HOMESPUN

"Trifles Light as Air."
A woman jumps at a man's conclusions.
"The proper study of mankind" is woman.
Cogentality is the balm for many a broken heart.
The almighty dollar "covers a multitude of sins."
Many a man has gone crooked because of a straight whiskey.
A man may be "down in the mouth" and still relish a "high ball."

A judge frequently charges the jury more than he expects to receive.
That "misery likes company" is evident from the devil's solitude over new acquaintances.
Old bachelors and mature maidens talk very intelligently on the proper training of children: every body else has given it up as a bad job.
Any adequate appreciation of what woman owes to art is impossible, so long as it may not be perceived where woman leaves off and art begins.

Some years ago a bold, bad man perpetrated this conundrum: "How is a saloon different from a woman?" and answered it by pointing out that a saloon usually shuts up at 12 o'clock. It is reported that the poor fellow died of a guilty conscience.
A dog, by some inadvertency, got his caudal appendage into familiar proximity with a twine string, to which a box of shot had become attached. As the casual observer watched the trio, through the dust of a beautiful landscape, and noted the half-surprised, half-aggravated countenance of the canine, and the large nests in the atmosphere, and—and—the disheveled summit of the high places, he was almost persuaded that "evil communications corrupt good manners."

Take Care of the Stomach.
The man or woman whose digestion is perfect and whose stomach performs every function in a perfect manner, enjoys good health and is the envy of all who suffer from indigestion, constipation, flatulency, and all the ills that attend a disordered stomach. It is the wonder-working restorative tonic that is making so many sick people well and weak people strong by conveying to the stomach and intestines the best food they eat. Rev. J. H. Holladay, of Holladay, Miss., writes: "Kodol has done for me what no other medicine could. I was suffering from indigestion, constipation, and all the ills that attend a disordered stomach. Kodol saved my life. Take it after meals. Jno. L. Wooten."

Mr. Jesse R. Foraker, postmaster at Pilot Mountain, died Sunday night after a lingering illness of several years. Some 21 years ago, while Mr. Foraker was working with a threshing machine, he sucked a rye beard down his windpipe. Two or three years later it came out through his breast, producing a running sore, and, after 21 years of suffering, thus at last caused his death.

Beware of the Knife.
No profession has advanced more rapidly in the last century than surgery, but it should not be used except where absolutely necessary. In cases of indigestion, constipation, flatulency, and all the ills that attend a disordered stomach, the use of a knife is not only unnecessary, but it is a waste of money. Kodol is the only medicine that is safe and reliable. It is the best food for the stomach and intestines. It is the best medicine for all the ills that attend a disordered stomach. It is the best medicine for all the ills that attend a disordered stomach.

Don't Treat Symptoms
Go after the cause. Stimulants and cathartics will never cure indigestion. They may temporarily relieve the system but the next meal clogs it again. The food should be digested. The nourishment—health—strength it contains should be appropriated—absorbed—into the system.

Children KODOL purifies, cleanses, strengthens and sweetens the stomach. This new discovery digests all classes of food and assists the stomach and digestive organs in assimilating and transforming it into the kind of nourishment that is taken up by the blood and fed to the tissues throughout the various organs of the body. Kodol cures indigestion and dyspepsia, thus removing the cause of all stomach troubles. Kodol gives such a tonic to the body that it is invaluable in all wasting diseases.

WASHINGTON LETTER.
WASHINGTON, D. C., Sept. 18. "The Trusts" is the text of a letter which Senator John T. Morgan of Alabama has recently made public and which is likely to attract considerable attention. The Senator, after stating in a lengthy addition to the Sherman law, is a graduated tax on all business corporations with an exemption, in whole or in part, as to such an establishment, to the satisfaction of the government, that they are not engaged in any agreements or combinations that are intended to control the prices, or the cost of transportation, of commodities that are of the descriptions that enter into domestic or foreign commerce.
"The power thus exercised is simply the taxing power and is not necessarily connected with the power of Congress to regulate commerce between the states or with foreign countries."
"It is the application of the principles of taxation which are well settled, to corporations which have been made agreements that violate the purposes for which they were created, to the injury of competitive trade and the general welfare."
The proposition of the learned Senator is simple and easy of application. No constitutional amendment would be required, and no change of the precious tariff schedules. If the President is earnest in his desire to control the perquisites trusts the scheme should be recommended to him, and to the members of his party as well. A simple revenue tax bill could be promptly enacted which would bear heavily on every corporation but from which exemption could be secured on proof that the corporation was not acting in violation of the spirit or the letter of the law or contrary to the interests of the people. The burden of proof would rest on the corporations and in their efforts to secure the public, so strongly advocated by the President, would be secured. The opportunity offered to the Fifty-seventh Congress, by Senator Morgan, to prove that it has the interests of the people rather than those of corporate wealth at heart, is exceptional.
President Roosevelt has just returned from his trip through the south where he joined the Brotherhood of Locomotive Firemen and spoke enthusiastically of his admiration for organized labor. There is little reason to believe, however, that the working man who has to pay \$10 a ton for his coal and 15 cents a pound for his meat will regard the President's action as entailing him or his party to the support of the laboring classes. The verbal statement that the President is his friend will do little to alleviate the suffering of the man who knows that, as a result of republican legislation, his family is cold and hungry.
Senator Jones of Arkansas passed through Washington this week and spoke enthusiastically of the prospects of the fall elections. He called attention to the fact that the passage of the McKinley law was followed by a tremendous rise in the high cost of living, and that this history will repeat itself. He said that all over the United States the high cost of living was proving a serious hardship to the poor man, and that the poor man knew that he was suffering that hardship as a result of republican policies. Under these circumstances he would naturally vote the democratic ticket. Senator Jones pronounced President Roosevelt a proposed constitutional amendment "mere buncombe" and stated that the President was well aware that the real cause of the trouble was the tariff and that no republican Congress would enact legislation which would reduce the tariff or correct the trust evil.

