HARPER'S ASCENSION.

A REAL FOURTH OF JULY FAITHFULLY PORTRAYED. Harper Clelland is going up in the balloon on the fourth of July. The speaker was Lindley Custer, 14 years old. His only hearer was his sister Ada, who had the reputation of being the handsomest and proudest young lady in the town which upholds the self-satisfied and prosperous town of Lafayette. She received the news with an incredulous smile. The boy was well aware that his news was distasteful to his silent auditor. For that reason he was determined to compel belief. He had the proof of his tale in his pocket, and he intended to enjoy to the full the displaying of it presently. Didn't he know all about her overbearing pride, her love of the conventional things of life and her hatred of all that was original or peculiar? Had he not himself suffered because of her prejudices? When had he ever attempted anything outside the grim limits of the commonplace, that she had not rebuked him and made him feel small and ashamed? And didn't he know exactly why his news about Harper Clelland and the balloon was hateful to her? He was no fool, not he! Couldn't he see certain sentimental straws which had been flying around recently just how the wind was blowing? The indications were towards a matrimonial harbor for his sister and Harper Clelland, and he was no prophet. And wasn't it fun alive to see Ada wince at the prospect of the whole town seeing her sweet-heart go up in a balloon like a circus tent? Revenge for many a rebuke lay within his hand, or rather his pocket. "Don't believe it, sis, do you?" continued the boy sarcastically, his eyes gleaming with wicked delight, his mischievous little soul rejoicing over the "climber" he was about to draw forth. "Couldn't be true, of course. As Miss Custer's been, is too great a swell to make a clown of himself, isn't he? As Miss Custer's been, is too much dignity to sustain a dream of furnishing amusement for a fourth of July crowd. That's my opinion, no doubt, Miss Custer, but it isn't mine. Harper Clelland is neither a fool nor a coward. And he is rich enough and popular enough to do anything. I have thought at times that he was something of a fool to be so fond of you, for as sure as snakes you don't appreciate the stuff that's in that fellow. He's clear grit. He isn't afraid to slip all Lafayette in the face by doing something that rich men's sons wouldn't dare to do-no, not one in a thousand of 'em. I hate rich men's sons, if I am one myself. Nearly all the boys that have anything in them are poor, and blamed if I don't feel sort of insignificant when I'm with them. If it wasn't that mother would take it hard. I shouldn't care if Custer went sailing. Ungrateful, am I? Not a bit. I believe it would be good for all of us, you particularly. Perhaps you do, and then find out which one of your beaux was worth having. I'm no fool. I am an advanced thinker, if you please; I believe in lots of new notions. "You seem to have made remarkable progress," said Ada in icy tones. "That's neither here nor there," said the boy. "It is Harper Clelland that I am speaking of. He is going up in the balloon, sure enough. He has been here today and heard all about it. Contract's signed, and he's under training. Professional seerant here already. I saw the balloon, fanny that mother would take it hard. I shouldn't care if Custer went sailing. Ungrateful, am I? Not a bit. I believe it would be good for all of us, you particularly. Perhaps you do, and then find out which one of your beaux was worth having. I'm no fool. I am an advanced thinker, if you please; I believe in lots of new notions. "HERE'S THE WHOLE STORY IN THE RECORD." With an implied glass of pleasure in his eyes the boy drew a crisp copy of the city's most important journal from his pocket and read aloud the lines of a tremendous "horse head" which told in the boldest and blackest faced type in Lafayette that the young and handsome Harper Clelland would make an ascension from the court house yard on the fourth of July in the balloon "W. S. Larkel," named in honor of the editor of The Record, who, with Mr. Clelland, from motives of patriotism, will pay the expense of this, the city's first balloon ascension. Lindley read the blazing head lines in a voice that admitted of no further doubt on the part of his hearer. The record followed a column or more of double leaded paragraphs of the highly dramatic event, as it was to be, in the city of Lafayette. The rich and irrepressible Young Custer read every line of it aloud with diabolical joy, not unmixed with genuine admiration for the hero of the day. "Ada Custer heard it through in silence, but her face grew very hard and white, and her dark eyes blazed with wrath. Then with a contemptuous laugh, which gurgled away into a snarl of song, to prove her indifference, she went out of the room. But her young tormentor was not deceived. "It grinds her like everything," he said to himself, and the thought seemed to give him some extraordinary satisfaction so high and fine a thing is brotherly affection at 14. The whole town talked of young Clelland that evening. The rich and irrepressible and most popular young gentleman in the community-it was generally admitted that he could do almost anything not positively criminal with his hands-but he had chosen an ascension was a little too much for the "best people" to forgive. Lafayette was not acclimated to his taste. It rather leaned to the doggy, the yellow-bellied, the snoring, the English language, yet this word covered up the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are attended to in cases what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the liver which by its performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower, its cures are marvelous.

