperature 102, respiration 28. He suffers no pain except when breathing deeply and feels as well as could be expected under the circumstances. The doctors are encouraged and say that unless peritonitis develops in the next sixty hours they have no fear of his recovery. Senator Lodge called upon Mrs. McKinley this afternoon and reports that she bears up bravely under the tragedy.

WASHINGTON LETTER.

WASHINGTON, D. C., Sept. 9.

Notwithstanding the public sensation of weakness, the Sampson Schley controversy continues to foment that it shall be noticed. Forecasts, denials, speculations, report of progress and difference of opinion related to the dispute are forced into prominence with a regularity of weather predictions.

A day or two since it was announced that Sampson would remain in his New Hampshire retreat by his friends in Washington. It was declared that physical weakness would prevent his appearance before the naval court of inquiry.

Now an anonymous naval official of high standing declares that the father of the controversy insists upon facing the tribunal in order to substantiate his charges against Admiral Schley. While Sampson may be physically unfit to stand the siege of the Washington tribunal, there is no doubt as to the construction the people would place upon his absence. They were already recalling the fact that he was somewhere else when Schley reduced the Spanish fleet to junk and diting as a prospective parallel to his probable absence when the victor of Santiago battles for his reputation before his judges in the National Capital.

If Sampson is able to come to Washington, he should, by all means do so, for even the champions of Schley would not be contented with a verdict in his favor unless the accusing officer has given by word of mouth all his testimony in support of the serious charges against one of the heroes of the greatest of American naval engagements. Sampson's absence, unless there is incontrovertible proof of his invalidism, would be universally interpreted as meaning that he was afraid to face the fire of cross examiners who will do all in their power to vindicate Schley.

Secretary Hay's recent hurried trip to Canton proves that he has been due to the continued aggressiveness of Venezuela, promising a general disturbance among the South American nations. The result of Mr. Hay's conference with the President was a warning to Castoro, the Venezuelan executive, to the effect that an end of the imbroglio was highly desirable and would be appreciated by the United States, which is pledged to preserve the neutrality of the Isthmus of Panama. If Castro is as hot headed as he has been pictured and sufficiently wrought up

WE & THE WORK.

And that is the reason the old Greenville Warehouse is selling so much tobacco. We get the highest price for every pile sold on our floor. The farmers see this, and appreciating the hard work we do for them they bring us their tobacco. We treat all alike, get the best price every time. Bring your next load to the Greenville Warehouse and we will show you the truth of this. We have every accommodation for you and your team.

LOCAL REFLECTIONS.

Nearly all kinds of country produce is scarce and brings good prices.

There are now about twenty restaurants in operation here. It seems to be a thriving business.

Any business man wanting nice advertising calendars for next year should see the samples at REFLECTOR office.

Mrs. M. D. Higgs is now north selecting new millinery for fall and winter. She will have a beautiful line to show on her return.

The more you help home industries the more you help your town. Let everybody work together and you will see the town prosper.

Everybody coming in Clinton, Conn., was excited when the Kelseys, cooked the rooster for sometime, marvels at the rapid growth and progress of the town.

A number of our fellow citizens are following the Scriptural injunction of "working up against his own house." At least they are cleaning their own sidewalks.

NOTICE—My car mark for stock—swallow fork in right and slit in left—has been duly registered, and I hereby forbid all persons from using said mark.

First Sale. Mr. G. A. Evans today sold the first bale of new cotton for the season of 1901 in Greenville. The bale weighed 524 pounds and was purchased by Mr. B. W. Mosley, the price being 81 cents.

Jewish New Year. Friday evening, 13th, at 6 o'clock, will begin the Jewish New Year. The store of our townsman S. M. Schultz will be closed from 6 o'clock on that day until 6 o'clock Saturday evening, 14th.