Our Raleigh Letter.
Special Correspondent of Reflectors.
RALEIGH, N. C., Sept. 15. The outlook for the new Masonic Temple, which it has been decided to erect in this city, is said to be exceedingly encouraging. The preparations for a great State Fair next month are going ahead with the most encouraging indications of a great success. Send for premium list, and whether you make an exhibit or not, be sure and put in your appearance at the Fair Week—October 27-31. Lawyer Lindsay Patterson, of Winston, against Lawyer W. W. Kitchin, of Boston, is the size of the fight for Congress that is to be made in the new Fifth District. Mr. Patterson having been selected by the Independent or "Bill Democrat" at the conference held at Greensboro last Thursday. The general expectation is that the Republicans will endorse Patterson. The Raleigh Christian Advocate has been enlarged to a 16-page newspaper, magazine form. Dr. Ivey, its able, devout and plucky editor, is making the "old Raleigh" one of the best religious papers of the South. The Republican convention of the Fourth (Raleigh) District has been called to meet in this city September 25th. At the annual meeting of the Appalachian Park Association, held at Asheville a few days ago, Mr. R. P. Hayes was elected to the Presidency and Dr. Ambler was elected Secretary and Treasurer. The Knoxville Chamber of Commerce will probably go to Asheville in a short time to have a meeting to boom the park bill. Representatives from towns in Tennessee, Georgia and North Carolina will be invited to attend. Col. Patterson, private secretary to Governor Aycock, has issued a statement to the effect that all applications for appointment as State Engineer, to succeed the lamented Joseph McLee, should be made to Superintendent of Public Instruction J. V. Joyner, who is ex officio Secretary of the State Board of Education, by whom Capt. McLee's successor will be chosen and to the Governor, who has no appointive power in this case. LEWINKAM. Justice Gray Dead. Lynn, Mass., Sept. 15th.—Justice Horace Gray, of the United States Supreme Court, retired, died at Nahant this morning of paralysis. He suffered the attack in February and never rallied to any great extent. He was seventy-four years old. He was recently succeeded on the supreme bench by Oliver Wendell Holmes of the state.

And a New Record for the Mile Dash

Circumstances which had been shaping the destiny of a humble citizen resulted Monday afternoon in the loss, by Hon. Larry Moore, of an energetic utility man, by the Chief of Police of a round of ammunition, and by the town, presumably, of one John Daniel, colored and foxy.

Mr. Moore had boded Johnnie's out of the lock-up, and had further contributed to his general well-being by directing him through a course of such physical exercise as was supposed to be needful to a man of his temperament and brown. Johnnie was duly appreciative, but his store of surplus energy was more than equal to these light calisthenics. He became a great walker. The bracing night air was agreeable. Those soles were in some demand, and John bethought him of an experiment. Why not substitute some of the surplus belting of factory town for shoe soles? Done! From Johnnie's standpoint, under the starlight skies, the experiment was a great success. He no longer envied Edison and Marconi. Great possibilities were leading themselves to his fertile imagination when, yesterday, "Bareka!" exclaimed the colored scientist, from the depths of Mr. Moore's kitchen sink. "So have I," said Capt. Smith, peeping mischievously over the window sill, at Johnnie's bobbing head. The Captain apparently persuaded John to accompany him down town, but, upon request, allowed him to return to the room for his coat. And then the white scientist's resources came into full and impressive play, which the crack of the Captain's fire arm seemed to stimulate, rather than depress. With at first the house between him and the Chief, and then rapidly increasing number of acres, he furnished the onlooker with an exhibition of speed that will go down in local chronicles as probably the best unprecipitated. Good by, John. If you are remaining today, you will be fortunate to have a pair of extra soles in your pocket tonight.