THE NATIONAL EMBLEM.

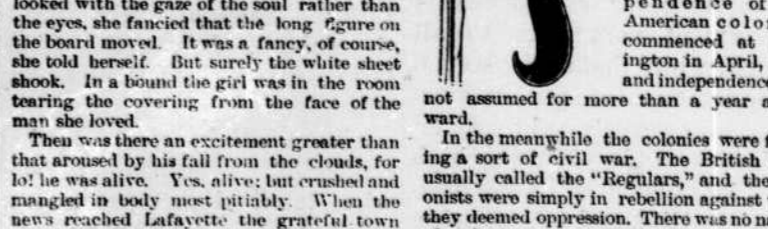

MORE THAN TWO YEARS OF WAR-FARE WITHOUT A FLAG.

THE struggle which resulted in the independence of the American colonies commenced at Lexington on April 19, 1775, and independence was not assumed for more than a year afterward. In the month of the colonies were fighting a sort of civil war. The British were usually called the "Regulars," and the Colonists were simply in rebellion against what they deemed tyrannical. There was no nation of colonies, consequently there was no national emblem. The Stars and Stripes which the Americans fought under afterward was unknown. A national emblem was not adopted till June, 1777. A glance at the prominent banners under which the "freeborn American forces" campaigned during the first two years of the Revolution will be found of interest at this anniversary of the birth of the nation. The first regular battle of the war was at the Battle of the Clouds. It is not likely that there were any colors carried by the few militiamen who were hastily gotten together at Concord and Lexington two months before. But after the skirmishes at these places each of the various towns and villages a common description of these flags were not preserved, and the information we have of them is very vague. The most definite information is to be found in the "Records" of the Continental Congress at Philadelphia. There is no satisfactory information as to the standard used by the Continental Army at the Battle of the Clouds, 1775. Indeed, it has never been proven that they had any standards, though one writer says, "they were as various as the

Two hours later Harper Clelland was leaving the door of the Court house. The handsome face of Miss Custer was white with wrath, as she bade him good night and good-by. A few paces from the steps he turned and looked at her as she stood on the balcony, her white dress gleaming through the green vines, her dark eyes burning with anger. His heart swelled with pain. He thought of her well; but she had told him to go away and come back again. The balloon was the enemy that had done this. Clelland emphatically anathematized it as he stood there, hoping, however, leaving it to it. "Nothing," she answered, with the quiet emphasis peculiar to heartless people. He walked away hurling mental invectives at the balloon, and curses, they say, rebounded from the walls of the Court house. The philosophy abroad now which holds that a curse, even an unspoken one, damages its object, but damages its utterer still more. Every other attention he gave to the balcony. Speeches, music, drums, a procession, the firing of cannon and, most of all, the balloon, were to make that particular day Harper Clelland's glorious and memorable. Patriotism was to be shown by the purity. Freedom was to shriek as much as it pleased. The eagle was to soar, and independence to renew its youth.

The boy was well aware that his news was distasteful to his silent auditor. For that reason he was determined to compel belief. He had the proof of his tale in his pocket, and he intended to enjoy to the full the displaying of it presently. The morning of the Fourth came at last, though the heat of the day was not yet felt. The citizens of the surrounding country chased the sun into the town. Young and old they came, determined to witness the grand and magnificent feat in their presence. At once the figure in the scene quiet in interior and exterior harmony with the others. Who so would not wish to avoid showing any astonishment at sight of the magnificent structures? Who had so much delicacy in all relations with others? Who so entirely withheld her sarcastic remarks from the unwelcome train of his name? The crowd was so dense that it was difficult to see the speaker. The man, all fringe and color, lay upon the ground at her feet. A magnificent stage picture, thought Clelland, the speaker. The man sprang to his feet with a noiseless, cat-like movement, and in very bad English asked Clelland to tell him the name of the best doctor in the town. He was a doctor, he said, where a train of gorgeous wagons containing the gypsy's people was slowly descending. Clelland was the order of the man who are at his heels, and he made every body else at a figure in their presence. The crowd was so dense that it was difficult to see the speaker. The man, all fringe and color, lay upon the ground at her feet. A magnificent stage picture, thought Clelland, the speaker. Congressional Convention.

