**New White Goods Welcome.**  
Color is eliminated from the card today. White goods first in store displays as they will be in your thoughts, we trust. Ten years ago—yes, four or five years, even—who would have dreamed of the beauty to be brought out in fabric art without a touch from rainbow tints? Pure white, but so varied have been the dreams of designers, so cleverly have loom wizards wrought, that there is hardly a limit to variety. White has only been thought of as a rivalant for summer's heat. The sheerest effects have been sought, but now however white fabrics—chevots madras and piques are brought out in rich style assortment. White has overstepped the limits of summer months and hereafter will be all the year round factor.

**WHITE PIQUES** in a large variety of the up to date styles and designs in Imported Piques that are worth your visit to inspect at 12, 15, 20 and 25c.

**WHITE LAWN** in Lace Striped and Hemmed Silked Pattern at 10, 12, 15, 18, 20, 25, 35, 40 and 50c. Such a line has never before been your pleasure to see in Greenville at the above price.

**WHITE LAMBS** in all of the newest designs and weaver dots, stripes and lace stripes, at 8, 10, 12, 15, 18, 20, 22, 25 and 30c.

**WHITE MADRAS** in Crepe Do Chine design with Satin stripes that will retain its luster after it is laundered at 30 and 35c.

As well be out of the World as out of Fashion.

Advertising in Prosperity.

There is no community in which scores of business men are not losing splendid opportunities by their lack of knowledge of the power of advertising. This is a tremendous time, and a certain amount of trade will find its way to nearly all establishments. To the courageous advertiser the volume of trade is greater, and by advertising freely at this time, when they can well afford it, they insure to themselves a profitable business when a duller time shall come—Philadelphia Record.

Like Daisies Before the Scythe, busy lives are destined in summer by the sun to fade. The attack of the daisy is sudden, its progress is sometimes very rapid. Mothers who have given their children the Pinkettes to take with water with a few drops of brandy added can tell how this treatment has checked the daisy and vomiting, and put the little patient out of danger. 25 and 50 cents.

## Oyster Outlook Appalling

The Elizabeth City Tar Heel says: "From the present outlook the oyster industry in North Carolina will be a matter of the past. Foreign dealers have carried oysters out of the State this winter in quantities which are appalling. Reliable men who know have made out that as many oysters have been carried from the State as have been opened in its borders. They testify the cutting law has in no wise been complied with. This is a serious matter and should command the immediate attention of the proper authorities. It is reliably reported the steamer Lilly has been absent from the grounds more than half the season. The place for the boat is in the sound, making a constant and careful patrol, and had the boat been employed there, there would be few, if any, of these depredations. Complaints with the proper authorities have been made and will be sent to the Governor in a few days and it is hoped the matter will receive the attention its importance demands."

## Cotton Statistics.

Washington, N. C., April 12.—The census bureau has issued a preliminary report on the cotton crop of 1901, in commercial bales gross weight, as returned by the cotton ginners, showing an aggregate crop of 9,952,982 bales. This is 543,166 bales less than the 1900 crop. The 1900 crop, expressed in 500 pound bales, was 10,13,027 or 367,121 less than the number of commercial bales, the gross average bale weight being 483 pounds. The office has not completed the compilation of the number of pounds and the computation of the average bale weight for the crop of 1901, but using 482 pounds, the following are the figures of the crop of 1901, together with those for 1900, respectively. In commercial bales by states and territories: Alabama, 1,162,739 and 1,061,678; Arkansas, 736,710 and 828,820; Florida, 57,198 and 55,698; Georgia 1,101,815 and 1,270,597; Indian Territory, 280,175 and 288,114; Kansas, 170 and 151; Kentucky, 149 and 133; Louisiana 858,661 and 1,071,922; Mississippi, 1,065,983; Missouri, 37,987 and 27,989; North Carolina, 454,354 and 509,431; Oklahoma, 149,415 and 116,875; South Carolina, 730,603 and 780,782; Tennessee, 209,186 and 227,601; Texas 2,590,704 and 2,277,691; Virginia, 3,339,506 and 11,883.

EASTERN REFLECTOR

GREENVILLE, N. C.
D. J. WHICHAIRD, Ed. & Owner
Entered at the Post Office at Greenville, N. C., as Second-Class Mail Matter.
FRIDAY, APRIL 18, 1902.

The Bayboro Sentinel is the name of a new paper started at Bayboro last week by W. T. Caho. It is small but makes a new beginning.

Only two weeks more in which to pay your poll tax if you want to vote in the next election. Have you attended to this? Do not wait too long.

American girls are placed at high value sometimes. A son of the King of Sweden has renounced his interest in the throne that he might marry a Baltimore girl. But as he was the sixth son he concluded it was safer to take "the bird in the hand" than wait for five brothers to get out of the way before he could take the throne.