Explanation.

I am greatly disappointed at not receiving certain lines of my millinery and dress goods in time for the opening announced for 17th, 18th and 19th. These goods were shipped from New York Aug. 22nd, and by mistake went to Greenville, S. C. They were re-shipped from that point Sept. 8th, but as yet have not reached here. This statement is made so that my friends who attend the opening may know why certain goods are not on display. However, the opening will take place as advertised.

ANTI-SALOON LEAGUE.

Movement to Check Whiskey Traffic.

A meeting was held in the Methodist church, Sunday afternoon, looking to the organization of an Anti Saloon League in Greenville. The meeting did not have the attendance that such a movement merited, but those present showed an earnestness that means something. The meeting was presided over by Rev. H. M. Eure, and D. J. Whitchard was secretary.

Remarks were made by Revs. H. M. Eure and J. N. Booth, W. F. Harding, W. H. Ragsdale and F. C. Harding.

A motion was adopted to organize a league, and twenty-four names were enrolled as members. Permanent organization was deferred to a meeting to be held at 3 o'clock next Sunday afternoon, in the Methodist church, and a committee on permanent organization, consisting of W. H. Ragsdale, I. N. Booth, W. F. Harding, W. T. Lee and D. J. Whitchard, was appointed to report at that time.

A committee on program for the next meeting, consisting of F. C. Harding, G. E. Harris and C. M. Jones, was also appointed.

There are many people in Greenville who ought to be interested in this movement, and they should be present at the meeting next Sunday.

Folks don't get much happier here than C. B. Whitchard is now. There was a new girl at his house, and for some weeks he has been collecting cigar bands to get a go-cart for the little Miss. The requisite number of bands was secured, and the cart was received Monday. Several friends assisted him in collecting the bands and he wishes to thank them for their interest.

We honestly believe the A. G. Cox Mfg. Co.'s wagons have been heard of everywhere, even way down on the Gauges river and several other places, too, and they are taking, for they are constantly going and orders are coming in for more. Old man Tobe says "Dog take it, if Joe Blow don't quit advertising we'll make all the timber in Pitt county up into Tar Heel Wagons." Advertising tells and good things are bound to go.

Prof. Lineberry went to Bull Head Saturday and returned Sunday.

The Liberty Warehouse.
A full page advertisement in this issue has something to say about what the Liberty Warehouse is doing. It is the talk of both town and country that the Liberty sells more tobacco than any other concern in Eastern North Carolina. It took work to get such a reputation as this, and W. T. Lipcomb & Co. are noted for their hard work in the interest of the tobacco farmers. Go to the Liberty any sales day and you will see evidence of this.

The Liberty has a most courteous and efficient corps of helpers and they make you feel at home when you go there. All of them work to maintain the reputation of the house and keep it in the lead.

Making.

The matrimonial infelicities of Mrs. Henry Boyd, colored, gave policeman Dudley an opportunity to extend the strong arm of the law in her behalf Monday. Henry left for parts unknown before the arm could reach him. Should he be apprehended he will have to answer for very cruel treatment of his wife.

Farmers of Pitt and Surrounding Counties.
Let me have your attention a moment. I have purchased the

Planters Warehouse
and will have charge of it this season. I have been identified with the Greenville Tobacco market almost from its start, and am familiar with every detail of the Tobacco business. It is my purpose in conducting the

PLANTERS WAREHOUSE
to run it in the interest of those who sell their tobacco on my floor, knowing that the more I help the farmer the more I help myself.
No effort will be spared to make every pile sold at the PLANTERS bring the highest price.
Knowing the value of Tobacco, having ample capital to carry on the business, assisted by the best helpers that can be procured, I can make it to your interest to sell at the PLANTERS.
Plenty of room to take care of your team, and all the farmers who come to stay over night will find ample accommodations.
Bring me your tobacco if you want best prices.

"SHIRT SLEEVES" CHAFFEE
Famous Fighter, Who Has Been Ordered Home From Philippines.
Major General Adna R. Chaffee, now in command of the United States forces in the Philippines, who has just been ordered home by President Roosevelt, is known in the army as "the man in shirt sleeves." It earned this sobriquet in Cuba, at El Caney hill, where he divested himself of his uniform coat and fought in the trenches with the soldiers.
General Chaffee will leave Manila about Sept. 20 and will relieve General MacArthur of the command of the Department of the East, with headquarters at Governors Island, New York.
The majestic rise of Adna R. Chaffee from a private in the ranks of the American army to a major generalship has attracted the attention of the world. Before the outbreak of the Spanish war General Chaffee was a private soldier of the United States army in the Philippines, and he was the first private in the regular army to be elevated to such an exalted office. He will be succeeded in the Philippines by General Davies.