The Convention of the Demo-
cratic party for the 1st Congres-
sional District will be held at
Elizabeth City N. C., on Thurs-
day, August 7th, at 4 p. m., for
the purpose of nominating a can-
didate for Congress and a Presi-
dential Elector for the 1st Dis-
trict.

The different County Execu-
tive Committees will please see
that the proper primaries and
county conventions are held for
the purpose of sending delegates
to said convention in accordance
with plans laid down by the
State Executive Committee.

Geo. H. Brown Jr.,
Chm'n Cong. Ex. Com.

It has just come to light why
all the Democratic Clubs are
given the name of "Young Men's
Democratic Club." The Dur-
ham Plant says "Young Demo-
crats" mean any and all Demo-
crats under the age of 99 years.

The town of Laurinburg suffered
disastrously from the effects
of a cyclone last Thursday. Some
houses were unroofed and much
damage was done to buildings
and fences. Two horses were
killed, though there was no
loss of human life.

We had just as soon see Har-
rison and Morton defeated as any-
body else the Republicans could
have put up. Some say they are
the strongest men the party
had others render a contrary
opinion, declaring them to be
the weakest men that the con-
vention could have named. Be
that as it may, the fight is on,
and let them be strong or weak,
no men could have been found
who could stand before two such
peerless leaders as Cleveland and
Thurman.

W. A. Potts, of Beaufort
county, the murderer of Paul
Lincke and about whom much
has lately been said in the pa-
pers, will expiate his crime upon
the gallows on the 13th of July.
On Saturday Governor Seales
declined to interfere in the case
leaving the sentence of the
Courts. The Governor acted
upon the report of a committee
of experts on insanity composed
of the Superintendents of Insane
Asylums of North Carolina.
They declare Potts to be sane.
There is great sympathy for the
family, but that could not inter-
fere with the course of the law
being taken.

Compare Them.

Two National Conventions
met during the past month.
These were the respective Con-
ventions of the two parties of the
United States. These Conven-
tions form and promulgate the
issues of the two parties' their
representatives. They put forth the
men who are to represent, and
execute these principles. Their
work has been completed and
therefore it is not improper,
even at this early date, to note a
few facts in reference to, and
probable results from these
meetings and their work which
appear prominent to the most
casual observer.

First, compare the marked dif-
ference between the make up of
the two Conventions. The Demo-
cratic which met at St. Louis
was conspicuous for its gentility
and patriotism, for its harmony
and readiness to act, and for its
interest in the people as a whole.
The other the Republican which
met at Chicago was profoundly
notorious for its rowdiness and
dearth of patriotism for its wrang-
ling and tardiness in doing any
thing, and for its total disregard
of the masses in deference to the
lordly few.

Secondly, note the difference
in the objects of the two Conven-

tions which were called for the
same purpose. Judging from
their action the sole object of the
first was to obey the people—in
nominating men who were ac-
ceptable to every State in the
Union. How well this was done
the names of Grover Cleveland
and Allen G. Thurman will tell.
By the same standard no one
can deny but that the grand ob-
ject of the second was to nomi-
nate a man who could carry one
doubtful State, totally regardless
of any qualification, and to fill
the second place with a man pos-
sessing what qualifications?—
only the ability and capacity to furnish
enough money to buy another State
and thereby elect the ticket. How
transcendently different these
evident objects in the minds of
true Americans.

The third apparent fact we
will only notice by asking you
to read the platform of each
Convention, noticing that if the
first is a perfect model of the rights
of the many against the interest
of the few, an honest recognition
of the rights of labor without de-
ference to capital, and a full and
free promulgation of those prin-
ciples which have ever made this
government paramount to all
others; while that of the second
is the most presumptuous ar-
rogance ever perpetrated on an in-
telligent people—favoring high
and higher tariff on all the nec-
essaries of life, and free luxuries,
together with an ever accumulat-
ing surplus, and an utter dis-
regard of the laborer in favor of
the capitalist. Read and see if
these are not solid facts.