There is much activity in railroad circles now. The Atlantic Coast Line recently acquired the Plant System and the Southern has acquired the Louisville & Nashville. And it is now rumored that all the above will soon pass under the control of the Southern. If such a deal is consummated it will leave only two railroads of consequence in the whole Southeastern section of the country—the Southern and the Seaboard Air Line.

The entire South deeply mourns the death of Gen. Wade Hampton, of South Carolina, which occurred at his home in Columbia on Friday morning, in his 84th year. He was a cavalry leader in the Confederate army, and after the war represented his State for several years in the United States Senate. He was the foremost man in his State, noble and incorruptible, and his memory will ever be revered. He was buried in Columbia Sunday with all the honors, both civil and military that could be paid him.

At the end of twenty years Henry Lucas, who belongs to what was some years ago the wealthiest family west of the Alleghenies, got away with \$2,000,000, and had \$10,000,000 of indebtedness wiped out in bankruptcy. He had no assets and is now working in Chicago for his bread and meat.—Wilmington Star.

The reason some other people don't do equally as bad as that is because they do not have altogether so much to get away with. They blow in all they have and stop only when there is no more to goon and none can be borrowed.

One thing that impressed us very much with Charleston, last week, was the antiquated appearance of the town. It is one of the oldest towns in the South, and in point of architecture seems never to have progressed very far. The streets are good, but most of the buildings are back numbers. Handsome business houses are very few in number. Still there is some attraction about the old style buildings, and it may be their quaintness in which the residents of the city take pride. There is the appearance of a large volume of business there, but more modern houses would better impress visitors.

Although gold in abundance is washed from the sands of the sea at Cape Nome, people in that region of Alaska are dying of starvation.

THE CHARLESTON EXPOSITION.

Big Time at Charleston—Greenville Well Represented—President Roosevelt and Governor Aycock Accorded High Honors—The Exposition a Fine Success.

About all the attendants from Greenville to the Charleston exposition having returned home, after having experienced a very delightful trip. There were more than fifty people to go from Greenville and other sections of Pitt county. The trip from this section of North Carolina is all the way to the Atlantic Coast Line, and this splendidly equipped road handled the immense crowds going over it last week as promptly and comfortably as could be expected in such a rush.

Of course the exposition is the centre of attraction at Charleston, but there are many points of interest in and about the city worth going to see, and a day or two can be spent pleasantly and profitably in visiting them. Old St. Michael's church, founded in 1683, is rich with historic reminiscence. St. Phillips church is almost as old. The market, the battery, public buildings, forts, Isle of palms, magnolia cemetery, magnolia gardens, are well worth the time taken to visit them.

The exposition itself is a revelation and has brought together a collection of exhibits that is superb. South Carolina, being the mover in this enterprise, was naturally in the lead in exhibits, having the largest building and most extensive display on the grounds. North Carolina comes next best and has an exhibit that does the State great credit. Many other States have good exhibits, as has also the United States government. The buildings and grounds are beautiful, and under the blaze of electric lights at night are a sea of brilliancy.

The midway is there in full force, affording no end of amusement. Last week was North Carolina week at the exposition, and the number of people there from this State was numbered all the way from 10,000 to 15,000. Governor Aycock was present with his full staff and accompanied by a provision regiment of 80 soldiers. Wednesday was President's day, when President Roosevelt and party attended the exposition. There was a magnificent parade in his honor and he was given a great ovation. Governor Aycock took a prominent part in the exercises of the day, and no man there made a more favorable impression than our Governor.

Today was the Governor of North Carolina's day when there was a parade in his honor. Gov. McSwain, of South Carolina, delivered an address of welcome which was responded to by Governor Aycock. There were also short addresses by members of the staff of both Governors and by officers of the exposition. The addresses of the South Carolinians showed the high regard for the visitors from their sister State, and also expressed appreciation of the part North Carolina had taken in making the exposition a success. The exposition will continue until the first of June, and with the low rates given by the railroads all who can should attend.

"All my people, black and white—God bless them." These were the last words of Gen. Wade Hampton, says those several only to the inner circle of his family. It was a great utterance. It breathes the spirit of forgiveness. The old soldier who delivered his people from the horrors of reconstruction had seen them turn against him in a time of political upheaval. And yet his last utterance on earth is a prayer for them and for his enemies, their leaders. Again, Gen. Hampton, as his fathers before him, had been a large slave holder. He had fought most conspicuously a great war that means the perpetual enslavement of the negroes. He had freed his State from their domination under the leadership of unscrupulous white aliens. And yet he includes them as he breathes that last benediction, and furnishes a beautiful proof that the white man of the South is the black man's best friend.—Charlotte Observer.

