How to Grow

Cotton for Profit.

mand a better price when you offer it on the market.

Two years ago I secureed a peck of seed, planted them on half an acre of la 4 and picked a bale of cotton that weighed 420 pounds, shipped this cotton through Mr. R. J. Cobb together with several other bales of good variety and this bale sold for three eights of a cent more per pound than the lot. The lint is far superior to any cotton sold on this market and the yield is far ahead of anything we have in this country. Numbers of the best farmers in the county saw my growing in the field and pronounced it as fine as they ever saw.

I am now offering these seed for sale at \$1.00 a bushel. Parties wanting any of the seed will please send me their order at once as I only have a limited quantity for sale.