The results of this work we
will sum up briefly. The first
will be certain apathy on the
part of Republicans and un-
bounded enthusiasm among
Democrats, resulting in the un-
doubted election of Cleveland
and Thurman.

Result second will be the lib-
eral, if not the entire support of
Independents for the Demo-
cratic ticket, as has already been
evidenced by the published views
of the most prominent among
them.

Third result will be the cer-
tain failure of the laboring clas-
ses to support the Republican
ticket, and instead their active
aid in Democratic triumph.

Fourth is the apparent loss of
the Pacific Slope to the Republi-
cans and in consequence an in-
creased majority for Cleveland
and Thurman.

Finally the triumphant suc-
cess of the Democratic ticket is
foreshadowed and in this an
honest approval of the work of
the first Convention and an out-
spoken and burning condemna-
tion of the entire acts from Alpha
to Omega of the self-styled solons
of the second. So let it be.

Half Gone.

As we sat musing alone in the
quiet of our room, a night or two
ago, the thought flashed across
our mind that the year was half
gone. Yes, the year 1888—ere
the resonant peals of the merry
bells that heralded its birth had
scarce spent their last echo in the
dim distance—has half passed
away. But yesterday it seems,
we stood upon the thresh-
old of a new year, looking for-
ward with joyous anticipations
to the pleasure and happiness
the days to come would bring
us; yet not forgetting to lift a
prayer for strength to enable us
to bear the burdens and sorrows
that should come in their share
of our days; and before it is
fully realized that we are in the
midst of the conflict, the days
have half gone. Gone—gone to
all save memory—and the recol-
lections of the past are all that re-
main of them.

And what of those recollec-
tions? We glance back but a
moment to see what the days
have been. Have all of them
been brightened by unalloyed
joy and happiness and prosper-
ity? No. Have all been clouded
by disappointments, griefs and
sorrows? Far from it. What
then? They have been just
such days as God, in His wis-
dom and mercy, has seen fit to
send. Yes, there have been
days of purest happiness, when
all the world seemed one glori-
ous realm of bliss. Again there
have been days of deep sorrow
and trial seeming to bear down
so heavily as to almost bring
despair. No doubt this is the
experience of all, as joy and sor-
row are closely allied. But in
looking back let us banish the
recollection of all that has been
painful and cheerish the mem-
ory of the bright and joyous days,
feeling that what of sorrow has
come was only to draw us to a

higher appreciation of the bless-
ings of love and happiness that
surrounded us, and to make us
feel more sensibly our depend-
ence upon God. So let us turn
from the past to the future, for
"the Golden Age is before, not
behind us." The flight of time
is too rapid to stand and dream
o'er the past. We pause to-day
with half of the year on either
side of us, and as we look back
and exclaim how rapid the past
has flown! we turn and look to
the joys days of the future and
almost cry out in impatience,
so far away! Yet if we are patient
and trustful there is naught to
fear. God has taken care of the
past. He will give grace and
strength for to-day, and will lead
us on safely to the future.

The Chairman of the State
Democratic Executive Commit-
tee is pursuing his work right.
Preparations are making for a
number of grand ratification
meetings to be held in some of
the leading towns of the State
during this month, as follows:

Wilmington, July 19th; New
Berne, July 11th; Goldsboro,
July 13th; Fayetteville, July
16th; Raleigh, July 18th;
Greensboro, July 20th; Char-
lotte, July 23rd; Asheville, July
25th.

These will be good old-time
jollification meetings attended
with torch light processions
speaking, etc. The people will
no doubt turn out in great num-
bers and the work the conven-
tions have done will be ratified
amid great enthusiasm. And we
hope none of the enthusiasm
aroused by these meetings will
be allowed to wane before the
election, as there is much hard
work necessary to insure success
to the Democracy, and the party
should be well organized.

Masonic History.

