

EASTERN REFLECTOR

GREENVILLE, N. C.
D. J. WHITCHARD, Ed. & Owner

Entered at the Post Office at Greenville, N. C., as Second-Class Mail Matter.

TUESDAY, OCTOBER 29, 1901.

Now what have those opposed to Greenville's progress got to say about no water in case of fire?

Some of the papers are printing reports of the condition of the cotton crop and predicting that the price will get to 12 cents.

Financially the Pan-American Exposition at Buffalo has been a gigantic failure.

On Monday the Supreme Court affirmed the decision of Buncombe county Superior court, authorizing the Commissioners of that county to proceed with the sale of a bond issue which was authorized by the Legislature.

However, the school was so excellent and so badly needed that all felt satisfied, even if it had cost more than the income.

SCHOOL BUILDING BURNED.

The Old Masonic Lodge Entirely Destroyed.

About 10 o'clock Friday morning while Masonic Hall school was in progress, a colored woman passing the building saw fire on the roof.

As the summer advanced it was found that graded schools for Greenville were yet well in the future, and it appearing that the town would again be without a school for girls, the Masons decided to re-open the Masonic Hall School.

But now fire has robbed the Masons of their building, yet they and all other citizens do not want to see the school stop. But if the Masons have to rent a building for this purpose in addition to having to make good any other shortage that arises, it can be seen at once, that the Lodge will be bearing more than its share of the burden.

Now the way the matter appears to THE REFLECTOR—though we say this without the knowledge of the Masonic Lodge—is that the citizen of the town should interest themselves in the matter and at least provide the building in which to carry on the school.

The fire originated on the roof from the flue. The property was owned by Greenville Masonic Lodge and the loss is something above \$8000 with \$400 insurance in J. L. Sugg's agency.

On Monday the Supreme Court affirmed the decision of Buncombe county Superior court, authorizing the Commissioners of that county to proceed with the sale of a bond issue which was authorized by the Legislature.

WASHINGTON LETTER.

WASHINGTON, D. C., Oct. 28.

When President Roosevelt left Washington on Monday afternoon for New Haven he left behind him a sadly disgruntled politician in the person of Senator Platt of New York, who was nursing his wrath in his apartments at the Arlington Hotel.

Mr. Roosevelt did not actually commit himself, he went home with the impression that he was to have things pretty much his own way.

An alarm was sent down town, and as quickly as possible the fire department and citizens responded.

The nearest water was the small cistern on the premises occupied by Rev. J. N. Booth, near the Baptist church.

The fire originated on the roof from the flue. The property was owned by Greenville Masonic Lodge and the loss is something above \$8000 with \$400 insurance in J. L. Sugg's agency.

The destruction of the school building means a much more serious loss to the town than can be measured by its money value.

Perhaps the United States October is perhaps really the longest month in the year.

The Supreme Court of Iowa has fixed the cash value of a man's leg at \$8,000.

The American hog figures largely in our commerce.

Some men are so skeptical that they don't believe in chicken salad unless they see the feathers in it.

FOR HARNESS and Saddle Bone Masonic Mustang Liniment is just what you need. It takes out all corns, and you will be astonished to see how quickly it heals them.

It's this way:

You can burn yourself with Fire, with Powder, etc., or you can scald yourself with Steam or Hot Water, but there is only one proper way to cure a burn or scald and that is by using

Mexican Mustang Liniment.

It gives immediate relief. Get a piece of soft old linen cloth, saturate it with this liniment and bid loosely upon the wound.

It is called a STANDARD REMEDY by poultry breeders.

Mr. W. M. Bishop, of Weldon, an employe of the Seaboard Air Line, at Garysburg, Friday night met with a fatal accident.

He was in his kitchen superintending preparation for supper, and stooping to pick up something from under the stove accidentally turned over a frying pan of hot grease.

This hot grease struck her face and one arm, burning her very painfully. Her many friends are glad that this accident was not more serious.

There is a tomato vine now growing at the residence of J. S. Dunn, near the Pearl Mills, that is fifteen feet high.

On this vine are several branches from eight to ten feet long. The vine is still blooming and bearing, notwithstanding the fact that there have been several frosts this season.

It is remarkable.—Durham Sun.

Tomorrow closes the second year of Rev. D. W. Davis' pastorate of the Christian church here. He has been elected principal of the Fungo Academy and has moved his family to Fungo, but it is likely that he will continue to serve the Greenville church.

WILL CONTINUE THE SCHOOL.

The Old Eborn House Secured for That Purpose.

THE REFLECTOR is glad to give the good news to its readers today that notwithstanding the loss of their building by fire the Masons have decided to continue the Masonic Hall school for girls, and have secured the building better known as the old Eborn house, corner Greene and Second streets, for that purpose.

The Trustees of the school held a meeting Friday afternoon, and decided that the responsibility of continuing the school, under the circumstances, was greater than they should assume without the concurrence of the Lodge, and asked that the Worshipful Master call a special meeting to consider the matter.

The matter was discussed fully, when the Lodge ordered that the school be continued if the Trustees found it practical to do so.

The Trustees met again this morning and with the teachers looked at the only available places for carrying on the school, and decided to take the Eborn house. In this decision to continue the school the Masons should have the fullest support and co-operation of the citizens of the town.

A Happier Man Now. P. R. Summers, of the Durham Bottling works, is a much happier man today than he was at one time yesterday.

He had lost a roll of greenbacks amounting to \$140. He took the next train back to Guilford county on the hunt for the lost money.

Upon arrival there he found that a relative had picked it up, so he got it back without the loss of a cent. It was enough to make a person feel good.—Durham Sun
