THE SENTIMENT GROWING.

The almost unanimous vote by which the resolution declaring for the distribution of the public school money according to the taxes paid by the two races was adopted by the county convention Thursday, is significant, and shows how rapidly this sentiment is spreading. Many men are becoming outspoken in their disapproval of a law that will permit them to tax themselves for the education of their own children without having to pay an equal sum for the benefit of an inferior race that has so far, with here and there individual exceptions, proven unworthy and unappreciative of what the white people have done toward educating them.

If we could take as much interest in our fellowman all the time as when we want them to vote for us, how much better the world would be.

CONVENTION OF THE SANS SOUCL.

That joyful aggregation, the Sans Souci Club, still lives and moves and has its being, was most clearly evidenced last Thursday night when a social of "revery by night" was most delightfully and "the beauty and divinity" which gathered together at the home of Miss Winnie Skinner, according to section 3 of article 6 of the club's constitution, which provides that "semi-monthly, the club shall be entertained at the home of one of its members."

At nine sharp by the town hall clock, the curtain rose and discovered Miss Roskie Whelbee occupying the center of the stage in an all star cast, continuous performance, entitled "Punch, punch, punch with care—punch in the presence of the passengiere." The setting, though not elaborate was appropriate and consisted of a lantern slide and a simple set of scenery, filled by the band, and well supported by a silver balbe, and a choice chorus of small glances. Miss Whelbee performed her part with a grave and elegance born of talent and experience, and responded to many encores during the course of the evening.

Miss Skinner had also arranged many novel and delightful specialties for the further entertainment of her guests, the first being the presentation to each lady of a miniature fan, on the folds of which was inscribed the familiar words of a popular opera. "Then take a little walk with me." The little walk with "her", was taken by the gentleman whose name endorsed the lower fall, and although no moon shone to prove it, it is doubtless true that "soft eyes looked into the eyes which sparkled again," as the couple wandered over the beautiful lawn, which surrounds the home.

long, heavy speech. The convention endorsed T. N. Hill, of Halifax county, who has come out as an independent, for Chief Justice of the Supreme court, and made no nomination for Associate Justices. D. A. Long was nominated for Superintendent of Public Instruction and D. H. Abbott for Corporation Commissioner. The convention was bossed by Senator Prichard and what he said went. The platform adopted by the convention was made up largely of condemnation of the Democratic party.

The Governor of Massachusetts has at last honored the requisition of the Governor of North Carolina for the return of Monroe Rogers, a negro wanted in Durham for arson. Rogers was arrested in Massachusetts and several prominent negroes in that State petitioned the Governor of Massachusetts not to permit him to be returned to North Carolina, claiming that he could not get a fair trial and that there was danger of his being lynched. The case has attracted considerable attention, much unnecessary ado being made over it. Rogers will get a fair trial when he gets back to Durham, and nothing will be said about lynching him.

Half-Sick. I first used Ayer's Sarsaparilla in the fall of 1898. Since then I have taken it every spring as a blood-purifying and nerve-strengthening medicine.

If you feel run down, are easily tired, if your nerves are weak and your blood is thin, then begin to take the good old standard family medicine, Ayer's Sarsaparilla.