Editor Reflector:
DEAR SIR:—I have been request-
ed by several brother Masons, as
well as by friends, outside of the
Temple, to publish that part of
our Masonic address relating to the
historic Monuments of our Craft,
which was unavoidably omitted,
for lack of time. I herewith transmit
a copy of the same: Some of the ardent
admirers of Masonry, claim for it
an origin coeval with the world,
others find its origin in the religious
mysteries of the ancient world, and
particularly in a supposed branch
of those religious associations formed
by the Architects of Tyre, who un-
der the name of the Dyonysiac Frater-
nity constituted an association
of builders, exclusively engaged in
the construction of temples, and
other prominent edifices in Asia
Minor, and who were distinguished
by secret signs, and other modes
of recognition. Others are of the
opinion that it originated with the
Egyptians in the time of Joseph, and
that he employed its majestic cere-
monials in the erection of one of the
Pyramids, which opinion has some
corroboration in the fact that rude
Masonic emblems have been found
amid the ruins of some Egyptian ed-
ifices.

The best Masonic authorities,
however, concur in dating its origin,
as an association in the erection of
Solomon's Temple. After the com-
pletion of the Temple, great num-
bers of these Masons traveled into
different parts of the world, and
engaged in the erection of Temples
and edifices, of which we have ac-
count in History. In the 416th
year after the completion of the
Temple, Nebuchadnezzar, with a
powerful army, besieged Jerusalem,
and after a long contest, entered and
despoiled it, sparing not even the
Temple, but staid therefrom the holy
vessels, removed the famous pillars,
Jacin and Boaz, and carried away
thousands of inhabitants into cap-
tivity in Babylon.

Masonic Tradition informs us
that these captives contrived to
hold their secret lodge meetings,
and taught their children the mys-
teries of Masonry, and the religion
of their fathers. They were held in
bondage 52 years, when they were
liberated by Cyrus, and forty two
thousand of them returned to Jeru-
salem with shoutings and praise.
By them Masonry was carried into
Greece, Rome, Spain and other
countries.

In the 715th year before the
christian era, Masonry was estab-
lished in Rome under the auspices
of Numa Pompilius and was after-
wards protected and encouraged by
Julius Caesar.

In the year 290, A. D., Carausius
commander of the Roman fleet, took
possession of Britain, and declared
himself Emperor, and restored to
the Masons their ancient privileges,
of which they had been deprived,
from that time they have been called
Freemasons.

In the year 226 A. D., the city of
York in which were many lodges of
Free Masons was made the residence
of Chlorus, his successor, who per-
mitted Masonry to decline, and for
several centuries, very little is heard
of the order, but in 926, Athelstan
grandson of Alfred the Great caused
his son Edwin to be educated in the
mysteries and arts of Masonry and
appointed him Grand Master. Ed-
win summoned all the Masons to
meet him at York and to bring all
the old manuscripts and records.
There he reorganized the order,
hence the term "Ancient York Ma-
sons." For five or six centuries the
Grand Lodge at York exercised ju-
risdiction over England.

country begins. The ancient Scot-
ish system was introduced into
America by charter from Lord Aber-
dour in 1756, and the two were main-
tained, side by side, until 1792, when
both were united and left but one
Grand Lodge in each State.

It is stated by Banks, in an ex-
tract from the Free Mason Monitor,
printed in 1791, that on Oct. 2nd
1767, a dispensation, was granted
by the Grand Lodge in Boston to
the Right Worshipful Thomas
Cooper Master of Pitt county Lodge
in N. C., constituting him Deputy
G. M., of that province, and that
the first Grand Lodge established
under that authority was at Crown
Point in Pitt county in 1767.

The Grand Lodge of N. C., was
first established at New Bern in
1761 by virtue of a charter from the
Grand Lodge of Scotland in 1771.
The subsequent history of Masonry
in N. C., is easy traceable and needs
no comment from me to add to its
interest.

MR. EDITOR:—After acting as one
of the principle participants in the
great battle betwixt the forces of na-
ture, represented by bunnum grass

the forces of agriculture, represented
by Pete Carter, Esq., and a delectable
mule on the other side I have at last

ous and I could find time to write

In my opinion de most foolish
piece of business dat I have heard

Oak Grove Academy.

KEELSVILLE N. C. June 26th 1888.
Editor Reflector:
It was my pleasure to be at the
closing of Mr. C. H. James' School,
Oak Grove Academy, last Friday,
22nd, and I was highly entertained
as well as instructed.