LAWYERS IN CHARGE.
The Chicago Tribune estimates the average income of the attorneys of Chicago at \$750 a year. If this average income were evenly distributed it would be little enough, but when we consider that of the total amount to be divided, some lawyers take \$40,000 a year, some \$30,000, a still larger number \$20,000 the proportion of the average lawyer must be cut down to \$500 a year. This would earn him the steady workman and much less than an skilled mechanic would earn under ordinary circumstances. In both the legal and medical professions the sons of well-to-do parents constitute quite a large proportion of the poorer paid members of the legal fraternity. A fairly successful business man who society has overlooked is often willing to make sacrifice of money to place his son where opportunity can be seen without departing from his accustomed habits. A young lawyer with little practice, whose drafts upon the old gentleman will be honored to the extent of \$1,000 a year may make a fair social showing. A good many young men who scoff at society find their prejudice against it fade out in the light of its smiles. They would rather enter a profession that promises social advancement than an occupation which from its nature limits social aspiration to a large but well defined sphere. So young men will continue to become lawyers and doctors with the expectation of working twenty years or so for a bare livelihood. There is always room at the top and there are grades below at the top where the rewards of professional work are greater than general business averages.—San Francisco Bulletin.

OVER THE COUNTRY.
The wholesale and retail jewelers of Cincinnati are to have a float in the great industrial parade in that city on September 20, and have chosen Mrs. W. N. Cox, of Mason, O., to be "queen" of their display. She will wear gears valued at \$500,000.

George Reeves, of London, has started a fine art quarterly the subscription price of which is \$50 a number, or \$190 a year. It is called The Ideal.

Dainty people who have been said to have "only the appetite of a canary bird" will be shocked to learn that the average canary eats thirty-two times his own weight every month, or actually more than his weight every day.

The town of Shamway, Ill., has but one saloon, which pays a license of \$700 for the exclusive privilege of selling drinks. This money is used in building brick sidewalks. The town has no regular policemen, but each Alderman, the Mayor and the saloonkeeper have police powers. The only salaried official is the City Clerk, who gets \$18 a year.

John B. French, who has been City Clerk of Galena, Ill., for forty years, has just been re-elected. He is eighty years old. His father was City Clerk for four years before him, and died in office.

Atlanta, Ga., Nov. 18, 1900. We have handled Dr. Woodruff's Chill Tonic for over five years. Its introduction to the public and trade as a proprietary medicine and our trade in it has steadily increased from year to year until our orders now amount to two or three hundred gross per year, which is a very good evidence of the merit and satisfaction it is giving to the makers of the medicine. It is the only medicine which actually contracts the effects of the summer's hot sun or overexposure to the sun's rays. THE LAMAR & HASKIN DRUG CO. Wholesale Druggists.

The estimated value of all farm products of the United States for 1900 was \$3,000,000,000. Should the demand ever come, the South could sell at present prices cotton to the value of the products of the South to the extent of \$122,500,000, estimated, and it will approximate the value of nearly one-half of all the agricultural products of the United States. There is only 20 per cent. of the lands of the South improved. Concede that only 50 per cent. is susceptible of being improved, then the South could easily produce more than \$3,000,000,000 of agricultural products on 50 per cent. of its territory without employing any improved methods of cultivation or fertilization and employing ignorant labor.—Manufacturers Record.

A good story is being told about a gardener who was for many years in the service of a Missions. This gardener was not only wonderfully skilled in the art of cultivating flowers and vegetables, but he also was a true scientist, and, as he was endowed with a phenomenal memory, he was able to give off-hand the botanical name of any plant that was shown to him. Some of his employer's friends frequently tried to bewilder him by handing him seeds or cuttings of exotic or other out of the way plants, but they never succeeded.

Now, Missions was proud of him, but he vowed that he would, once at least, bewilder him, and one day, he summoned the gardener, and taking from his pocket a small paper package, in which he had previously placed some eggs of dried herring, he said to him: "Here are some curious seeds. Can you tell me what they are?" "Of course I can, sir," replied the gardener, and after examining them for a moment or two he gave them a most impressive Latin name.

"If you sow them now," asked the painter, how long will it take for them to appear above ground?" "A fortnight," was the reply. "Well," said Missions, "if you would sow them at once, for I am curious to see what kind of plant it is."

A fortnight later Emile Jucker, desiring to see the end of this joke, came to breakfast at the painter's villa, and he and his host were at table the gardener presented himself and said: "If you gentlemen will oblige me by stepping into the garden, I will show you the plants that those curious seeds have produced."

The two friends followed him to the conservatory, where he pointed out to them twelve odd looking objects in a box filled with freshly watered brown earth. They stepped to examine them more closely, and the next moment they burst into shouts of laughter, for the strange objects were the heads of twelve red herrings.—Raleigh Post.