GENERAL ADNA R. CHAFFEE.
MacArthur of the command of the department of the east, with headquarters at Governors Island, New York.
The majestic rise of Adna R. Chaffee from a private in the ranks of the American army to a major generalship has attracted the attention of the world. Before the outbreak of the Spanish war General Chaffee was a private soldier of the United States army in the Philippines, and he was the first private in the regular army to be elevated to such an exalted office. He will be succeeded in the Philippines by General Davies.
Through his tact and bravery during the charge at El Caney and in the campaign in China, where he was also in command of the United States forces, his name has become pleasantly familiar to his countrymen.
After the China campaign General Chaffee succeeded General MacArthur in the command of the Philippine department. He then made a tour of the islands to study conditions and recommended changes in the civil government.
After the civil war general Chaffee from fame as an Indian fighter and was the idol of his men. One of his favorite commands when in a hot chase after Indians was "Follow me, men, and every man that's killed I'll make a copout."
ANGELO OF CRIPPLES.
Famous Kew-Forest helps London's Blind Children.
Mrs. Humphry Ward, Great Britain's most famous woman novelist, has just succeeded in inducing the London school board to undertake a new educational movement.
For some years Mrs. Ward has been engaged in philanthropic work, her especial charge being the crippled children of the English metropolis. She called the attention of the school board to the cruelty of compelling crippled children to mingle with the sturdy, sturdier children at school.
"Now, see here," rejoined the New York city congressman, "these clothes are mine, and I am wearing them."
The other representatives moved away at this sign of ill temper and talked of introducing a resolution to the effect that the millionaire's clothes disturbed the deliberations of the house.—Chicago News.

At a watering place in the Pyrenees the conversation at table turned upon a wonderful echo that he heard some distance off on the Franco Spanish frontier.
"It is astonishing," said an inhabitant of the Garonne. "As soon as you have spoken you hear distinctly the voice leap from rock to rock, from precipice to precipice, and as soon as it has passed the frontier the echo-sums the Spanish accent."—Pearson's Weekly.

An Odd Pair of Negroes.
An interesting sight on the streets yesterday was a wagon in which were two darkies from Gaston county. One of the negroes was totally blind and the other had both of his arms cut off at the elbows. The blind negro was driving the mule which was hitched to the wagon, while the handless negro would direct him how to pull the reins. They had a load of produce to sell. These two negroes live together and are well-known characters in Gaston. The sightless negro performs all kinds of manual labor while the one with no hands stands by his side to direct him. They are not related, but neither could get along without the other.—Charlotte Observer.
Won't Pay The Tax.

It is announced today that Judge Parnell and other Federal officials will appeal to the courts against the decision of the State Tax Commission in regard to the income tax. The Commission holds that if the Judge's interpretation of the word "diminuish" is good, then none of his creditors could touch his salary, nor could he spend it himself without violating the law.
The Attorney General of the State gives it as his opinion that Judge Parnell's salary cannot be taxed, and not a lawyer has yet been seen who has the faintest idea that the Judge can be made to pay this tax.
Senator Simmons did not at first list his income from salary, but made a note that it was exempt. He still thinks it is, but did not wish to continue to make the point, so he listed it.—Winston-Salem Journal, 8th.

They Were His Clothes.
Oliver Hazard Perry Belmont was the first representative to appear at the house with a new spring suit of clothes. It was a check wadded which Representative Dick said was lower than the speech which Rhea of Kentucky was delivering at the time. The members crowded about Mr. Belmont and offered congratulations on his quiet attire. He took their gibes good naturedly until one of them said:
"I believe that suit makes more noise than Belmont's red automobile when it is going down Pennsylvania avenue, and the automobile sounds like a machine gun in action."
"Now, see here," rejoined the New York city congressman, "these clothes are mine, and I am wearing them."
The other representatives moved away at this sign of ill temper and talked of introducing a resolution to the effect that the millionaire's clothes disturbed the deliberations of the house.—Chicago News.

A Glance at the Future.
Professor Collins, Pennsylvania's scientific agriculturist, some time ago was recommending to a Berks county farmer a powerfully fertilizing manure in which he was interested. After some discussion the spacious farmer declared that he had no faith in the manure, as the proposed quantity was too small to be of any use.
"My dear sir," said the professor, "such are the wonderful discoveries in science that I should not be surprised if in the near future we carry the manure for acres of land to the field in the pocket of our coat."
"That may be so," replied the farmer, "but in that case I'm inclined to think you would carry back the crop in the pocket of your vest."

Fire Last Night.

The handsome new residence of Mr. Gnilford Page, of Chicof township, was destroyed by fire about 12 o'clock Monday night. Not many particulars have been learned at this writing. One report says that a large part of the furniture was burned, and another that the furniture was saved. The loss is about \$2,000, with about \$800 insurance. The origin of the fire is attributed to a defective flue.