The address by Mr. Harry W.
Stubbs of Williamston was a grand
effort. His subject "Southern Chiv-
alry" was one that awakens feeling
in every Southern heart and calls
forth the attention of every South-
ern mind. It was an able address
and much appreciated.
After the address which ended
about 4:30 o'clock P. M., Mr.
James entertained us by having sev-
eral of his pupils work examples in
partial payments. Prizes had been
offered for quickest time in working
them. Miss Millie Everett won
the first prize for working one in 14
minutes; Miss Bettie Congleton won
the second prize for working one in
14 minutes. I think this time hard
to beat in working partial payments.
He says he has a little girl 9 years
old who can work anything in com-
mon school arithmetic.

The concert began at about 8:30
o'clock and ended a few minutes be-
fore midnight. It was an entire
success and all were much entertain-
ed and amused.
Mr. James will commence teach-
ing again at Oak Grove Academy
Sept. 1st 1888. He says he intends
making it a military school. That
he will have a military department
for the boys and that the school will
be governed by military discipline.
He announced also that he would
have everything taught from the
common school branches to the pre-
paratory branches, including music
and has competent teachers engag-
ed for every department. Mr.
James is rapidly winning an envia-
ble reputation as a teacher. May
his success ever be as brilliant.

The Teachers' Assembly at Morehead closed last Friday and a number of the teachers are now enjoying an excursion North. Prof. John Duckett and Miss Mollie Moore, of Greenville, and Miss Maggie Smith, of Coxville, went with the excursion party.
Friend Joe Blow, now residing near Farmville, dropped in to see us for a few minutes on Saturday. He brought along a very peculiar hen's egg to show us. The shell of the egg was very rough, and on one end was a very good representation of a dog's head. He told us that the crop prospects around Farmville were splendid and that the farmers were happy. He also told us that Mr. C. L. Barret had been dangerously sick for a few days. We hope Mr. Barret has improved ere this.
Mr. C. F. Wilson, left Friday for Wilson, where he goes to take a position on the Advance. Claude worked three years on the REFLECTOR and is thoroughly acquainted with newspaper work. Energetic, industrious, studious, one who always performs his duty well and faithfully, we do not hesitate to say the Advance is fortunate in having secured him. He is an upright, moral young man, an earnest Christian, and will make numerous friends in his new home. We regret that Greenville has lost him and hope his stay from here will be short.
The membership of the Democratic Club here will reach one hundred by Saturday.
They went like hot cakes—those white beavers at the Racket Store. Over fifty of them were sold in two hours after they were opened.
No reports from Pitt county now appear in the Bulletin issued by the North Carolina Board of Health. Pitt county should be properly represented.
There were many changes in mail routes and carriers hereabouts to go into effect July 1st, and general disorganization in the mails may be expected for awhile.

J. M. NORFLEET, Sec.

Cotton Blossoms.
We received three other cotton blossoms by mail last week which were among the early ones but not quite early enough to be noticed in last paper. Mr. Andrew Joyner was out on Wednesday, one came from Martin Redding at Pactolus on Thursday, and one from Mr. B. H. Ives at Haurah on Wednesday.
Rain.
This section has had considerable rainfall during the past week. It began raining Wednesday and was more or less showery up to Sunday some of the downpours being very heavy. While the rain has been sufficient, we do not hear of its having been so heavy as to injure crops in any section.
Baldy Eart.
Mr. James Evans, living about two miles from town met with a serious and painful accident last Thursday. A horse which was being carried to water kicked him upon the chin, the force being so violent as to shatter the jaw bones on each side of his face and break out several of his jaw teeth, we are glad to know he is getting along as well as could be expected under such circumstances.
Dog Ordinances.
In printing the Town Ordinances on the fourth page of this issue an error was made by the omission of one in reference to dogs wearing collars. It should be number 38 and read: "All persons owning dogs in said town are required to procure collars for same from town tax collector. It is hereby declared unlawful for such dog or dogs to run at large in said town without wearing such collar. The owner of such dog shall pay for each and every offence a penalty of one dollar."
Shooting Affray.
A shooting affray occurred in Belvoir township last week, that presented a very serious aspect for a while. It was between two white men, J. W. Brewer and Joseph Warren. It seems that charges of them had been repeatedly brought against Warren by Brewer and when they came to meet on the day in question Warren told Brewer that if the charges were repeated he would kill him. Brewer repeated his words when Warren fired three shots at him from a pistol. Brewer had an old gun which he snapped at him (Warren) but it failed to discharge. Warren then said if the words were repeated he would shoot again. Brewer repeated his words and told Warren to shoot away and that when the pistol was empty his time would come. Warren fired two more shots and Brewer threw the gun at him. None of the shots took effect, one of them only slightly grazing Brewer's arm. Warren saved two of the balls in his pistol and went off without shooting more.
Farmers Institute.
The Farmers' Institute met at the Court House at 11 A. M. on Monday. Pres. J. J. Laughinghouse in the chair. The Secretary being absent, Allen Warren was appointed Sec. pro tem. The minutes of last meeting were read and approved. On motion an executive committee of three was appointed consisting of John King, R. R. Cotton and E. S. Dixon. Subjects to be discussed at the next meeting: 1st Does Farming pay, if not, why not? 2nd, What will you do on the farm during the month of August? 3rd, Speakers were made by the President, R. R. Cotton, Dr. C. J. O'Hagan, Willis R. Williams and others.
There being no further business the meeting adjourned to meet the first Monday in August at 10:30 A. M. J. J. LAUGHINGHOUSE, Pres. Allen Warren, Sec. pro tem.
This is the third meeting that the Farmers' Institute of Pitt County has held and there is more and more interest manifested at each meeting. About twenty names of the best farmers of the county were added to the list at this meeting. The subject of the meeting was the Executive Committee for discussion at the next meeting are subjects of great importance to the farmers of the county and we hope every farmer of the county will be present. We are satisfied that Farmer's Institute and Experimental Farm of Pitt county will be a success and will probably be of more real value to the farmers than any institute yet organized. The hard work of the summer will be over by the next meeting and you will need rest. Come to Greenville and rest with the farmers of the Institute.