NEWSY HAPPENINGS AND BUSINESS NOTES.

WINTERVILLE, N. C., April 16. That candidates for political honors, in ye ante bellum days, were not lacking and did not hesitate to make their aspirations known before assembling of conventions, is verified from the fact that John D. Cox, Esq., handed us on Monday last an old parchment of date June 21st 1867, where one Green announced his readiness to serve his people to the best of his understanding and ability subject of course to the ratification of the convention then soon to assemble. This piece of parchment bears the imprint of age and is truly a relic of the old times and quite interesting in its way.

STATE NEWS.

Happenings in North Carolina.

Fayetteville is soon to have an other still mill. Counterfeit dimes and quarters are reported in circulation around Goldsboro. There were twenty North Carolina Confederate veterans in uniform at the funeral of Gen. Wade Hampton. The dwelling house of R. G. Hart, in Edgecombe county, was destroyed by fire Monday morning. Loss \$3,000 with \$1,500 insurance. A guard of the Forestry county road gang shot at two prisoners who were making a dash for liberty on Friday. One of the convicts was killed. D. C. Loughlin, of Henderson, a former circus rider, was run over while trying to board a moving train at Hamlet and both feet were cut off. A boy named John Pope, while leading a ride on a freight train between Lenoir and Salisbury, leaped his head out from the car and was struck by another car. He was killed instantly.

Starving On the Rio Grande. The verification of the reports of starvation and destitution among the people on the lower Rio Grande border has aroused the sympathy of those more fortunately situated in Texas and supplies of food are already being collected and will be forwarded to the stricken region as soon as the committee can be organized to take charge of the relief work. M. F. Mattison arrived here today from his ranch in Zapata county. He says: "It is undoubtedly true that there have been many deaths from weakness caused by hunger. While the condition of the people is bad enough in Zapata and Starr counties, it is much worse on the Mexico side of the Rio Grande. I made a trip to the towns of Mier and Guerro, Mexico, a few days ago, and the suffering which I witnessed was heart-rending. The country on the Mexican side of the river is much more populous than on the Texas side and the scarcity of food is thereby made much greater."

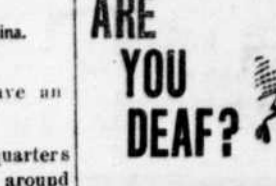

"I was informed by Jose Verdu, a merchant of Mier, that scores of children had died from lack of nourishment during the last few months. This merchant informed me that he and other business men of Guerrero and Mier had exhausted their private savings and means in giving relief to the needy, and that whatever help that is given in the future must come from the outside. There are probably 20,000 people on the Texas and Mexico sides of the Rio Grande in need of immediate aid. "So far as I know, the government authorities of Mexico have not been advised of the deplorable situation existing in that region."—Austin, Tex., Dispatch, 12th.

Georgia Peach Crops. The peach crop in Southwest Georgia does not seem to have been injured by the recent cold snap now by the heavy rains that preceded and have followed it. The trees in the orchards were quite uninjured and all the reports from that section are to the same effect. Unless fortune is most unkind the peach crop this year will be large and the fruit of good quality. The average man may look all right in a new suit of clothes, but it is a cheese sandwich to a bakery that he doesn't feel that way.—Chicago News.

How to Grow Cotton for Profit. Prepare your land well, manure well and plant a variety that will command a better price when you offer it on the market. Two years ago I secured a peck of seed, planted them on half an acre of land and picked a bale of cotton that weighed 420 pounds, shipped this cotton through Mr. B. J. Cobb together with several other bales of good variety and this bale sold for three eighths of a cent more per pound than the lot. The lot is far superior to any cotton sold on this market and the yield is far ahead of anything we have in this country. Numbers of the best farmers in the county saw my crop growing in the field and pronounced it as fine as they ever saw. I am now offering these seed for sale at \$1.00 a bushel. Parties wanting any of the seed will please send me their order at once as I only have a limited quantity for sale.

O. L. JOYNER, Greenville, N. C. A Southern Enterprise For The South. Sydner & Hudley, Richmond, Va. Nos. 709, 711 & 713 E. Broad St. In the south the idea has prevailed in the past that when in need of one must make an expensive trip North to purchase it—and then must pay the freight and the price to secure it. But Sydner & Hudley conceived the idea of a Strictly First-Class Home, carrying a big stock of Medium to the Highest Grades of Furniture, and equipped with LACE CURTAINS, UPHOLSTERY AND DRAPERIES departments, established in the South at a point where cheap rates could be obtained and a long journey cut half in two, and have established such a store. They today extend an invitation to the people of North Carolina and Virginia and near-by states to visit them in their STRICTLY ROBBEN ESTABLISHMENT. Stock is now complete to overflowing, many improvements have recently been made. All goods marked in plain figures. The LEADERS.

