Our Choice.

We want to see Thos. J. Jarvis nominated for Governor. We desire this first, because he has been tried in that capacity, and proved himself true and three months imprisonment in faithful to every duty which that office imposes. Never for once did he deviate from his conception of right. Never for once did he waver in the discharge of his official duties. Never for once did he yield to the dictations of cliques and rings and political bosses. Never for once did the interests of the Old North State suffer in his hands. His administration was one that defied criticism from his politcal foes, and commended the respect and admiration of his friends and the people of the whole State. In every sense he was a model Governor-one of the best in the history of the State.