New Advertisements
Don't fail to read the advertisement of Greenville Institute.
See notice of special meeting of the Board of County Commissioners to hear complaints of excessive valuation of property.
E. G. Cox, Dunn, N. C., is agent for the best engines, gins, saw mills, &c., and solicits the patronage of his friends in Pitt and adjoining counties. See advertisement in this paper.
You will miss a big part of the 4th of July if you fail to read M. R. Lang's large new advertisement in this paper. The advertisement speaks for itself and the best plan is to read it and then go to his store.
Nags' Head has many lovers in Greenville and vicinity and they will be glad to know of the great improvements that have been made there for this season. The hotel enlarged, refurnished throughout, making it one of the best on the coast. Fine music, excellent bathing, splendid fare all to be had there at small cost. Mr. Jacobs leaves nothing undone to make his place comfortable and attractive. See advertisement.
The catalogue of Bingham School is received. We note that the 219 pupils in attendance represent 14 States of the Union, while two are sons of Army Officers, and two are from England. A circular giving the impression made by the School on Lieut. Batchelor and Capt. Wygant, both detailed from U. S. Army as Tactical Officers, is well worth the attention of parents. We note that the Superintendent has abandoned attending the State Fair even, as being more hurtful than healthful. Artillery Drill is added to the Military Instruction, a feature possessed by no other Preparatory School in the South. We are glad to see a North Carolina enterprise so progressive and so successful. See advertisement.
DIED.
Though her death had been expected for weeks, the people of the entire community were saddened on Sunday afternoon, the 1st inst., to learn that the soul of Mrs. Mary R. James had left its earthly abode and gone to the presence of the service whom she had loved and faithfully served in this life. She was a daughter of Mr. Godfrey Langley, who lived near Pactolus, and was born February 11th, 1834. On the 2nd of January, 1855, she was married to Dr. John G. James, and survived him but a few months. At the age of 18 she joined the Missionary Baptist Church at Pactolus, but the church there soon going down her membership was moved to Greenville. There was no woman among us who was more loved than Mrs. James. She was a devoted and devout Christian. She loved her church and delighted in the service of her Heavenly Father. Her life was filled with acts of charity and kindness and none near her were left to suffer when she could alleviate their wants. Many were the blessings called down upon her by the poor because of benefits received at her hands. Truly her memory is blessed. Her remains were interred Monday morning by the side of her husband in Cherry Hill Cemetery, the funeral services being conducted by Rev. J. W. Wildman. The pall bearers were Messrs. W. M. King, J. B. Cherry, A. M. Moore, I. A. Sugg, E. C. Glenn and J. H. Tucker. Our sympathies are extended to the children and relatives of deceased.