Captain of the Ship. It is not often that a lady rises to the command of one of Uncle Sam's war ships, but a Greenville young lady enjoyed that distinction for a short while last week. At Charleston our party visited the cruiser Cincinnati that was anchored in the harbor in honor of the President's trip to the city and exposition. While on board the captain and he turned over the ship to her command. She wore the "red tape" all right, but did not make the jacksies do any extra saluting. Luck is a good bit like light ning. It never strikes twice in the same place.

## A DEADLY DUEL

An unholy love and a sinful desire for vengeance caused the death of two near this place Saturday.

A Miss Harris, living with one of her brothers in law on Sheriff Knight's place between here and Old Sparta, became infatuated with a married man, Will Burroughs, of Pitt county, and he with her. They determined to elope and Burroughs came up Saturday morning for that purpose. He went out for the woman and the two endeavored to take the train for Norfolk at MacNair's Crossing, but were too late for it. From 3 o'clock till the fatal shooting, nearly 5, they must have been hiding or skulking about in the woods beyond W. L. Barlow's about a mile from town.

Her people became apprised of the intent of the guilty couple and came up here to ascertain if a warrant for their arrest could be issued. Will Harris, who was the spokesman, was told that no warrant could be issued, but was advised to take his sister and carry her home, this he said he would do. He was advised to use no force, to carry no weapons and to this he assented, but the advice was not acted upon, for shortly after 3 o'clock Harris, John Wade, (the late W. L. Barlow) and Dixie E. Harris, who were on road between MacNair's crossing and Thorne's store, Harris with a shot gun and Roberson with a pistol inquiring for a man and a woman. Later about 4 o'clock, or somewhat later the same men were seen near the corporate limits of the town on the Wilson road. Their conversation was overheard and indicated that they were hunting rabbits.

Soon after this the hunters had made their way to a cemetery far colored place, at the forks of the road near Barlow place. Here the shooting couple were found, and the shooting began. Roberson was shot through the abdomen, Burroughs dropped shot in the head. Both were brought here to the hospital, but succumbed to their wounds, the wounds were fatal and both died during the night.

Roberson made a statement before he died in which he said that Burroughs shot first and only once; that he then shot at him several times; that he had no other weapon; that he had no idea that Burroughs intended to shoot, that he was the first to fire.

Harris, as co-accuser, Sunday began inquest but did not complete it, adjourning over till Wednesday for additional evidence.

Dixon say he was with the party only to help them take the sister, but not to violate the law.

Harris, it is said has run away. When one of the wounded men were being brought to town in a cart John Wade stopped the vehicle and said it should not pass. He backed up his declarations by drawing a pistol. Finally he was persuaded to let the procession pass.

He was tried this morning by Judge Howard on two charges, assault and carrying concealed weapons. On the first charge judgment was suspended upon payment of costs.

On the other he was held in default of \$50 bond to answer at the next term of the Superior Court. Wade says at the time he was so much under the influence of liquor that he has no recollection at all of what he did. Those who arrested him say he was much intoxicated.

Things That Make the Housekeeper Groan. In discussing the subject of housekeeping and the cost of living in this city, a prominent hotel man said last night:

"Few people realize how tremendously the cost of living has advanced within the last three years. A very short while ago, we bought choice steak for ten cents per pound; today we pay fifteen. Hens sold for fifteen cents and but now are quickly taken at thirty-five and forty cents apiece. Butter is scarce at fifteen and twenty cents per pound. And all vegetables find ready sale at good prices."

The gentleman thus speaking was asked for his opinion as to the cause of the high prices and he replied:

"I do not know. Up North, they blame the high price of beef upon the trust, but in the face of the fact that everything else is correspondingly as high, it does not seem that those holding this complaint have exactly made out their case. There is one thing it ought to be, however, and it is this: That we have a great country down here, and we ought to produce those foodstuffs that will turn loose among our farmers so much money and such splendid profits."—Charlotte Observer.

### New White Goods Welcome.

Color is eliminated from the card today. White goods first in store displays as they will be in your thoughts, we trust. Ten years ago—yes, four or five years, even—would have dreamed of the beauty to be brought out in fabric art without a touch from rainbow tints? Pure white, but so varied have been the dreams of designers, so cleverly have loom wizards wrought, that there is hardly a limit to variety. White has only been thought of as a repellent for summer's heat. The sheerest effects have been sought, but now however white fabrics—cheviots madras and piques are brought out in rich style assortment. White has overstepped the limits of summer months and hereafter will be all the year round factor.
